

京张五分钟

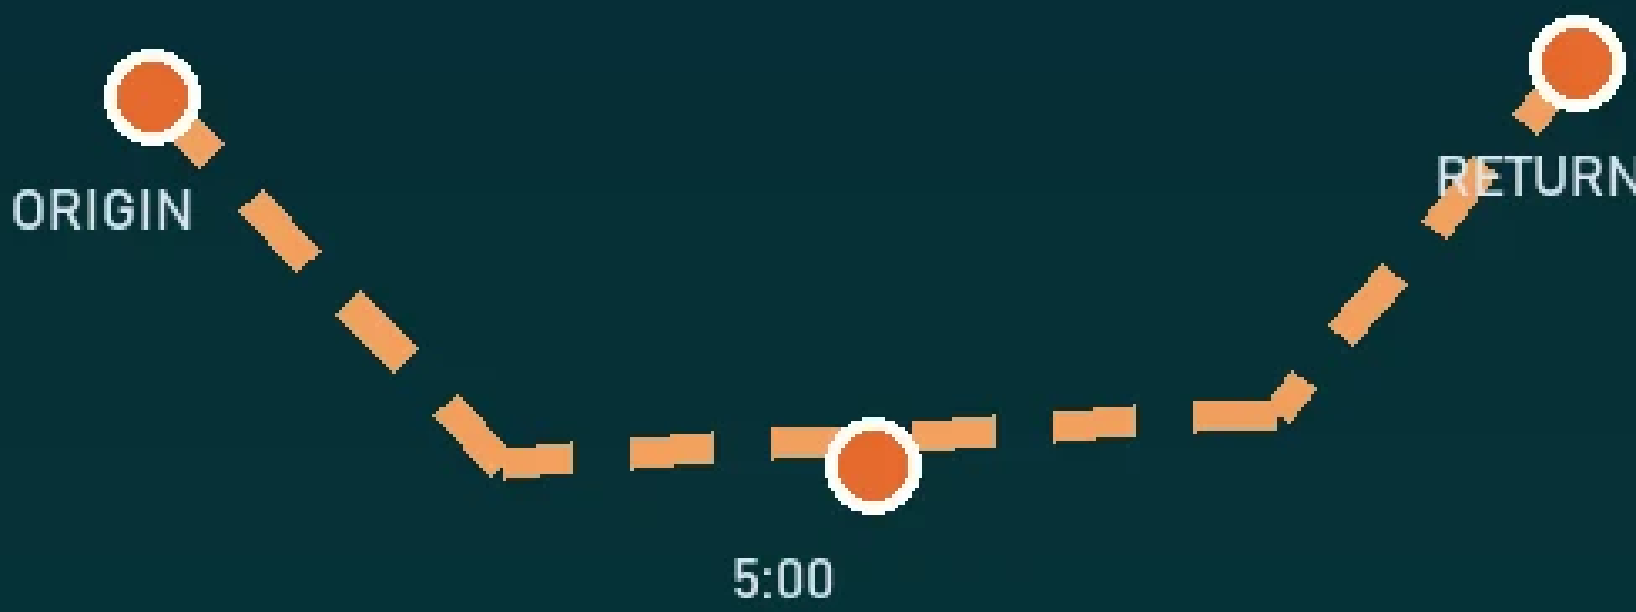

THE READY AED LINE

不再是画一个点，而是证明它真的就绪
A READINESS PROOF, NOT ANOTHER MAP POINT

