

01 WHY IT MUST WORK

Three Works move technology through controlled testing, public learning, and real daily life. Two service chains return adoption to accountability and change.

02 HOW IT BECOMES USABLE

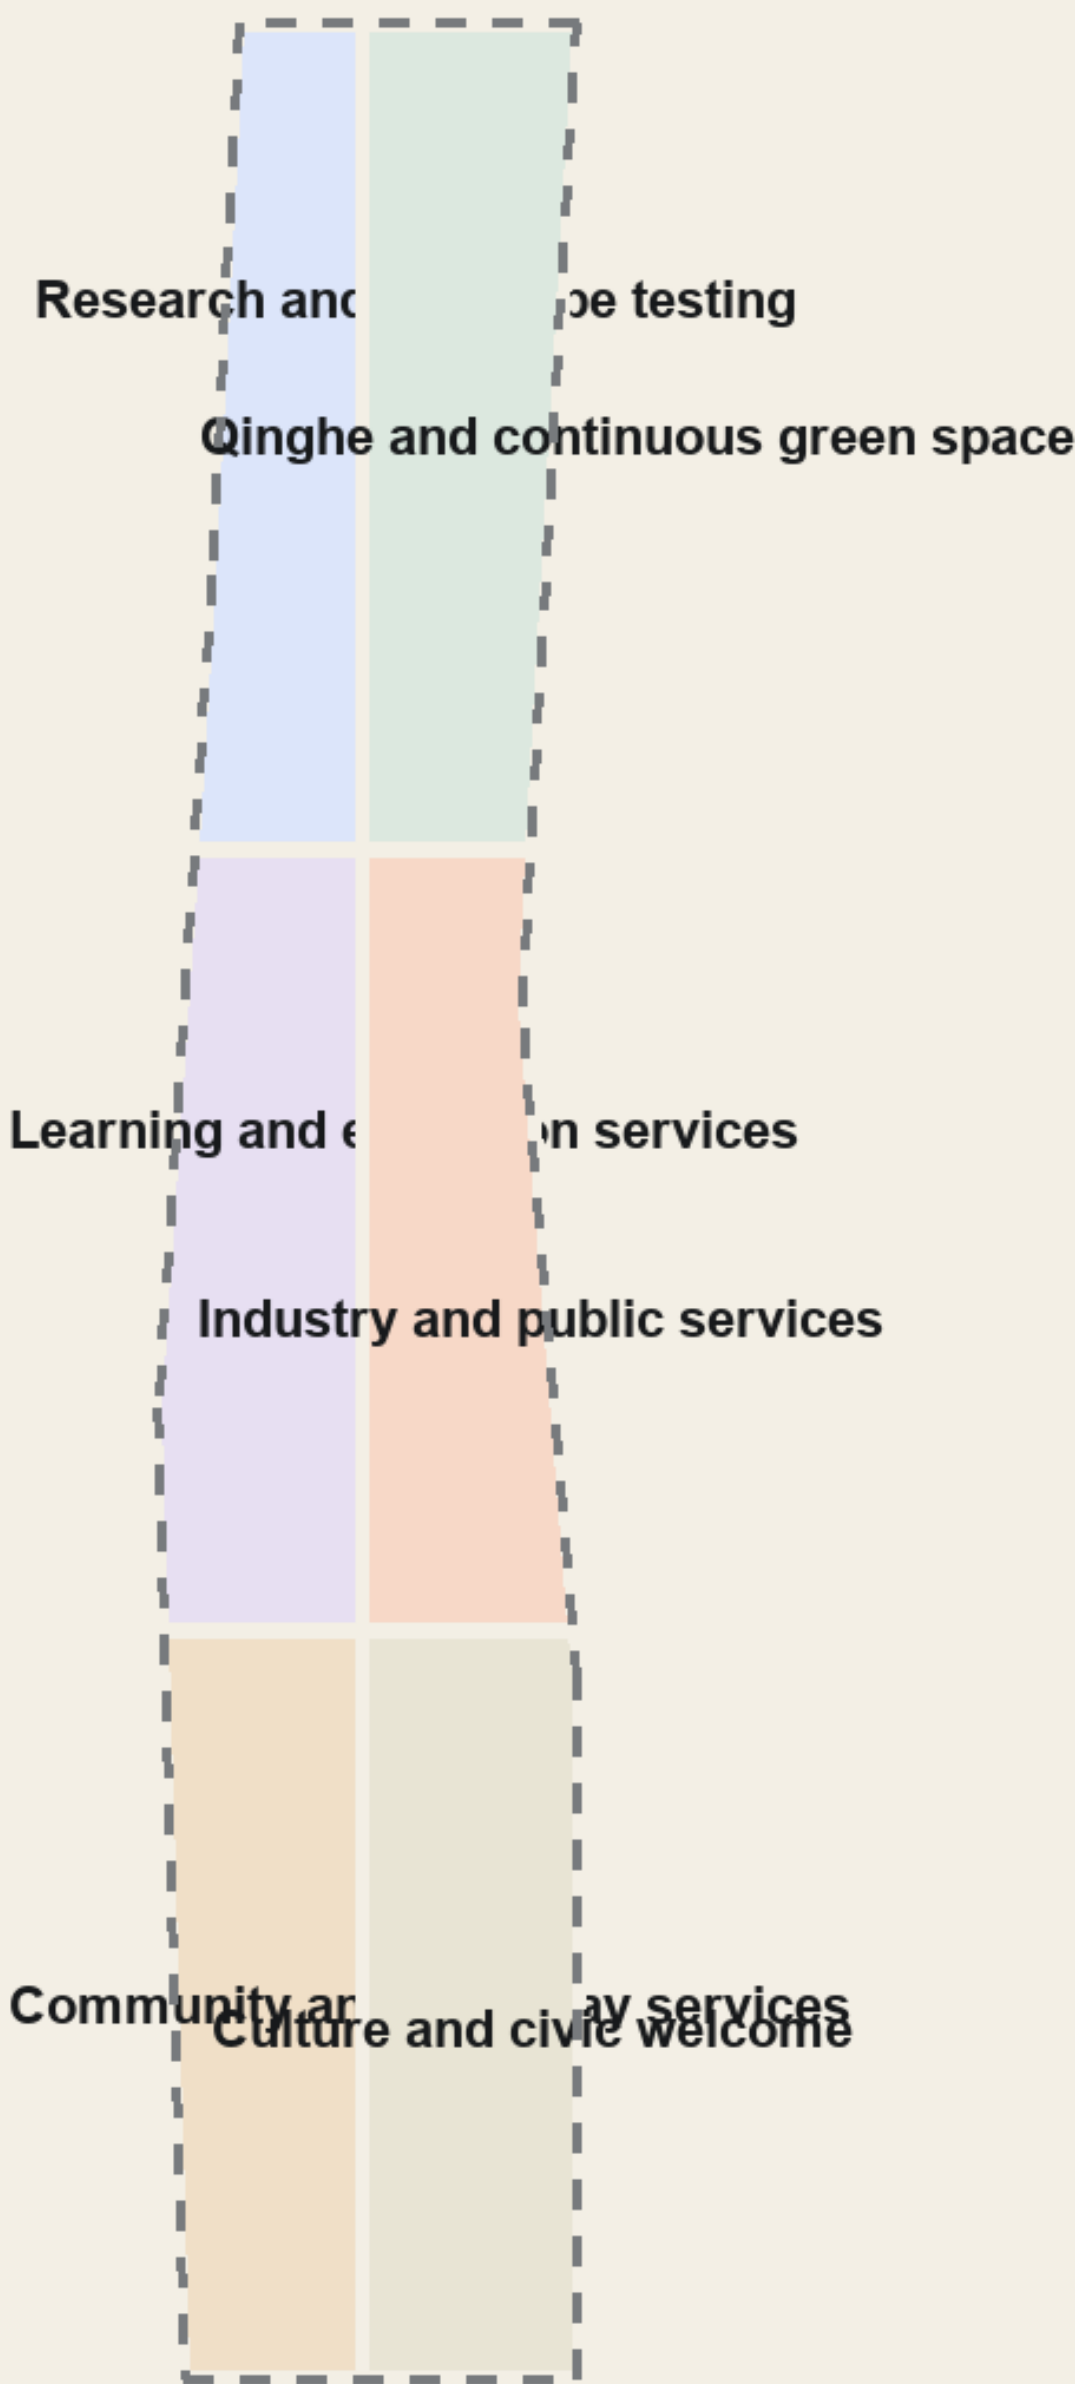

Space first solves continuous arrival, shade, rest, accessibility, and human help. Permanent work follows evidence from reversible pilots.

PROGRAMME FOLLOWS PUBLIC TASKS

Six concept zones cover the provisional frame; statutory use and intensity stay unknown

EIGHT-RESOURCE ORDER

01 LAND	02 SPACE
03 INDUSTRY	04 FUNDING
05 TALENT	06 COMPUTE
07 DATA	08 SCENARIOS

A resource is unsecured until authorization, quantity, term, and exit are recorded.

A ROUTE IS A COMPLETE SERVICE

Arrive · Cross · Enter · Stay · Take over · Exit; one failed segment blocks release

SIX-SEGMENT JOURNEY

01	ARRIVE
02	CROSS
03	ENTER
04	STAY
05	TAKE OVER
06	EXIT

One unverified segment keeps the whole route UNKNOWN.

