

JING-ZHANG ONE MILLIMETER

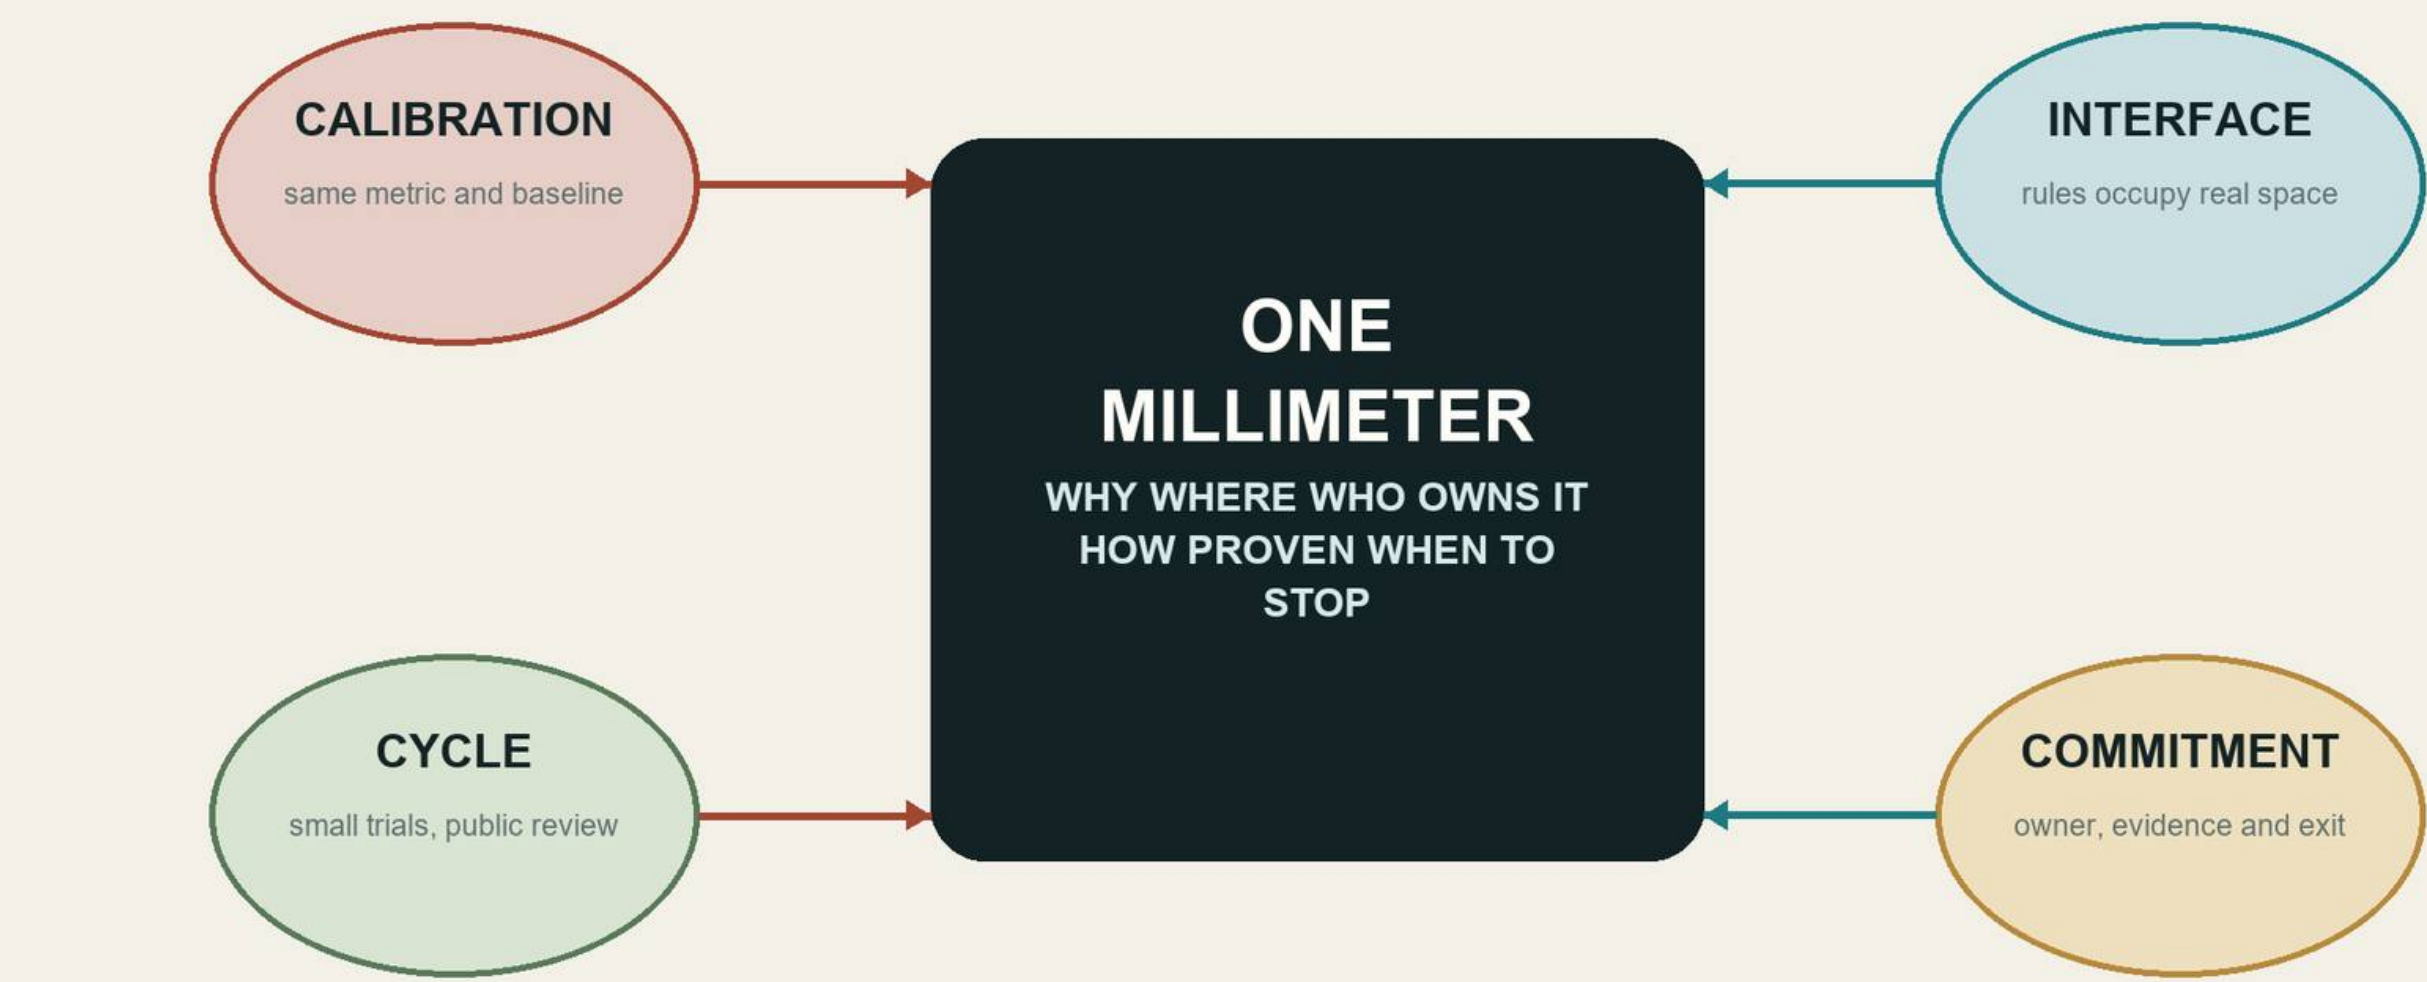

Turn urban ambition into verifiable, maintainable and reversible action

1 SPINE / 3 HUBS / 4 CONTINUITIES
Railway calibration, Zhongguancun experimentation and human accountability form one civic grammar.

