

One spine, three stations, two wings and a stoppable evidence loop

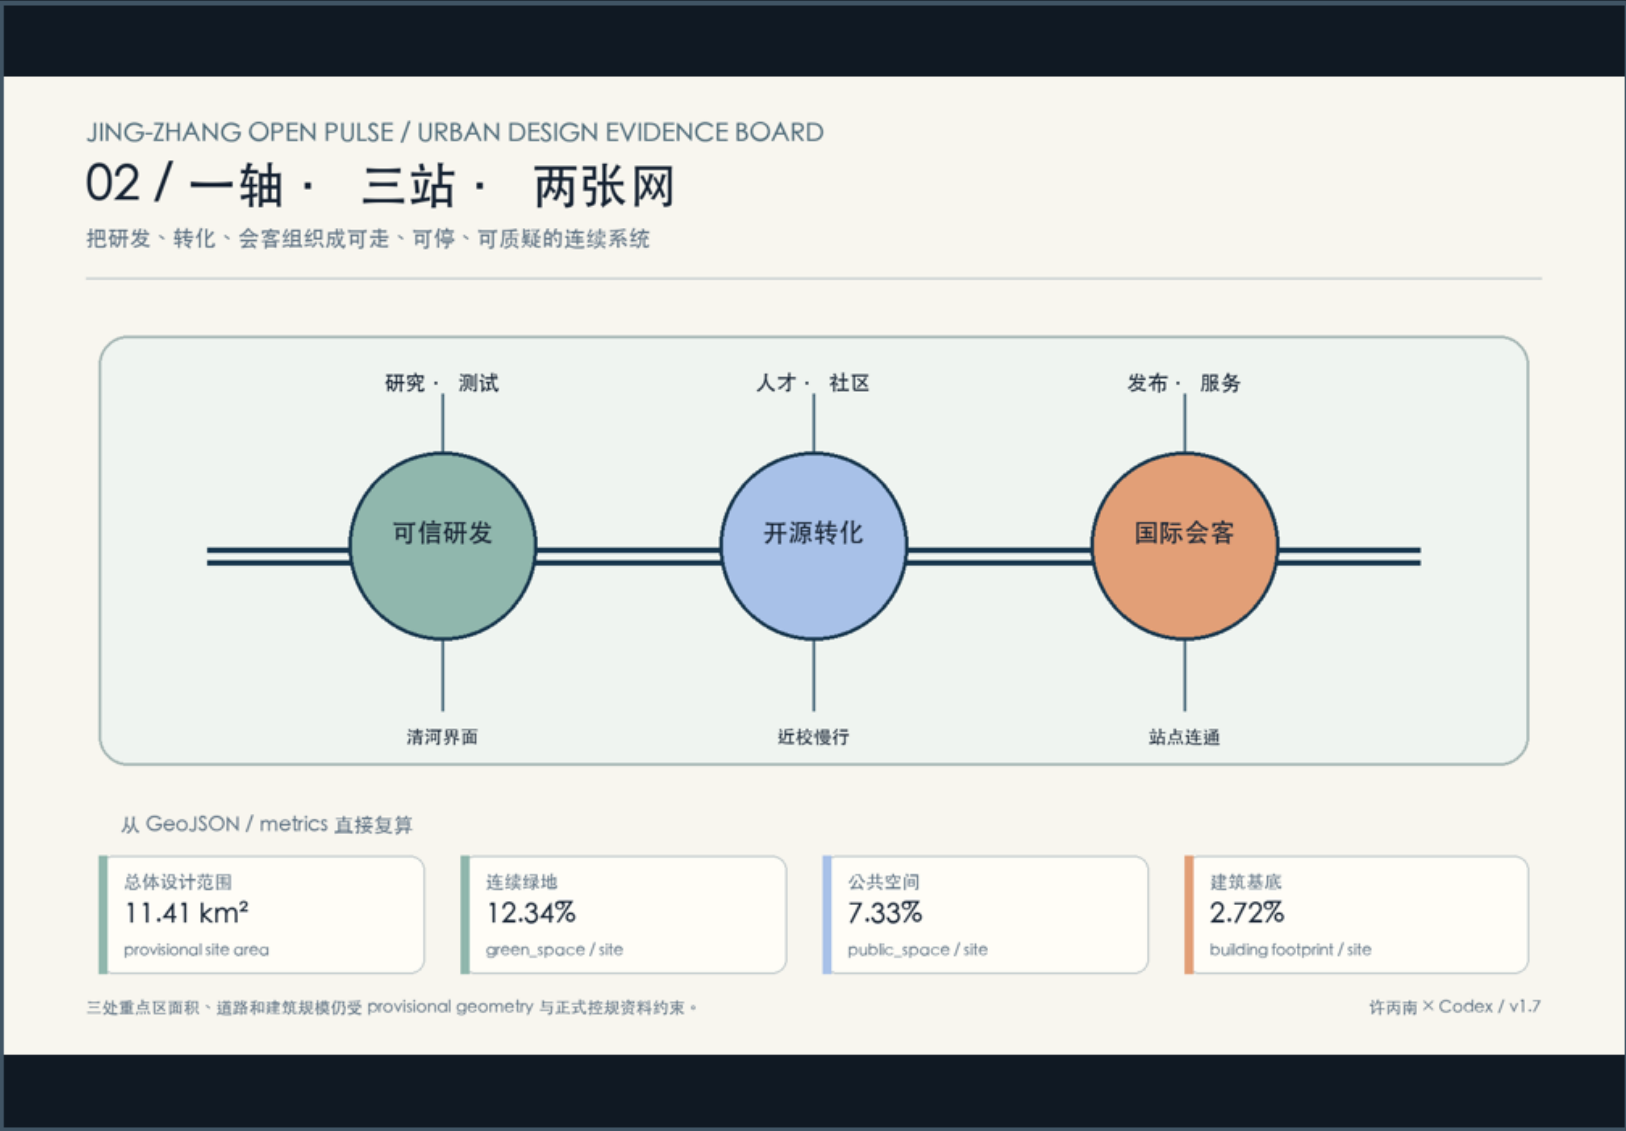

Read the whole-belt relation and S-02 state together; separate tabletop replay, field window and ordinary service

Taskbook collaboration interfaces only; no partnership is claimed

02 / Three-level scope

Research area, overall design area and key-area design share one evidence chain.

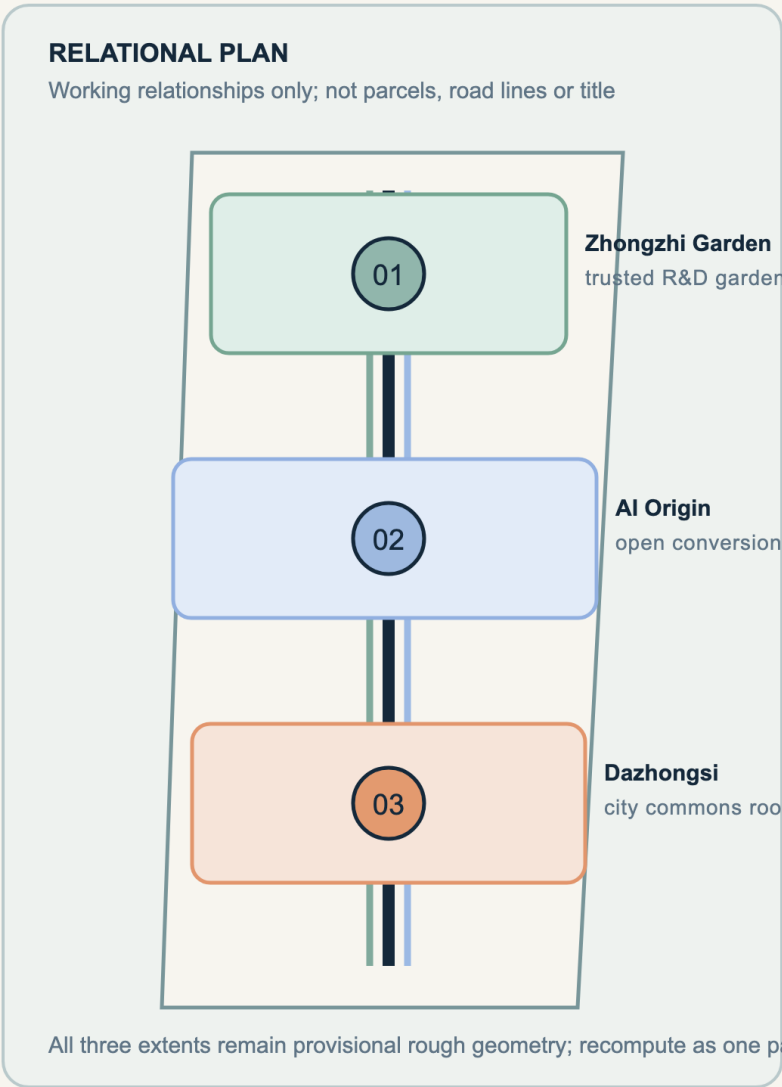

REVIEW NOTES

- English display layer for the same local asset.
- Source board thumbnail is retained for visual cross-check.
- All geometry is provisional until official polygons arrive.
- See proposal.en.md and the local JSON evidence ledger.

03 / Three key areas: three everyday journeys

Put provisional geometry, the ordinary route, human gate, stop condition and return to daily use on one board

01 / PROV-KEY-001 / NORTH

Zhongzhi trusted R&D garden

A resident can cross, rest, read the status and leave without an account, then return to the ordinary park.

