

FROM THE JINGZHANG RAILWAY TO A PUBLIC AI CITY ROUTE

One route, one story: test the tool; translate it for people; return public feedback to the start.

01 TEST

The public can see the boundary and reach a human.

02 TRANSLATE

A method can be learned, shared and taken away.

03 RETURN

A question gets a response, repair path or pause.

01 THREE HISTORICAL MOVES BECOME THREE SPATIAL ACTIONS

The proposal does not copy stations, bells or heritage buildings. It translates public know-how.

1905–1909

ENGINEERING

Survey, build and coordinate.

Floor rulers, visible joints, replaceable test benches.

2019–2020

SYSTEM

Coordinate construction, equipment and operation.

Continuous edges, canopies and a platform for learning.

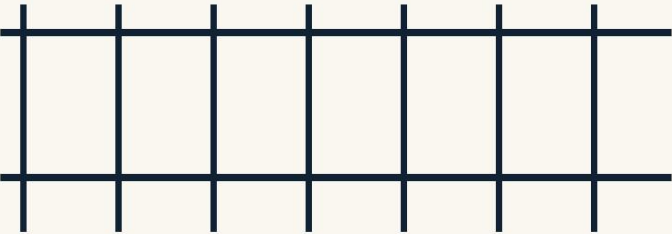

AI ERA

ECHO

Be heard, understood, answered and able to opt out.

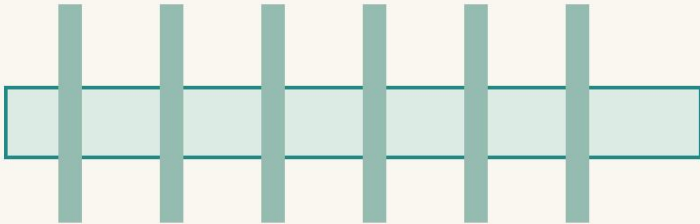

Concentric ground, an acoustic canopy and visible response.

VISIBLE SPATIAL GRAMMAR

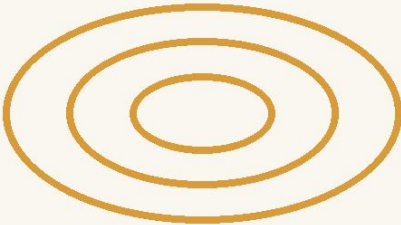

ENGINEERING RULER

Parallel steel ribs and a readable test table make responsibility visible.

LEARNING PLATFORM

A covered edge supports waiting, explanation, co-learning and departure.