ANALYSIS 01

One millimetre is nota slogan of size

Four meanings form an executable rule for city decisions

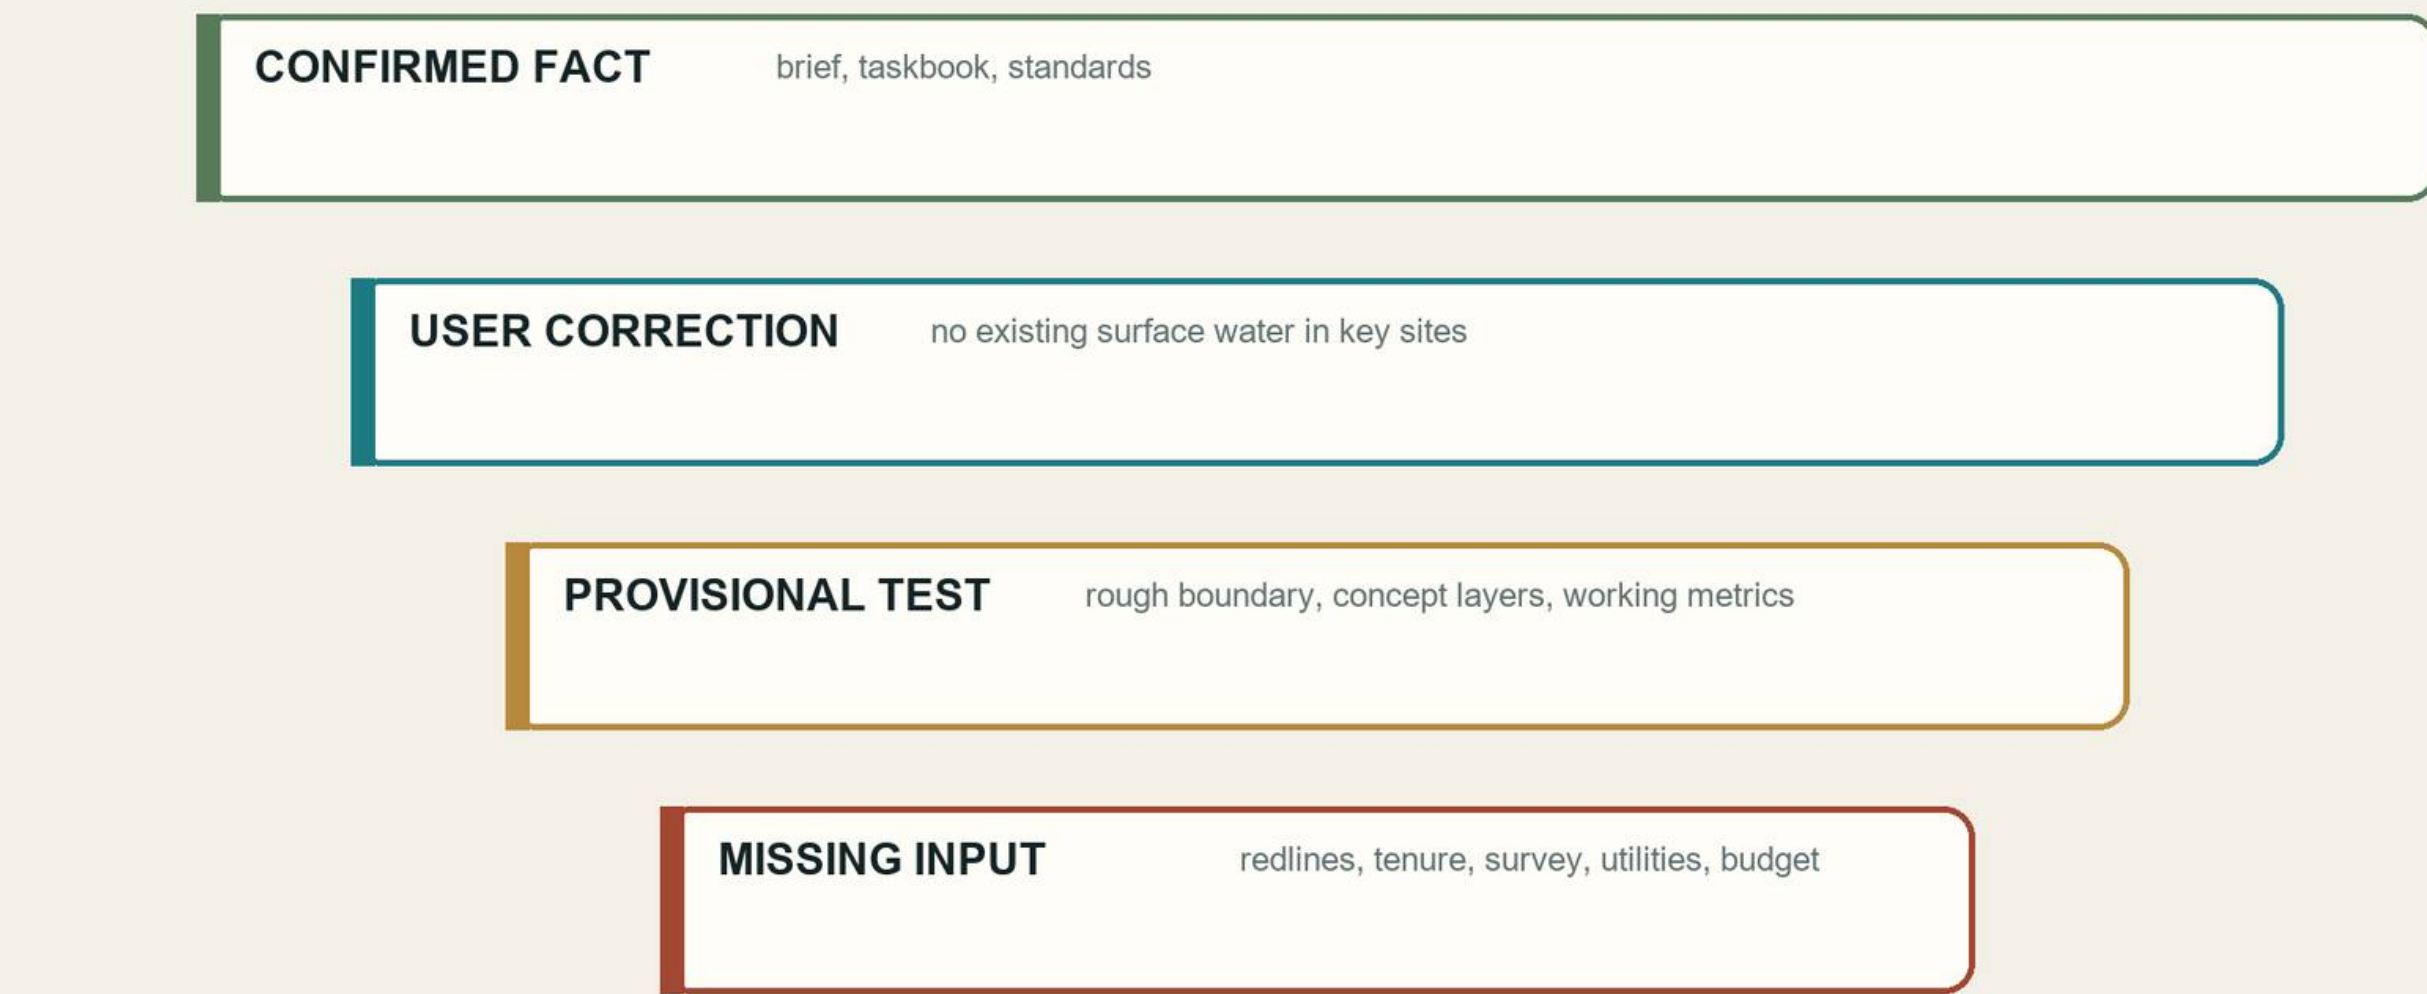

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

ANALYSIS 02

Separate fact, correction, test and unknown

Evidence strength—not graphic completeness—determines design depth

The closera decision is to construction, the stronger its evidence must be; renderings never fill unknowns.

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

ANALYSIS 04

Three scales, one responsibility chain

From 43.6 km² mechanism, to 11.4 km² structure, to three reversible demonstrators

43.6 km²COORDINATED RESEARCHresearch—industry—capital—urban life

11.4 km²OVERALL DESIGN9-km spine, three roles, four continuities

≈368.4 haTHREE KEY AREASreversible prototypes, interfaces, operations

The three levels form one responsibility chain from mechanism, to structure, to demonstrator—not three unrelated maps.

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

SCOPE

43.6 km² sets the mechanism, 11.4 km² the structure, and three key areas the near-term demonstrators

ANALYSIS 06

Seven gates from research to capital services

A project advances only with evidence, an accountable owner and an exit rule

PUBLIC NEEDcommunity/public dept

RESEARCHuniversities/labs

SHARED TECHopen-source maintainers

FIELD TESTZhongzhi Park

FIRST USEAI Origin

INCUBATIONprofessional services

CAPITAL READYDazhongsai/capital

Every gate leaves an owner, version, evidence, human review, resource boundary and exit condition.

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

ECOSYSTEM

Each gate adds reviewable evidence rather than another promotional claim

ANALYSIS 15

THREE KEY AREAS ARE NOT ISLANDS

Validation, translation and public amplification sit on one evidence spine

QINGHE MATERIALS COURT
G1-G3 VALIDATE

AI ORIGIN SHARED COURT
G3-G5 TRANSLATE

DAZHONGSI STAGE
G4-G6 AMPLIFY

NORTH WING: RESEARCH + SAFETY

- TASK LIBRARY
- SPECIALISTS
- SITE PERMIT

CENTRE: COMMUNITY + UPKEEP

- FIRST USERS
- UPKEEP LEDGER
- HUMAN SERVICE

SOUTH WING: SERVICES + CAPITAL

- PUBLIC REVIEW
- INCUBATION
- CROSS-CITY REUSE

Concept spatial organisation using provisional geometry; redraw from formal survey, tenure, heritage and utility data before implementation.

JING-ZHANG ONE MILLIMETER

ANALYSIS 05

Six tasks are not six separate lists

Concept, ecosystem, scenes, space, culture and operations form one causal loop

01CONCEPTone name and decision rule

02ECOSYSTEMconnect research to first use and capital

03AI+ SCENESplace services in real interfaces

04PUBLIC SPACEmake evidence visible and accessible

05CULTUREturn three cultures into one route

06OPERATIONSkeep producing and reviewing projects

Each task enables the next; operating evidence returns to revise the concept and scenarios.

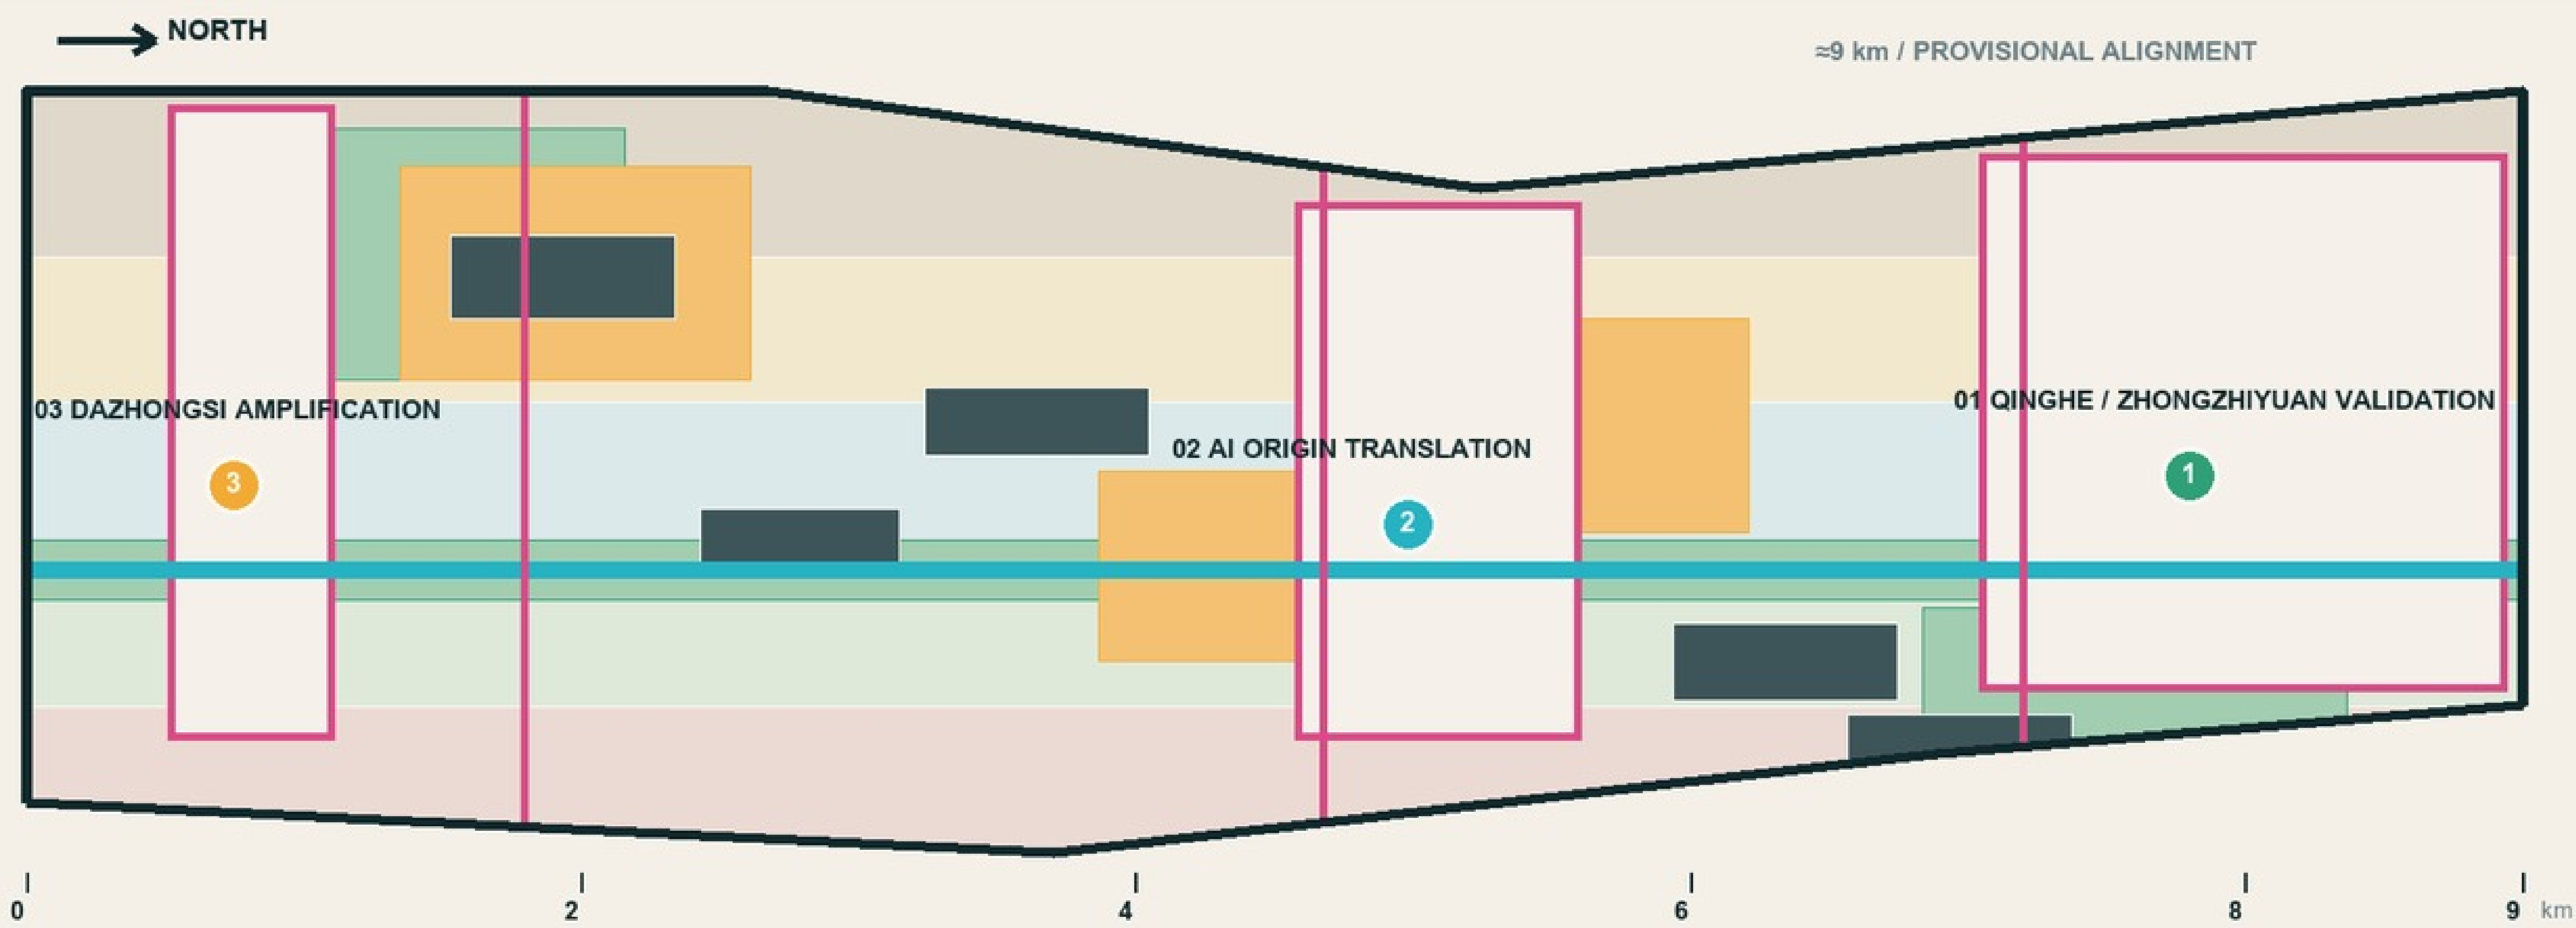

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

ANALYSIS 18

A 9 KM DELIVERY PLAN: THREE HUBS, ONE PUBLIC SPINE

Validation in the north, translation in the centre, public amplification in the south; continuity precedes landmarks

READING ORDER

- NORTH / PRODUCE EVIDENCE**
Materials, components and safety; sample first, district later
- CENTRE / TRANSLATE SERVICE**
Open maintenance, first use, staffed support and complaint closure
- SOUTH / PUBLIC AMPLIFICATION**
Professional review, voluntary trials, global release and published failure

FOUR BASELINES
Accessible continuity · commuter cycling · heritage narrative · dry shade

Concept spatial organisation based on provisional geometry; verify survey, tenure, heritage, trees and utilities before delivery.

