

EVO-RAIL Jing-Zhang

Beijing • Haidian • Jing-Zhang Heritage Park Belt — Evolvable AI city belt (conceptual / provisional)

EVO-RAIL — Site Overview & Spatial Structure

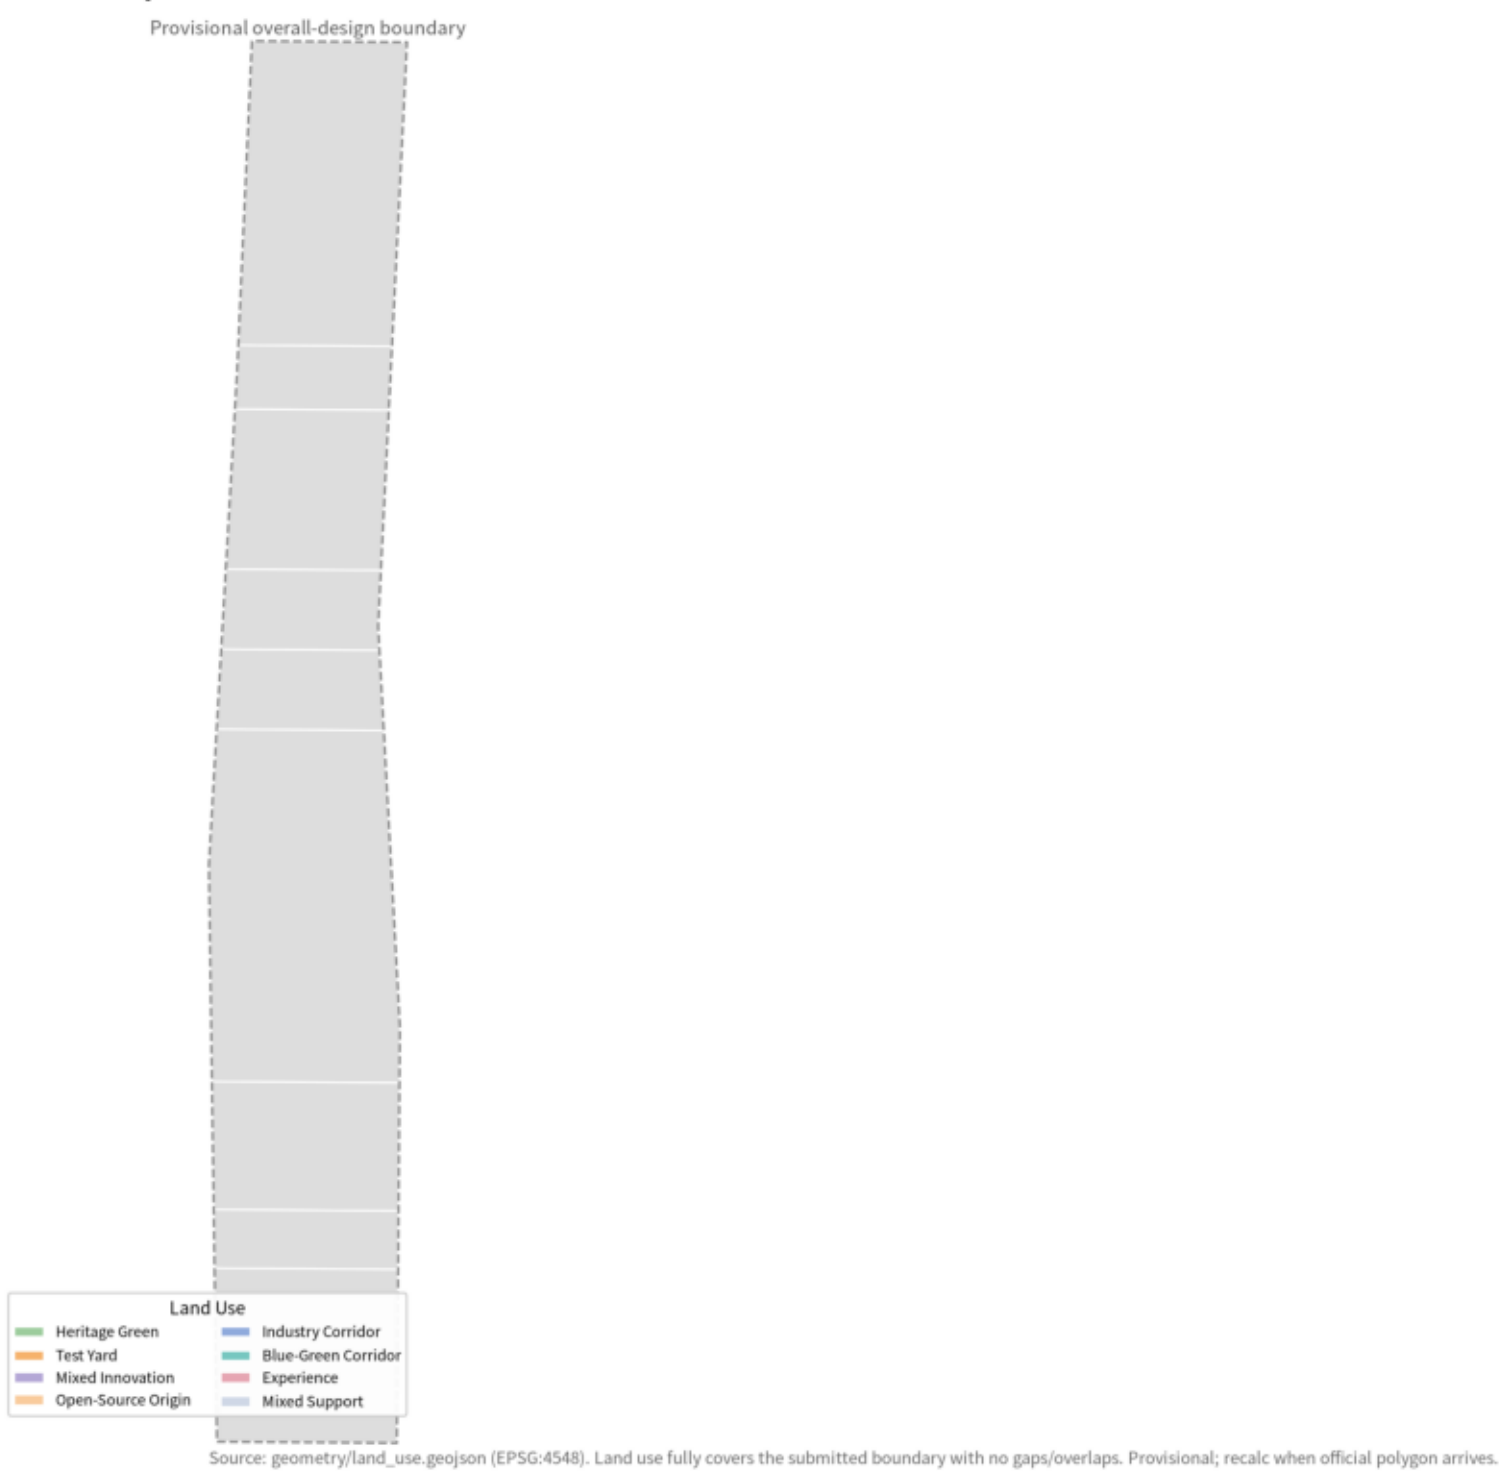

Site overview & spatial structure: one belt, three stations, one track spine

EVO-RAIL Jing-Zhang

Beijing • Haidian • Jing-Zhang Heritage Park Belt — Evolvable AI city belt (conceptual / provisional)

