

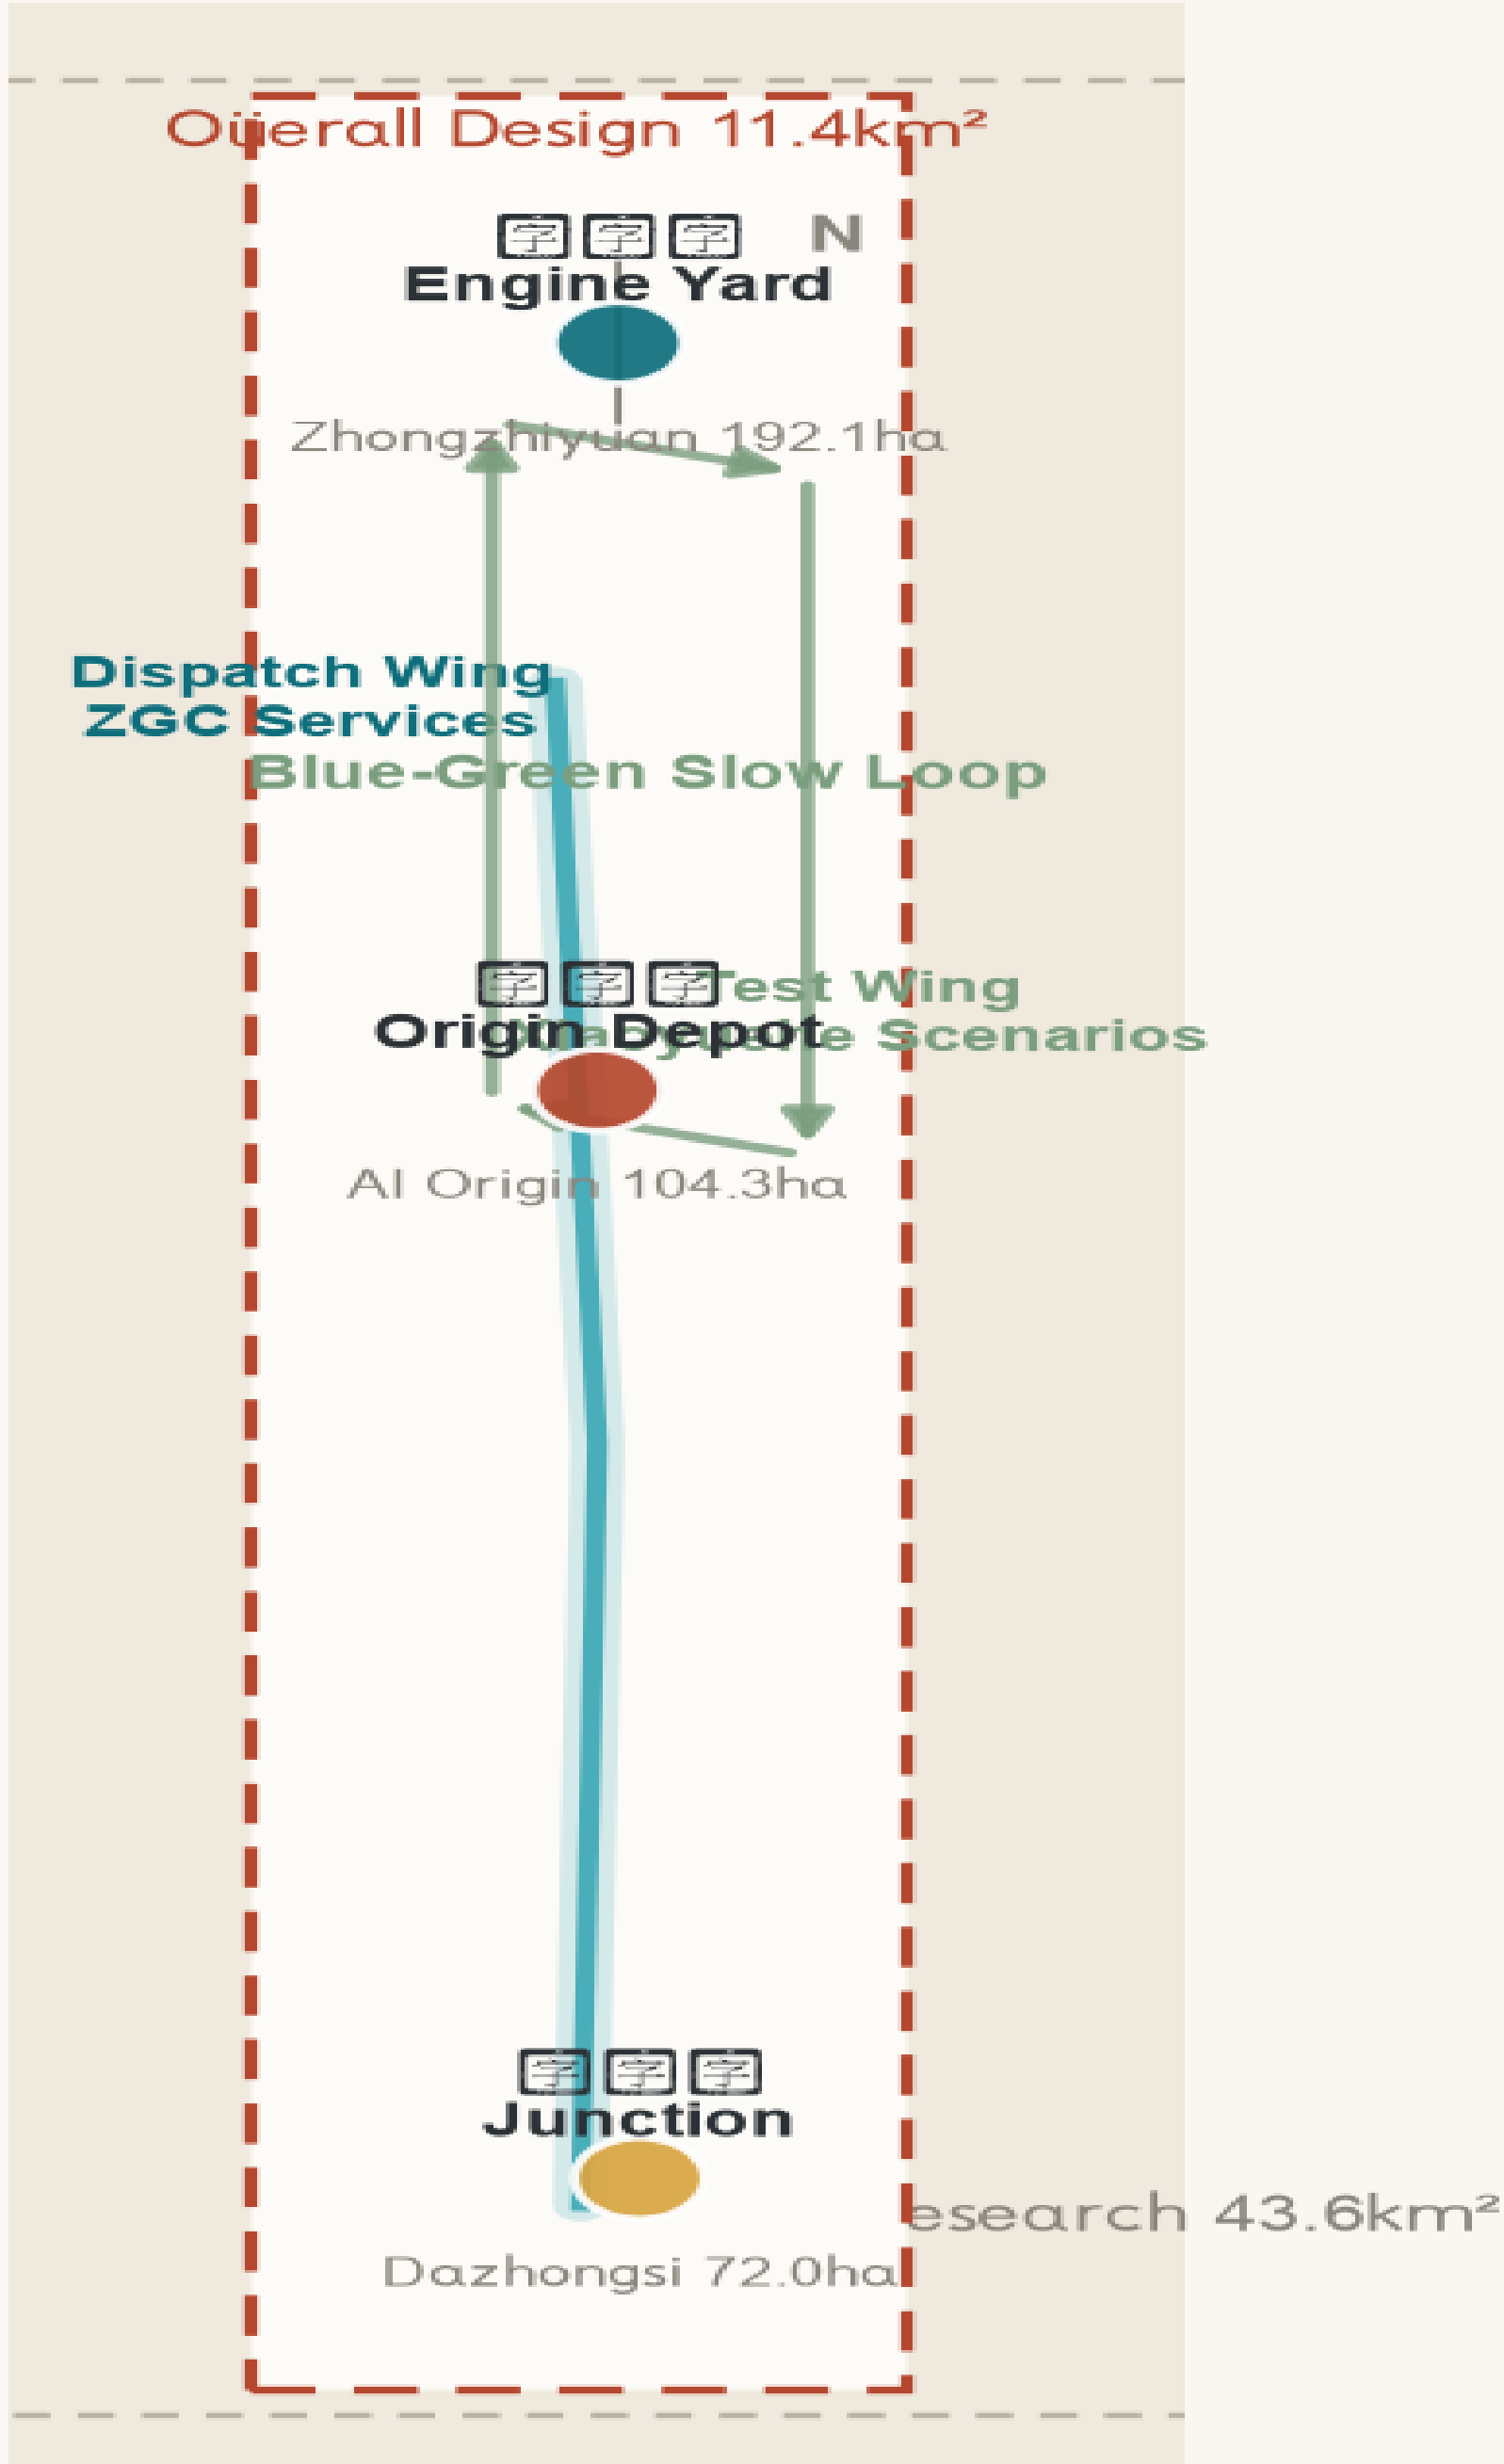

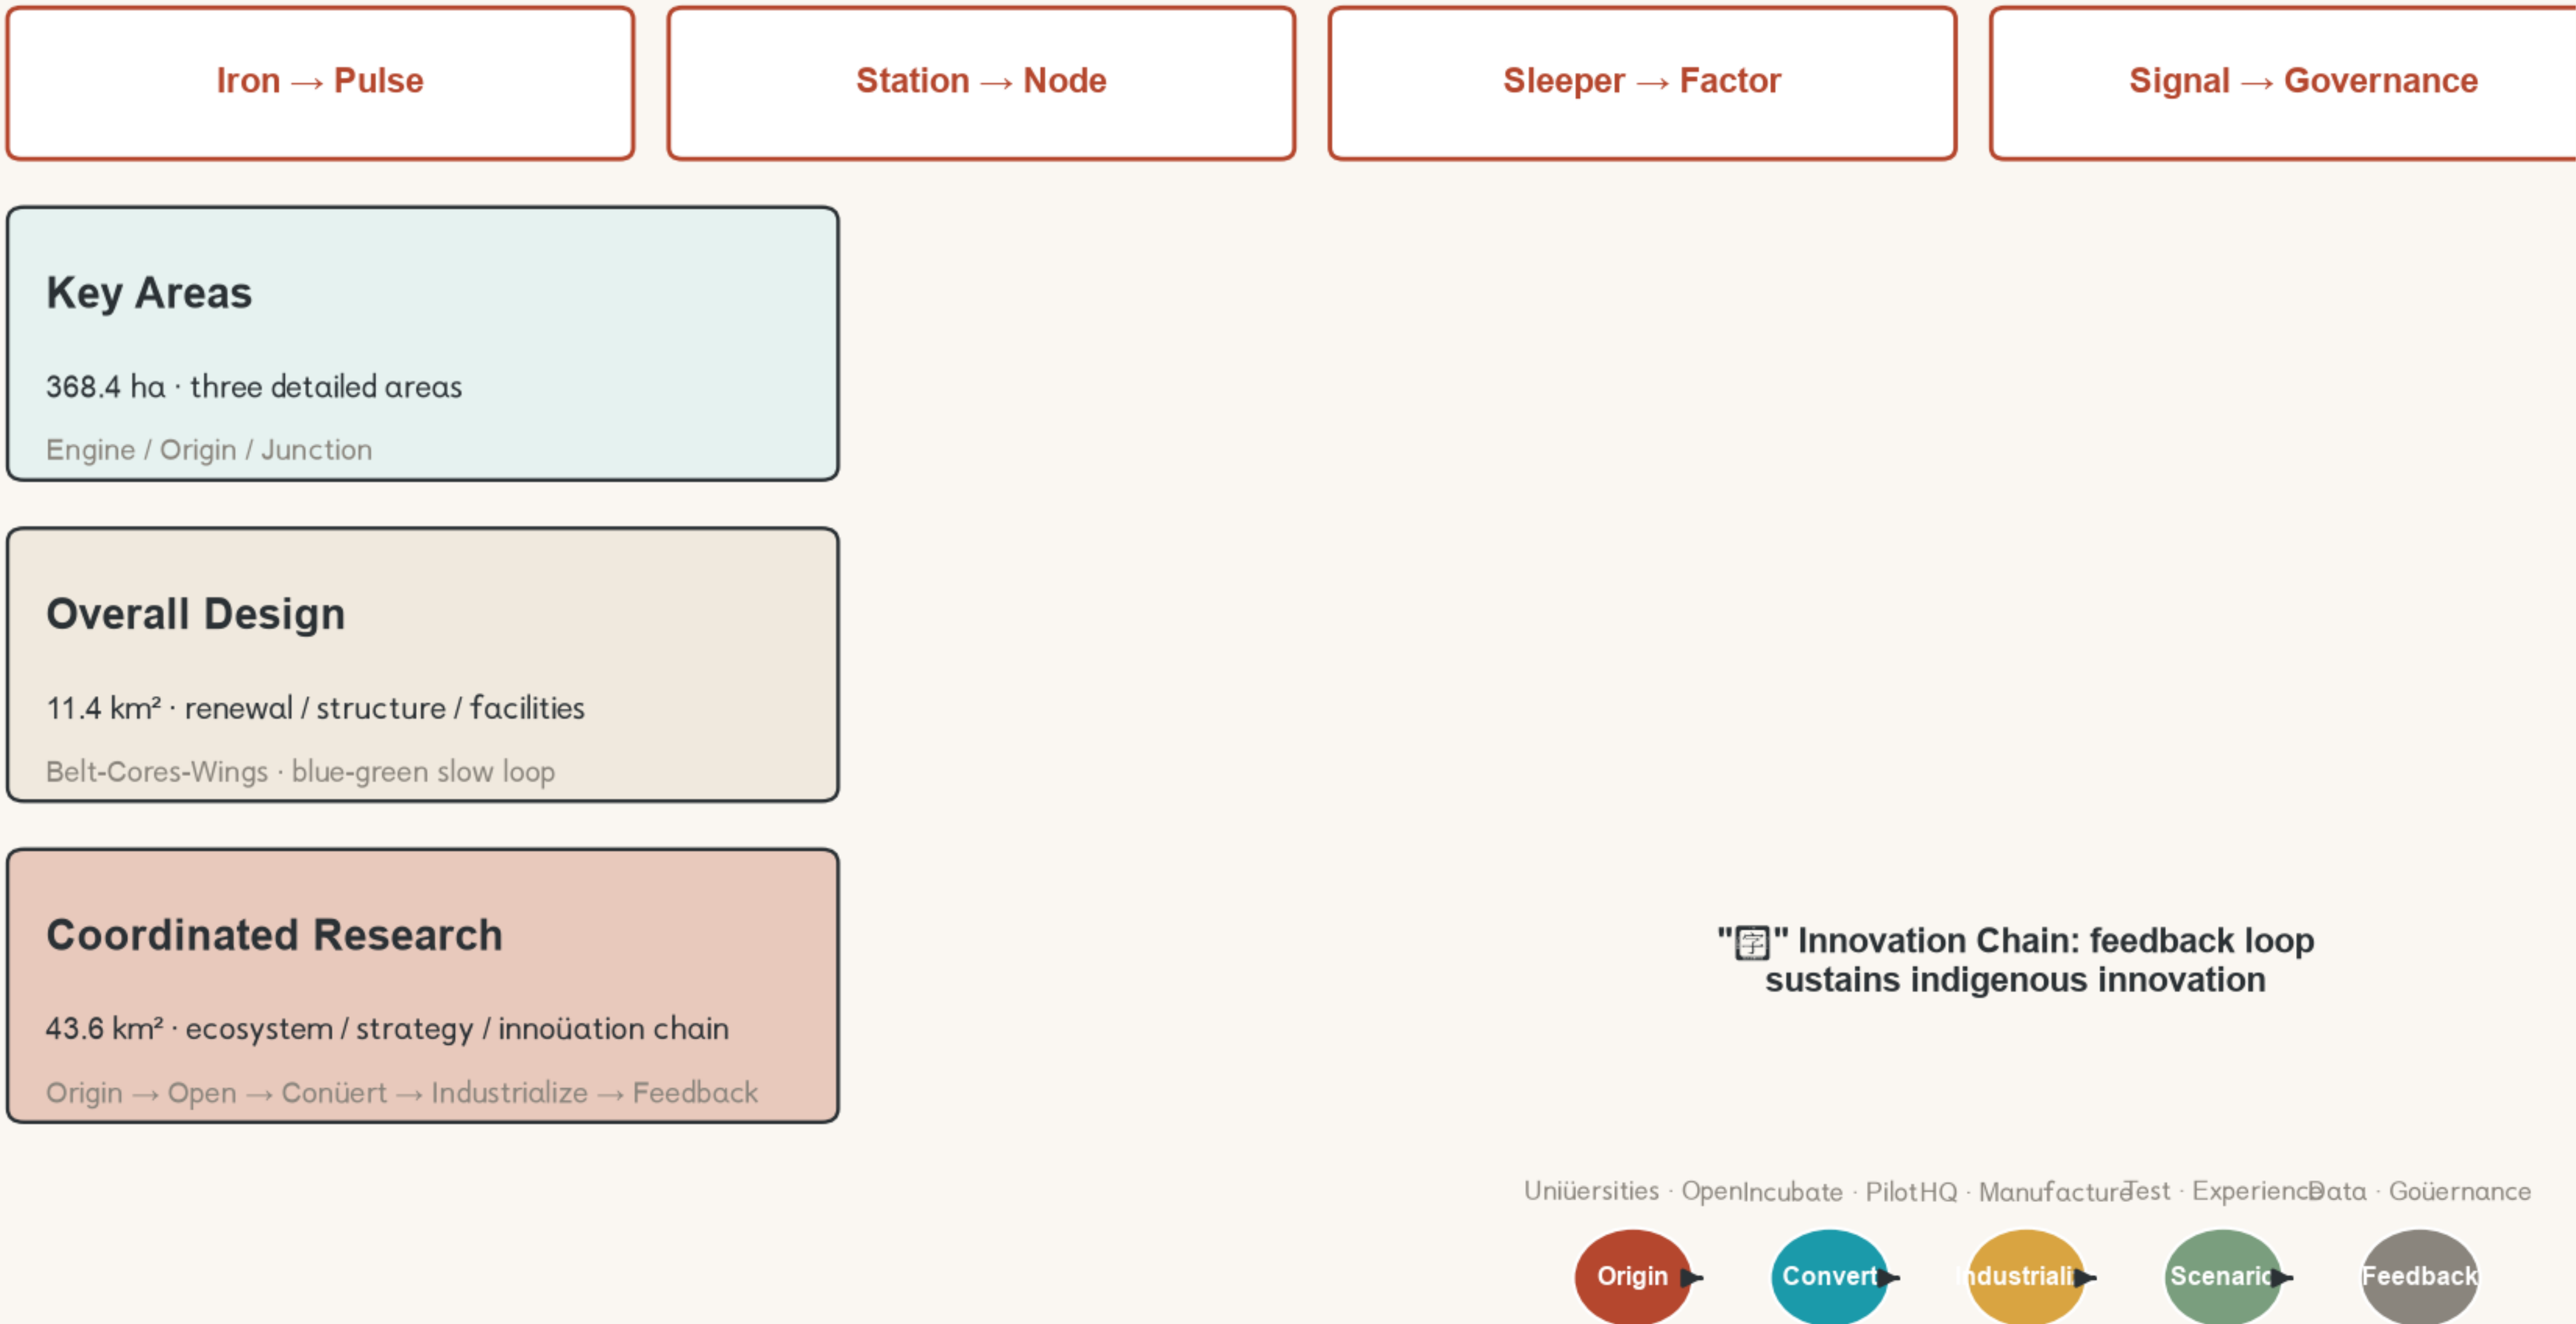

Fig. 1 · Site Overview: One Belt, Three Cores, Two Wings

Provisional rough boundary; concept only, to be recalculated when official data is released