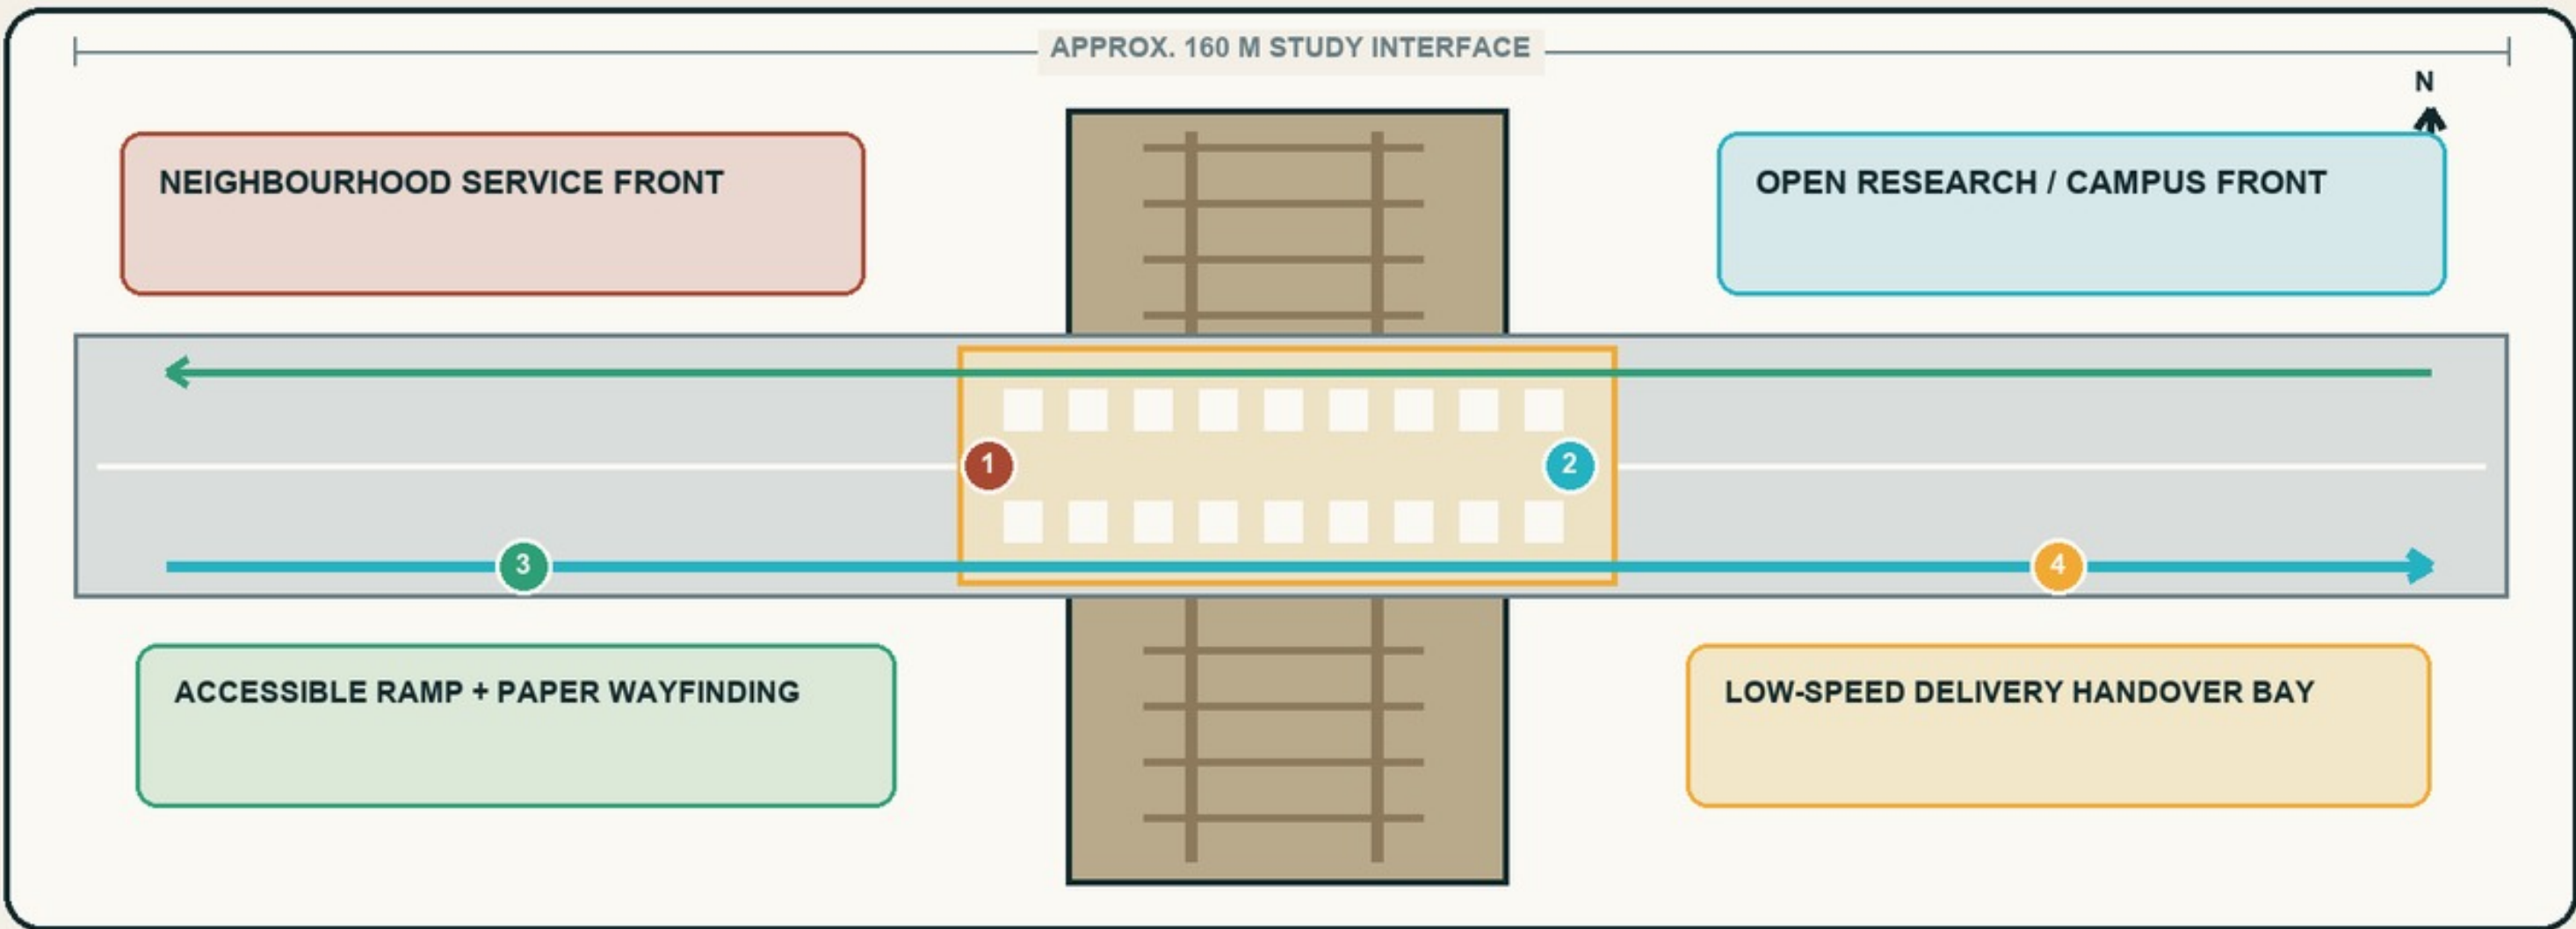

JING-ZHANG ONE MILLIMETER

WHOLE CORRIDOR
One corridor diagram assigns duties to each segment instead of colouring five isolated parks

NODE PLAN 00

CROSS-LINK REPAIR: TURN THE RAIL EDGE INTO A MANAGED DISTRICT INTERFACE

Crossing, ramps, lighting, staffed ground floors and low-speed logistics coordinated within an approximately 160 m interface

INTERFACE PASS CONDITIONS

- 01 CONFIRM TWICE**
Direction, ramp and staffed service are visible on both sides
- 02 SLOW CONFLICT**
Cyclists slow at the table; delivery stops only in the bay
- 03 WORKS AT NIGHT**
Lighting covers faces, ramps, waiting and alarms
- 04 OUTAGE ≠ CLOSURE**
Paper routes and human service survive digital failure

