

# Make Ten Small Things Reliable First

Urban technology may fail. Public service must remain. AI is a replaceable, auditable enhancement rather than the gate to the city.

- LOW-TECH FIRST
- HUMAN EQUIVALENT
- VISIBLE FAILURE
- OPEN EXIT

## Make Ten Small Things Reliable First

AI is not the gate to public service. A low-tech baseline remains available, people remain accountable, and smart layers can be audited, replaced, or stopped.

Urban technology may fail. Public service must remain.

ONE SPINE

Continuous service + walking

THREE STATIONS

Arrival / Co-service / Reliability

TWO WINGS

Community / Industry

TWELVE POINTS

Service, culture, tests, review

LOW-TECH FIRST · HUMAN EQUIVALENT · VISIBLE FAILURE · OPEN EXIT

### TEN CIVIC BASICS

- 01 Walk through
- 02 Sit down
- 03 Find shade
- 04 Drink water
- 05 Find a toilet
- 06 Ask directions
- 07 Charge & connect
- 08 Repair receipt
- 09 Night-time help
- 10 No account needed

# Design Judgement and Three Scales

The research scale organises industry and governance; the overall scale creates one spine, three stations, two wings, and twelve points; key areas own arrival, co-service, and reliability.

JINGZHANG BASICS

01—05

## Make Ten Small Things Reliable First

AI is not the gate to public service. A low-tech baseline remains available, people remain accountable, and smart layers can be audited, replaced, or stopped.

Urban technology may fail. Public service must remain.

LOW-TECH FIRST · HUMAN EQUIVALENT · VISIBLE FAILURE · OPEN EXIT

### TEN CIVIC BASICS

- 01 Walk through
- 02 Sit down
- 03 Find shade
- 04 Drink water
- 05 Find a toilet
- 06 Ask directions
- 07 Charge & connect
- 08 Repair receipt
- 09 Night-time help
- 10 No account needed

# Civic Baseline Spine and Two Wings

Seven conceptual land-use features cover the provisional site. The structure supports calculation and discussion without changing statutory land use, ownership, or controls.

JINGZHANG BASICS

01—05

## Civic Baseline Spine and Two Wings

A conceptual functional partition covering the provisional site; it expresses relationships, not statutory land use, ownership, or controls.

### FUNCTION LEGEND

- Civic baseline green spine
- Industry services and civic adoption
- Public learning and standards
- Community basic services
- AI R&D and reliability testing
- Jing-Zhang culture and open archive

| PROVISIONAL SITE      | DESIGN GREEN |
|-----------------------|--------------|
| 11.41 km <sup>2</sup> | 21.8%        |

CONCEPT PUBLIC SPACE  
0.60%

Dashed lines: provisional site and key areas. Regenerate all outputs when official polygons arrive.

# Three Key Areas

Dazhongsi makes arrival legible, AI Origin makes co-service open, and Zhongzhiyuan makes technical reliability testable.

JINGZHANG BASICS

01—05

## Three Key Areas, Three Responsibilities

Dazhongsi owns arrival, AI Origin Community owns co-service, and Zhongzhiyuan owns reliability testing; provisional geometry carries roles and interfaces only.

01

### DAZHONGSI · ARRIVAL

Static map, continuous crossing, staffed directions, seats, water, toilet information, and night help.

- No QR-only entrance
- Human multilingual bridge
- Rail and walking before display

PROVISIONAL KEY-AREA BOUNDARY

02

### AI ORIGIN · CO-SERVICE

Connect universities, residents, developers, and firms through open problems, prototypes, and service guidance.

- Equivalent no-account access
- Resident and student co-audit
- Human eligibility decisions

PROVISIONAL KEY-AREA BOUNDARY

03

### ZHONGZHIYUAN · RELIABILITY

Enclosed trials, facility sensing, predictive maintenance, and a public reliability gallery.

- Visible officer and e-stop
- Scale only after passing
- Retire failures openly

PROVISIONAL KEY-AREA BOUNDARY

# Seven Personas and Twelve Cards

Personas test exclusion. Cards specify baseline service, AI enhancement, data, human review, non-AI access, and a stopping rule.

JINGZHANG BASICS

01—05

## One Continuous Line, Twelve Maintainable Points

Walking, shade, rest, directions, help, and repair reporting form one civic baseline; the AI layer never controls basic access.

