

Jianmu Jing-Zhang · Overall Concept (One Jianmu, Three Areas, Two Wings)

- Jianmu Jing-Zhang: from railway to AI
- One Jianmu, Three Areas, Two Wings
- Loop: Source → Engine → Market

Jianmu Jing-Zhang · Land Use Structure

Source: land_use_revision · provisional boundary
Complete, seamless, non-overlapping partition

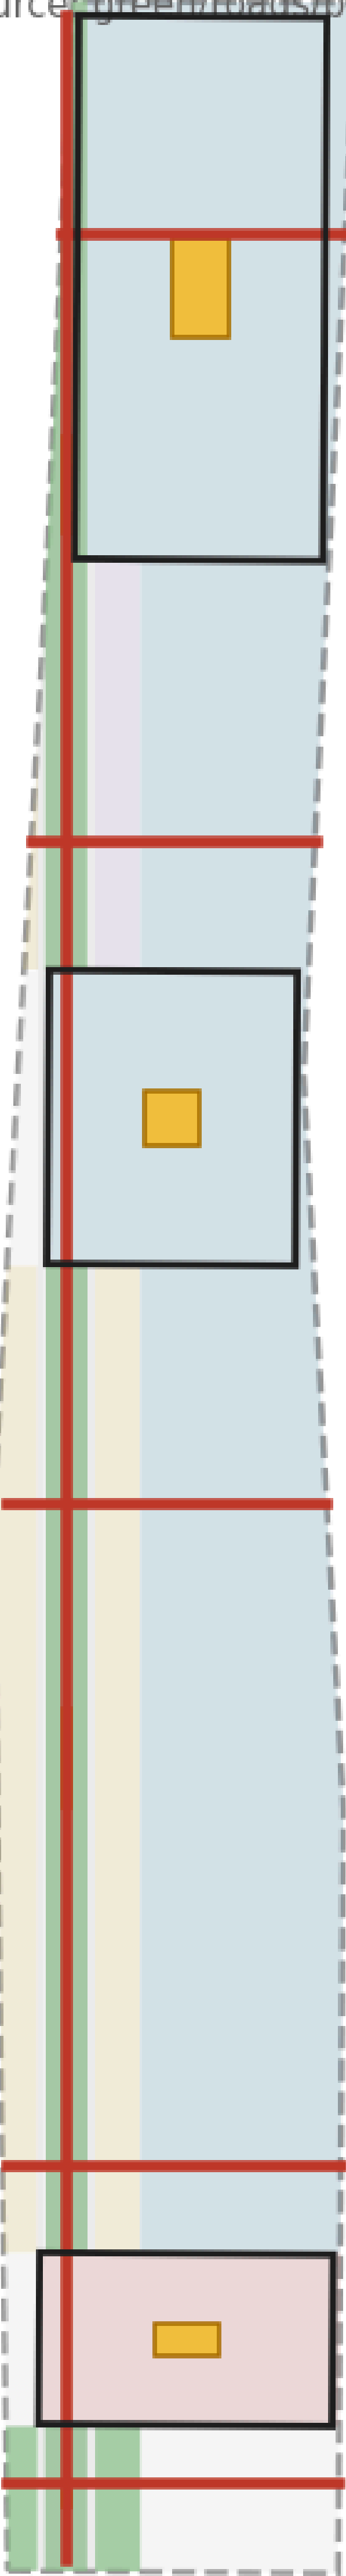

R&D (0802)	Commercial (05)	Education (0804)
Residential (0701)	Park Green (1401)	Reserve (16)

- Seamless complete land-use partition
- Retain-renovate-new-build strategy
- R&D/Residential/Green/Commercial/Public services/Road/Reserve