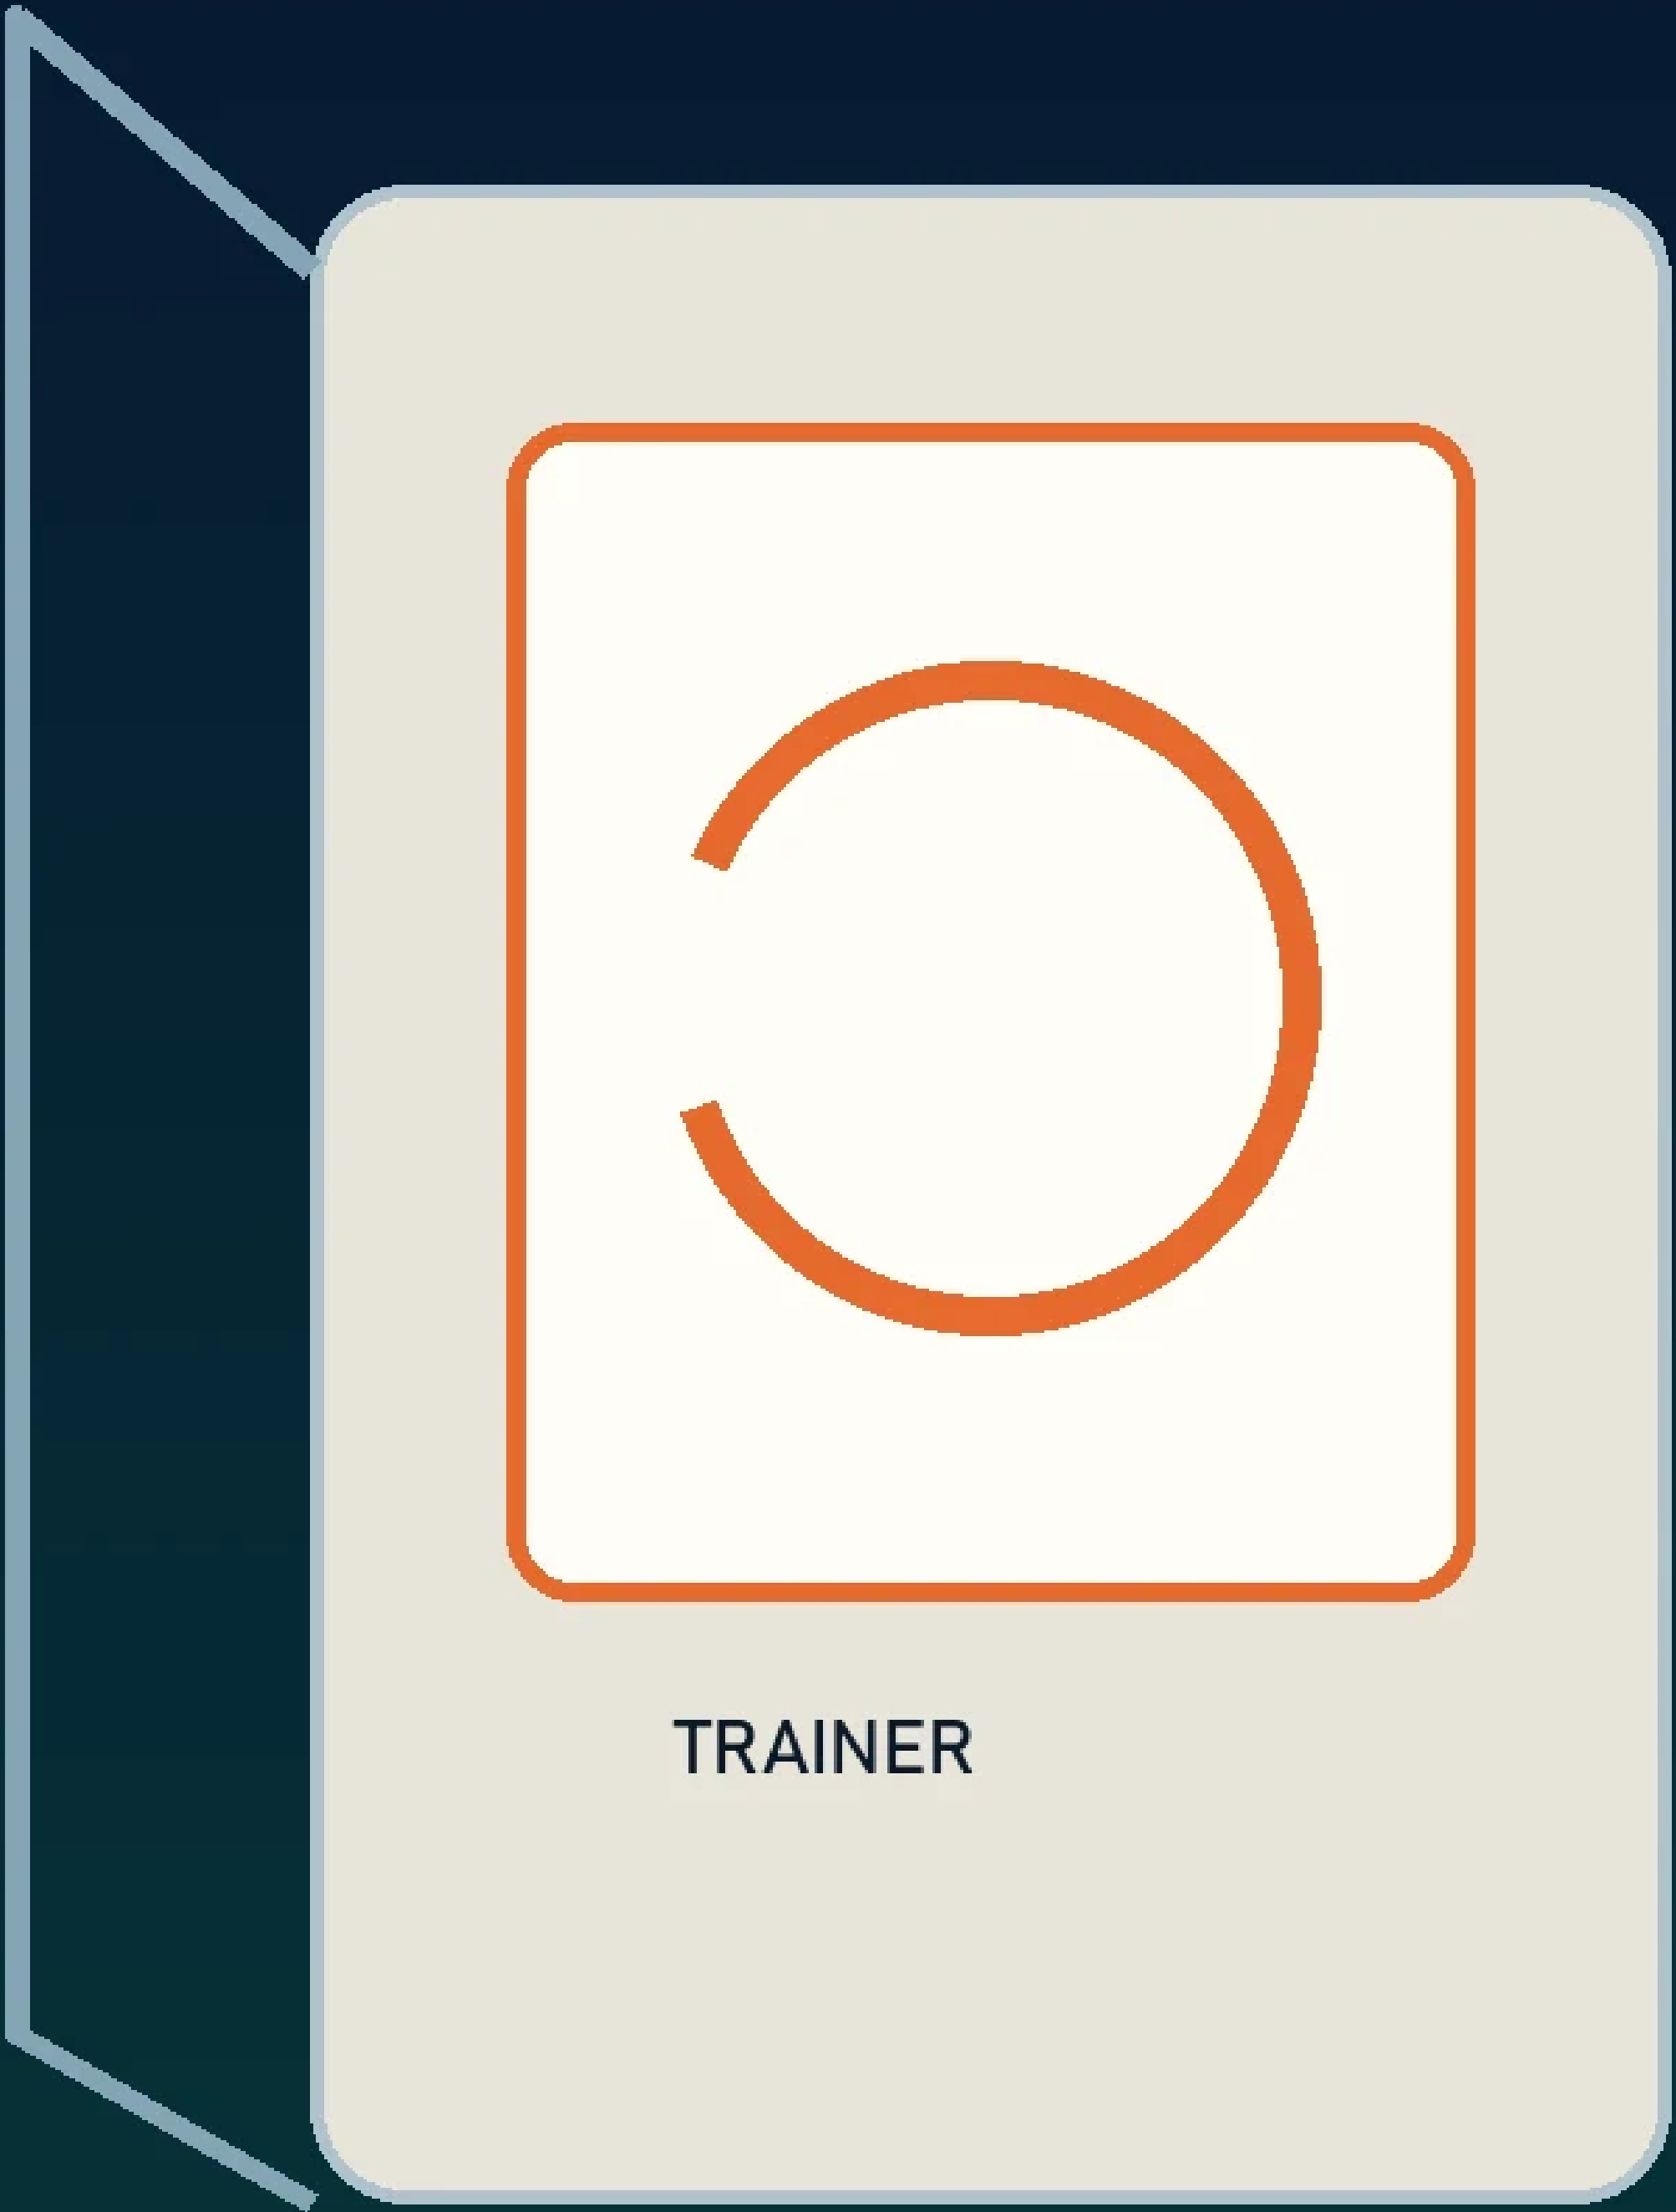

拨打 120 · 找到 · 取出 · 往返 · 复位
CALL 120 · FIND · RETRIEVE · RETURN · RESET

5:00

