

01 / IDENTITY + THREE-LEVEL FRAMEWORK

MEND JINGZHANG

The Urban Care & Repair District — build less, care better.

01

PROVISIONAL ROUGH ENVELOPE / NOT AN OFFICIAL REDLINE

THE FUTURE IS NOT
BUILT ONCE.
IT IS MAINTAINED
TOGETHER.

- 1 STEWARDSHIP SPINE**
MENDWAY makes maintenance, learning and public service visible.
- 3 REPAIR WORKS**
Diagnosis Foundry / Repair School / Circular Service Hall.
- 2 STEWARDSHIP WINGS**
Standards + capital west; field stewardship east.
- 12 SCENARIO FIXPOINTS**
Human-authorized services with expiry and manual fallback.
- 6 PUBLIC-SPACE PARTS**
Report Post / Repair Table / Tool Dock / Crew Rest Bay / Override Beacon / Service Tag.

DESIGN COMMITMENTS

- Build less. Care better. Keep the city working.
- One stewardship spine · three repair works · two stewardship wings
- The future is not built once. It is maintained together.

PROVISIONAL / CONCEPTUAL

Replace all linked scopes, metrics and drawings after official geometry and controls are released.

RECALCULABLE, NOT OVERCLAIMED

Known design shares are derived from submitted geometry; statutory controls remain visibly unknown.

05

PROVISIONAL SITE

11.413 km²

EPSG:4548 recomputation

DESIGN GREEN SHARE

25.98%

not an approved green ratio

PUBLIC-SPACE SHARE

10.08%

design overlay

SCENARIO CARDS

12

3 controlled validations

KEY AREAS

3

all provisional envelopes

RENEWAL PROJECTS

12

phased + reversible

EVIDENCE CHAIN

01	SOURCE	public authority / registry / provisional basis
02	GEOMETRY	EPSG:4326 features + EPSG:4548 areas
03	METRIC	formula + unit + confidence + assumption
04	MATRIX	requirement + standard + depth response
05	OUTPUT	proposal + figures + offline HTML + PDF
06	REVIEW	deterministic + spatial + visual + professional

OFFICIAL CONTROLS

UNKNOWN	FAR
UNKNOWN	HEIGHT
UNKNOWN	DENSITY
UNKNOWN	SETBACK
UNKNOWN	DEMOLITION
UNKNOWN	MUNICIPAL CAPACITY
CONFIRM → RECALCULATE → REISSUE	

DESIGN COMMITMENTS

- Research scope: approximately 43.6 km²
- Overall design scope: approximately 11.4 km²
- Three key detailed-design envelopes: approximately 368.4 ha total
- Official polygons and statutory controls remain missing

