

ban design call

ip the slope, 2026 switch directions

Conceptual AI-generated proposal on provisional boundaries; all spatial content is referen
ce material for professional teams, not a government-approved conclusion. Wholesale recom
putation required when official redlines and controls arrive.

1. Overall Concept · One Switch, Three Yards, Two Sidings

Jing-Zhang greenway spine runs north–south: Sw

itch Heart + Departure Yard (Origin Community)

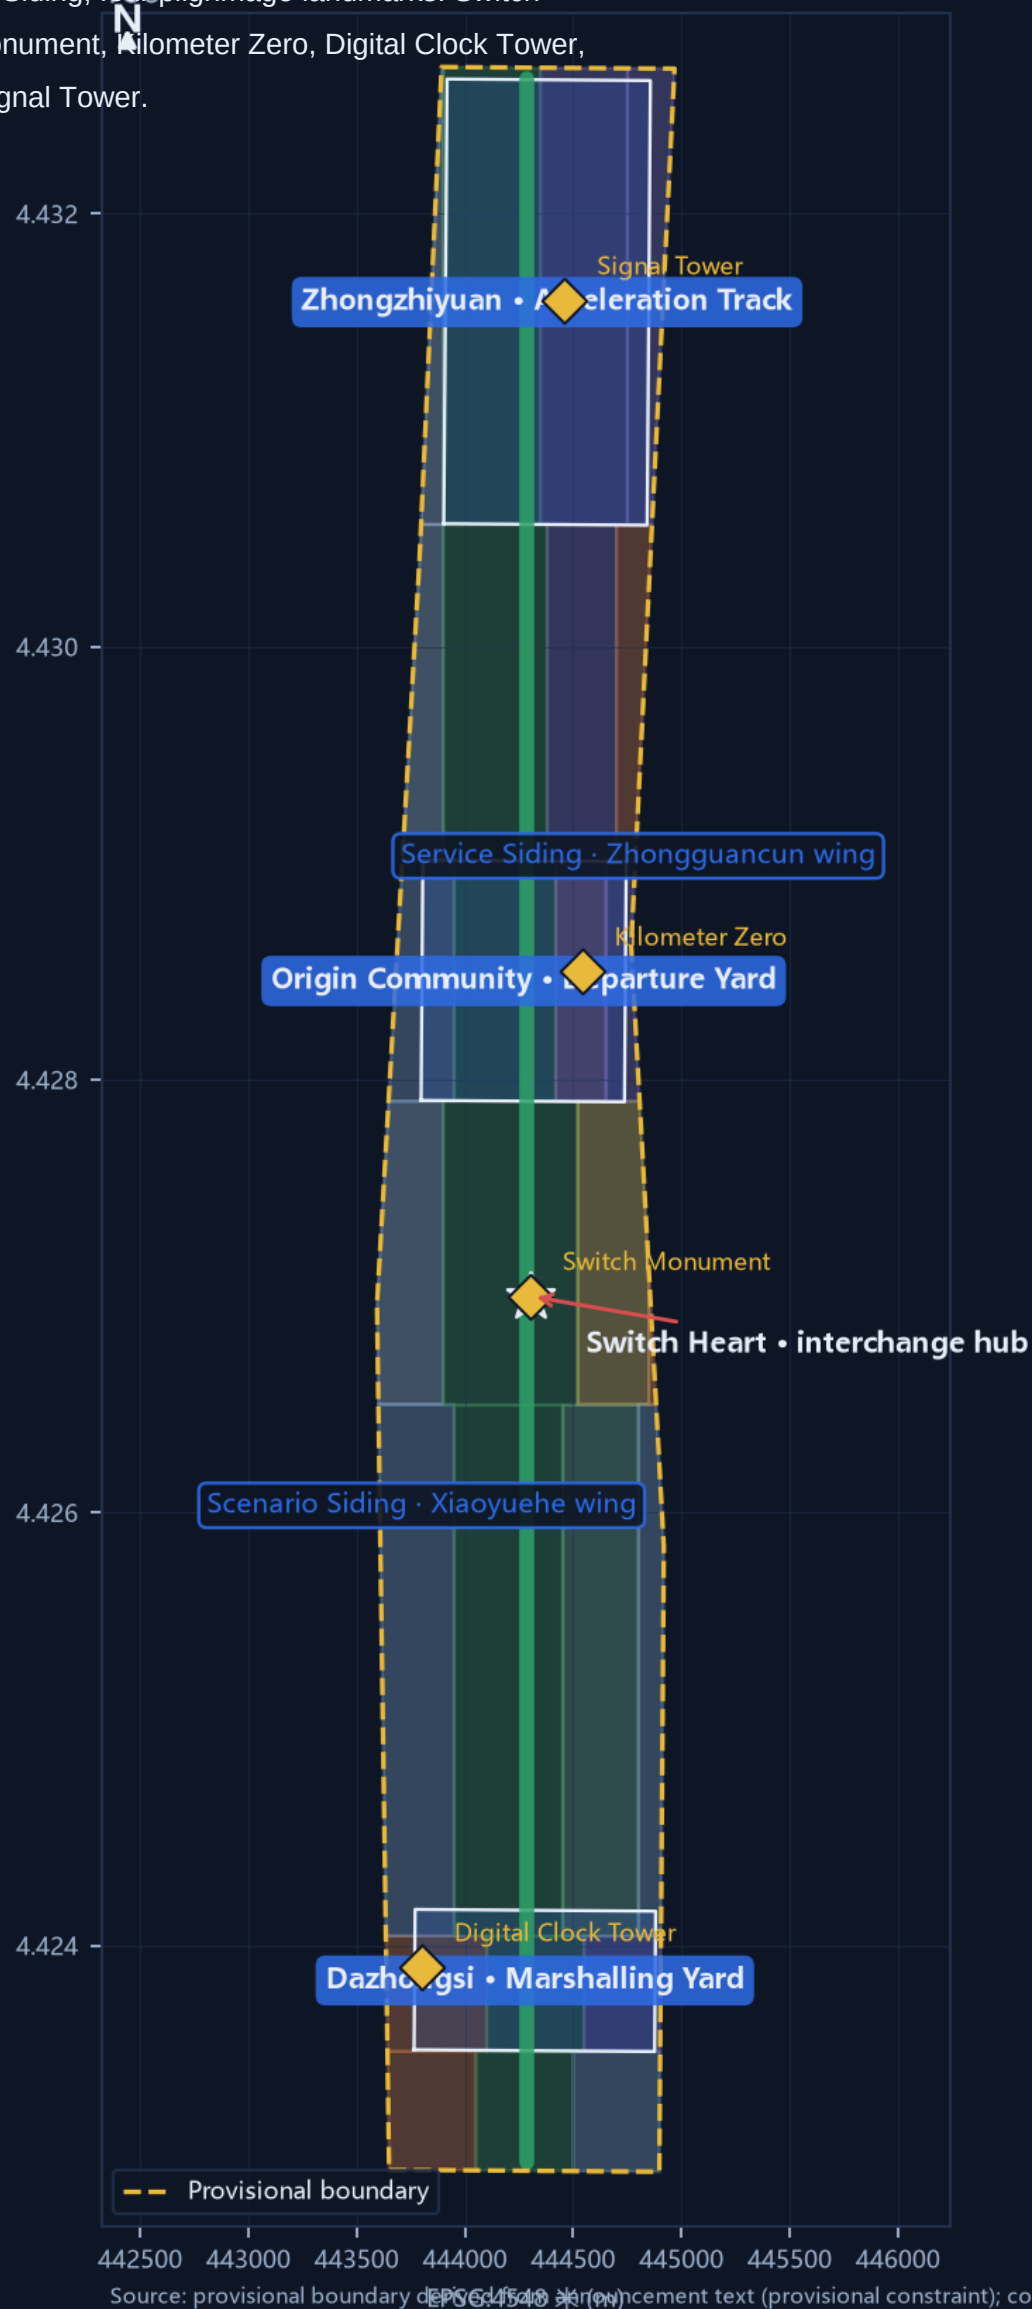

Overall Concept • One Switch, Three Yards, Two S

