From the 1909 Ren-shaped railway to the 2026 Human-AI symbiosis belt

One stroke of 'Ren' is the 1909 steel rail; the other is the 2026 data stream; they meet at the origin dot.

One spine, three vertebrae, two wings: the 9 km REN·ZHI Spine links Zhongzhiyuan, AI Origin Community, Dazhongsi.

12 AI scenario cards · 6 personas · 4 landmarks · 3 phases · all spatial claims as machine-recomputed GeoJSON.

Design basis

Formal basis: pre-qualification announcement (2026-05-09) and agent taskbook; principles: national urban-design and regulatory-planning measures; land-use codes follow the MNR classification guide. Base map: provisional polygons. Missing redlines / regulatory controls / utilities / ownership are logged as data gaps, never invented.

Three scope levels

Coordinated research 43.6 km² (announced): industry & future-city research only.
Overall design ~11.4 km² (announced) / 11.41 km² (recomputed): regulatory-depth design, 9 layers.
Key detailed design 368.4 ha (announced): landmarks and scenario nodes precisely located.

Spatial structure

One spine (1401 park green, 2.94 km²), three vertebrae (key areas), two wings (Zhongguancun / Xiaoyue River).

总体结构：一脊·三椎节·两翼

Overall Structure: One Spine, Three Vertebrae, Two Wings

从 1909 人字形铁路到 2026 人·智共生带 —— 百年京张文化带 × 都市AI生活体验带 × AI融合创新带
From the 1909 Ren-shaped railway to the 2026 Human-AI symbiosis belt

设计概念 Design Concept

「人」= 詹天佑人字形铁路的工程精神 + 以人为本
'Ren' — Zhan Tianyou's engineering spirit, human-first city
「智」= AI 原生场景与城市智能体
'Zhi' — AI-native scenarios and urban agents
「·」= 人与智能相遇的交汇点
'·' — the meeting point of human and intelligence

三段时空轨道 Three Tracks of Time

- 1909 人字铁路 · 争气路
Ren-shaped railway
- 2019 智能高铁 · 创新路
Smart HSR
- 2026 人·智带 · 共生路
Human-AI belt

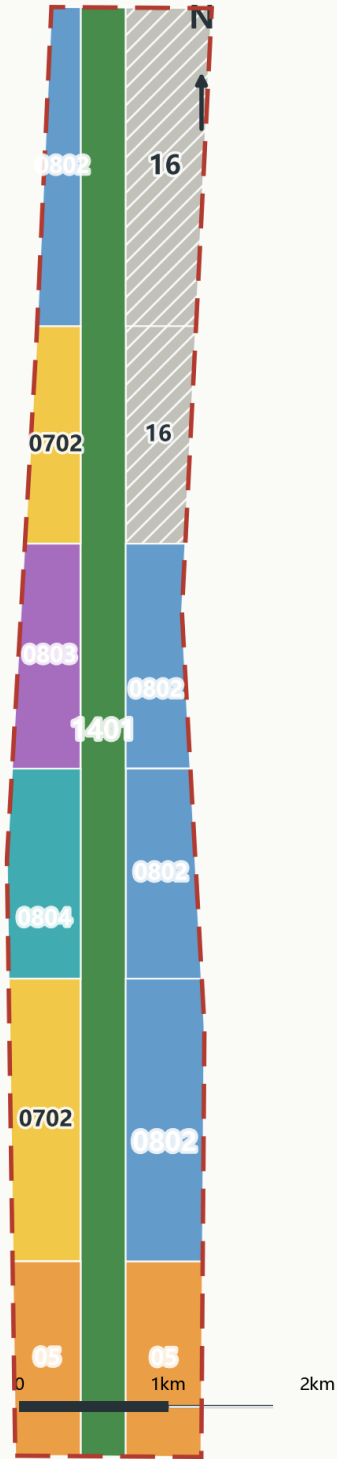

关键指标 Key Figures(临时边界复算)

总体设计范围 Design area	11.41 km ² (临时)
人智脊绿道 Spine greenway	9.6 km
绿地比例 Green ratio	33.2%
公共空间比例 Public space	10.9%
AI 场景节点 Scenario nodes	12 处
重点详细设计区 Key areas	3 处 · 368.4 ha(公告)

