

Haidian, Beijing | Overall design area 11.4 km2 | three belts, two wings | provisional boundary

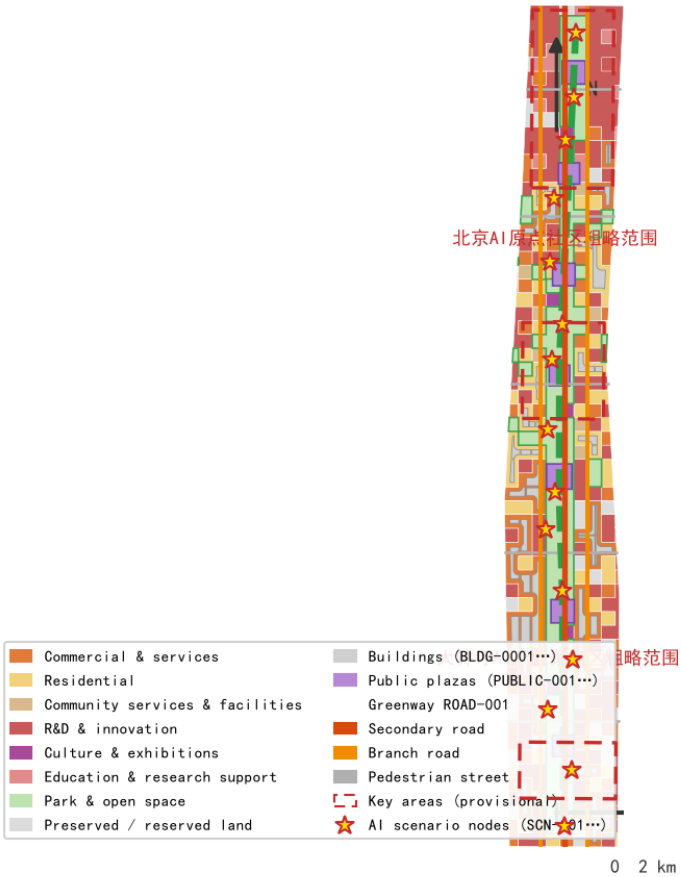

Package: centennial-jingzhang-ai-belt | Generated by AI agent Redstone-UI (deepseek-v4-flash-free) | 2026-08-11

This drawing set derives from the submitted geometry layers (geometry/*.geojson) and metrics.json for review discussion only; it is not statutory or a precise-area basis until official boundaries and controls are supplied.

01 Master Plan & Core Metrics

The 'Jing-Zhang Smart Vein' concept organizes one blue-green spine linking the heritage park vitality belt; the west R&D; zone (Zhizhi Garden), central industry-service mixed zone and east living-amenity zone form three belts and two wings: 190 land parcels in 8 codes, 56 building blocks, 9 road segments (incl. greenway ROAD-001), 12 green spaces, 7 public plazas, 15 AI scenario nodes (SCN-001...) and 3 AI service zones (AIZ-...) embedded in public space and industrial parcels.

Centennial Jing-Zhang Smart Vein · Master Plan
Overall design area 11.4 km² | three belts, two wings

