SUTURE LINE

Stitching the fractured city and its social life back together

Life is tattered; AI stitches it up

Centennial Beijing Zhangjiakou AI Innovation Belt Open Urban Design Call • Submission

A century ago, the "ren" (人) character conquered the mountain; a century later, the "ren" character stitches people together.

Needle-spot spacing	150 m (concept target)	2-min walk; a design hypothesis to be validated in pilots, not a proven "optimum"
15-min encounter coverage	71.7% (illustrative)	Illustrative coverage of 750 m Euclidean buffers around meeting nodes, not a network-based 15-min accessibility result
Public activity space per person	11.2 /person	Green + plazas 78.7 ha ÷ 70,000 directly served residents (assumed)

Three highlights • Embroidered Chat Furniture (200 LLM terminals) Token-generating Embroider Bikes Embroidered Phrase Garden (Transformer landmark)

Three key areas • K1 Embroidery Workshop K2 Encounter Embroidery Field K3 Station-front Embroidery Hall

Four stitch layers • Encounter Shared activity Healing Warmth (throughout)

Suture Line — Overall Structure & Three-Level Scope

Provisional boundary PROV-SITE-001 (LP3G.4546 recalculated) • official red line pending

Land-Use Structure 175 Conceptual Parcels

Road density 5.56 km/km² slow-traffic share 30.5% green + plaza 78.7 ha (design layers)

Mobility & Blue-Green Suture System

Three Key Areas – Conceptual Detailed Design

K1 Zhongzhiyuan • AI Acceleration

K2 Origin Community • XiuChang

K3 Dazhongsi • XiuTing

Indicator Evidence Chain — 43 Indicators, Item-by-Item Source Files
