

01 CONCEPT + GATES

Railway staging and software staging form a reversible civic capability release process.

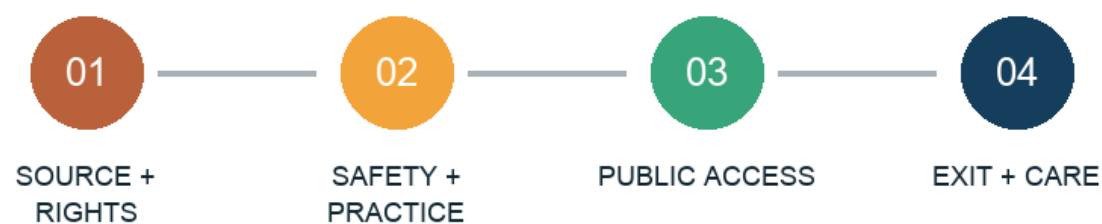

JING-ZHANG STAGING LINE

ONE SPINE · THREE YARDS · TWO WINGS · FOUR GATES

v0.2

FOUR RELEASE GATES

NOT MORE TECH — REVERSIBLE CIVIC CAPABILITY

- Every scenario enters as a limited, observable pilot. Four gates leave public evidence for continuation, modification, or retirement.
- The west wing supplies evidence from universities, open-source communities and professionals; the east wing returns feedback from residents, commuters, culture and stations.
- The envelope is the repository's provisional proxy boundary, for concept review and recalculation only.

SOURCE: repository provisional geometry · DESIGN: agent-generated concept · NOT A STATUTORY PLAN

02 THREE SCALES + THREE YARDS

Research, overall design and detailed design close the loop through distinct yard roles.

THREE YARDS, THREE DISTINCT JOBS

EACH KEY AREA OWNS A DIFFERENT ACCOUNTABLE STAGE

v0.2

01

ZHONGZHIYUAN · VALIDATION
YARD

Models, embodied AI and novel infrastructure
undergo professional testing; failures retire.

PROFESSIONAL GATE

192.1 ha announced

02

AI ORIGIN · OPEN-SOURCE
CONCOURSE

Translate university research into reproducible
components, licenses and public evidence.

RIGHTS GATE

104.3 ha announced

03

DAZHONGSI · CIVIC PREMIERE
YARD

Test public experience, accessibility and
maintenance at transit, commerce and
community interfaces.

PUBLIC GATE

72.0 ha announced

CAUTION: Rectangular key areas are repository proxies; official parcels, ownership, heritage and road lines must replace them.

