

CELL • JZ regional structure

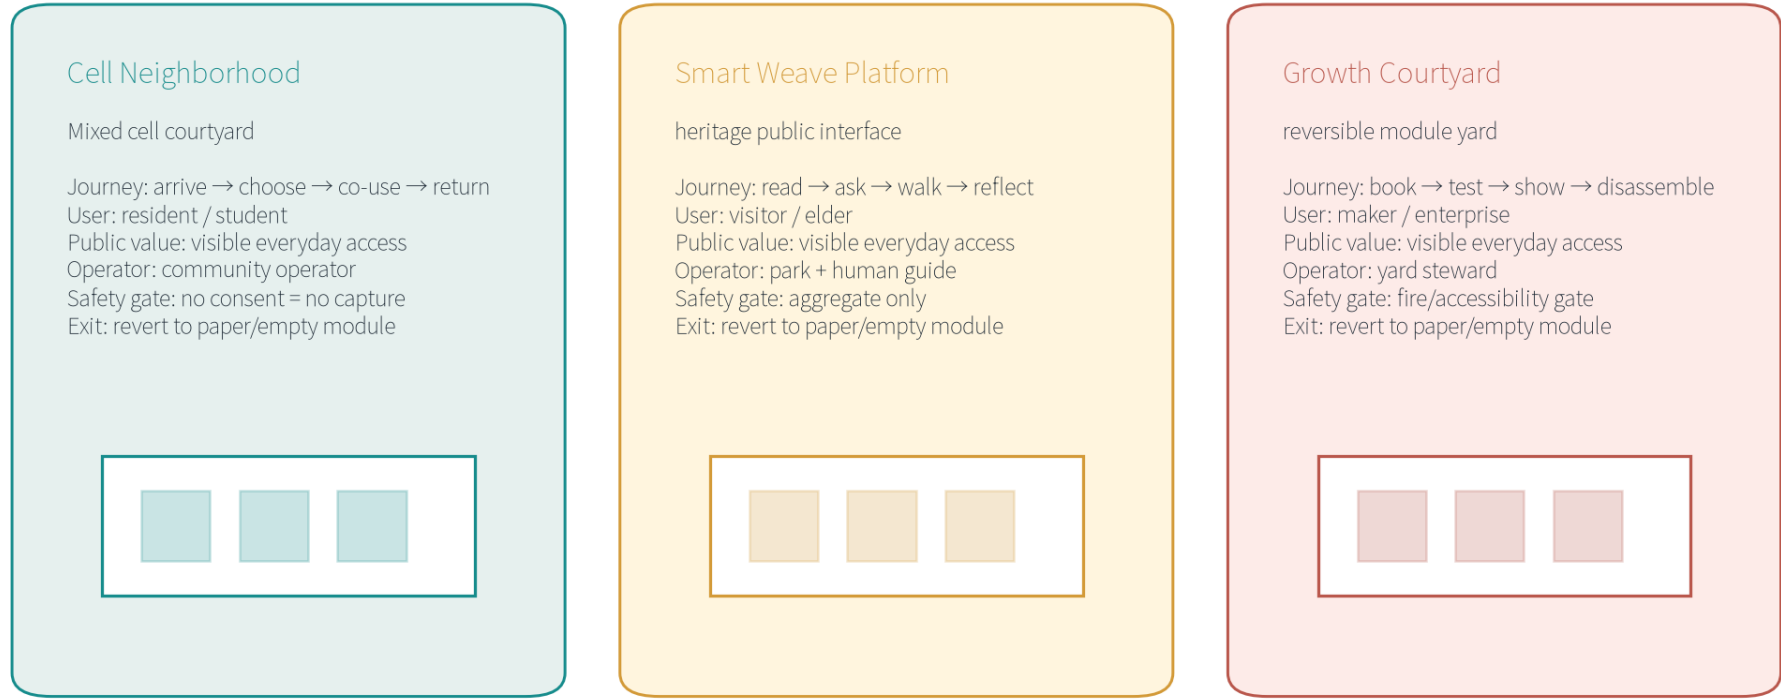

Conceptual diagram; provisional geometry; no statutory boundary or partner commitment.

site overview

Three node prototypes

Each node has a distinct spatial mechanism, journey, operator and exit gate.

