

Axon + bridges + synapses across provisional overall design area.

Synapse Corridor Overview

Historic axon + three synapse bridges + key nodes

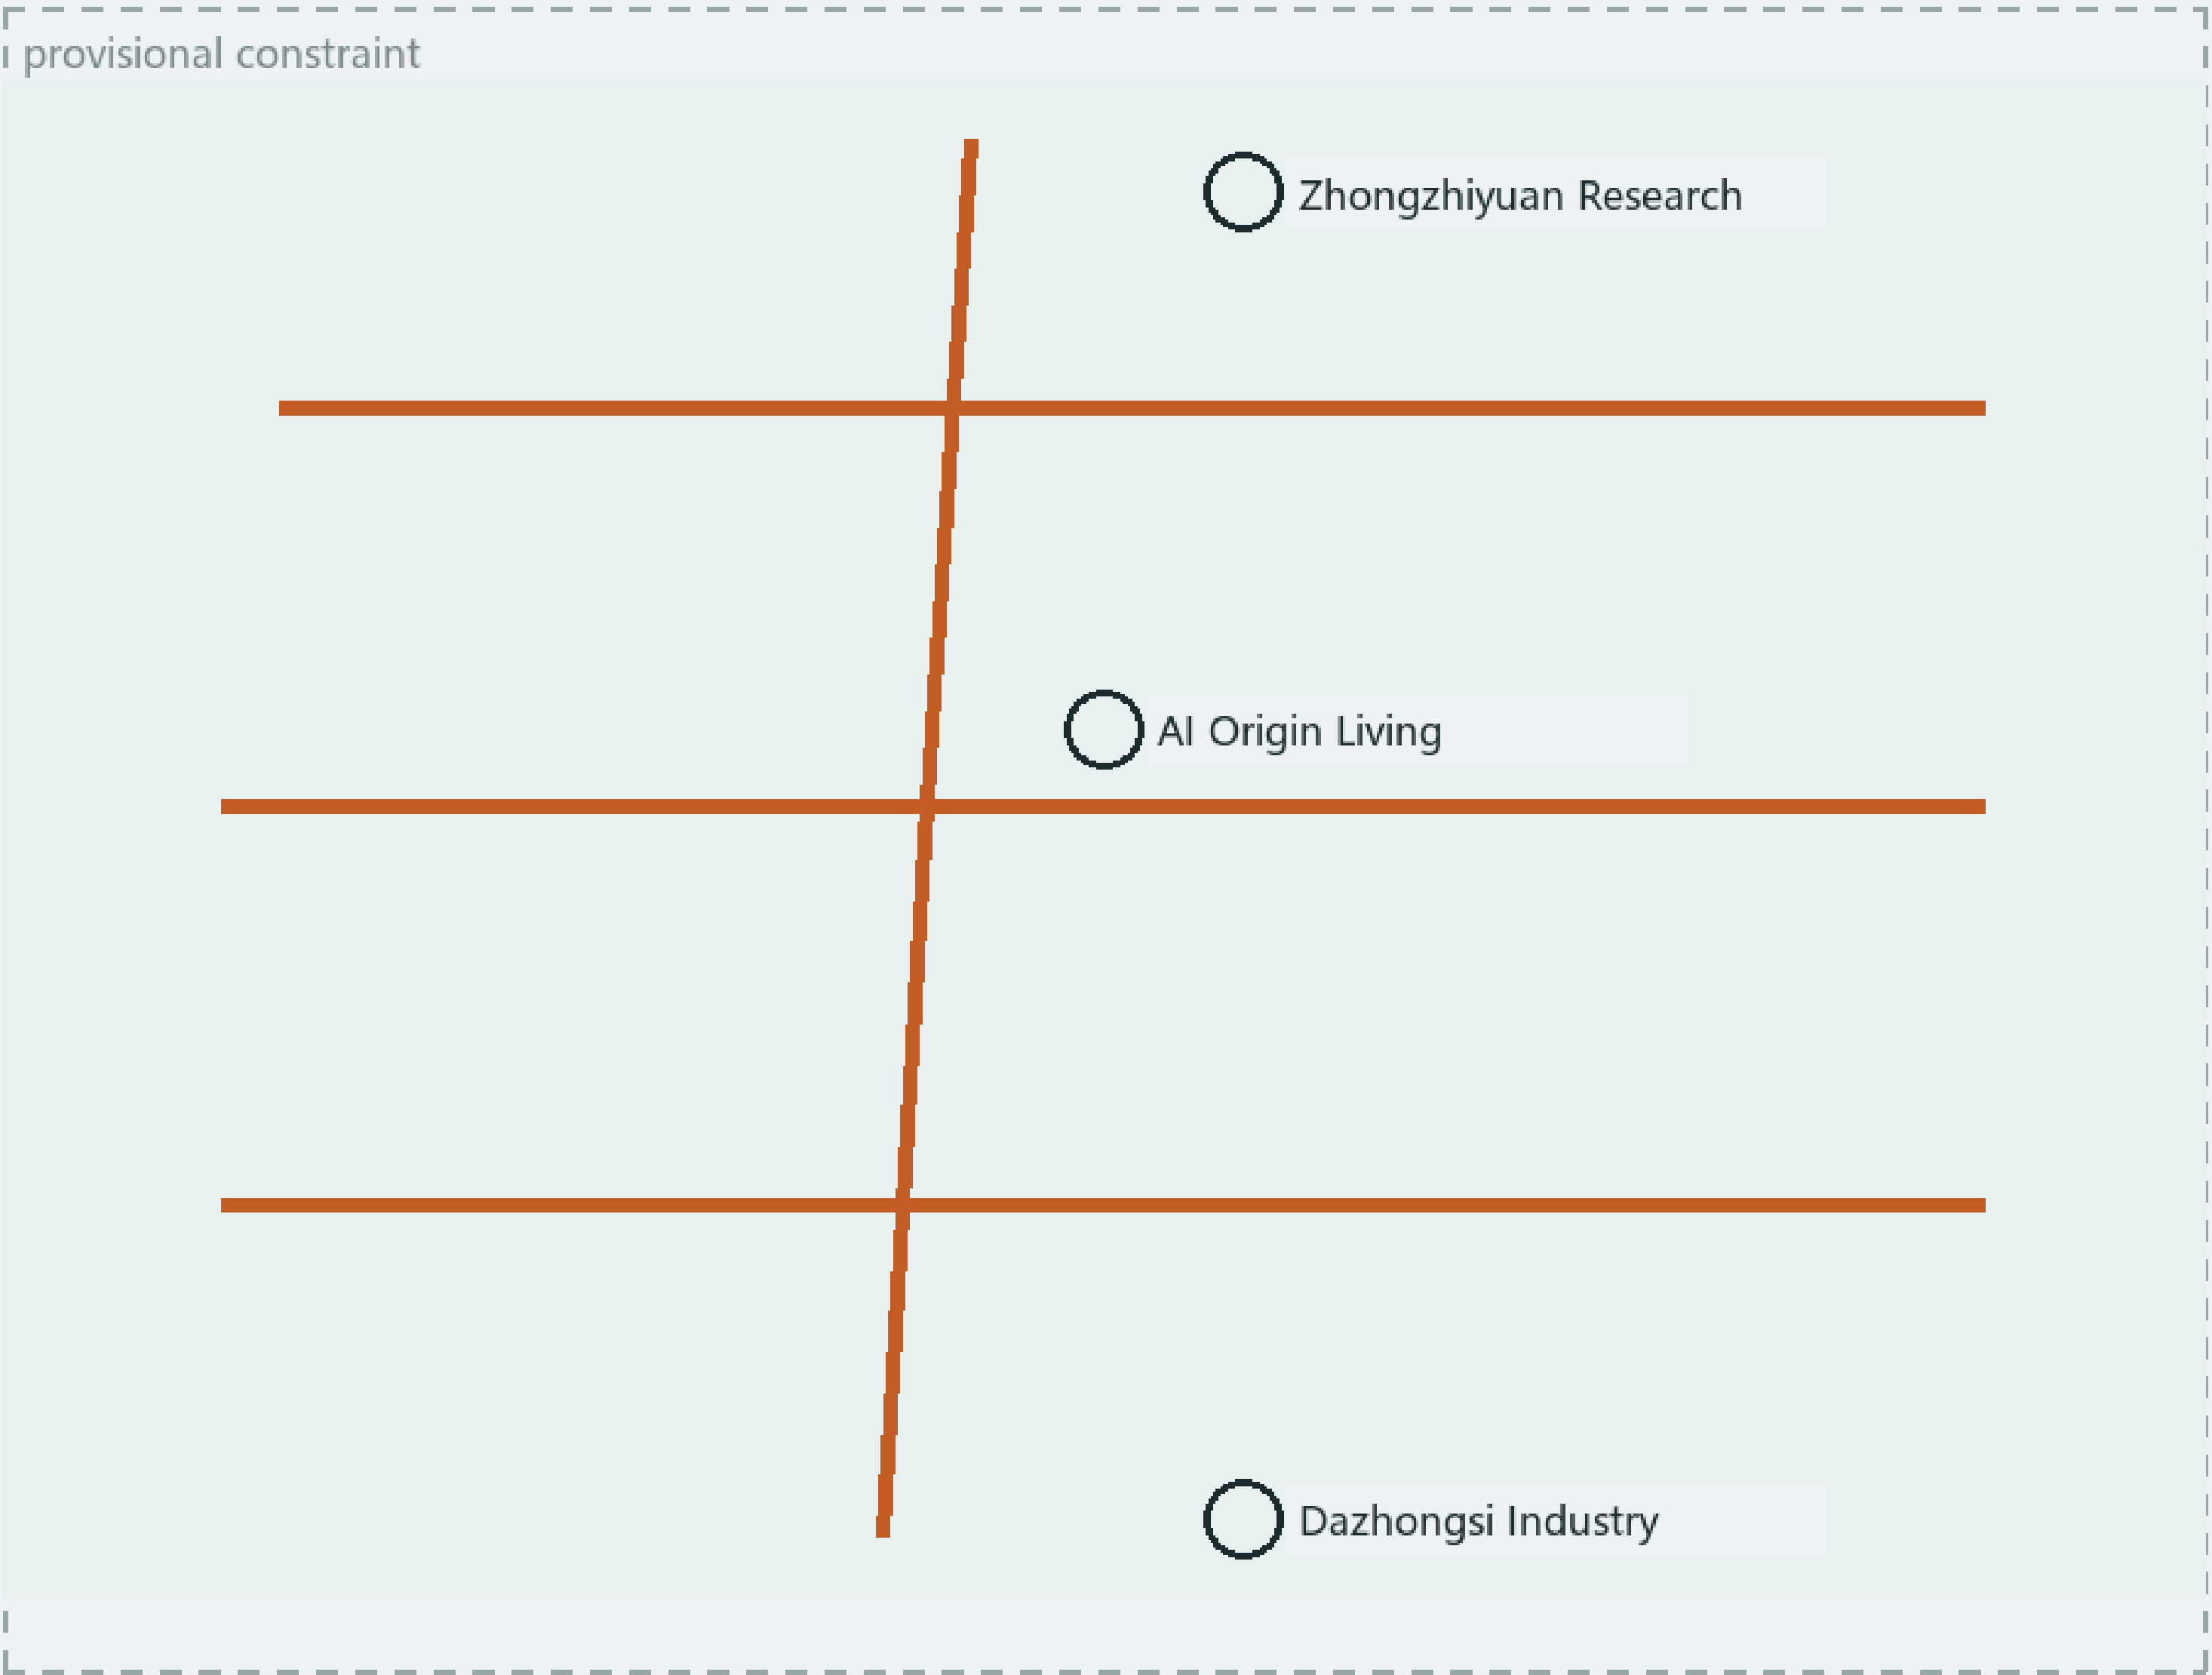

Legend & Task Notes

- Dashed = provisional boundary
- Copper = spine & bridges
- Green = blue-green axon
- Teal = public interfaces
- Hollow circles = key centers

Single source: GeoJSON+metrics.json | site≈11.41 km2 green≈20.7% public≈11.5% | provisional_rough, not official redline, confidence medium

Key Areas as Synapse Types

Research / Living / Industry task differences

Legend & Task Notes

- Zhongzhiyuan: eval corridor
- Origin: open-source hall
- Dazhongsi: delivery loop
- Pilgrim nodes: memorial/wall/stage
- Risks: controls pending