Three Scopes • Evo-Track Land-Use Zones

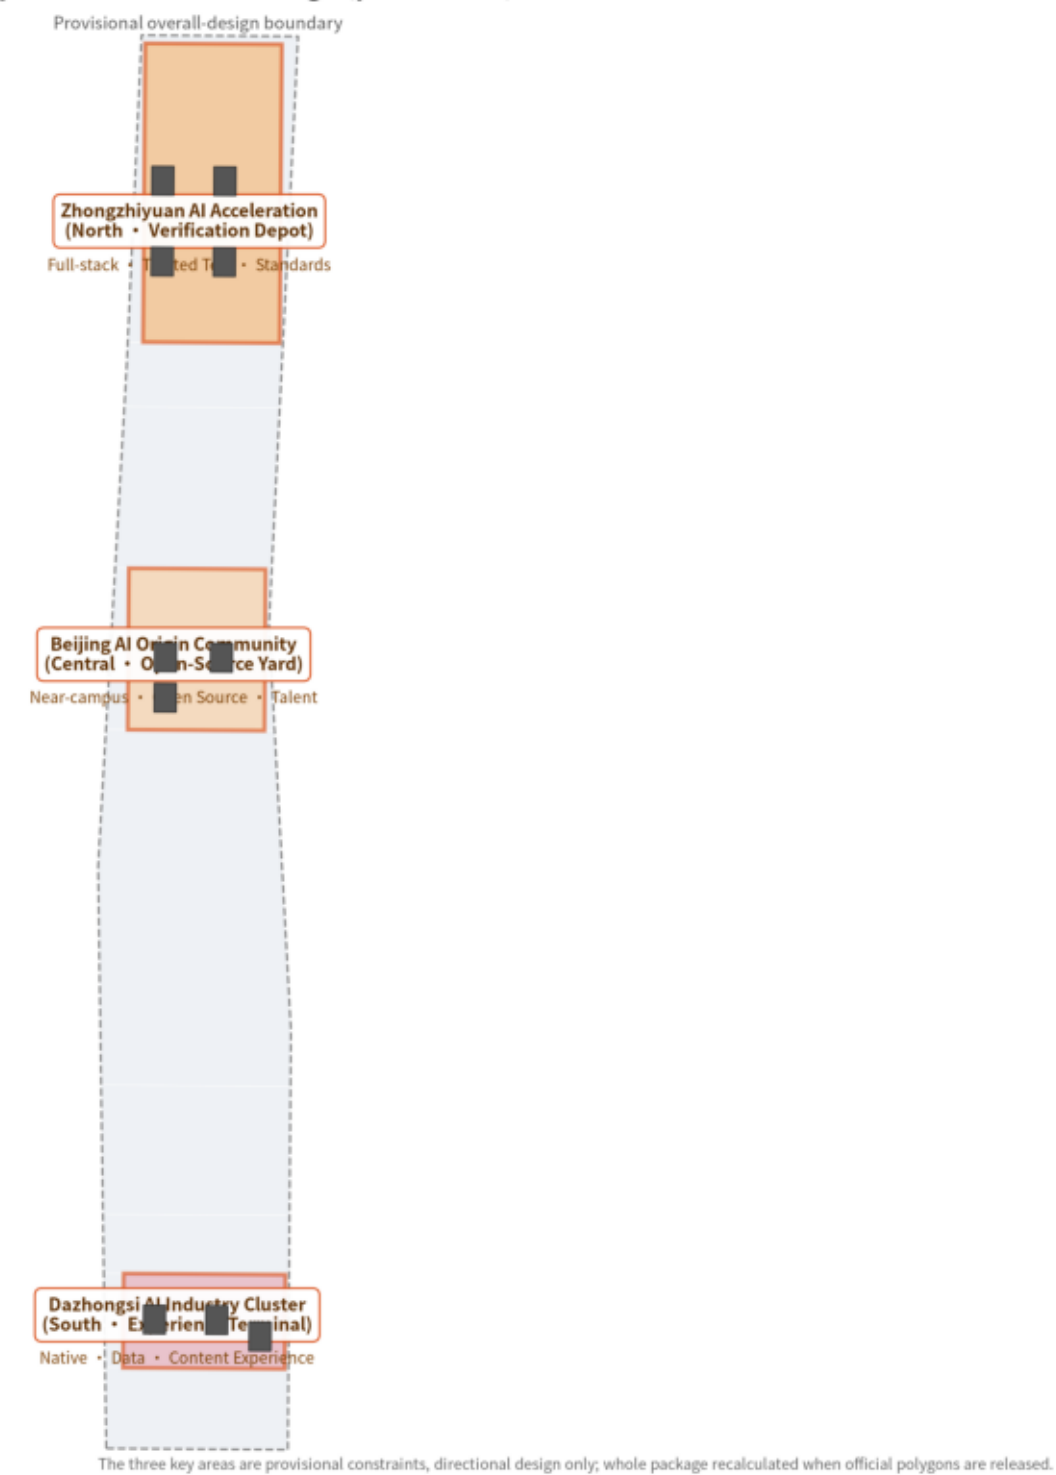

Three scopes & land-use structure: 43.6 / 11.4 km² / 368.4 ha

EVO-RAIL Jing-Zhang

Beijing • Haidian • Jing-Zhang Heritage Park Belt — Evolvable AI city belt (conceptual / provisional)

Three Key Areas • Detailed Design (provisional)