ling Yard (Dazhongsi) + Service Siding + Scena

rio Siding; four pilgrimage landmarks: Switch

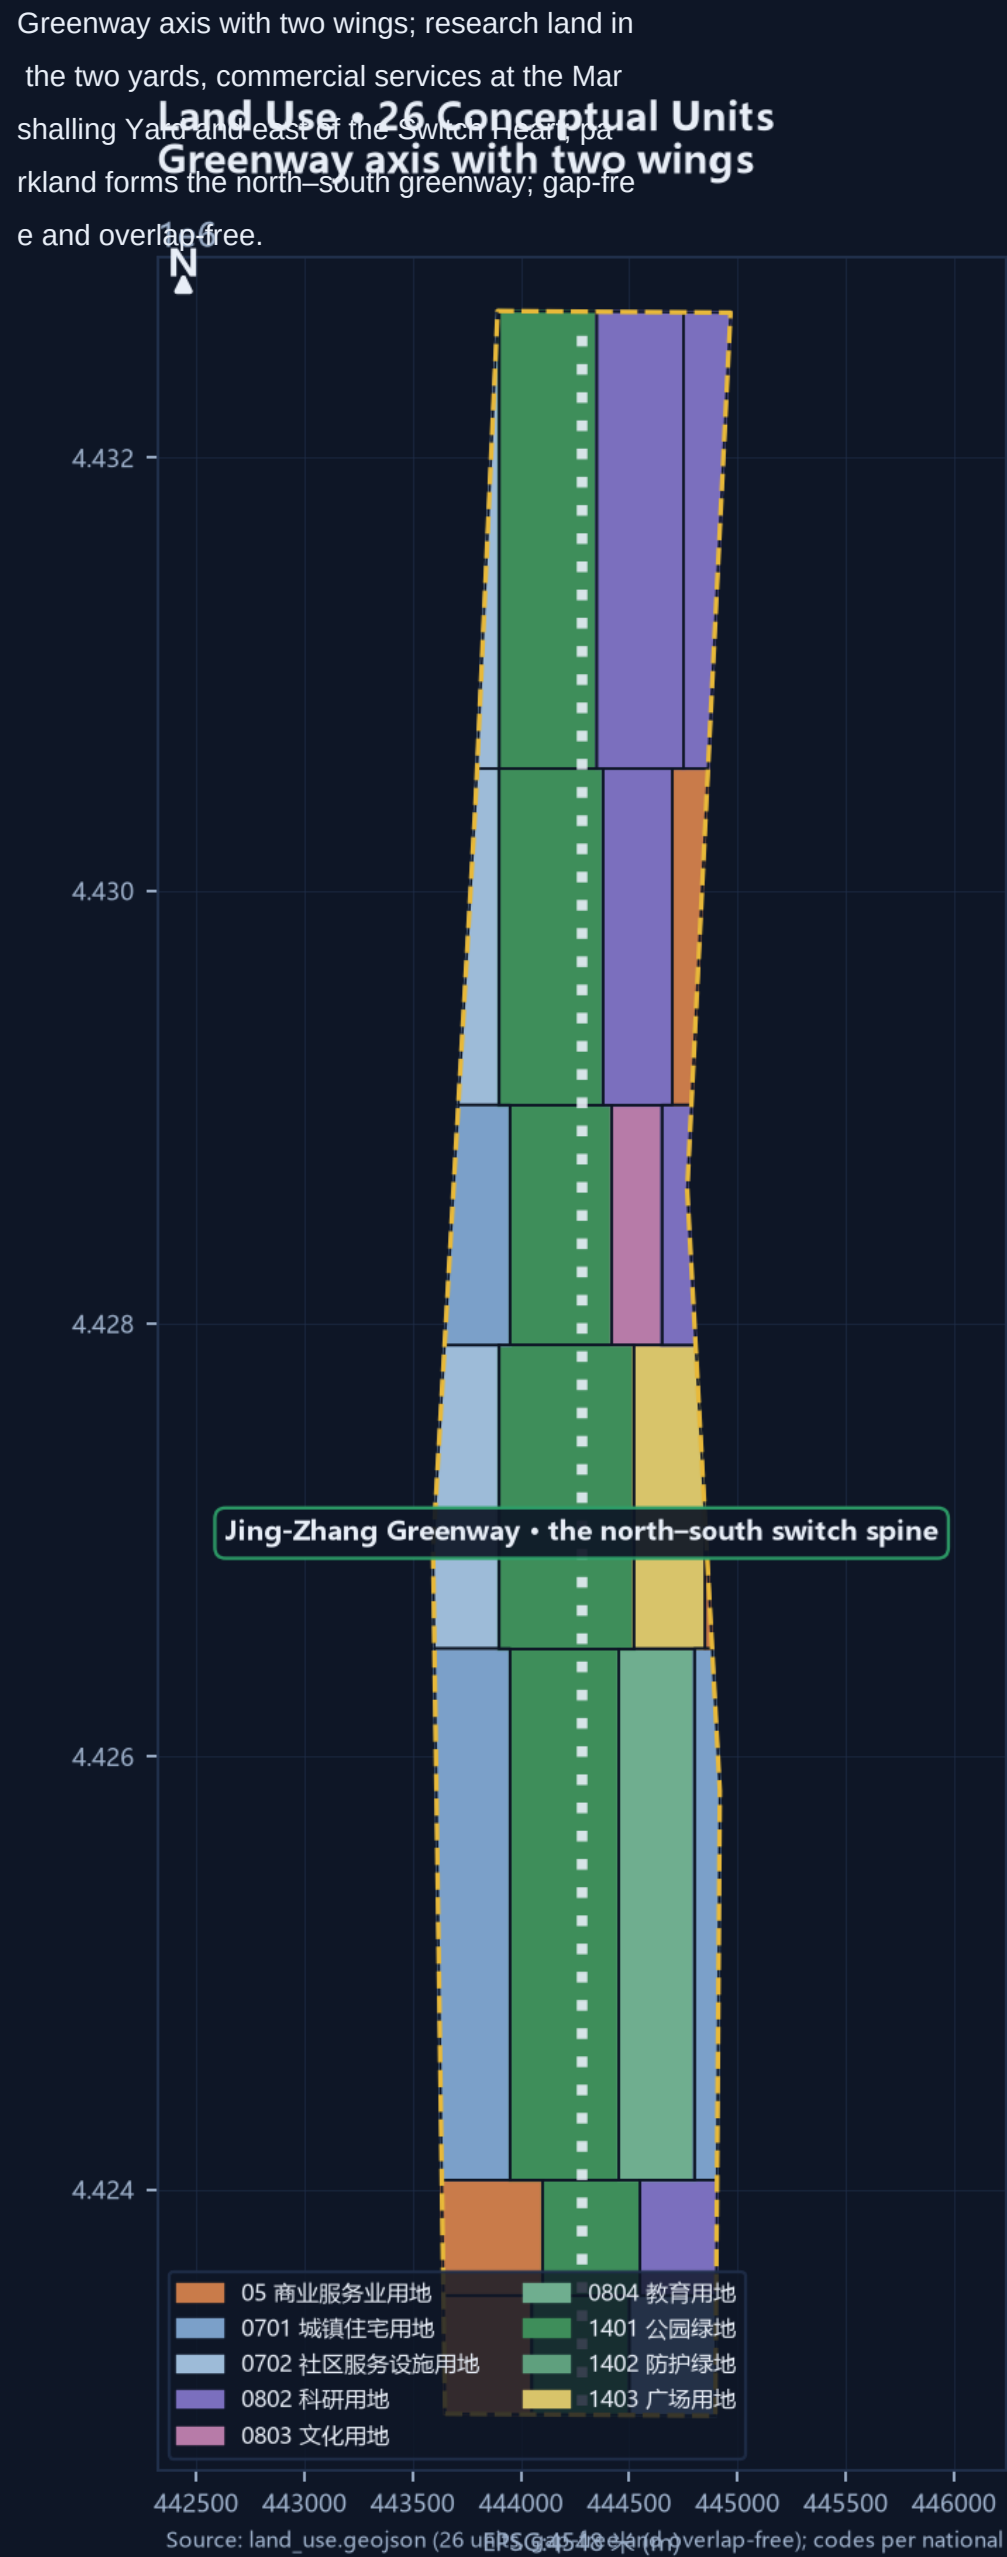

Monument, Kilometer Zero, Digital Clock Tower,

Signal Tower.

Source: provisional boundary derived from announcement text (provisional constraint); concealed

