

THE DIGNITY SUPPLY LINE

Anonymous access is not an app feature; it is a public service made of quality, space, roles and recovery evidence.

All real sites, parties and performance await authority and evidence; geometry is rough/provisional.

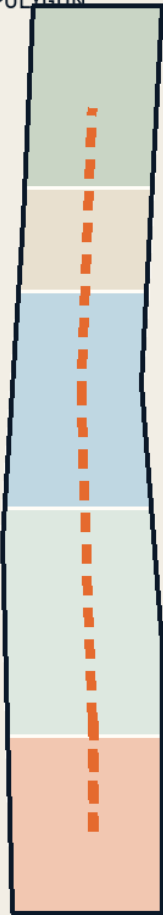

THREE SCALES AND THREE PRODUCTION ROLES

THREE SCALES: PROTOCOL, DUTY LINE, DIFFERENT PRODUCTION ROLES

CONCEPTUAL · ROUGH PROVISIONAL EXTENT

Topology supports recalculation only; statutory use, title, intensity, sites and engineering remain UNKNOWN

11.4 km² TEXT SCOPE / ROUGH WORKING POLYGON

A

COORDINATED · OPEN PROTOCOL

Common standard timing, state, rights, evidence and exit—without personal demand data.

B

OVERALL · DUTY LINE

Links front-of-house, storage, replenishment and verified alternatives—not an engineering route.

