Cover and Design Basis

Jing-Zhang AI Pulse

Centennial Jing-Zhang AI Innovation Belt concept

Generated from public announcement, cleared taskbook, and provisional boundaries; all spatial recommendations are conceptual until official data arrives

.

Provisional boundary: intake only. Official polygons and regulatory controls required before formal scoring.

Land Use, Mobility, and Public Space

Land use is organized by R&D, industry, education, community, culture, green space, and facilities. Mobility prioritizes transit integration and slow connectivity. Blue-green space uses heritage park, Qinghe, and Xiaoyue River.

Provisional boundary: intake only. Official polygons and regulatory controls required before formal scoring.