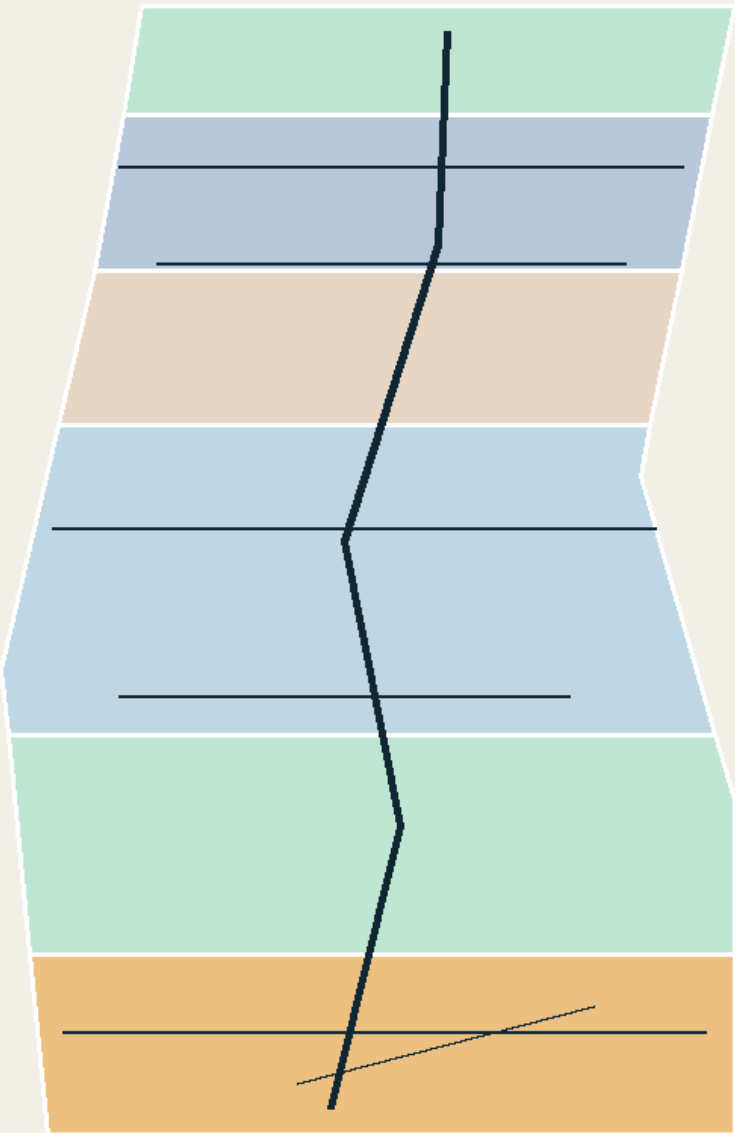

03 LAND USE + RENEWAL FRAME

Six complete bands support concept testing without replacing statutory controls or surveys.

LAND USE: COMPLETE, NON-STATUTORY PARTITION

RECALCULABLE DESIGN LAYER; STATUTORY CONTROLS PENDING

v0.2

SIX BANDS / FIVE STANDARD CODES

- 0802 Research / validation
- 0804 Education / open source
- 0702 Community / daily use
- 05 Commercial / civic premiere
- 1401 Park / memory + buffer

RECALCULATED TOTAL 11.413 km2

RECALCULATE ALL BANDS AFTER BOUNDARY REPLACEMENT

MNR code subset · geometry/land_use.geojson · gaps 0 by construction · conceptual recommendation

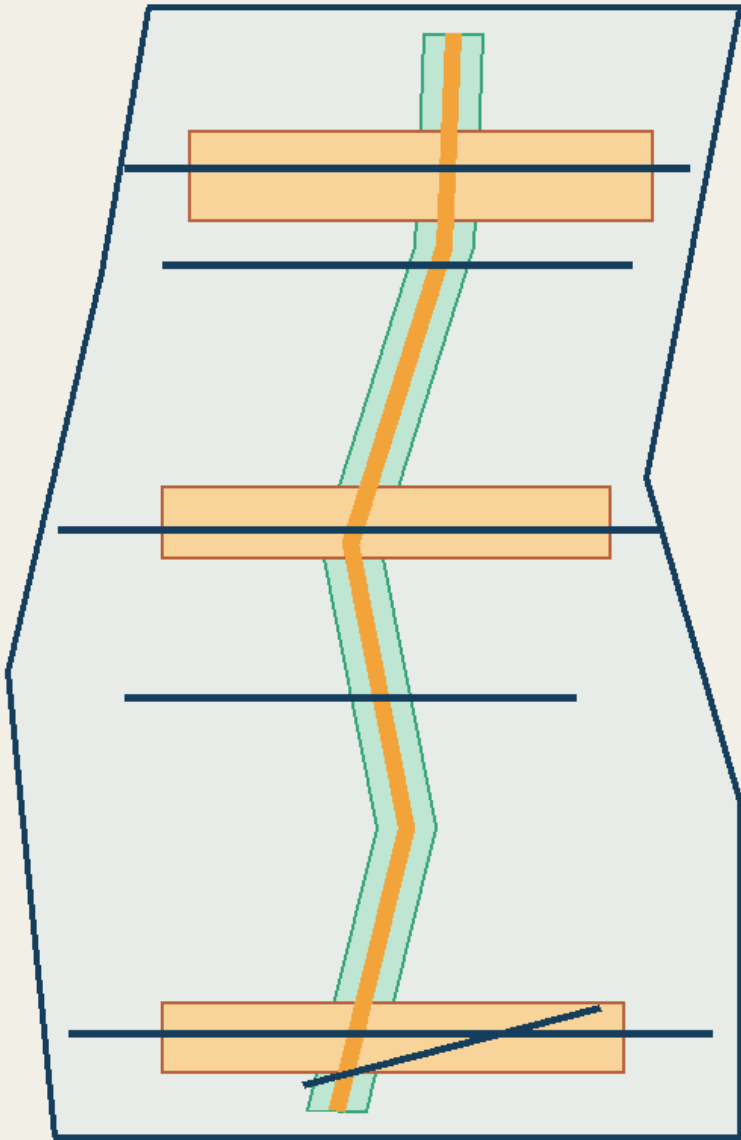

04 MOBILITY + BLUE-GREEN PUBLIC REALM

One spine and cross-links support movement, trials, feedback and care.