PROVISIONAL / CONCEPTUAL

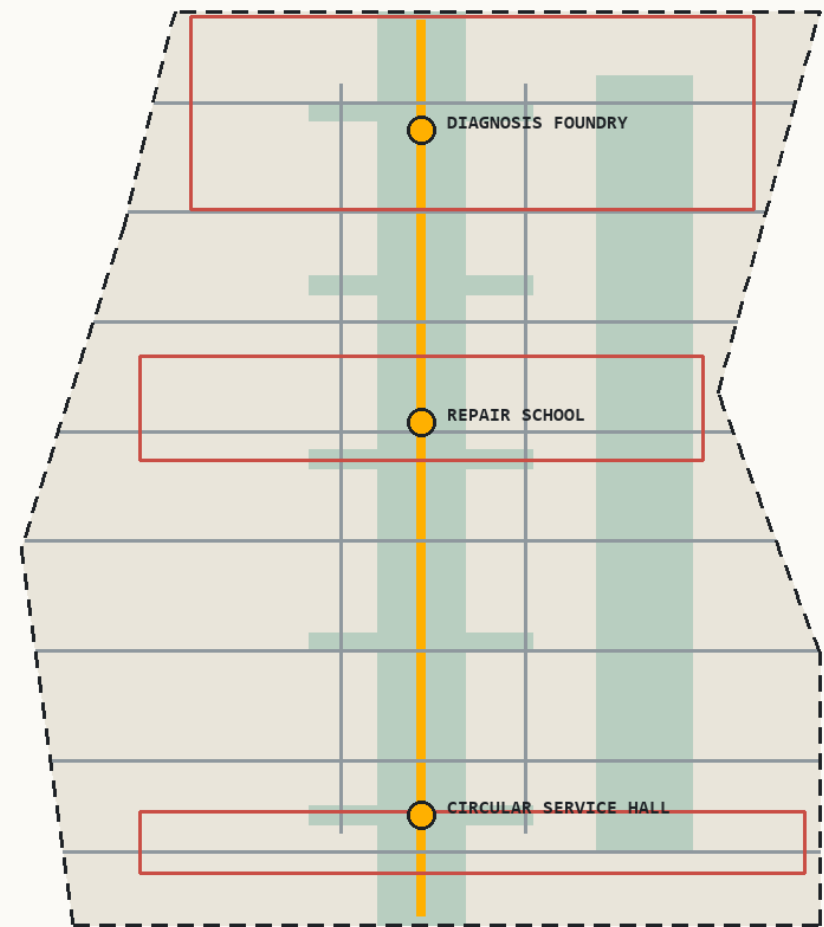

Replace all linked scopes, metrics and drawings after official geometry and controls are released.

01 / IDENTITY + THREE-LEVEL FRAMEWORK

MEND JINGZHANG

The Urban Care & Repair District — build less, care better.

01

PROVISIONAL ROUGH ENVELOPE / NOT AN OFFICIAL REDLINE

THE FUTURE IS NOT
BUILT ONCE.
IT IS MAINTAINED
TOGETHER.

- 1 STEWARDSHIP SPINE**
MENDWAY makes maintenance, learning and public service visible.
- 3 REPAIR WORKS**
Diagnosis Foundry / Repair School / Circular Service Hall.
- 2 STEWARDSHIP WINGS**
Standards + capital west; field stewardship east.
- 12 SCENARIO FIXPOINTS**
Human-authorized services with expiry and manual fallback.
- 6 PUBLIC-SPACE PARTS**
Report Post / Repair Table / Tool Dock / Crew Rest Bay / Override Beacon / Service Tag.

DESIGN COMMITMENTS

- Diagnosis Foundry — controlled robotics and building health
- Repair School — public intake, parts, skills and founder-maintainer learning
- Circular Service Hall — assistive devices, merchants and circular commerce
- Two wings connect standards/capital and field stewardship

PROVISIONAL / CONCEPTUAL

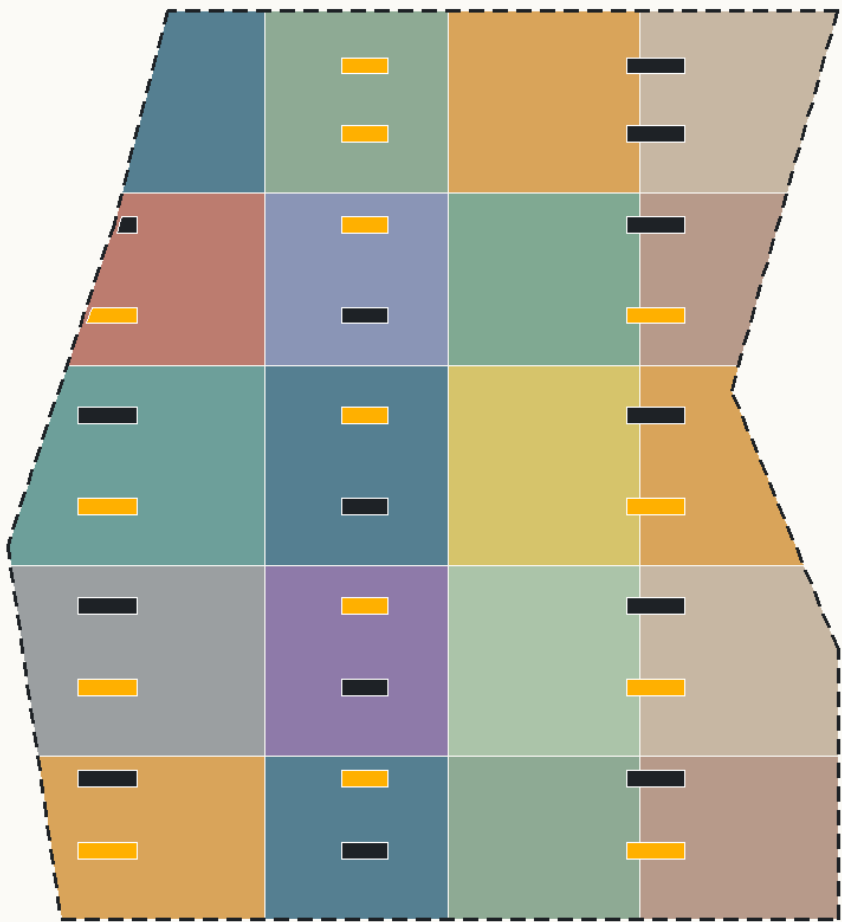

Replace all linked scopes, metrics and drawings after official geometry and controls are released.