ECHO COURT

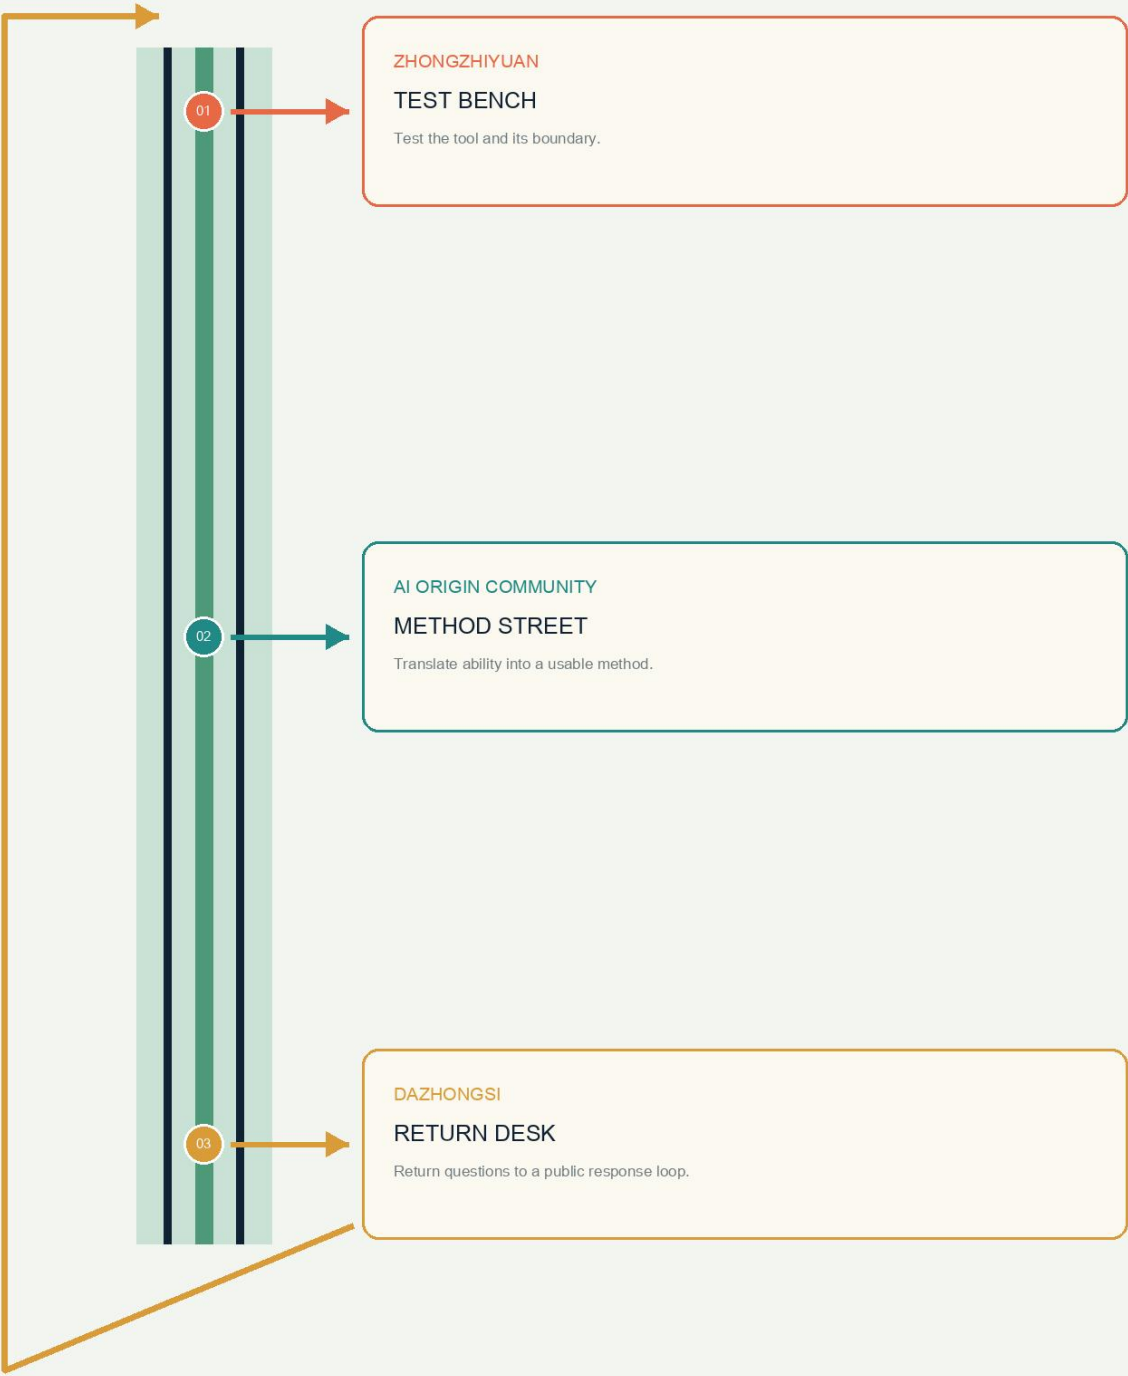

A concentric public room makes feedback a shared civic service.

02 ONE PUBLIC-CAPABILITY LINE, NOT AN AI DISPLAY CORRIDOR

A conceptual north-centre-south relation map. It makes no claim about exact roads, parcels or boundaries.

CONCEPTUAL ROUTE / NORTH → SOUTH

THE RETURN LOOP: continue, revise or pause.

FIVE MEMORY POINTS

A TOOL TEST TABLE

01

See limits before you begin.

B READABLE TOOL WALL

01 → 02

Read responsibility in plain language.

C METHOD LIBRARY

02

Take away steps, not an account.

D OPEN WORKTABLE

02

Learn and repair with people.

