CORE PROPOSITION AND BRIEF RESPONSE

The public foundation works first; innovation can then flow, last, and enter daily life.

BOARD 1 / 04

F-01 · SITE OVERVIEW

Three Scales and Brief Response | One Integrated Innovation Structure

Three nested design depths; one Public-life Base organizes positions, functions, zones and wings.

THREE NESTED SCOPES + THREE DESIGN DEPTHS

FORMAL BRIEF | COORDINATED STUDY

43.6km²

Regional actors, resou
Contains overall desig

FORMAL BRIEF | OVERALL DESIGN

11.4km²

Public-life Base, networks, areas and wings
Contains the three key areas

FORMAL BRIEF | THREE KEY AREAS

368.4ha

Detailed design

- Zhongzhiyuan AI Autonomous Innovation Accelerator — BREAKTHROUGH · 192.1ha
- Beijing AI Origin Community — START · 104.3ha
- Dazhongsi AI Industry Cluster — INTO CITY · 72.0ha

Low-contrast provisional extents only | exact polygons to verify

FLOW ACROSS BOUNDARIES · GROW FOR THE LONG TERM · ENTER DAILY LIFE

RESEARCH | cross-boundary evidence and actors
OVERALL | Public-life Base and system structure
DETAILED | three spatial prototypes and interfaces

Not a new road project; provisional boundaries are not statutory redlines.

CLIENT BRIEF RESPONSE INDEX

THREE POSITIONS | EQUAL VALUE GOALS

- Centennial Jing-Zhang Cultural Belt
- Urban AI Life Experience Belt
- AI Integrated Innovation Belt

FIVE FUNCTIONS | WORKING TOGETHER

- Full-stack Autonomous AI Innovation System
- World-class AI Innovation Ecosystem
- New Paradigm for AI-enabled Real-world Scenarios
- AI-active and Intelligent City
- Global Leadership in AI Governance

THREE AREAS + TWO WINGS | BOTH WINGS LINK ALL AREAS

CONTINUOUS PUBLIC-LIFE BASE

- Zhongzhiyuan AI Innovation Accelerator — BREAKTHROUGH · 192.1ha
- Beijing AI Origin Community — START · 104.3ha
- Dazhongsi AI Industry Cluster — INTO THE CITY · 72.0ha

Zhongguancun Technology Service Wing
Xiaoyue River Scenario Empowerment Wing

FIVE CONDITIONS | WORKING TOGETHER, NOT FIVE PHASES

Public-life Base · Connection Networks · Critical Interfaces · Access and Rights Protocol · Long-term Operation

FORMAL · DESIGN PROPOSAL · TO VERIFY

Area values come from the brief; provisional geometry and conceptual modules are not statutory boundaries, land use or engineering alignments.

D-01 · CLIENT BRIEF RESPONSE

Client Brief Response | One Integrated Urban Innovation System

A public-life foundation enables innovation resources to move across boundaries.

FORMAL BRIEF | THREE PARALLEL VALUE POSITIONS

- CENTENNIAL JING-ZHANG CULTURAL BELT — CULTURE · HERITAGE · CONTINUITY
- URBAN AI LIFE EXPERIENCE BELT — EVERYDAY LIFE · VOLUNTARY EXPERIENCE
- AI INTEGRATED INNOVATION BELT — RESEARCH · INDUSTRY · CITY

DESIGN PROPOSAL
JING-ZHANG:
A NEW PATH FOR INNOVATION

- FLOW ACROSS BOUNDARIES — Across institutions and areas
- GROW FOR THE LONG TERM — Reusable capability and partnership
- ENTER DAILY LIFE — Better life with protected choice

FORMAL BRIEF | FIVE EQUAL FUNCTIONS

- Full-stack Autonomous AI Innovation System
- World-class AI Innovation Ecosystem
- New Paradigm for AI-enabled Real-world Scenarios
- AI-active and Intelligent City
- Global Leadership in AI Governance