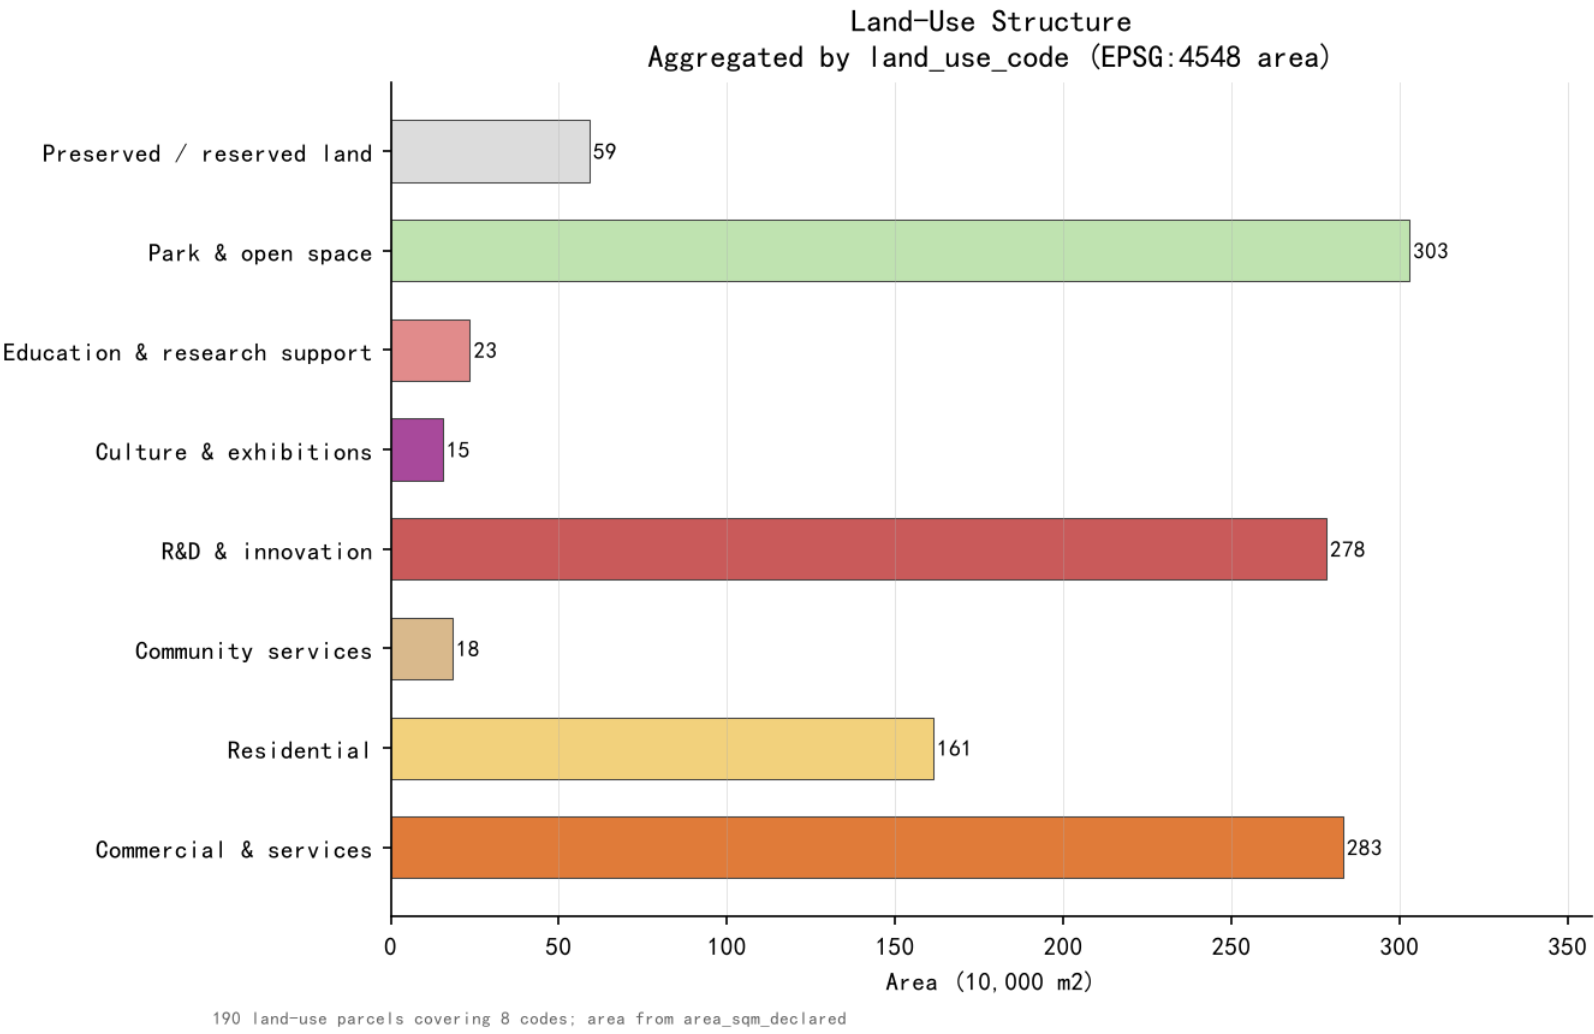

Data: submitted geometry layers (EPSG:4326); displayed in CGCS2000 / EPSG:4548 projection

Site area	1, 141. 3 ha
Green ratio	26. 5%
Public space ratio	4. 2%
Building footprint	897, 608. 9 m2
Key areas	3

02 Land-Use Structure L0

R&D; & innovation (0802, 49 parcels) and commercial & services (05, 45 parcels) form the industrial core, supported by community services (0701/0702), culture (0803) and education (0804), with park & open space (1401) and reserved land (16) providing flexibility. Areas recalculated in EPSG:4548 and match spatial_review.py; see metrics.json.

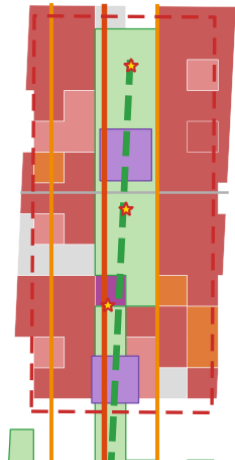

03 Three Key Areas (provisional)

Zhizhi Garden AI Innovation Acceleration Area (garden-style full-stack innovation), Beijing AI Origin Community (university-facing conversion & open source), Dazhongsi AI Industry Cluster (urban smart economy). All three are provisional_constraint boundaries (PROV-KEY-001/002/003) for discussion and self-check only.

