

Overall concept and evidence boundary

REAL PROBLEM • CONTROLLED PROTOTYPE • LIMITED VALIDATION • PUBLIC REVIEW

JINGZHANG OPEN MARKET LINE

RAIL DEPARTURE × OPEN MARKET × OPEN-SOURCE CITY

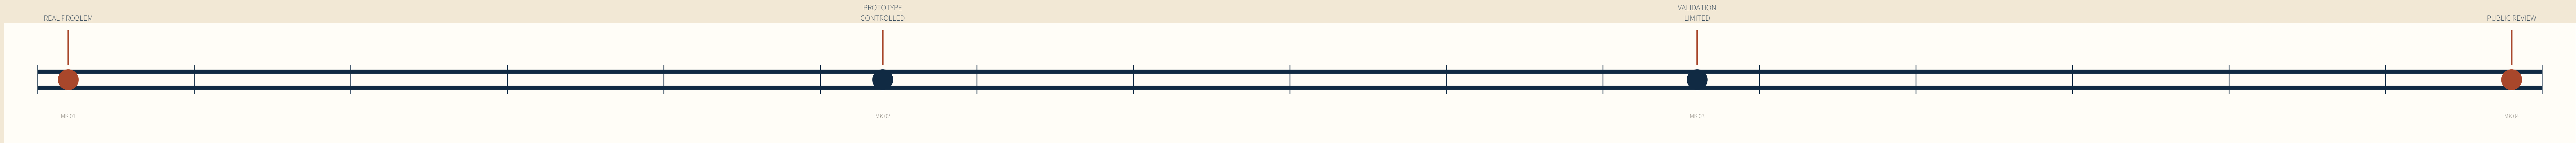

OPEN / 可拒绝 • STOP / 可停止 • EXIT / 可退出 • HUMAN / 人工决定

01 The Dazhongsi polygon is not shifted.

02 Issue 1029 records an approximately 2.26 km public location discrepancy between the provisional Dazhongsi key-area polygon and Dazhongsi Station.

03 Before an official boundary is published, this proposal makes no setback, scale or engineering calculation from that relationship.

PUBLIC RIGHT / 公共权利

HUMAN DECISION • REFUSAL • STOP • EXIT

KNOWN / 已知

AREA • RATIO • LENGTH • COUNT

UNKNOWN / 未知

FAR • HEIGHT • DENSITY • RENT • FUNDING

One spine, three markets, two wings

PUBLIC SPINE • PROTOTYPE MARKET • CO-CREATE MARKET • FIRST ORDER

ONE SPINE • THREE MARKETS • TWO WINGS • TWELVE SHOPS

Provisional geometry stays quiet; the operating mechanism leads.

TECH SERVICE
科技服务翼

ZHONGZHIYUAN
PROTOTYPE

AI ORIGIN
CO-CREATE

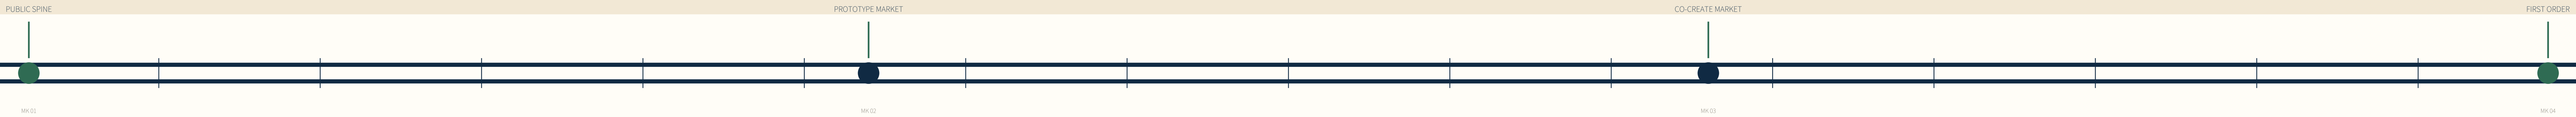

DAZHONGSI
FIRST ORDER

SCENARIO
场景赋能翼

01 A street-level problem enters through a staffed need desk, receives legal, standards and talent support through the service wing, proceeds to a controlled prototype, is publicly explained in the co-creation market and receives a small, stoppable validation in the first-order