FORMAL BRIEF | THREE ZONES + TWO WINGS DESIGN | EQUAL, MULTIDIRECTIONAL NODES

CONTINUOUS PUBLIC BASE | RELATIONAL, NOT GEOGRAPHIC SCALE

Zhongguancun Technology Service Wing
Find solutions

Zhongzhiyuan AI Autonomous Innovation Accelerator · BREAKTHROUGH

Beijing AI Origin Community
START

Dazhongsi AI Industry Cluster
INTO THE CITY

Xiaoyue River Scenario Empowerment Wing
Find real problems

Three Scales and Design Depth

Nested by scope; diagram is not area-proportional

FORMAL BRIEF | COORDINATED STUDY

43.6km²

Regional actors and resources
Global connections

FORMAL BRIEF | OVERALL DESIGN

11.4km²

Public-life Base and networks
Three areas and two wings

FORMAL BRIEF | THREE KEY AREAS

368.4ha

Detailed design scope

Exact polygons to verify

SCOPE VALUES + HIERARCHY | FORMAL BRIEF

FIVE CONDITIONS | WORKING TOGETHER, NOT FIVE PHASES

Public-life Base · Connection Networks · Critical Interfaces · Access and Rights Protocol · Long-term Operation

FORMAL · DESIGN PROPOSAL · TO VERIFY

Provisional geometry is not a statutory boundary. Concepts require planning, ownership, infrastructure and engineering development.

AI-ASSISTED CONCEPT | NOT A SITE PHOTO, EVIDENCE, OR STATUTORY PLAN; NOT AN EXACT PARCEL, BUILDING, OR DELIVERY SCHEME.

INNOVATION ECOSYSTEM AND OVERALL SPACE

Eight resources, four accountable roles, three networks, and conditional renewal organise all areas and wings.

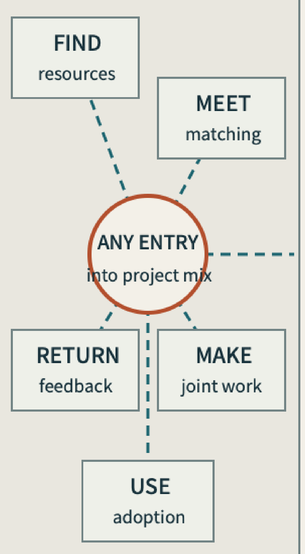
D-02 · AI INNOVATION ECOSYSTEM

World-class AI Ecosystem | Resources Become Responsible Projects

Real problems, capabilities, teams, scenarios, markets and governance recombine repeatedly.