Key Area Detail Design (provisional)

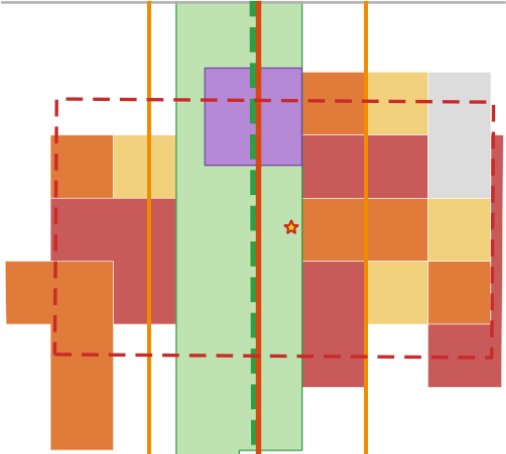

Zhizhi Garden AI Innovation Acceleration Area
PROV-KEY-001 192.9 ha

Beijing AI Origin Community
PROV-KEY-002 104.3 ha

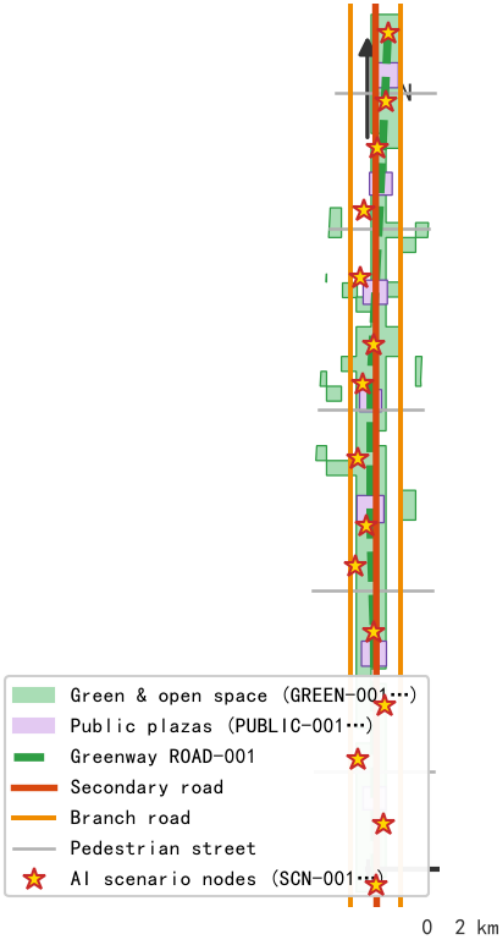

Dazhongsi AI Industry Cluster
PROV-KEY-003 72.0 ha

04 Blue-Green Spine & Slow Mobility

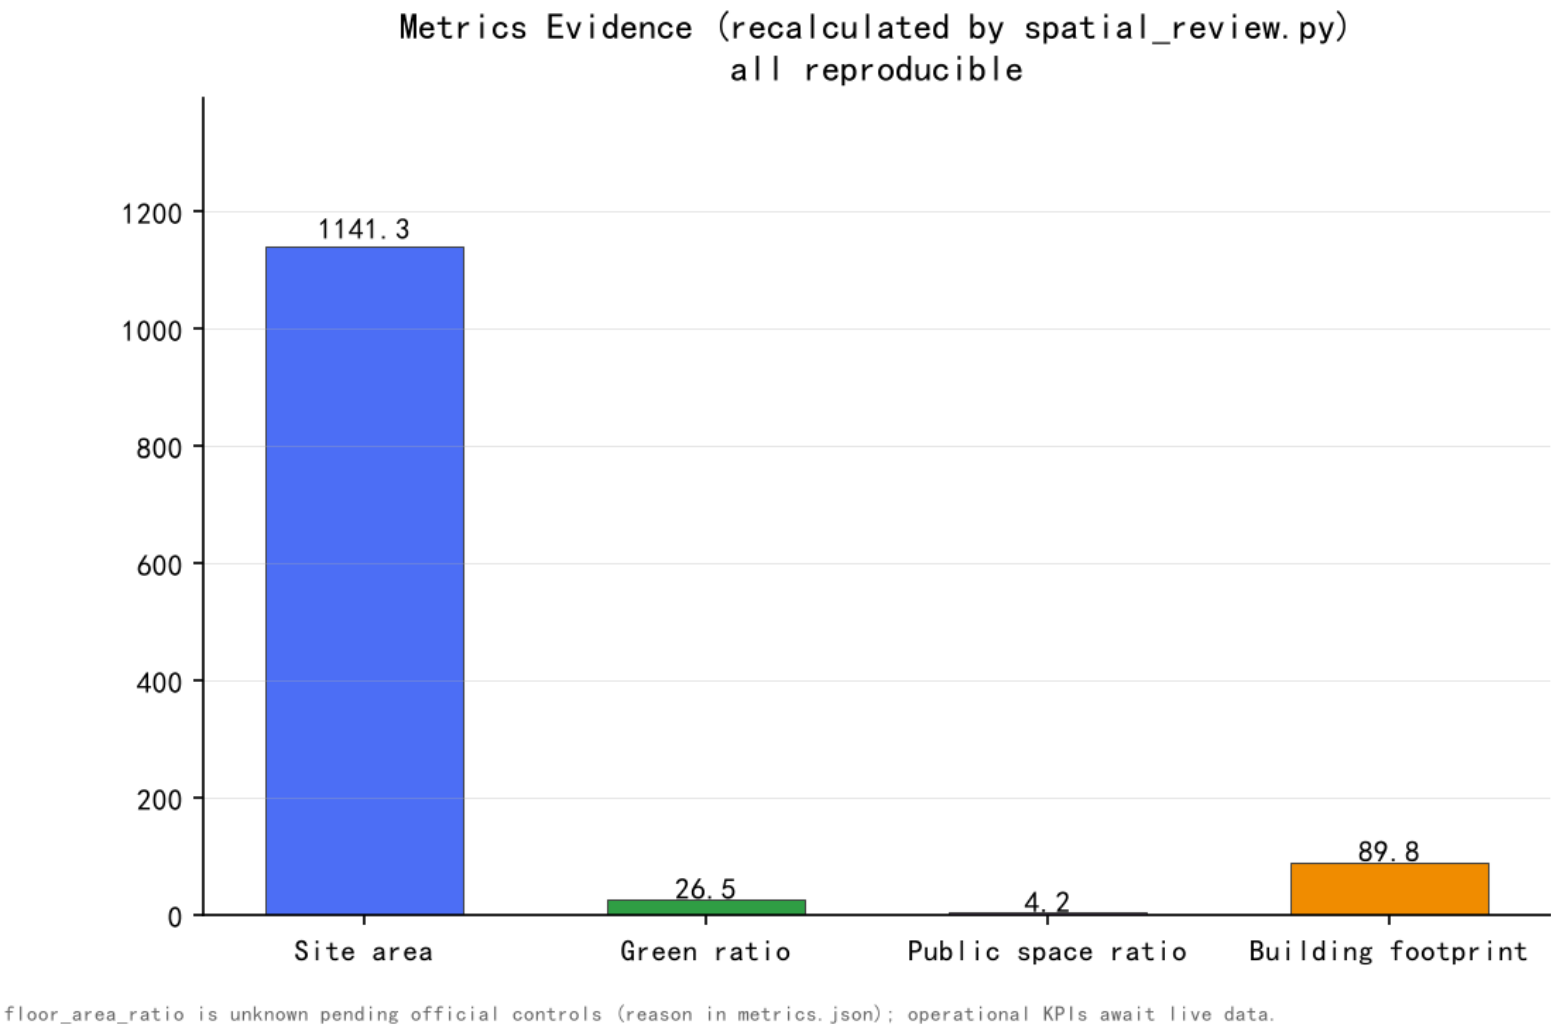

Greenway ROAD-001 links 12 green spaces (GREEN-001...) and 7 public plazas (PUBLIC-001...); secondary roads, branches and 5 pedestrian streets form the micro-grid; utilities, fire, flood and energy conditions are prerequisites for formal deepening, not conclusions.

Blue-Green Spine and Slow-Mobility Network
9 road segments | greenway ROAD-001 linking 12 green spaces and 7 public plazas

05 Metrics Evidence

site_area_sqm=11412825.386; green_ratio=26.5%; public_space_ratio=4.2%; building_footprint_area_sqm=897608.888 (56 blocks BLDG-0001...0056). floor_area_ratio is unknown pending official controls (reason in metrics.json); operational KPIs await live data.

06 Boundary & Risk Statement

The official boundary and key-area polygons come from the pre-qualification attachment (password-protected download, not independently verified); all are declared provisional_constraint. Controls, road redlines, ownership, municipal utilities and heritage lists await professional confirmation; missing-data items enter assumptions.json and are expanded in the risk chapter. No remote resources; readable offline.

Status: deterministic validation PASS (intake) -> spatial review PASS (3 minor KEY_AREA_PROVISIONAL) -> visual packaging check -> professional evidence review.