02 Outcomes return to an annual public ledger, including failed prototypes.

03 Any scale, revenue or policy commitment that cannot be recomputed from submitted evidence remains unknown.

PUBLIC RIGHT / 公共权利

HUMAN DECISION • REFUSAL • STOP • EXIT

KNOWN / 已知

AREA • RATIO • LENGTH • COUNT

UNKNOWN / 未知

FAR • HEIGHT • DENSITY • RENT • FUNDING

Three key areas

LIMITED TEST • MULTILINGUAL SUPPORT • STAFFED APPEAL • LOCATION DISPUTE

THREE KEY AREAS

Dazhongsi provisional location dispute: about 2.26 km; no self-translation

ZHONGZHIYUAN PROTOTYPE

- SYNTHETIC DATA
- EDGE / ROBOT
- HUMAN TAKEOVER

AI ORIGIN CO-CREATE

- NEED DESK
- IP + DATA CLINIC
- EXPLAINABILITY

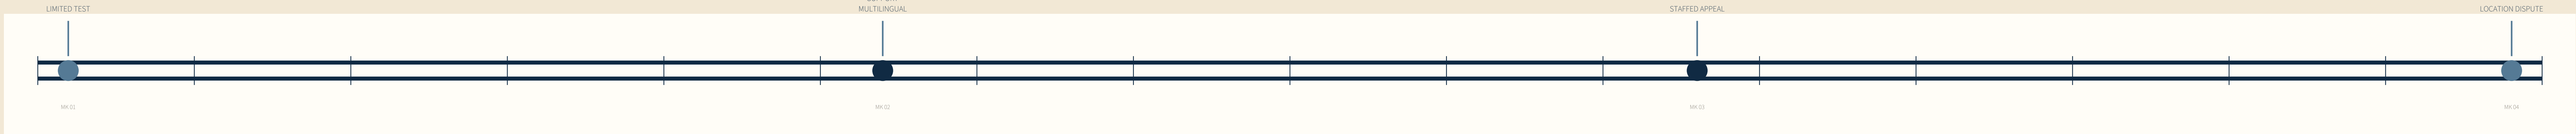

DAZHONGSI FIRST ORDER

- LIMITED TEST
- MULTILINGUAL
- APPEAL WINDOW

01 It is not an automation showcase but a controlled test space that exposes safety, standards and operational-maintenance problems while retaining human intervention.

02 The AI Origin Co-creation Market combines an enterprise clinic, staffed merchant need desk, IP and data clinic, and explanation workshops for young people and researchers.

03 Teams must explain in plain language what a prototype does, what it does not do, which data it uses and who can stop it.