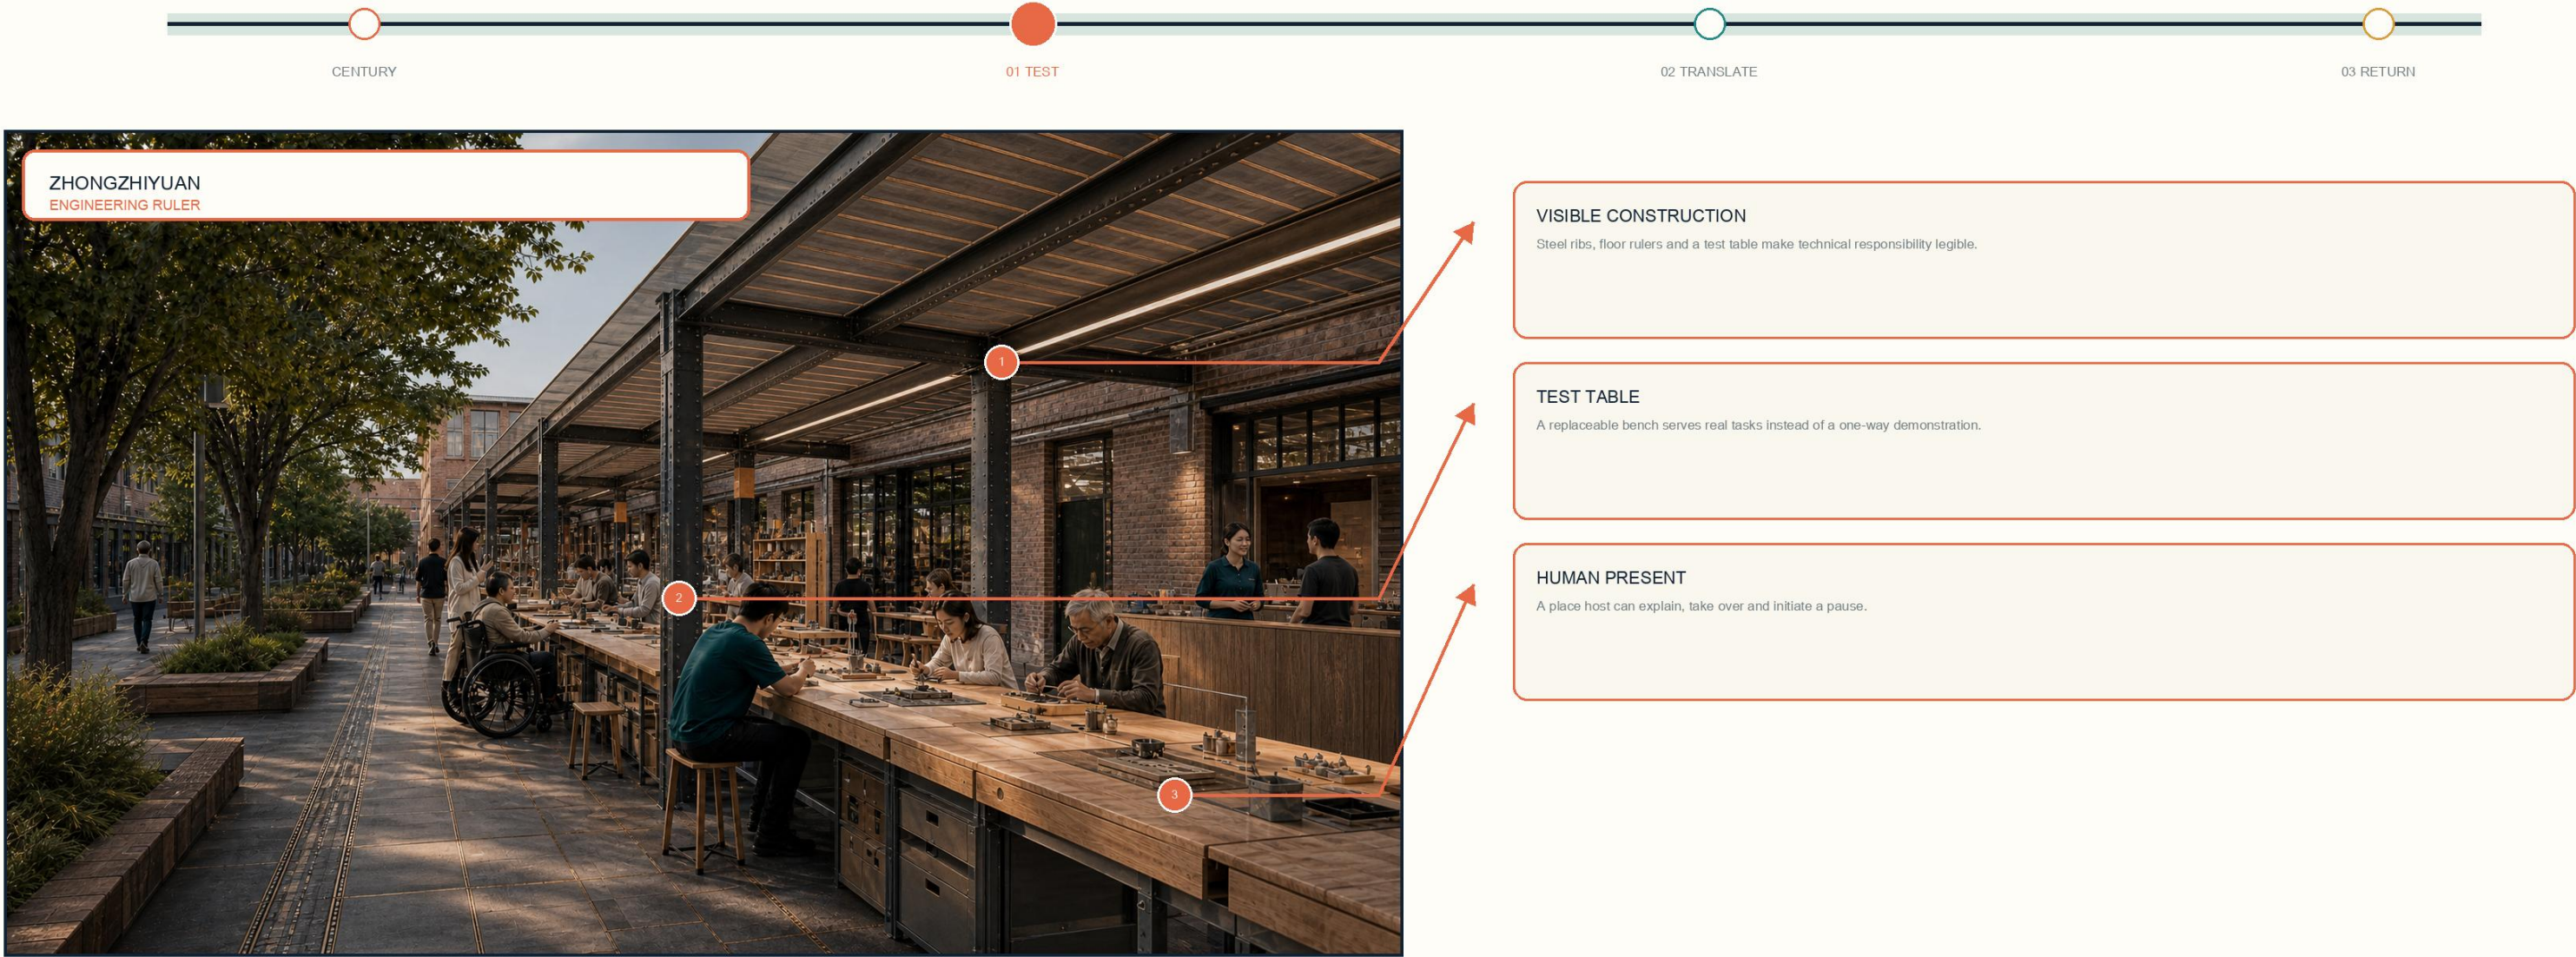

E RETURN RECEIPT SHELTER

03

Get a response, revision or pause.

