

JINGZHANG DUAL TRACK

Two equal service paths; no one left behind

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

- AI express track
- human/offline fallback
- heritage and blue-green commons

3 dual-track stations

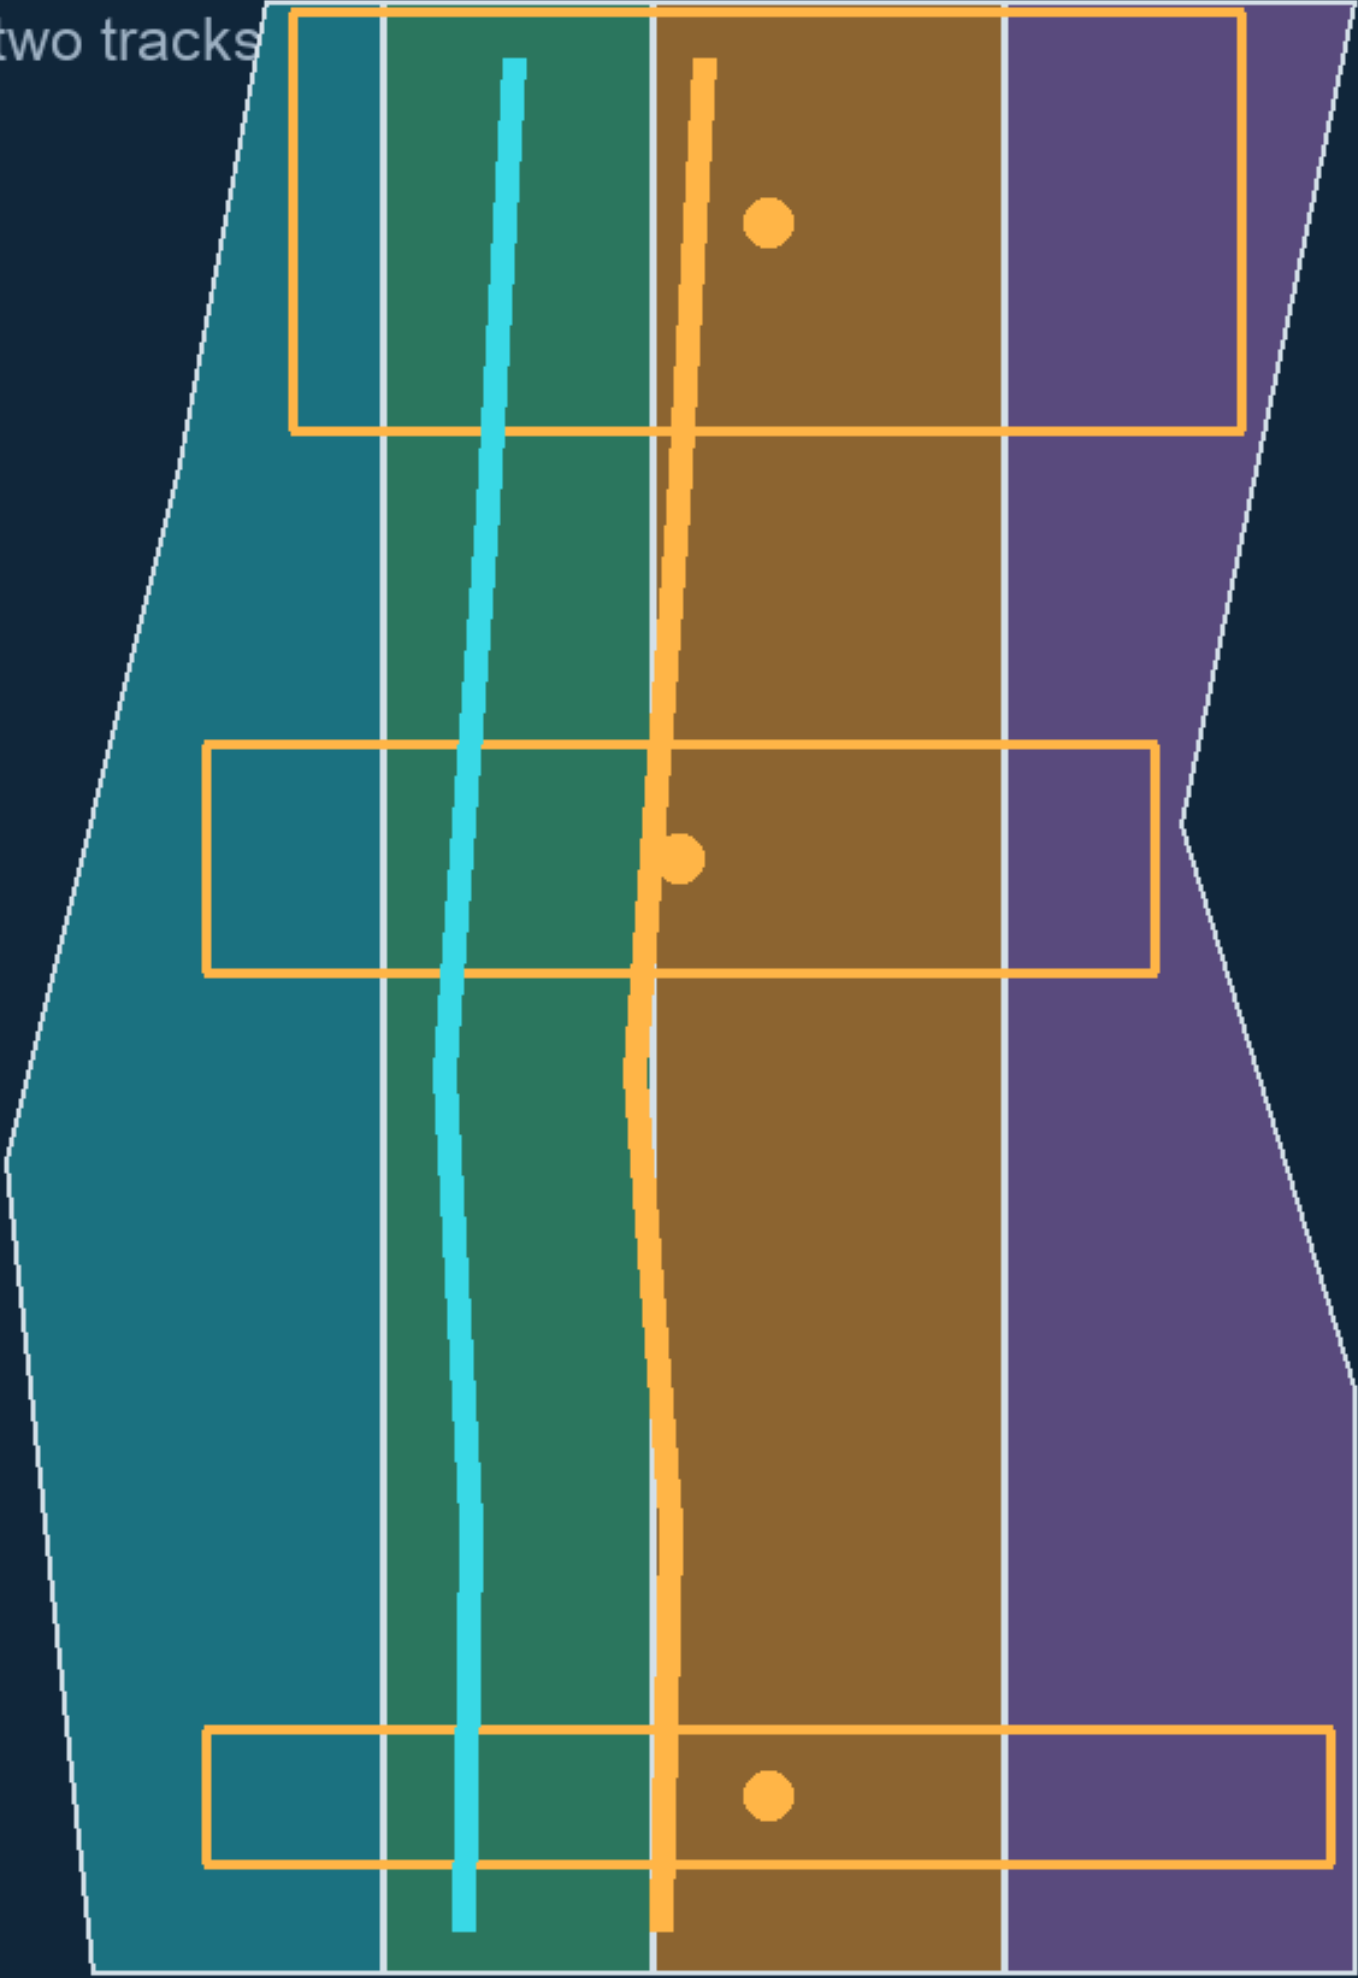

12 scenario cards

100% fallback coverage

v1.1 · 2026-08-11

DUAL-TRACK SPATIAL STRUCTURE

One heritage spine, three stations, two tracks

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

- R&D
- park and green
- commercial service
- community service

DUAL-TRACK RULES

- Choice at the same entrance
- Equivalent outcome
- Graceful degradation
- Accountable human service

v1.1 · 2026-08-11

THREE STATIONS, THREE DUAL-TRACK PROFILES

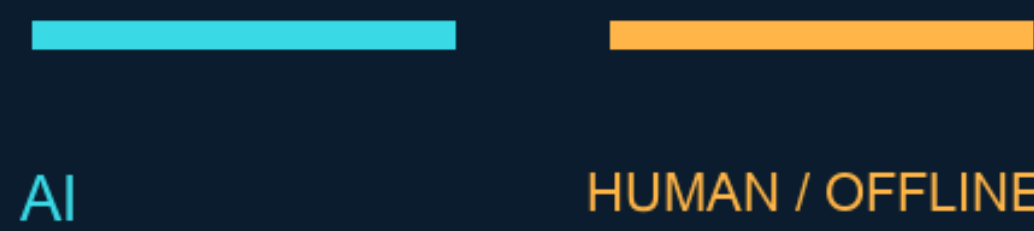

Provisional key areas are locators, not statutory boundaries

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

01

Zhongzhiyuan Responsible Test Station

