

JINGZHANG STACK · Site Overview

JINGZHANG STACK — Key Metrics			
All values recomputed from submitted provisional geometry (EPSG:4548)			
Site area (overall design)	11,412,825 m²	11.41 km²	high
Coordinated research scope	43,600,000 m²	43.60 km²	announcement
Key detailed design total	3,684,000 m²	368.40 ha	sum of key areas
L0 Zhongzhiyuan	1,929,202 m²	192.92 ha	medium
L1 AI Origin Community	1,043,237 m²	104.32 ha	medium
L2 Dazhongqi	720,454 m²	72.05 ha	medium
Green space ratio	2,987,697 m²	26.18%	medium
Public space ratio	939,020 m²	8.23%	medium
Road centerline length	25,891 m	25.89 km	low
Heritage spine length	19,800 m	19.80 km	low
Conceptual buildings	20	20 footprints	low
AI scenario cards / personas	12 / 6	12 cards · 6 personas	package
Pilgrimage landmarks	4	4 landmarks	package

PROVISIONAL boundary — concept discussion only; recompute when official polygons are published.

Key Areas · Systems & Support

Three-level scope: 43.6 km² research → 11.4 km² overall design → 368.4 ha key areas. L0 Zhongzhiyuan 192.9 ha (compute & root tech), L1 AI Origin Community 104.3 ha (models & open source), L2 Dazhongsi 72.0 ha (scenarios & applications). Two wings: Zhongguancun tech-service wing and Xiaoyuehe scenario wing. 12 AI scenario cards, 6 personas, 4 pilgrimage landmarks. Task / standard / depth matrices complete.
