

# Twin-Rail Symbiosis Belt — Overview

Iron-Rail heritage x Light-Rail innovation x three key areas · land use (provisional)

Derived from geometry/\*.geojson and metrics.json; official redline pending recalculation.

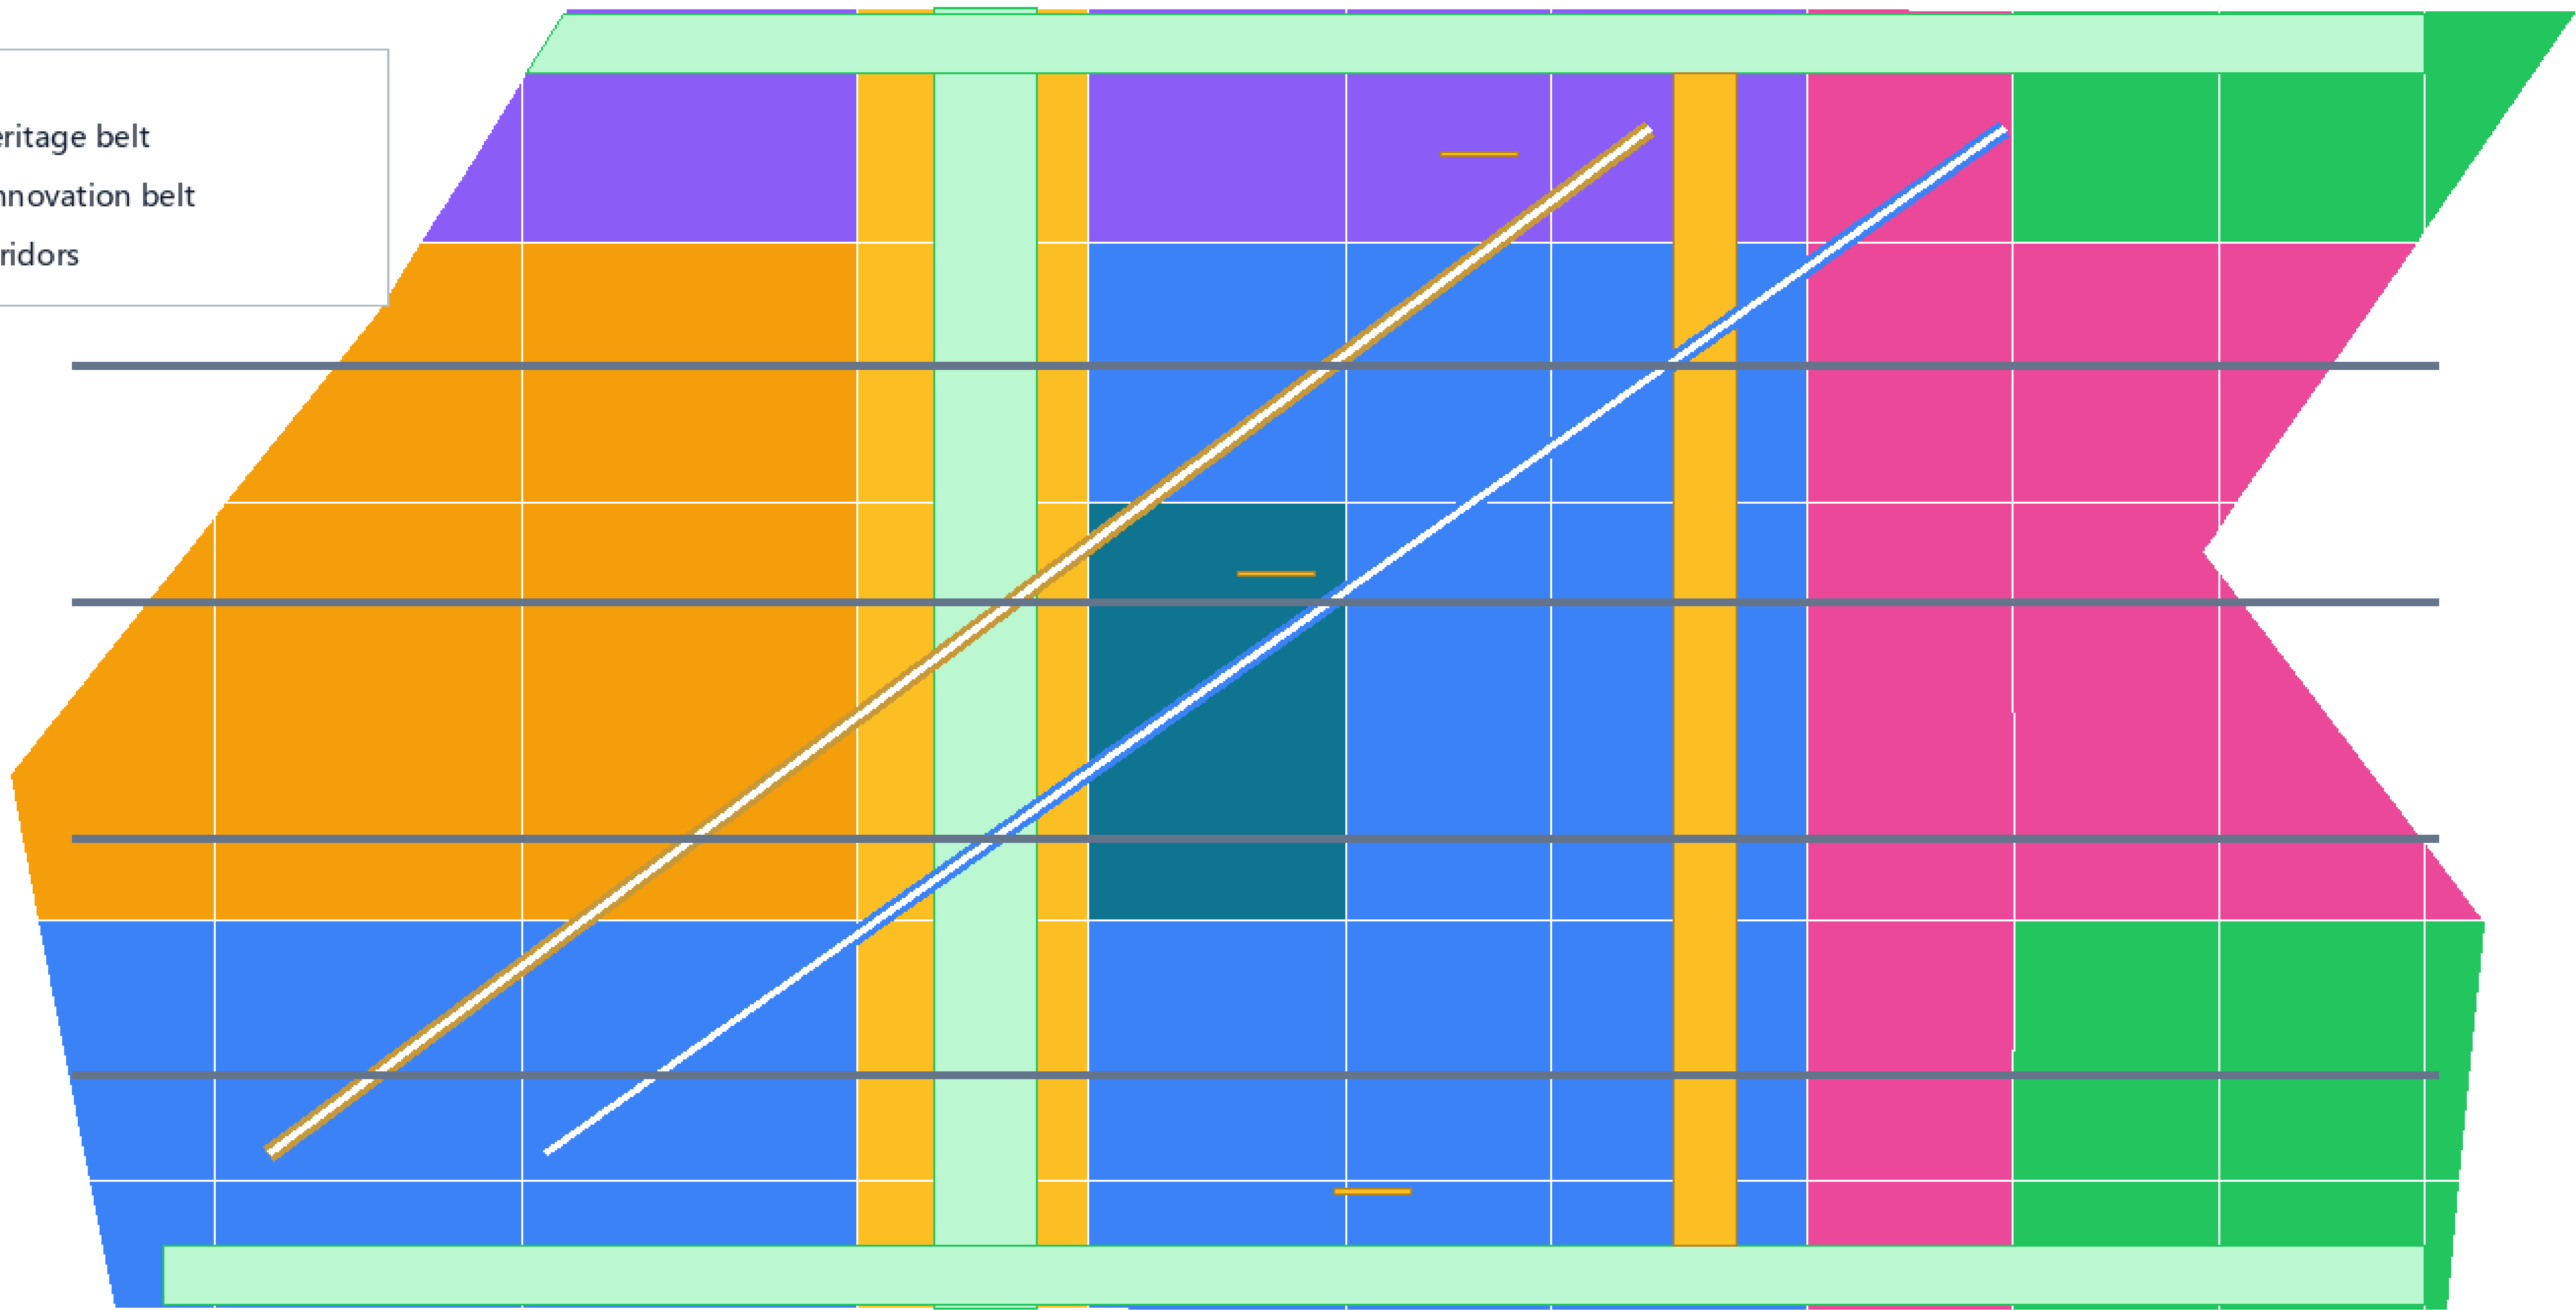

# Twin-Rail Five-Chain Land-Use Structure

AI R&D x culture x residential x commercial x green x plaza (provisional)

