

Unplug the AI. The city still works better.

AI OFF, CITY ON / 01

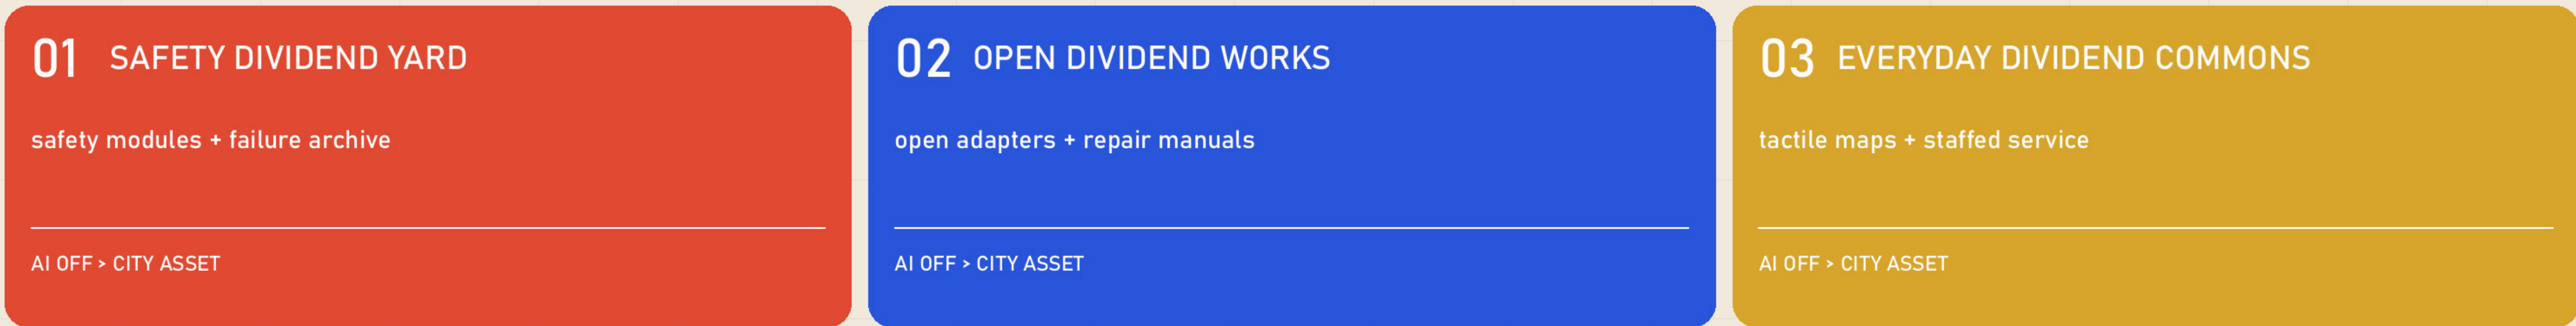

UNPLUG THE AI. THE CITY STILL WORKS BETTER.

One unbroken civic baseline, three Civic Dividend Yards, twelve scenarios designed to exit.

PROVISIONAL GEOMETRY / DIAGRAM ROTATED FOR LEGIBILITY

3

Civic Dividend Yards

12

scenario contracts

BEQUEST

civic assets that remain after AI exits

Civic baseline, land use, mobility and blue-green system

SPATIAL CONTRACT / 02

THE CIVIC BASELINE COMES FIRST. AI IS A DETACHABLE OVERLAY.

Twenty-four concept land-use cells retain their planning codes; seven components work first without power, network or model.

24 CELLS / 3 NON-STATUTORY OVERLAYS

BASE

unbroken ordinary route

BOOST

reversible AI pocket

EXIT

physical red exit gate

07 OFFLINE-READY

1 Tactile baseline board

works with AI off

2 Staffed desk + paper kit

5 Offline emergency light

works with AI off

6 Red exit gate

works with AI off

7 Civic-bequest archive

works with AI off

NO FAR / HEIGHT / DEMOLITION CLAIM

MOBILITY + BLUE-GREEN / 04

THE CIVIC GROUND NEVER BREAKS. SMART EQUIPMENT CAN UNPLUG.

