Seven gates / one passport

Research → PoC/IP → Open source → Validation
→ Incubation → Patient capital → City adoption
Passport across the chain; life chain pinned 1:1

Judge main-read three cuts

1 Renzi Plaza = sole convergence origin
2 Cross confluence = second skeleton (240%)
3 First km E03→E04→E05 = Phase 1 carrier
Landmarks: 1 Station Zero · 2 Garden/Hall · 3 micro

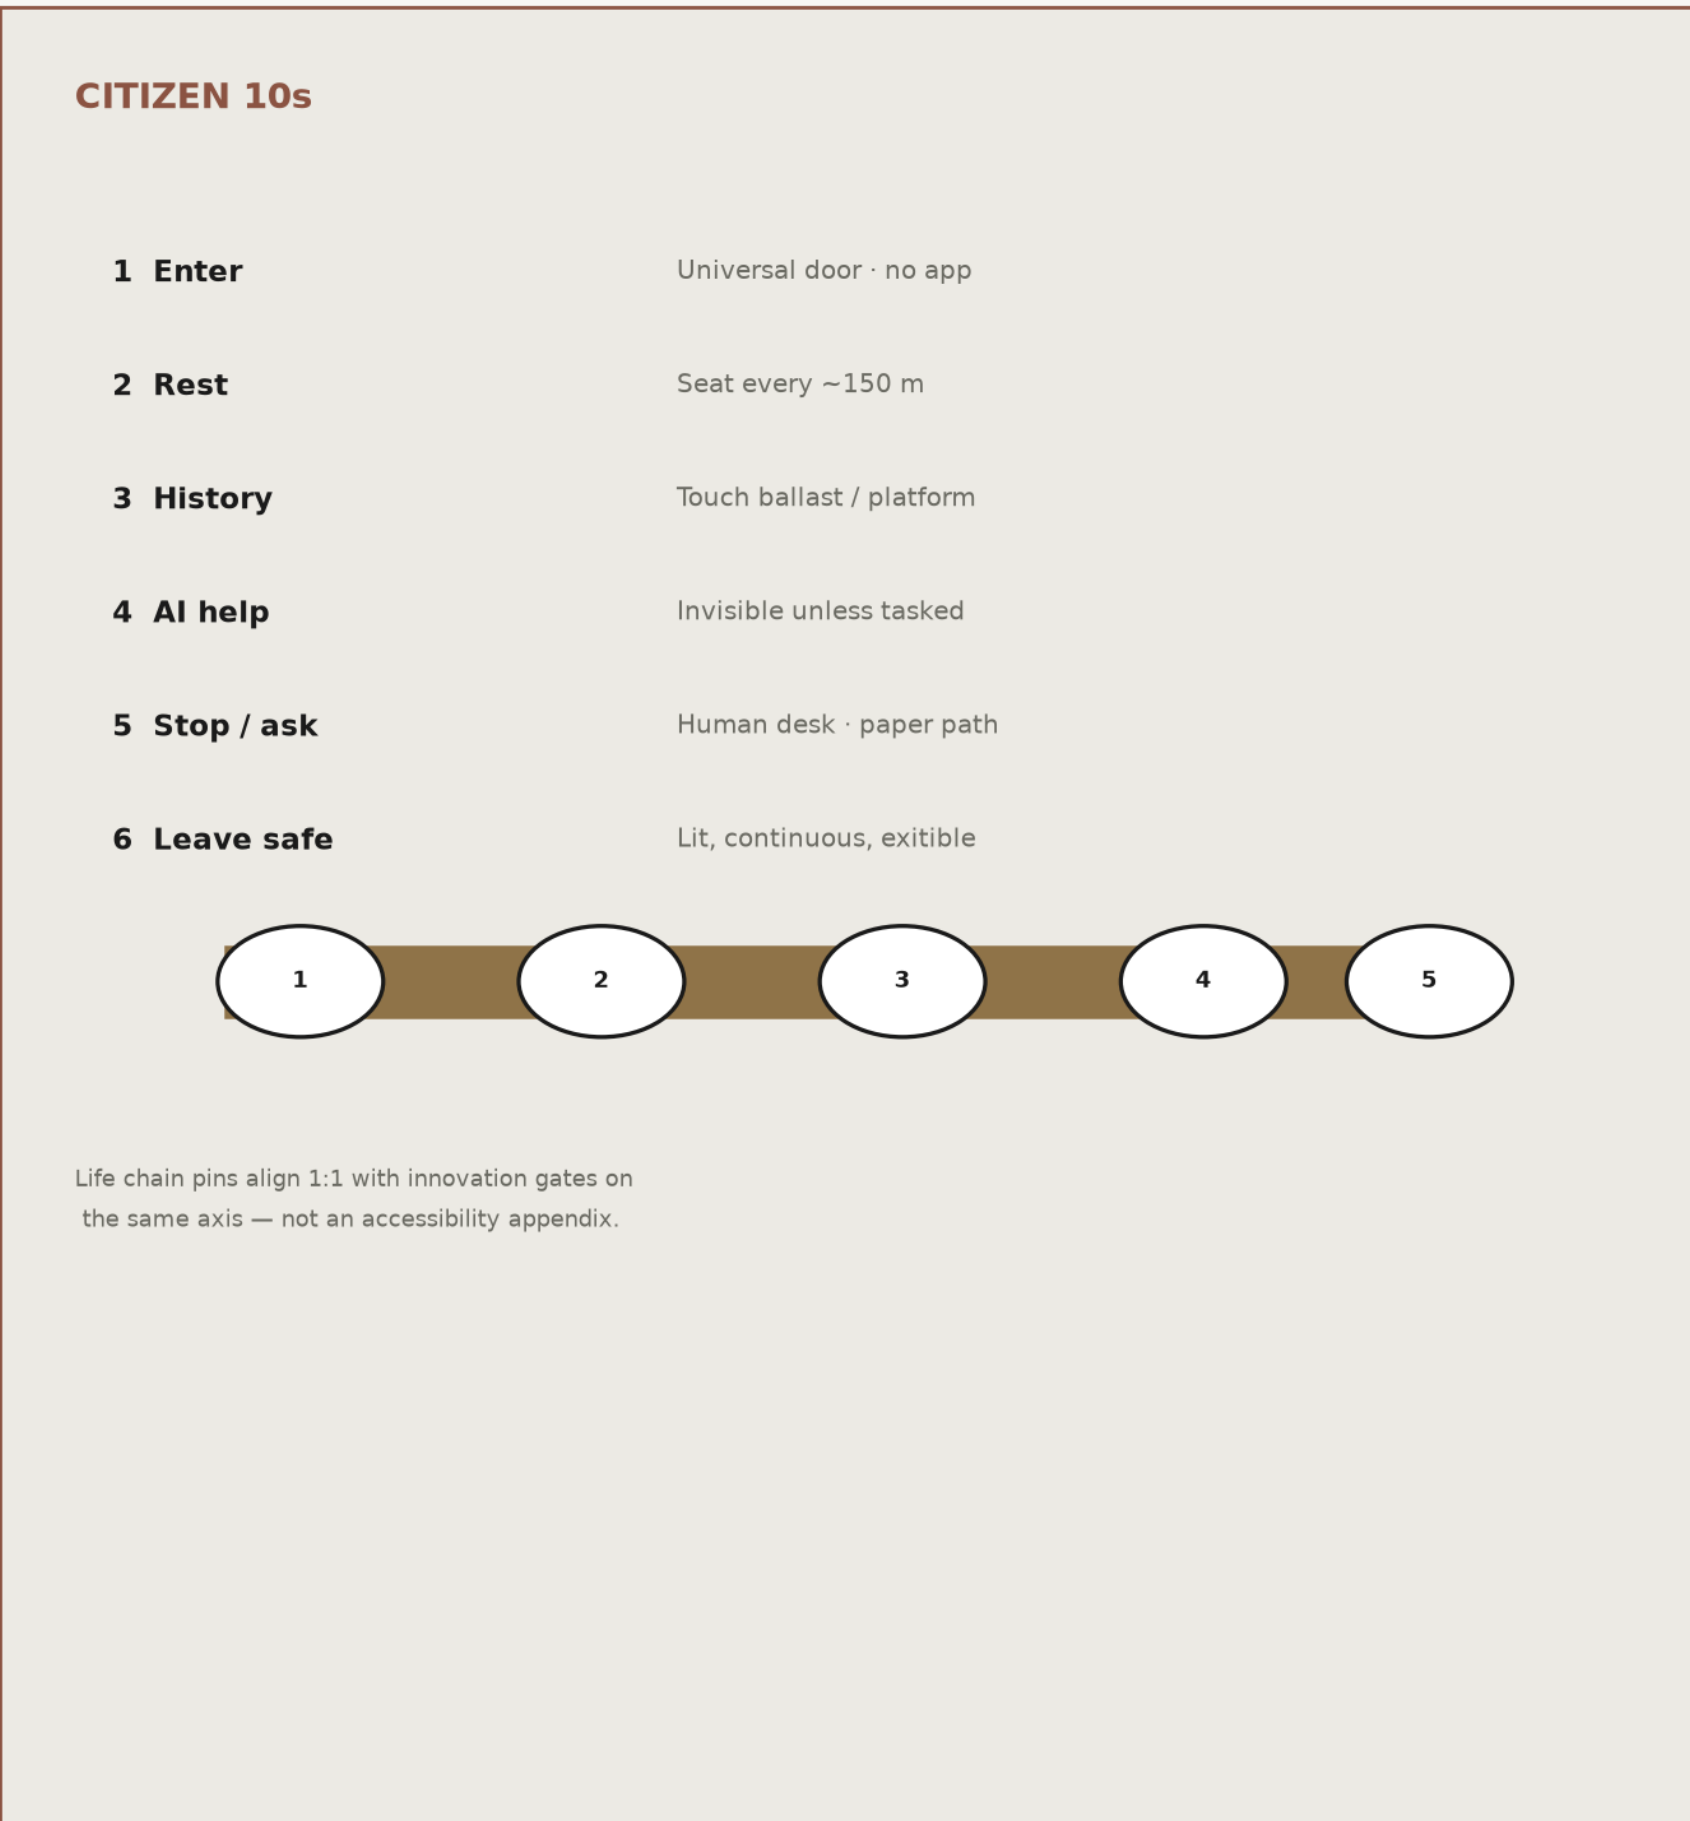

Life Chain × Citizen Blueprint

Humanities get a chain as hard as the seven innovation gates. Plus a 10-second map a grandmother can read.

ACCEPTANCE: non-expert finds enter / rest / history / AI help / leave in 30 seconds.

Landmark hierarchy: 1 Station Zero · 2 Agent Garden + Next Station Hall · 3 Commit / Compiler / milestones

