

A0—01 JINGZHANG YIELD

In an AI city, machines learn to yield first.

CONCEPTUAL LAND-USE PLAN

Four design families organise one continuous human-first public realm.

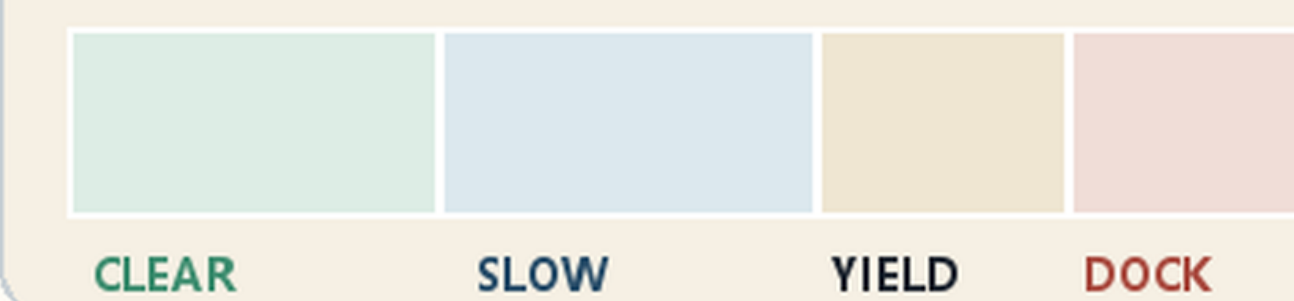

LAND-USE DESIGN GEOMETRY

PROGRAM LEGEND

- 01 AI research + innovation
- 02 park + open space
- 03 industry + commerce
- 04 community services

HUMAN-FIRST SECTION

Clear width is a right. Machine access is conditional.

