

THE LAST LIGHT LINE

A Night-time Basic-Service and Human-Help Continuity
Network

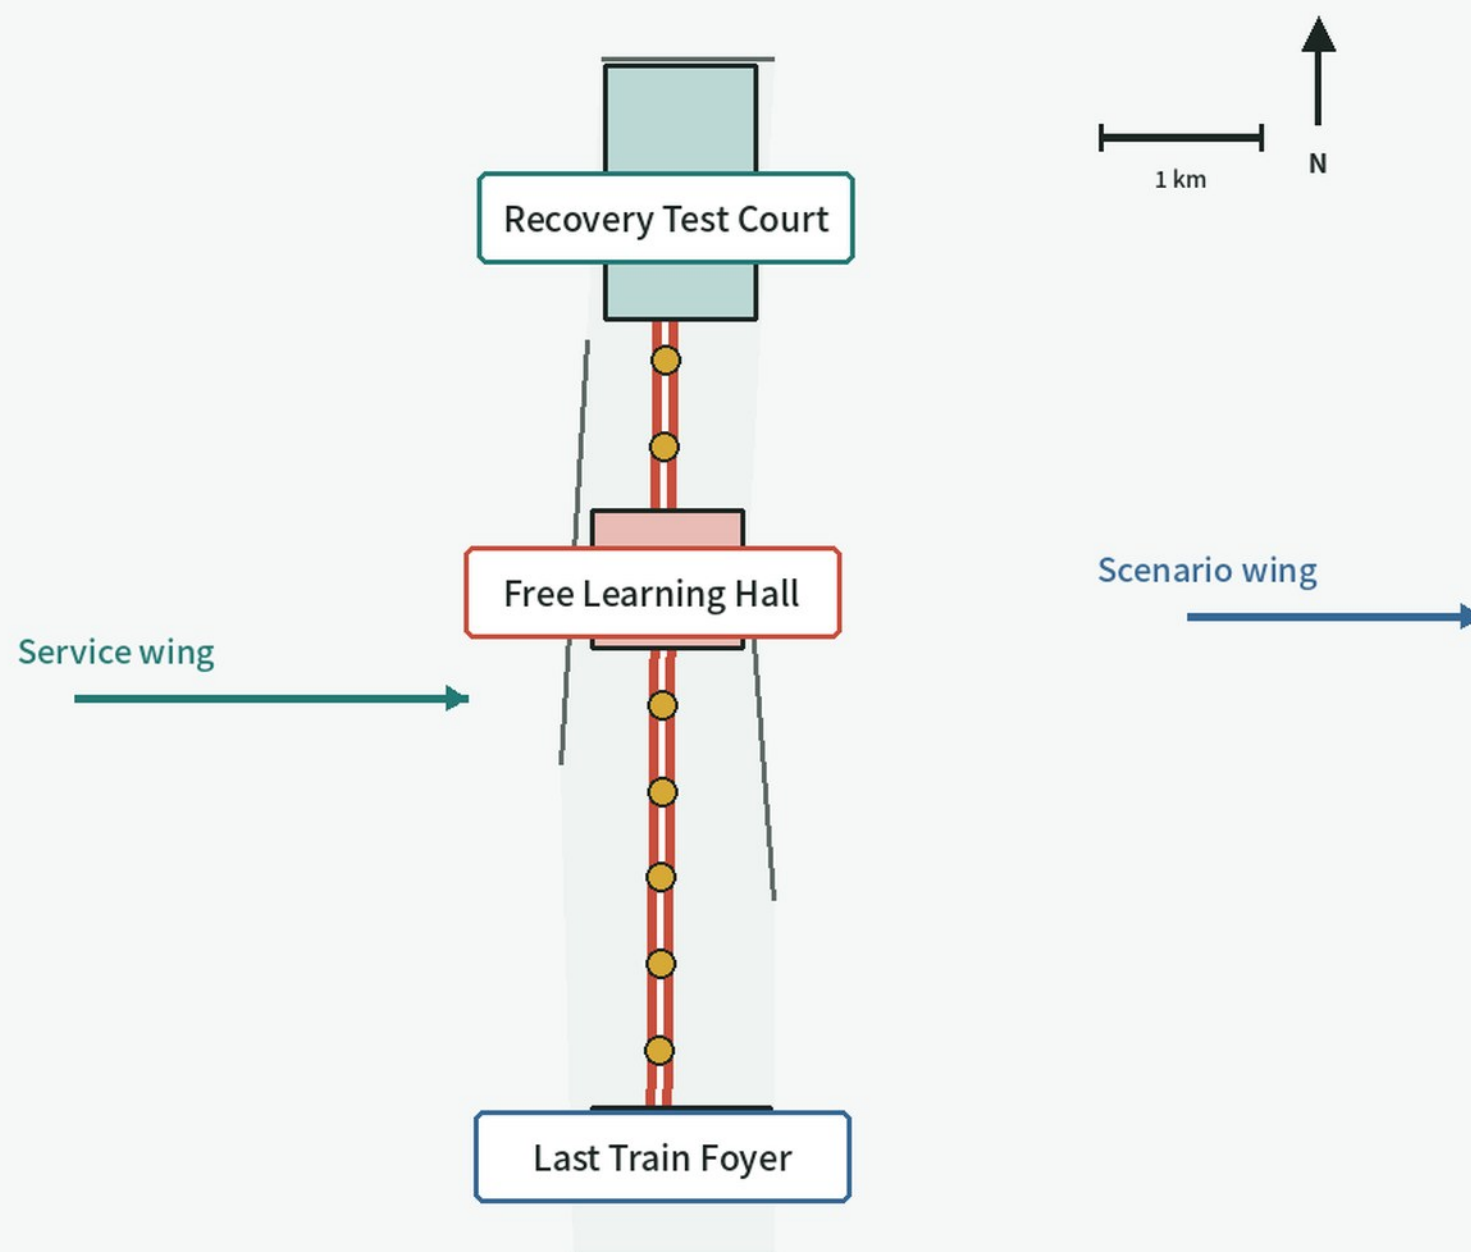

No purchase. No scan. Human help stays on.

Recovery Test Court · Free Learning Hall · Last Train Foyer · Twelve light stations
Five human seats + one AI observer · Every pilot carries a Seat Pass

THE LAST LIGHT LINE

No purchase, scan or profiling: even offline, a person can still sit, drink, use a toilet, charge, ask for human help and read the last connection.

FOUR RIGHTS

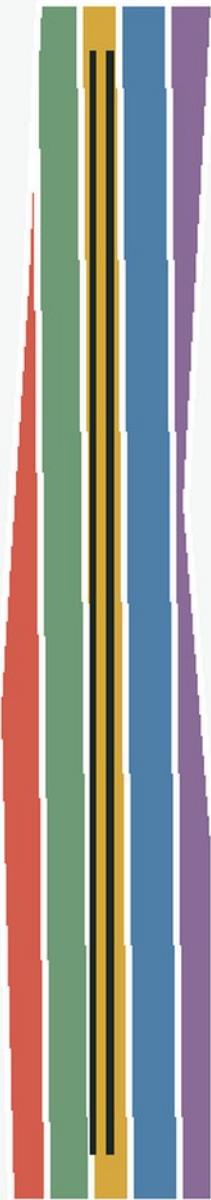

- 01 A place to stay**
Free, non-commercial and accessible
- 02 A service route**
AI and equivalent human service
- 03 A right to test**
Small, reversible and time-bound
- 04 A right to appeal**
Pause, override and obtain reasons