key areas

East-west seam result

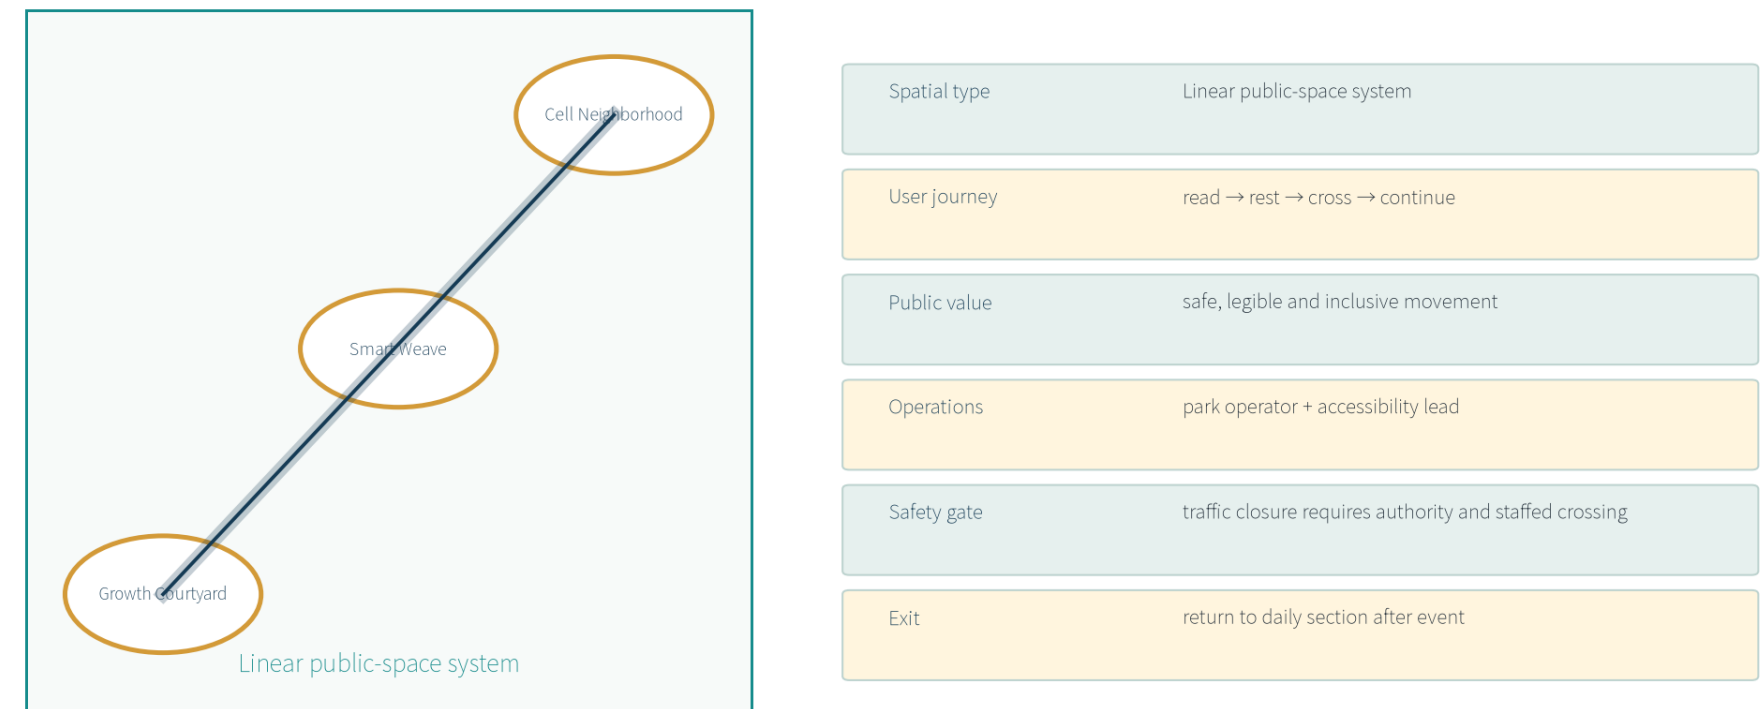

Three nodes / component mapping is explicit; all actions remain conceptual.