PUBLIC RIGHT / 公共权利

HUMAN DECISION • REFUSAL • STOP • EXIT

KNOWN / 已知

AREA • RATIO • LENGTH • COUNT

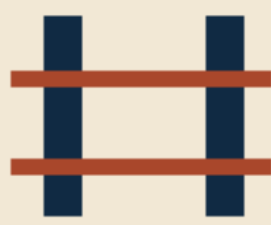

UNKNOWN / 未知

FAR • HEIGHT • DENSITY • RENT • FUNDING

Twelve shops and seven personas

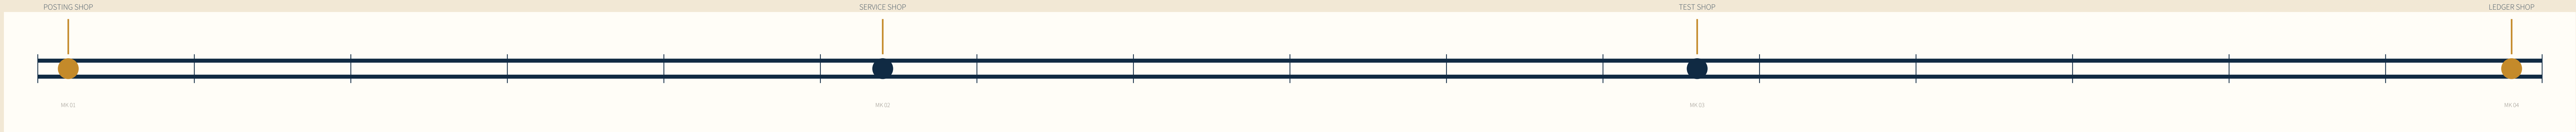

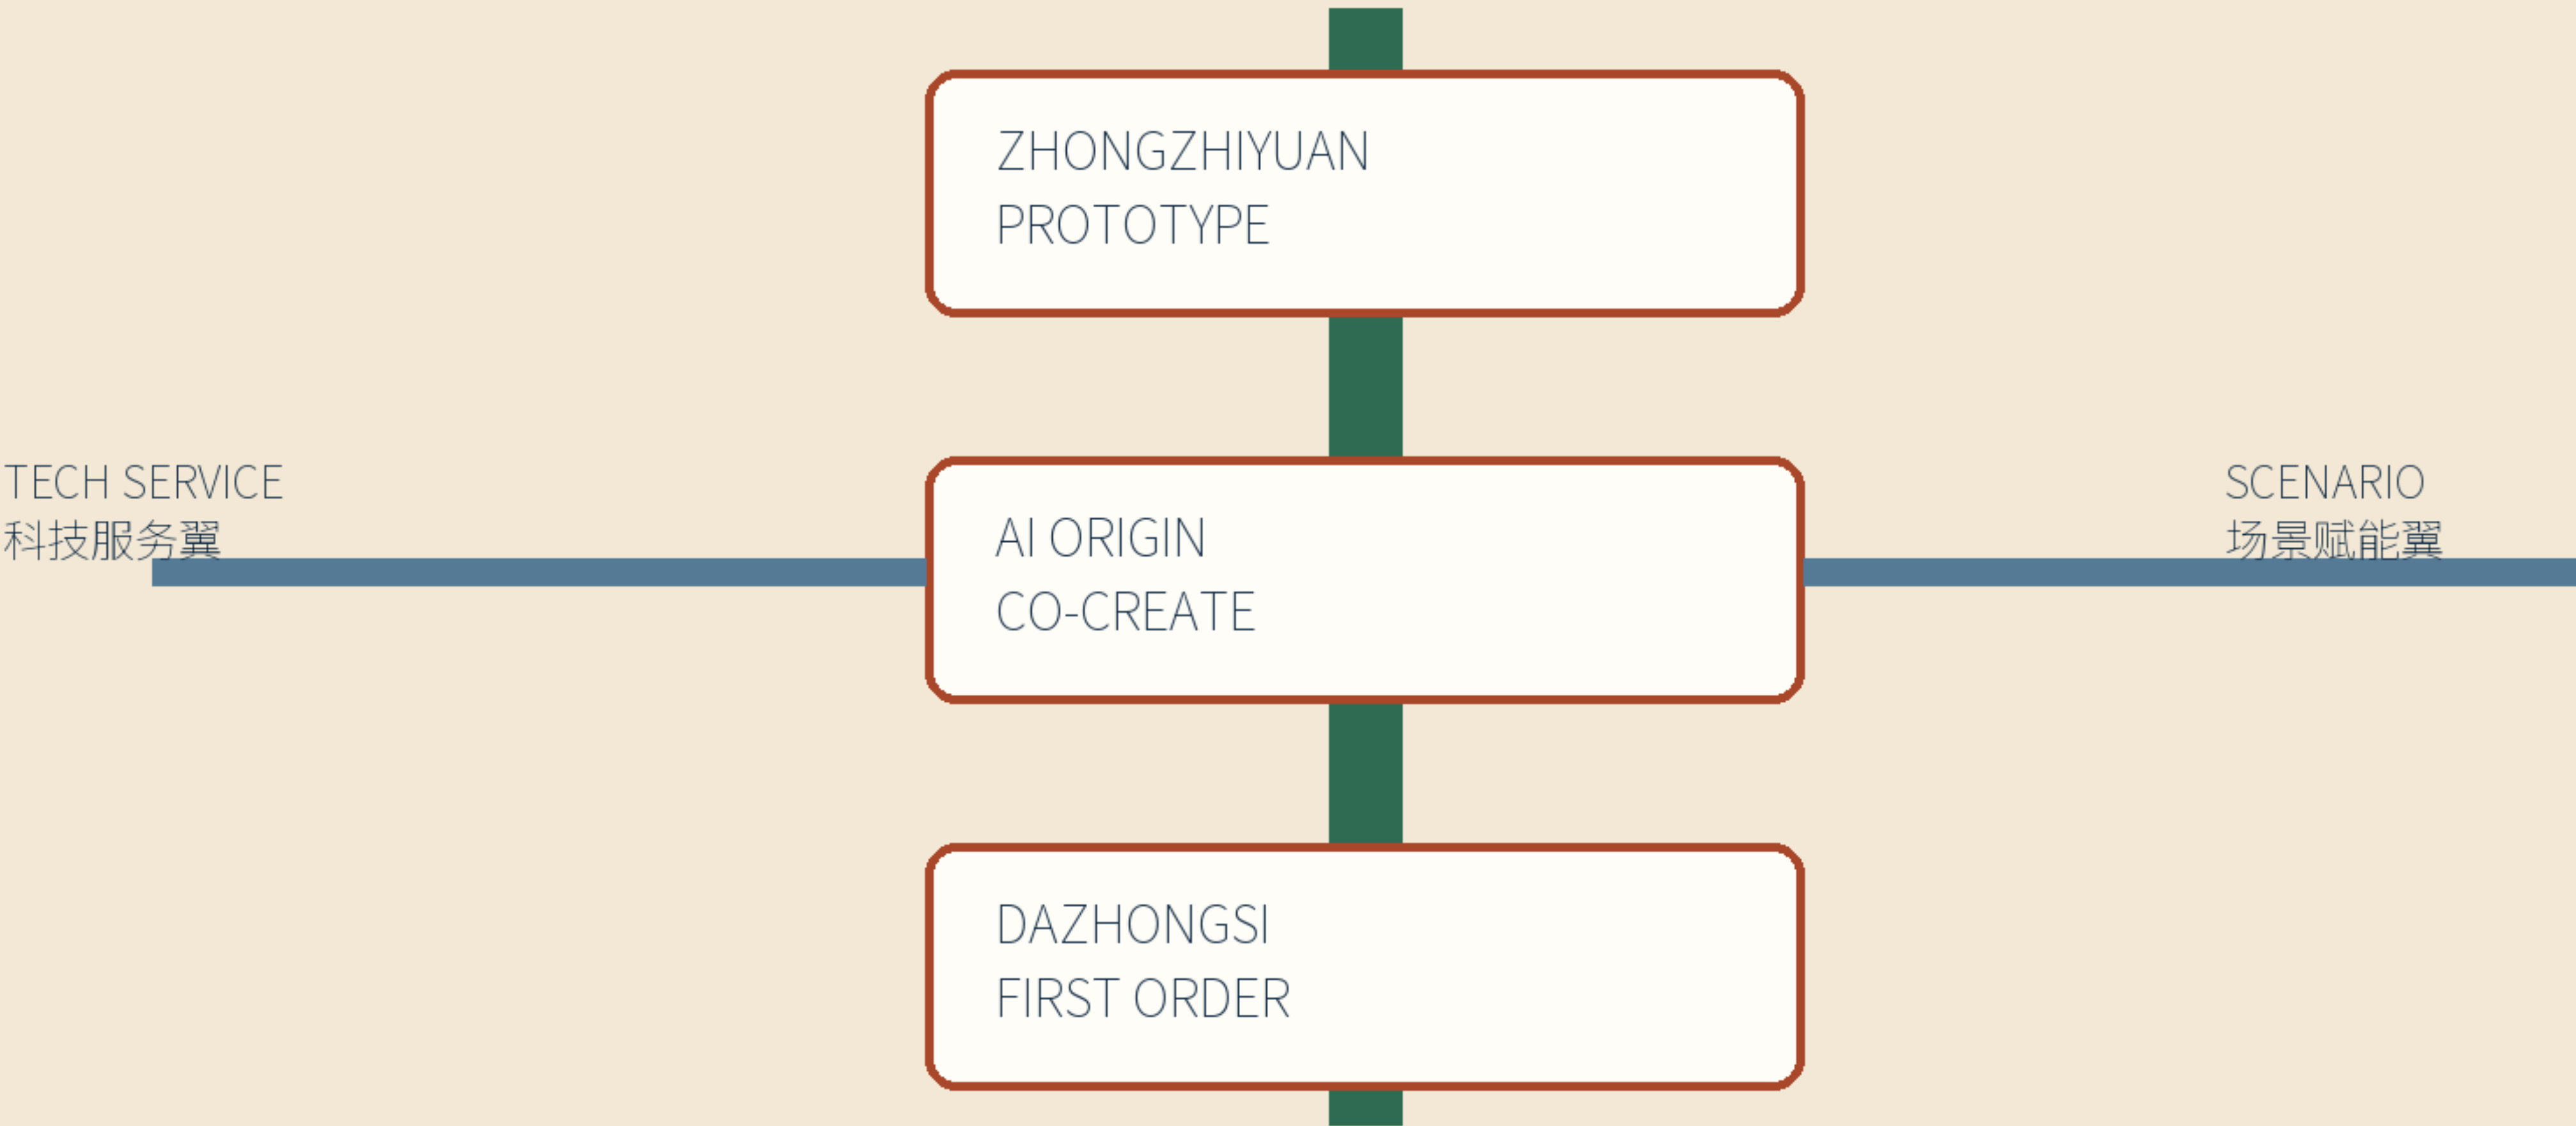

POSTING SHOP • SERVICE SHOP • TEST SHOP • LEDGER SHOP

- 01 Four standard scenarios registered in the project repository connect enterprise services, accessible walking diagnosis, low-speed back-of-house logistics and Jingzhang cultural guidance.
- 02 They are service-prototype entry points, never authorization for automated decisions.
- 03 Seven groups jointly form the users and evaluators of the pilot scenarios: small shops and sole traders post testable problems; AI SMEs and developers bring prototypes; frontline service workers judge whether a workflow is real; residents, older people and disabled users

ONE SPINE • THREE MARKETS • TWO WINGS • TWELVE SHOPS

Provisional geometry stays quiet; the operating mechanism leads.