The baseline spine, six east-west seams, blue-green system and ordinary services come first; robots, sensing and models enter reversible interfaces only.

GREEN + ORDINARY BASELINE · RED + UNPLUGGED SEAM · BLACK DOT + SCENARIO

01 ORDINARY MOBILITY

continuous, account-free, robot never first

02 BLUE-GREEN BASE

manual gauges and repairable rain gardens

03 MUNICIPAL MINIMUM

light, fire and help independent of models

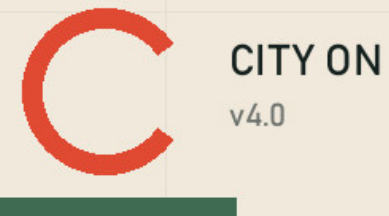

04 PHYSICAL EXIT

power, network, data and actuator returned

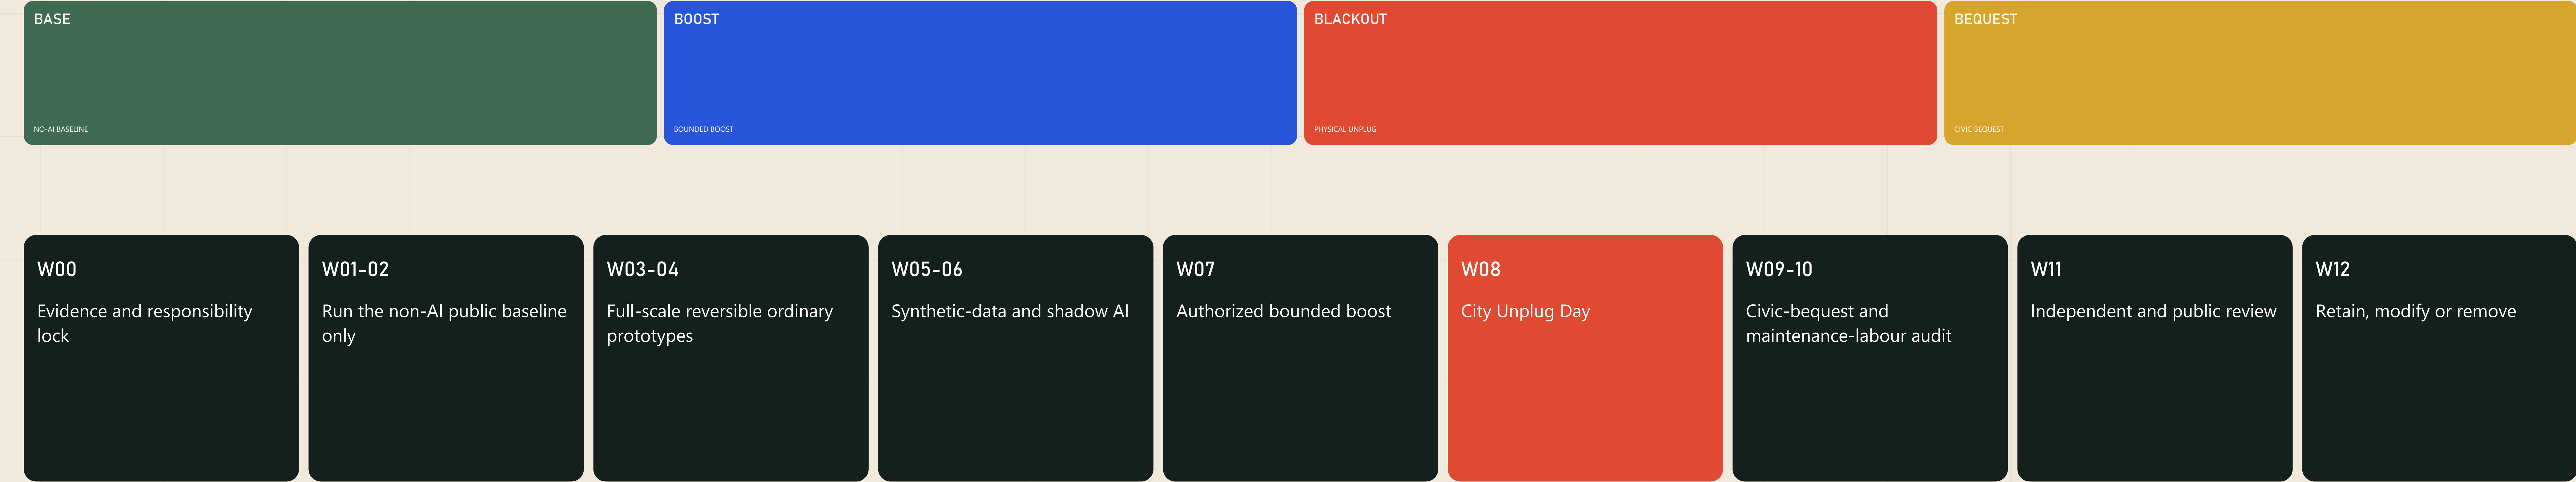

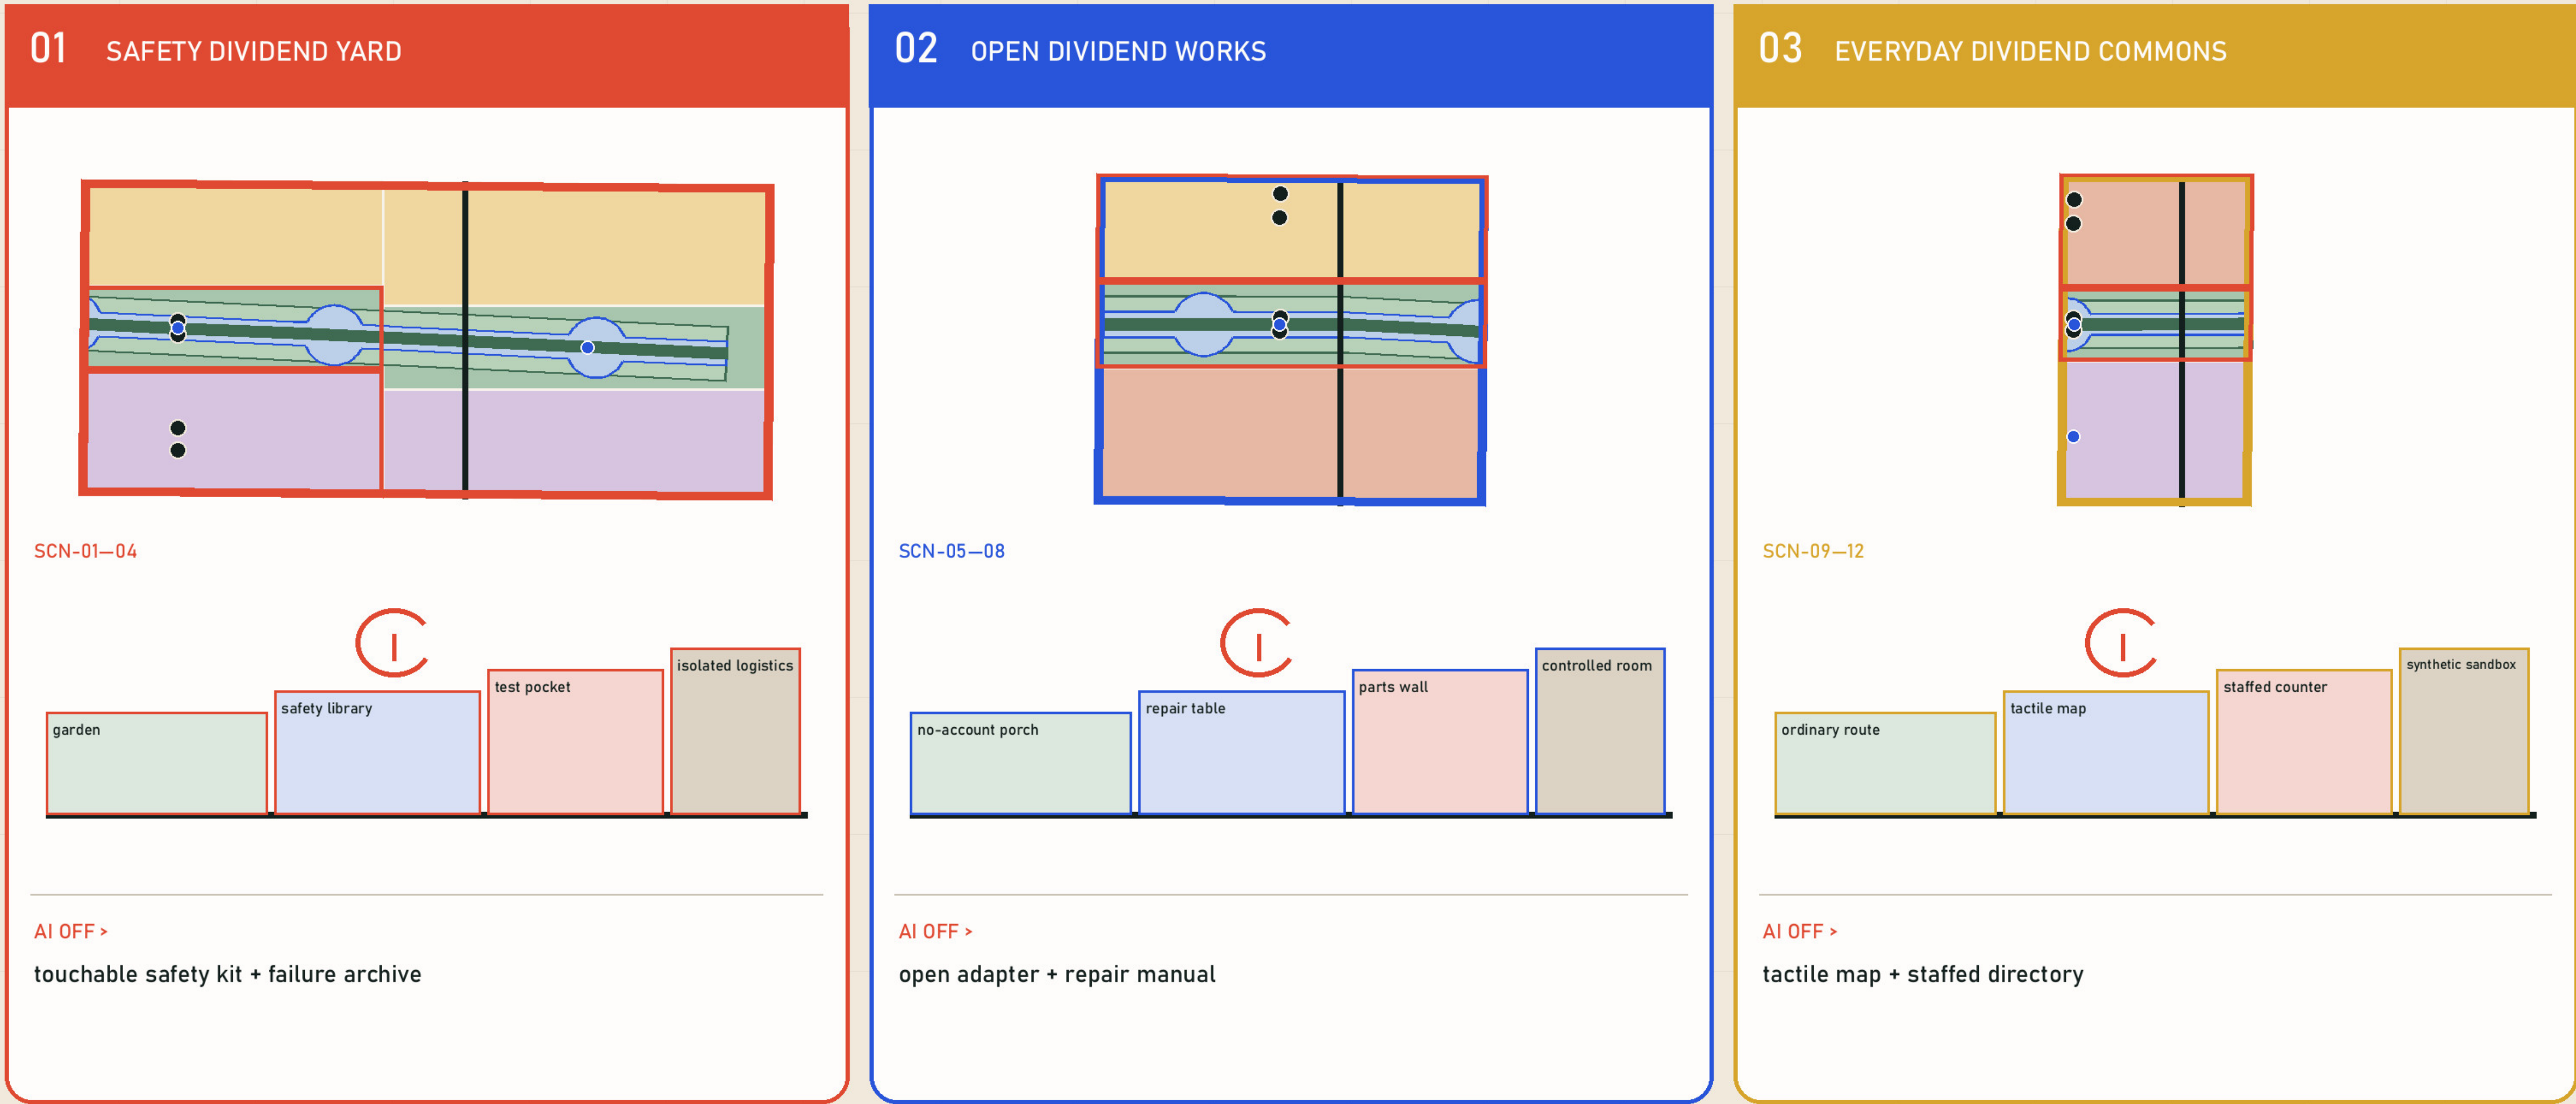

Three focus yards and the AI exit protocol

THREE DIVIDEND YARDS / 03

THREE YARDS. THREE CAPABILITIES. THREE POST-AI CIVIC LEGACIES.

One dividend contract, three distinct spaces: safety validation, open maintenance and everyday civic service each have their own section and stop conditions.