east-west seam

North-south continuity result

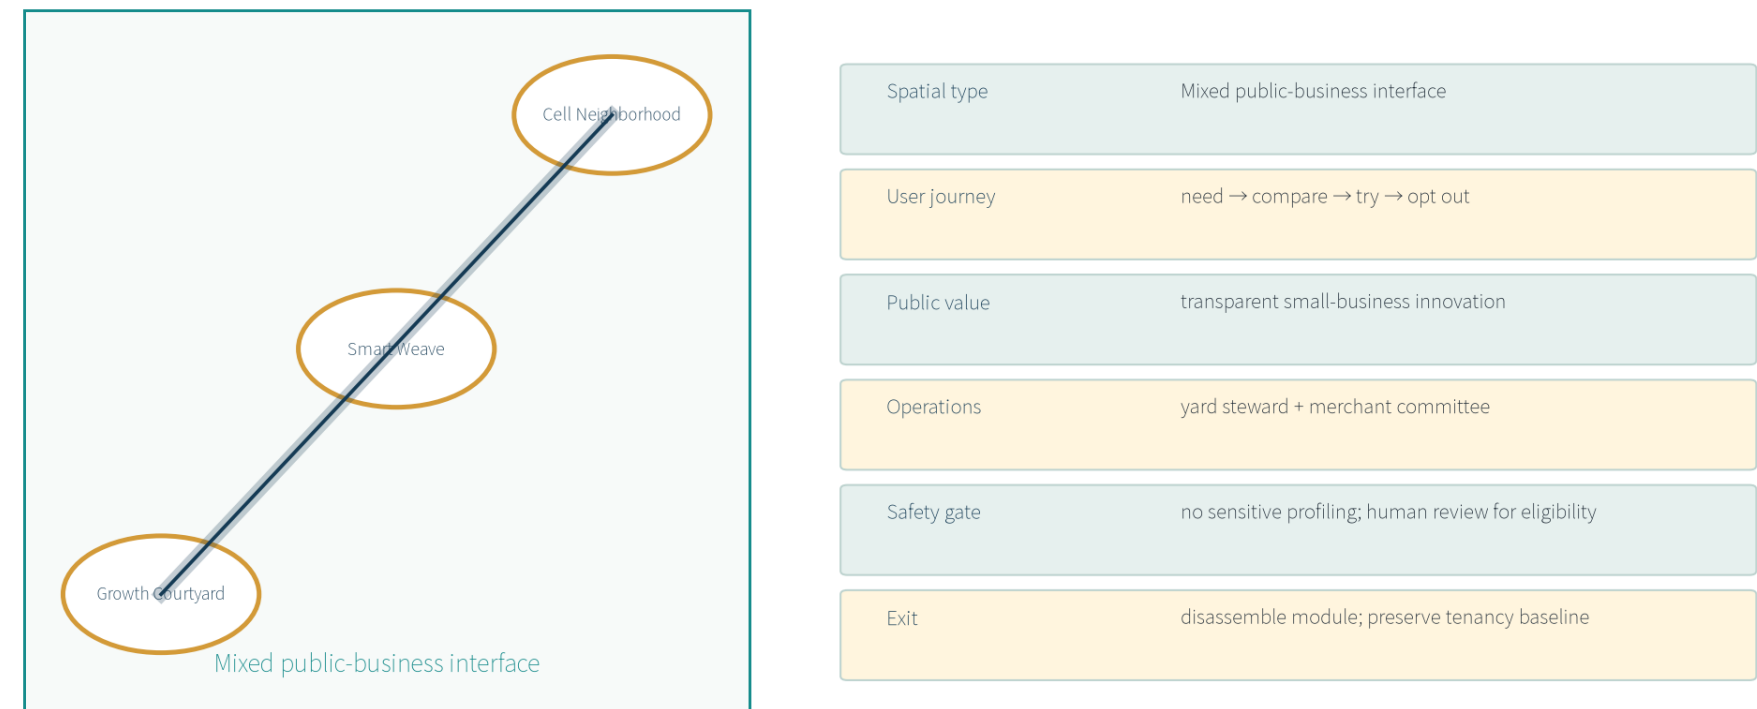

Three nodes / component mapping is explicit; all actions remain conceptual.