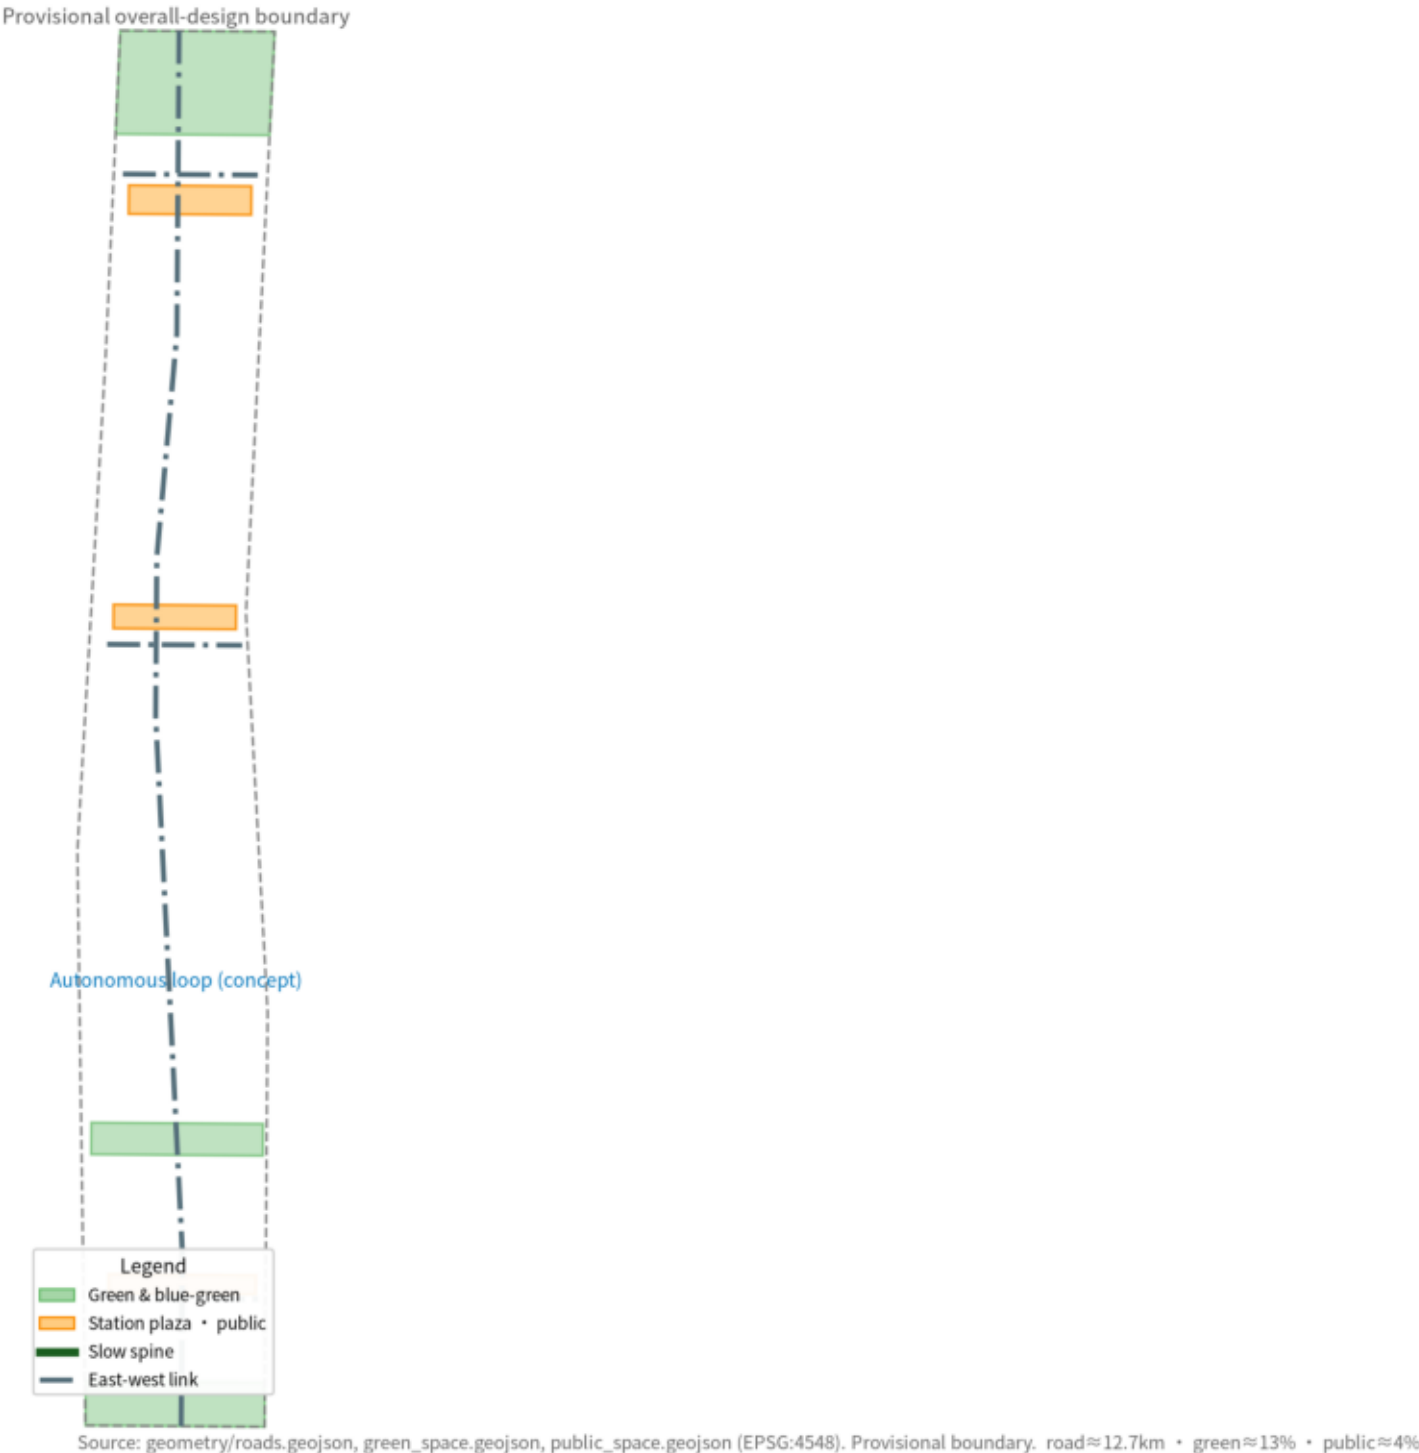

Three key areas • detailed design (provisional)