03 ZHONGZHIYUAN: ENGINEERING RULER

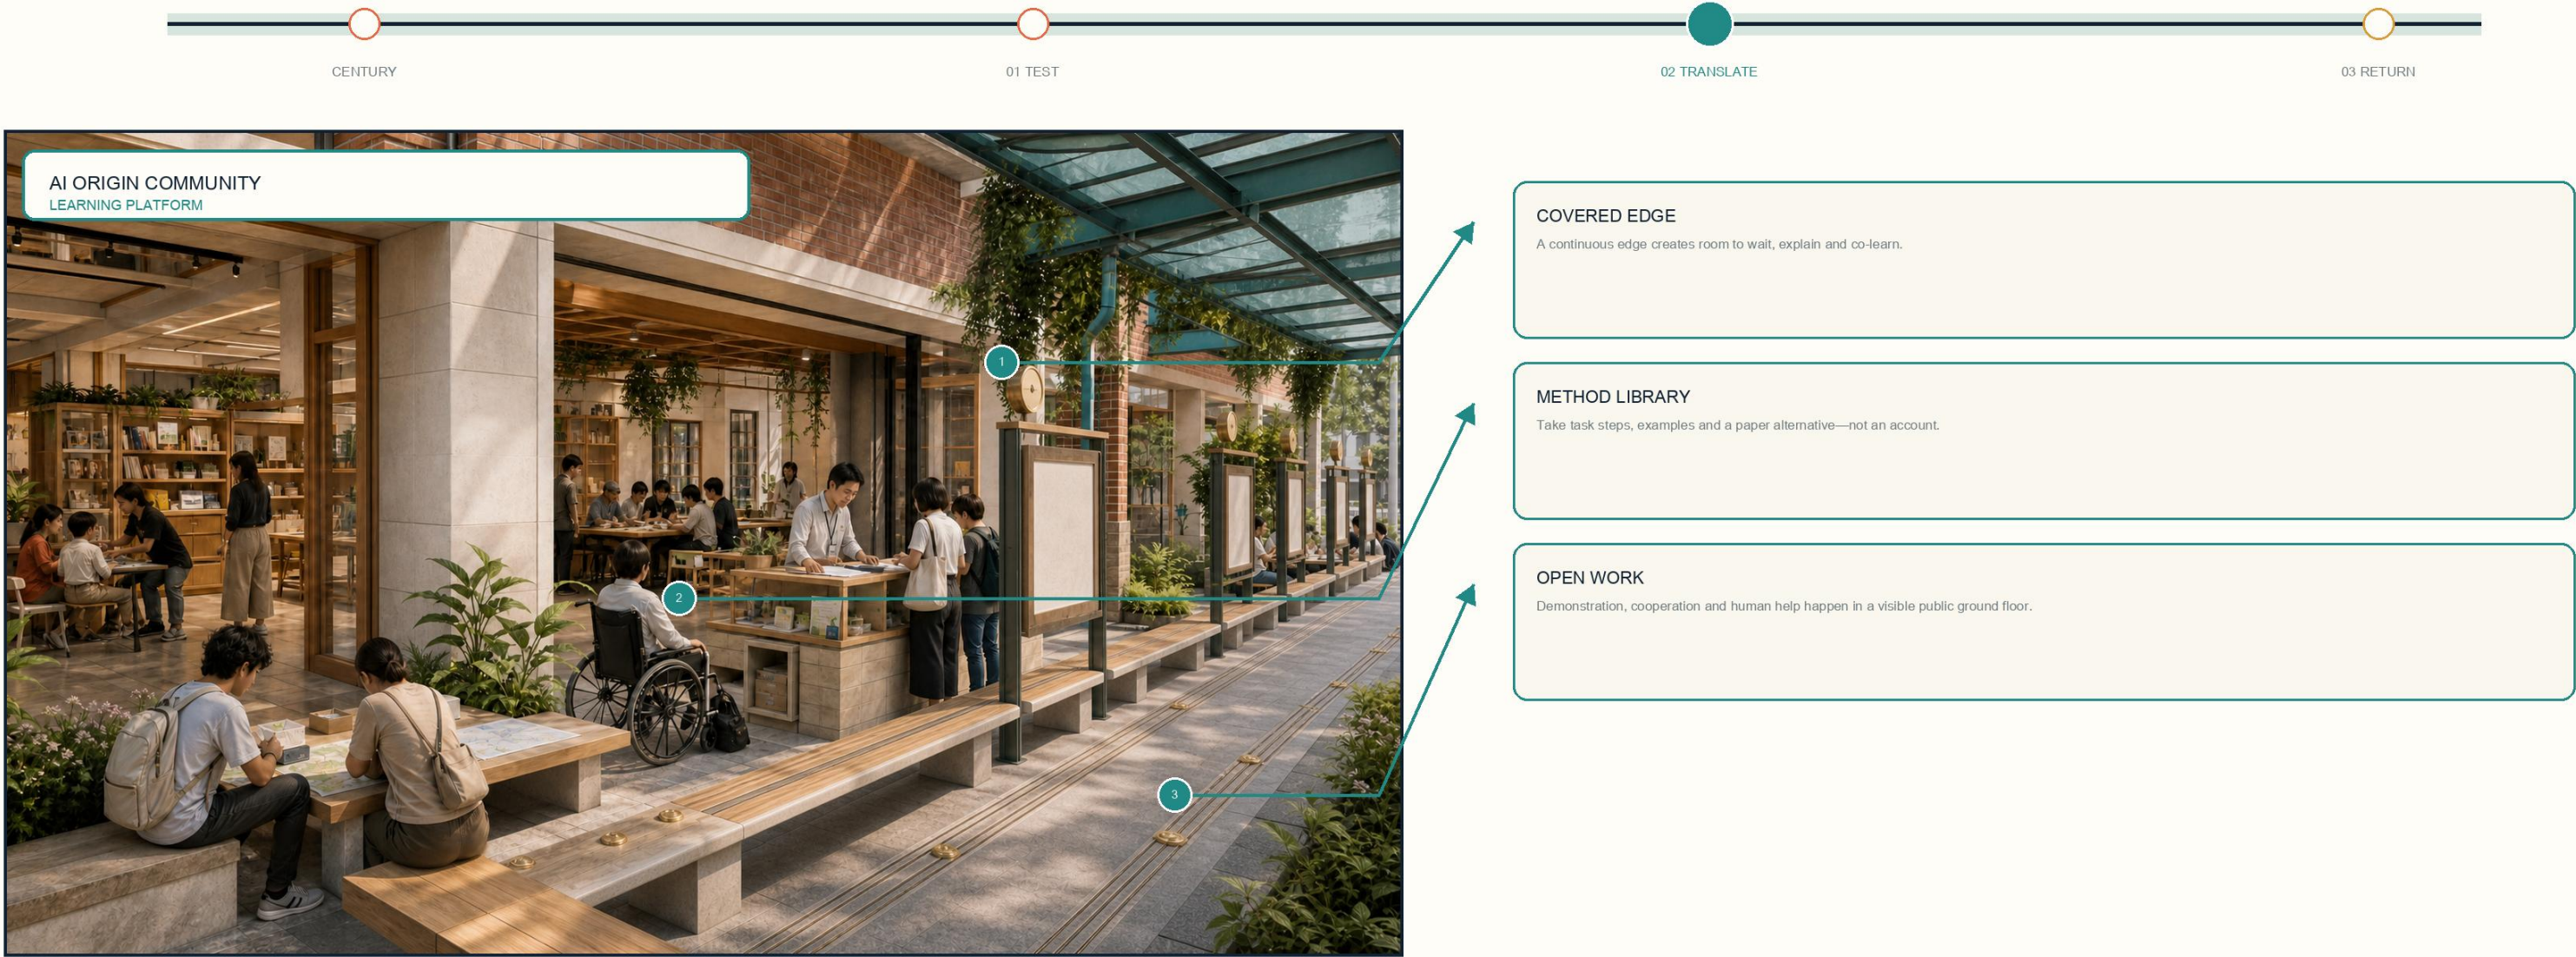

Test before opening: people first see the tool, its boundary and a human fallback.

A public tool begins with a visible boundary.