north-south continuity

Dazhongsi smart-native commerce result

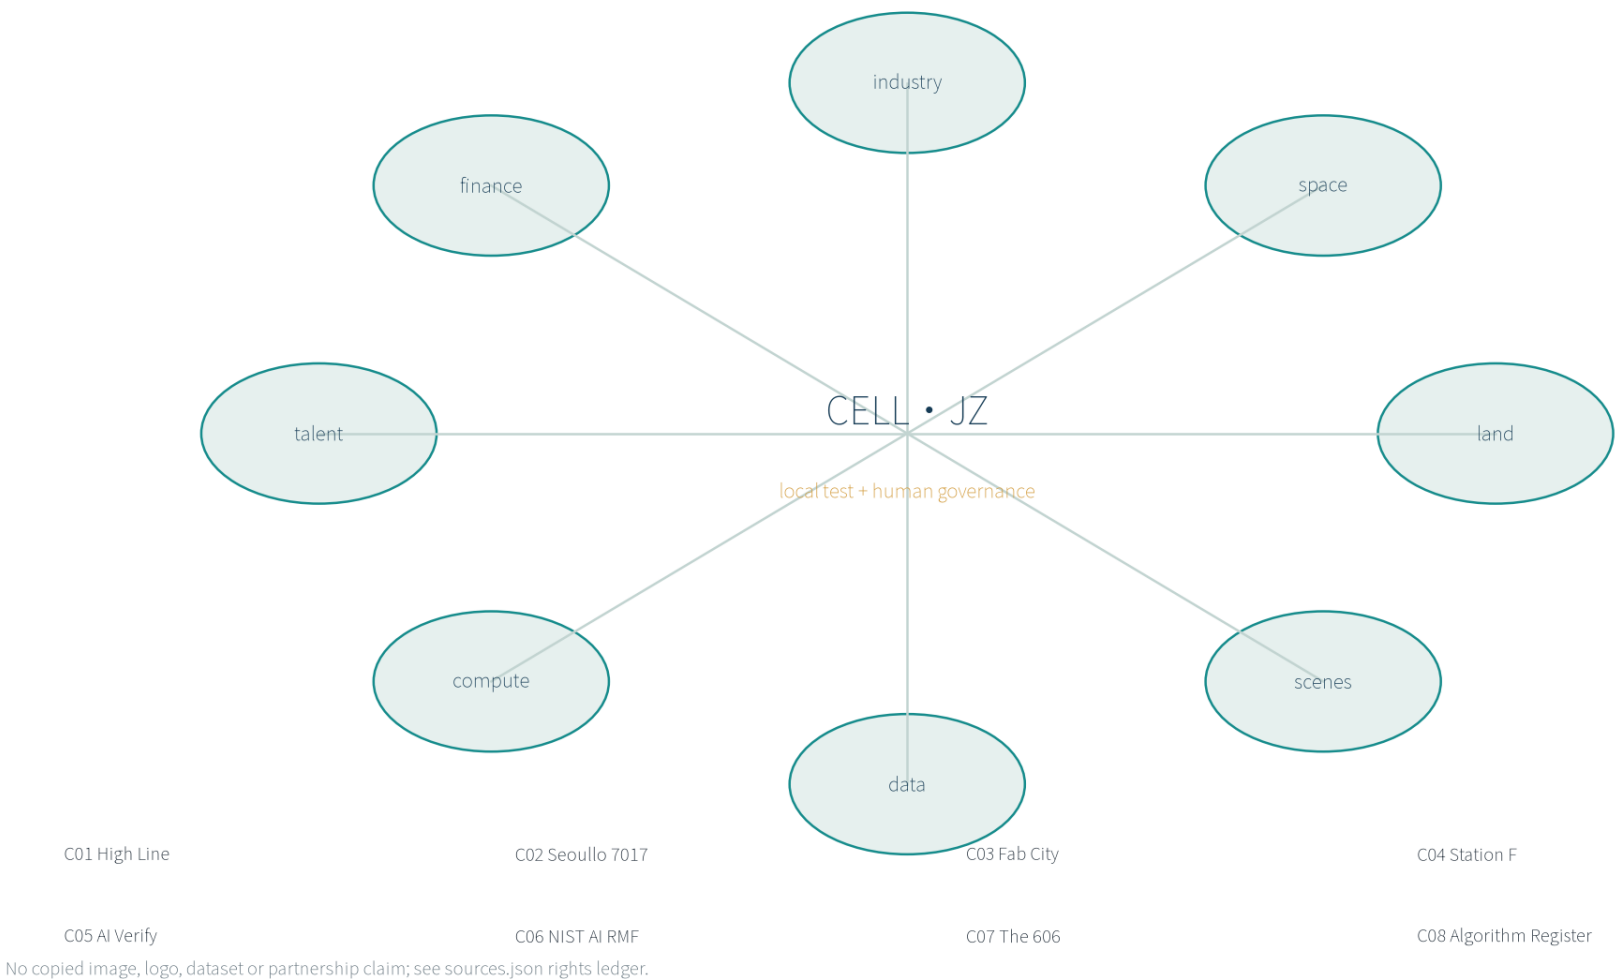

Three nodes / component mapping is explicit; all actions remain conceptual.