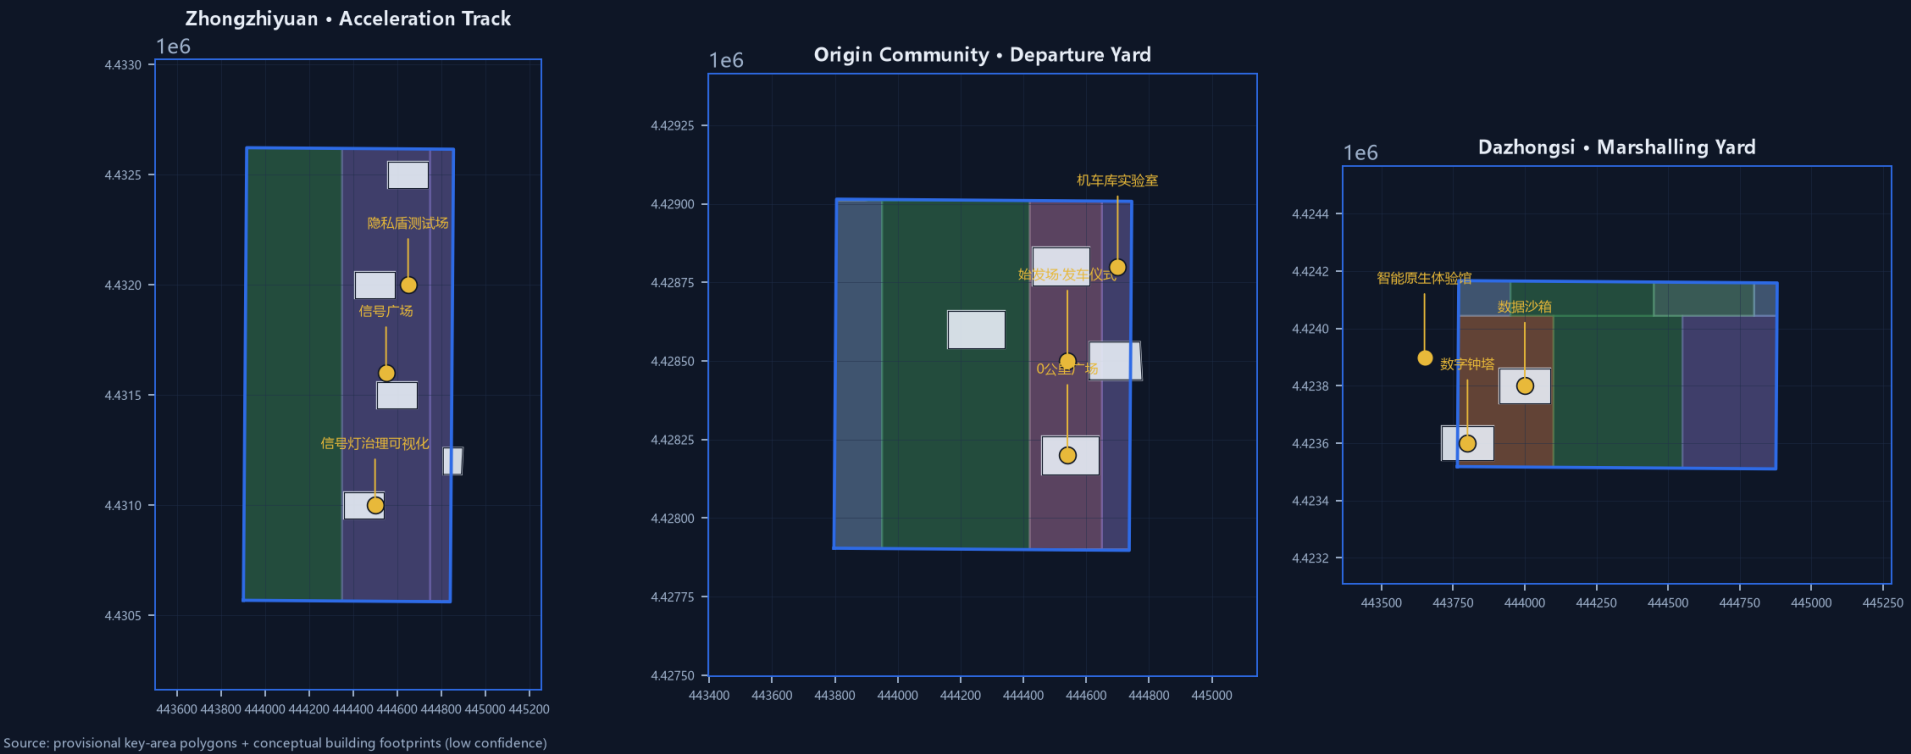

2. Land Use · 26 Conceptual Units

3. Detailed Design of the Three Key Areas

Acceleration Track: Signal Plaza + full-stack
gradient; Departure Yard: Kilometer Zero + ope
n-source incubation; Marshalling Yard: Digital
Clock Tower + data sandbox + native-AI experi
ence.