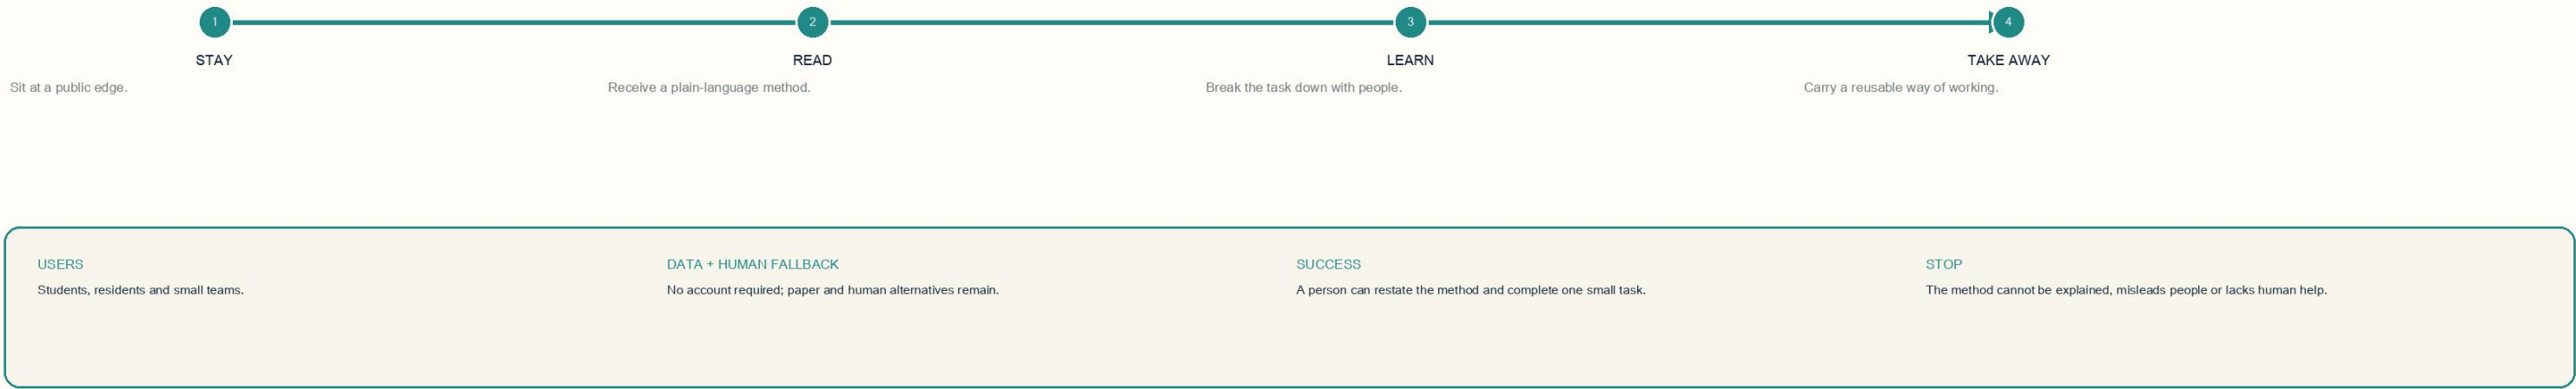

ONE VISIT, STEP BY STEP

