

THE FALLBACK LINE

A civic line that keeps working when AI fails

PROVISIONAL / CONCEPT

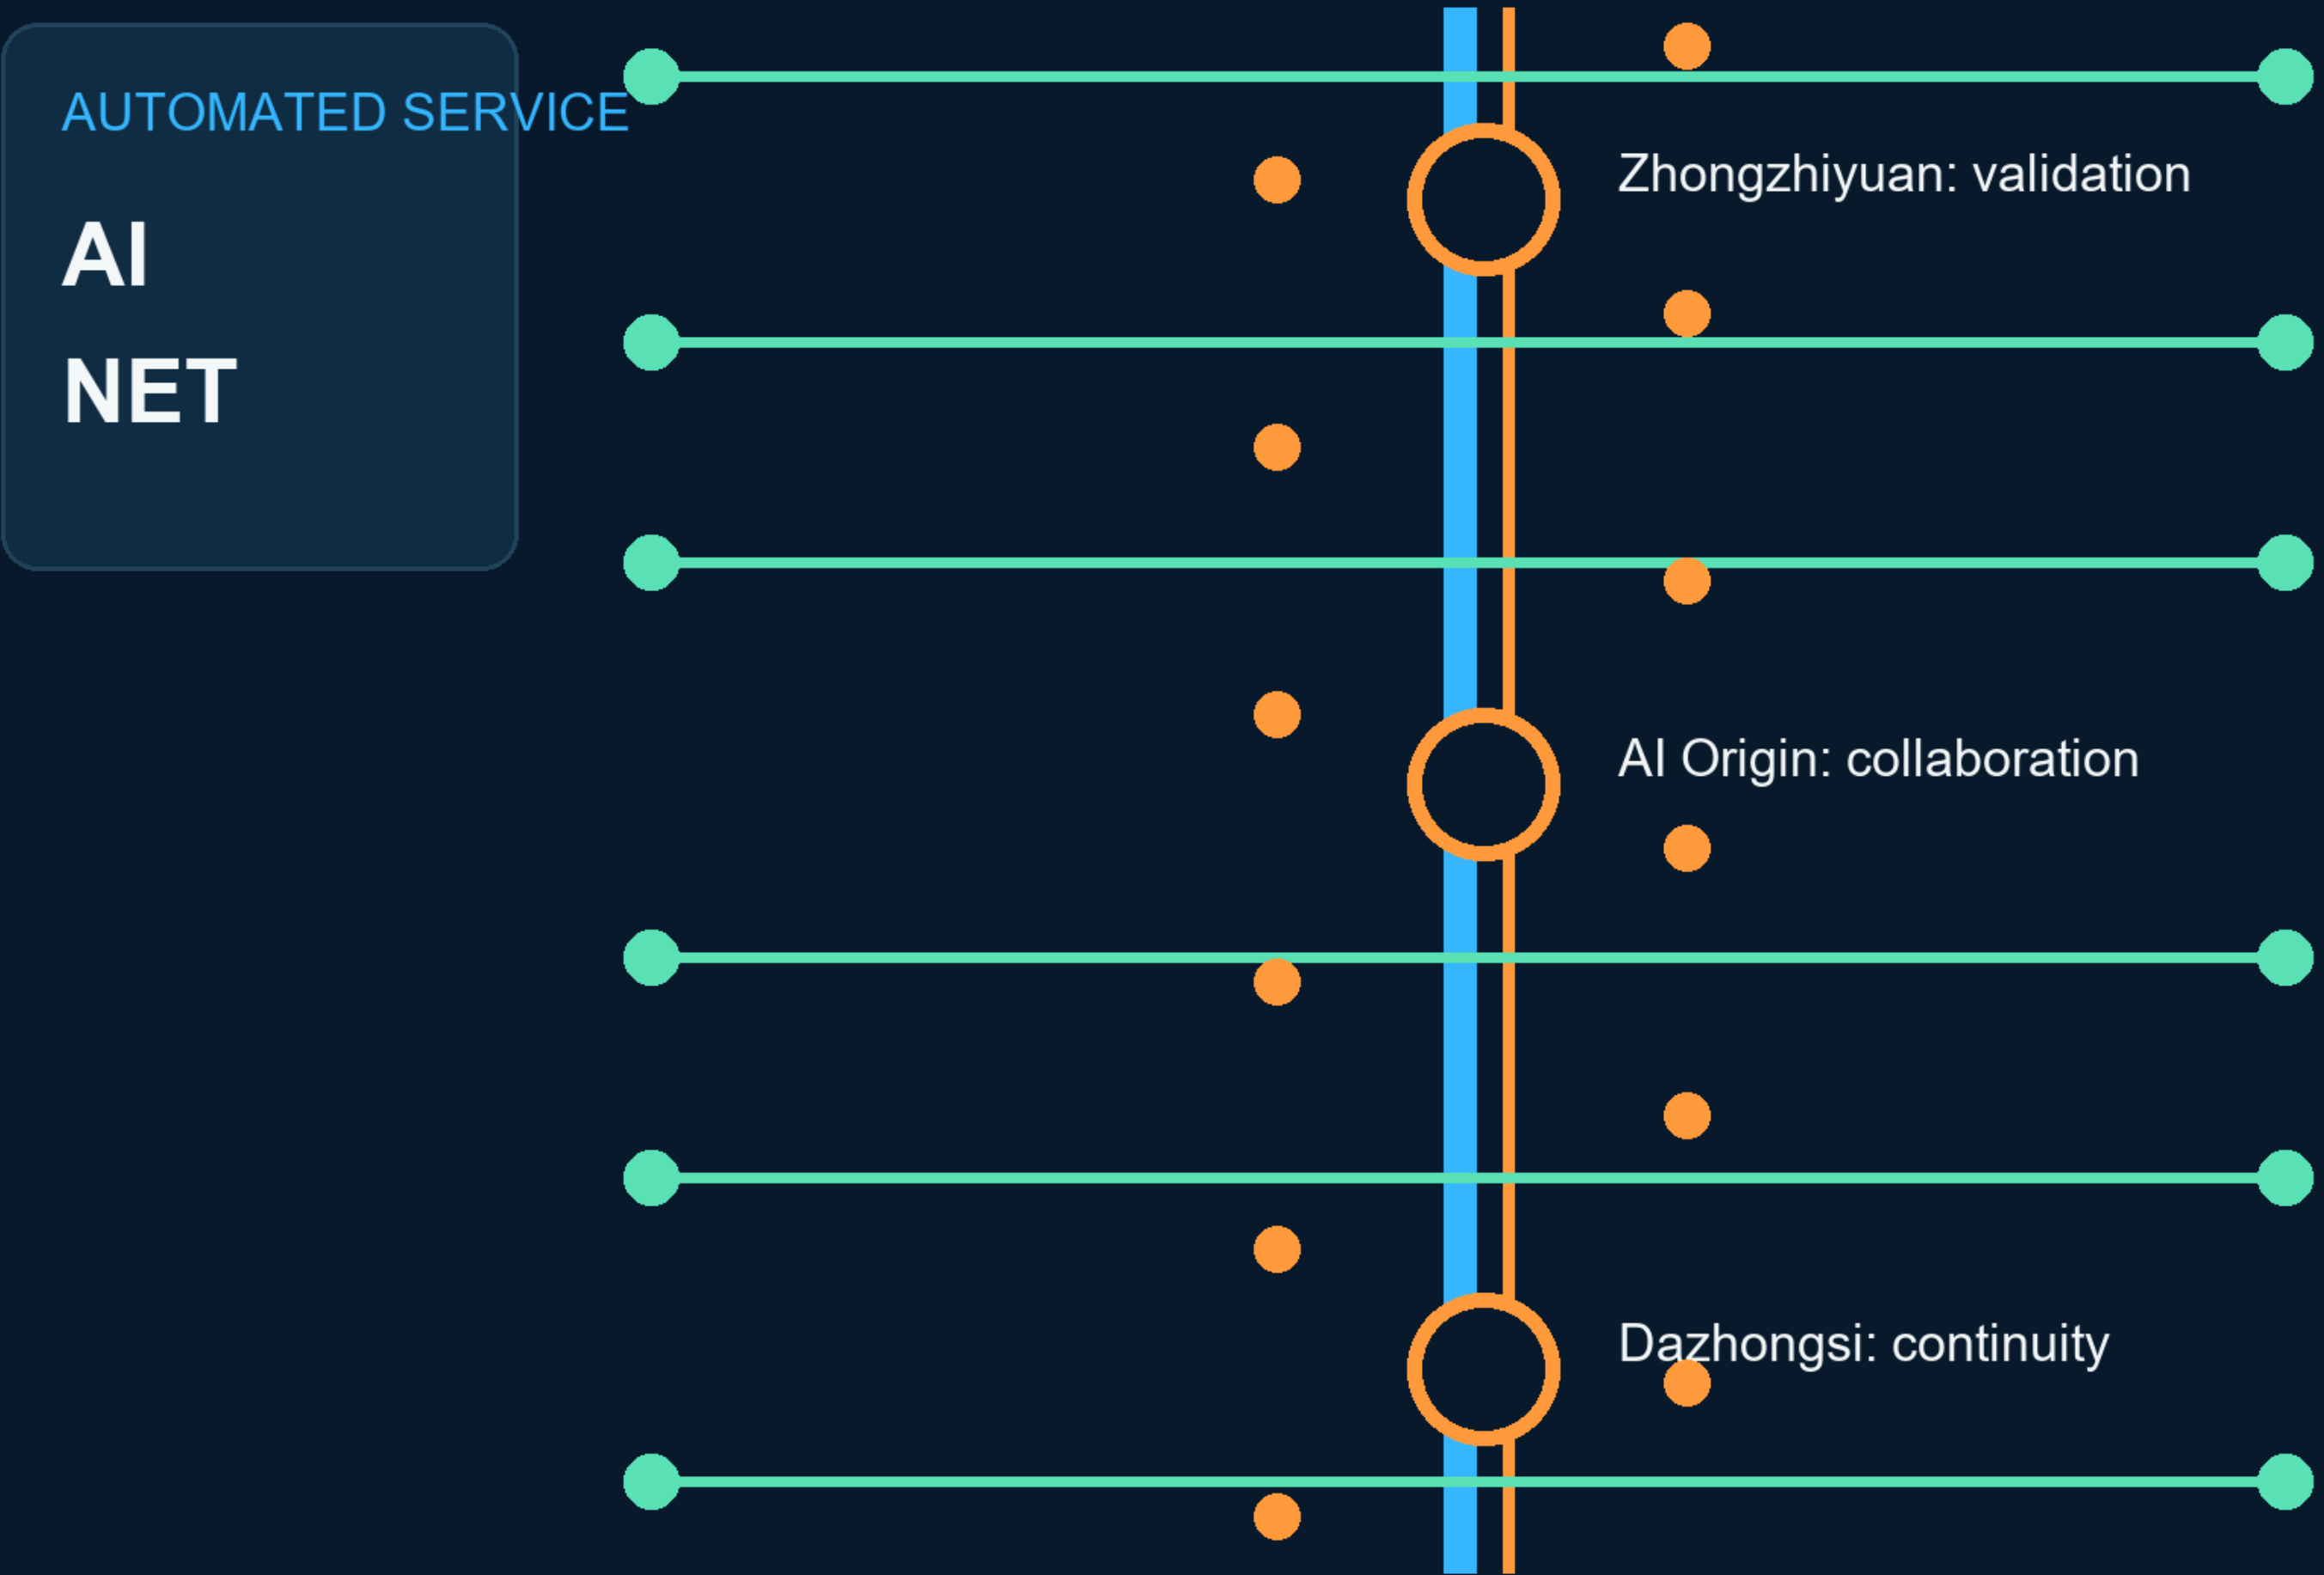

Source: submission GeoJSON and metrics.json. Provisional geometry is not an official redline.