用地结构与规模：绿脊引领的混合创新带

Land-use Structure: A Green-spine-led Mixed Innovation Belt

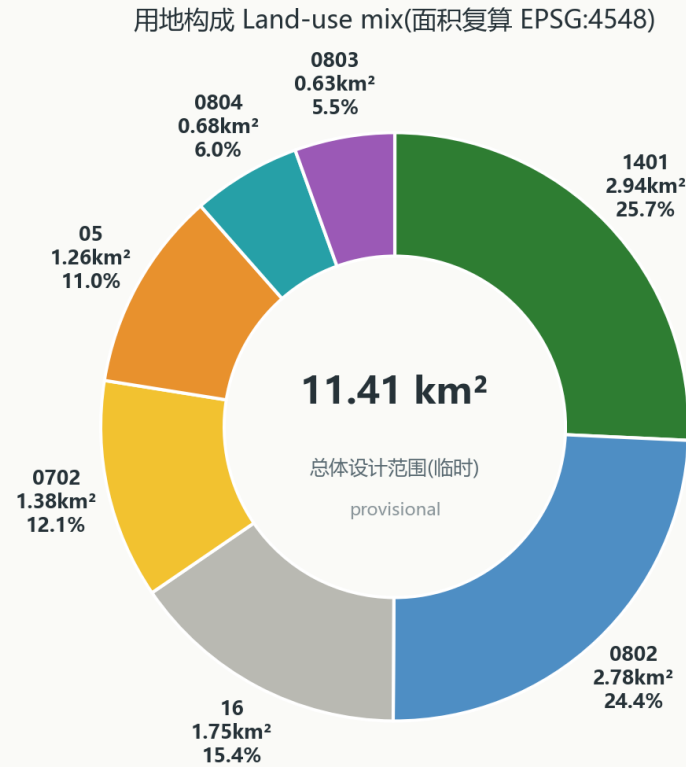

概念用地建议(基于《国土空间调查、规划、用途管制用地用海分类指南》编码)·非控规结论
Concept land-use proposal with MNR classification codes · not a regulatory plan

编码图例 Legend(概念建议)

1401 公园绿地	Park green
0802 科研用地	Research
16 留白用地	Reserved
0702 城镇社区服务设施用地	Community service
05 商业服务业用地	Commercial
0804 教育用地	Education
0803 文化用地	Cultural

结构要点 Structure Highlights

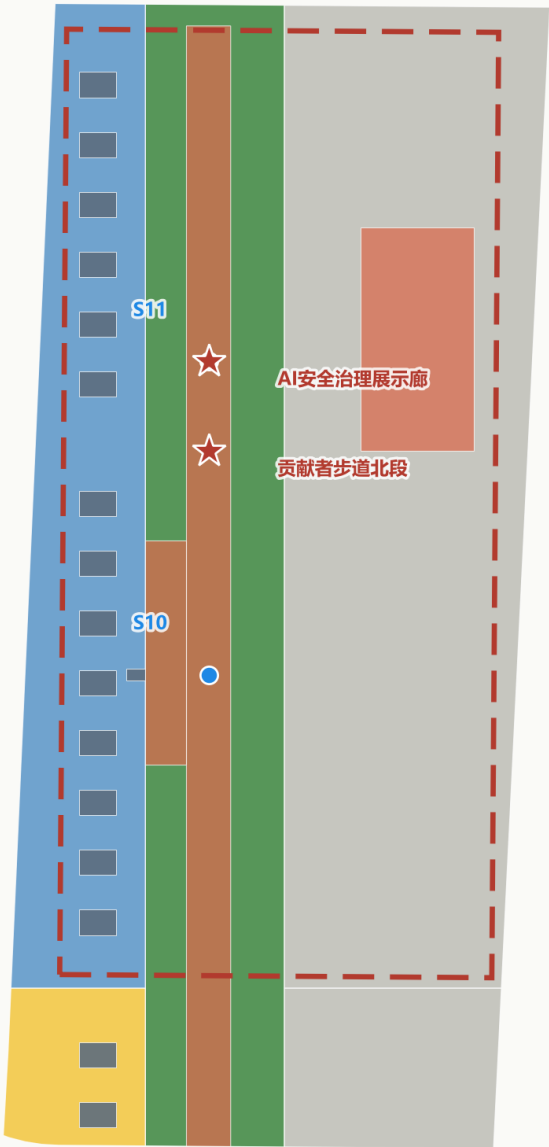

- 绿脊 1401 连续贯通 9km,绿地合计 33.2%
- 科研 0802 沿两翼分段布局,衔接高校与企业
- 留白 16 占 15.4%,为 AI 产业迭代预留弹性
- 建筑基底密度仅 5.9%,低冲击公园城市范式