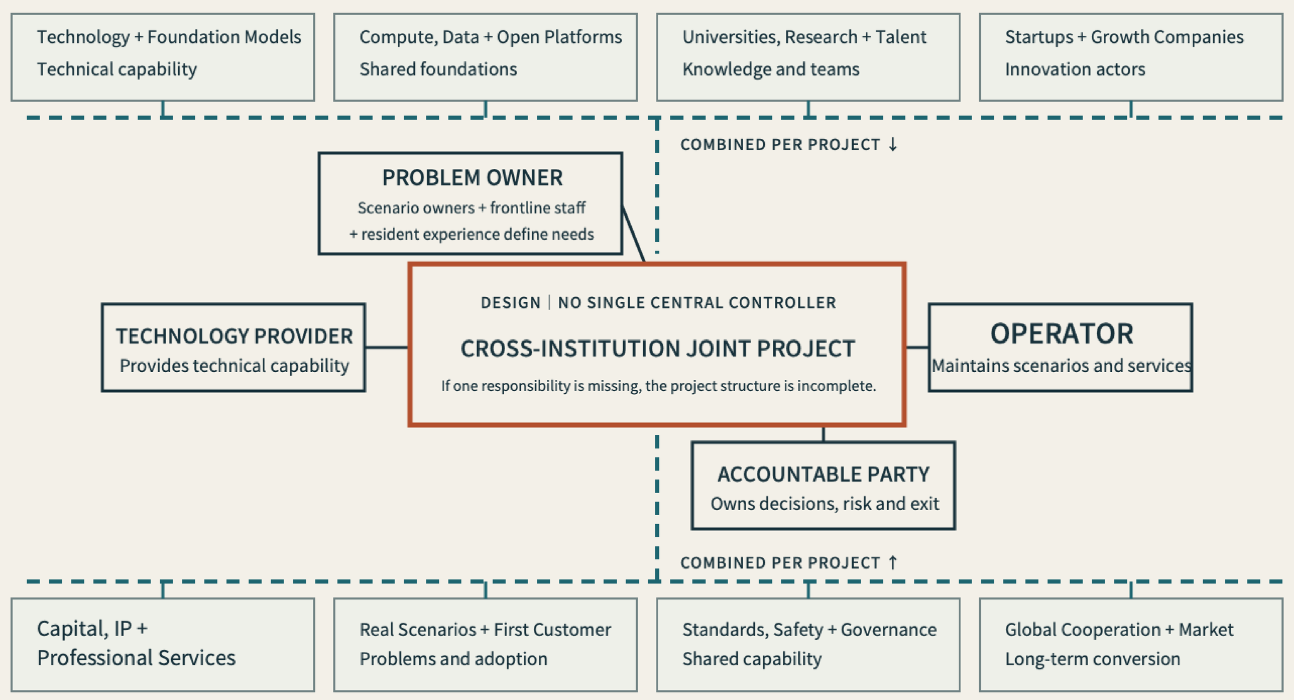
Five Equal Entries

ANY INTERFACE CAN START A PROJECT



DESIGN | PARALLEL SERVICES, NOT PHASES

EIGHT RESOURCE GROUPS | COMBINED TO FIT EACH PROJECT



Capabilities of the Zones and Wings

Capability index, not geographic order

- Zhongzhiyuan AI Autonomous Innovation Accelerator
  Full-stack R&D, platforms, standards, safety
- Beijing AI Origin Community
  Original innovation, open source, startups, talent
- Dazhongsi AI Industry Cluster
  First Customers, market and global conversion
- Zhongguancun Technology Service Wing
  Methods and services
- Xiaoyue River Scenario Empowerment Wing
  Problems and feedback

FORMAL ROLES | Operators and access conditions require verification

OPERATING LOOP | NOT THE GEOGRAPHIC ORDER OF THE THREE ZONES

Real Problem — Joint Project — Build Capability — Enter Use — Reuse Feedback

FORMAL — DESIGN PROPOSAL — TO VERIFY

Conceptual ecosystem relationships do not imply fixed institutions. Responsibilities, data, procurement and test conditions require verification.

F-02 · LAND-USE STRUCTURE

Spatial and Urban-renewal Structure | Services First, Space Adapts Over Time

One Public-life Base carries four functions; three connection networks organize a renewable multi-area system.

FOUR CONCEPTUAL FUNCTIONS

Segment / interface / node meanings; not statutory land parcels

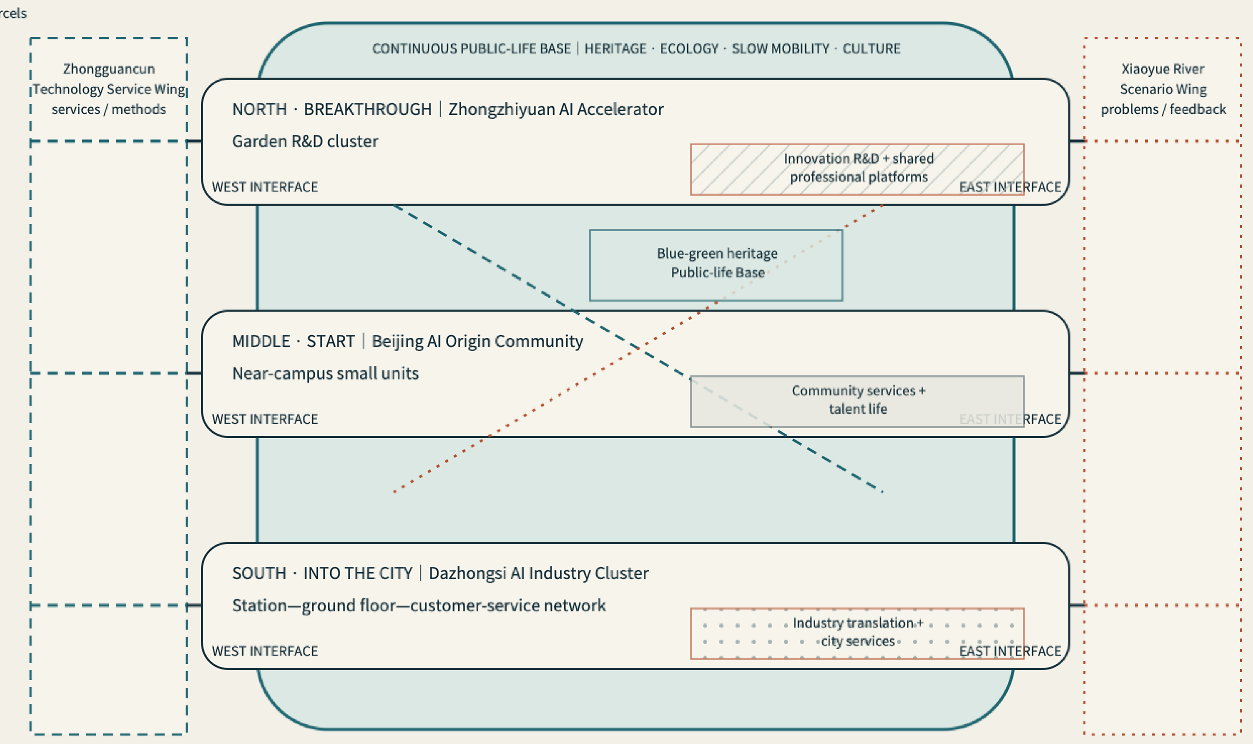
- 01 Innovation R&D + shared professional platforms
  Recalculate with official parcels
- 02 Blue-green heritage Public-life Base
  Recalculate with official parcels
- 03 Industry translation + city services
  Recalculate with official parcels
- 04 Community services + talent life
  Recalculate with official parcels