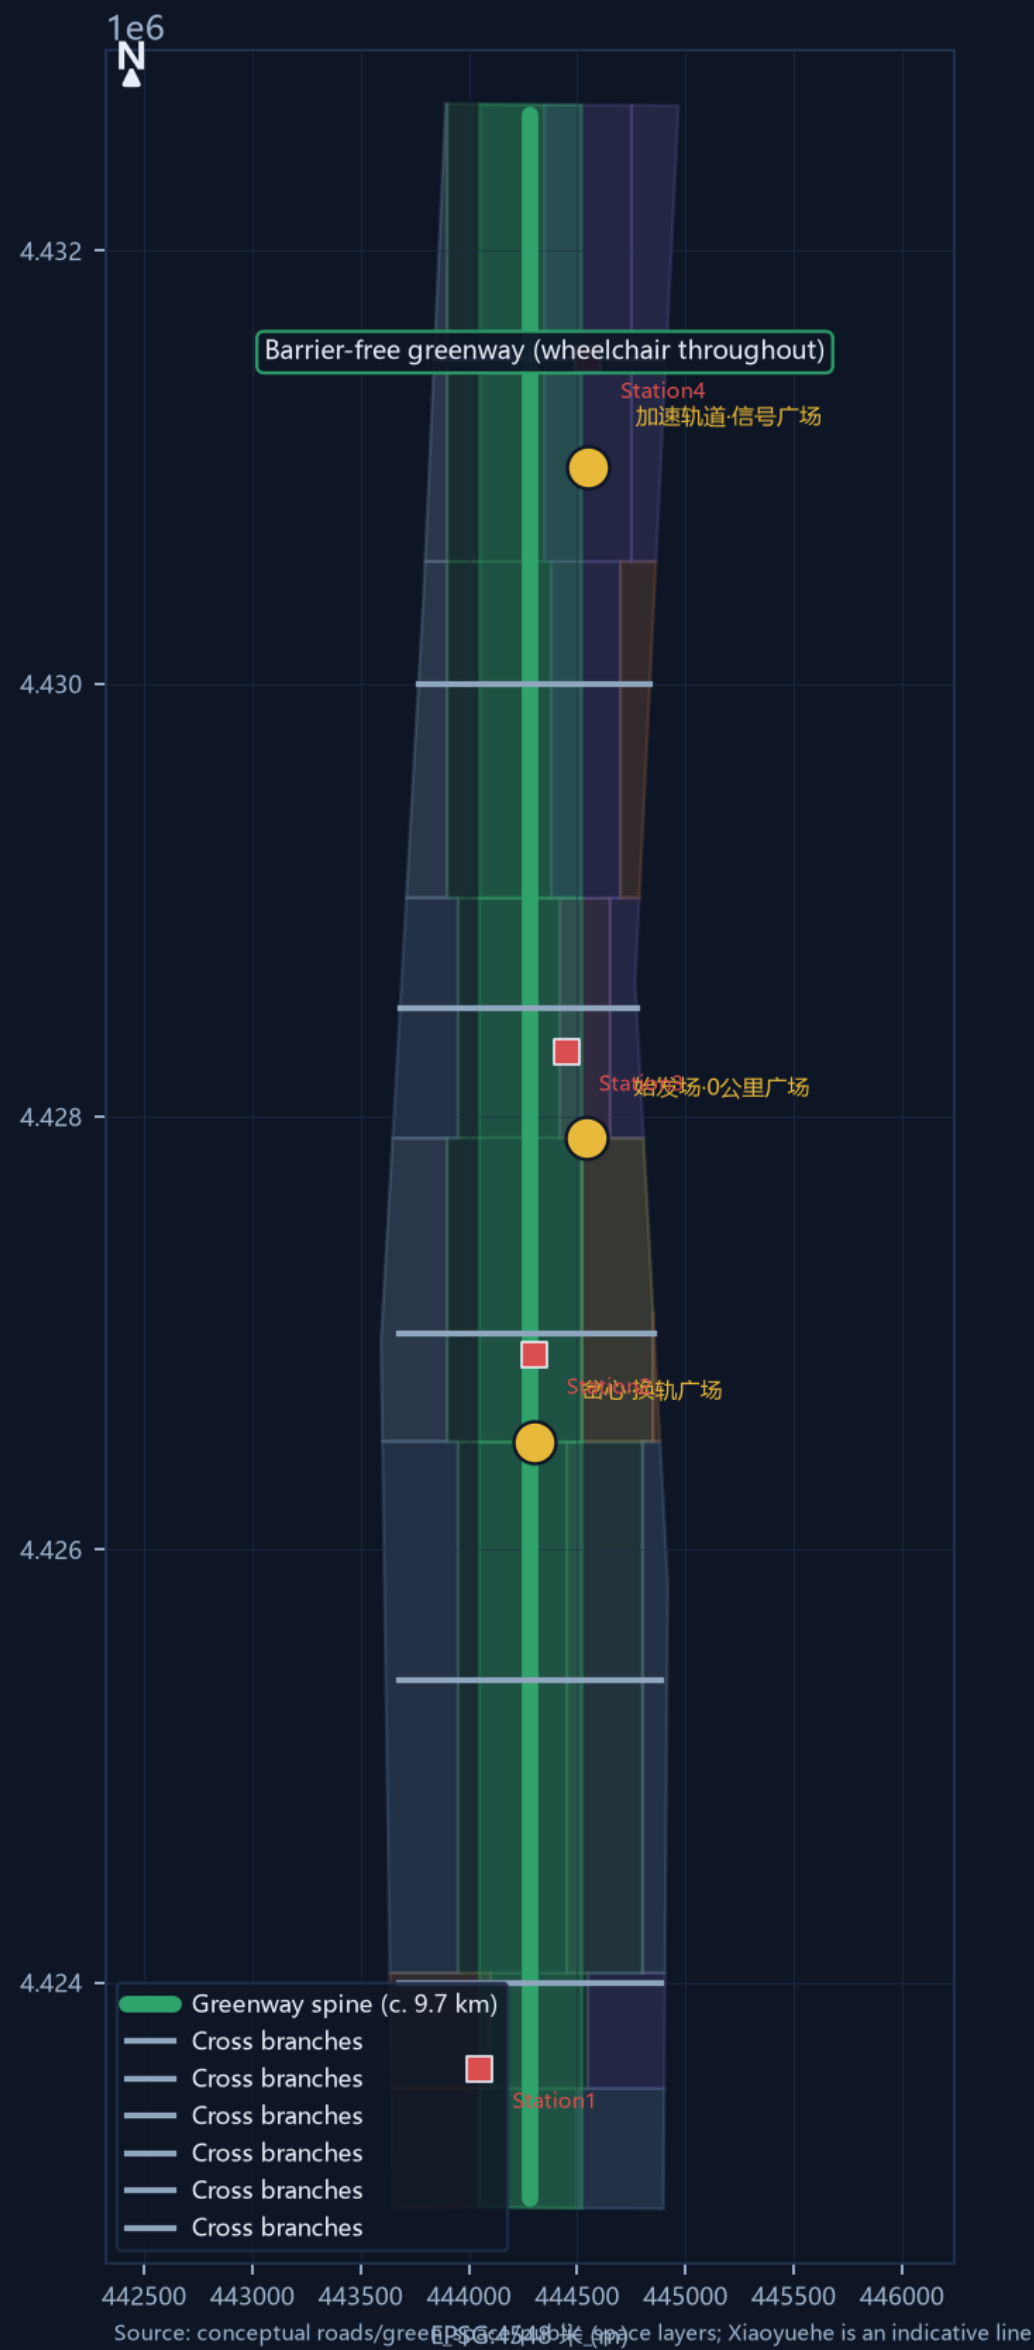

Key Areas — Detailed Design Index
Departure Yard • Acceleration Track • Marshalling Yard

4. Mobility, Blue-Green and Public Space

One spine (c. 9.7 km greenway), six branches,
1+3+N public spaces; barrier-free throughout;
edge compute and municipal integration.