C

KEY AREAS · THREE ROLES

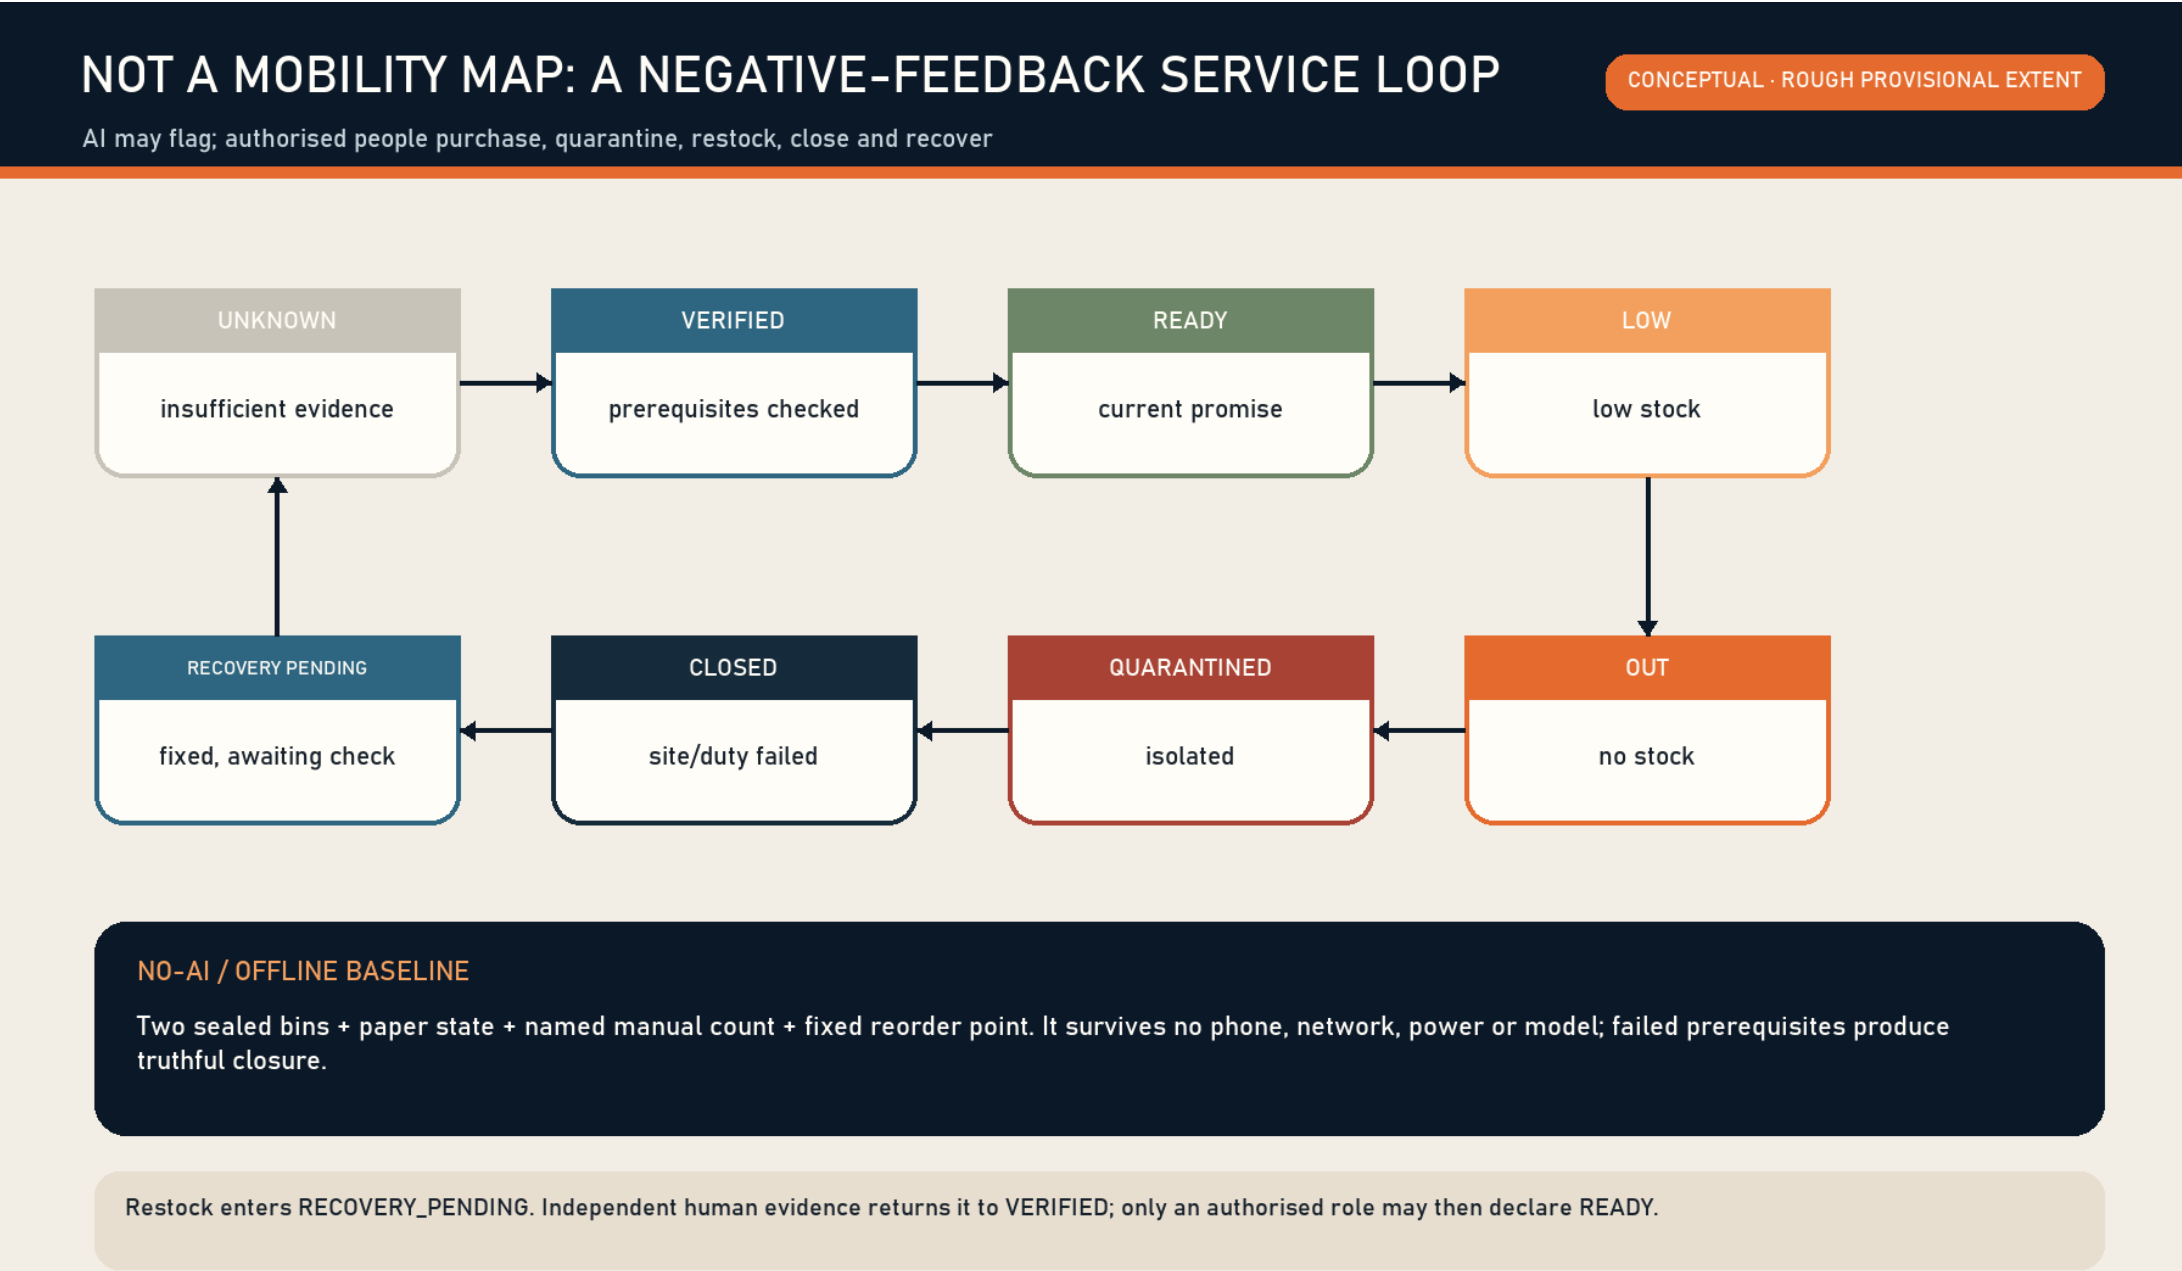

Zhongzhiyuan lab, AI Origin limited operation, Dazhongsi stress test; all real sites await authority.

Programme bands express research emphasis only, not regulatory change or existing condition.

Protocol—duty line—lab/operation/stress test; all space remains rough and conceptual.

All real sites, parties and performance await authority and evidence; geometry is rough/provisional.