CONCEPT ONLY

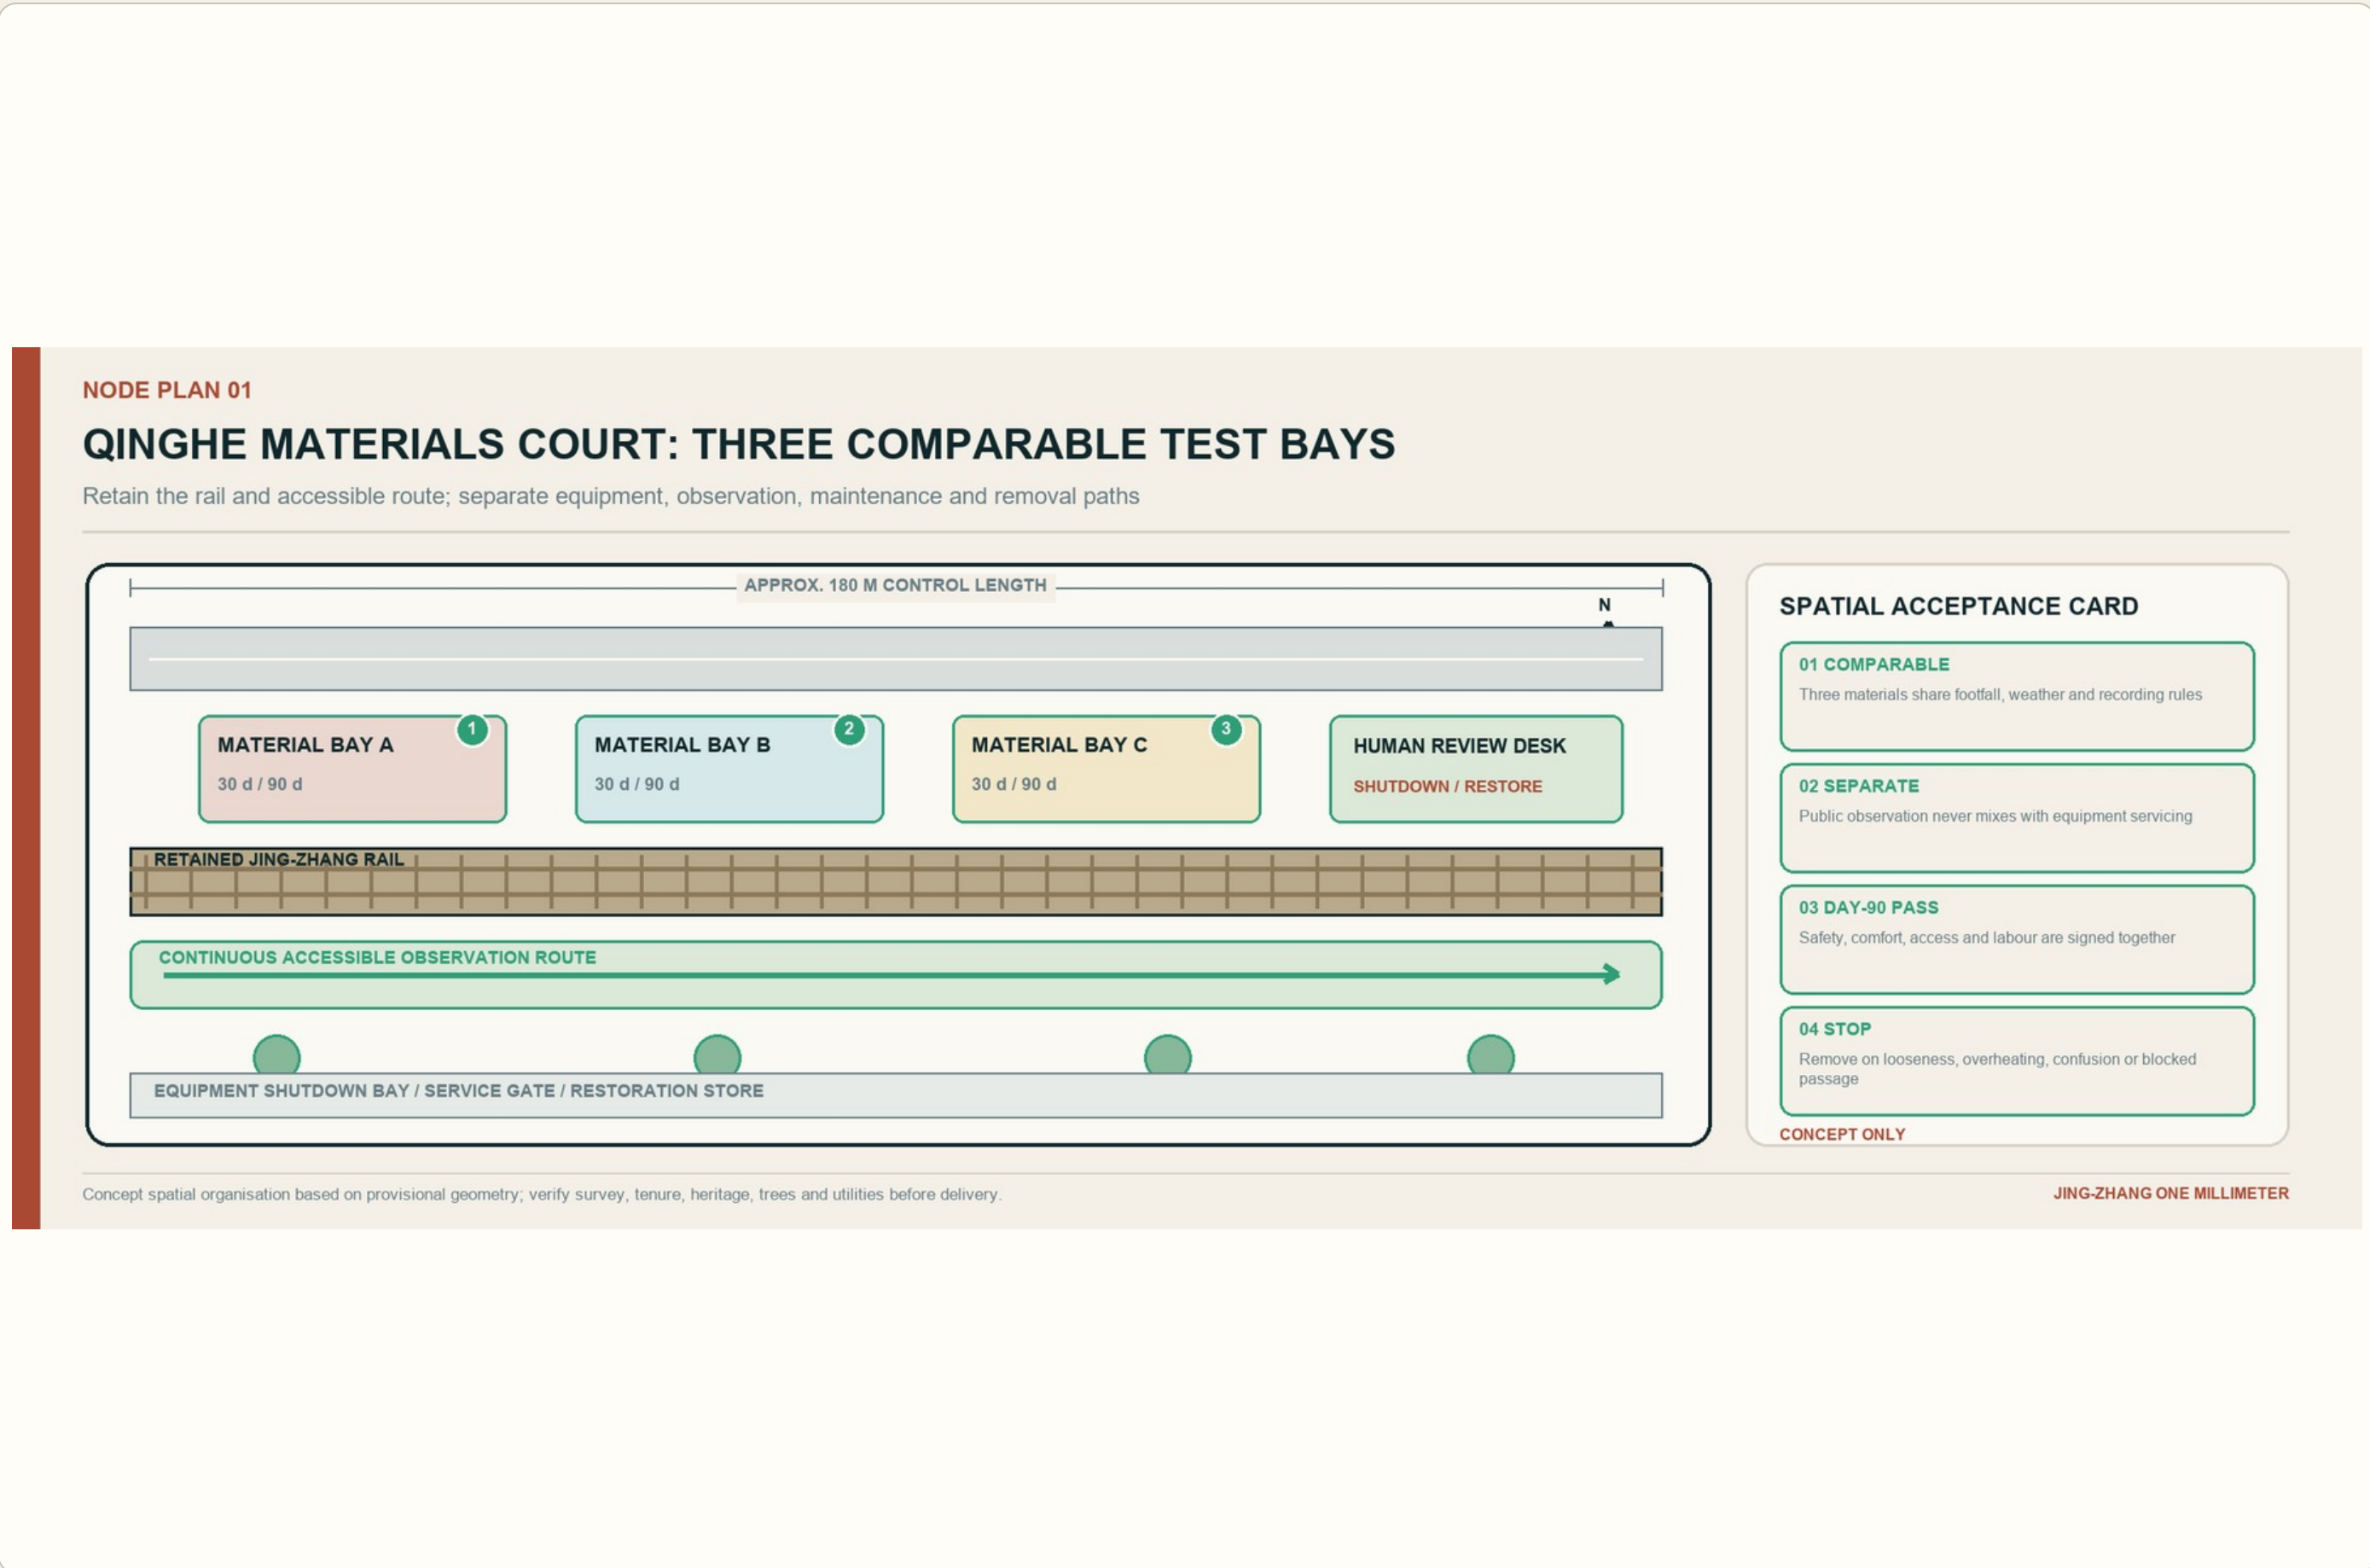

Concept spatial organisation based on provisional geometry; verify survey, tenure, heritage, trees and utilities before delivery.