FIVE SEATS + ONE OBSERVER

One Line · Three Houses · Two Wings · Twelve Light Stations

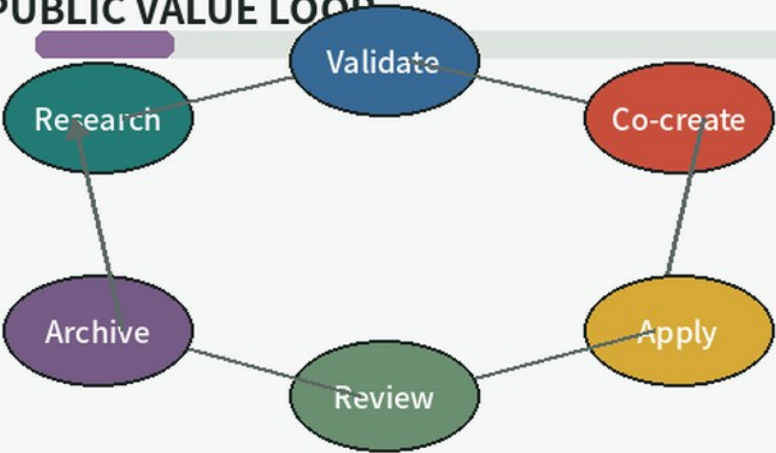

A night-time continuity structure derived from one topology-safe provisional boundary.

DESIGN PARTITION

PUBLIC VALUE LOOP

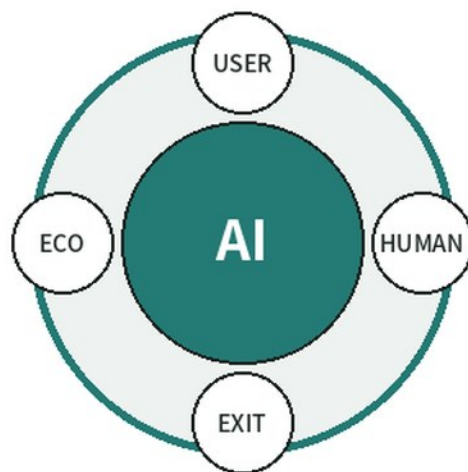

Recover · Learn · Transfer

Three distinct interfaces keep essential service and human help visible after the last train.

01 Recovery Test Court

RECOVERY TEST GARDEN

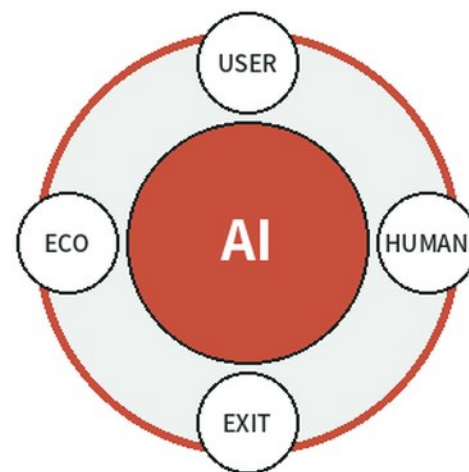

Offline fallback · low-speed robotics · manual stop and recovery · Qinghe ecology

Concept function · reversible fit-out

02 Free Learning Hall

LAST LIGHT STUDY HALL

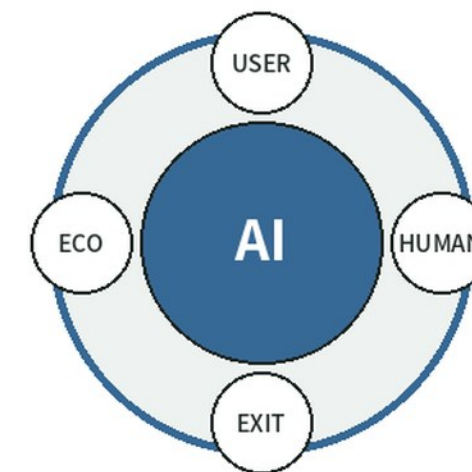

Free seats · night school · open-source clinic · care help · no learning profile

Concept function · reversible fit-out

03 Last Train Foyer

LAST TRAIN FOYER

Waiting · toilet · water · paper map · human help · accessible transfer

Concept function · reversible fit-out

TWO WINGS

Zhongguancun services bring talent, IP, compliance and capital; the Xiaoyuehe wing returns ecological performance, lived experience and public feedback.

Basic Comfort Before Smart Screens

Walking, shade, water, accessibility and non-digital service are prerequisites for every AI scenario.

Every Pilot Carries a Seat Pass

A public claim becomes reviewable only when its geometry, metric, operator, human override and expiry are visible together.