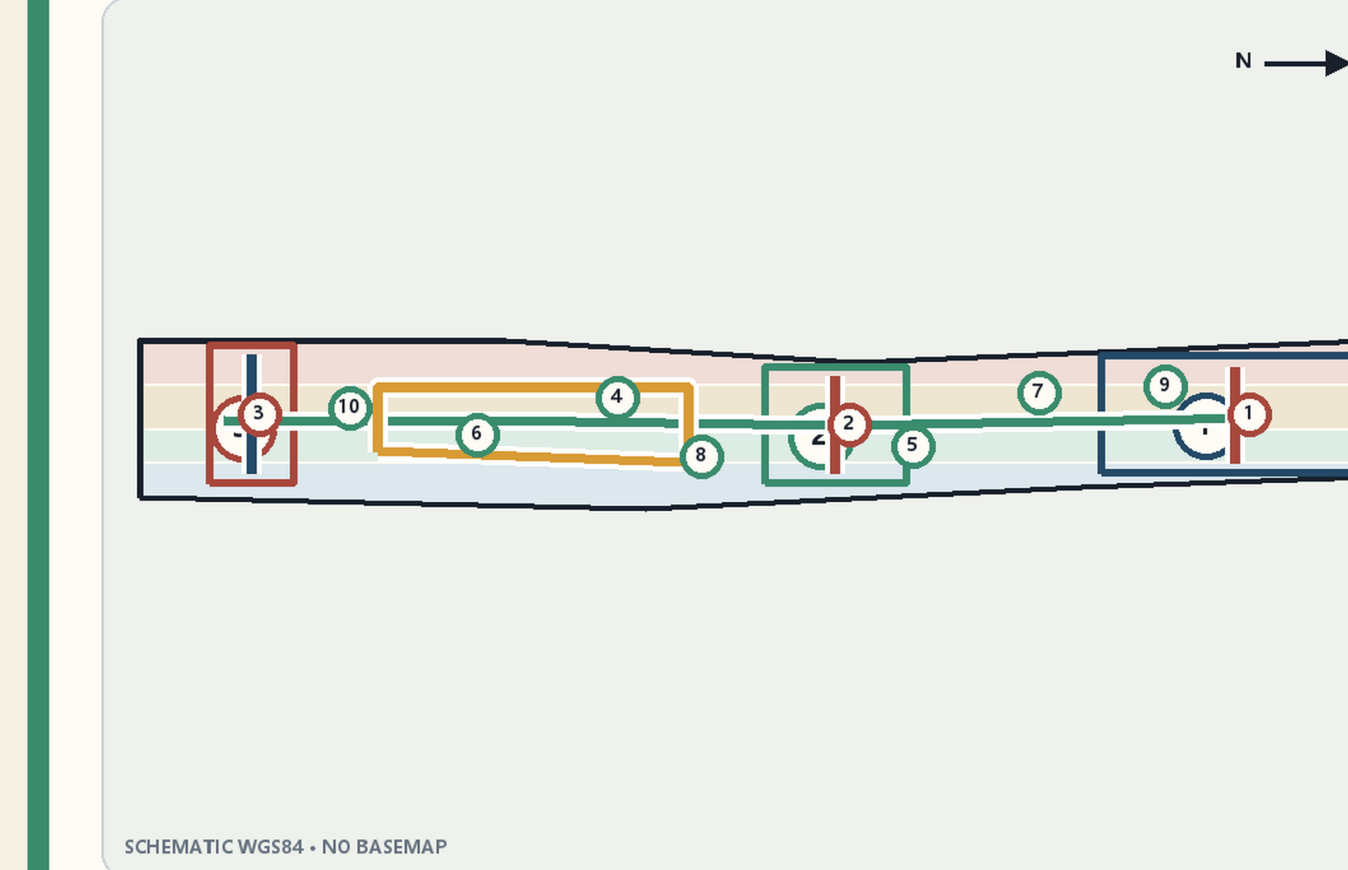

DESIGN GEOMETRY • NOT ZONING

MatchA040508 • PROVISIONAL DESIGN GEOMETRY • NOT A STATUTORY REDLINE

JINGZHANG YIELD

In an AI city, machines learn to yield first.

PROVISIONAL SPATIAL PLAN

SCOPE / PROOF / EVIDENCE

43.6 km ²	coordinated research
11.4 km ²	overall design
368.4 ha	three key areas
01 YIELD YARD • 800 m	
02 ZERO-THRESHOLD • 600 m	
03 HANDOVER • 400 m	
SOURCE → ASSUMPTION → DESIGN → GEOMETRY → METRIC → CHECK	

11.4 km² is an announced approximate scope. The submitted polygon is provisional and must be replaced and recalculated.