JING-ZHANG ONE MILLIMETER

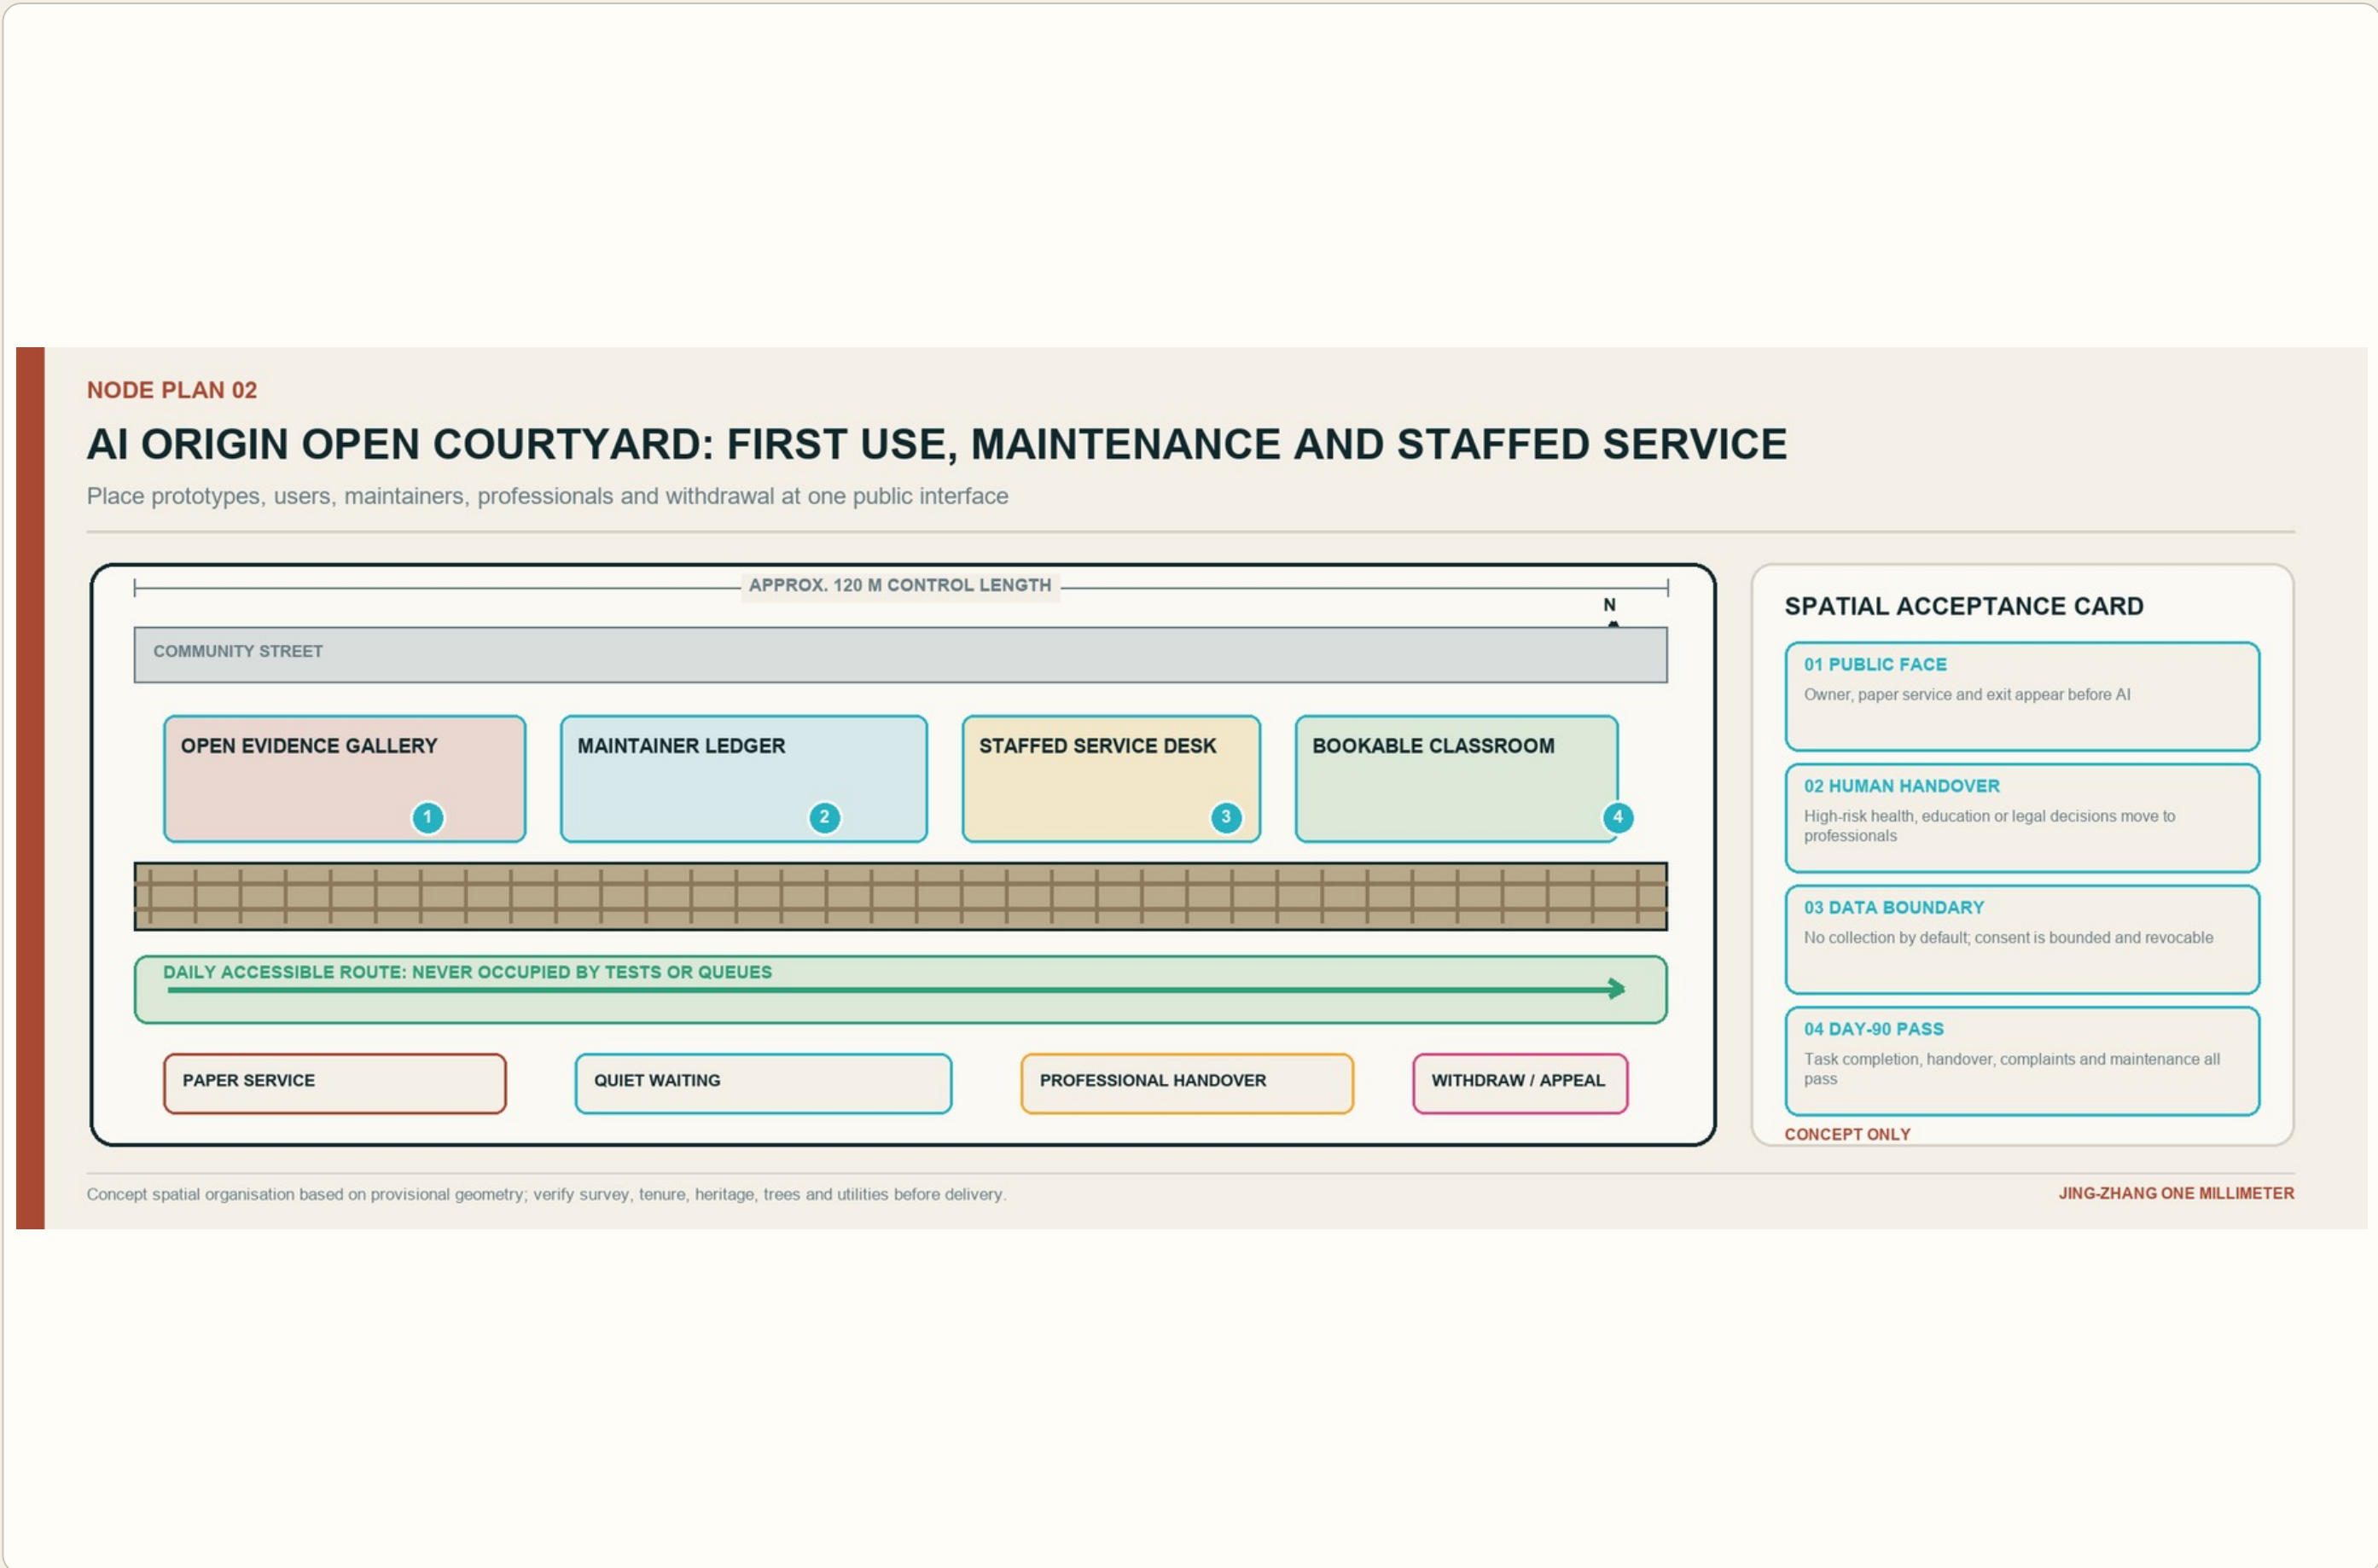

38 M TYPICAL SECTION: A COMPATIBILITY TEST

Priority: accessibility + heritage > cycling + shade > events + digital

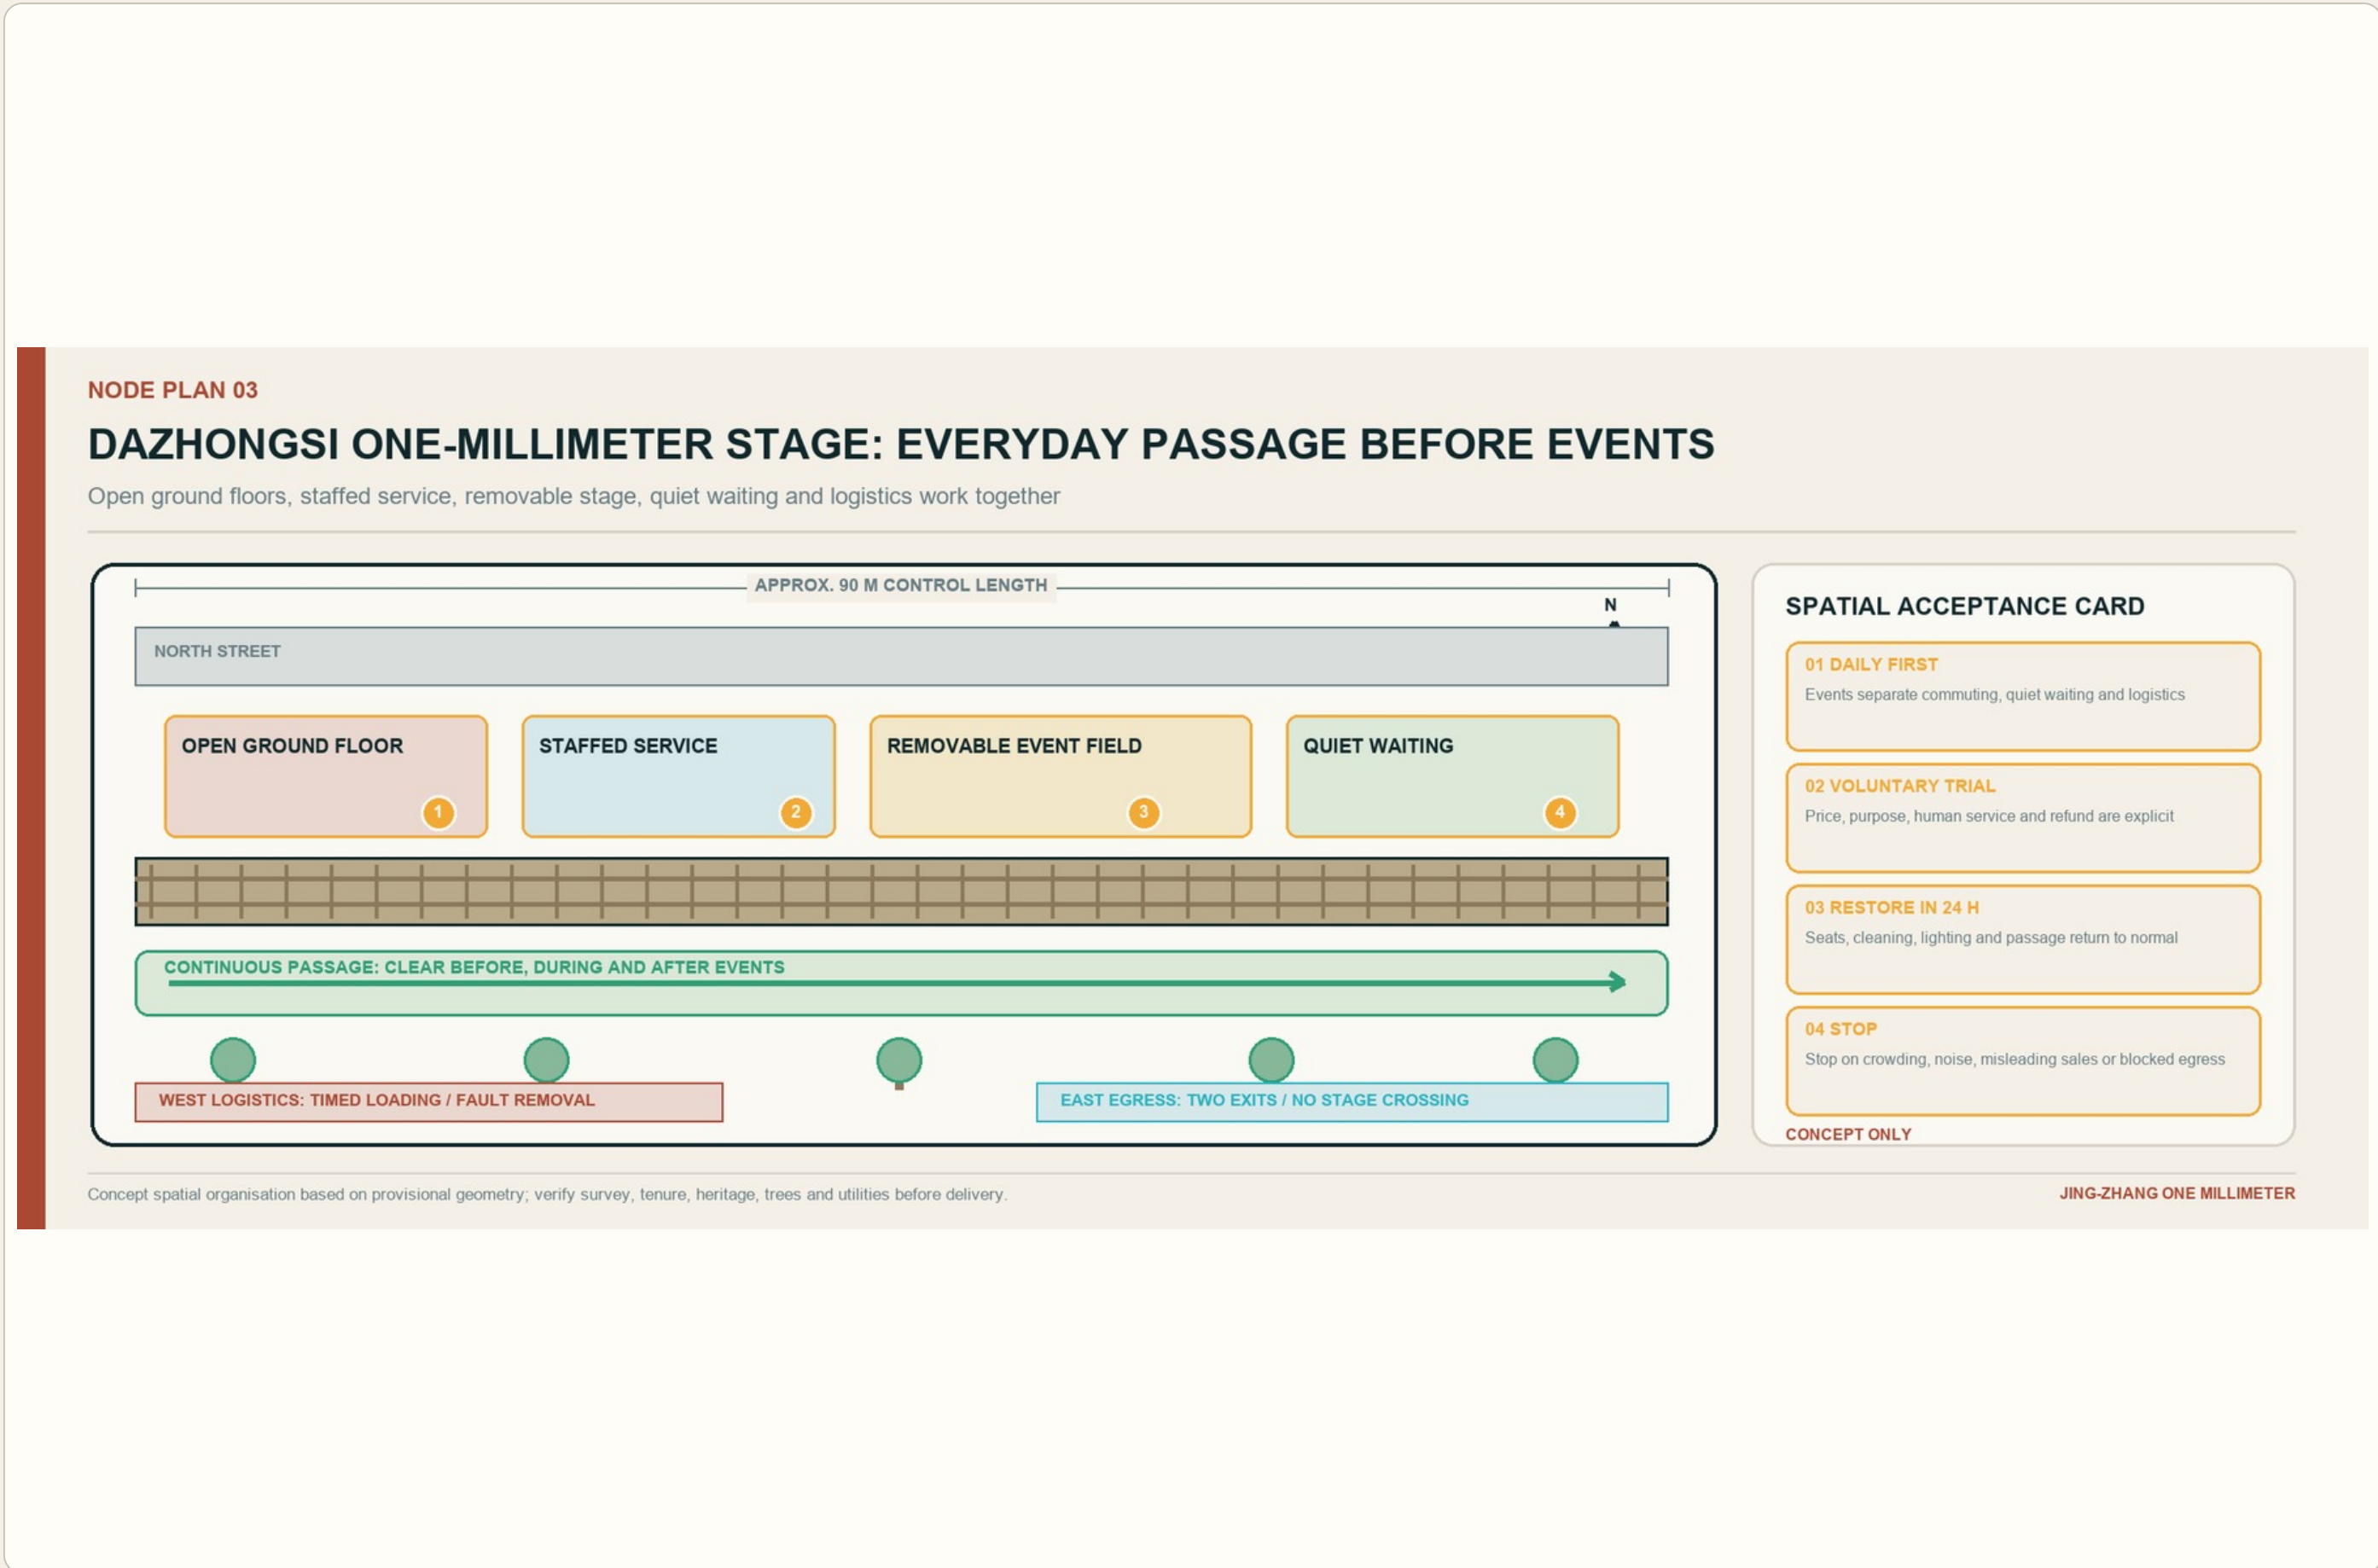

01
Qinghe Materials Validation Court: make urban materials produce reproducible evidence

02
AI Origin Shared Courtyard: turn prototypes into maintained public products

03
Dazhongsi One-Millimetre Stage: expose mature services to public and market review

ANALYSIS 17

AI+ PLACEMENT: THREE SERVICES, THREE ACCOUNTABILITY PROTOCOLS

Healthcare, education and commerce answer spatial interface, human handover, data boundary and day-90 acceptance differently

AI + HEALTHCARE	AI + EDUCATION	AI + COMMERCE
SPACE Staffed navigation desk + private handover room HUMAN Clinical decisions remain with registered professionals DATA No retention by default; minimum fields and timed consent DAY 90 Handover time, misdirection and complaints; stop on any serious event A HUMAN EXIT PATH IS MANDATORY	SPACE Bookable class + teacher observation + opt-out seats HUMAN Teachers