PUBLIC RIGHT / 公共权利

HUMAN DECISION • REFUSAL • STOP • EXIT

KNOWN / 已知

AREA • RATIO • LENGTH • COUNT

UNKNOWN / 未知

FAR • HEIGHT • DENSITY • RENT • FUNDING

Slow mobility and service logistics

TECH SERVICE WING • FEEDBACK WING • LOW-SPEED LOGISTICS • STAFFED TAKEOVER

01 The first-order service link is only a conceptual route for booked, low-speed logistics.

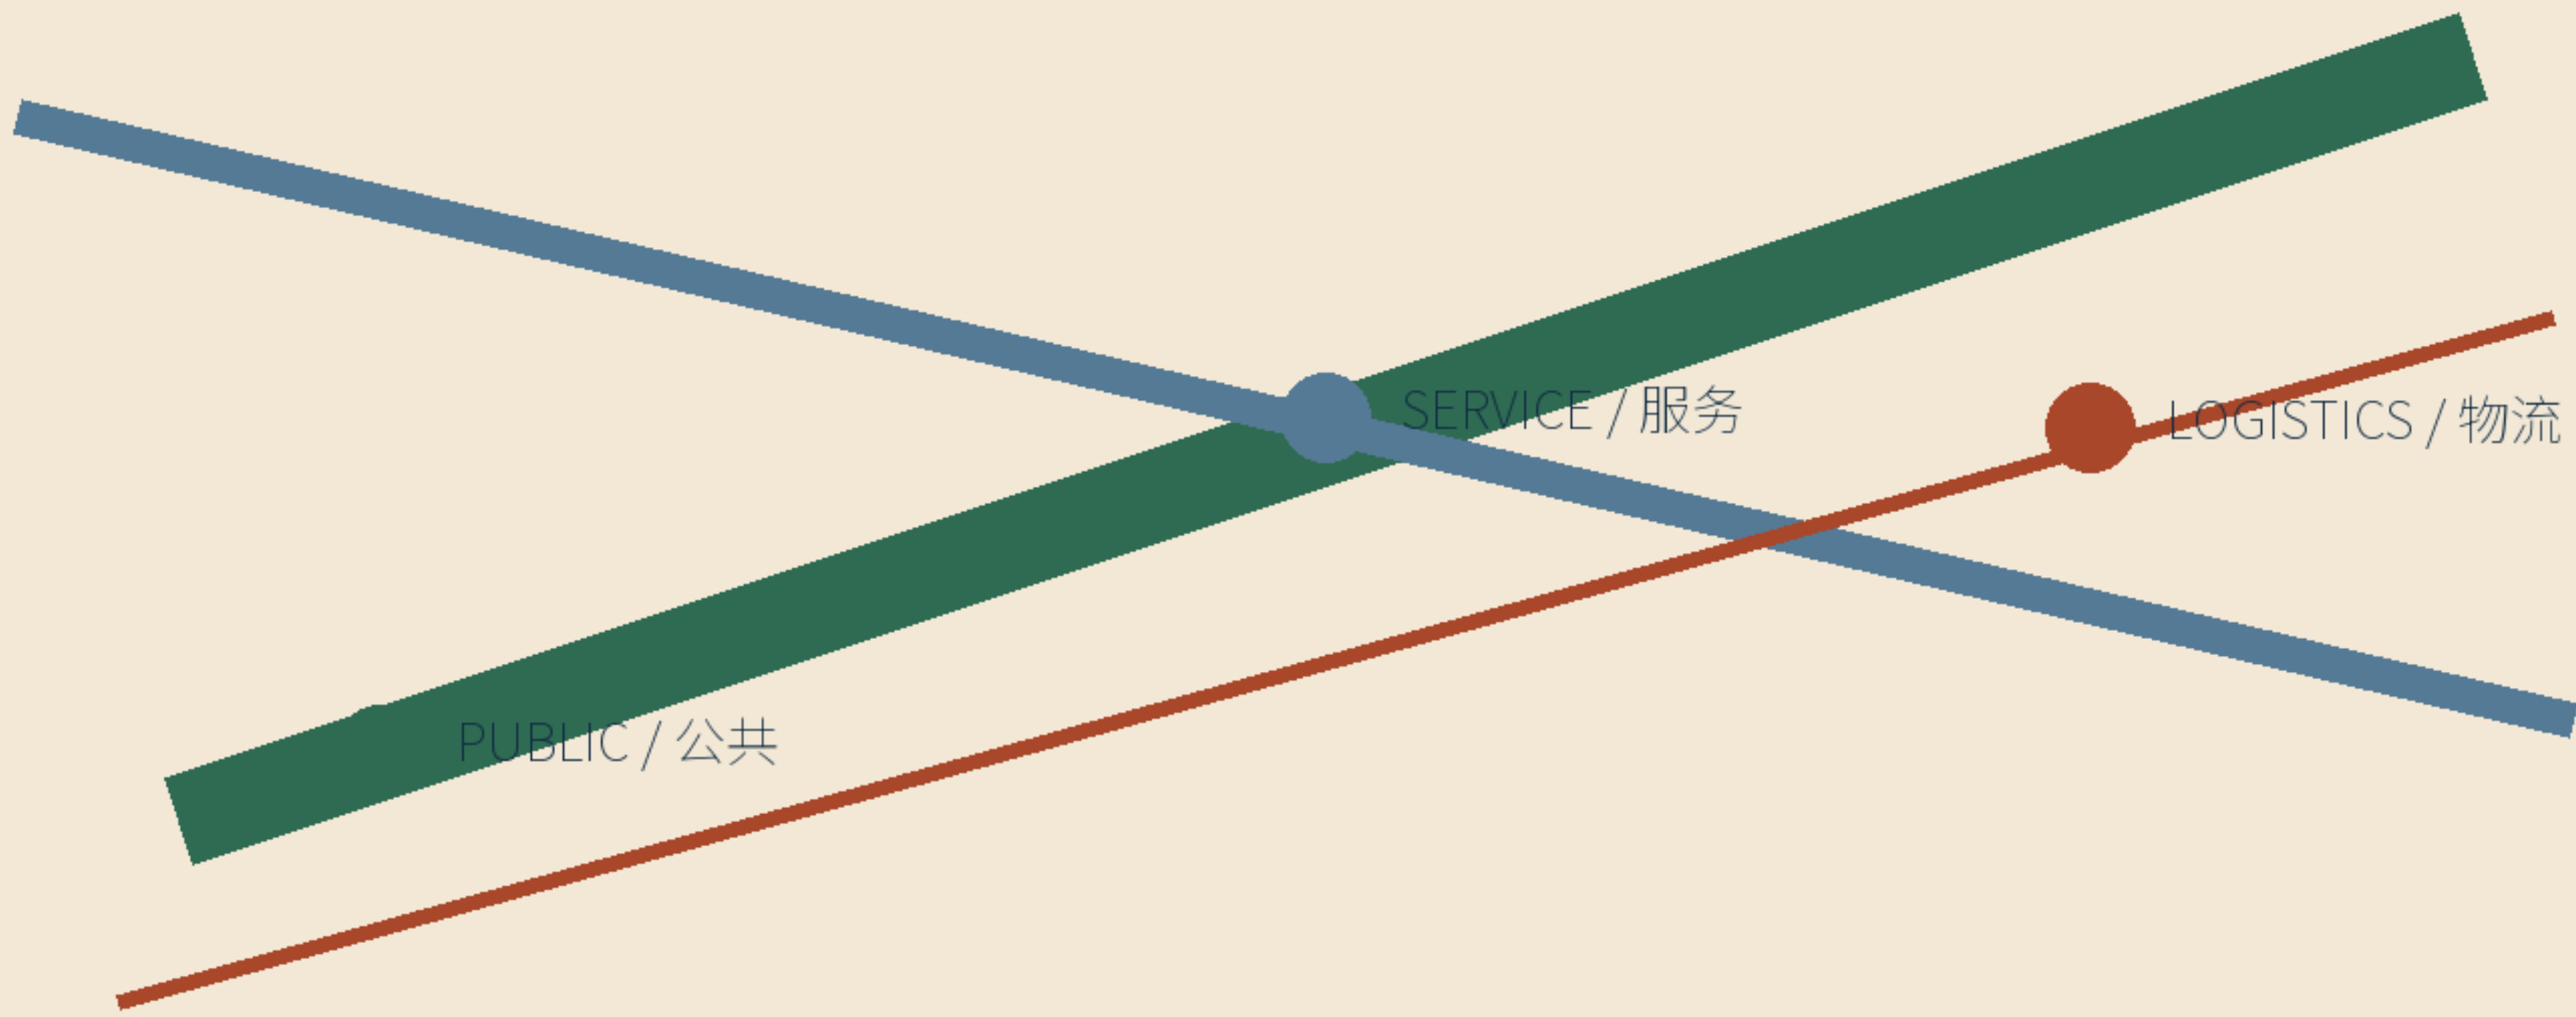

02 Accessible signage is co-checked by users, multilingual service includes staffed