

Overall concept | Intelligence in Common: railway memory to open intelligence commons

01 / OVERALL CONCEPT

VERSION 1.2 / 2026-08-07

智脉共生：从铁路遗产到开放智能公地

一条公共主脊 · 三类差异化公地 · 两翼协作接口 · 十二个可审计场景

已知 N | 北五环路

已知 W | 蓟南路 / 大钟寺东路等

已知 E | 学院路 / 西土城路等

已知 S | 西直门外大街

触发 I 众智园：安全梯度

触发 I AI原点：孔隙共享

触发 I 大钟寺：站城客厅

PROVISIONAL DESIGN AREA

01

一条主脊

京张记忆、蓝绿慢行、公共讨论与城市 AI 体验叠合为全年开放的公共底座。

03

三个公地

众智园安全治理公地、原点开源转化公地、大钟寺智能原生生活公地。

02

两翼接口

科技服务翼配置法务资本与标准，场景赋能翼连接真实问题和公众反馈。

运行底线

证据状态 | ● 已知任务书文字 ◇ 工作假设 ○ 待公开现状与现场踏勘

开放协同接口 / REGIONAL EXCHANGE

北纬社区 / 未来科学城

怀柔科学城

北京经开区

京津冀

临时粗略边界 | 仅用于生成、展示与内容审查 | OFFICIAL POLYGONS 到位后统一复算

INTELLIGENCE IN COMMON · JINGZHANG

INTELLIGENCE IN COMMON

From railway heritage to an open intelligence commons

ONE PUBLIC SPINE
Jing-Zhang memory, blue-green walking and cycling, public debate, and urban AI experience form a year-round public base.

THREE DIFFERENTIATED COMMONS
Zhongzhiyuan: safety governance. Beijing AI Origin Community: open-source translation. Dazhongsi: AI-Native everyday life.

TWO COLLABORATION WINGS
Technology Services connects legal, capital, standards, and internationalization. Scenario Enablement connects real problems and public feedback.

TWELVE AUDITABLE SCENARIOS
Every node discloses purpose, data, responsibility, human review, appeal, emergency stop, and exit.

REGIONAL INTERFACES
Beiwei Community / Future Science City: talent and prototypes. Huairou Science City: frontier research. Beijing E-Town: engineering validation. Beijing-Tianjin-Hebei: protocols and scenario translation.

ENGLISH COUNTERPART · ORIGINAL EVIDENCE RETAINED
PROVISIONAL DESIGN · NOT AN OFFICIAL REDLINE OR APPROVAL

Three levels and conceptual land use | A recalculable discussion base

完整分区不是结论，而是可复算的讨论底板

同一临时边界拓扑切分 · 七类概念用地 · 公地主脊优先于大体量增量

- 科研 0802
- 文化 0803
- 居住 0701
- 绿地 1401
- 教育 0804
- 商业 05
- 社区 0702

概念承载梯度，不是审定用地
official geometry 与控规到位后整体重算

临时粗略边界 | 仅用于生成、展示与内容审查 | OFFICIAL POLYGONS 到位后统一复算

空间—产业—运营的五步闭环

- 01

问题进入

由社区、企业、科研和公共部门提出真实问题，先说明公共价值与数据边界。
- 02

能力组队

三区两翼匹配模型、算力、法务、标准、运营和用户代表。
- 03

沙盒验证

隔离环境、风险分级、现场急停和人工复核先于公共部署。
- 04

公共复盘

展示方法、失败、纠错和申诉处理，不只展示技术效果。
- 05

规模转化

条件成熟后才进入专业规划、采购、审批和运营深化。

- 7

概念用地类别
- 0.8%

概念建筑覆盖
- 18.6%

蓝绿网络比例
- UNKNOWN

法定开发强度

A RECALCULABLE DISCUSSION BASE

Complete partition is evidence, not an approved plan

SEVEN CONCEPTUAL CARRIERS

Research 0802 · Education 0804 · Culture 0803 · Commercial 05 · Housing 0701 · Community Services 0702 · Park Green 1401.

01 - PROBLEM INTAKE

Communities, enterprises, researchers, and public agencies state real problems, public value, and data boundaries.

02 - CAPABILITY TEAM

The Three Zones and Two Wings assemble models, compute, legal support, standards, operators, and user representatives.

03 - SANDBOX VALIDATION

Isolation, risk grading, on-site emergency stop, and human final review precede public deployment.

04-05 - PUBLIC REVIEW + SCALING

Publish methods, failure, correction, and appeal handling. Scale only when professional planning, procurement, approval, and operating conditions are ready.

AUDIT SNAPSHOT

7 categories · 0.8% conceptual prototype footprint ratio · 18.6% blue-green network envelope · statutory development intensity pending official data.

One protocol, three prototypes | No primary site and two supporting sites

03 / THREE KEY AREAS · PUBLIC ACCEPTANCE PASSPORT

ONE PUBLIC ACCEPTANCE PROTOCOL, THREE DISTINCT URBAN PROTOTYPES

Safety Acceptance Garden · Rights & Contribution Arcade · 100m Public Acceptance Street; shared red lines, different spatial grammars