review content and decide classroom use DATA No default profiling of minors; work can be withdrawn DAY 90 Comprehension, teacher labour and equity; stop if unexplainable A HUMAN EXIT PATH IS MANDATORY	SPACE Voluntary trial + visible price + staffed refund point HUMAN Merchant owns transaction, aftercare and disputes DATA Trial is separate from payment; no profile-based price discrimination DAY 90 Conversion, refunds and misleading claims; stop on coercion A HUMAN EXIT PATH IS MANDATORY

Concept spatial organisation based on provisional geometry; verify survey, tenure, heritage, trees and utilities before delivery.

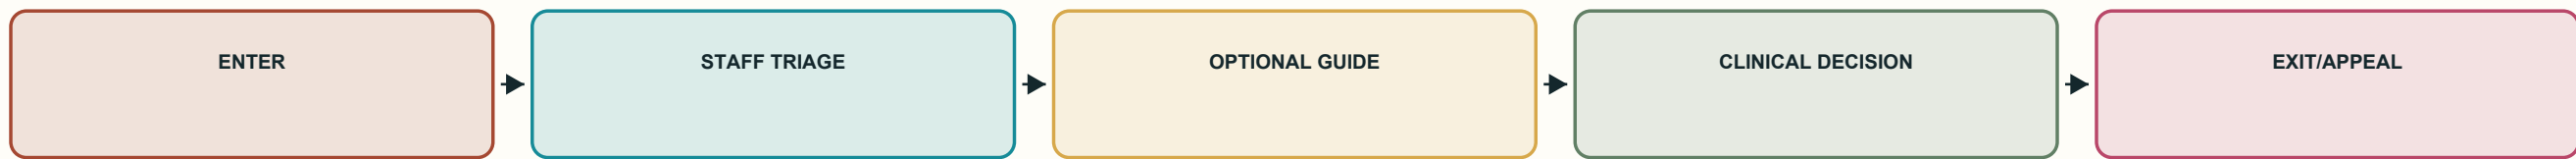

JING-ZHANG ONE MILLIMETER

PLACE BY RISK FIRST

Materials and robotics validate in Qinghe, public services begin at Origin, and mature projects face public review at Dazhongsi

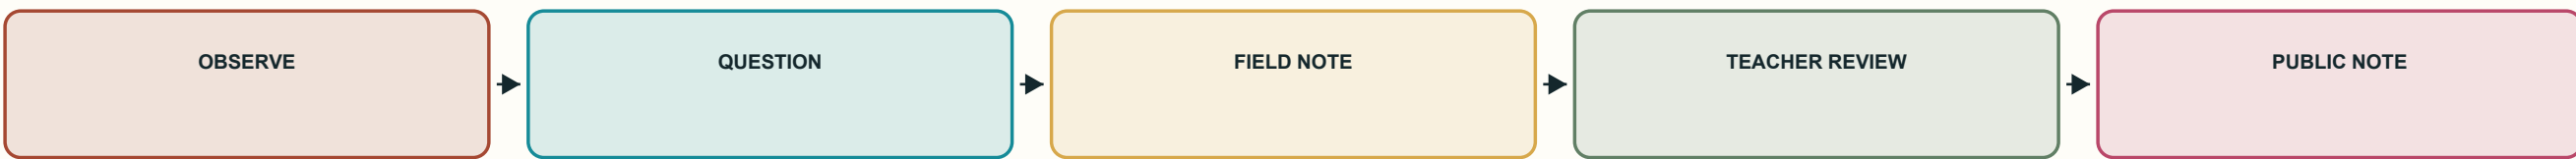

HEALTH SERVICE JOURNEY: AI STOPS BEFORE CLINICAL DECISION

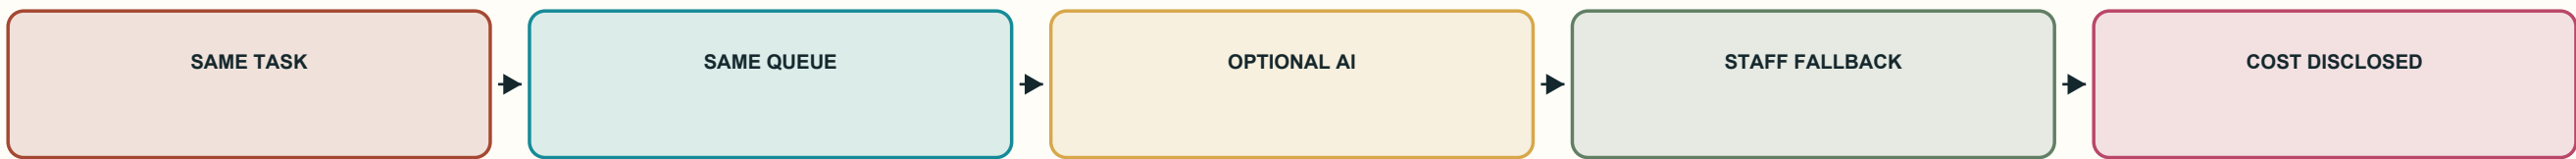

Red line: no diagnosis and no medical-record access; staffed service remains visible and users can exit.