escalation, and neither a robot nor an algorithm may expand its own test boundary.

03 Municipal and public-service planning follows “interfaces before facilities.” Phase one defines professional checklists for power, connectivity, storage, fire safety, stormwater, waste and accessibility without promising edge-compute or charging capacity.

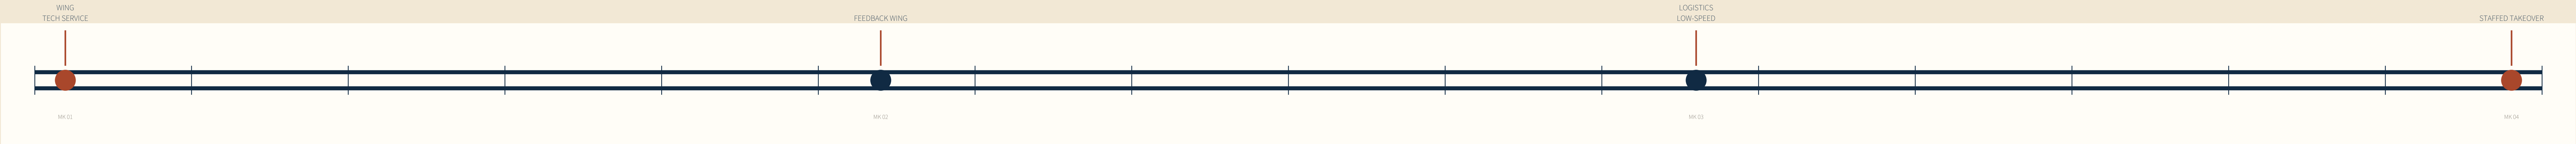

SLOW MOBILITY, BLUE-GREEN SPACE & LOGISTICS

Public movement first; low-speed logistics controlled and stoppable.