MatchA040508 • PROVISIONAL DESIGN GEOMETRY • NOT A STATUTORY REDLINE

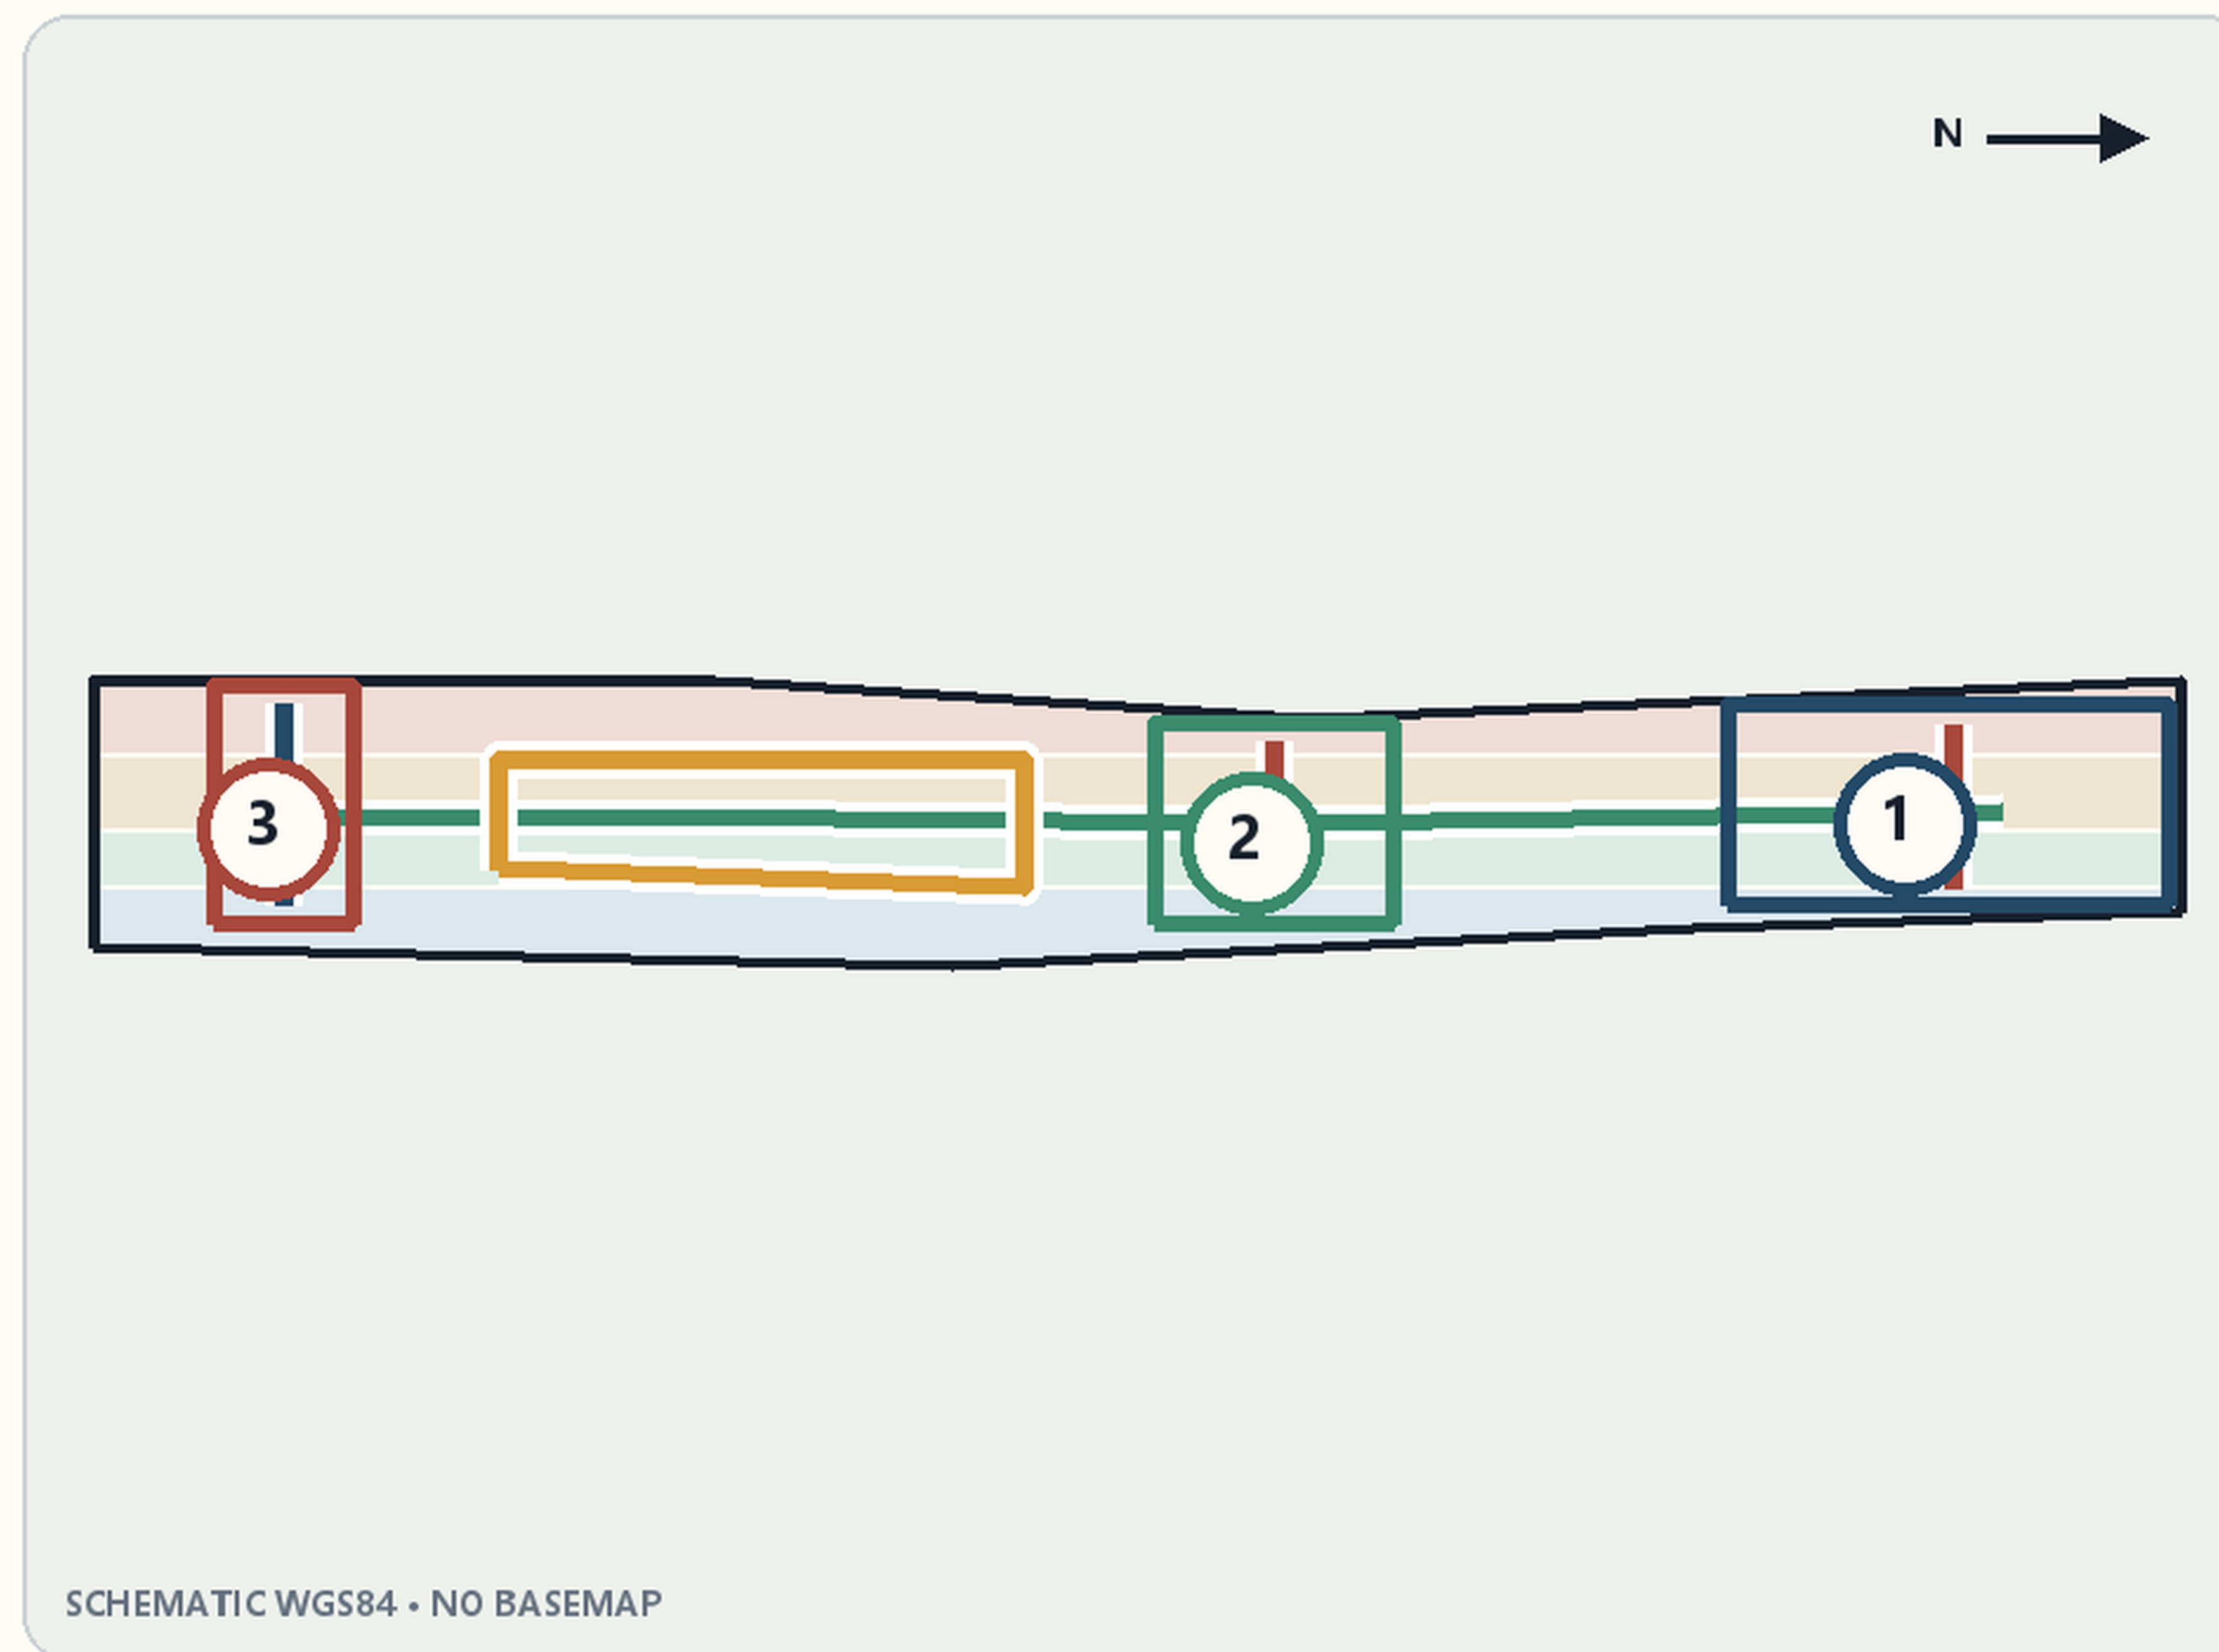

NO APP • NO
ACCOUNT •
STAFFED HELP •
PHYSICAL STOP

A0—02 THREE PROOFS, THREE URBAN INTERFACES

400–800 m is enough to test human scale, weather, night, and failure

THREE URBAN PROOF SEGMENTS

One human-priority rule, three different proof segments.

01 ZHONGZHIYUAN

YIELD YARD • 800 m

robot / repair / rain

192.1 ha ≈ announced

02 AI ORIGIN

ZERO-THRESHOLD • 600 m

kerb / rest / daily help

104.3 ha ≈ announced

03 DAZHONGSI

HANDOVER • 400 m

peak exit / staffed recovery

72.0 ha ≈ announced

Approximate announced areas only. Exact polygons, parcels, roads, heritage and buildings remain missing.