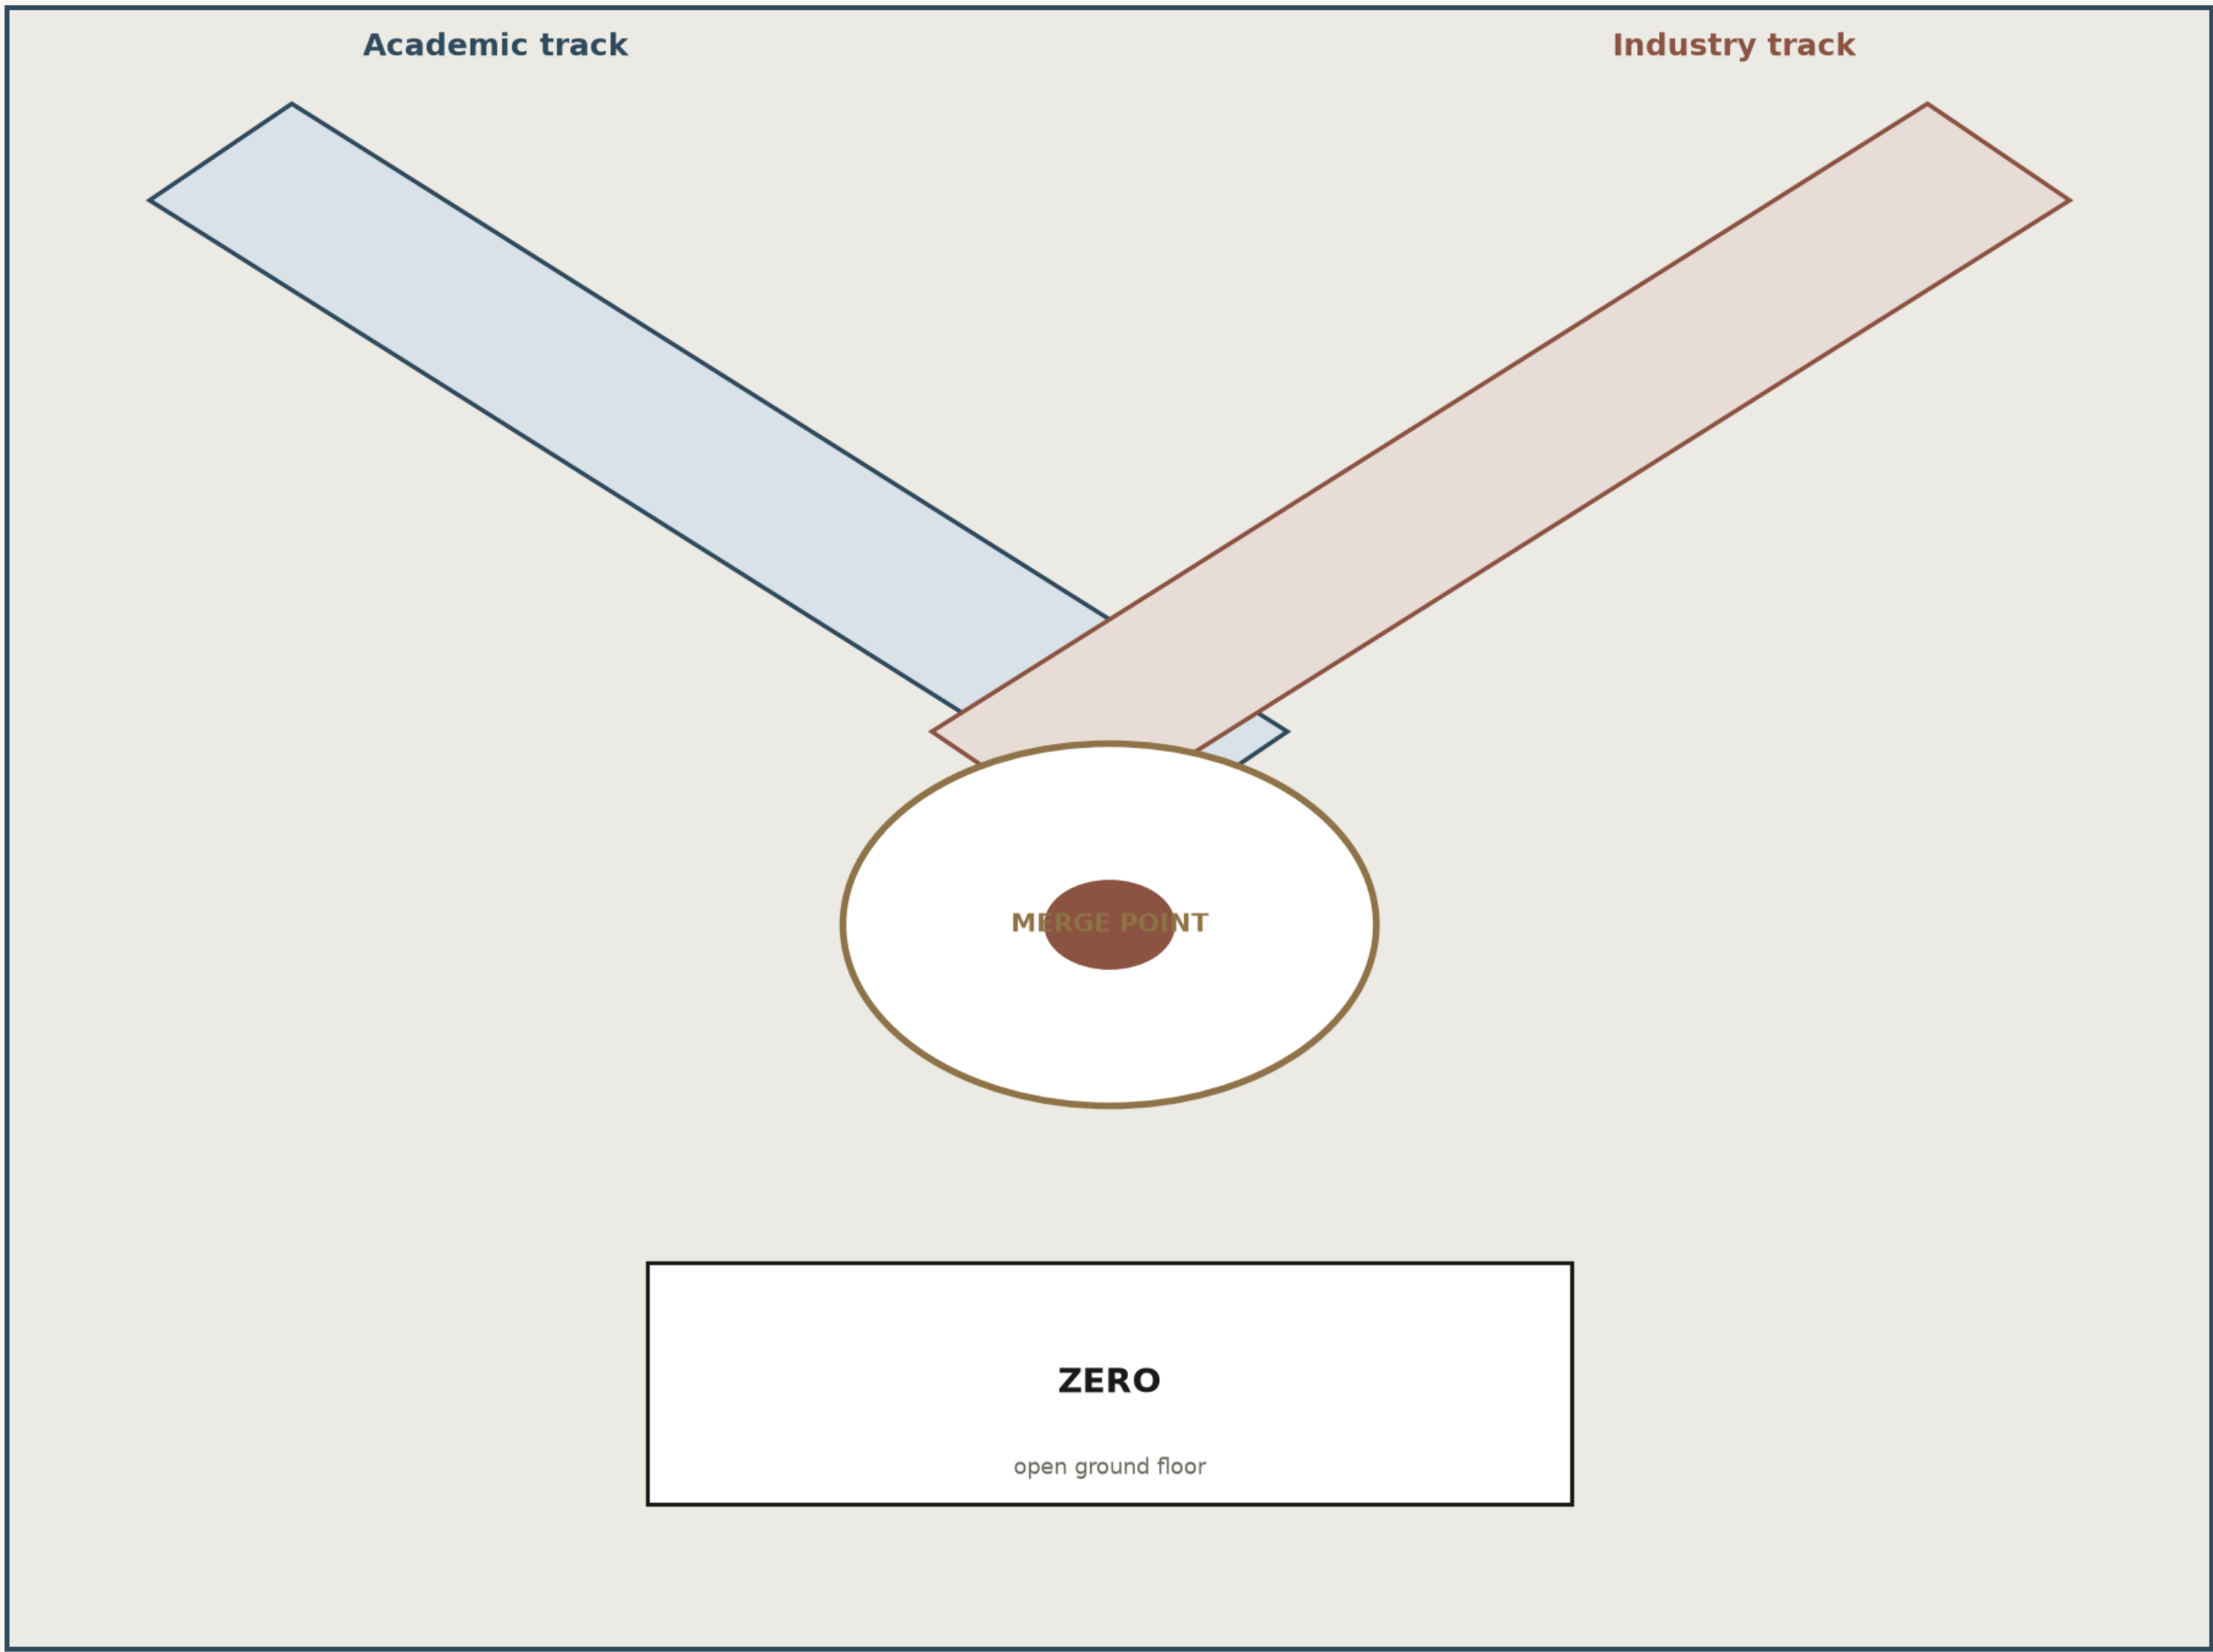

Convergence · First Kilometer · Cross

Board center: Renzi sanctuary + ~1 km proof + three transverse plans; three forms as support.

Convergence Origin · Renzi Plaza

The only sanctuary of the scheme: delete every AI caption — the place still reads as two slop es merging.

ORIGIN SCENE · v0.5.35

ACCEPTANCE: after stripping AI copy, the place still photographs as “tech x humanities merge.”

If it is not here, it is not “convergence” — it is only parallel compliance.

First Kilometer of Proof

E03 Campus Porch → E04 Renzi Plaza → E05 Compiler Living Room · ~1 km continuous walk. No plant room. No bridge tunnel.

