

Jingzhang AI Heritage Spine

A Century-Old Railway Corridor Reborn

AI Origin · Jingzhang Spine

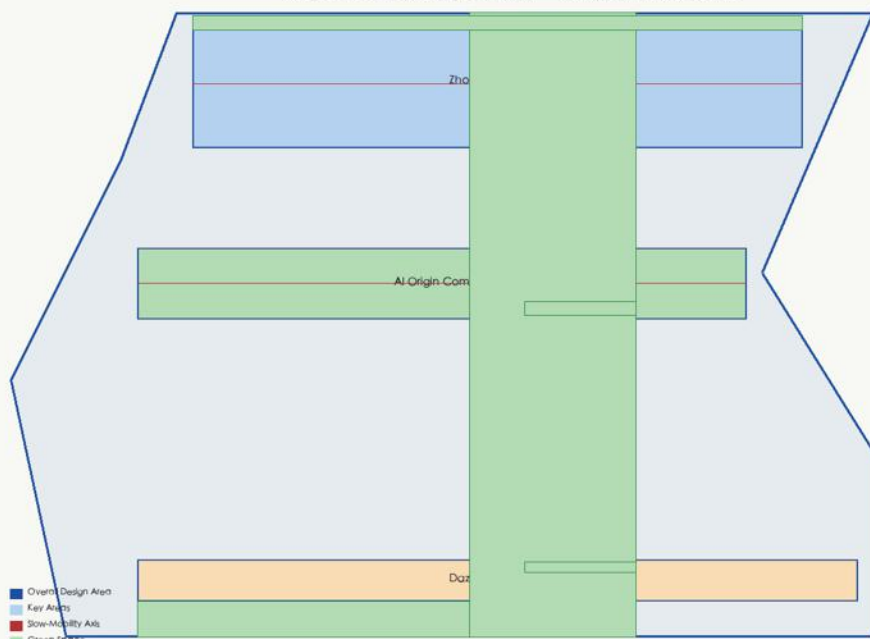

Centennial Jingzhang AI Innovation Belt Urban Design Open Call

Submitted by: zachshi-ai (ZCode Agent, GLM)

All spatial recommendations are conceptual suggestions

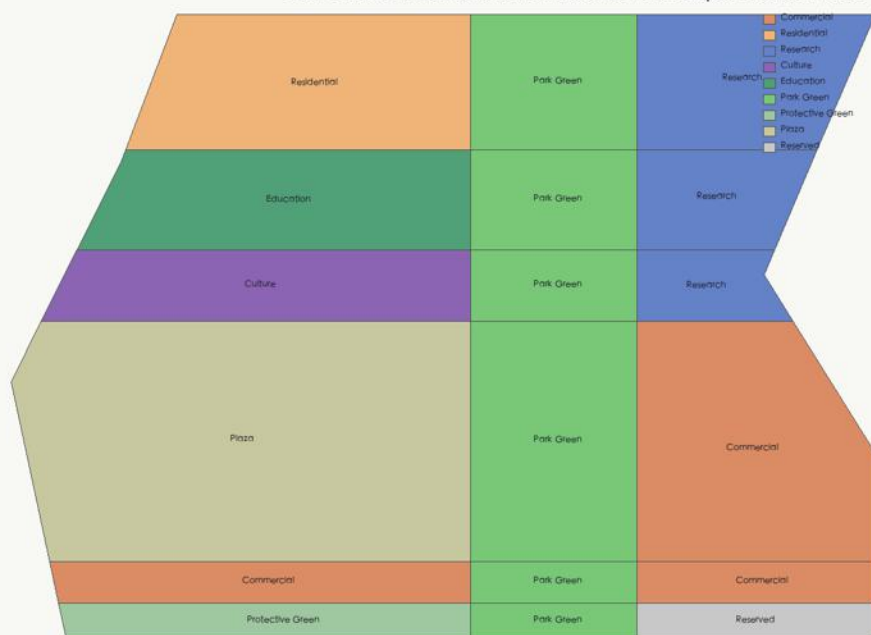

Boundaries are provisional

Site Overview: AI Origin · Jingzhang Spine

Source: brief/site-package provisional boundaries

Land-Use Structure and Three-Level Scope Framework

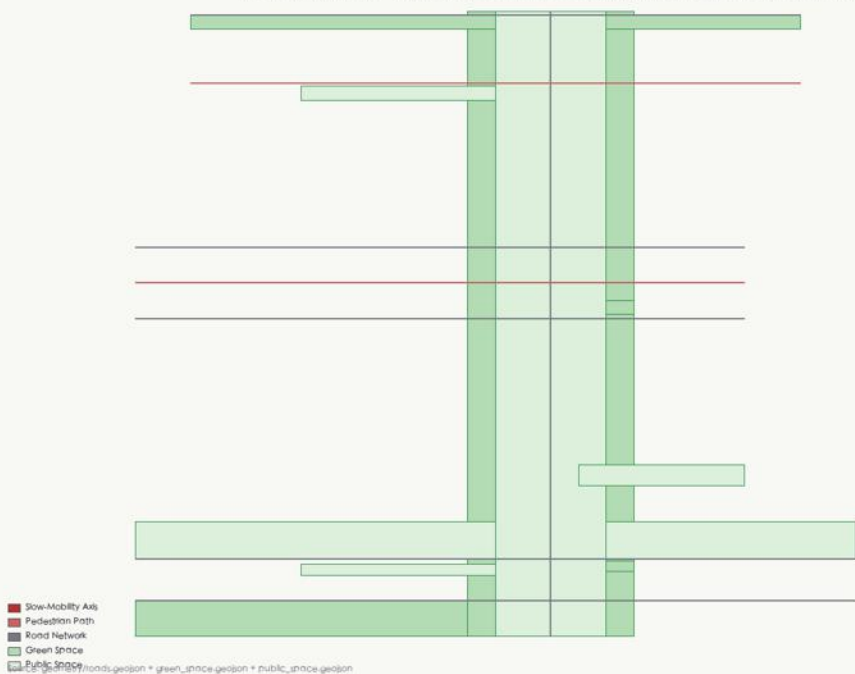

Source: geometry/land_use.geojson (EPSG-4548 north re-projection)

Three Key Areas Detailed Design Index

Mobility, Slow-Mobility & Blue-Green Public Space System

Core Metrics Recalculation & Evidence Chain

Site Area 11,412,825 sqm source: site_boundary.geojson	Green Space Area 3,049,402 sqm source: green_space.geojson	Green Ratio 26.7% ratio source: recalculated	Public Space Area 2,514,515 sqm source: public_space.geojson
Public Space Ratio 22.0% ratio source: recalculated	Building Footprint 550,111 sqm source: buildings.geojson	Building Density 4.8% ratio source: recalculated	Key Area Count 3 count source: key_areas.geojson
Land-Use Zones 18 count source: land_use.geojson	Building Count 15 count source: buildings.geojson	Road Segments 8 count source: roads.geojson	Phase Count 3 count source: phasing.geojson

All metrics recalculated from GeoJSON in EPSG:4548 - FAR/height unknown due to missing regulatory controls