CITY CLASSROOM: FROM OBSERVATION TO TEACHER REVIEW

AI only supports recording and comparison; teachers retain task definition, review and conclusion.

TRUSTED TRIAL: SAME TASK, SAME QUEUE, STAFF FALLBACK

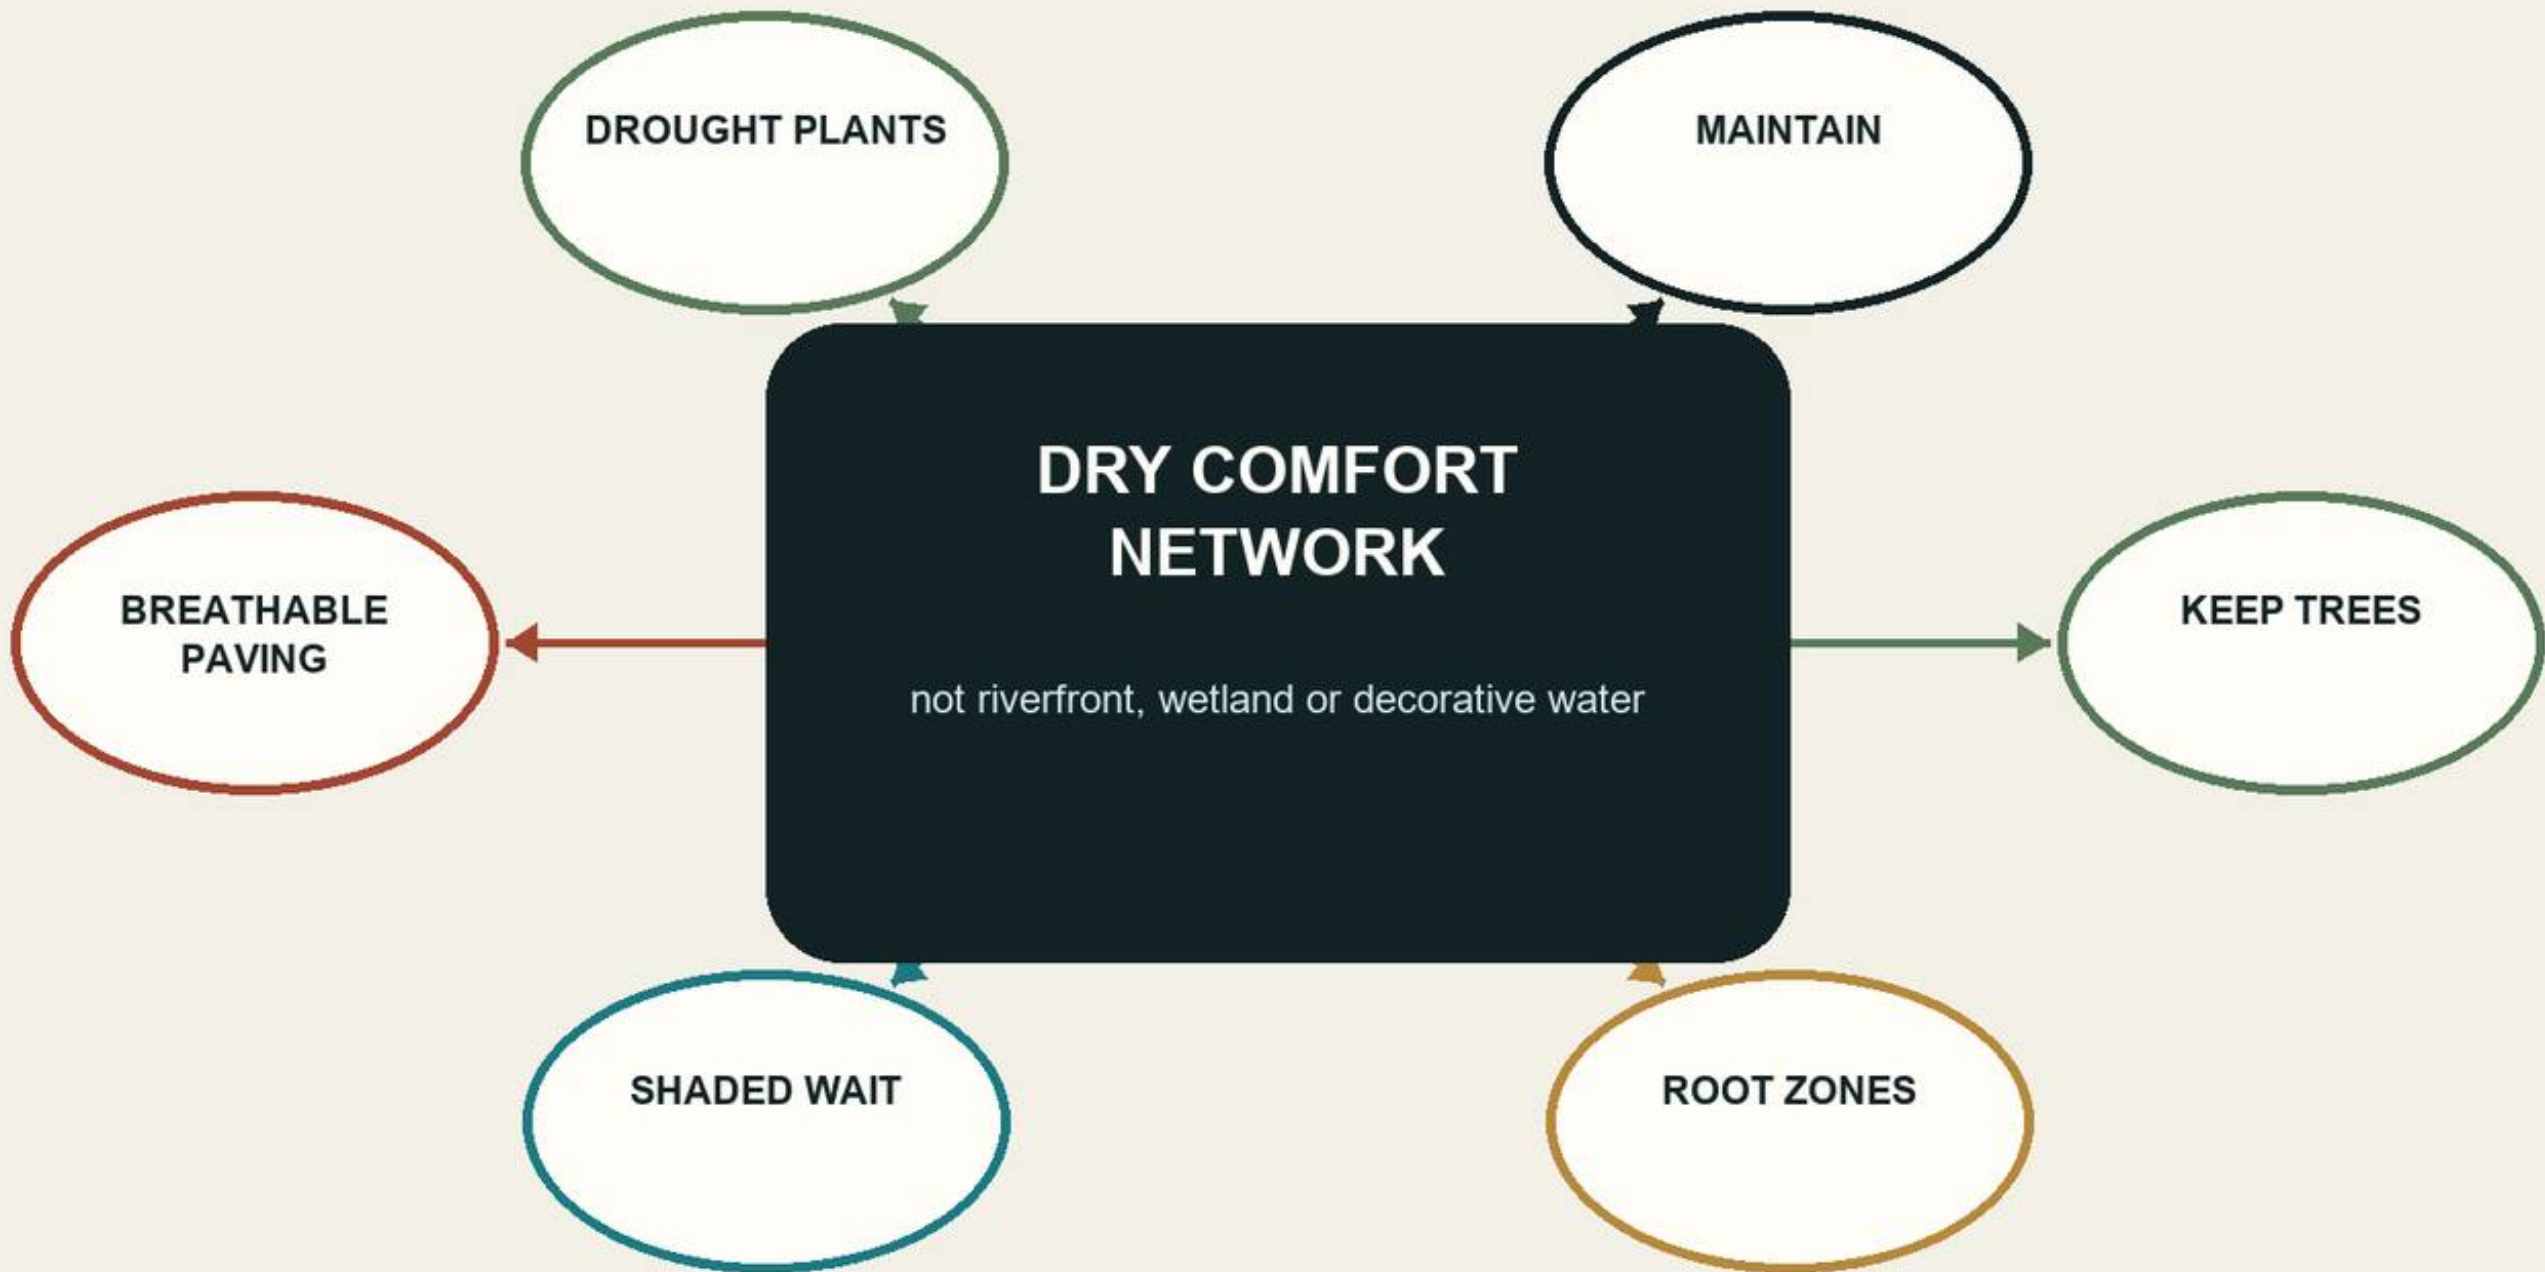

Trials compare with ordinary service; opt-out, appeal, cost and upkeep are disclosed.

ANALYSIS 10

A dry site can still deliver high-quality public ecology

Trees, root zones, shade, paving, drought planting and upkeep forma dry comfort network

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

DRY COMFORT

Do not invent rivers or wetlands; improve performance through inspectable shade, breathable roots and maintenance orders

ANALYSIS 18

ONE-MILLIMETRE KIT: EIGHT MAINTAINABLE PARTS

Share connection, service, shutdown and removal logic—not one repeated form

Concept spatial organisation using provisional geometry; redraw from formal survey, tenure, heritage and utility data before implementation.