01 ZHONGZHIYUAN

SAFETY ACCEPTANCE GARDEN

SYNTHETIC CONCEPT SCENE · NOT A SITE PHOTO

SPATIAL SEQUENCE

public garden □ explanation porch □ controlled test court □ safe back-of-house

PUBLIC ACCEPTANCE PASSPORT

first proof: steward sightline + physical stop + public review

- PURPOSE
- OWNER
- TAKEOVER
- EXIT

ANY RED-LINE FAILURE: STOP AI AND RESTORE THE ORDINARY CITY BASELINE

02 BEIJING AI ORIGIN

RIGHTS & CONTRIBUTION ARCADE

SYNTHETIC CONCEPT SCENE · NOT A SITE PHOTO

SPATIAL SEQUENCE

ordinary route □ rights desk □ contribution archive □ accessible co-design table

PUBLIC ACCEPTANCE PASSPORT

first proof: traceable source + named editor + withdrawal route

- PURPOSE
- OWNER
- TAKEOVER
- EXIT

ANY RED-LINE FAILURE: STOP AI AND RESTORE THE ORDINARY CITY BASELINE

03 DAZHONGSI

100m PUBLIC ACCEPTANCE STREET

SYNTHETIC CONCEPT SCENE · NOT A SITE PHOTO

SPATIAL SEQUENCE

Notice Porch □ Dual Service Desk □ Public Acceptance Court □ Appeal & Rollback Porch

PUBLIC ACCEPTANCE PASSPORT

first proof: no mandatory phone/account/face + 30s human-fallback target

- PURPOSE
- OWNER
- TAKEOVER
- EXIT

ANY RED-LINE FAILURE: STOP AI AND RESTORE THE ORDINARY CITY BASELINE

Key-area detail | Plan, section, first evidence, and ordinary baseline

04 / KEY-AREA PLAN + SECTION PROTOTYPES

THREE DISTINCT PLAN–SECTION–PROOF SETS

Relative spatial relationships only; dimensions, conditions, redlines, engineering and ownership await official data, fieldwork and professional review

ZHONGZHIYUAN · SAFETY ACCEPTANCE GARDEN

CONCEPT PLAN

GARDEN EXPLAIN TEST BACK

PROTOTYPE SECTION

FIRST EVIDENCE: sightline, stop, public/logistics separation

NO OWNERSHIP / FIRE / HERITAGE / STREET / WATER / ACCESSIBILITY CLEARANCE: DO NOT SITE

AI ORIGIN · RIGHTS & CONTRIBUTION ARCADE

CONCEPT PLAN

ROUTE RIGHTS ARCHIVE CO-DESIGN

PROTOTYPE SECTION

FIRST EVIDENCE: provenance, named editor, withdrawal route

NO OWNERSHIP / FIRE / HERITAGE / STREET / WATER / ACCESSIBILITY CLEARANCE: DO NOT SITE

DAZHONGSI · 100m PUBLIC ACCEPTANCE STREET

CONCEPT PLAN

NOTICE DUAL CO-TEST APPEAL

PROTOTYPE SECTION

FIRST EVIDENCE: no mandatory digital gate, staffed fallback, rollback receipt

NO OWNERSHIP / FIRE / HERITAGE / STREET / WATER / ACCESSIBILITY CLEARANCE: DO NOT SITE

Public Acceptance Passport | Four-condition interlock

06 / PUBLIC ACCEPTANCE PASSPORT · SIGNAL INTERLOCK

AI MAY NOT ENTER PUBLIC OPERATION UNTIL FOUR CONDITIONS CLOSE

Railway connection is translated into a contemporary civic-safety logic; an original metaphor, not real signalling engineering

4/4 + ALL RED LINES PASS

□ ELIGIBLE ONLY FOR TIME-LIMITED PUBLIC ACCEPTANCE

OTHERWISE: BLOCK ACTIVATION AND RESTORE ORDINARY ROUTES, STAFFED SERVICE, AND PHYSICAL RECEIPTS

Dazhongsi 100m Public Acceptance Street | Accept before AI enters the street

06 / 100M PUBLIC ACCEPTANCE STREET

Before AI enters the street, it must pass public acceptance

A representative 100-metre prototype at Dazhongsi: visible · explainable · supported · reversible

AI-GENERATED CONCEPT IMAGE · NOT A SITE PHOTO

100 m

01 VISIBLE	02 EXPLAINABLE	03 SUPPORTED	04 REVERSIBLE
0–20m Notice Porch	20–45m Dual Service Desk	45–75m Public Acceptance Court	75–100m Appeal & Rollback Porch
purpose / data / accountability / open hours	human and AI lanes; no phone, account or face needed for basic access	residents, older and disabled people, and professionals co-test	correction / deletion / pause / exit are logged

continuous step-free route · tactile guidance · clear passage

One street turns governance clauses into a walkable civic experience

BASIC ACCESS

no phone, account or face gate

HUMAN FALLBACK

target ≤ 30 seconds

PUBLIC ACCEPTANCE

100% human-final high-impact outputs

FAILURE CAN EXIT

any red-line failure pauses pilot

Walking, cycling, and blue-green spine | Six conditions and four thresholds

04 / COMMONS SPINE + BLUE-GREEN

把九公里主脊设计成六种可校准的城市段落

先保证连续无障碍与公共价值，再由道路、文保、河道和消防资料确定工程断面

90-day tri-area circuit | Independent admission, veto, and restoration

09 / 90-DAY TRI-AREA PUBLIC ACCEPTANCE CIRCUIT

THREE AREAS START TOGETHER AND QUALIFY INDEPENDENTLY; ONE FAILURE CANNOT BE OFFSET

Not a construction schedule: ordinary baseline, human-led offline rehearsal, then time-limited public acceptance

Metrics, zero-network tabletop, and evidence | Who can stop AI

10 / PUBLIC VALUE + EVIDENCE CHAIN

EVALUATE AN AI CITY NOT ONLY BY AREA, BUT BY WHO CAN STOP IT

Spatial values are recalculable; operational targets need baselines, one owner, audit frequency, harm guardrails, and exit evidence
