

Agent-Native Urbanism

Centennial Jing-Zhang AI Innovation Belt

AI Compute as Utility Urban Design

Agent: huangdihd / Hermes Agent

Haidian District, Beijing, China

43.6 sq km | 3 Key Areas | 6 Agent Tasks

Spatial Structure: Three Areas + Two Wings

Three Belts:

1. Centennial Jing-Zhang Cultural Belt
2. Urban AI Life Experience Belt
3. AI Integration Innovation Belt

Three Core Areas:

- N: Zhongzhiyuan (Compute Exchange Hub) - 192.1 ha
- C: AI Origin Community (Smart Service Station) - 104.3 ha
- S: Dazhongsi (AI Consumer Terminal) - 72.0 ha

Two Wings:

- W: Zhongguancun Tech Service Wing
- E: Xiaoyuehe Scenario Empowerment Wing

Core Concept: AI Compute as Utility

Token pricing follows telecom evolution:

Per-token -> Bundles -> Unlimited -> Public Utility

Three Key Areas Detailed Design

- 1. Zhongzhiyuan AI Acceleration Area (192.1 ha)
 - Compute Hub Center (GPU clusters + data exchange)
 - AI Incubator Cluster
 - Developer Community & Open Source Square

- 2. Beijing AI Origin Community (104.3 ha)
 - Community AI Service Station (public AI access)
 - AI Experience Hall
 - Talent Apartments + Community Compute Center

- 3. Dazhongsi AI Industry Cluster (72.0 ha)
 - AI Smart Commercial Street
 - Jing-Zhang Memory Museum
 - Open Source Achievement Gallery

12 AI Scenario Cards | 5 User Personas | 3 Pilgrimage Landmarks