FIRST KM · v0.5.35

MUST LAND

- Zero-break walk (sun / rain / night)
- Full rail texture kit once
- 1 Commit plinth
- 1 garden room
- 1 failure cabinet

ACCEPT / FORBID

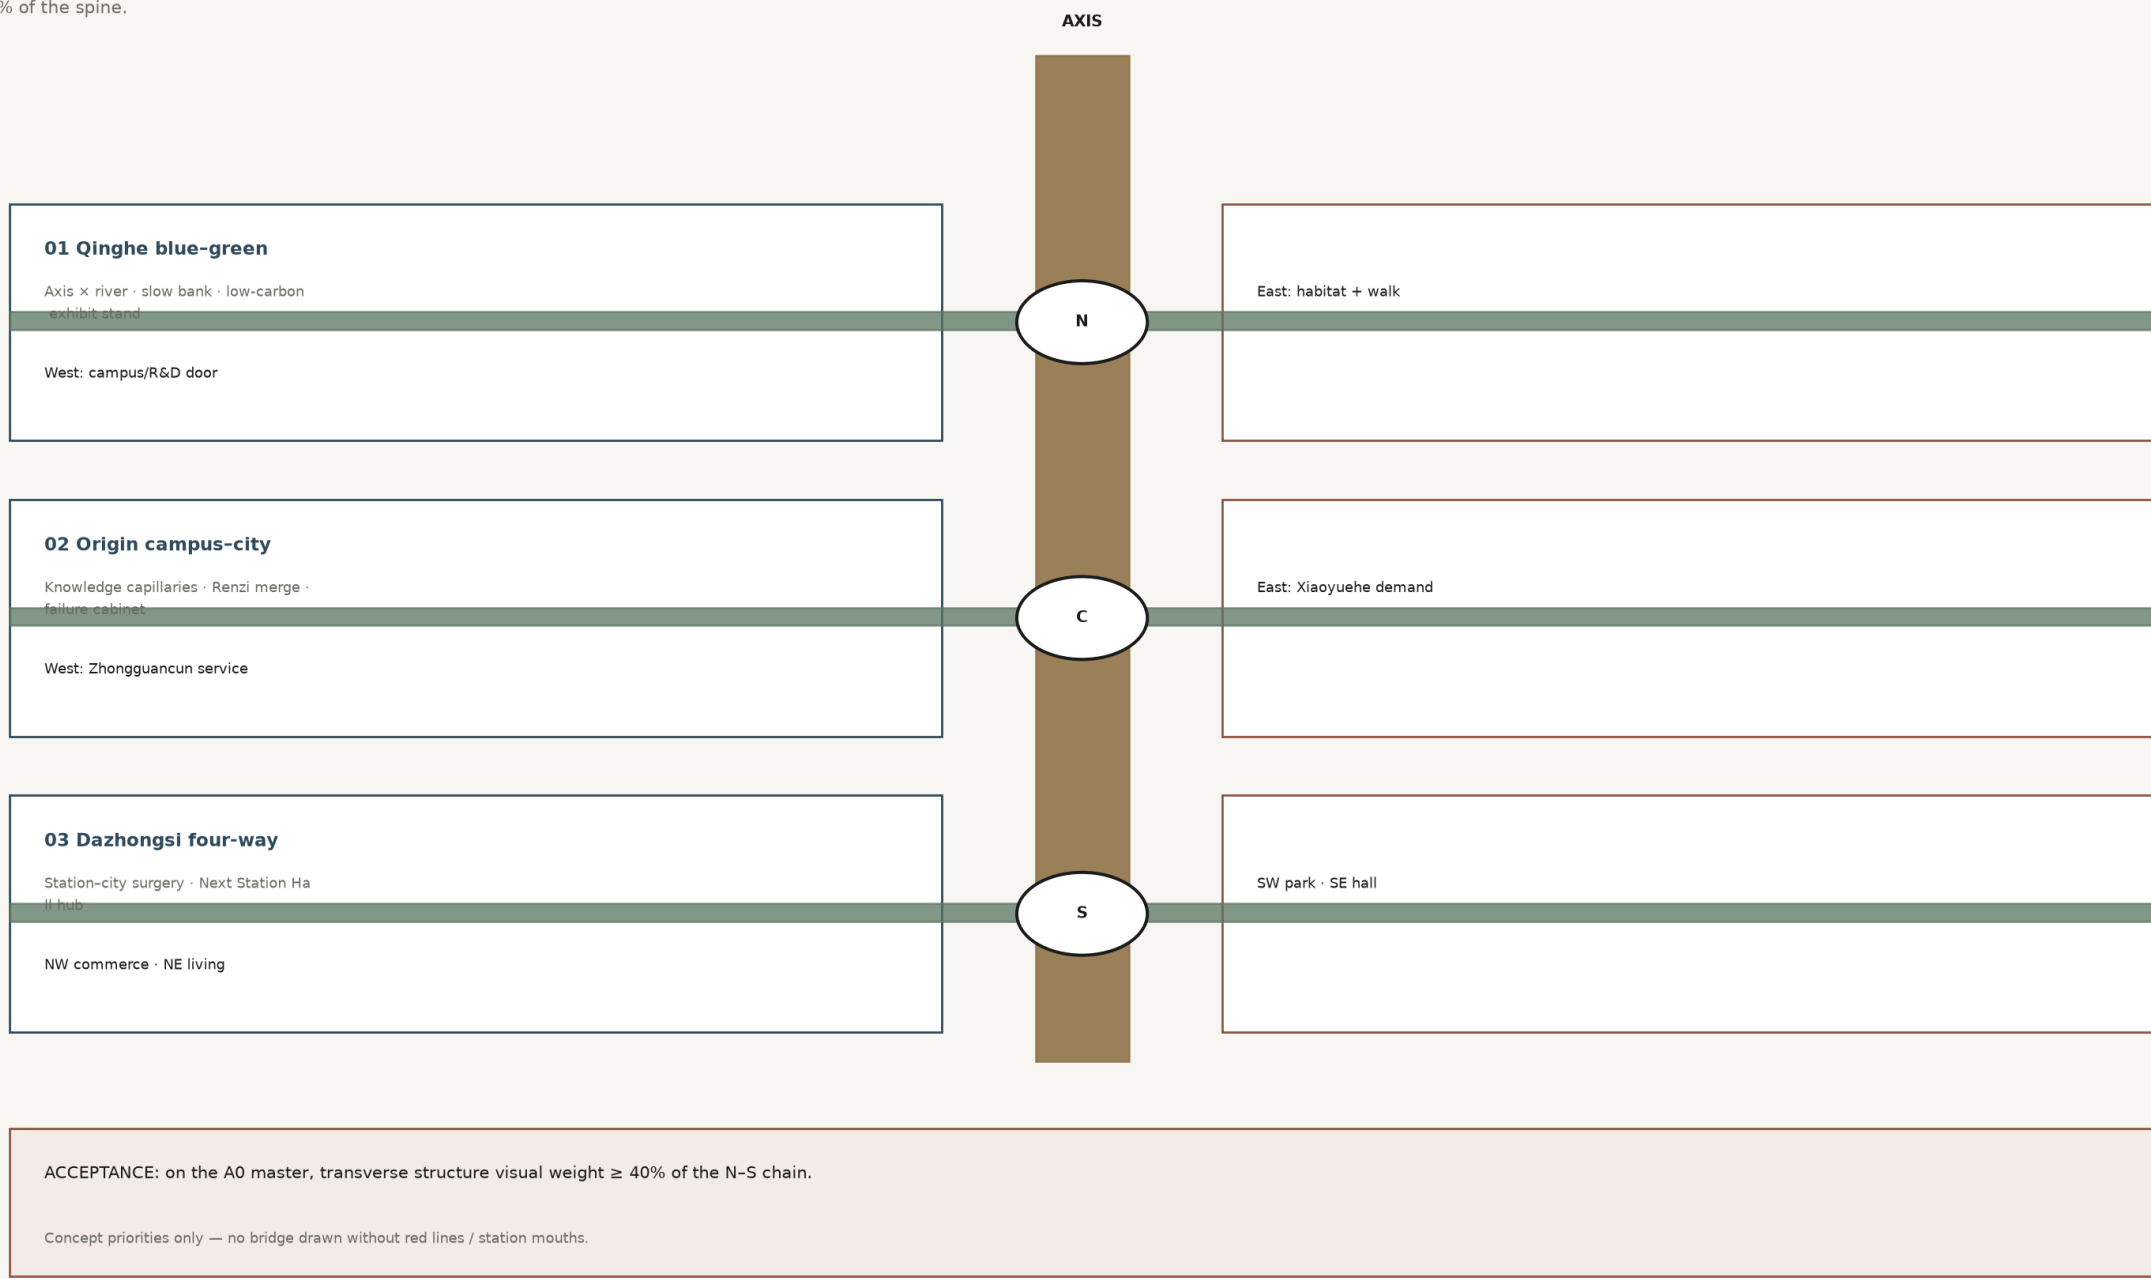

ACCEPTANCE: one weekend walk · photographable · f our gradients baseline relocatable.

NO plant room · NO bridge/tunnel · NO main street
NO “already displayed = validated”

Cross Confluence · Three Transverse Plans

North-south chain is not enough. Three strategic stitches become the second skeleton — visual weight is 40% of the spine.

验证 A SC-02

街区钉：北站前门/小月河日常缝合到东侧社区卫生服务界面；
不写具体诊所名，深化时用公开名称替换。

验证 B SC-03

街区钉：原点校城战略缝合的近段侧门能界面；
教师共创室落在校城接口，不宜称校内房间权属。

验证 D SC-05

街区钉：大钟寺西向步行缝合之后的生活街区层带；
店招界面，不是封闭展厅。

钉点 = 方案空间/接口上的概念优先序。官方地块、卫生/教育设施公开名称与店铺普查到位后整体替换。禁止伪造门牌。

TECH × HUMANITIES MEET HERE

People first · tech and humanities meet here

Humanities slope (an ordinary day) × tech slope (reliable · trustworthy · controllable AI) → merge ignition → clear four urban slopes: information / action / service / participation

Make the Jing-Zhang heritage a public display and capability layer of the innovation chain: verified · translated · adopted · seen throughout — usable, correctable, and ex-able on its own

Provisional boundary calc — not an official red line not downscale district pop to the site	Station coverage stays unknown	Passport gates — display if validation	4 controlled validations	Voluntary personnel — no tracking	No rent-subsidy race	

Three verbs: tell the space–people story clearly — and keep a stop key and recal pipeline

Recalculable

Stoppable

Continuable

Same-source geometry → EPSG-4548 metrics → figures / PDF · HTML → six self-checks: 1. template fit 2. zoomable 3. correctable 4. people keys: capital stays dark until the gate; humans own highlights 5. three-station loop → global node; design roadmap — not investment approval / build comm

Success: not how many screens were built, but whether research can be verified, public issues closed, and failures recorded honestly.

Four controlled validations
SC-02 health · SC-03 education · SC-04 mobility · SC-05 commerce
Ethics, data and professional review before pilots

Annual loop
JAN call → MAR residencies → APR Commit Walk
JUN trust test → SEP OPENLINE Week → OCT forum
Monthly failure review · year-round PRs + microgrants

Exit rules
Phase 1 = first kilometer of proof
No maintainer for two cycles → leave the pool
Safety threshold missed → stop the pilot

Belt Brand Visual Identity

Renzi merge mark · four primaries · applications. Not cultural wayfinding.