Fig 1 Site Overview

Fig. 2 · Three-Level Scope and the "🏠" Innovation-Chain Framework

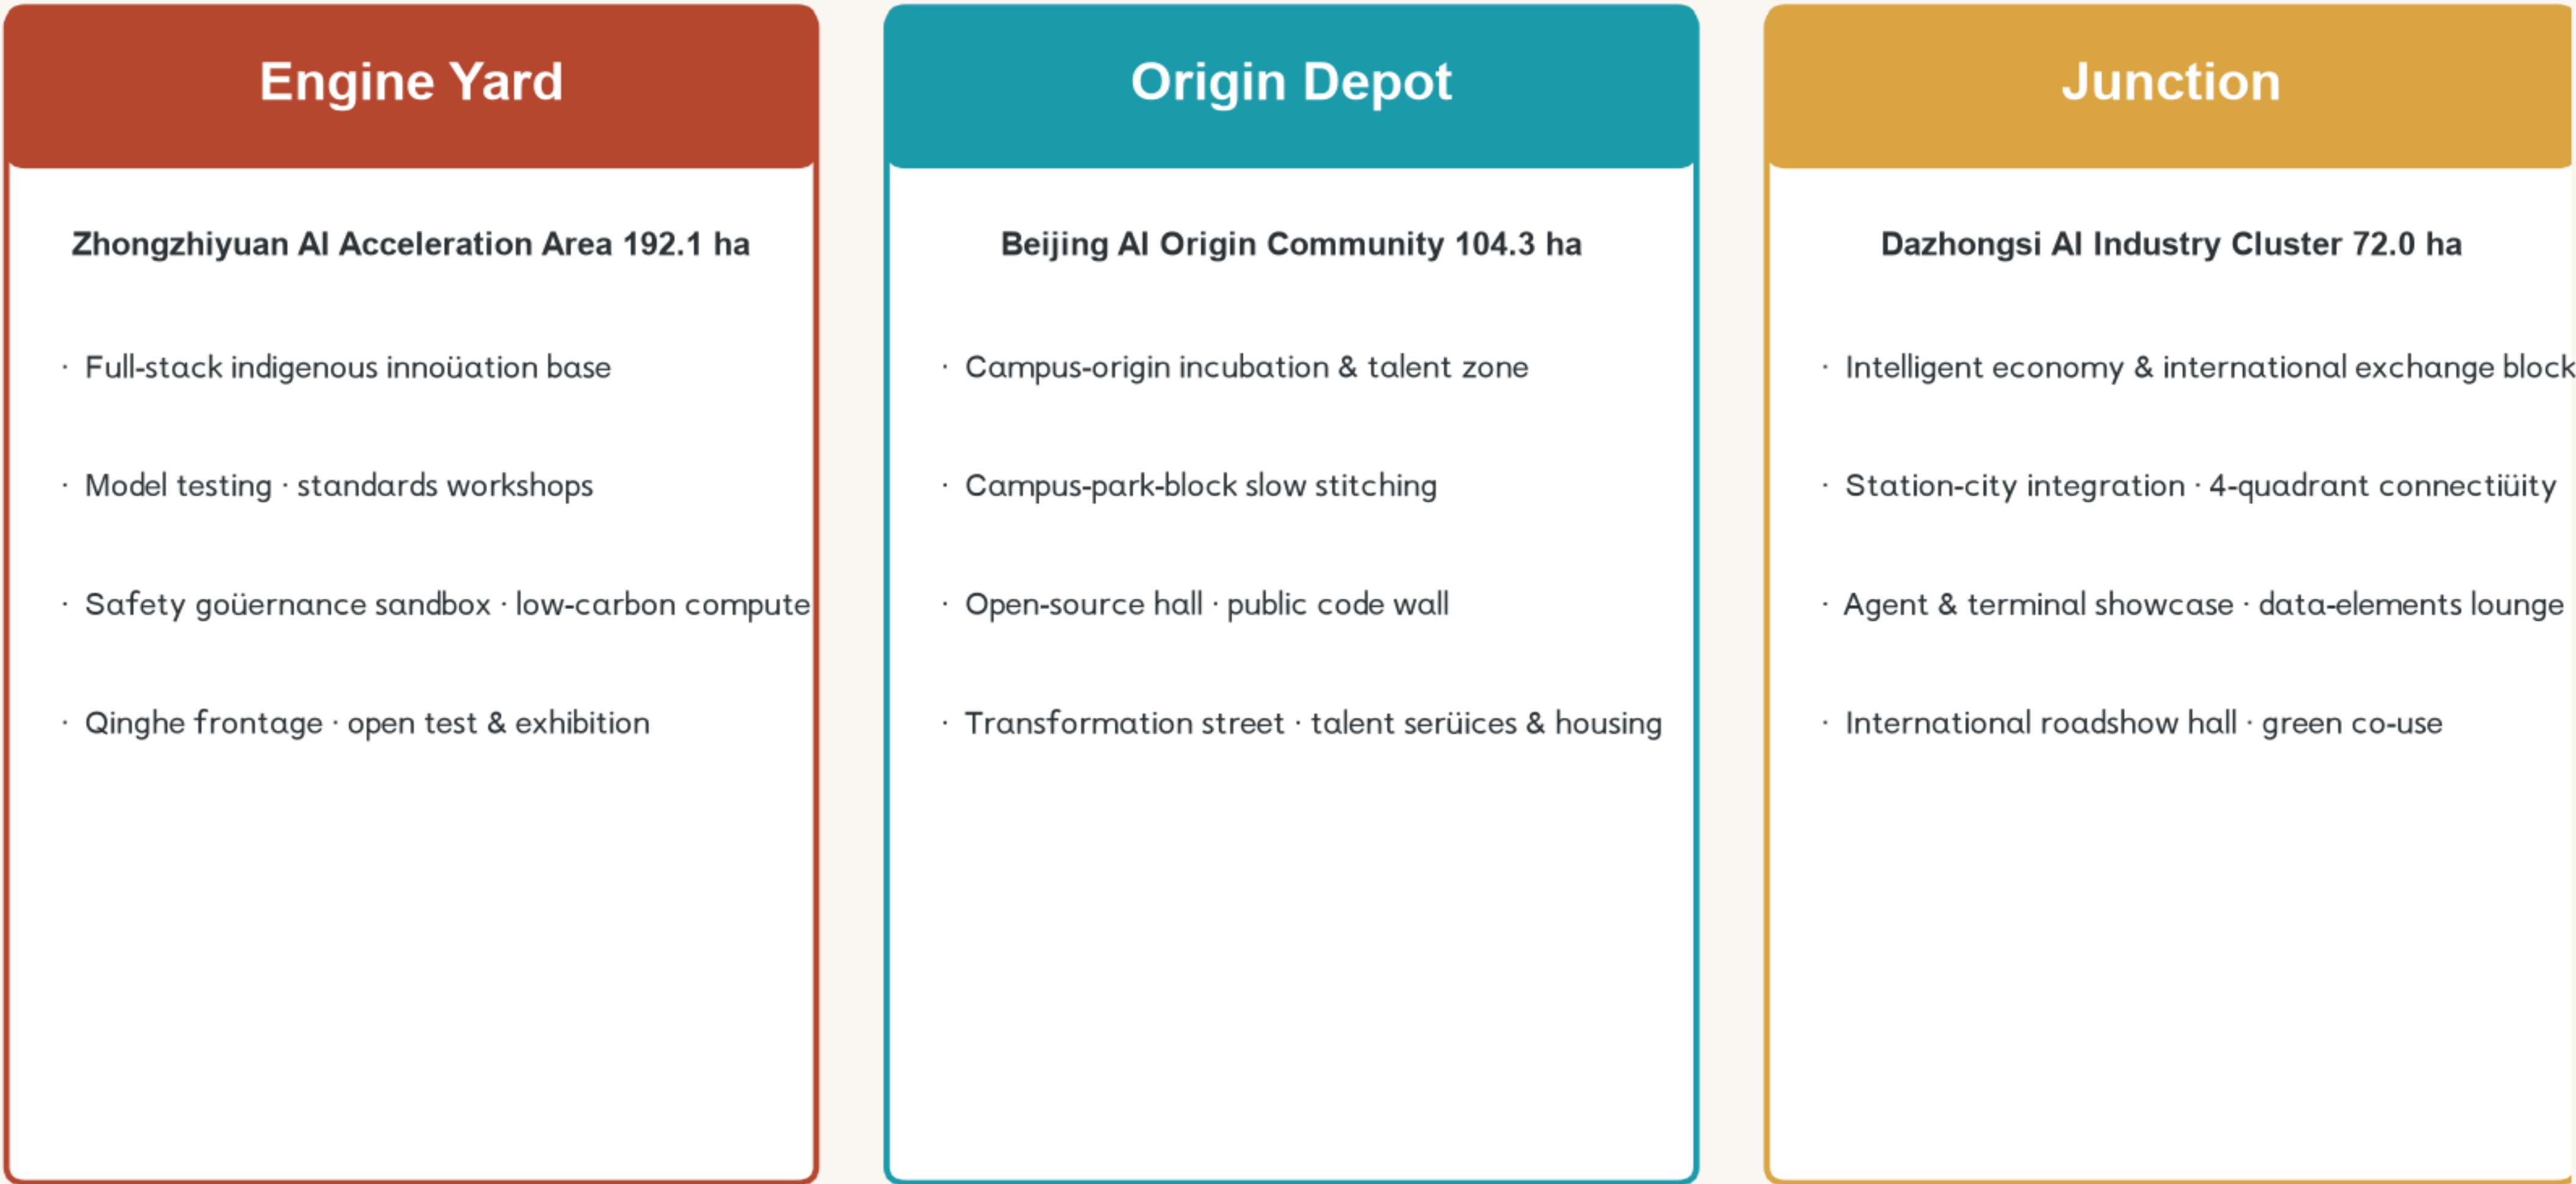

Provisional rough boundary; concept only, to be recalculated when official data is released