MatchA040508 • PROVISIONAL DESIGN GEOMETRY • NOT A STATUTORY REDLINE

HUMAN FIRST

SLOW

STOP

DOCK

HAND OVER

RECOVER

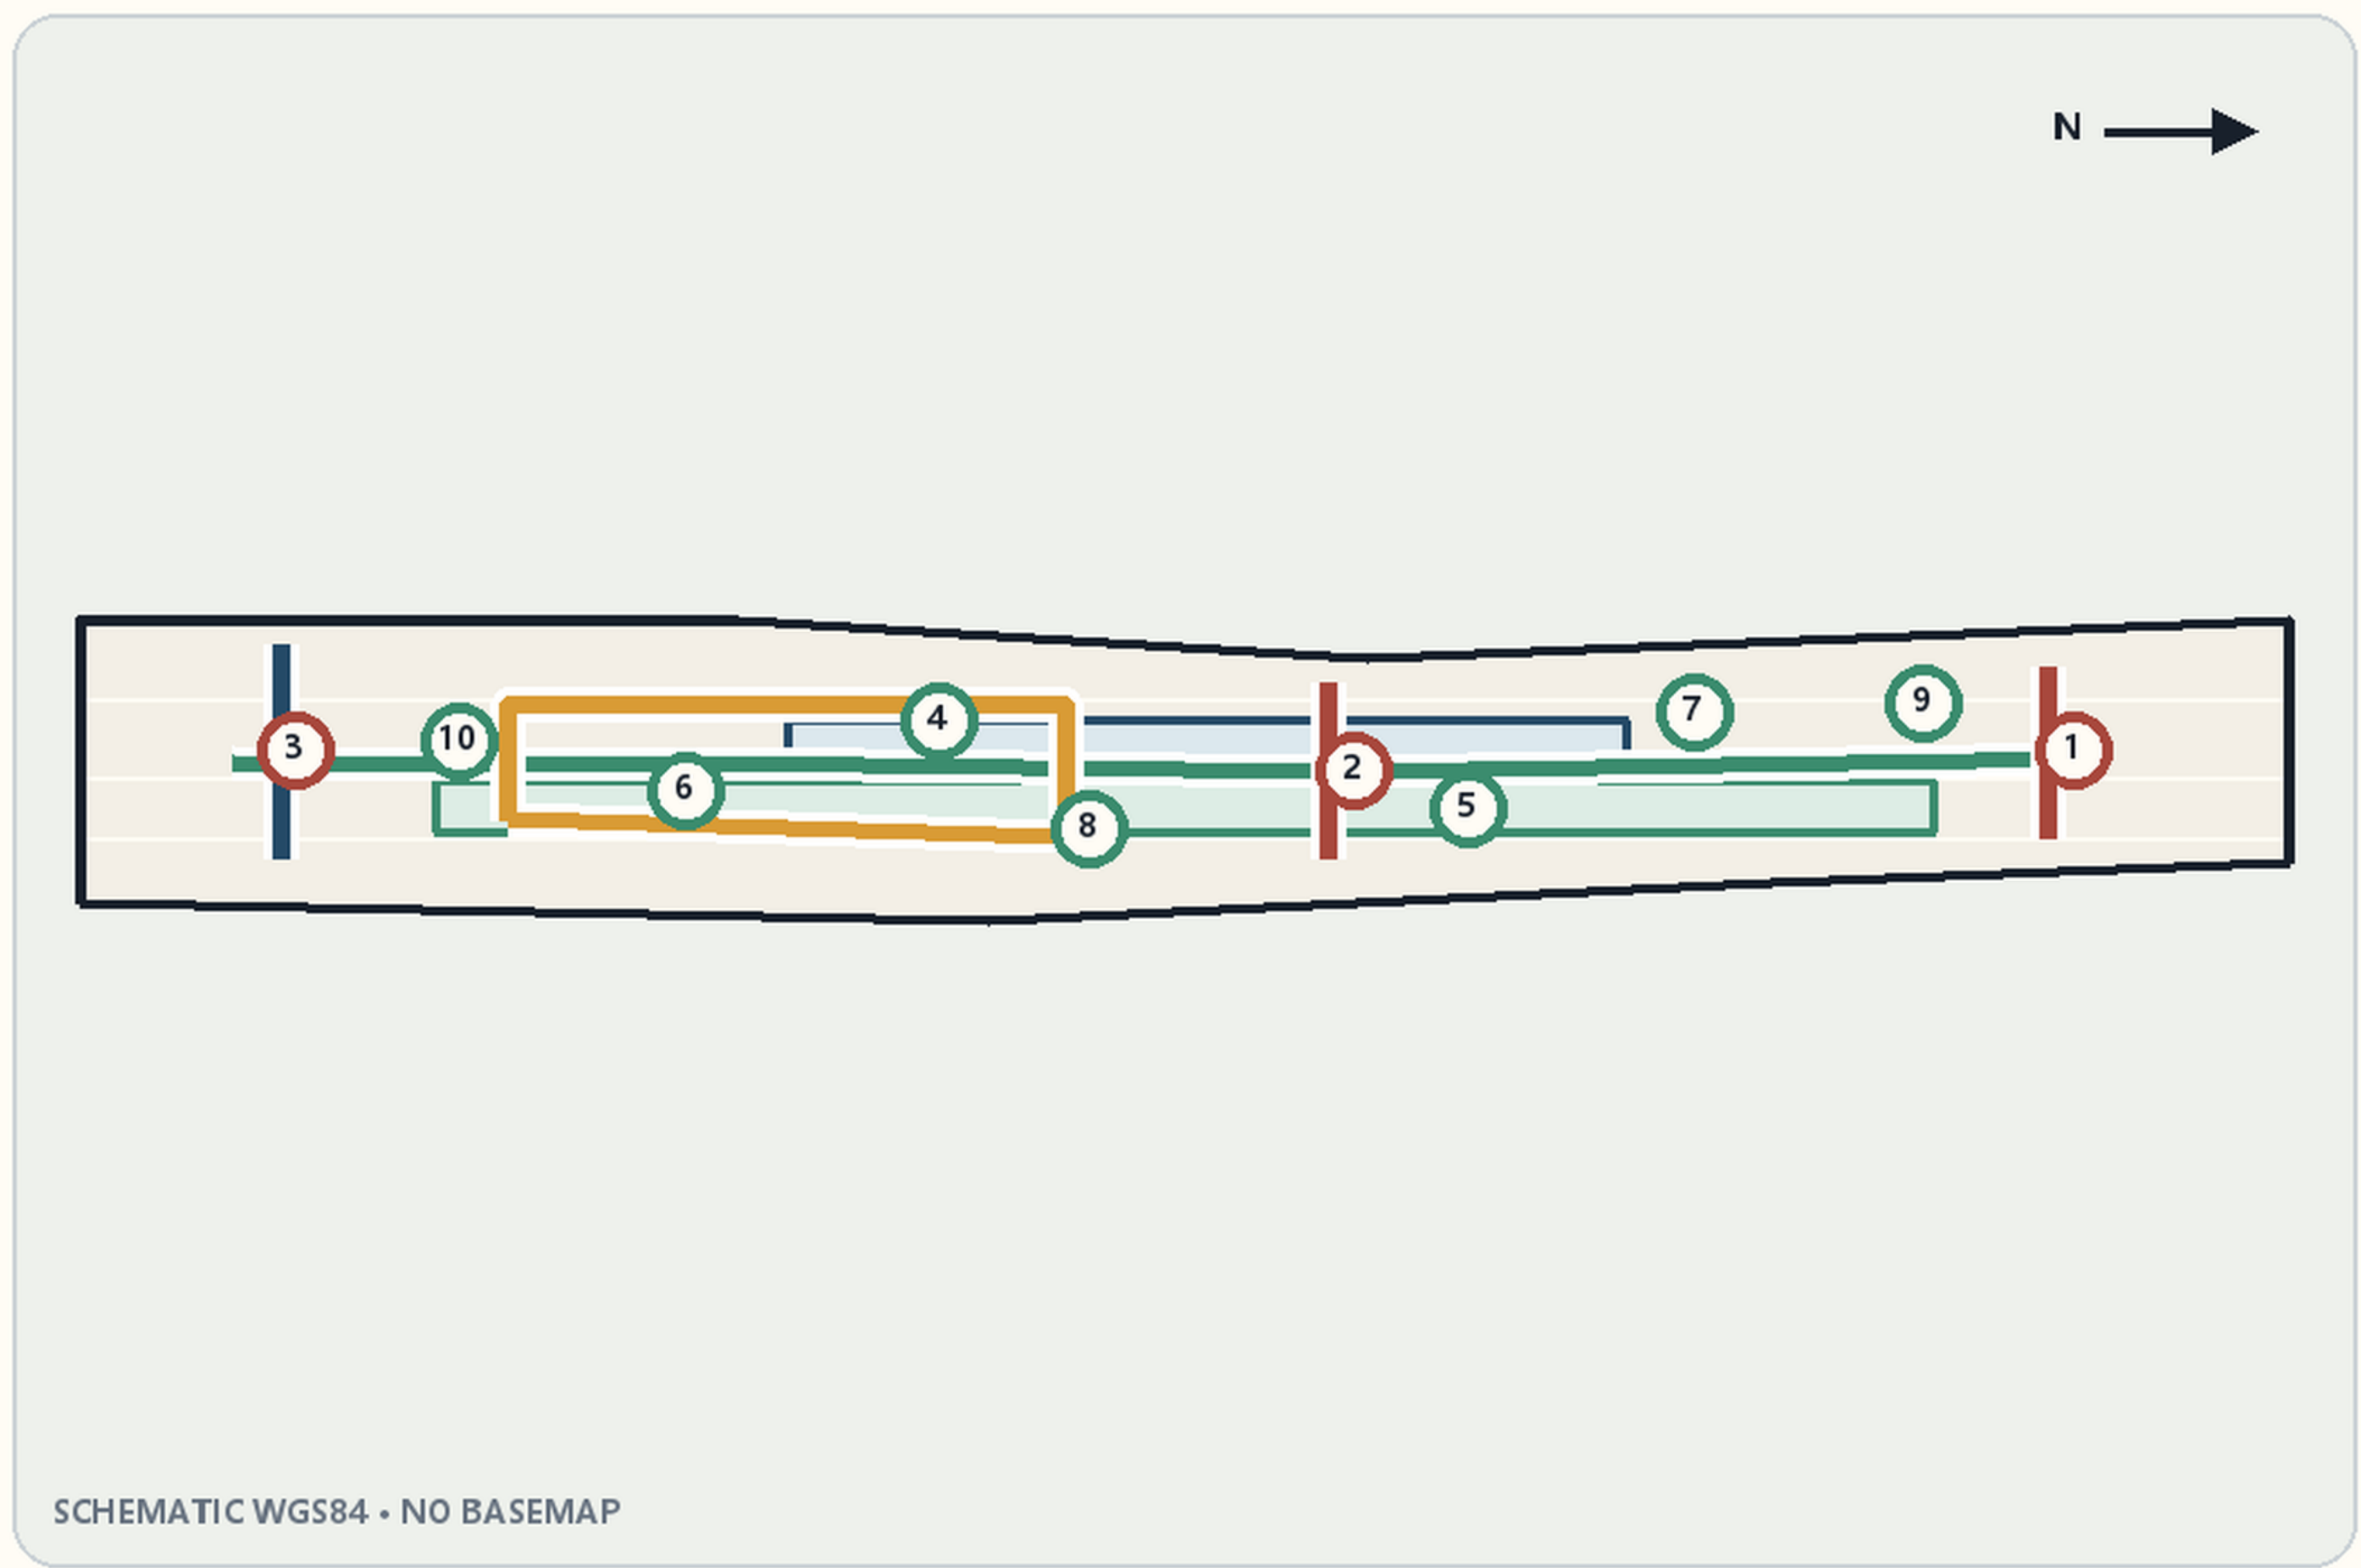

A0—03PUBLIC TASKS, RELIABILITY, AND EVIDENCE

Do not replace human waiting, clear width, takeover, and account-free completion with model accuracy

HUMAN-FIRST MOBILITY + BLUE-GREEN

Human priority must survive day, night, rain, and failure.

DESIGN NETWORK + 10 SCENARIO NODES

MatchA040508 • PROVISIONAL DESIGN GEOMETRY • NOT A STATUTORY REDLINE

NETWORK LEGEND

- human-first main line
- three proof segments
- daily slow loop