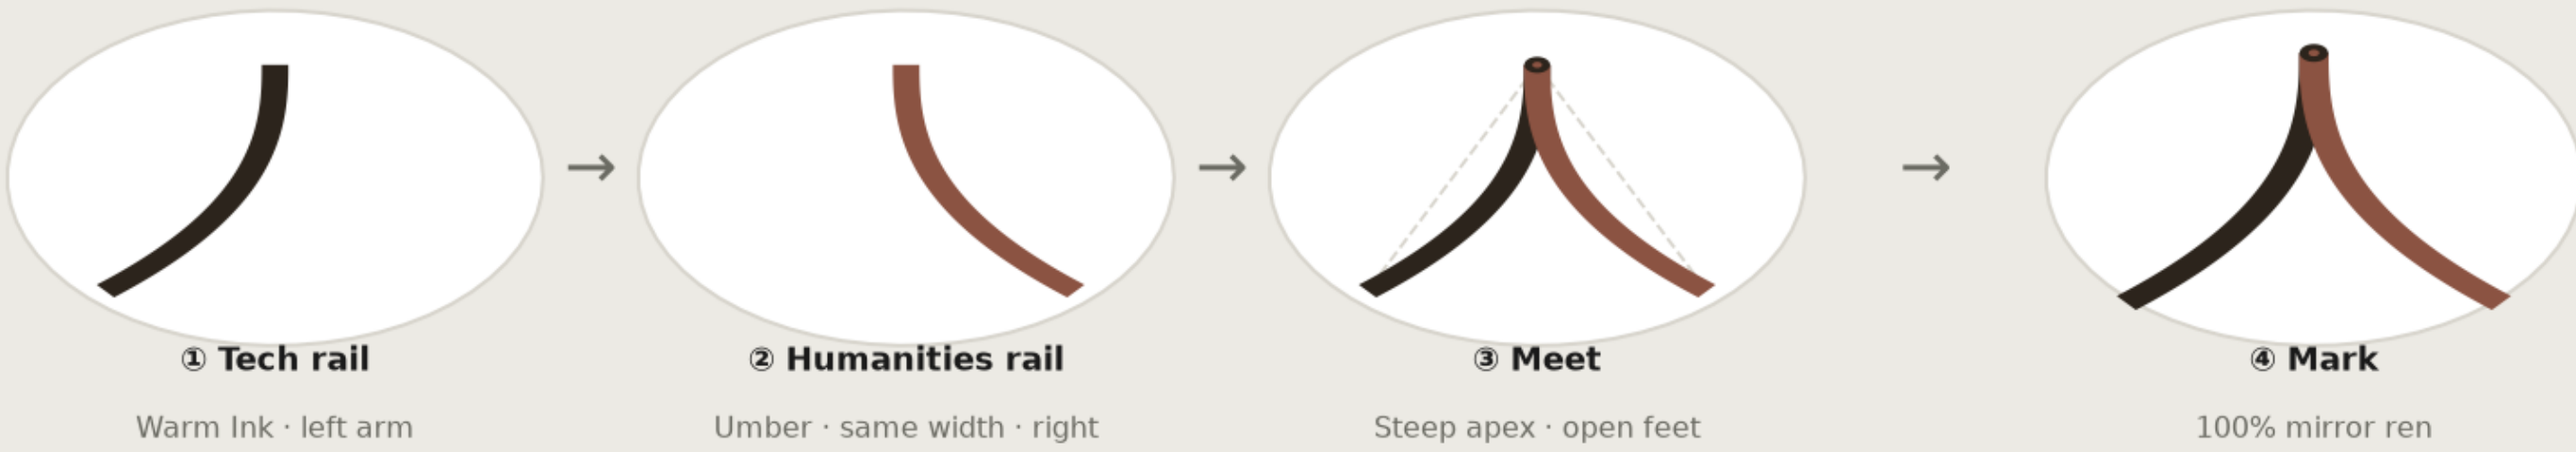

OPENLINE 100 Visual Identity

Tech rail × Humanities rail → curved symmetrical ren. The center is people, not machines.

BELT BRAND VI · NOT DRAWING LAYOUT · agent.1

A Mark construction · Tech × Humanities → ren

Exact mirror of ren: steep apex, open feet; curves tuck inward vs the chord — not an ba-bulge.

- Left = technology (Warm Ink #2C241C) · Right = humanities (Umber #8B5342); equal width
- Shape matches ren: steep join at top, flare below — curves bend inward vs chord, never ba-bulge
- Centerlines and stroke widths are exact mirrors · clear space ≥ 0.5× mark height

Wayfinding: bilingual · high contrast · braille/tactile · paper fallback

Clear trademark / type / Suzhou-numeral rights before formal use.