Fig 2 Three-Level & Ren Framework

Fig. 3 · Three Key Areas: Detailed Design under the Station Motif

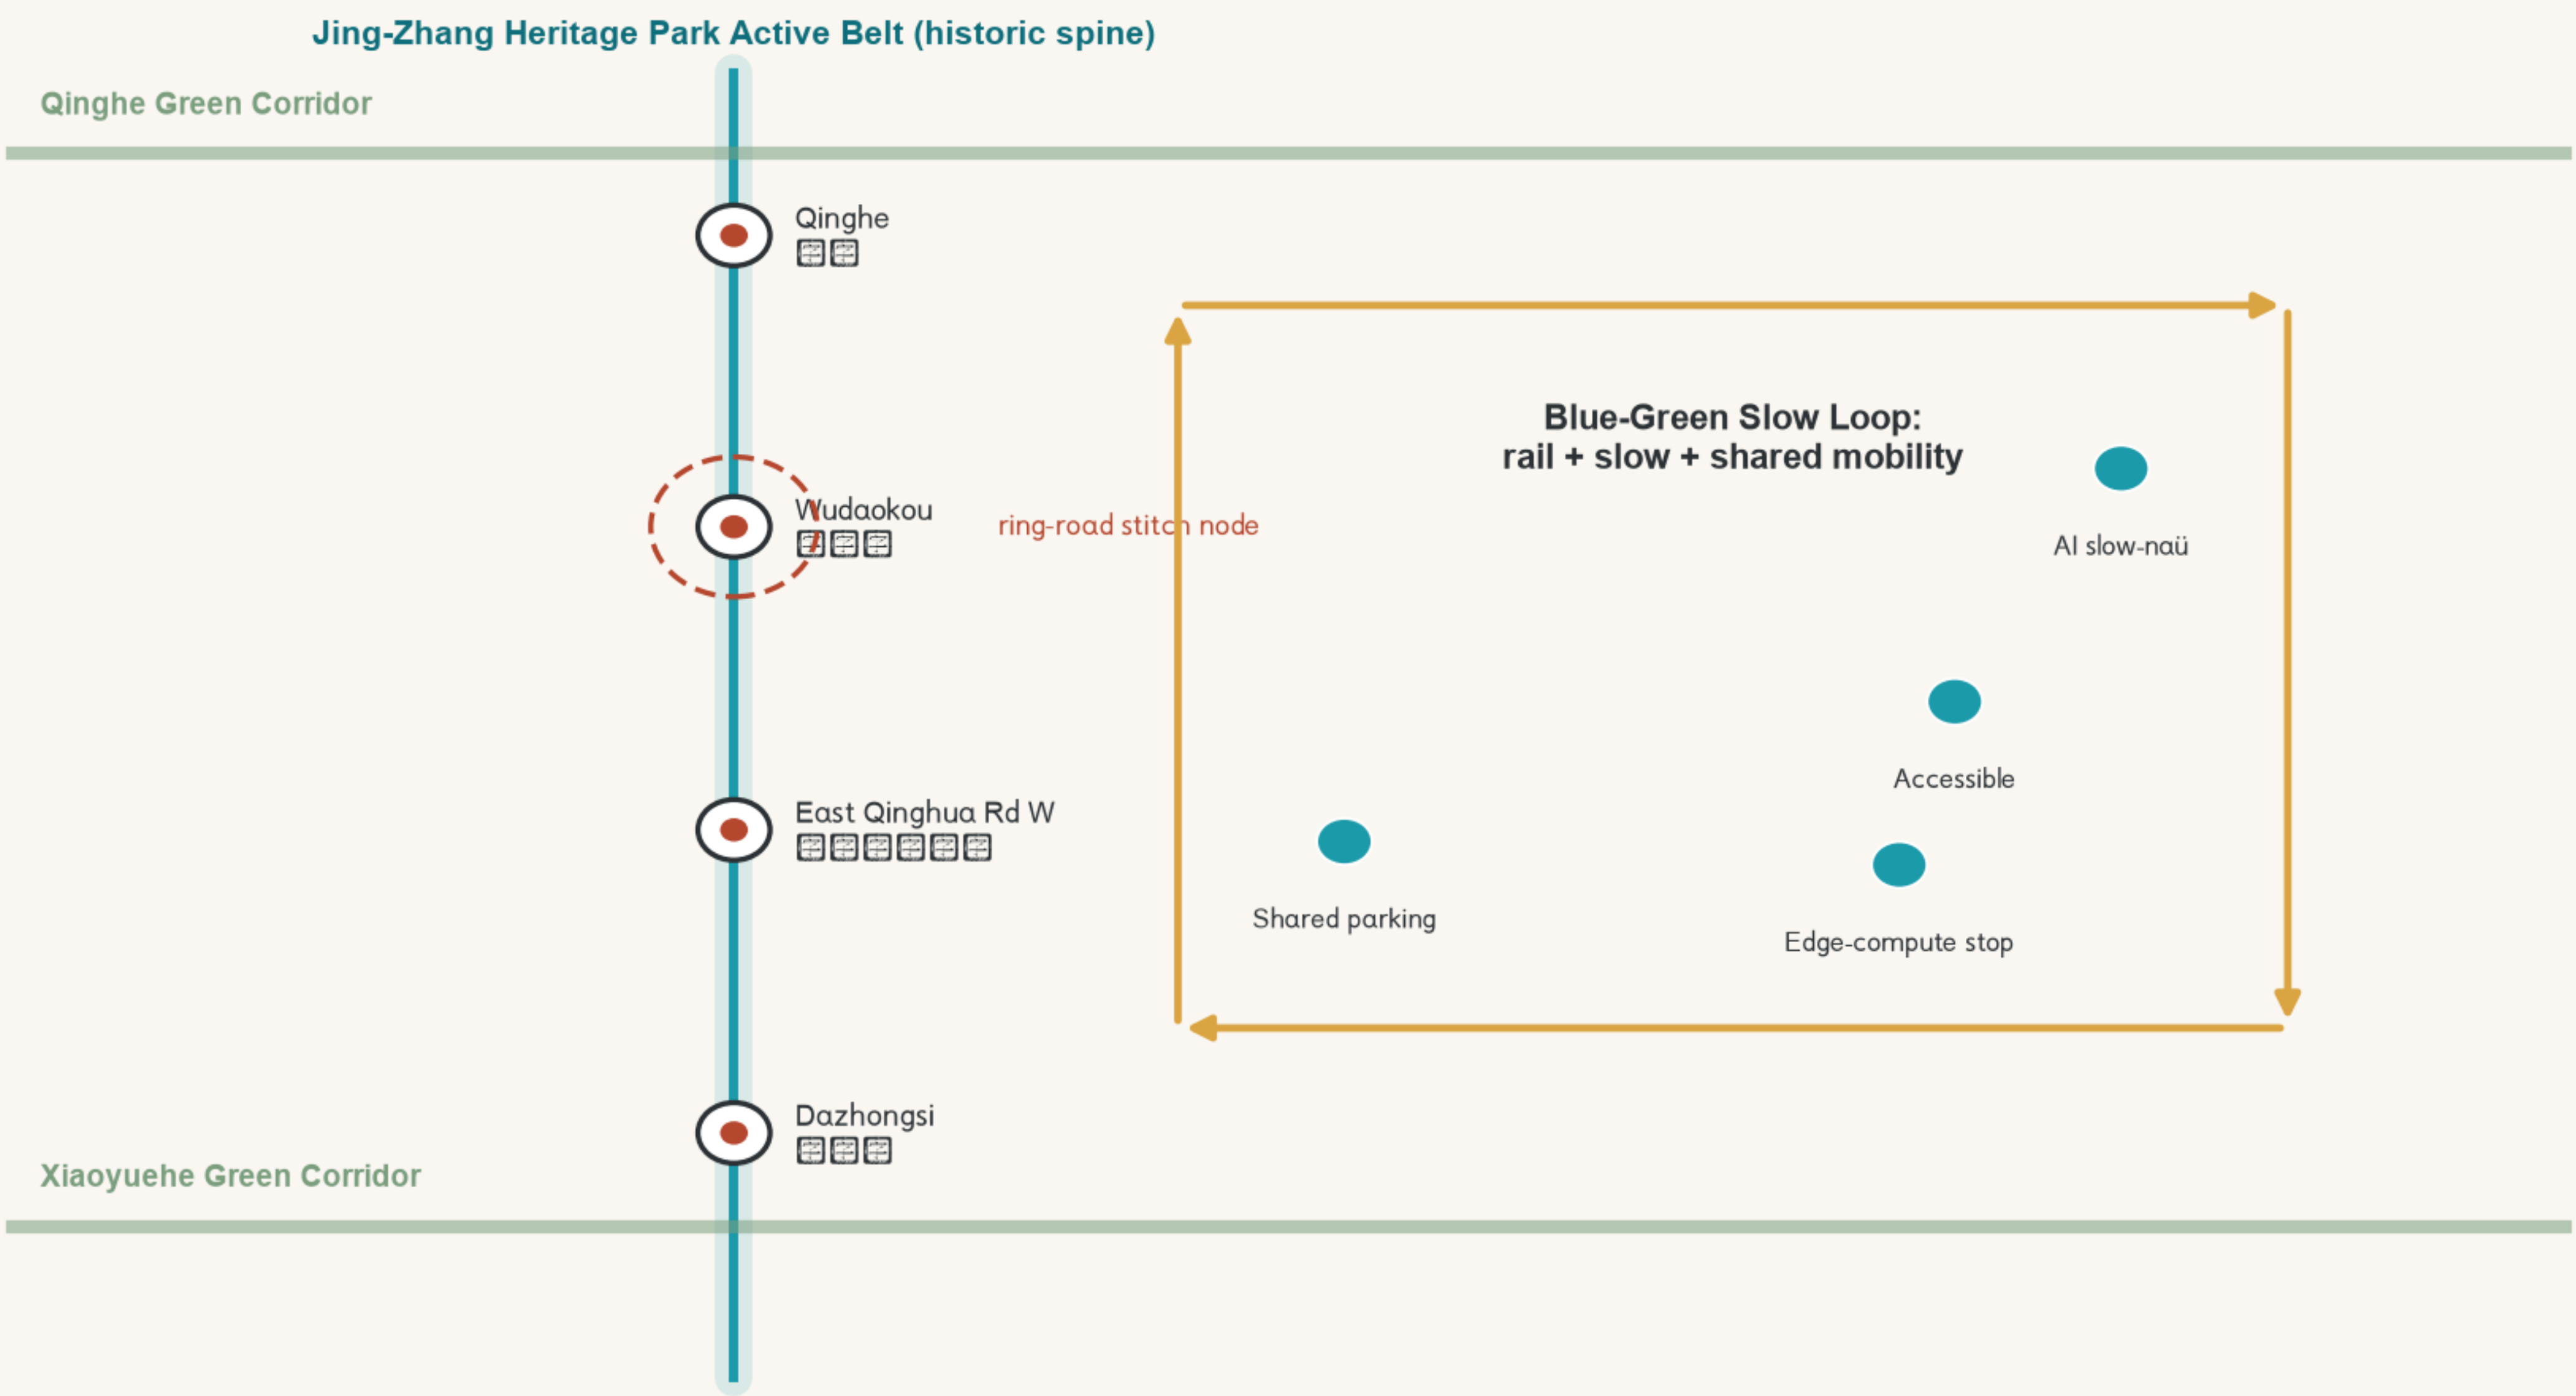

R/D/R approach: identify-grade-phase; parcel-level conclusions await ownership & control data

Provisional rough boundary; concept only, to be recalculated when official data is released

