

Three-scope spatial base map

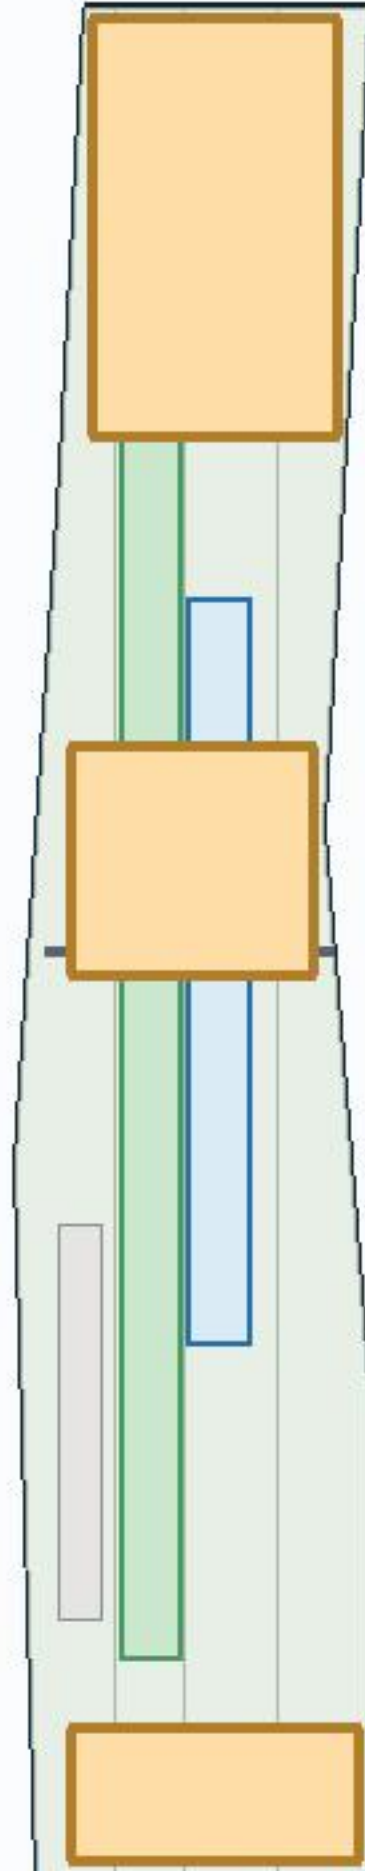

Coordination range	industry + future-city interfaces
Overall design range	urban renewal + control-plan depth
Key areas	Zhongzhiyuan / AI Origin / Dazhongsi

Six review-visible prototypes

1 Boundary Truth Room rounded numbers + replacement workflow	2 Crossing Commons road / station / heritage gaps as civic rooms
3 Scenario Yard virtual > controlled > public pilot > switchback	4 Station-to-Lab Porch service frontage for enterprise + talent
5 Blue-Green Test Mile Xiaoyue River health / mobility / emergency drills	6 Open Ledger Wall rights, sources, near-miss and retirement records

Key Areas: Operating Sections

Three differentiated anchors, each with traffic logic, renewal stance and switchback trigger

Zhongzhiyuan acceleration zone

Program

controlled test street, benchmark hall, robotics porch, reviewer room

Renewal

adaptive reuse before new build

Traffic

controlled access plus public observation edge

Switchback

hardware or model safety event

AI Origin civic community

Program

Origin Plaza, Model Commons, public AI classroom, appeal desk

Renewal

public ground floor, modest landmark identity

Traffic

walkable civic learning loop

Switchback

public complaint threshold or evidence gap

Dazhongsi station service cluster

Program

station enterprise frontage, talent-life porch, legal/medical/education gateway,?