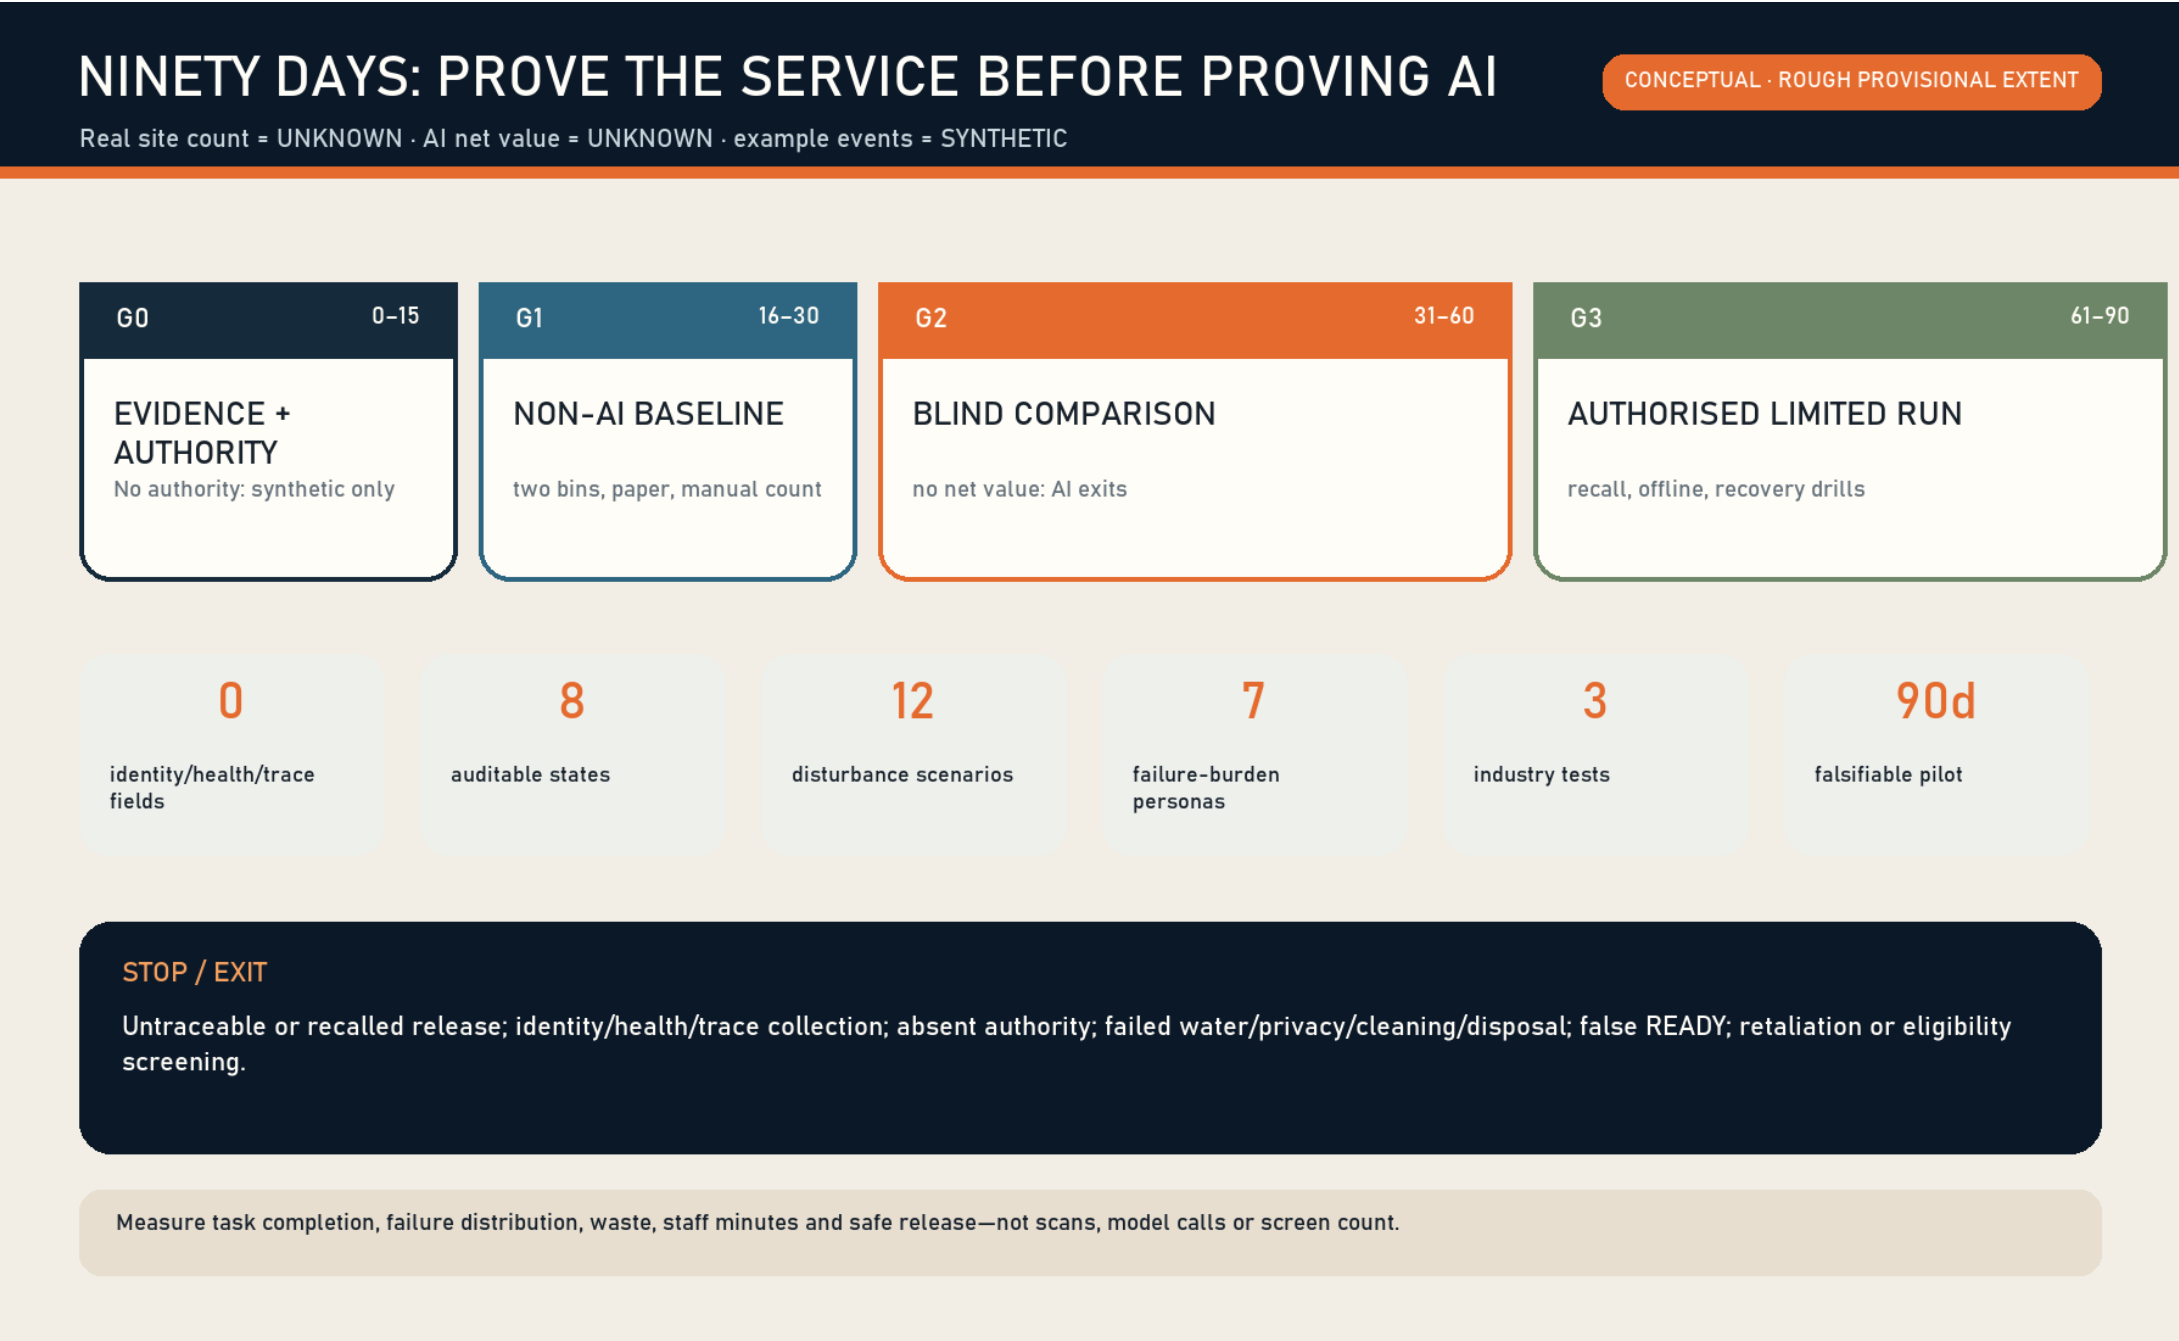

STATE, AUTHORITY AND GRACEFUL DEGRADATION

AI advises only. READY expires, anomalies quarantine and human evidence releases recovery.

All real sites, parties and performance await authority and evidence; geometry is rough/provisional.

NINETY-DAY FALSIFIABLE PILOT

Run the non-AI baseline first, then blind-test aggregate AI; no net value means AI exits.

All real sites, parties and performance await authority and evidence; geometry is rough/provisional.

THREE KEY AREAS: DO NOT REPEAT DEVICES