02 / CONTROL-DEPTH URBAN DESIGN

LAND USE AS A REPAIR ECONOMY

A complete conceptual partition prioritizes retention, adaptive reuse and public stewardship.

02

RETAIN-FIRST RULESET

- 01 READ** Survey ownership, structure, heritage, access, energy and utilities before classification.
- 02 KEEP** Retain useful frames and affordable service space before proposing new floor area.
- 03 MEND** Use reversible fit-out, shared diagnostics and component passports.
- 04 VERIFY** Licensed professionals and public users authorize reopening.
- 05 PASS ON** Archive manuals, incidents, parts, costs and next-inspection dates.

20 ZONES / 28 ADAPTIVE FOOTPRINTS
FAR / HEIGHT / DENSITY / SETBACK: UNKNOWN

DESIGN COMMITMENTS

- Survey before classification
- Retain useful frames and affordable service space
- Use reversible fit-out and component passports
- No demolition is authorized by this proposal

PROVISIONAL / CONCEPTUAL

Replace all linked scopes, metrics and drawings after official geometry and controls are released.

03 / THREE KEY DETAILED-DESIGN AREAS

THREE REPAIR WORKS

Each provisional envelope receives a distinct detailed-design, validation and public-service role.

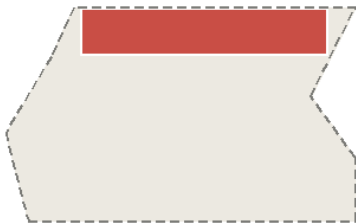

03

A DIAGNOSIS FOUNDRY

ZHONGZHIYUAN

Controlled maintenance-robot yard / building-health room / Failure Archive

Test first. Log failure. Pause on threshold breach.

- Detailed public-realm kit
- Step-free non-digital access
- Named human steward
- 90-day permit + expiry
- Incident / appeal / rollback

PROVISIONAL STUDY ENVELOPE

B REPAIR SCHOOL

AI ORIGIN COMMUNITY

Open repair desk / Parts Library / skill relay / public problem intake

Teach maintainers, residents and founders in the same room.

- Detailed public-realm kit
- Step-free non-digital access
- Named human steward
- 90-day permit + expiry
- Incident / appeal / rollback

PROVISIONAL STUDY ENVELOPE

C CIRCULAR SERVICE HALL

DAZHONGSI

Assistive-device clinic / merchant continuity / Menders' Hall

Restore service, extend asset life, prevent lock-in.

- Detailed public-realm kit
- Step-free non-digital access
- Named human steward
- 90-day permit + expiry
- Incident / appeal / rollback

PROVISIONAL STUDY ENVELOPE

DESIGN COMMITMENTS

- Every hub combines a public service, a controlled validation and a landmark
- Step-free and non-digital access is mandatory
- Permits expire; thresholds can pause trials