图例 / Legend

- Iron-Rail heritage belt
- Light-Rail innovation belt
- Sleeper corridors

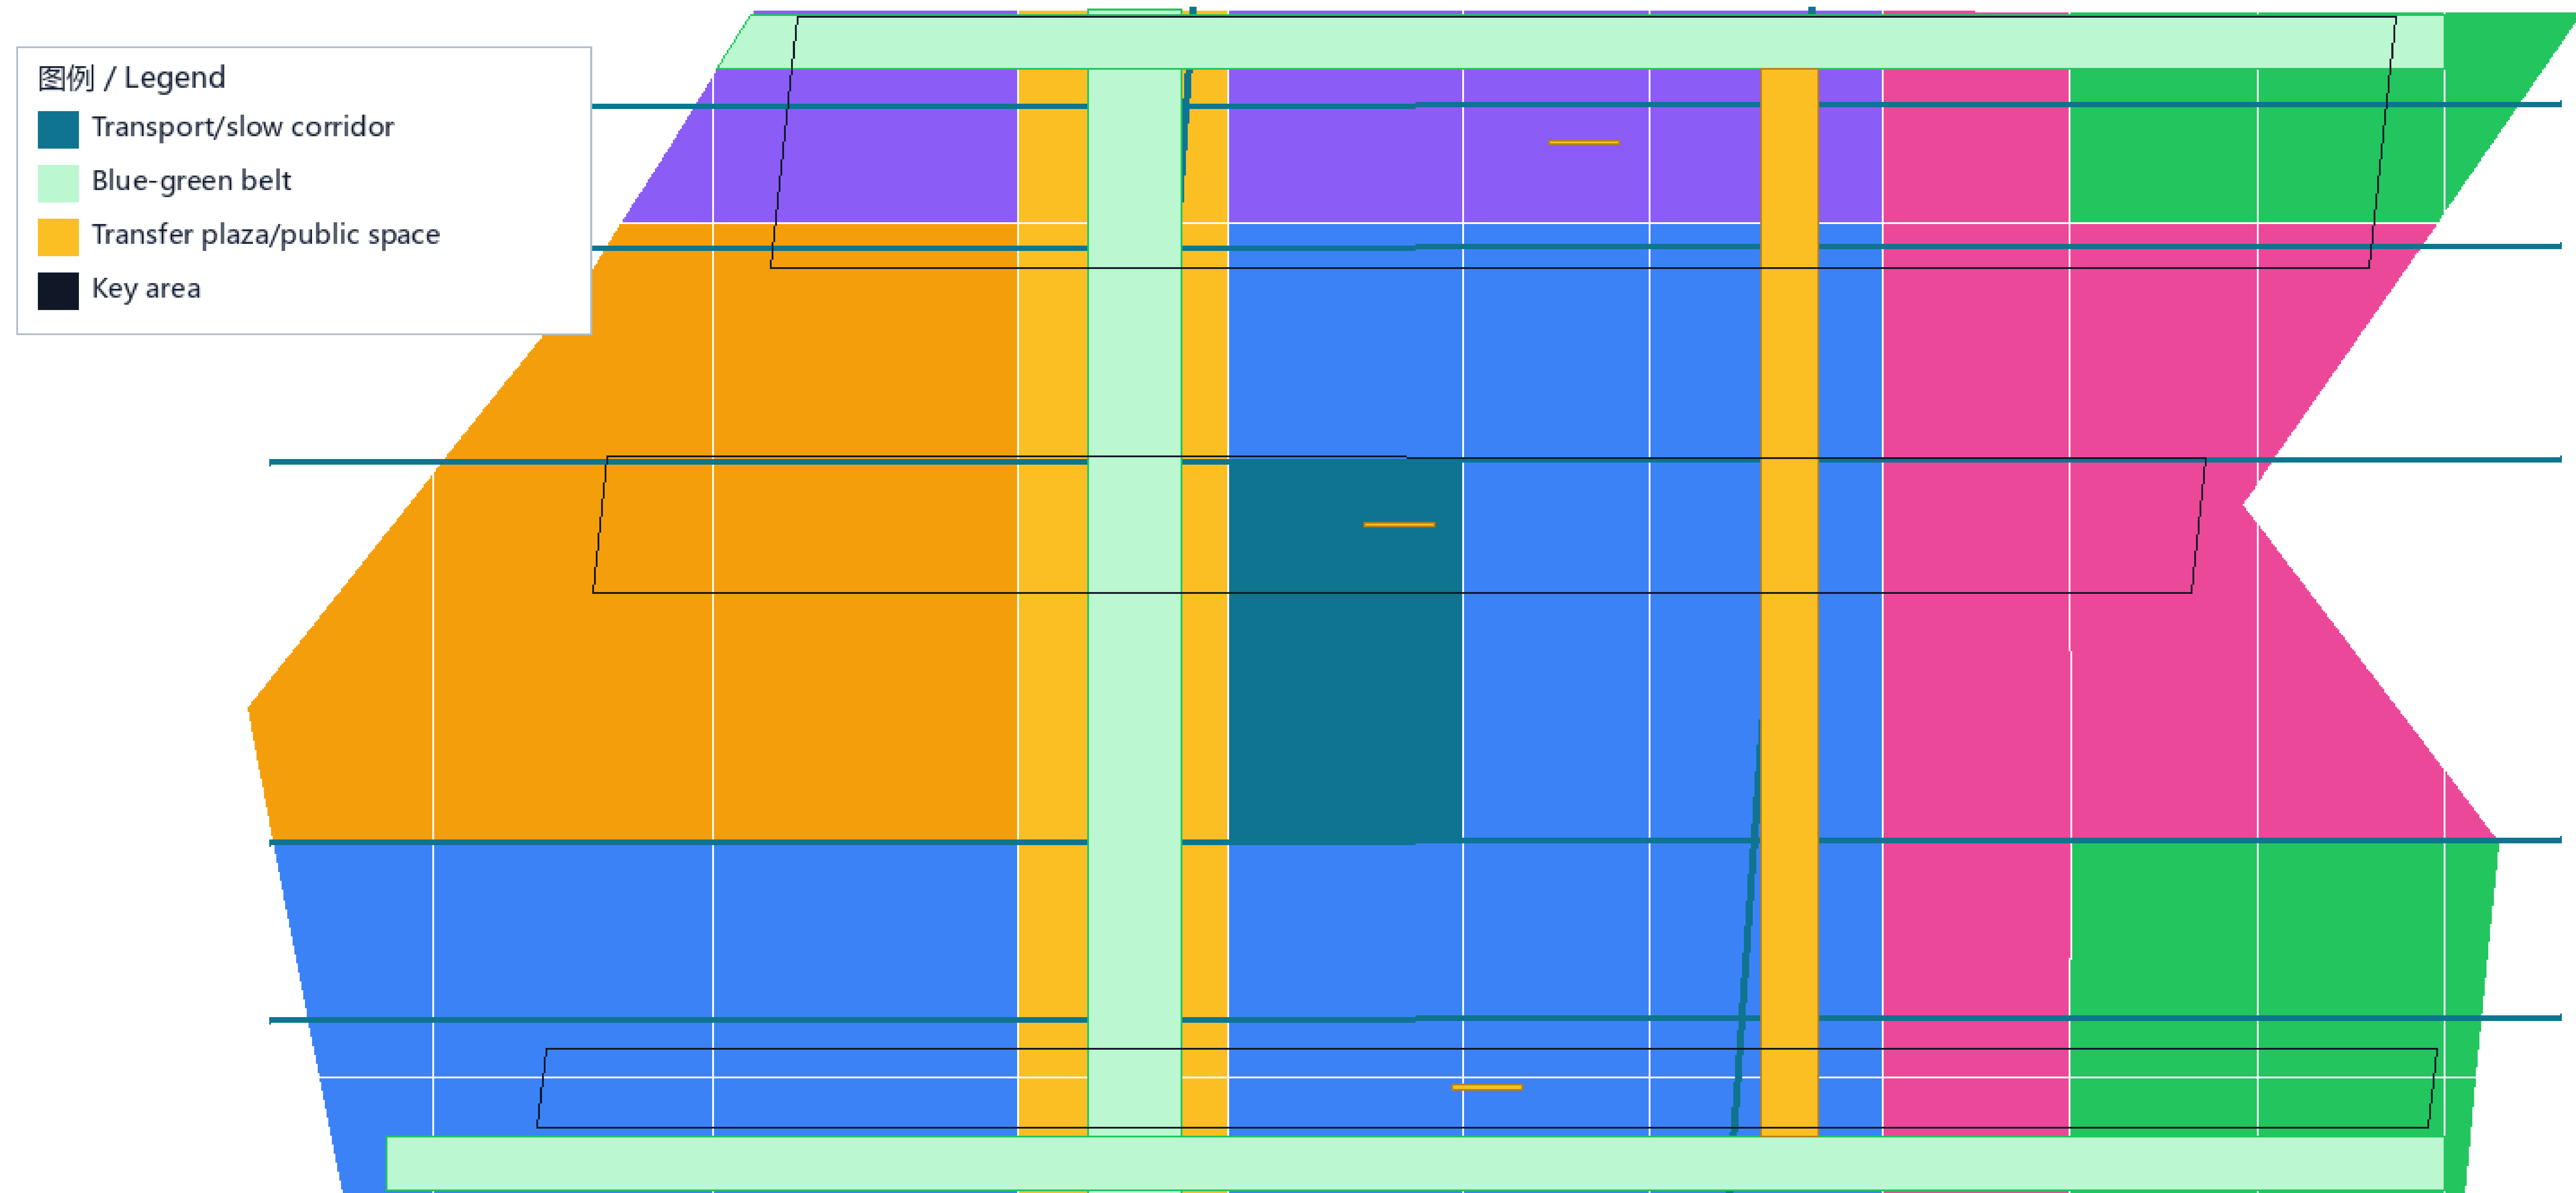

Twin rails in parallel; sleepers are east-west slow-traffic and blue-green corridors; ratios from metrics.json.

# Mobility x Blue-Green Network

Transport corridors x slow traffic x blue-green belts x transfer plazas (provisional)

Station-city integration, slow-traffic gap stitching, and blue-green continuity; roads and blue lines need professional deepening.

# Three Key Areas — Detailed Design Index

Acceleration Rail x Origin Rail x Application Rail · site overlay (provisional)

## Zhongzhiyuan · Acceleration Rail

Full-stack autonomy / Safety governance / Qinghe Gallery / Testbed

National AI platform · Standards · Industry display · 5th Ring

## AI Origin Community · Origin Rail

University-adjacent origination / Transfer / Open-source hall / Talent zone

Tsinghua·PKU·CAS · Campus-park stitching · Wudaokou station-city

## Dazhongsi · Application Rail

Agents / Content consumption / Data elements / Roadshow

Leading-enterprise pull · Four-quadrant connectivity · Green-space mixed use

Three key areas at conceptual-study depth; area deviation <0.5%, pending official recalculation.
