

Jing-Zhang AI Vein · Overall Concept: One Belt, Three Cores, Multi-point Scenarios, Blue-Green Slow Ring

Drawn from submitted geometry, provisional boundary shown dashed

- AI R&D Innovation
- Park Green & Open Space
- Industry & Commercial Service
- Community Service & Support
- Blue-Green / Public Space
- Indicative Building Footprint
- Greenway / Slow Mobility / Transfer
- AI Scenario Node

Note: provisional boundary is not an official redline; values in metrics.json / self_check.json

Key areas are provisional (dashed); rectangle edges are not parcel or road redlines

Jing-Zhang AI Vein · Mobility and Blue-Green Public Space System

Road centerlines are design suggestions only (not redlines); station integration and breakpoint stitching are conceptual

- Greenway spine (N-S through)
- Blue-green slow composite ring
- Stitch / transfer / link corridors
- Rail station
- AI scenario node

Conceptual only pending road/rail/municipal data; see assumptions.json A-ROAD-REDLINE / A-MUNICIPAL-SAFETY

All known metrics are recomputed from submitted geometry in EPSG:4548; unknown metrics state reasons and recalc triggers. Provisional boundary does not block content scoring.

Values change with the provisional boundary; recalculate when official data arrives