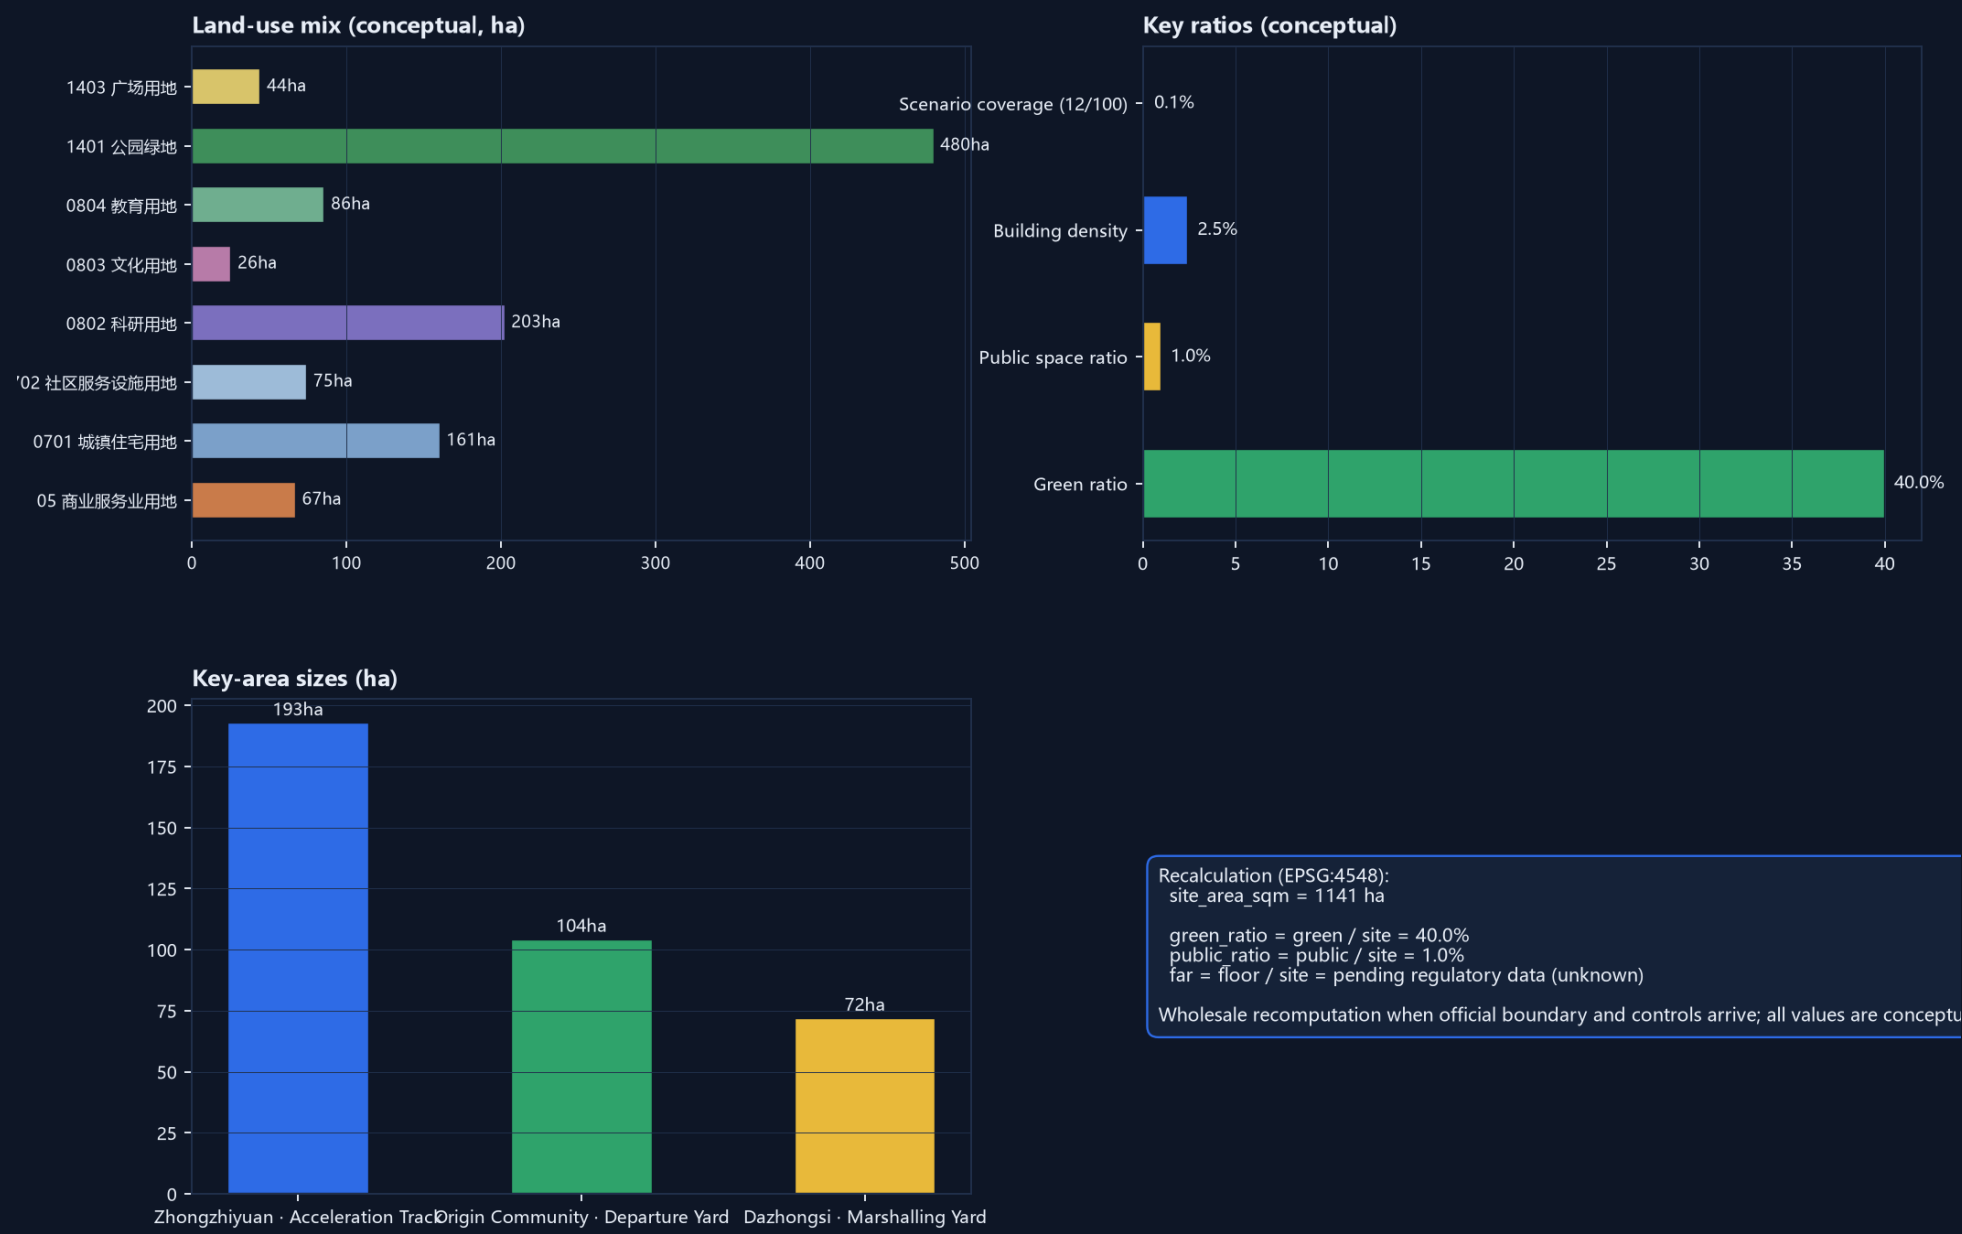

Mobility, Blue-Green and Public Space System
One spine, six branches, 1+3+N public spaces

5. Core Metrics and Evidence Chain

All metrics deterministically recomputed from
package GeoJSON in EPSG:4548; statutory contro
Is pending official regulatory data.
