PROPOSED REGIONAL COLLABORATION INTERFACES

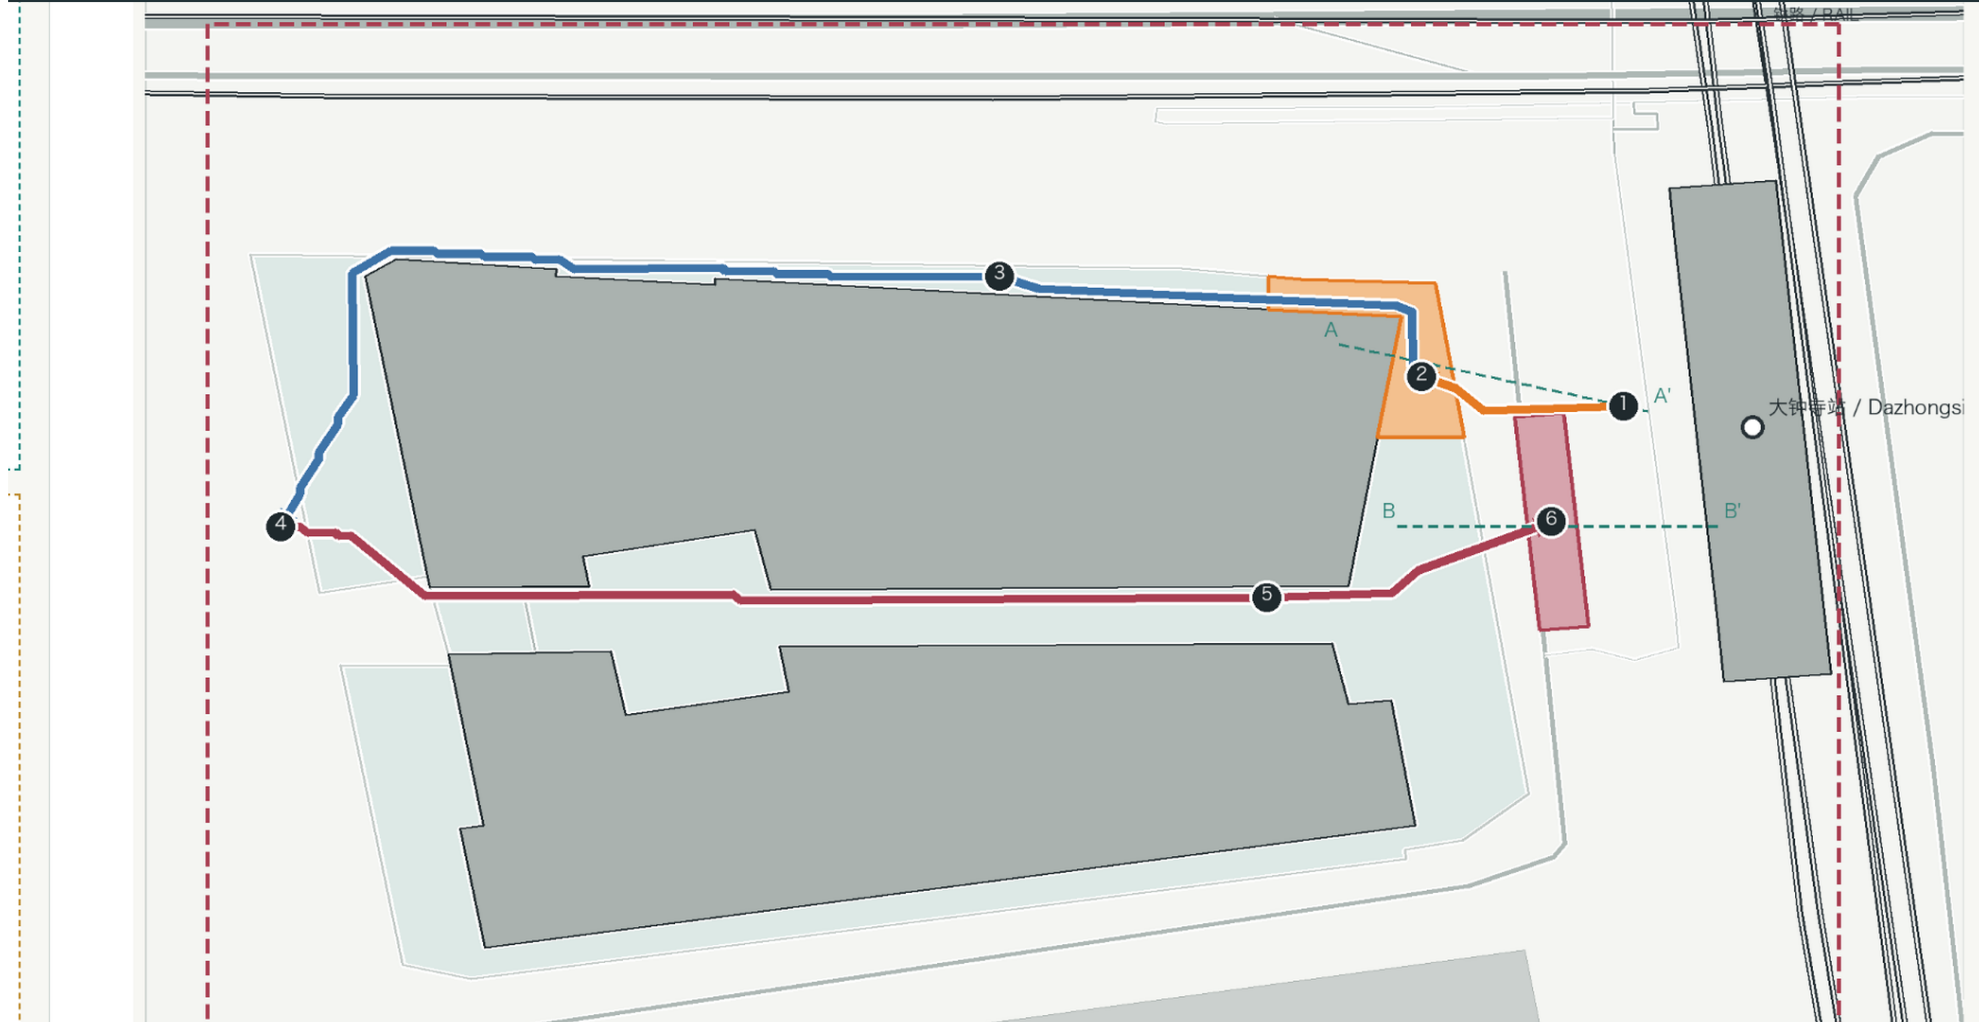

ALL INTERFACES: PROPOSED / POTENTIAL · REQUIRES PARTNERSHIP · NO CONFIRMED RESOURCE FLOW

THREE URBAN INTERFACES · BOARD 02

THE GROUND: DAZHONGSI RELEASE-RETIREMENT COMMONS

One reality-checked demonstration ground; two indicative interfaces remain honest about missing survey

DAZHONGSI / ≈ 8.7 ha STUDY $\cdot \approx 0.52$ ha INTERVENTION $\cdot \approx 625$ m WALK

TWO INDICATIVE INTERFACES

01 ZHONGZHIYUAN

ARRIVE → CONTROLLED TEST → HANDOFF

Existing research edge + proposed shared evaluation room

SURVEY / PARTNERSHIP REQUIRED

INDICATIVE / NOT A FOOTPRINT

02 AI ORIGIN

ARRIVE → REPRODUCE → EXPLAIN → DEPART

SURVEY / PARTNERSHIP REQUIRED

INDICATIVE / NOT A FOOTPRINT

WHY THIS PLACE

A station, mixed users and ordinary public life make Dazhongsi the threshold between bounded deployment and civic accountability.

DO NOT COPY

No foreign operator, funding programme, tenancy rule, statutory tool or performance claim is imported.

EVIDENCE / CLOSURE

EVIDENCE / LIMITS · ATLAS 08

DESIGN BOLDLY; CLAIM ONLY WHAT THE EVIDENCE SUPPORTS

The concept is reviewable now; statutory and engineering controls remain prerequisites

- 43.6 km² research context ≠ ≈11.4 km² provisional repository geometry
- Zhongzhiyuan / AI Origin remain indicative interfaces
- Regional links are proposed or potential; all require partnership
- Tests are proposed protocols, not measured performance
- Boundary, right-of-way, entrance, ownership, heritage, utility, traffic and cost remain data gaps

THE FINAL PUBLIC PROMISE

Innovation may enter public life only with evidence, bounded release, human fallback, civic contestability and a visible way to stop.