THREE SCALES, ONE CONTINUITY PROTOCOL

One line - three stations - six crossings - twelve nodes

PROVISIONAL / CONCEPT

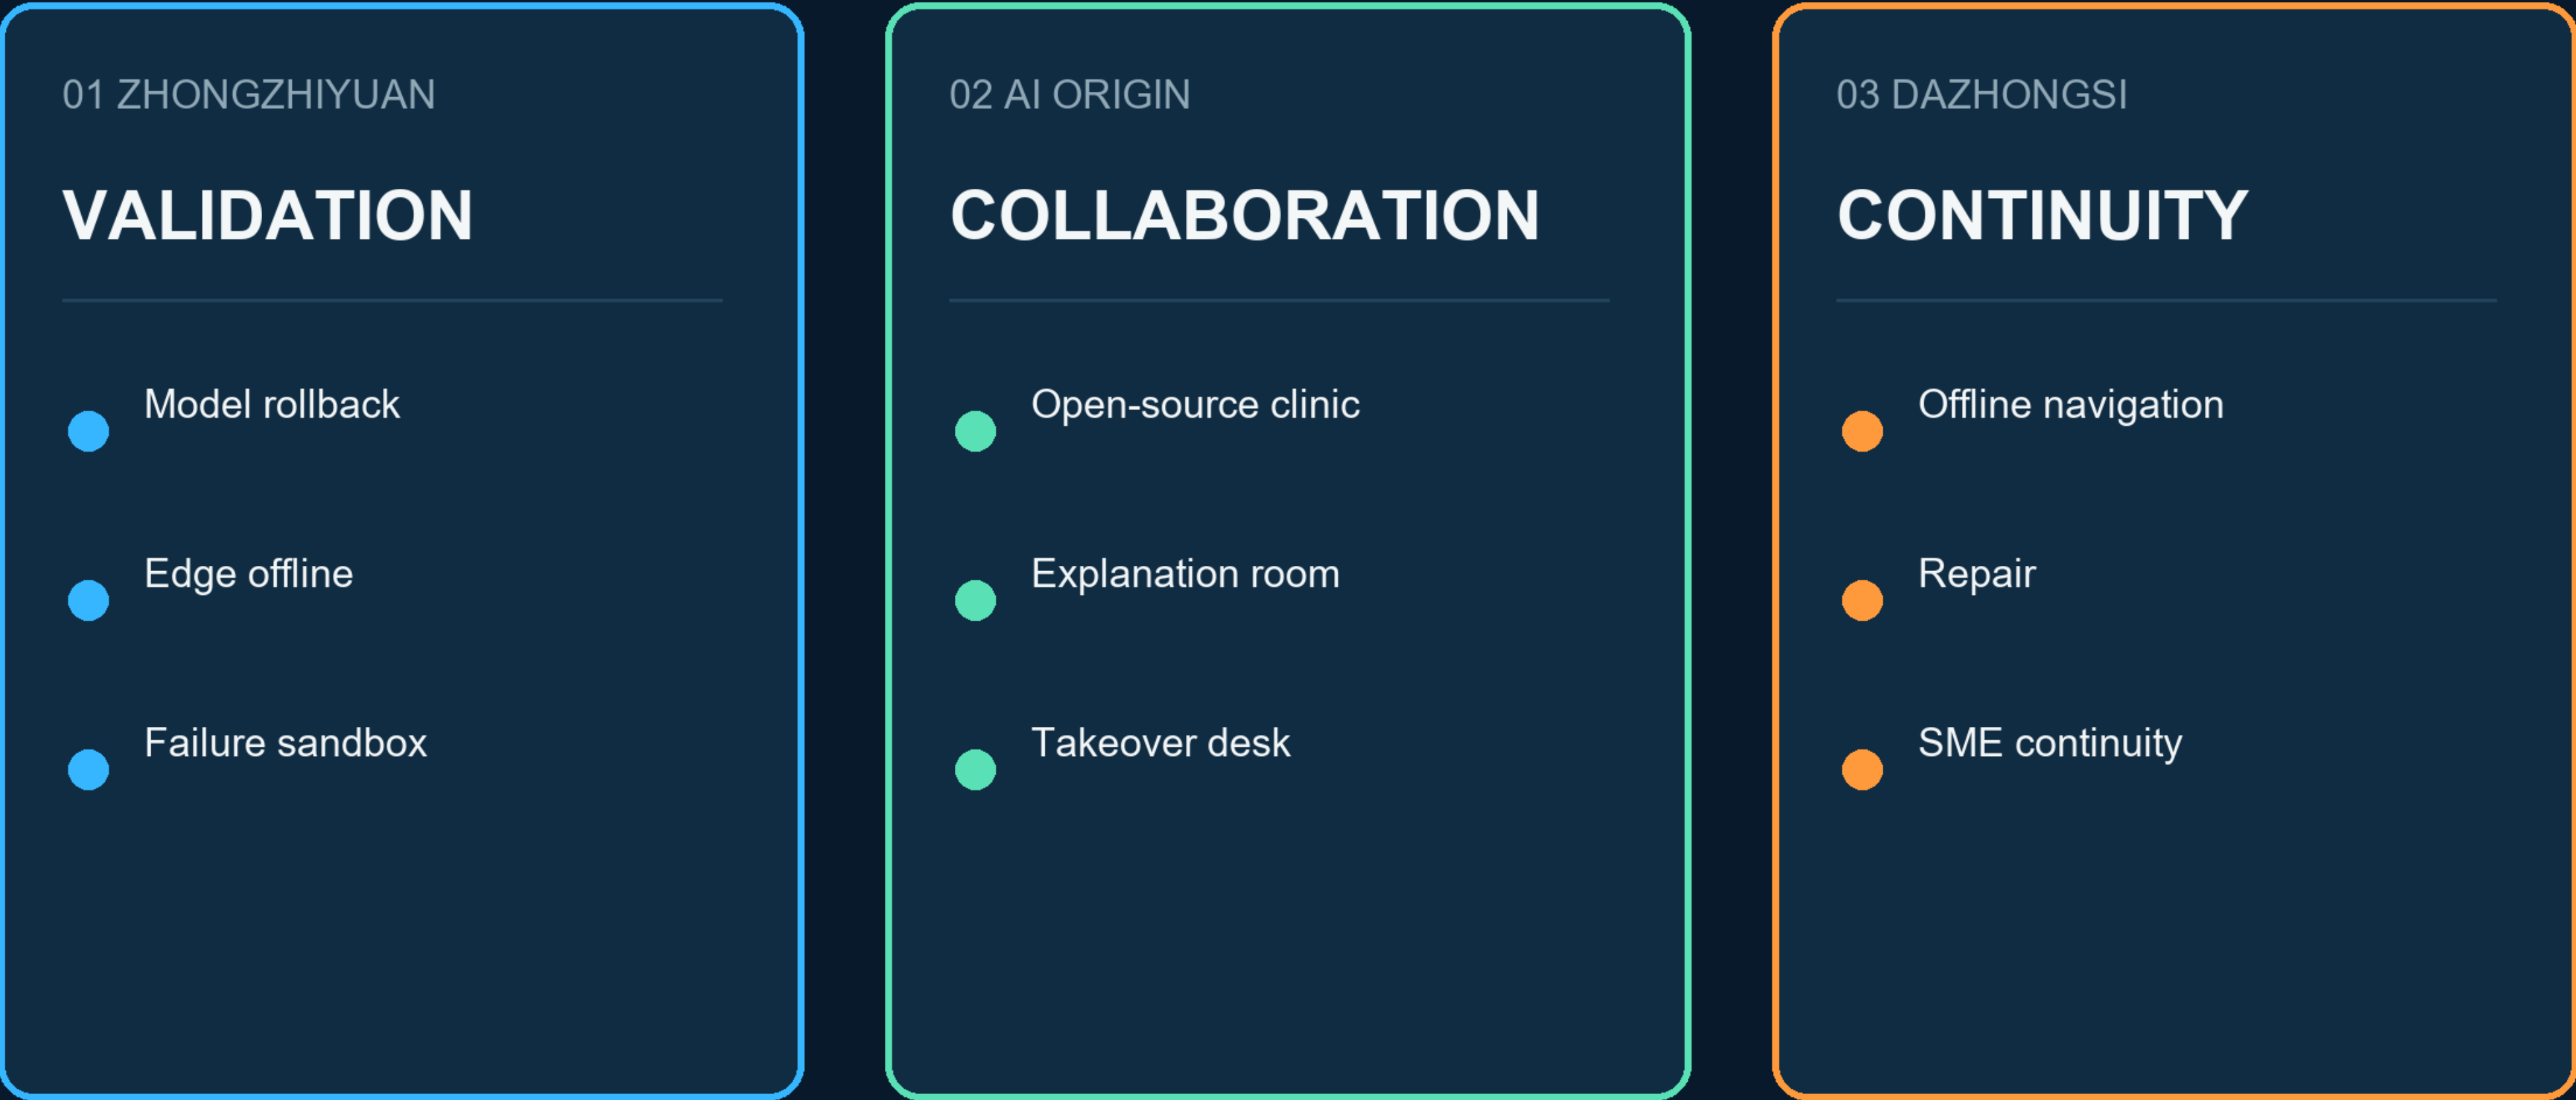

Source: submission GeoJSON and metrics.json. Provisional geometry is not an official redline.

THREE RESILIENCE STATIONS

Validation / collaboration / service continuity