MEASURED WITH A TRAINING AED — NEVER A SURVIVAL CLAIM

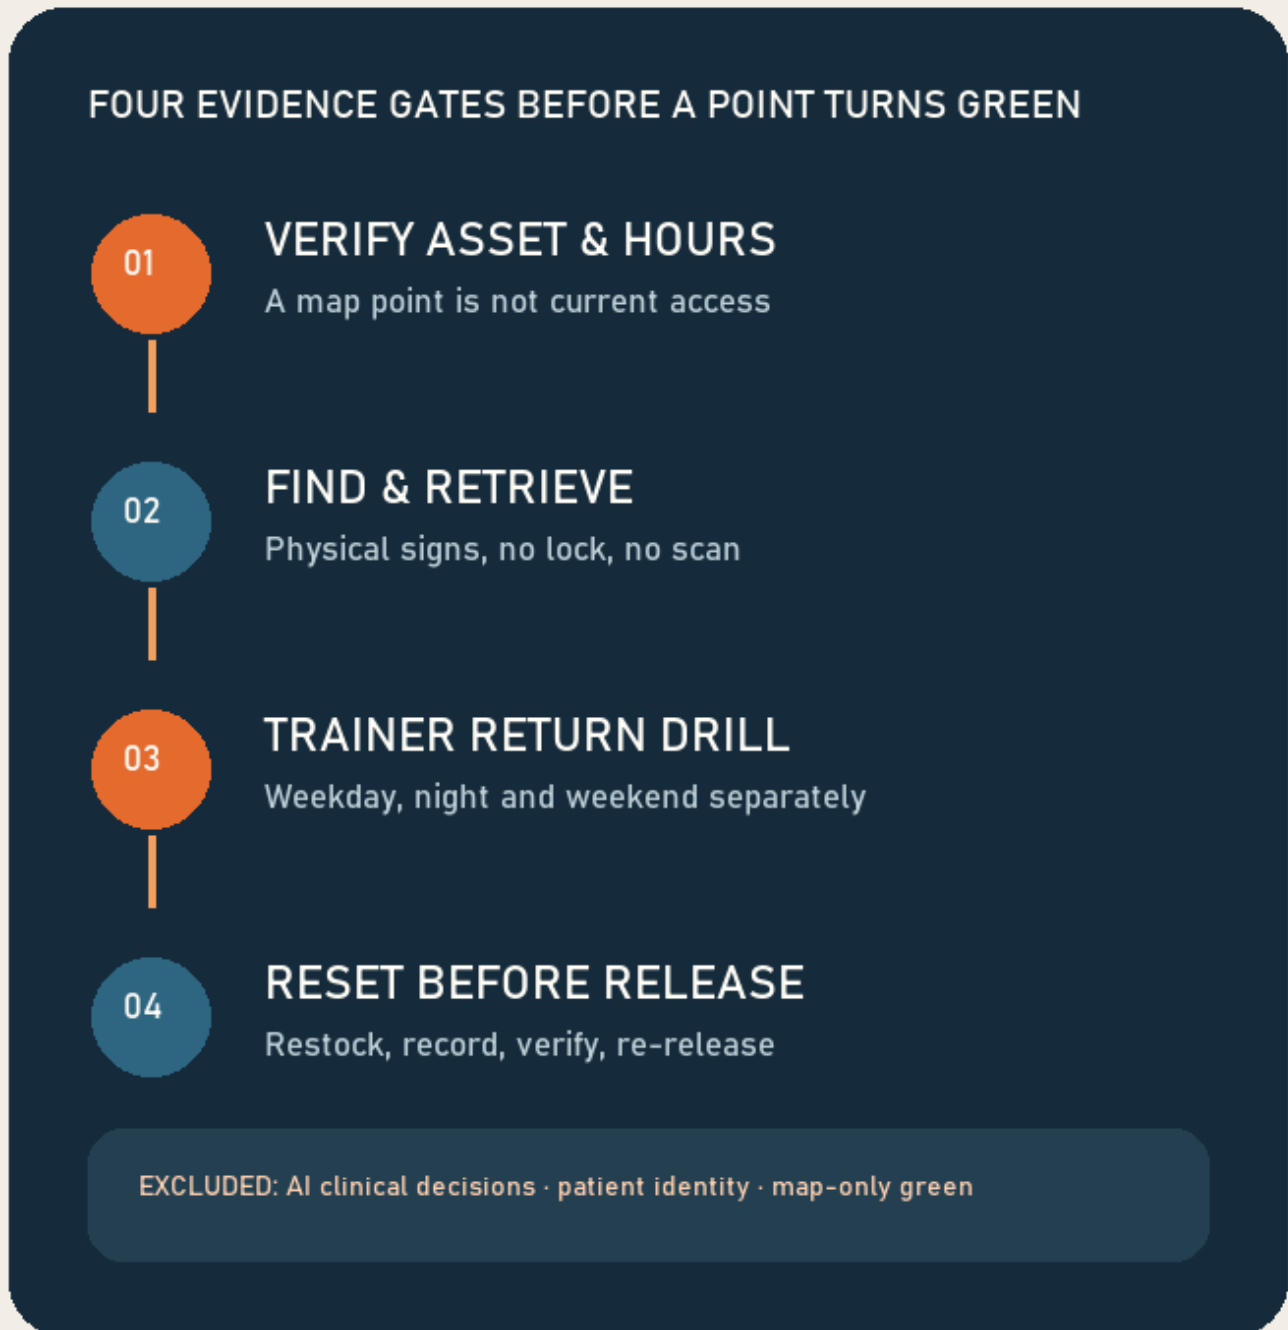

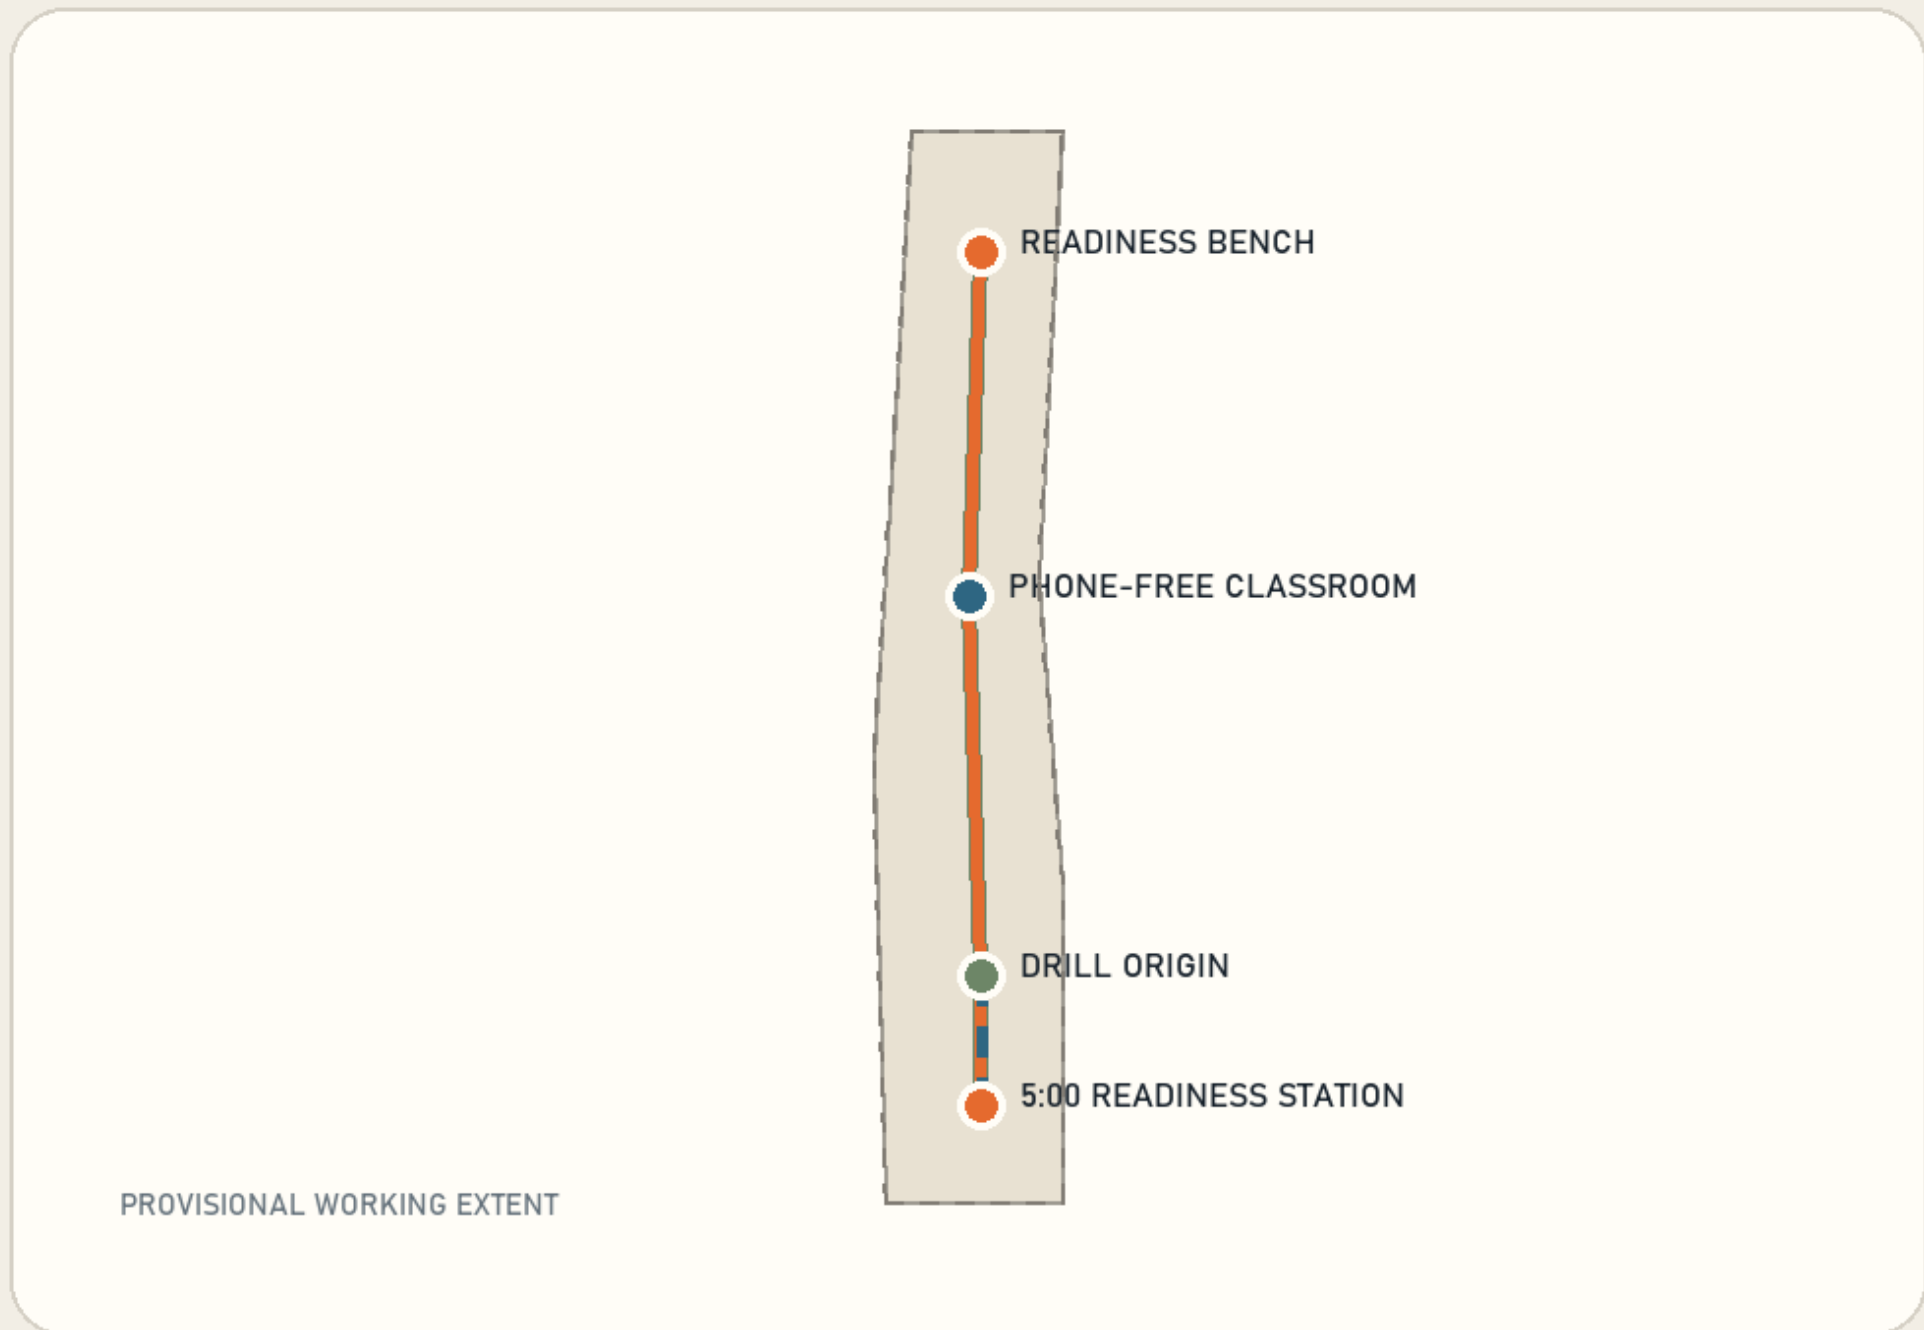

OPEN CO-CREATION PROPOSAL · ROUGH PROVISIONAL EXTENT · NOT AN APPROVAL OR BUILT PROJECT

THE READY AED LINE: PROVE READINESS BEFORE MARKING AVAILABLE

CONCEPTUAL · ROUGH PROVISIONAL EXTENT

Open hours · no lock or scan · physical wayfinding · inspection · return drill · reset