Renewal

renovate commercial frontage and service nodes

Traffic

station-to-service slow route

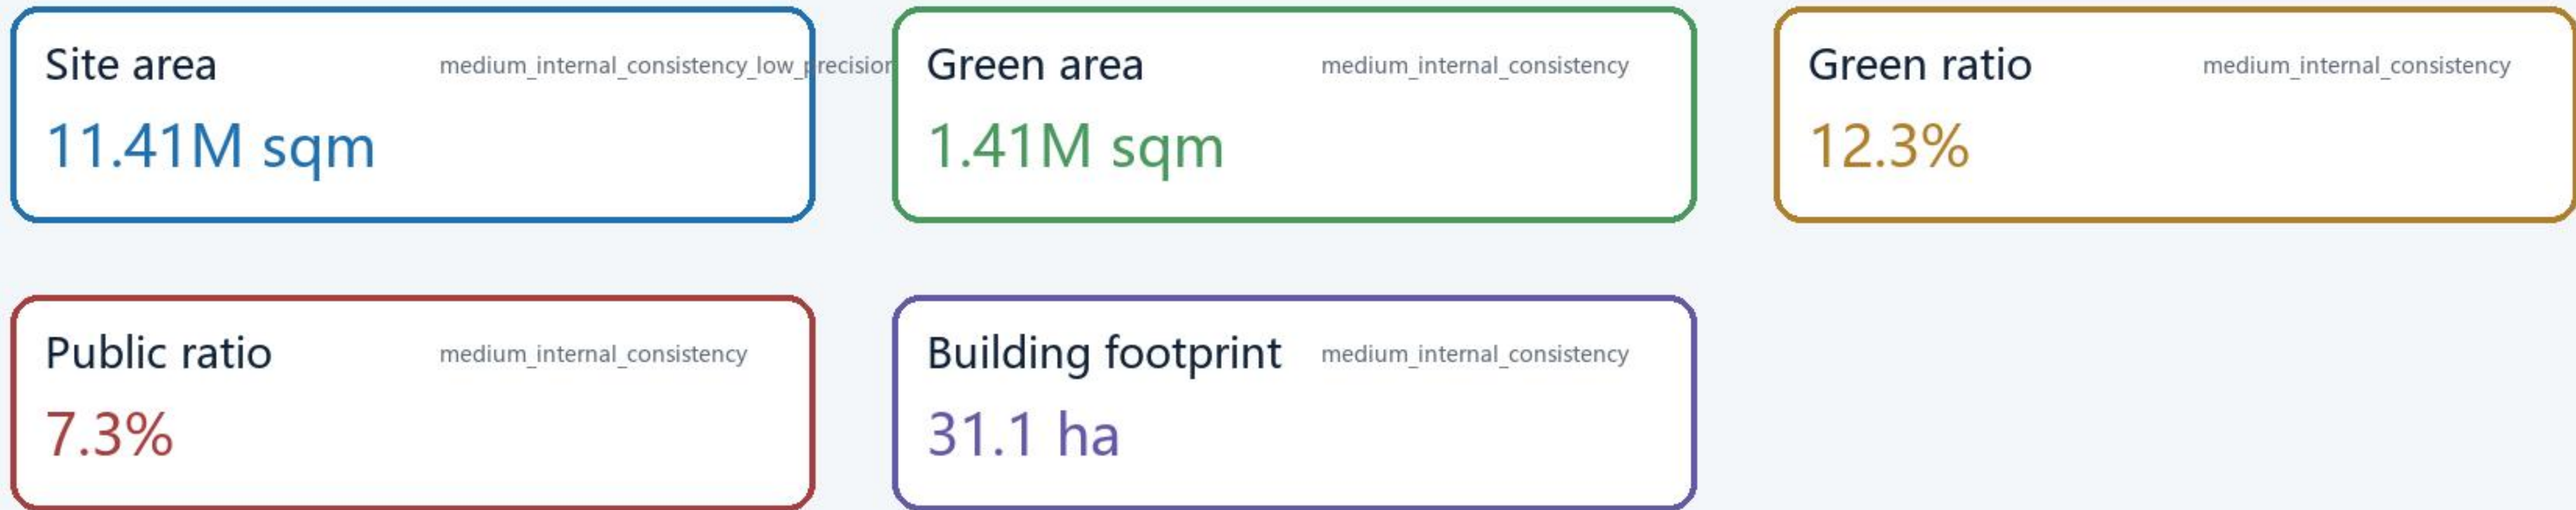

Switchback

service advice risk or night safety event

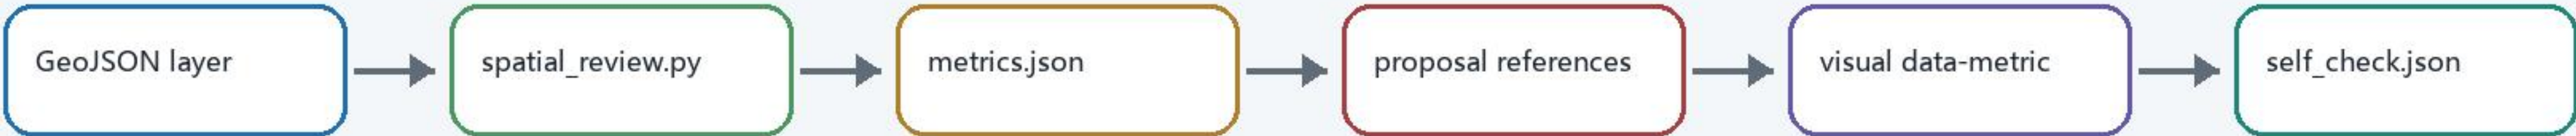

Site Green Public Key areas Road

Metrics + Evidence Ledger

Known metrics are recalculable; unknown statutory controls stay explicitly pending

Evidence chain

Score-repair evidence map