WALK • CYCLE • WHEELCHAIR • STAFFED TAKEOVER • NO AUTO-EXPANSION

PUBLIC RIGHT / 公共权利

HUMAN DECISION • REFUSAL • STOP • EXIT

KNOWN / 已知

AREA • RATIO • LENGTH • COUNT

UNKNOWN / 未知

FAR • HEIGHT • DENSITY • RENT • FUNDING

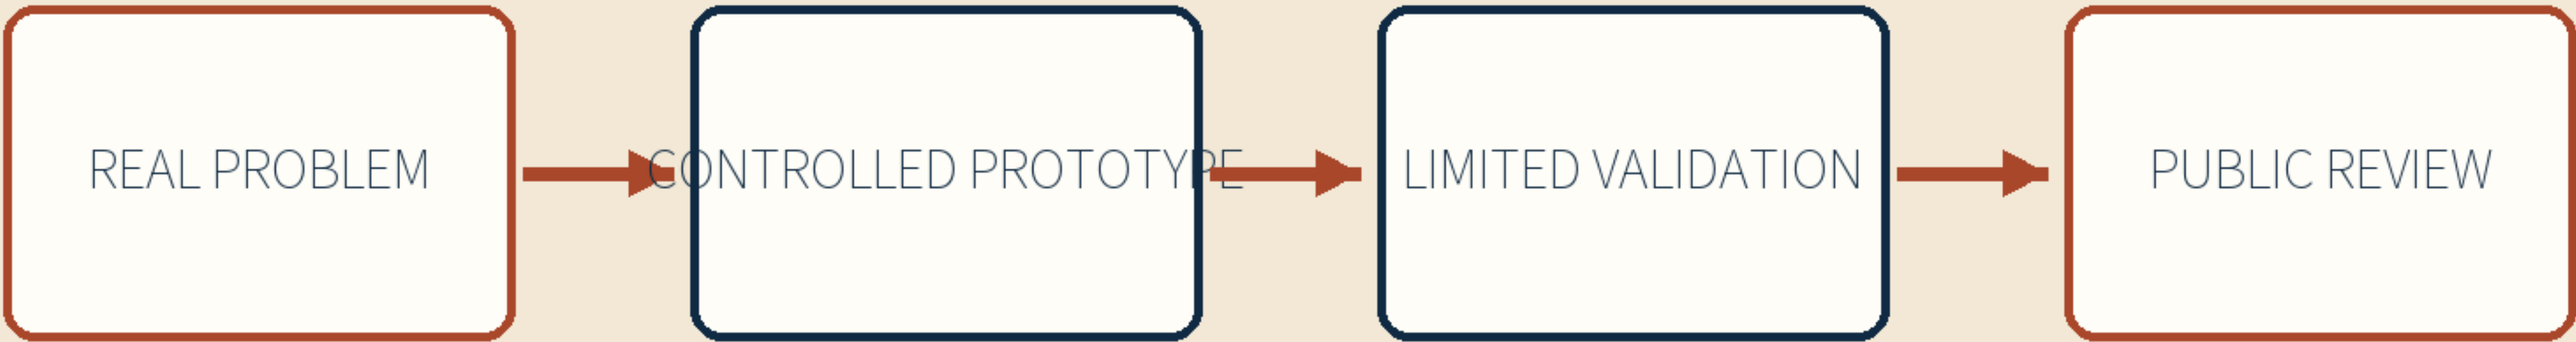

Seasonal operation and governance

PROBLEM SEASON • PROTOTYPE SEASON • MARKET SEASON • LEDGER SEASON

JINGZHANG OPEN MARKET LINE

RAIL DEPARTURE × OPEN MARKET × OPEN-SOURCE CITY

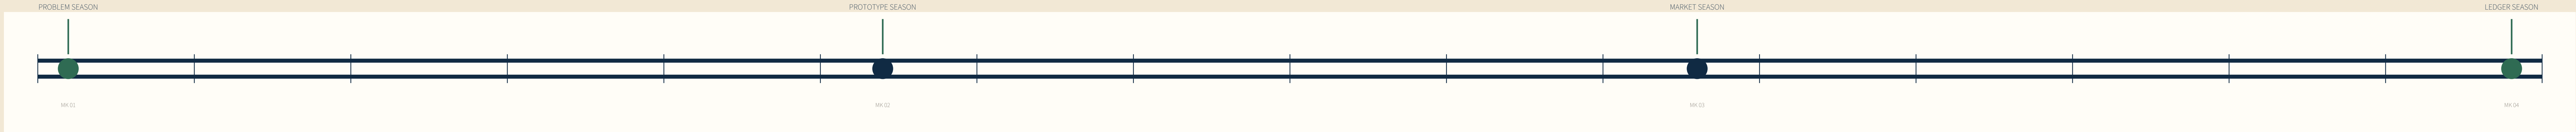

OPEN / 可拒绝 • STOP / 可停止 • EXIT / 可退出 • HUMAN / 人工决定

01 Season two performs synthetic-data and controlled back-of-house trials.

02 Season three conducts limited tests in the co-creation and first-order markets, constrained by quantity, time and space.