### 12 SCENARIO CARDS

- 01

Arrival and wayfinding
- 02

Toilets and drinking water
- 03

Shade and rest
- 04

Night-time help
- 05

Accessibility co-audit
- 06

No-account services
- 07

Facility repair
- 08

Multilingual human bridge
- 09

Low-speed supply test
- 10

Urban systems check
- 11

Traceable heritage guide
- 12

Annual basics review

EVERY CARD: HUMAN REVIEW + NON-AI EQUIVALENT + STOP RULE

# Walking, Blue-Green, and Service

A north-south spine, six cross-links, a cycle branch, and twelve points connect shade, rest, directions, help, and repair reporting.

JINGZHANG BASICS

01—05

## One Continuous Line, Twelve Maintainable Points

Walking, shade, rest, directions, help, and repair reporting form one civic baseline; the AI layer never controls basic access.

### 12 SCENARIO CARDS

- |                               |                              |
|-------------------------------|------------------------------|
| 01 Arrival and wayfinding     | 07 Facility repair           |
| 02 Toilets and drinking water | 08 Multilingual human bridge |
| 03 Shade and rest             | 09 Low-speed supply test     |
| 04 Night-time help            | 10 Urban systems check       |
| 05 Accessibility co-audit     | 11 Traceable heritage guide  |
| 06 No-account services        | 12 Annual basics review      |

EVERY CARD: HUMAN REVIEW + NON-AI EQUIVALENT + STOP RULE

# Known, Recalculable, Unknown

Announcement facts, design calculations, and missing statutory controls remain separate. Unknown is a professional state until authoritative inputs arrive.

JINGZHANG BASICS

01—05

## Known, Recalculable, Unknown

Replace false precision with an evidence chain: separate announcement facts from design values, and keep missing statutory controls unknown.

OFFICIAL OVERALL AREA

11.4 km<sup>2</sup>

Announcement fact

PROVISIONAL GEOMETRY

11.41 km<sup>2</sup>

Geometry calculation

SCENARIO CARDS

12

Including 3 industry tests

KEEP UNKNOWN

Floor area ratio

Gross floor area

Building height

Statutory density

Road-area ratio

Setbacks and capacity

Unknown is not an omission. It is the professional state until authoritative inputs arrive.

PERSONAS

7

Exclusion-effect checks

HUMAN REVIEW RULE

100%

Proposal-rule coverage

NON-AI FALLBACK RULE

100%

Proposal-rule coverage

# Three Implementation Phases

Phase 1 verifies facts and basics; Phase 2 runs controlled trials and cross-links; Phase 3 scales what passes and retires failures openly.

JINGZHANG BASICS

01—05

## Known, Recalculable, Unknown

Replace false precision with an evidence chain: separate announcement facts from design values, and keep missing statutory controls unknown.

OFFICIAL OVERALL AREA

**11.4 km<sup>2</sup>**

Announcement fact

PROVISIONAL GEOMETRY

**11.41 km<sup>2</sup>**

Geometry calculation

SCENARIO CARDS

**12**

Including 3 industry tests

**KEEP UNKNOWN**

- Floor area ratio

- Building height
- Statutory density
- Road-area ratio
- Setbacks and capacity

Unknown is not an omission. It is the professional state until authoritative inputs arrive.

PERSONAS

**7**

Exclusion-effect checks

HUMAN REVIEW RULE

**100%**

Proposal-rule coverage

NON-AI FALLBACK RULE

**100%**

Proposal-rule coverage

# Industry Mechanism and Cases

Public problem—baseline audit—small trial—co-evaluation—procure or retire—open review. Global cases provide mechanisms, not imported targets or authority.

JINGZHANG BASICS

01—05

## Make Ten Small Things Reliable First

AI is not the gate to public service. A low-tech baseline remains available, people remain accountable, and smart layers can be audited, replaced, or stopped.

Urban technology may fail. Public service must remain.

ONE SPINE

Continuous service + walking

THREE STATIONS

Arrival / Co-service / Reliability

TWO WINGS

Community / Industry

TWELVE POINTS

Service, culture, tests, review

LOW-TECH FIRST · HUMAN EQUIVALENT · VISIBLE FAILURE · OPEN EXIT

### TEN CIVIC BASICS

- 01 Walk through
- 02 Sit down
- 03 Find shade
- 04 Drink water
- 05 Find a toilet
- 06 Ask directions
- 07 Charge & connect
- 08 Repair receipt
- 09 Night-time help
- 10 No account needed

# Risk, Rights, and Next Steps

Official controls, fieldwork, accessibility co-audits, ownership, utilities, fire, heritage, trees, operators, and budgets are gates for formal development.

## Known, Recalculable, Unknown

Replace false precision with an evidence chain: separate announcement facts from design values, and keep missing statutory controls unknown.

OFFICIAL OVERALL AREA

11.4 km<sup>2</sup>

Announcement fact

PROVISIONAL GEOMETRY

11.41 km<sup>2</sup>