03 HOW USABILITY IS PROVED

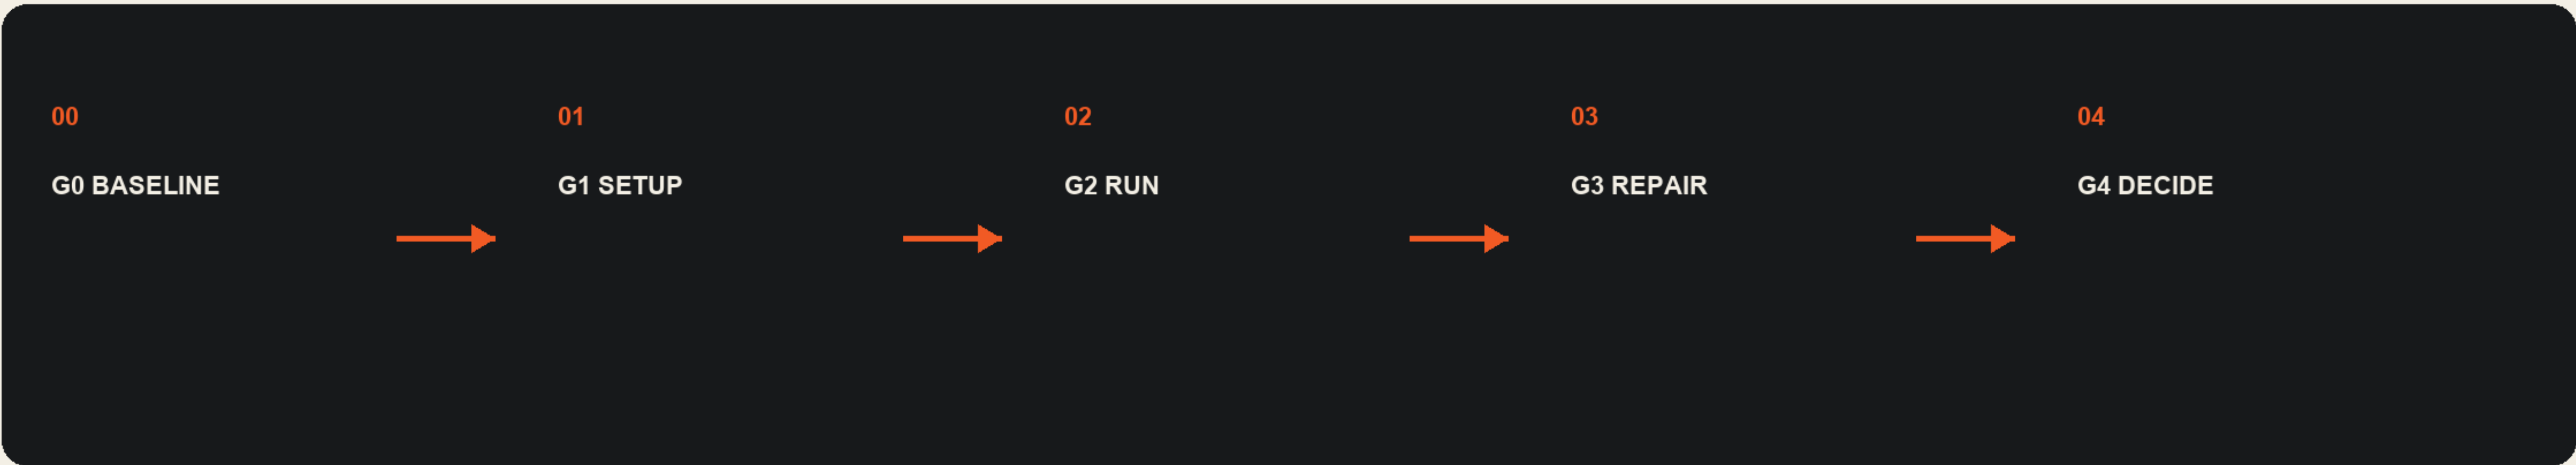

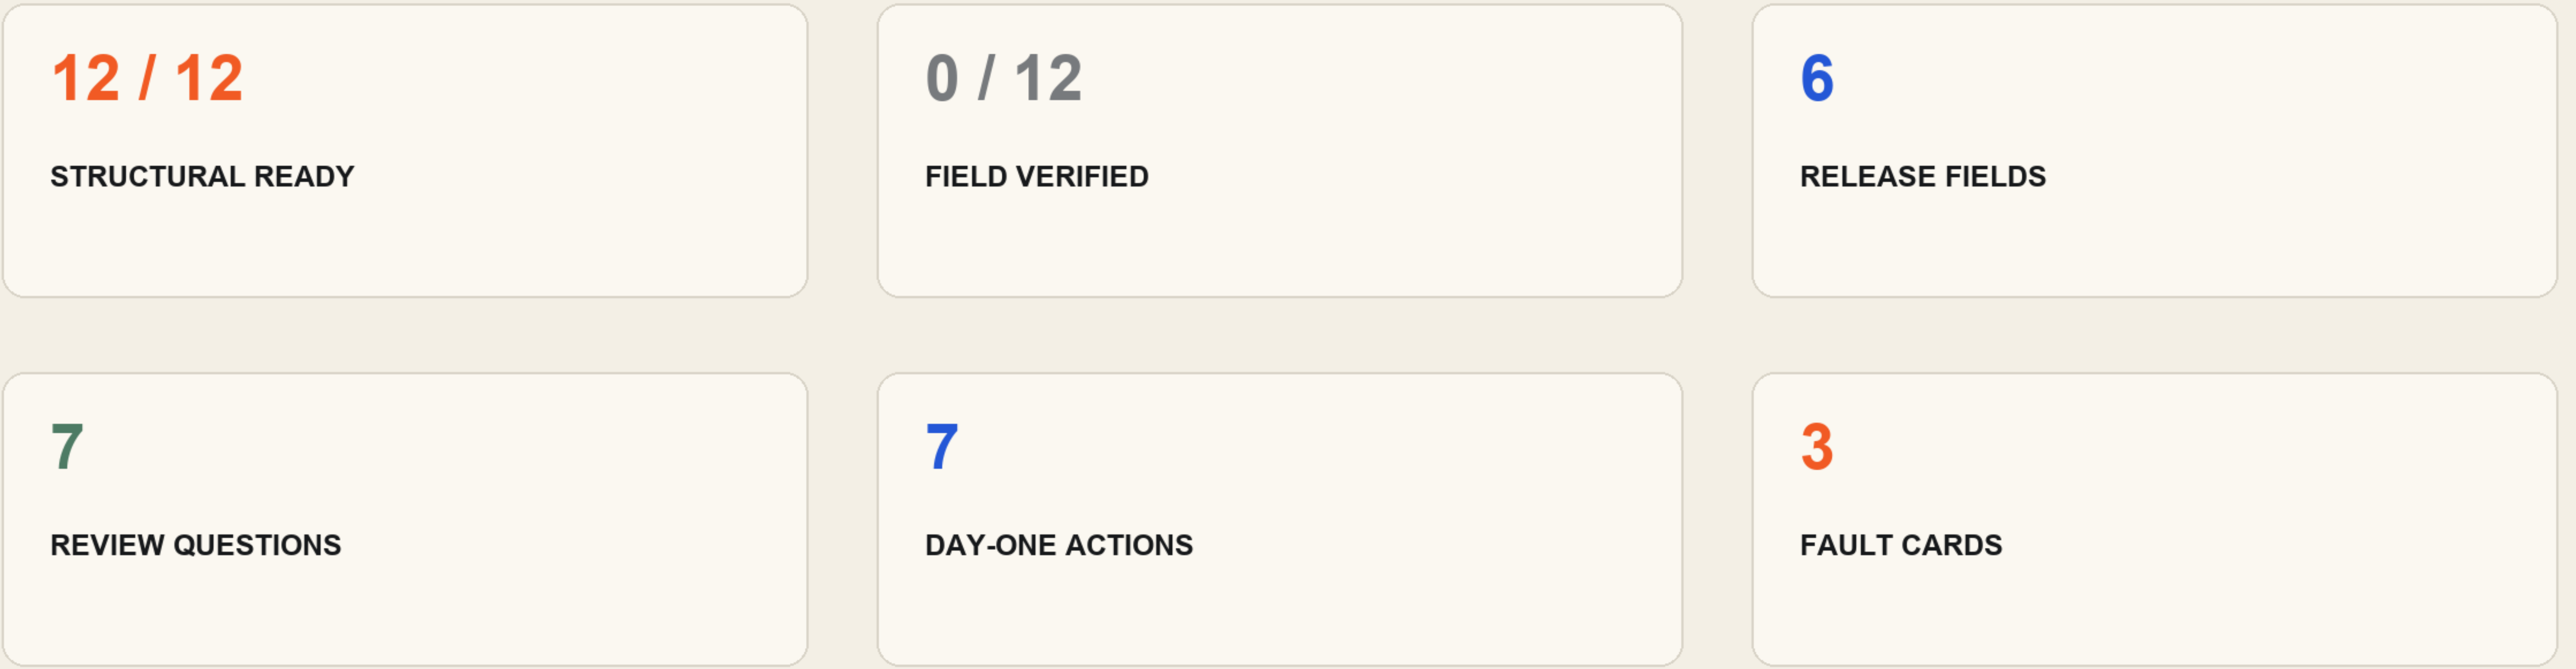

Seven review questions link directly to evidence. Seven day-one actions and three fault cards check opening and stopping; field verification remains zero.