EVO-RAIL Jing-Zhang

Beijing • Haidian • Jing-Zhang Heritage Park Belt — Evolvable AI city belt (conceptual / provisional)

Mobility • Blue-Green Public Space Network

Mobility & blue-green public space network

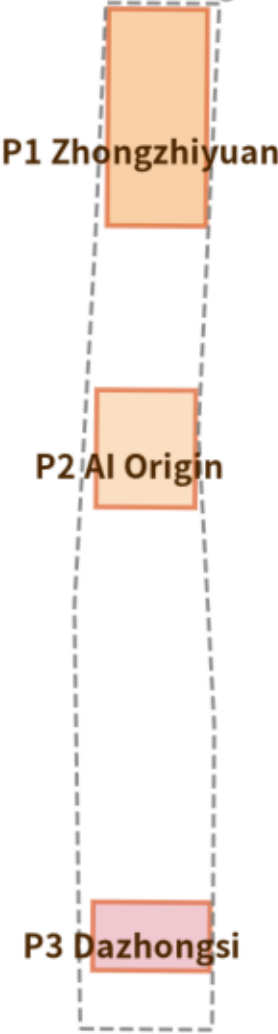

EVO-RAIL Jing-Zhang

Beijing • Haidian • Jing-Zhang Heritage Park Belt — Evolvable AI city belt (conceptual / provisional)