THREE CONNECTION NETWORKS

- Physical | movement
- Discovery | information + services
- Project | collaboration

The latter two are not roads

ENLARGED SPATIAL STRUCTURE | AREAS + EAST–WEST INTERFACES



FOUR FUNCTIONS EMBEDDED AS SEGMENTS / INTERFACES / NODES | NOT STATUTORY LAND PARCELS

CONDITIONAL RENEWAL · NOT ONE-OFF

- RETAIN | confirm value and safety
- REPAIR | low-impact return to use
- ADAPT | fit services to space
- REVERSIBLE ADDITION | removable + maintainable
- CONDITIONAL RENEWAL | decide after evidence

IMPLEMENTATION LOGIC | NOT A GOVERNMENT SCHEDULE

SERVICES FIRST — SPACE ADAPTATION — PROFESSIONAL CAPACITY — LONG-TERM RENEWAL

GENERAL CODES CARRY
design meaning + rights
not statutory classes

OFFICIAL DATA ARRIVE
parcels + controls
recalculate full layer

FORMAL — DESIGN PROPOSAL — TO VERIFY

Area values come from the brief; provisional geometry and conceptual modules are not statutory boundaries, land use or engineering alignments.

F-04 · MOBILITY–BLUEGREEN

Mobility, Blue-green and Public-service Base | Ordinary Life First

Fast, slow and discovery connections have distinct roles; professional logistics and digital systems remain bounded.

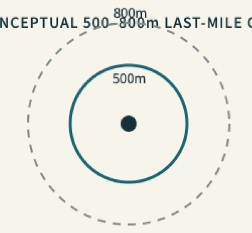
THREE CONNECTION TYPES

FAST CONNECTION
Transit interchange + professional equipment access
Official stations, flows and alignments pending

SLOW CONNECTION
Continuous accessible spine + east-west seams
Shade, rest, stormwater and non-commercial stay

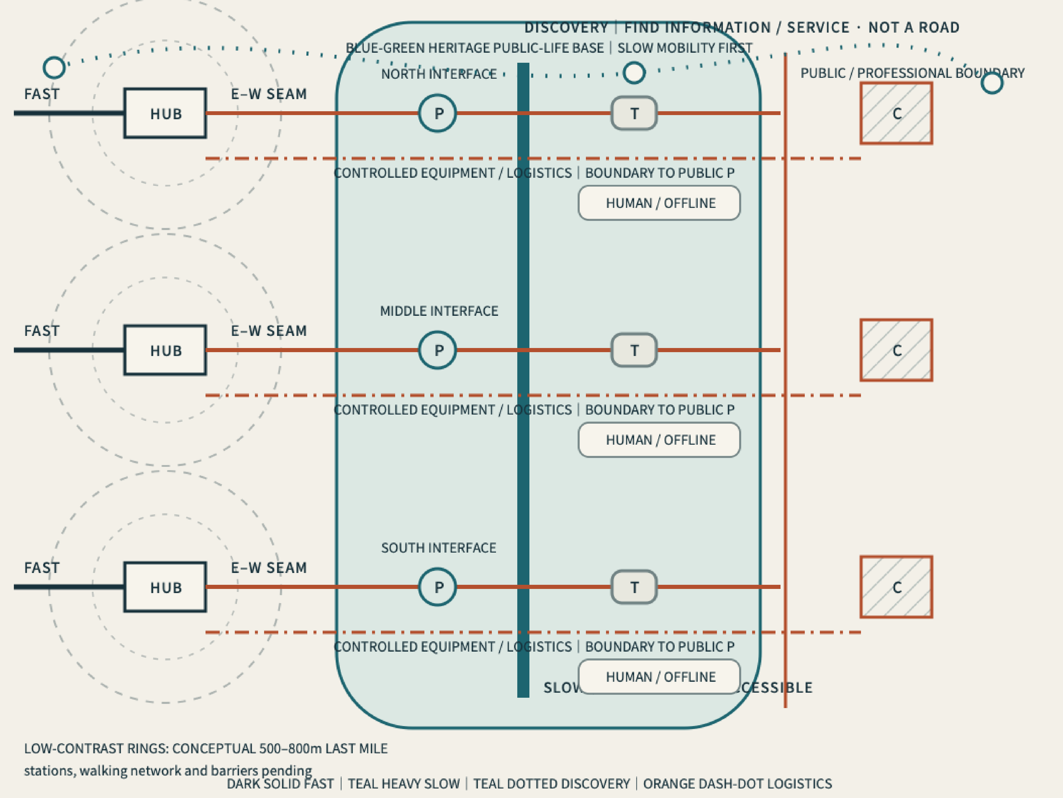
DISCOVERY CONNECTION
FIND information + service interface
Not a road and not a physical alignment