Twelve AI scenarios, twelve post-AI civic assets

HERITAGE / PUBLIC SPACE / EXPERIENCE

Technology afterlife: the human public realm still works

SAFETY

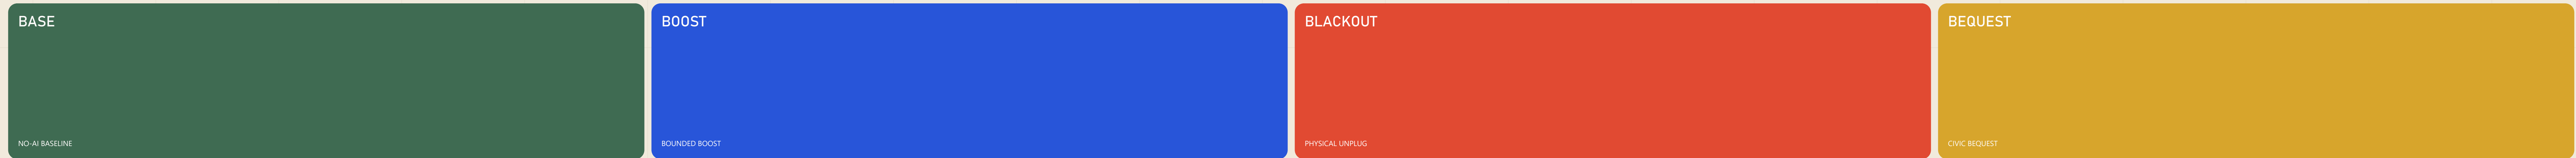

OPEN

EVERYDAY

AI OFF	tactile map / manual gauge / staffed directory / repair manual
HERITAGE	measurement / repair / handover / sustained operation
BOUNDARY	experience imagery proves no building, boundary, attendance or effect

From twelve-week commissioning to long-term open maintenance

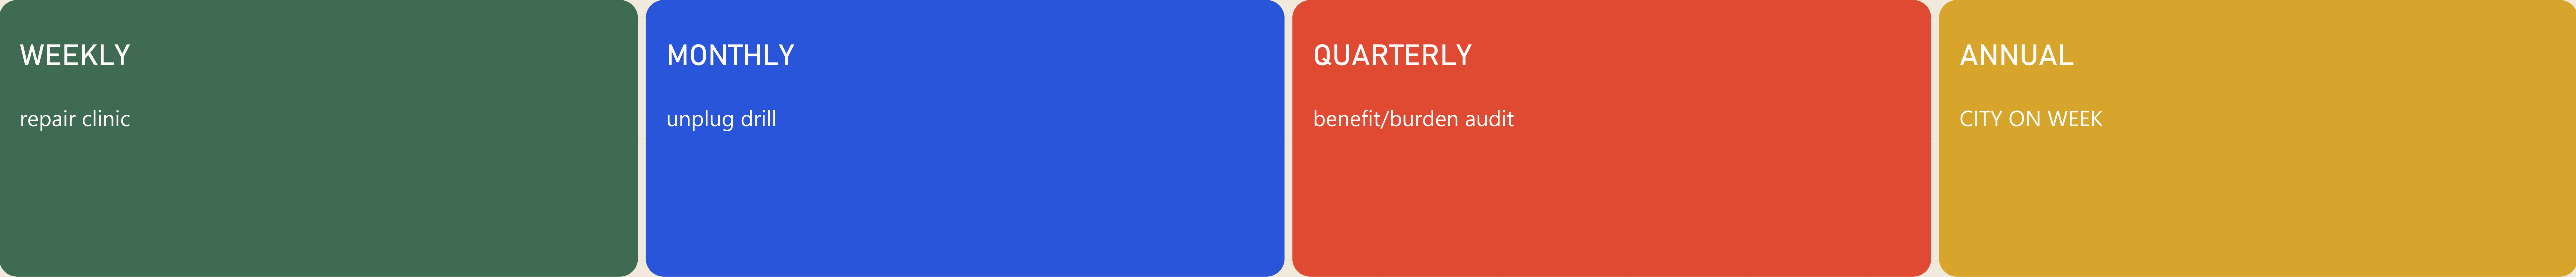

G0—G7

C0—C7

Separate project-maturity and scenario-admission gates: funding cannot replace public purpose, and one scenario cannot endorse another.

84 machine branches are reproducible; field effect remains unknown

EVIDENCE BOUNDARY / 05

84 MACHINE BRANCHES ARE REPRODUCIBLE. FIELD EFFECT REMAINS UNKNOWN.

Contract completeness is not service success: v4 shows what passes, what is blocked and what evidence can exist only after authorised field work.

12 × 7 = 84

SYNTHETIC CONTRACT BRANCHES