PROVISIONAL / CONCEPT

Source: submission GeoJSON and metrics.json. Provisional geometry is not an official redline.

WALKING, BLUE-GREEN AND HUMAN TAKEOVER

Continuous public ground with low technical dependency

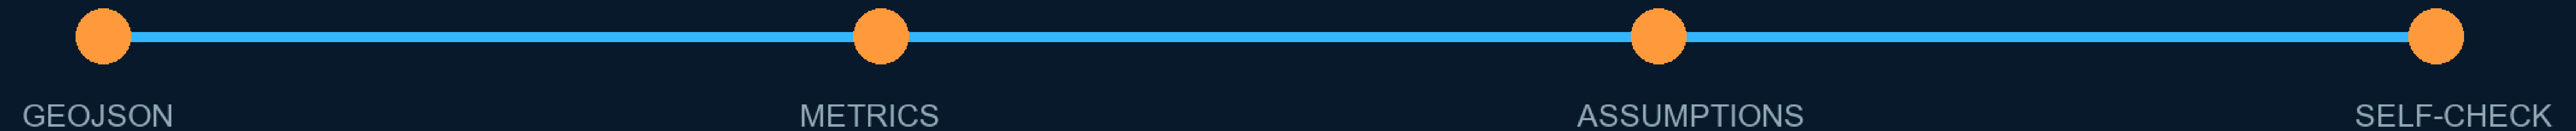

PROVISIONAL / CONCEPT

Source: submission GeoJSON and metrics.json. Provisional geometry is not an official redline.

PROVISIONAL / CONCEPT

11.41 sq km provisional recalculation	12 fallback scenario nodes	3 resilience stations
6 continuity crossings	12.34% design green ratio	7.33% design public-space ratio

Source: submission GeoJSON and metrics.json. Provisional geometry is not an official redline.