CONCEPTUAL 500–800m LAST-MILE CATCHMENT



station location, walking network and barriers pending

COMPOSITE NETWORK | CONNECTIONS + INTERFACES + BOUNDARIES



ORDINARY LIFE FIRST · CONTROLLED SYSTEMS

P — Public P | usable without devices
shade · stormwater · habitat · rest
heritage interpretation · accessibility · non-commercial stay

T — Transitional T | booked, informed, optional

C — Controlled C | equipment + logistics
bounded from ordinary public space

NEW INFRASTRUCTURE: MINIMAL, MAINTAINABLE, DEGRADABLE

- minimum necessary sensing + edge processing
- explicit retention period + accountable operator
- Human Takeover + Low-tech Alternative
- Offline Fallback keeps basic service running

OFFICIAL DATA TO VERIFY

transit · road redlines · green lines · heritage
utilities · fire · engineering + maintenance conditions

FORMAL — DESIGN PROPOSAL — TO VERIFY

Area values come from the brief; provisional geometry and conceptual modules are not statutory boundaries, land use or engineering alignments.

THREE KEY AREAS, PERSONAS, AND SCENARIOS

Breakthrough, Start, and Enter the City are equal prototypes with legible public, transitional, and controlled boundaries.

F-03 · KEY AREAS

Three Key Areas | Distinct Prototypes, Multi-directional Collaboration

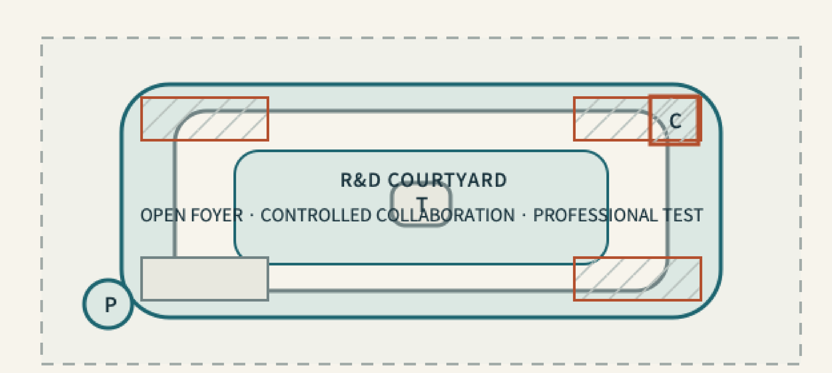
Different areas, equal design weight: north, middle and south use distinct spatial languages.

01 BREAKTHROUGH · 192.1ha

Zhongzhiyuan AI Autonomous Innovation Accelerator

Garden R&D cluster

Open foyer—controlled collaboration—professional test
Shared platforms · repair logistics · standards + safety



DASHED: provisional key-area polygon | P/T/C: conceptual prototypes

ACCESS GRADIENT WITHIN THE SAME AREA

P | PUBLIC BASE — T | BOOKED — C | CONTROLLED

NEAR-TERM PROJECT GRABS

- Open foyer first
- Booking protocol for shared platforms
- Repair-logistics + safety check