model sandbox + staffed review desk

same entry · equivalent result · switchable

02

AI Origin Co-learning Station

AI tutor + peer learning room

same entry · equivalent result · switchable

03

Dazhongsi Civic Service Station

AI guidance + staffed service counter

same entry · equivalent result · switchable

v1.1 · 2026-08-11

DUAL-TRACK ACCEPTANCE PROTOCOL

- Choice at the same entrance
- Equivalent outcome
- Graceful degradation
- Accountable human service

Provisional geometry supports concept work only; recompute when official data arrive.

MOBILITY, BLUE-GREEN AND SERVICE

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

Accessibility is spatial infrastructure, not an app setting

Heritage park and blue-green base

AI wayfinding / live information / booking

continuous signs / accessible route / staffed service

Public service remains usable during outages, low battery, language barriers or refusal to share data.

v1.1 · 2026-08-11

METRICS AND EVIDENCE CHAIN

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

Spatial metrics recompute; service commitments are testable; unknowns stay explicit

11.41 km²

provisional site

3

key areas

12

dual-track scenarios

5

personas

3

industry testbeds

100%

fallback target

GeoJSON → metrics.json → figures / PDF / offline HTML → self-check

v1.1 · 2026-08-11

FROM CONCEPT TO OPERATION

Near term: signs and lightweight service desks
Mid term: reversible ground-floor works and three testbeds
Long term: station, blue-green and community operation

12 scenarios · 5 personas · 3 testbeds · 100% fallback-path target

EVIDENCE BOUNDARY

GeoJSON → metrics.json → figures / PDF / offline HTML → self-check

Geometry is provisional, not an official redline. FAR, height, roads, ownership, utilities and engineering feasibility await official evidence and professional review.
