

CIVIC SUPPORT LINE

Every walk has support

JING-ZHANG CIVIC SUPPORT LINE

EN

EVERYDAY DIGNITY AS INFRASTRUCTURE

Every walk has support

* PROV-KEY-003 has a known mismatch; no station claim

- Everyday dignity infrastructure
- Conceptual; recalculate with official data

THREE-LEVEL SCOPE

Strategy, overall design and key areas

JING-ZHANG CIVIC SUPPORT LINE

THREE SCALES, ONE SUPPORT LINE

From strategy to maintainable street services

EN

- One line · three anchors · six supports
- Public service ledger

OFFICIAL GEOMETRY → RECALCULATE → RERENDER → REVALIDATE

THREE ANCHORS

Three falsifiable prototypes

JING-ZHANG CIVIC SUPPORT LINE

THREE ANCHOR PROTOTYPES

One service standard, three different tests

EN

01

GREEN TEST GARDEN

ZHONGZHIYUAN

Rest, water, care and low-data devices in landscape

02

CAMPUS-CIVIC COMMONS

AI ORIGIN

Human service across campus, park and community edges

03

SERVICE LEDGER LAB

PROVISIONAL THIRD

Governance only; no station siting before corrected boundary

- No station siting at third anchor
- All are conceptual recommendations

COMPLETE JOURNEYS

Accessibility is a continuous chain

JING-ZHANG CIVIC SUPPORT LINE

COMPLETE JOURNEYS, NOT ISOLATED RAMPS

Arrive → cross → rest → service → return

EN

CLEAR WIDTH · SLOPE · KERB · SIGNAL · LIGHT · HOURS · ALTERNATIVE

NO FACE · NO IDENTITY GRAPH · NO CONTINUOUS TRAJECTORY

- Arrive, cross, rest, service, return
- A functioning alternative when closed

TWELVE SCENARIOS

AI assists backstage only

- Rest, water, toilet and care
- Shelter, charging and human help
- Repair, night, event, sharing and ledger
- No face, identity or continuous trajectory

DELIVERY

Audit, pilot, then institutionalise

- 0-6 months: facility and accessibility audit
- 6-24 months: repair gaps and open ledger
- 2-5 years: comprehensive hubs
- Ongoing: quarterly public review

METRICS & RECALCULATION

Separate known, unknown and targets

JING-ZHANG CIVIC SUPPORT LINE

RECALCULABLE, NEVER FALSELY PRECISE

Separate geometry evidence from operating targets

EN

FAR / HEIGHT / SETBACKS / OWNERSHIP / UTILITIES = UNKNOWN PENDING OFFICIAL DATA

- Area metrics derive from submitted geometry
- Intensity, ownership and utilities unknown

RISKS & COMMITMENTS

Minimal data, human review, no-phone parity

- Known PROV-KEY-003 mismatch
- AI cannot replace approval or accountability
- Essential service fails safely
- No official approval, funding or delivery claim