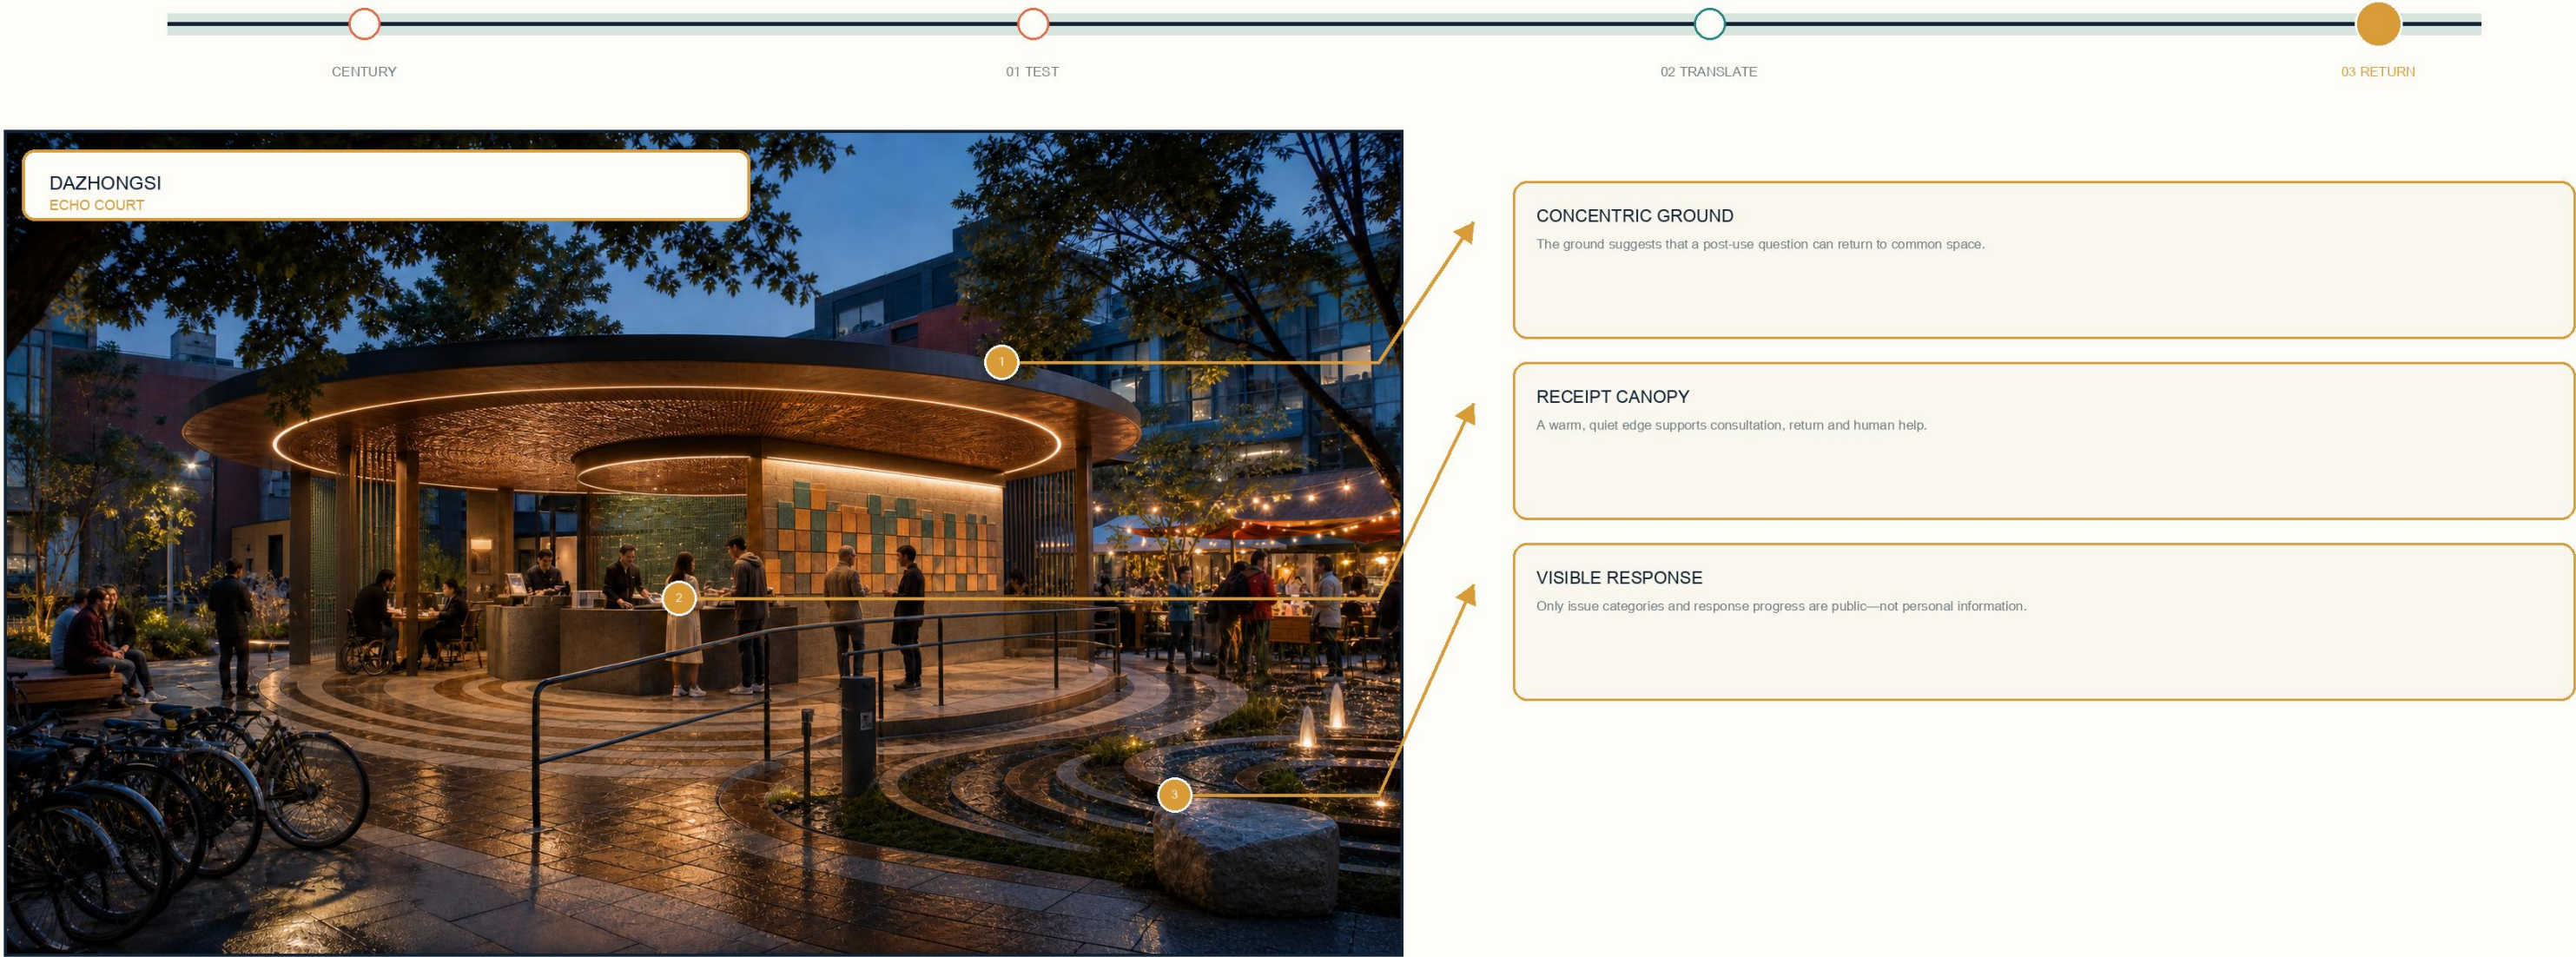

A platform is a public edge for explanation and departure.