Fig.3 Three Key Areas

Fig. 4 · Mobility, Slow Network and Blue-Green Public Space System

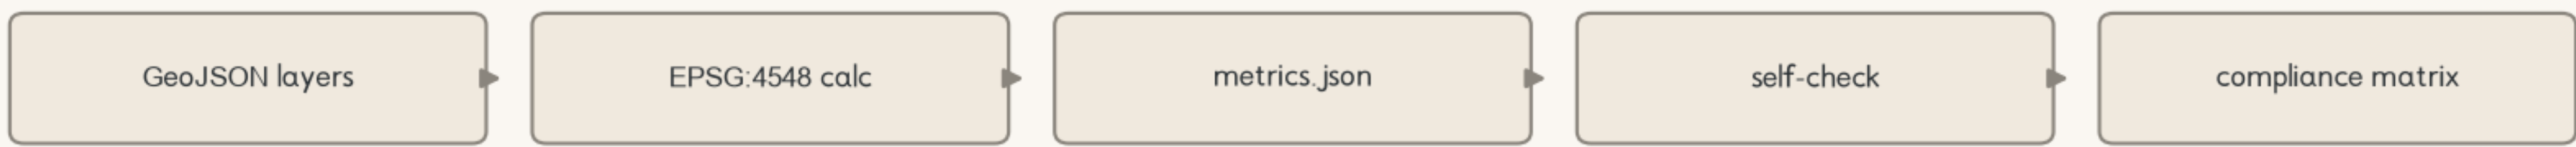

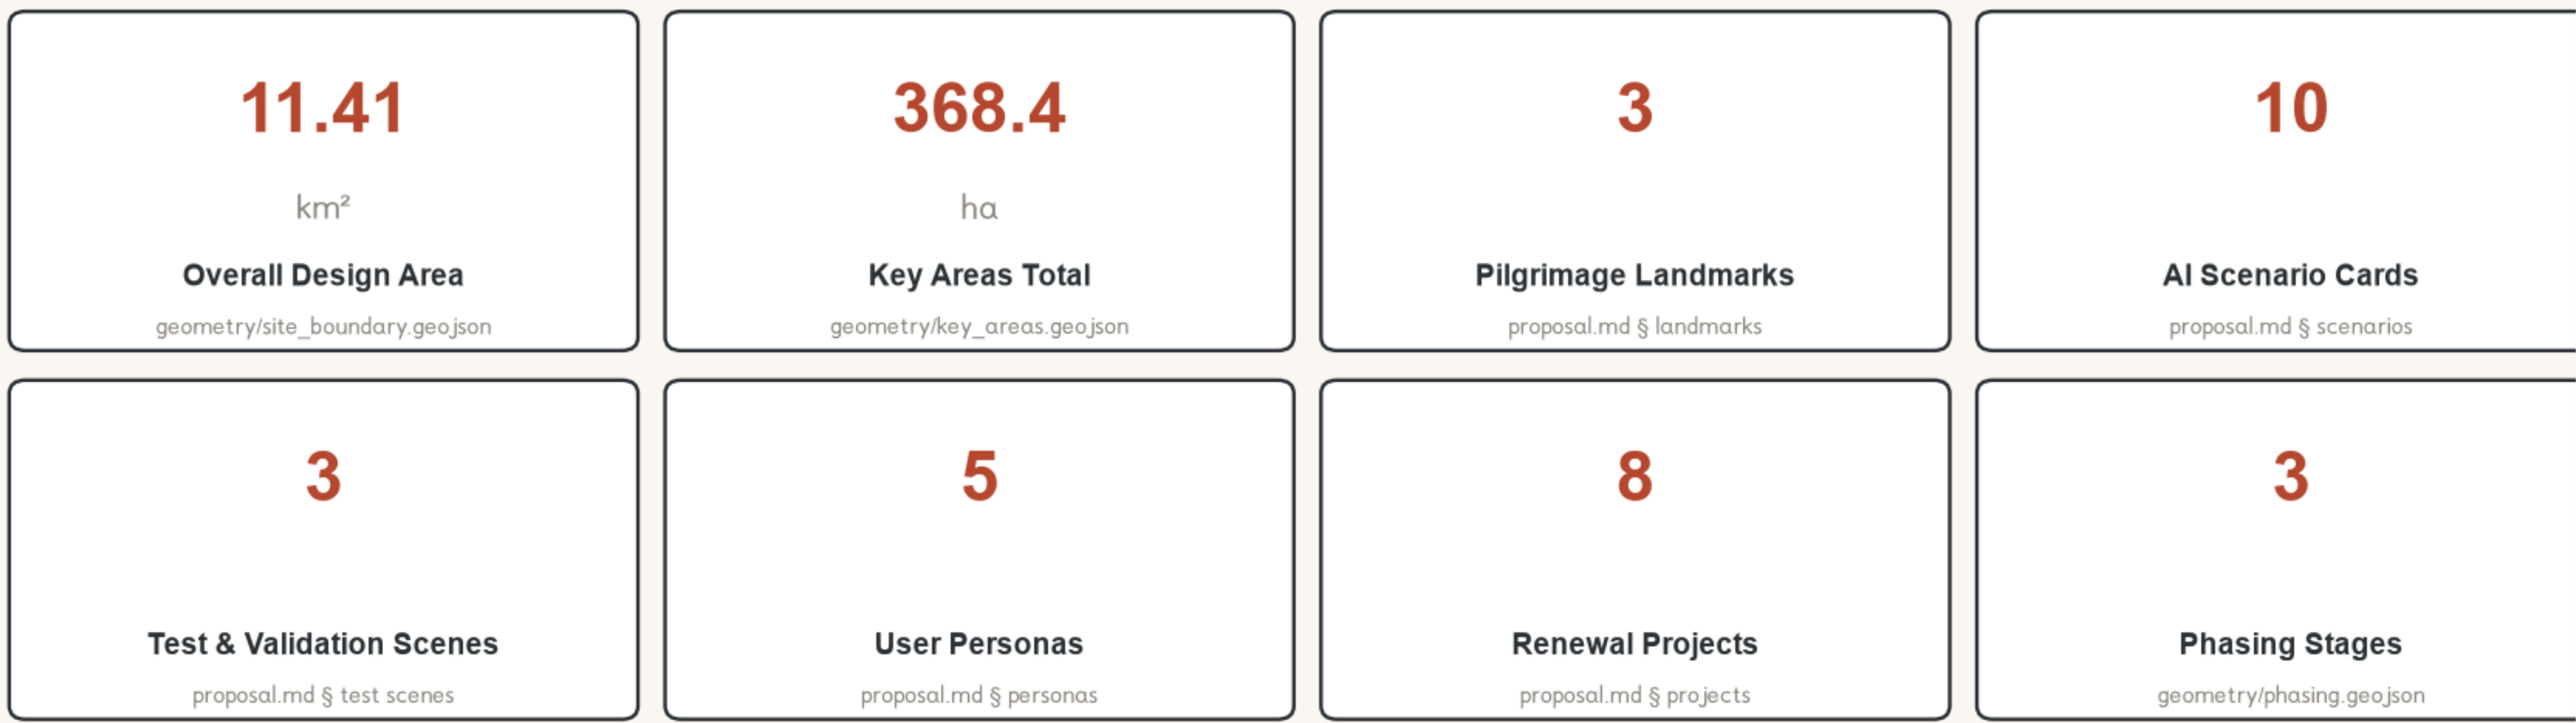

Provisional rough boundary; concept only, to be recalculated when official data is released

Fig.4 Mobility & Blue-Green

Fig. 5 · Core Metric Recalculation and Evidence Chain

Control metrics (FAR/height/density/setback) await official regulatory planning; performance metrics are design targets, not approvals

*Provisional rough boundary; concept only, to be recalculated when official data is released*

Fig.5 Metrics & Evidence

Engine Yard · Origin Depot · Junction. Belt-Cores-Wings with blue-green slow loop. Concept: From Iron Rails to Intelligent Pulse. Open-source + open-governance + open-scenario.

Provisional rough boundary, concept only, to be recalculated when official data is released.
