

Centennial Jing-Zhang AI Innovation Belt

Jing-Zhang AI Greenway

Micro-Renewal · Strong Links · Youth-Friendly

Design Overview

Design Philosophy: "Micro-Renewal, Strong Links" — youth-oriented urban regeneration along the 9km Jing-Zhang Railway Heritage Park green corridor.

Core Metrics:

- Overall Design Scope: 11.4 km² (site) + 43.6 km² (study area)
- Key Area Scope: 368.4 ha (three zones)
- Retained Buildings: 15 buildings + 5 parks
- Renovated Spaces: 8 (ground-floor grey spaces + interface upgrades)
- New Facilities: 11 (6 standalone + 5 ancillary)
- Jing-Zhang Greenway: 9km continuous slow-traffic
- New Skatepark Area: 3,500 m²
- New Pet-Friendly Area: 2,100 m²

Spatial Structure: One Belt · Three Cores · Multi-Node Scenarios · Blue-Green Loop

- Belt: Jing-Zhang Greenway 9km main axis
- Three Cores: Zhongzhiyuan (N) · Wudaokou (C) · Dazhongsi (S)
- Multi-Node: 10 AI scenario cards across all zones
- Blue-Green: Qinghe-Xiaoyue Rivers + Greenway + Rain Garden network

Total Projects: 19 (10 light-touch pilots / 7 requiring special论证 / 2 dependent on official data)

Phasing: Near-term greenway connection (0-2yr) → Mid-term facility construction (2-5yr) → Long-term brand operations (5yr+)

North: Zhongzhiyuan AI Innovation Acceleration Zone

- Strategy: Retain 5 buildings, optimize ground-floor grey spaces

Zone 1/3 — See proposal.md for full details

All new structures are lightweight single-story, no large-scale demolition

Central: Wudaokou AI Origin Community

- Strategy: "Three Lanes + One Green" main axis — cycle/run/walk + youth lawn

Zone 2/3 — See proposal.md for full details

All new structures are lightweight single-story, no large-scale demolition

South: Dazhongsi AI Industry Cluster Zone

- Strategy: Fully retain sports park & Shunxinyuan, add cultural驿站 and sports upgrades

Zone 3/3 — See proposal.md for full details
All new structures are lightweight single-story, no large-scale demolition

Implementation Plan

Near-term (0-2yr):	Greenway connection + pocket facilities + activation (JZ-01~JZ-07)
Mid-term (2-5yr):	Ground-floor upgrades + permanent facilities + cultural nodes (JZ-08~JZ-14)
Long-term (5yr+):	System integration + brand operations (JZ-15~JZ-19)
