

HER ROUTE

JINGZHANG

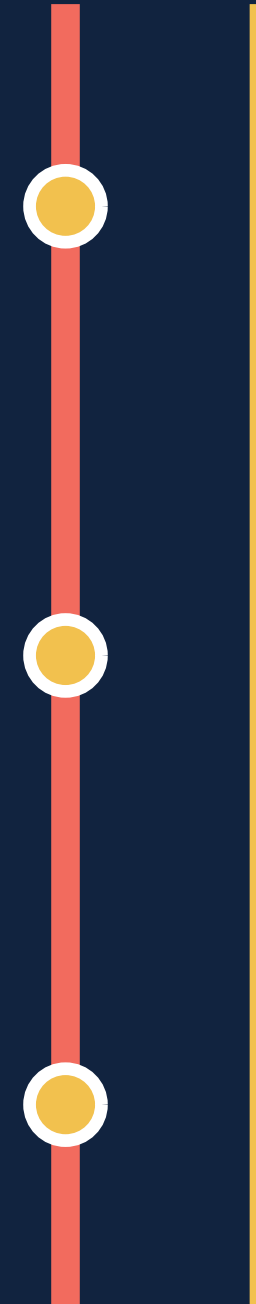

Testing an AI innovation belt through everyday care

HUMAN FALLBACK

EVIDENCE BEFORE EXPANSION

REFUSABLE TECHNOLOGY

BOUNDARY STATUS: PROVISIONAL · SEE ISSUE #1029

A care-first AI district

Refusable technology, equal human service and evidence before expansion.

01 / MASTER IDEA

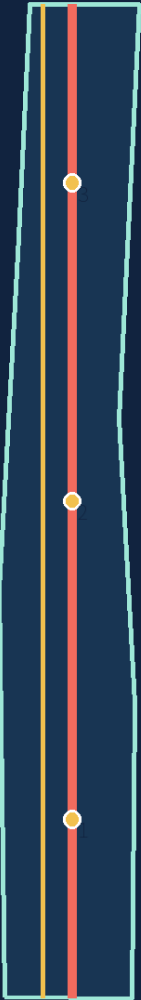

HER ROUTE · JINGZHANG

Let everyday care journeys test the AI district: refusable, offline-capable, human-served and appealable.

- 01 Measure first
No precise promise without field evidence
- 02 Twin service
Digital and human/analog paths run together
- 03 Care stress-test
Test space and algorithms with complex care chains
- 04 Small and reversible
Sandbox, stop rule, review, then scale

边界状态 / BOUNDARY: PROVISIONAL · Issue #1029 positional warning

CONCEPT · PROVISIONAL

Six bands · one care spine

Concept land-use geometry is auditable but not statutory.

02 / LAND USE

SIX PROGRAM BANDS · ONE CARE SPINE

Land-use codes remain auditable; program stories are concepts, never statutory controls.

Σ land-use geometry = 11.413 km² · topology-safe partition

Evidence · community · translation

Three key areas take distinct roles; present polygons remain provisional.

THREE KEY AREAS · THREE VALIDATION ROLES

Counts and announced areas come from the brief; current polygons are provisional and positionally uncertain.

01

ZHONGZHIYUAN

Care-tech evidence campus

192.1 ha announced

Provisional rectangle ≠ official polygon

02

BEIJING AI ORIGIN

Intergenerational talent commons

104.3 ha announced

Provisional rectangle ≠ official polygon

03

DAZHONGSI

Low-threshold venture living room

72.0 ha announced

Provisional rectangle ≠ official polygon

ISSUE #1029

Community review found a material mismatch between the provisional Dazhongsi geometry and its named anchor. This board proves task coverage, not location.

Walk · rest · ask · go phone-free

Two longitudinal paths, six cross-links and three staffed care courts.

04 / MOBILITY + BLUE-GREEN

WALK · REST · ASK · GO PHONE-FREE

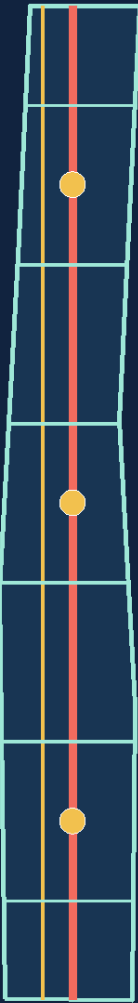

Two longitudinal paths, six care links, three service courts and twelve auditable scenario nodes.

- HER ROUTE care spine
Step-free, staffed, night-legible
- Screen-free parallel route
Paper wayfinding, fixed timetable, human service
- Six care cross-links
Stitch transit, services, green and work lobbies

12 AI scenarios

4 industrial tests · 100% human fallback

CONCEPT · PROVISIONAL

Six personas · twelve scenarios

Personas are field-audit scripts, not fabricated interview results.

01

Caregiver commuting with a child

02

Worker caring for an older relative

03

Wheelchair-using visiting scholar

04

Older resident avoiding smartphones

05

Night cleaner / security / food worker

06

International founder new to local systems

4 INDUSTRIAL TESTS · 8 PUBLIC-SERVICE SCENARIOS

- T1 weak-network navigation

S5 care-chain transfer

S9 shared-equipment queue
- T2 care-robot handover

S6 night lighting

S10 energy advice
- T3 thermal comfort

S7 quiet-space booking

S11 oral-history search
- T4 multilingual service

S8 care matching

S12 public ledger

Measure · connect · review

No precise cost or statutory promise without verified quantities and controls.

2026–27

MEASURE

Field audits, paper wayfinding, three temporary care courts and four industrial tests.

2028–30

CONNECT

Six cross-links, shaded green loop, shared lobbies and public project ledger.

2031+

REVIEW

Structural work only after official planning, ownership, engineering and operating agreements.

Public baseline

Human takeover

Equal analog path

Published failure

Executable stop rule

Primary sources · named gaps

One claim, one traceable chain, one named uncertainty.

PRIMARY SOURCES

- 01 Official Beijing announcement / site package
- 02 Vienna gender-mainstreaming planning
- 03 Barcelona Play Plan Horizon 2030
- 04 Helsinki Kalasatama living lab
- 05 Singapore Punggol Digital District
- 06 Waterfront Toronto digital governance

- 08 Mila Mile-Ex ecosystem · UN Women Safe Cities

PENDING EVIDENCE

- Official site and key-area vectors
- FAR / height / coverage / road redlines
- Existing buildings, ownership and utilities
- Local care-chain field audits
- Project-level data and algorithm rules
- Verified quantities and lifecycle cost

All present polygons are provisional. Issue #1029 reports a material positional mismatch. This package is not statutory planning, engineering design, legal advice or public consultation.