ONE VISIT, STEP BY STEP

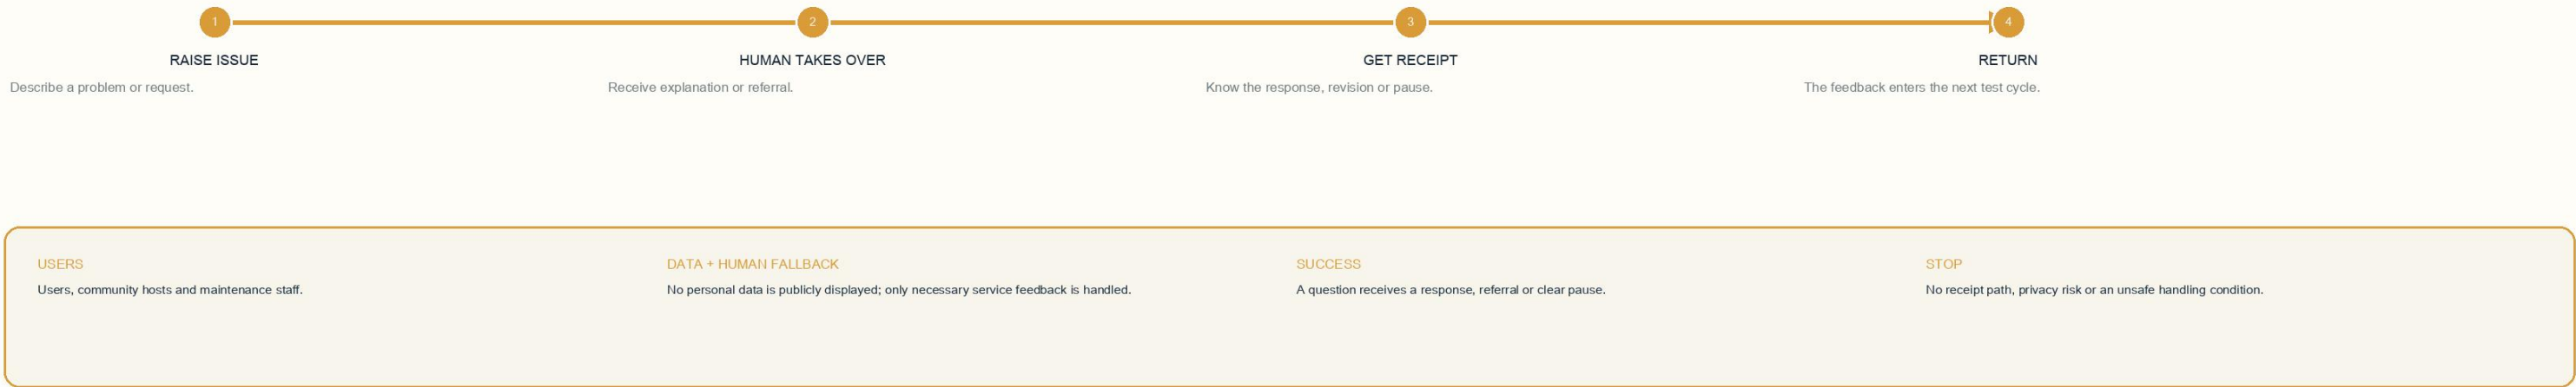

05 DAZHONGSI: ECHO COURT

Return before iteration: feedback is the next civic service, not the end of a form.