三椎节重点详细设计

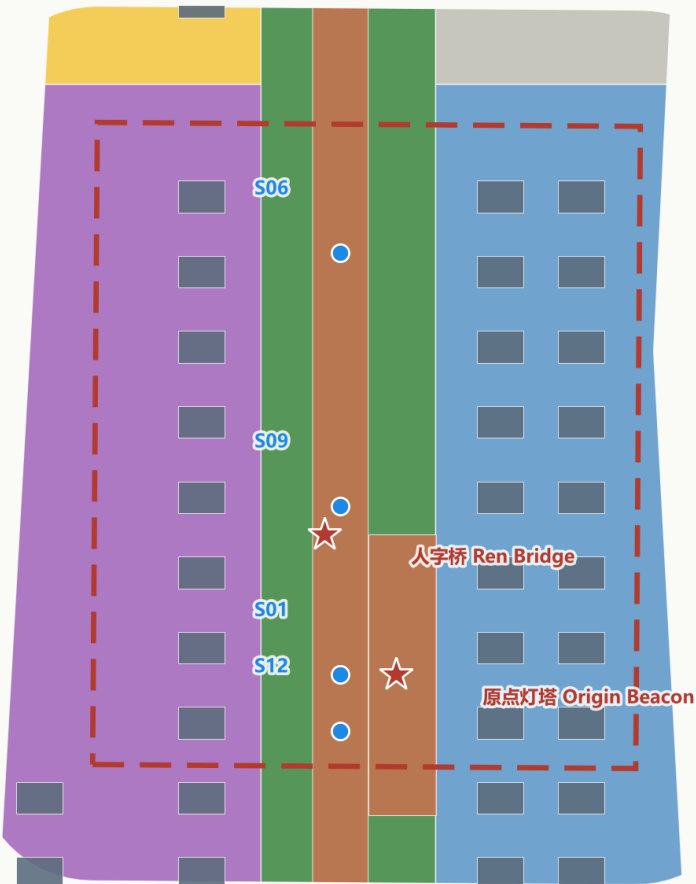

Three Vertebrae: Key Detailed-design Areas

北·加速椎节(众智园)/ 中·原点椎节(AI原点社区)/ 南·汇聚椎节(大钟寺)· 面积为公告对照值,边界临时
Announced areas for reference; boundaries provisional

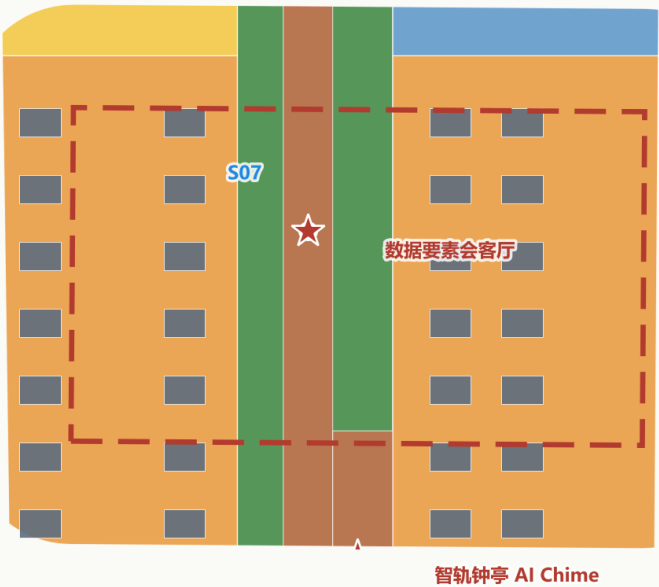

北·加速椎节· 众智园
Accelerator Vertebra · Zhongzhiyuan · 公告 192.1 ha(临时边界)

中·原点椎节· AI原点社区
Origin Vertebra · AI Origin Community · 公告 104.3 ha(临时边界)

南·汇聚椎节· 大钟寺
Convergence Vertebra · Dazhongsi · 公告 72.0 ha(临时边界)