- handover connection

RELIABILITY SEQUENCE

- 01 DAY ordinary flow
 - 02 NIGHT staffed help
 - 03 RAIN / SNOW degrade safely
 - 04 FAILURE stop + hand over
- NO APP • NO ACCOUNT • HUMAN HELP

METRICS ARE NOT AUTHORITY

Separate announced approximations, provisional geometry, and future operating baselines.

PROVISIONAL GEOMETRY OUTPUTS

SITE AREA 11,412,825.386 m ² MEDIUM • provisional polygon	GREEN RATIO 0.123423 MEDIUM • design geometry	PUBLIC SPACE 0.073281 MEDIUM • design geometry
--	---	--

YIELD OPERATING BASELINES

human waiting UNKNOWN	clear-width obstruction UNKNOWN	manual takeover UNKNOWN
account-free completion UNKNOWN	near-miss closure UNKNOWN	rain-night reliability UNKNOWN

Spatial / visual / evidence checks prove internal consistency only. FAR, height, density, road redlines and utility capacity remain unknown.

MatchA040508 • PROVISIONAL DESIGN GEOMETRY • NOT A STATUTORY REDLINE

6 OPERATING BASELINES UNKNOWN

Issue → rights check → controlled prototype → human/public review → limited release → Merge / Rollback / Retire

Official polygons, controls, roads, buildings, heritage, utilities, services, and fieldwork remain missing; no approval, construction, or certification is claimed.