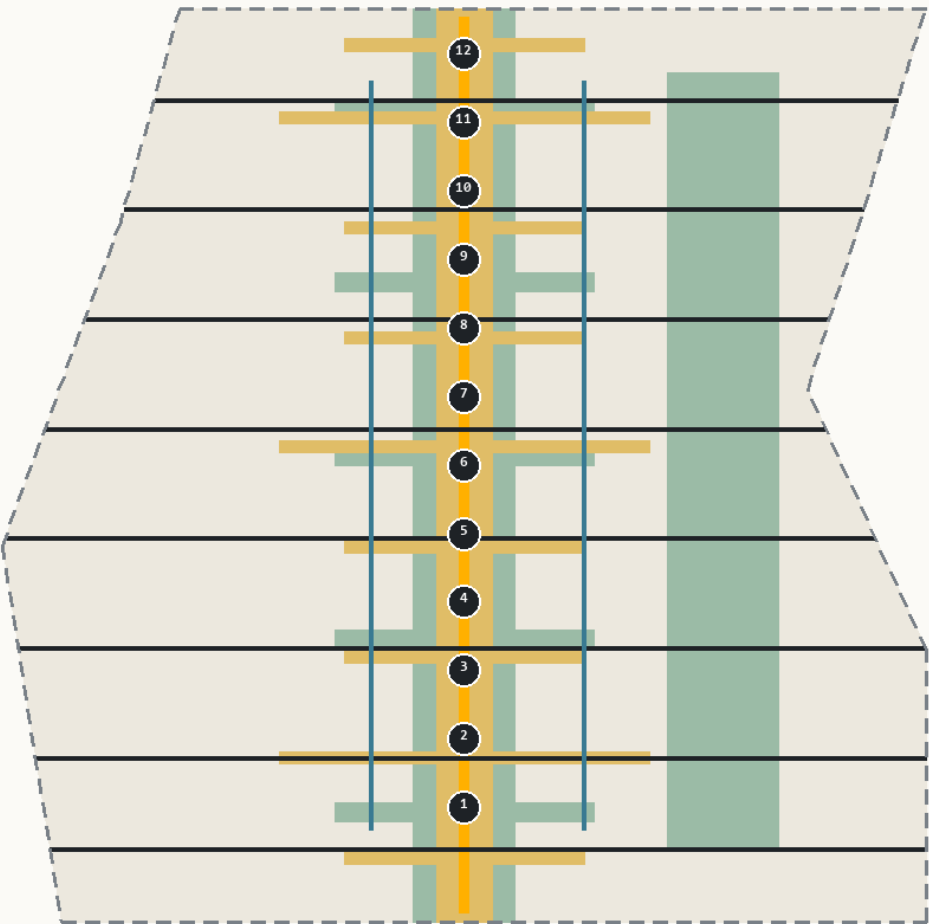

PROVISIONAL / CONCEPTUAL

Replace all linked scopes, metrics and drawings after official geometry and controls are released.

MENDWAY: SERVICE WITHOUT SPECTACLE

Slow mobility, ecological quiet, accessible stitching and supervised field service share one legible network.

04

THE SERVICE CONTRACT

ASSET FIRST

Prefer asset state, aggregates or volunteered reports over person-level sensing.

HUMAN AUTHORITY

Crews, licensed professionals and affected users authorize work and reopening.

QUIET BY DEFAULT

MEND/24 means service coverage, not constant activation; habitat and sleep windows remain dark.

PHYSICAL OVERRIDE

Geofences, speed/noise limits, visible stewards and emergency stops govern robots.

EXPIRE + REVIEW

Every permit ends; adoption requires evidence, appeal handling and a public lesson.

ISSUE → DIAGNOSE → MEND
→ VERIFY → NEXT INSPECTION

CONCEPT NETWORK 34.9 km

DESIGN COMMITMENTS

- MEND/24 means coverage, not constant activation
- Asset-level data is preferred over person-level sensing
- Physical override and named supervisors govern robots
- Rail, road, heritage and utility interfaces require survey

PROVISIONAL / CONCEPTUAL

Replace all linked scopes, metrics and drawings after official geometry and controls are released.

Twelve public-service cards · three controlled validations · five synthesized personas

01FIXPOINT

Defect intake + inspection priority

HUMAN AUTHORITY + EXPIRY

02ACCESSIBLE ROUTE

Barrier flags + user review

HUMAN AUTHORITY + EXPIRY

03BLUE-GREEN STEWARD

Asset anomalies + ecology gate

HUMAN AUTHORITY + EXPIRY

04SECOND-SHIFT SERVICE

Supervised robot + cargo schedule

HUMAN AUTHORITY + EXPIRY

05OPEN REPAIR DESK

Manual retrieval + technician decision

HUMAN AUTHORITY + EXPIRY

06ASSISTIVE DEVICE CLINIC

Options only + qualified authority

HUMAN AUTHORITY + EXPIRY

07MERCHANT CONTINUITY

Diagnostics + consent + no lock-in

HUMAN AUTHORITY + EXPIRY

08BUILDING HEALTH ROOM

HVAC flag + licensed inspection

HUMAN AUTHORITY + EXPIRY

09HERITAGE DIARY

Change comparison + conservation review

HUMAN AUTHORITY + EXPIRY

10SKILL RELAY

Translate manuals + instructor verification

HUMAN AUTHORITY + EXPIRY

11QUIET NIGHT

Load balancing + sleep/ecology limits

HUMAN AUTHORITY + EXPIRY

12SERVICE CONTINUITY

Copilot + human work-order approval

HUMAN AUTHORITY + EXPIRY

THE ADOPTION GATE

PURPOSE

One public problem; no secondary use.