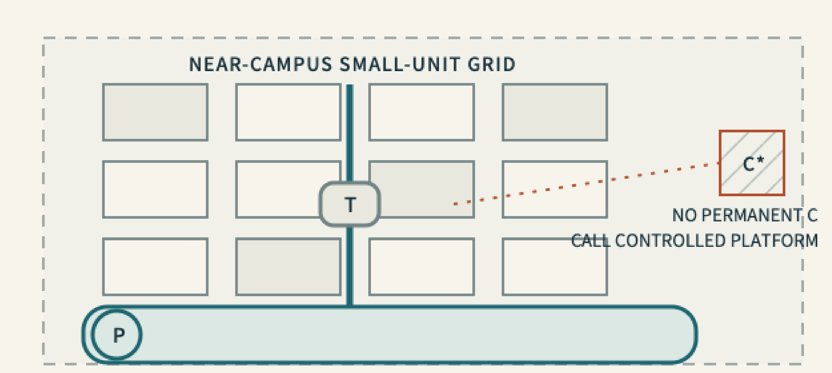
PROFESSIONAL CHECK | structure / fire / logistics / standards

02 START · 104.3ha

Beijing AI Origin Community

Near-campus small units

Resource gateway—joint work—adaptable ground floor
Low-barrier startups · talent + community support



DASHED: provisional key-area polygon | P/T/C: conceptual prototypes

ACCESS GRADIENT WITHIN THE SAME AREA

P | PUBLIC BASE — T | BOOKED — NO PERMANENT C CALL PLATFORM

NEAR-TERM PROJECT GRABS

- Bilingual resource gateway
- Small-unit joint-work pilot
- Adaptable ground floor + daily-life support

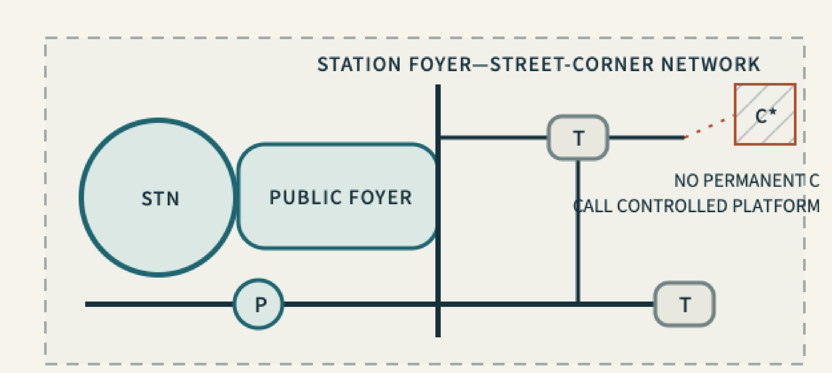
PROFESSIONAL CHECK | existing assets / ownership / community needs

03 INTO THE CITY · 72.0ha

Dazhongsi AI Industry Cluster

Station—ground floor—customer-service network

Product-to-city—training—First Customer market
Global conversion · ordinary mixed urban life



DASHED: provisional key-area polygon | P/T/C: conceptual prototypes

ACCESS GRADIENT WITHIN THE SAME AREA

P | PUBLIC BASE — T | BOOKED — NO PERMANENT C CALL PLATFORM

NEAR-TERM PROJECT GRABS

- Station foyer + ordinary passage
- First Customer training-support network
- Urban launch + international services

PROFESSIONAL CHECK | transit / footfall / business / accessibility

Zhongguancun Technology Service Wing — SERVICES / METHODS
Xiaoyue River Scenario Empowerment Wing — PROBLEMS / FEEDBACK

FORMAL — DESIGN PROPOSAL — TO VERIFY

Area values come from the brief; provisional geometry and conceptual modules are not statutory boundaries, land use or engineering alignments.

AI-ASSISTED CONCEPT | NOT A SITE PHOTO, EVIDENCE, OR STATUTORY PLAN; NOT AN EXACT PARCEL, BUILDING, OR DELIVERY SCHEME.

AI-ASSISTED CONCEPT | NOT A SITE PHOTO, EVIDENCE, OR STATUTORY PLAN; NOT AN EXACT PARCEL, BUILDING, OR DELIVERY SCHEME.

AI-ASSISTED CONCEPT | NOT A SITE PHOTO, EVIDENCE, OR STATUTORY PLAN; NOT AN EXACT PARCEL, BUILDING, OR DELIVERY SCHEME.

AI-ASSISTED RENDERINGS ARE CONCEPTUAL; SPATIAL FACTS FOLLOW GEOJSON, METRICS, THE BRIEF, AND AUDIT MATRICES.