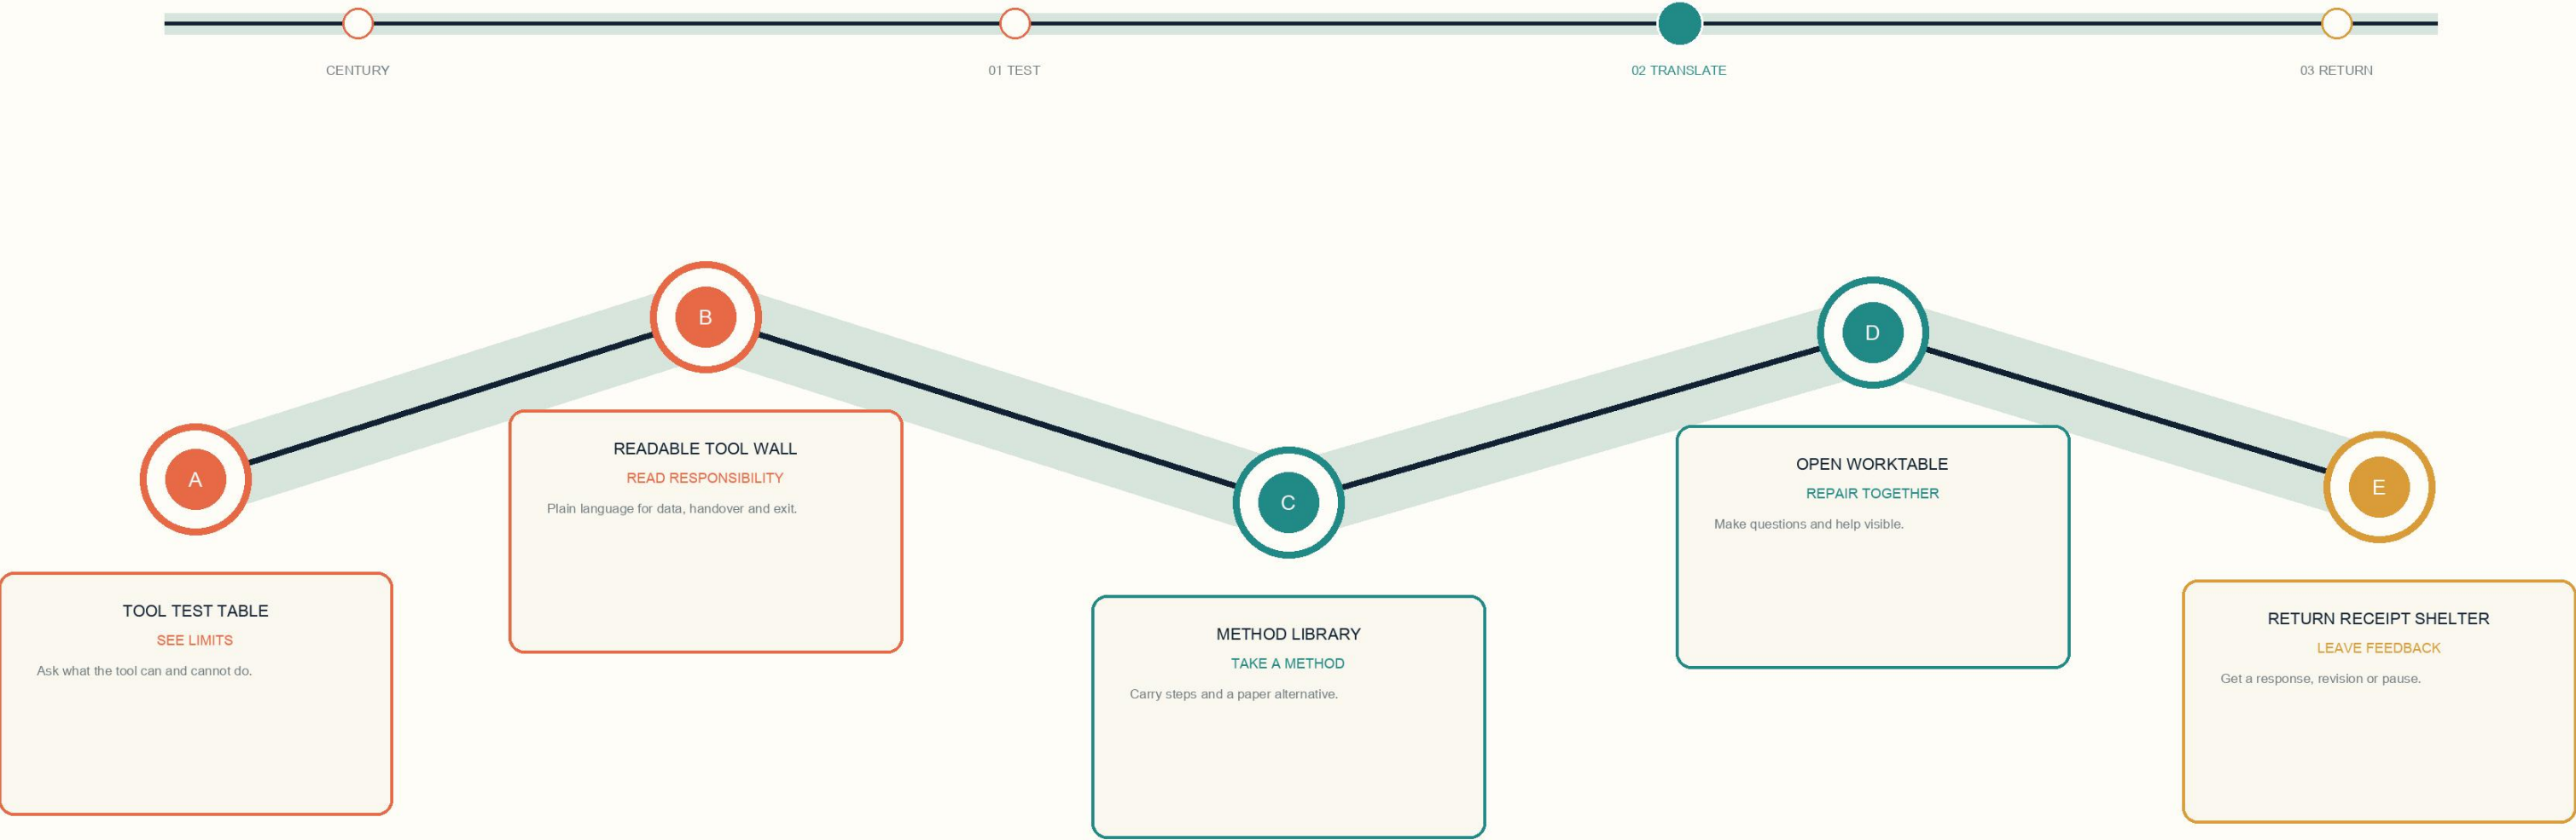

An echo is being heard, understood and answered—not a copied historic icon.

ONE VISIT, STEP BY STEP

06 FIVE MEMORY POINTS MAKE TRUSTWORTHY AI WALKABLE

Each point joins a spatial action to a human action and an outcome.

FOUR PUBLIC RIGHTS THE ROUTE MUST DELIVER

- 1 ENTER**
No single device, account or skill barrier.
- 2 UNDERSTAND**
Plain language, paper and human explanation.
- 3 REFUSE**
Leave, use an offline path or ask for a human.
- 4 RETURN**
Feedback gets a response and may trigger a pause.

07 OPERATE A FEEDBACK LOOP, NOT A ONE-OFF EXPERIENCE

Every pilot names a responsible role, human fallback, evidence of value and a stopping condition.