03 Season four publishes an annual ledger of success, stopping, appeals, deletion and unresolved problems.

PUBLIC RIGHT / 公共权利

HUMAN DECISION • REFUSAL • STOP • EXIT

KNOWN / 已知

AREA • RATIO • LENGTH • COUNT

UNKNOWN / 未知

FAR • HEIGHT • DENSITY • RENT • FUNDING

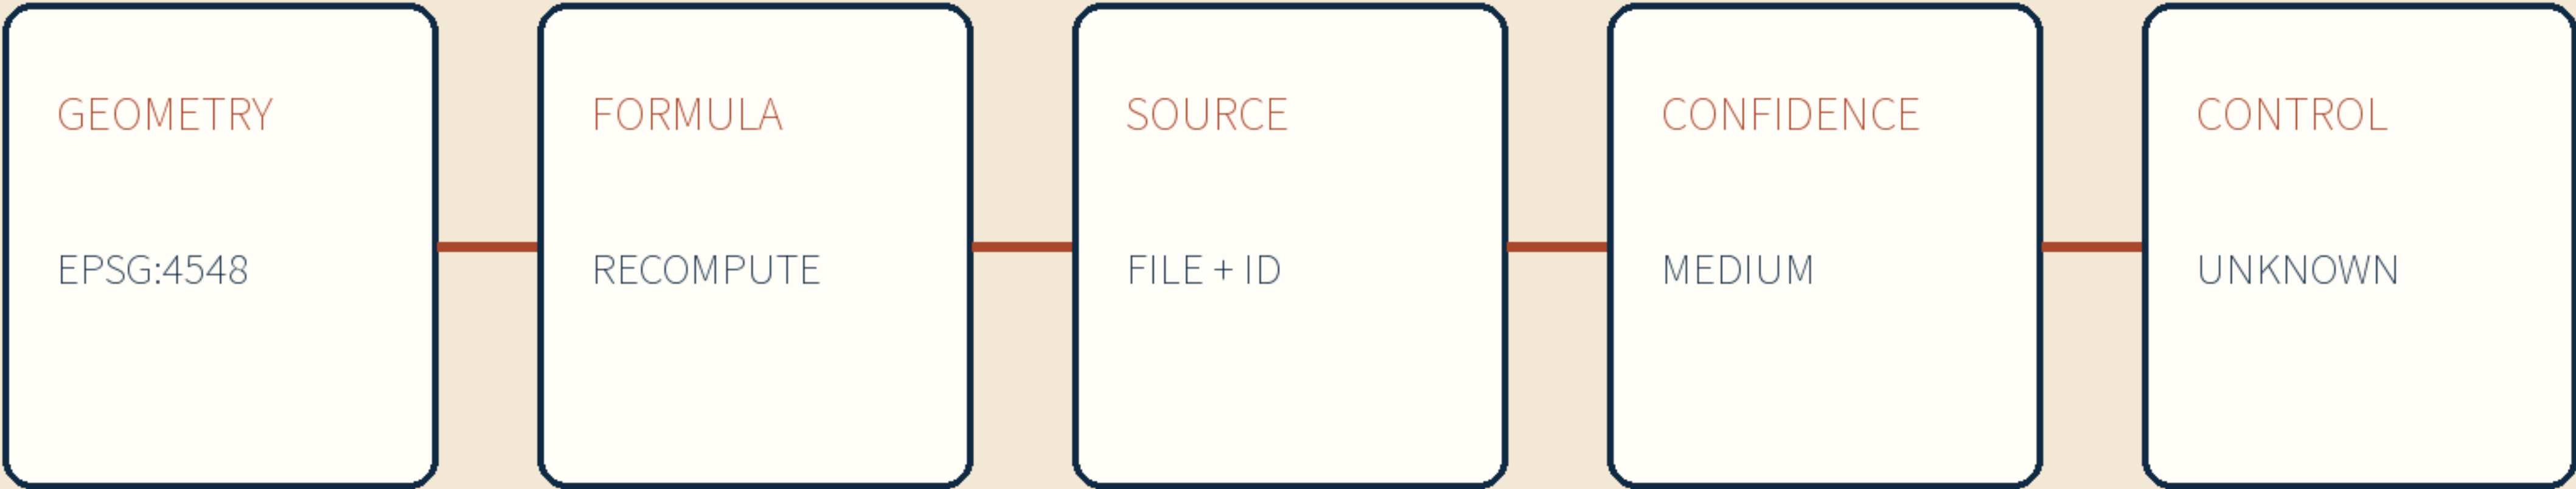

Metrics, risks and full-chain rebuild

GEOMETRY • FORMULA • SOURCE FILE • CONFIDENCE

METRICS & EVIDENCE CHAIN

Known = recomputable geometry and counts; controls remain unknown.

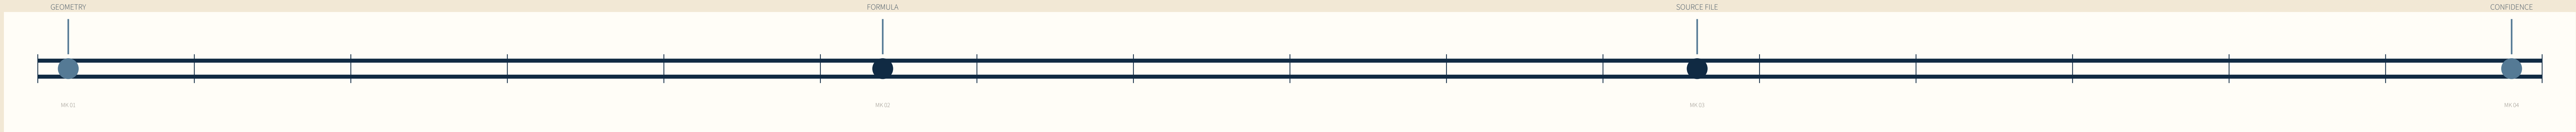

KNOWN: AREA • RATIO • LENGTH • COUNT

UNKNOWN: FAR • HEIGHT • DENSITY • RENT • CONVERSION • FUNDING

01 Area and length are recalculated in EPSG:4548, with responsibility recorded in the design-depth matrix.

02 Unknown items include FAR, building height, statutory density, actual merchant count, rent, first-order conversion and policy funding.

03 No target or estimate for them appears in a figure.

PUBLIC RIGHT / 公共权利

HUMAN DECISION • REFUSAL • STOP • EXIT

KNOWN / 已知

AREA • RATIO • LENGTH • COUNT

UNKNOWN / 未知

FAR • HEIGHT • DENSITY • RENT • FUNDING