PUBLIC SPACE, CULTURE, OPERATION, DELIVERY, AND EVIDENCE

Shared waymarks, long-term operation, project maturity, and evidence audit create durable renewal.

F-05 · METRICS–EVIDENCE

Metrics, Evidence and Completion Status｜Facts, Recalculations and Gaps Separated

Evaluation is not one score: separate evidence states, then establish local baselines for three outcomes.

THREE OUTCOME INDICATOR TREES

All require local baselines; none is achieved performance

FLOW ACROSS BOUNDARIES

interface discovery · cross-institution matching
station / slow mobility / accessible completion
BASELINE: sample, period, denominator + reviewer pending

GROW FOR THE LONG TERM

project continuation · capability reuse
responsibility / maintenance / exit closure
BASELINE: sample, period, denominator + reviewer pending

ENTER DAILY LIFE

public-service adoption · human alternatives
voluntary participation · resident rights
BASELINE: sample, period, denominator + reviewer pending

THREE VALUE STATES｜DO NOT MIX AS EQUAL FACTS

A FORMAL BRIEF FACTS

Coordinated study
43.6km²

Overall design
11.4km²

Three key areas
368.4ha

North / Middle / South
192.1 / 104.3
72.0ha

B PROVISIONAL / CONCEPT RECALC

Provisional extent
11.413km²

Conceptual building footprint
34,432m²

Conceptual blue-green Base
1,384,092m² · 12.13%

Conceptual P/T interfaces
71,551m² · 0.63%

Four conceptual partitions
2.675 / 2.589 / 3.366 / 2.783km

NOT STATUTORY
RECALCULATE WITH OFFICIAL DATA

C OFFICIAL DATA / BASELINE PENDING

— Floor area ratio (FAR)
— Building height
— Building density
— Statutory green ratio
— Official setbacks
— Local measured baselines for three outcomes

UNKNOWN = "—"
NEVER REPLACE WITH ZERO

TASK + PACKAGE COUNTS｜NOT PLANNING METRICS

7 cases	12 scenarios	4 validation scenarios	6 personas
4 common waymarks	5 parallel interfaces	8 ecosystem resource groups	

EVIDENCE CHAIN + MACHINE AUDIT

Sources / brief
Nine GeoJSON layers
metrics + assumptions
Compliance / standard / depth matrices
Human-readable figures + text

MACHINE AUDIT｜TRACKED, NOT A "100%" CLAIM

23 task-coverage mappings
15 design-depth items tracked
professional-standard matrix
source ↔ assumption ↔ metric
self-check + unresolved risks

UNRESOLVED RISKS｜official polygons, controls, existing assets, transport, utilities/fire, heritage/ecology, operations, user research and local baselines

Assumption register: 10 items; recalculate affected layers and metrics when a trigger arrives

FORMAL　DESIGN PROPOSAL　TO VERIFY

Sources: formal_package_data_v1 metrics, assumptions and nine GeoJSON layers; formal facts, recalculations and pending values are separated.

D-03 · INDUSTRY–SPACE MAPPING

Industry–Space Mapping｜Relationships Become Spatial Interfaces

Not industry labels on land: distinct access, spatial carriers and operations support innovation.

Three Areas + Two Wings

Multi-directional mechanism; not statutory land use

Zhongzhiyuan AI Autonomous Innovation Accelerator
BREAKTHROUGH｜Professional platforms

Beijing AI Origin Community
START｜Open collaboration

Dazhongsi AI Industry Cluster
INTO THE CITY｜Market interface

SERVICE WING → N / M / S
N / M / S ↔ SCENARIO WING
N M S

Jing-Zhang Public-life Base
Heritage, ecology, slow mobility, culture and everyday life

Six Spatial Roles × Capabilities × Interfaces

DESIGN｜Spatial interfaces are not statutory land-use classes

SPATIAL PROTOTYPE + ROLE	PRIMARY CAPABILITY	REPRESENTATIVE INTERFACES
North · Zhongzhiyuan Professional R&D gradient	Full-stack breakthrough, shared platforms Standards and safety	Open foyer, controlled collaboration Professional tests, repair and logistics
Middle · AI Origin Community Small-unit joint-work prototype	Original innovation, open-source work Startup support and talent services	Resource entry, small units Joint work, adaptable ground floor
South · Dazhongsi Station-foyer urban interface	AI-native business, First Customers Client collaboration, global conversion	Station foyer, product-to-city interface Training, support, urban launch
Zhongguancun Technology Service Wing Service network	Capital, IP, law, standards Talent and global market services	Professional service desk Project brokerage, global services
Xiaoyue River Scenario Empowerment Wing Problem network	Education, health, law, daily life Industry and governance problems	Problem release, scenario co-creation Feedback return
Jing-Zhang Public-life Base Foundation of public life	Heritage, ecology, slow mobility Culture and everyday life	Public P, voluntary low-risk experience Non-commercial stay