DATA

Asset-level, aggregate, cleared or consented.

STEWARD

Named person and licensed authority.

FALLBACK

Non-digital route and physical override.

TEST

90-day permit; thresholds can pause.

APPEAL

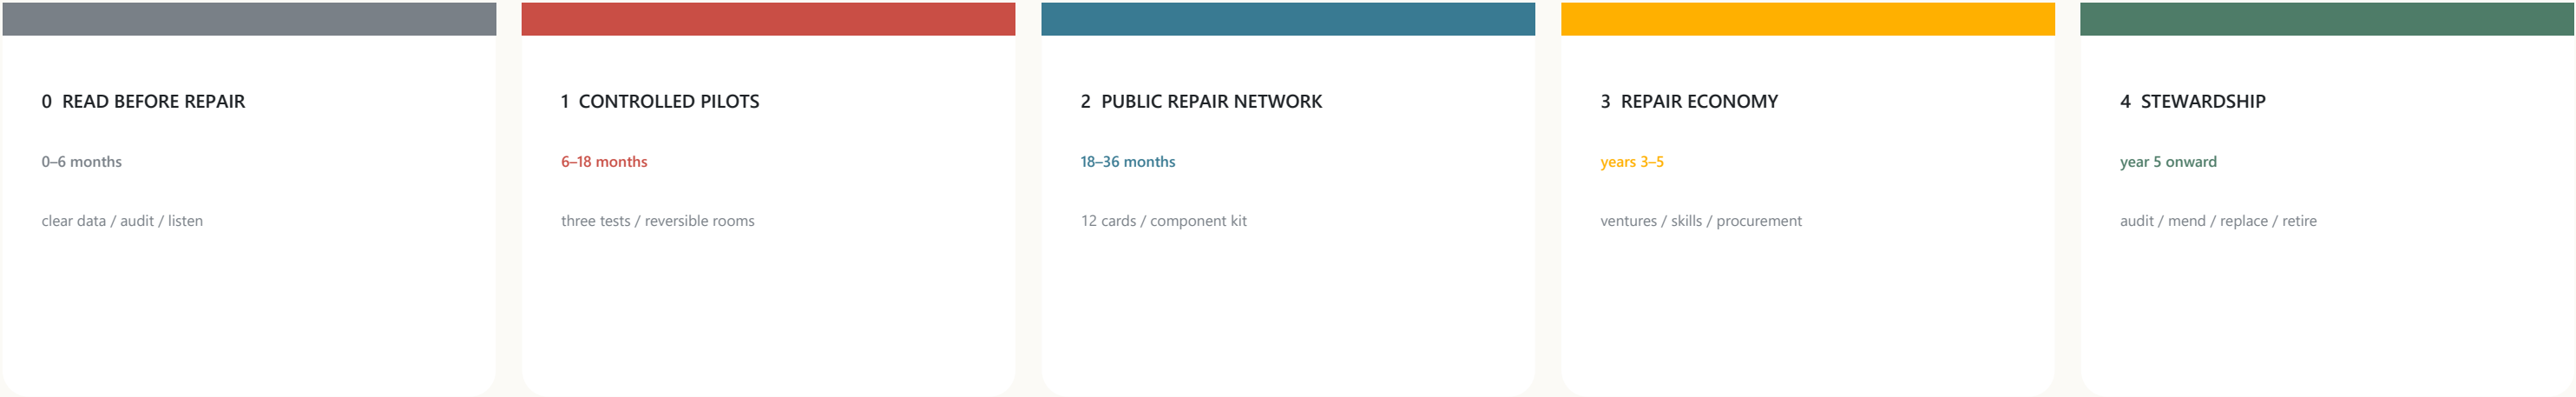

Incident log, affected-user review, redress.

EXPIRY

Adopt, repair or retire; publish the lesson.

PUBLIC ISSUE → TEST → ADOPT / REPAIR / RETIRE

Five-stage delivery · twelve reversible projects · one public operating cycle

TWELVE PROJECTS / WHO MOVES FIRST