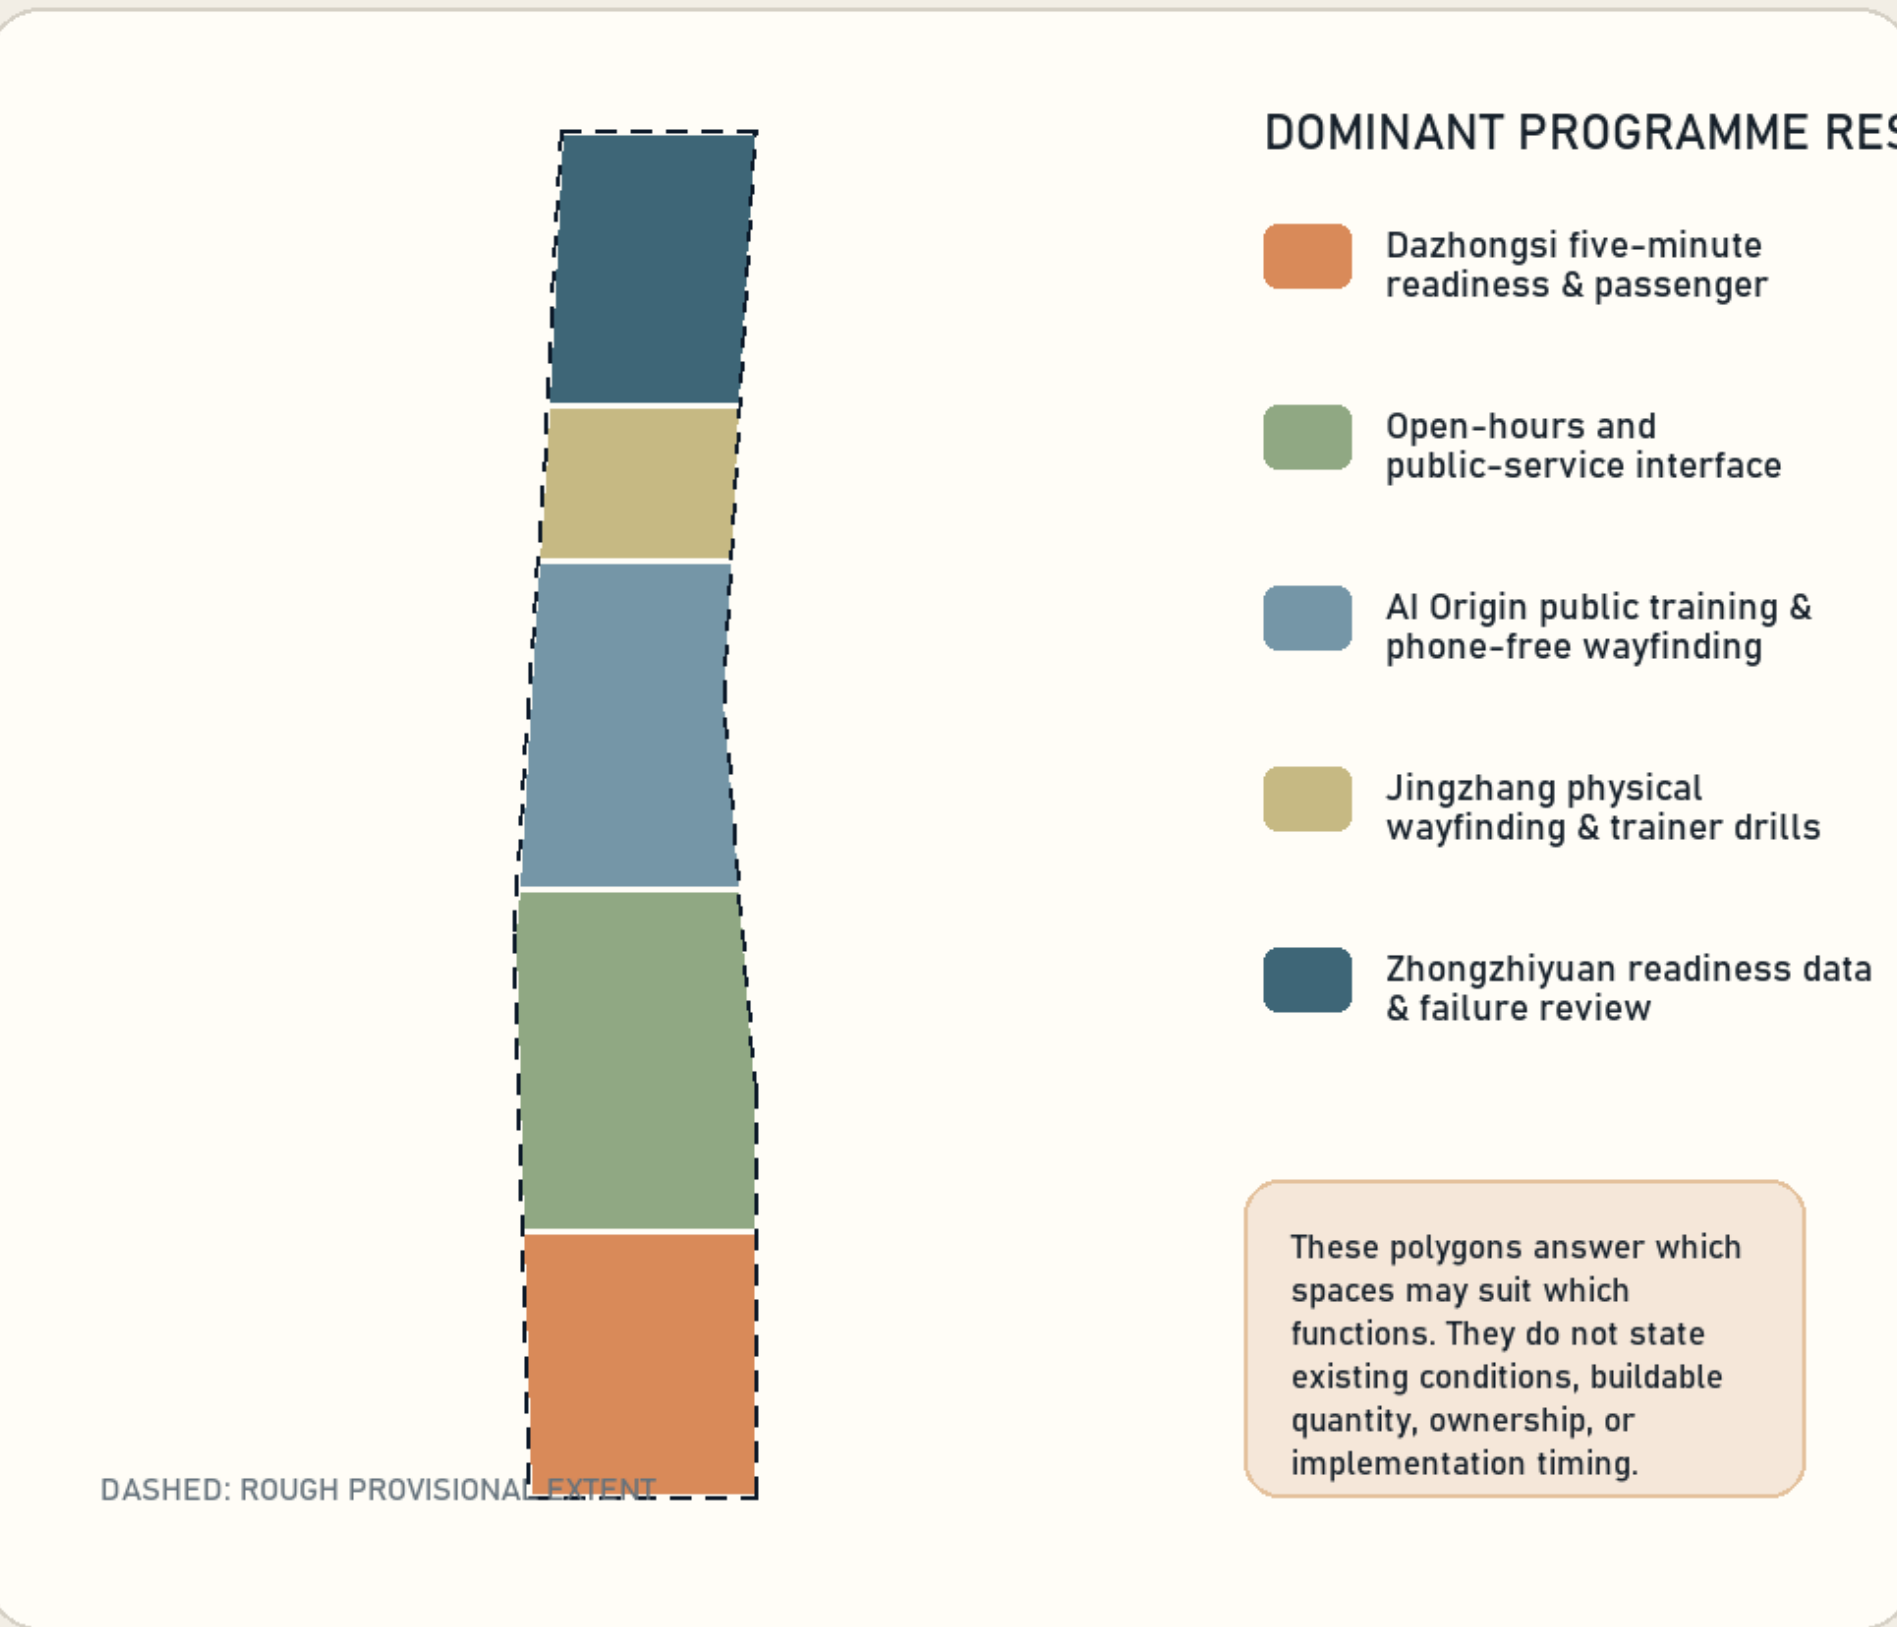

- 90 DAY STOPPABLE PILOT
- 0 PATIENT ID FIELDS
- 12 SCENARIO CARDS
- 8 READINESS CONDITIONS

FIVE PROGRAMME OVERLAYS, NOT A PSEUDO-REGULATORY PLAN

CONCEPTUAL · ROUGH PROVISIONAL EXTENT

Complete topology for validation; statutory land use, intensity, roads, and ownership remain unknown

DOMINANT PROGRAMME RESEARCH

- Dazhongsì five-minute readiness & passenger
- Open-hours and public-service interface
- AI Origin public training & phone-free wayfinding
- Jingzhang physical wayfinding & trainer drills
- Zhongzhiyuan readiness data & failure review

These polygons answer which spaces may suit which functions. They do not state existing conditions, buildable quantity, ownership, or implementation timing.

THREE SCALES / THREE EVIDENCE TYPES

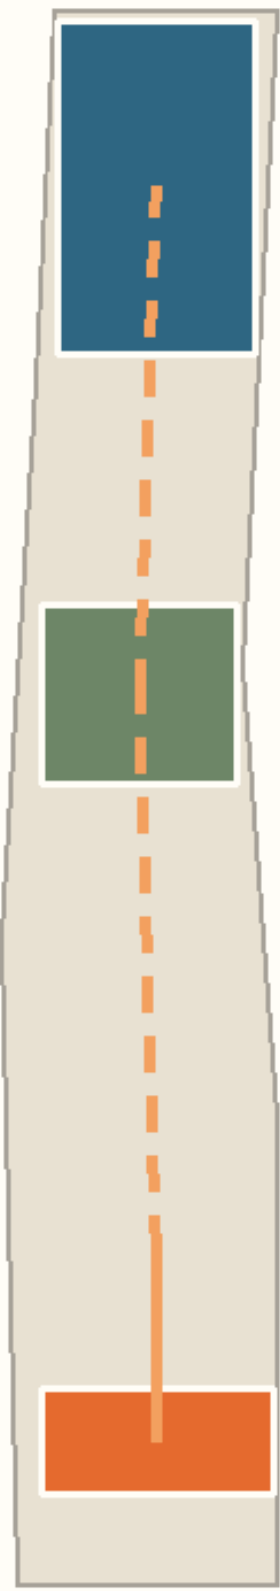

- 43.6 km² COORDINATED RESEARCH
Readiness schema, inspection standard, drill scripts and failure archive
- 11.4 km² OVERALL DESIGN
Open hours, physical wayfinding, accessible routes and responsibility interfaces
- 368.4 ha THREE KEY AREAS
Readiness protocol, public training and high-flow drills; polygons remain provisional

RULE: mark gaps UNKNOWN; never let AI invent control lines

NORTH VALIDATION · CENTRAL TRAINING · SOUTHERN DRILL

Three spaces show readiness protocols and test interfaces, not AED siting or procurement approval

CONCEPTUAL · ROUGH PROVISIONAL EXTENT

RECTANGULAR KEY AREAS + ROUGH PROVISIONAL GEOMETRY

01

ZHONGZHIYUAN · READINESS BENCH

Use synthetic conflicts to test asset, hours, inspection and reset fields; AI cannot turn a point green by itself.

READINESS: EVIDENCE ONLY

02

AI ORIGIN · PHONE-FREE CLASSROOM

Train physical wayfinding, calling 120, trainer retrieval and accessible handover; collect no patient identity.

ZERO PATIENT IDENTITY

03

DAZHONGSI · 5:00 READINESS STATION

Audit asset, hours and roles before weekday, night and weekend trainer return drills; no real-site promise.