Access Gradient Within Each Area

Rights levels, not land-use codes

P **Public P**
Long-term access; daily life first
Usable without devices; no default testing

BOOK / INFORM / TIME-BOUND ↓

T **Transitional / Managed-access T**
Collaboration + voluntary low-risk use

HUMAN GATE + ACCOUNTABILITY ↓

C **Controlled Professional C**
Responsibility + exit

↺ EXIT RETURNS TO PUBLIC P

ACCESS CONDITIONS AND OPERATORS TO VERIFY

ACCESS RIGHTS FOR SIX USER GROUPS｜RESIDENTS AND PARK USERS DO NOT ENTER C

Researcher	P T C
Startup / One-person Company	P T C
Growth-stage Enterprise	P T C
Scenario Owner + Frontline Staff	P T C
Resident + Park User Including children, older and disabled people	P T Voluntary low-risk only
International Talent + Partner	P T C

FORMAL　DESIGN PROPOSAL　TO VERIFY

Provisional geometry and conceptual roles are not statutory land use. Boundaries, ownership, metrics, fire, accessibility and engineering require development.

F-03 · KEY AREAS

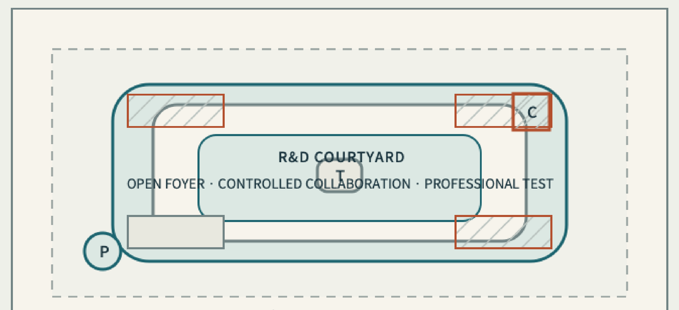
Three Key Areas｜Distinct Prototypes, Multi-directional Collaboration

Different areas, equal design weight: north, middle and south use distinct spatial languages.

01 BREAKTHROUGH · 192.1ha

Zhongzhiyuan AI Autonomous Innovation Accelerator

Garden R&D cluster
Open foyer—controlled collaboration—professional test
Shared platforms · repair logistics · standards + safety



DASHED: provisional key-area polygon｜P/T/C: conceptual prototypes

ACCESS GRADIENT WITHIN THE SAME AREA

P｜PUBLIC BASE　T｜BOOKED　C｜CONTROLLED

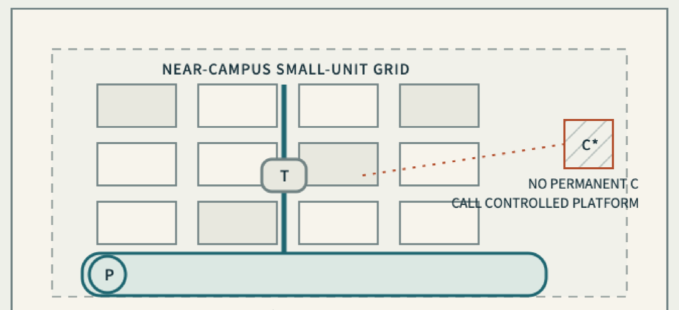
NEAR-TERM PROJECT GRABS
- Open foyer first
- Booking protocol for shared platforms
- Repair-logistics + safety check

PROFESSIONAL CHECK｜structure / fire / logistics / standards

02 START · 104.3ha

Beijing AI Origin Community

Near-campus small units
Resource gateway—joint work—adaptable ground floor
Low-barrier startups · talent + community support



DASHED: provisional key-area polygon｜P/T/C: conceptual prototypes

ACCESS GRADIENT WITHIN THE SAME AREA

P｜PUBLIC BASE　T｜BOOKED　NO PERMANENT C CALL PLATFORM

NEAR-TERM PROJECT GRABS
- Bilingual resource gateway