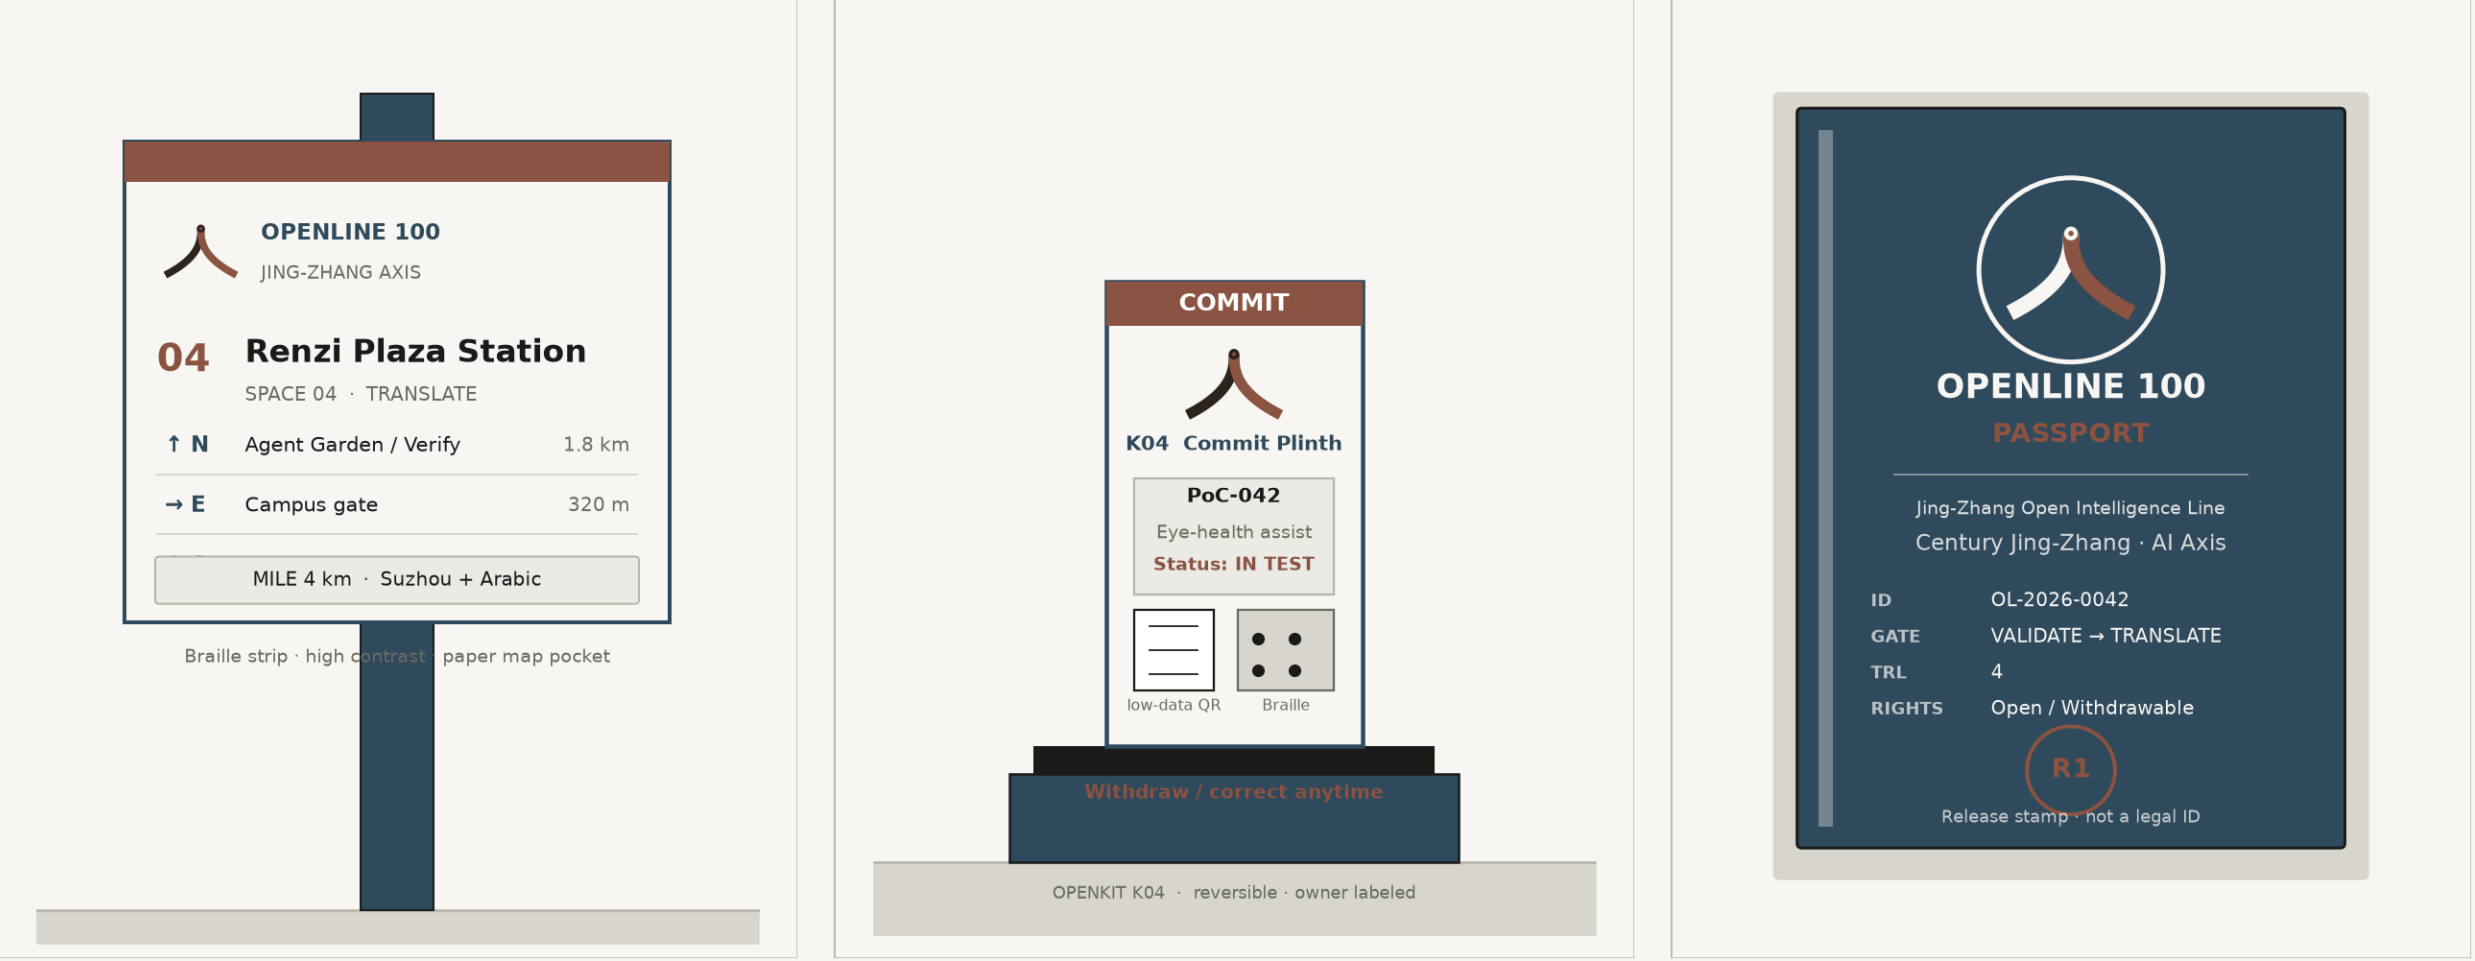

E Do / Don't

- DO: curved dual rails as ren · equal-width Warm Ink / Umber · garden base · failure cases visible · reversible installs
- DON'T: straight-line stems · O·1 letter-game · neon wash · robot statues · swap rail colors · confuse belt brand with cultural wayfinding (agent.5)
- Concept VI direction only — not a registered trademark or procured design system.

VI Applications: Sign · Commit Plinth · Passport

Three proof points that the belt brand can live outdoors, on street furniture, and in the mechanism layer.