MOBILITY × BLUE-GREEN PUBLIC REALM

ONE REVERSIBLE FRAME FOR MOVEMENT, PILOTS, FEEDBACK AND CARE

v0.2

12 STAGING BAYS

- 1

Explainable wayfinding
- 2

Barrier-free audits
- 3

Low-carbon edge compute
- 4

Open-space care agent
- 5

Model red-team bench
- 6

Embodied-AI edge street
- 7

Open-license clinic
- 8

Reproduction bench
- 9

Transit flow explainer
- 10

AI daily-service desk
- 11

Railway-memory guide
- 12

Exit + care ledger

ALIGNMENTS, WIDTHS AND CONNECTIONS ARE CONCEPTUAL

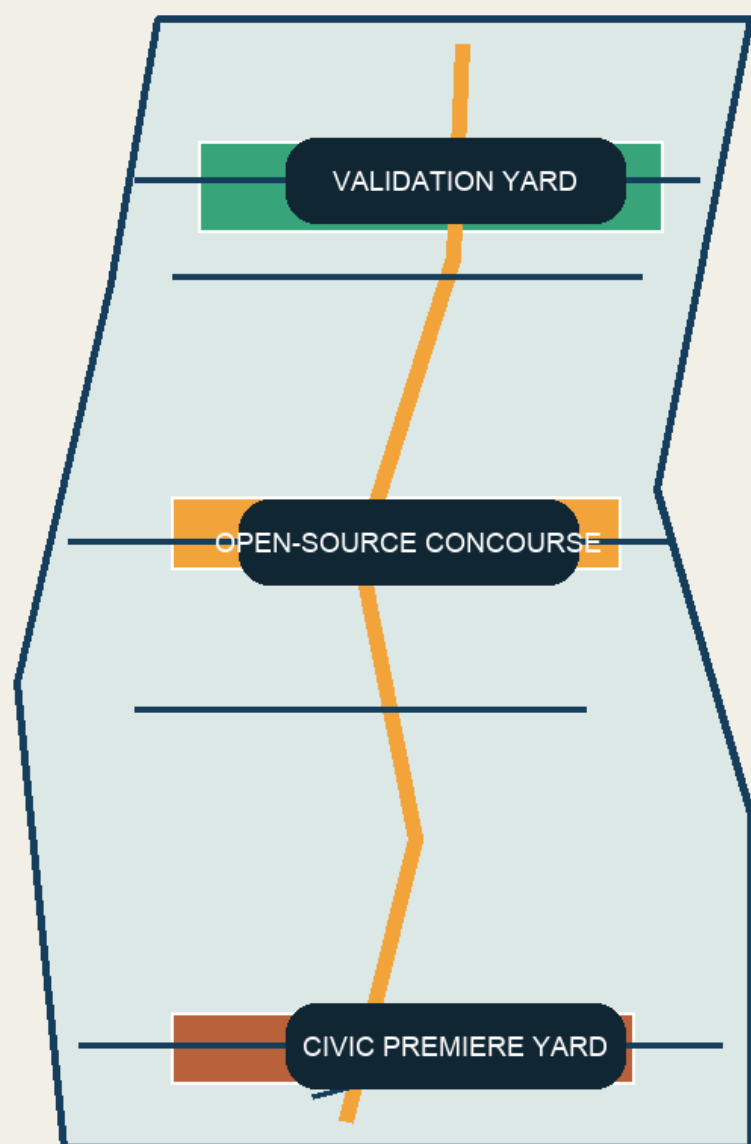

05 TWELVE BAYS + FOUR HARD TESTS

Every scenario has minimum data, accountable humans, failure criteria and restoration.

JING-ZHANG STAGING LINE

06 IMPLEMENTATION, METRICS + EVIDENCE

Run reversible pilots before permanent investment; missing controls remain unknown.

METRICS + EVIDENCE: MAKE UNCERTAINTY VISIBLE

PUBLISH RECALCULABLE VALUES; KEEP MISSING CONTROLS UNKNOWN

v0.2

11.413

km2 provisional site

9.2%

design green ratio

14.6%

design public-space ratio

12

staging bays

EVIDENCE CHAIN

If any link is missing, the scenario returns to staging; passing is not statutory approval.

KEEP UNKNOWN

- Statutory FAR
- Height + setback
- Road lines + parking
- Heritage + utilities

metrics.json is authoritative · exact values derived in EPSG:4548 · provisional inputs remain flagged

07 RISK + PROFESSIONAL HANDOFF

Recalculate the full package when official boundaries, controls, ownership, heritage, roads and utilities arrive.

METRICS + EVIDENCE: MAKE UNCERTAINTY VISIBLE

PUBLISH RECALCULABLE VALUES; KEEP MISSING CONTROLS UNKNOWN