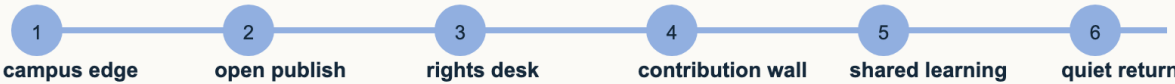

PRECONDITIONS
river, flood, traffic, title, fire
if absent: no pilot

02 / PROV-KEY-002 / MIDDLE

AI Origin open-conversion street

A contribution may be attributed or withdrawn; an older resident keeps the same ordinary route without the digital layer.

PRECONDITIONS
campus access, heritage, displacement, consent
if absent: no fit-out

03 / PROV-KEY-003 / SOUTH

Dazhongsi city commons room

Event capacity can fall to zero; the resident route remains open and the space returns to daily retail and movement.

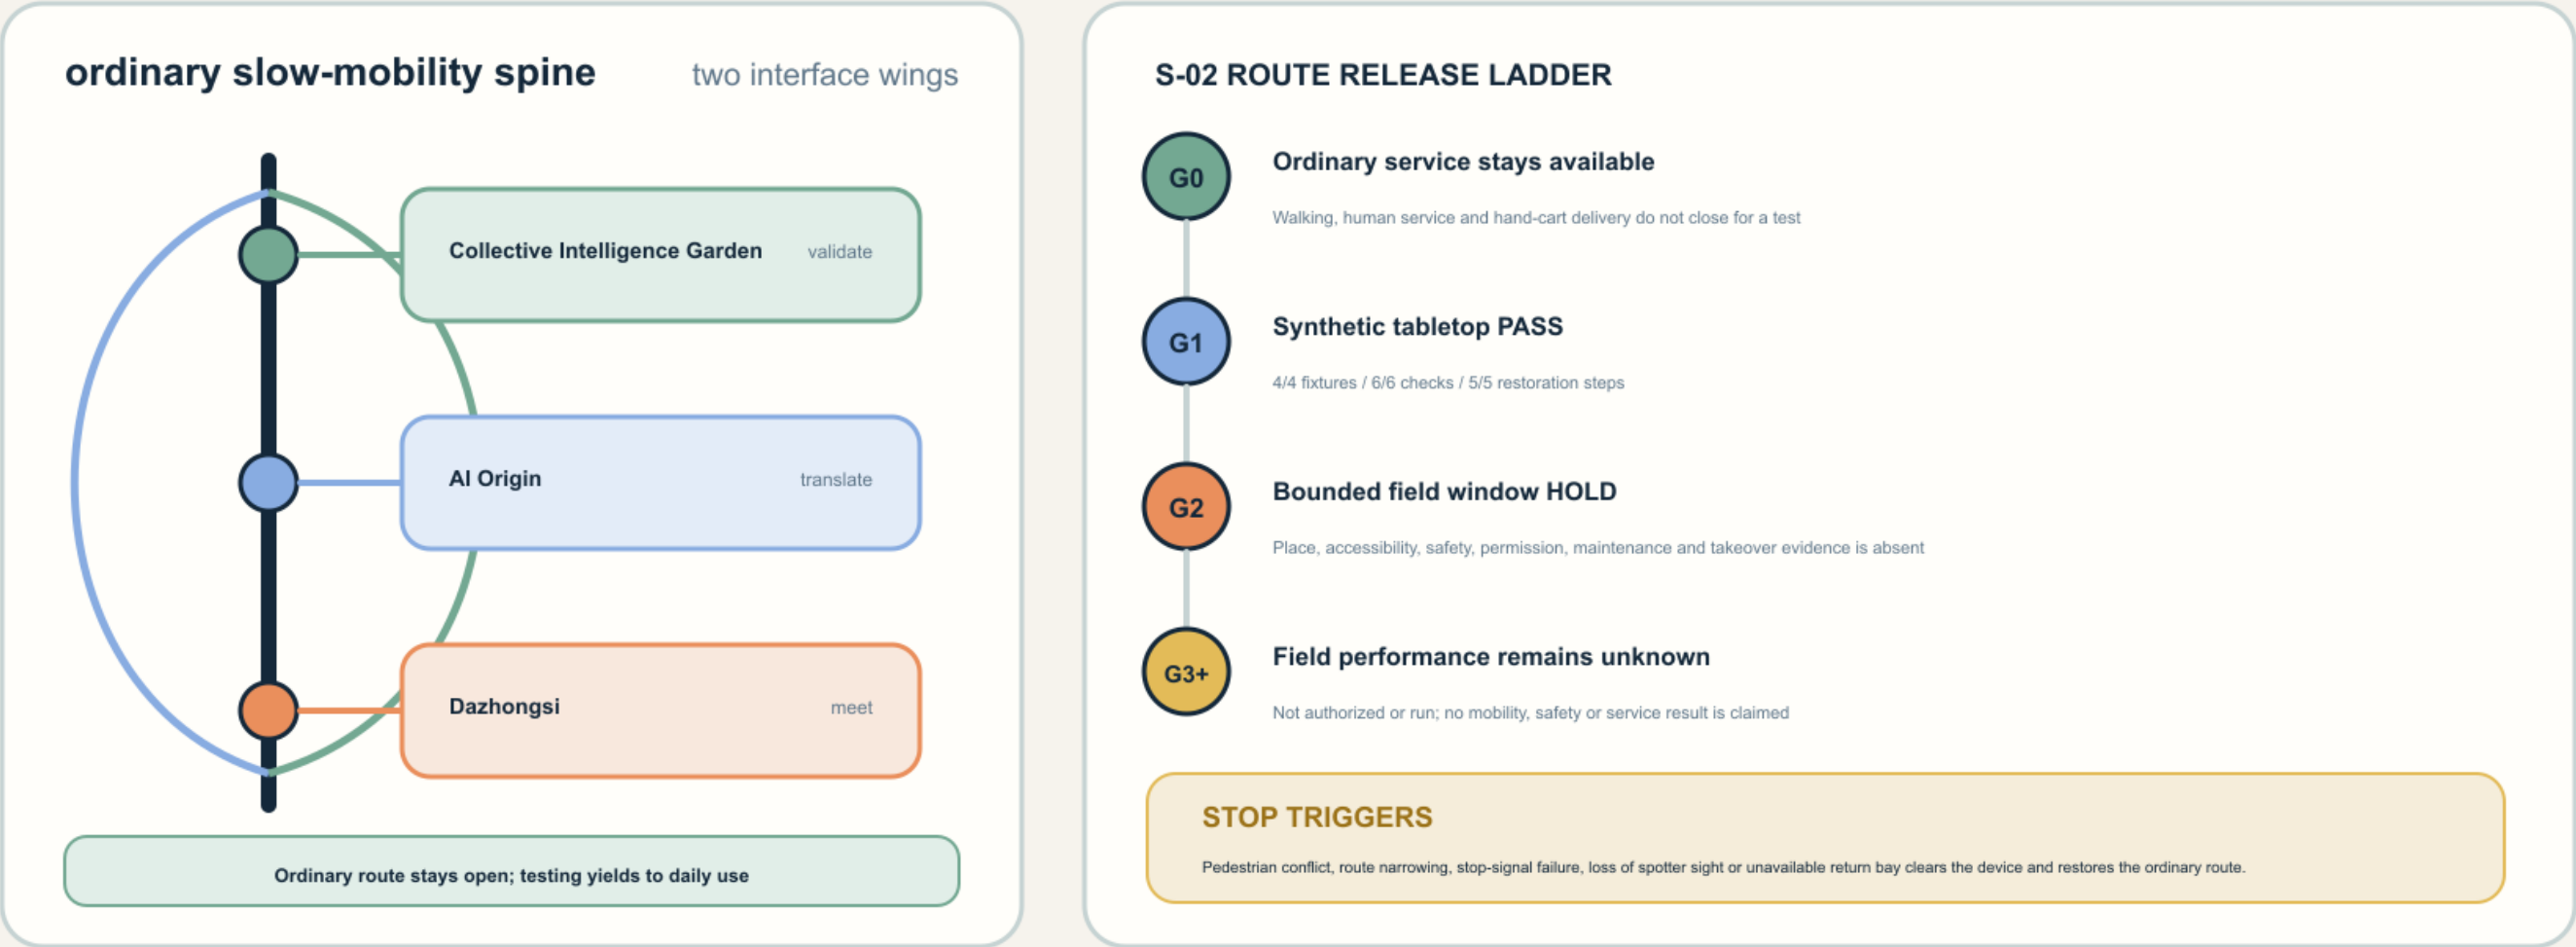

PRECONDITIONS
station, roads, fire, crowd, emergency review
if absent: cancel event window

COMMON RELEASE RULE Keep the ordinary route, named human responsibility, tested stop-and-recovery path, and professional review before release.

Source: geometry/key_areas.geojson + visual/assets/key-area-node-plans.json. A tabletop structure is not approval, construction or field performance.

04 / Keep the ordinary route open before embodied AI

Walking, blue-green space and S-02 share one release order; tabletop PASS does not establish field readiness

Slow-mobility network 13.01 km concept network	East-west links 3 key-area connectors	Public space 7.33% directly recomputable	Mapped crossings 189 low-confidence OSM
---	--	---	--

05 / Low-regret evidence

A design experiment with explicit sources, unknowns, gates and recalculation triggers.

REVIEW NOTES

- English display layer for the same local asset.
- Source board thumbnail is retained for visual cross-check.
- All geometry is provisional until official polygons arrive.