Jianmu Jing-Zhang · Mobility & Blue-Green Network

Source: green/roads/public_space.geojson · provisional boundary

Blue-green space

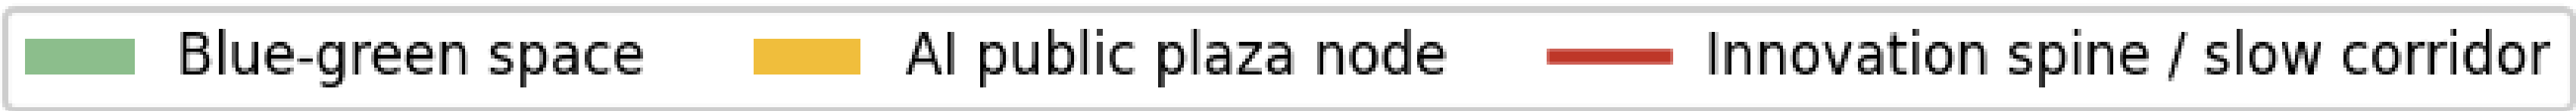

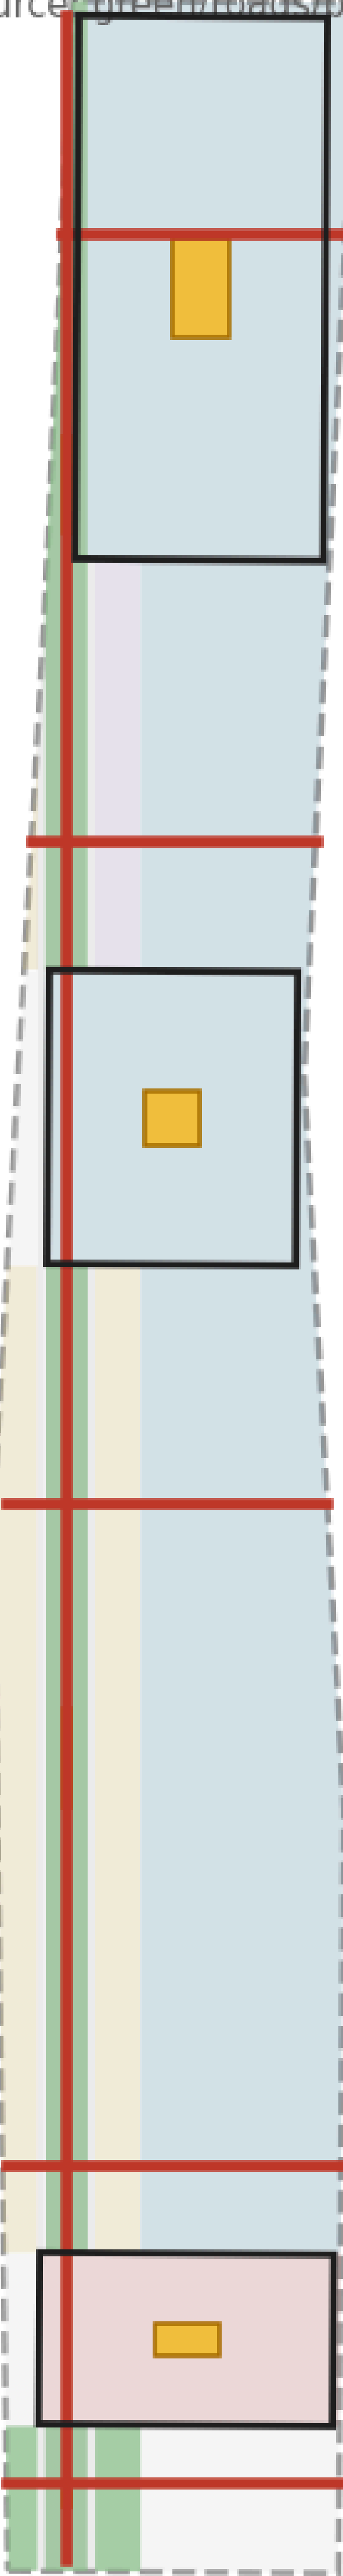

AI public plaza node

Innovation spine / slow corridor

- North-south slow corridor spine
- Transit-oriented development (station-city)
- Distributed energy & edge compute concept

Jianmu Jing-Zhang · Mobility & Blue-Green Network

Source: green/roads/public_space.geojson · provisional boundary

- Heritage Park = innovation spine & living room
- One-spine-multiple-pearls blue-green network
- Skyline protection control belt

Three Key Areas · Positioning & Linkage

Source · key areas · decision · provisional boundary
Three non-overlapping areas along the Heritage Park spine

Source→Engine→Market

- Zhongzhiyuan: full-stack AI autonomy engine (192.1 ha)
- AI Origin Community: innovation source (104.3 ha)
- Dazhongsi: scenario market (72.0 ha)

Core Metrics · Recalculation & Evidence Chain

Overall design area: 11,412,825 m²	Source geometry/site_boundary.geojson
Green ratio: 14.99%	Source green_space / site_boundary
Public space ratio: 0.33%	Source public_space / site_boundary
Concept building density: 8.17%	Source buildings / site_boundary
Key areas: 3 / 3,692,893 m²	Source key_areas.geojson
Concept road length: 15,493 m	Source roads.geojson

All metrics recalculated from geometry in EPSG:4548; statutory FAR/height/density/green ratio pending official data (stat)

- 10 scenario cards + 3 industry test/validation
- 3 AI pilgrimage landmarks
- Short-medium-long term phasing (with triggers)