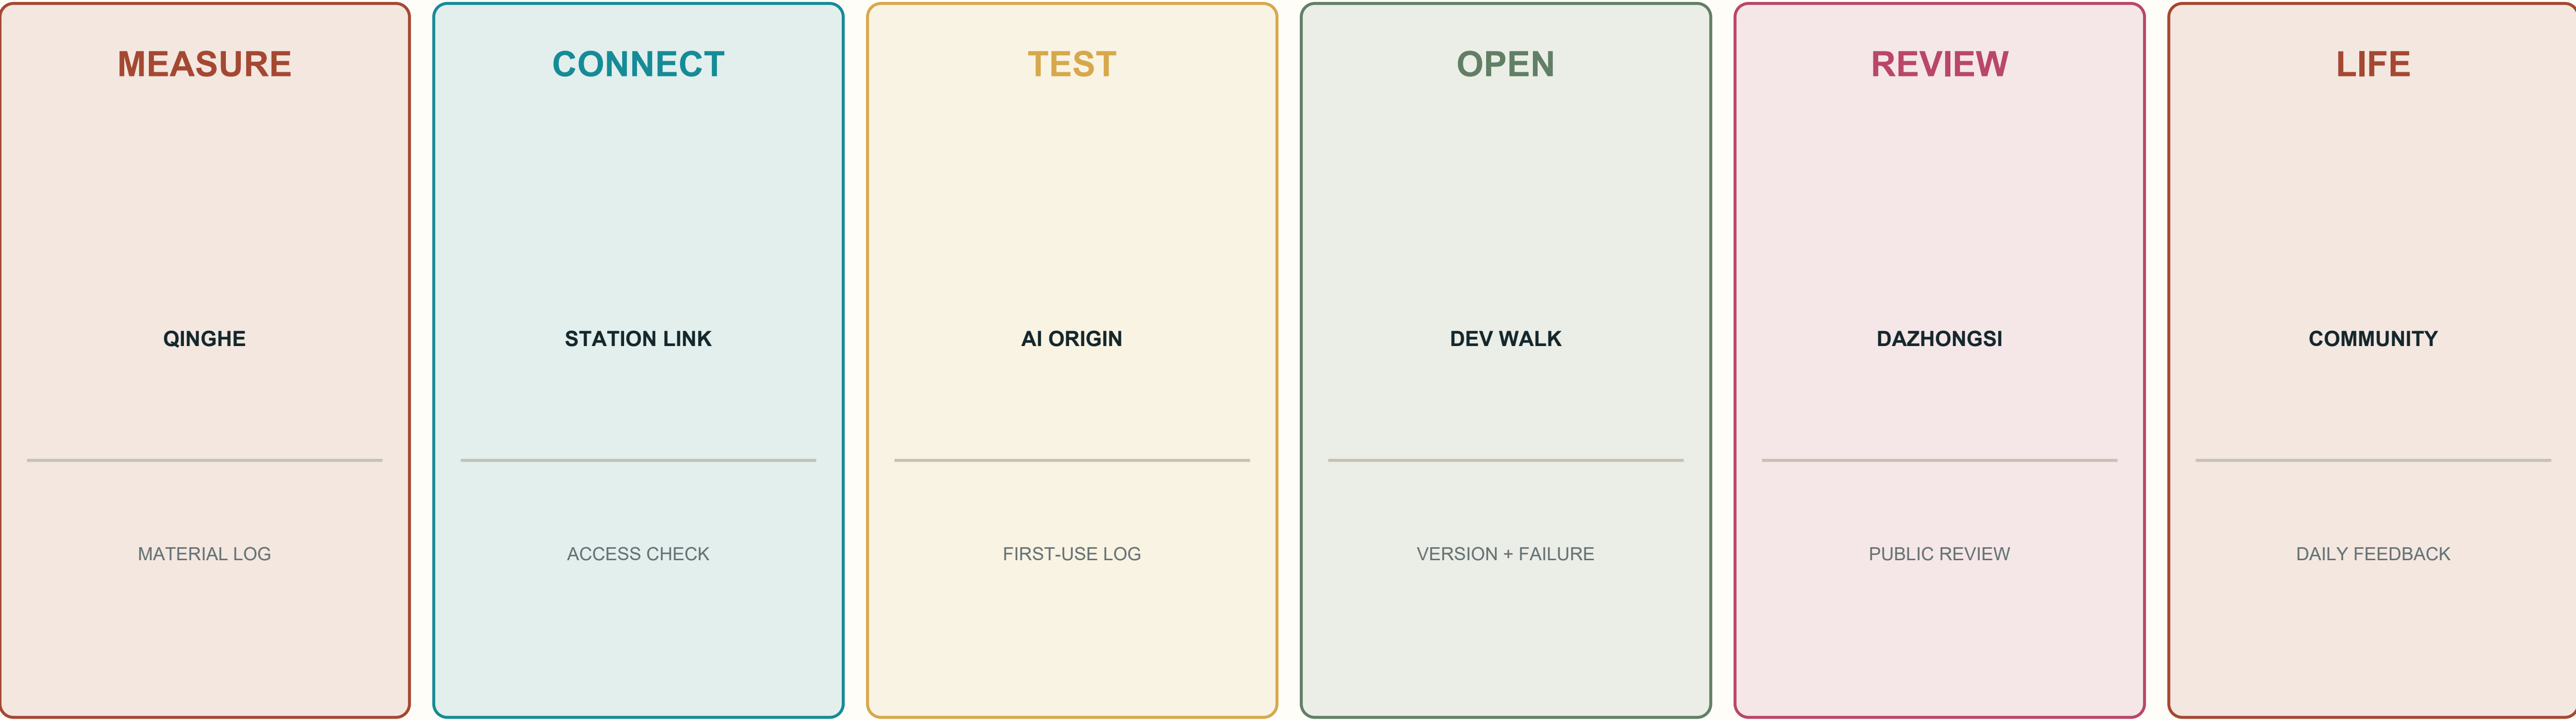

JING-ZHANG ONE MILLIMETER

MAINTAINABLE PARTS

Each component can be installed, isolated, replaced and removed independently, with a named maintainer and failure state

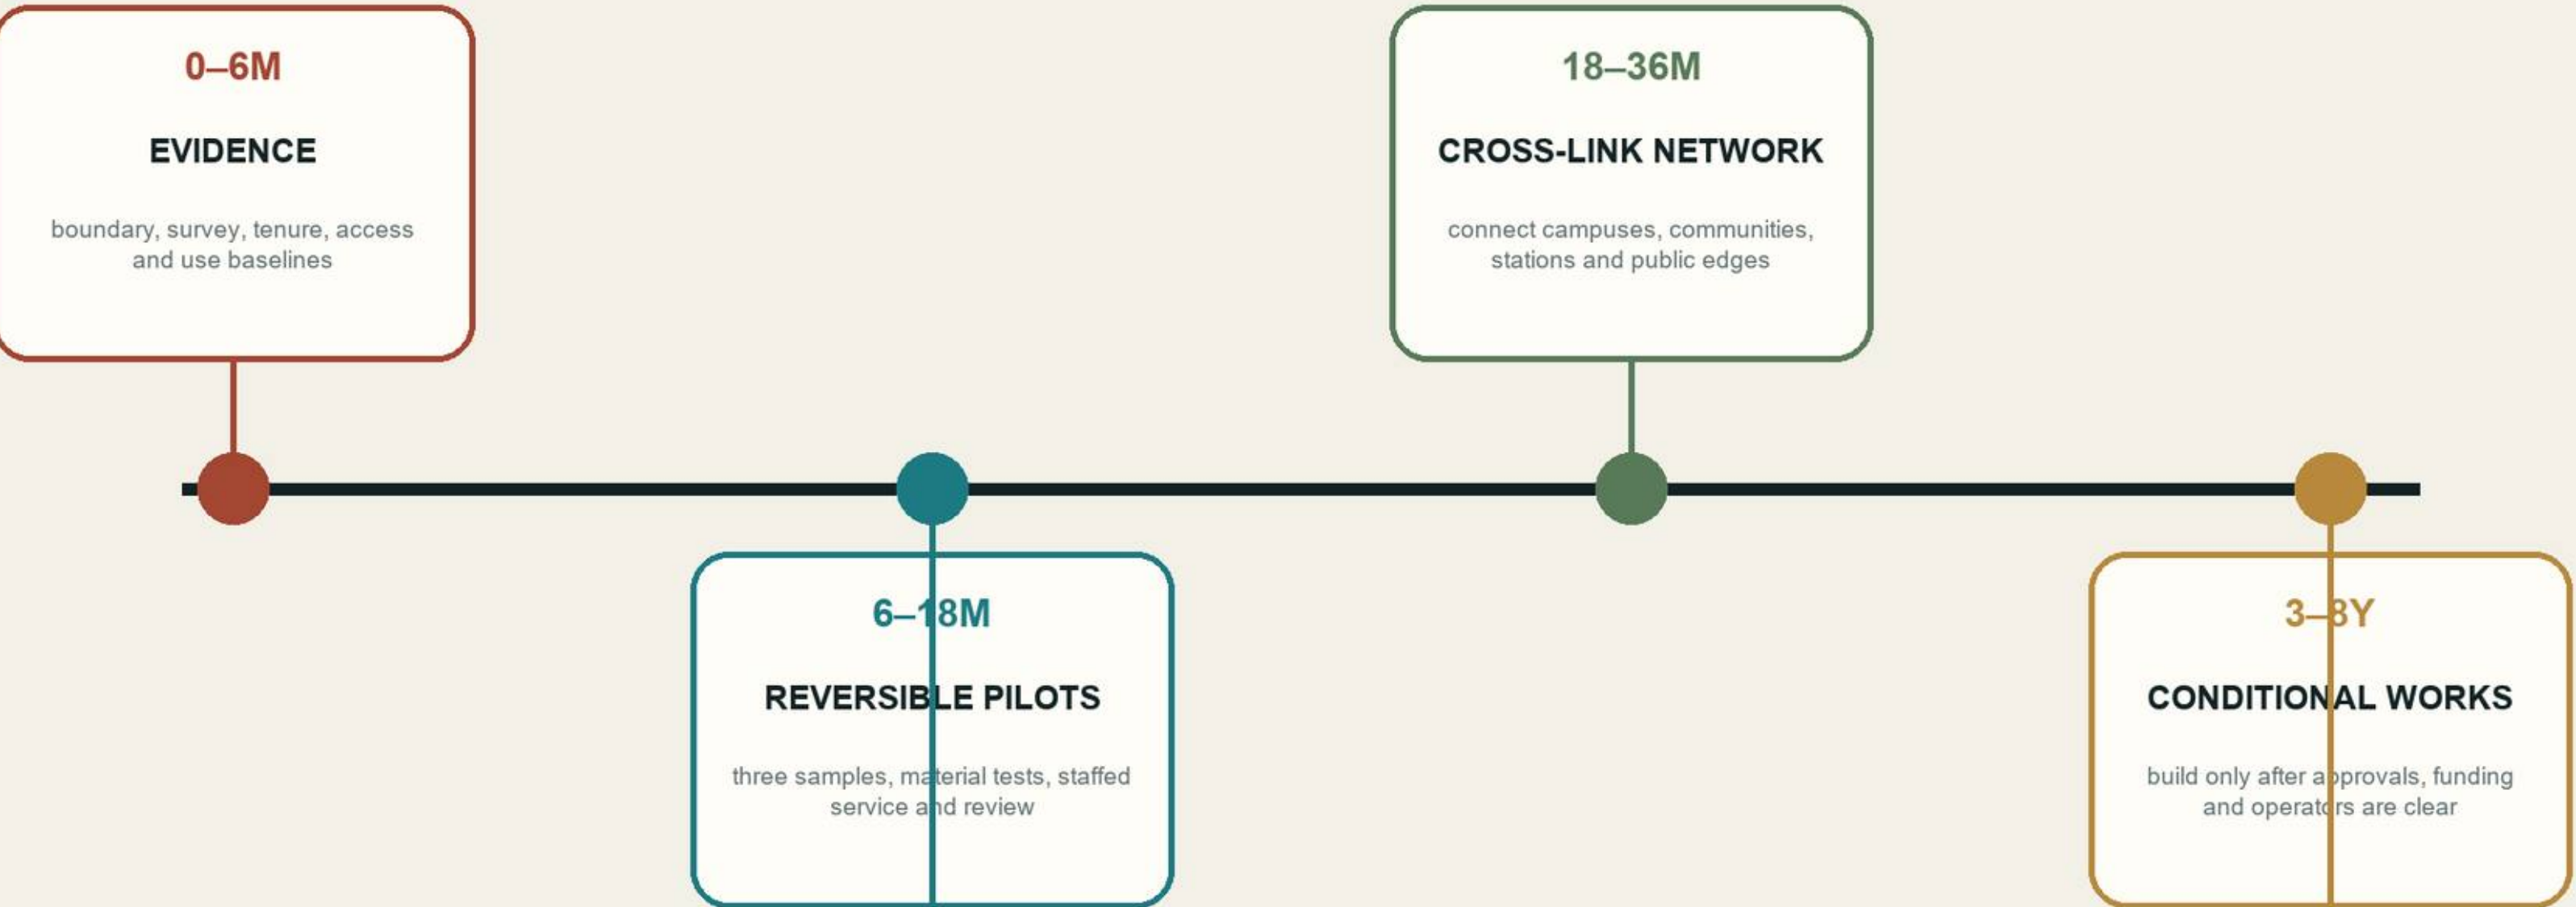

SIX-STOP CULTURAL ROUTE: EVERY STOP DELIVERS PUBLIC EVIDENCE

ANALYSIS 11

Build evidence before reversible pilots

Irreversible works wait until data, approvals, funding and operators are all in place

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

ANALYSIS 12

Turn the strategy into six deliverable work packages

Every package has prerequisites, accountability, acceptance and stop rules

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

DELIVERY

Confirm responsibility and evidence, then run a 90-day pilot; without upkeep records, do not expand

EVIDENCE LOOP

Success is not maximum foothall, but real use, professional review and maintained improvement

ANALYSIS 13

The annual programme isa production line, nota festival

A four-season loop records needs, trials, Open Week and review in one evidence ledger

Source: public call brief, agent taskbook and proposal working data; design-analysis basis only

JING-ZHANG ONE MILLIMETER

METRIC LAYERS: FACT, CONCEPT, OPERATION,

Do not turn provisional geometry, renderings, or concepts into performance claims