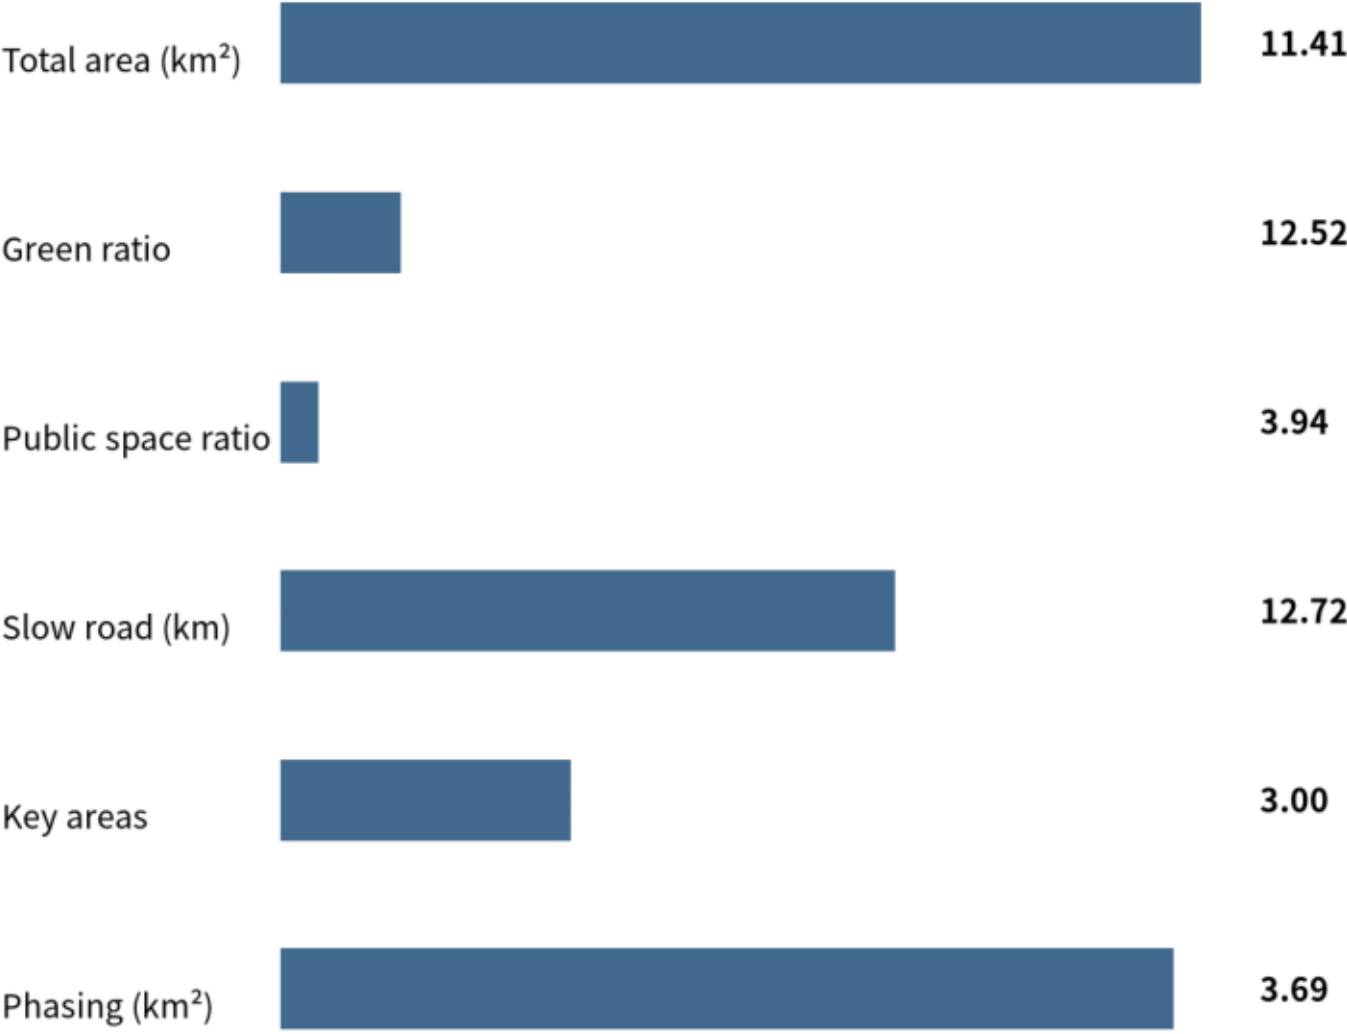

Metrics Evidence Chain & Phasing EVO-RAIL

Phasing (three-track order)

Provisional overall-design boundary

Core Metrics • Task Coverage

Coverage: 3 positioning / 5 functions / 6 tasks / 15 scenario cards / 5 personas / 3 landmarks / 3 phases (agent.1–6 fully covered)

Metrics evidence chain & three-phase implementation

EVO-RAIL Jing-Zhang

Beijing • Haidian • Jing-Zhang Heritage Park Belt — Evolvable AI city belt (conceptual / provisional)

EVO-RAIL Proposal Booklet

Conceptual suggestion / reference / for professional deepening

Overall concept: re-read the century-old Jing-Zhang Railway as a living, self-upgrading urban track system.

Three positioning: Cultural Belt • Urban AI Life Experience Belt • AI Fusion Innovation Belt.

Five functions: full-stack autonomy • world-class ecosystem • AI+ empowerment • smart vibrant city • governance voice.

Three areas two wings: Zhongzhiyuan (verify) • AI Origin (open source) • Dazhongsi (experience) + Zhongguancun service wing, Xiaoyuehe scenario wing.

Outputs: 15 AI scenario cards • 5 personas • 3 pilgrimage landmarks • three phases.

Boundary: provisional boundary, does not replace formal planning; whole package recalculated when official polygons are released.