CURRENT SITE: VERIFY

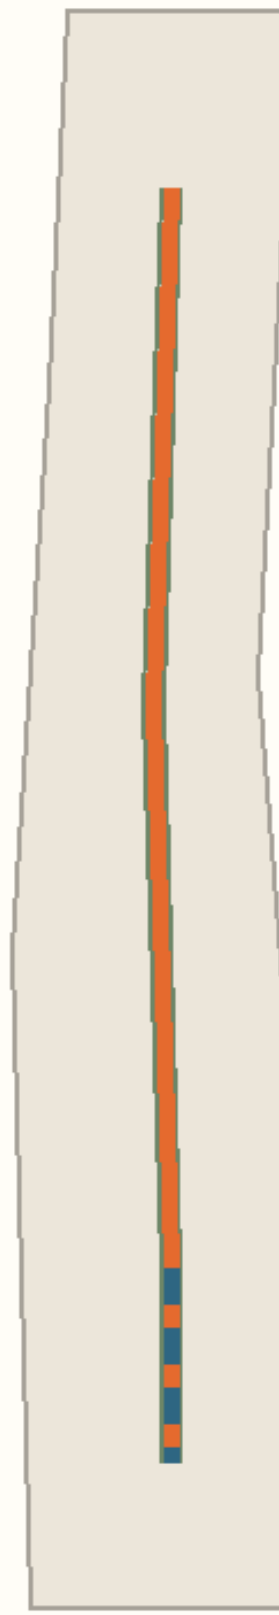

ANY REAL SITE: re-site only after authorised field audit, device check, hours confirmation and signed responsibility

MEASURE THE RETURN TRIP, NOT A RADIUS

The drill line is not an ambulance route, patient trace, road redline or real AED coverage claim

CONCEPTUAL · ROUGH PROVISIONAL EXTENT

PHONE-FREE CORRIDOR

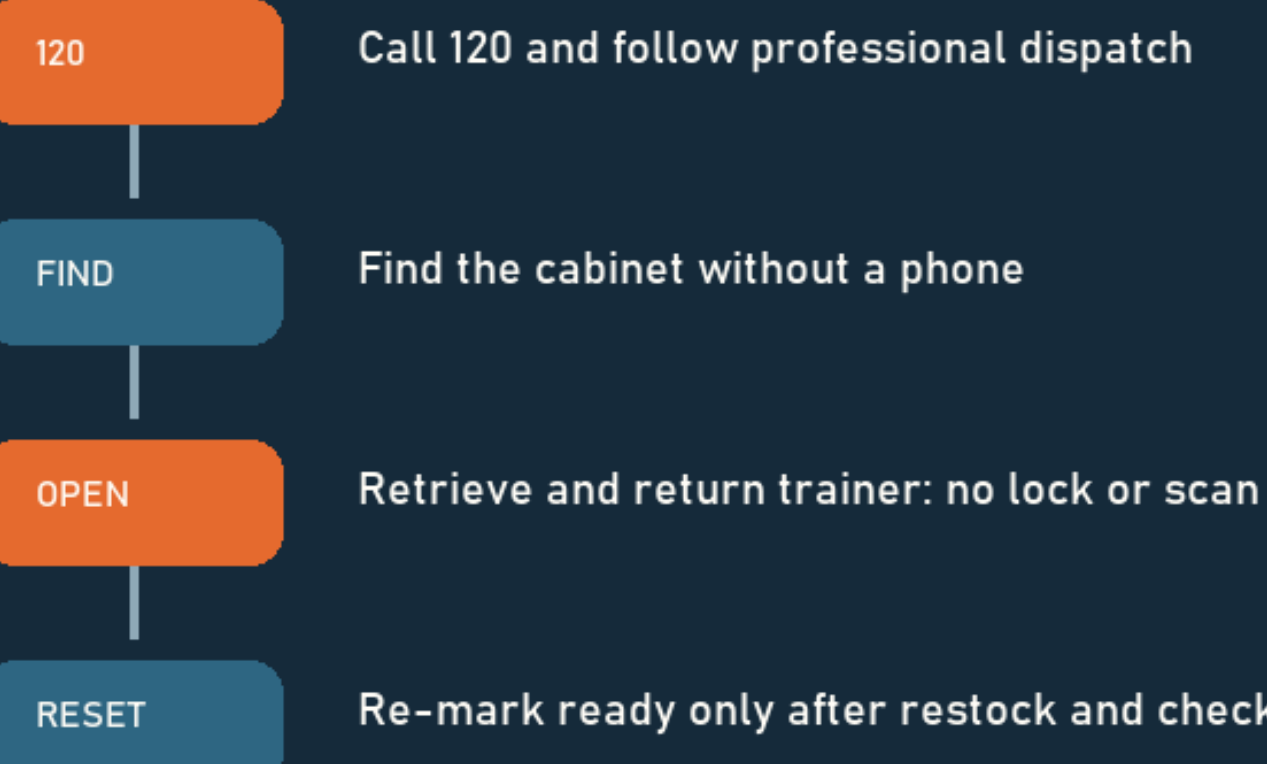

Use fixed signs, entrance plans and a trainer to test find, retrieve and return; phone navigation is supplementary.

DRILL ORIGIN-FOYER RETURN

Shows only trainer return and handover responsibility; not a real patient, emergency vehicle or AED siting.

FIVE-MINUTE READINESS CHAIN

OFFLINE FALLBACK

Fixed signs + entrance plan + paper inspection + site staff/120. If readiness cannot be verified, show a verified alternative and do not mark green.

BAN: AI diagnosis/overriding 120; patient identity or health data

90 DAYS IS A FALSIFICATION WINDOW, NOT A PROMISE

Prove retrievability, usability, and reset before replication

CONCEPTUAL · ROUGH PROVISIONAL EXTENT

90

PILOT DAYS

8

READINESS
CONDITIONS

12

SCENARIO CARDS

3

INDUSTRY TESTS

0

PATIENT ID FIELDS

90-DAY RHYTHM

0-15

Asset, hours and
responsibility evidence

16-30

Physical signs and lock-free
access corrections

31-60

Weekday, night and weekend
return drills

61-90

Limited operation and
post-use reset checks

METRICS THAT RESIST SELF-DECEPTION

100% Green points have asset, hours, inspection and reset evidence

100% Retrieval has no lock or scan and continuous physical signs

0 Patient identity, health, image, location and continuous trace fields

TBD Weekday/night/weekend trainer return P50/P90

STOP IMMEDIATELY

- 1 Asset, hours or responsibility cannot be verified
- 2 Cabinet is locked/scanned or wayfinding breaks
- 3 Point is green without passing return drills
- 4 Point remains available before restock/reset