Eight-case AI ecosystem atlas

Reference only; mechanism comparison, local translation and non-reference boundary are explicit.

ecosystem atlas

Ten AI scene cards + three industry protocols

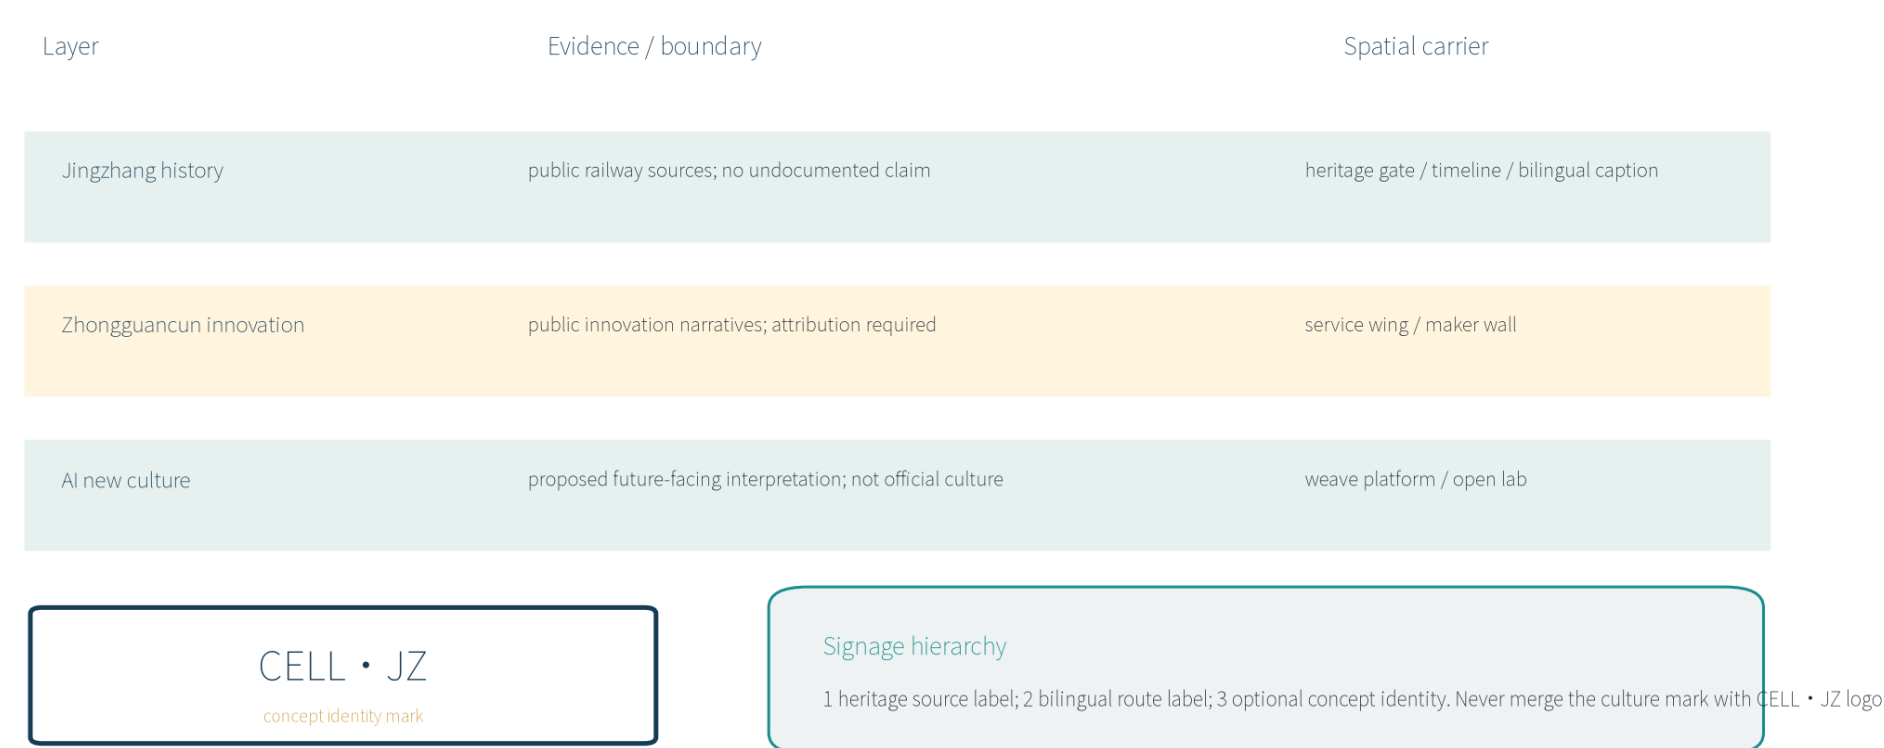

Every card names input status, model role, human fallback, privacy, failure, owner, maturity and KPI.

scenario cards

Culture system and identity boundary

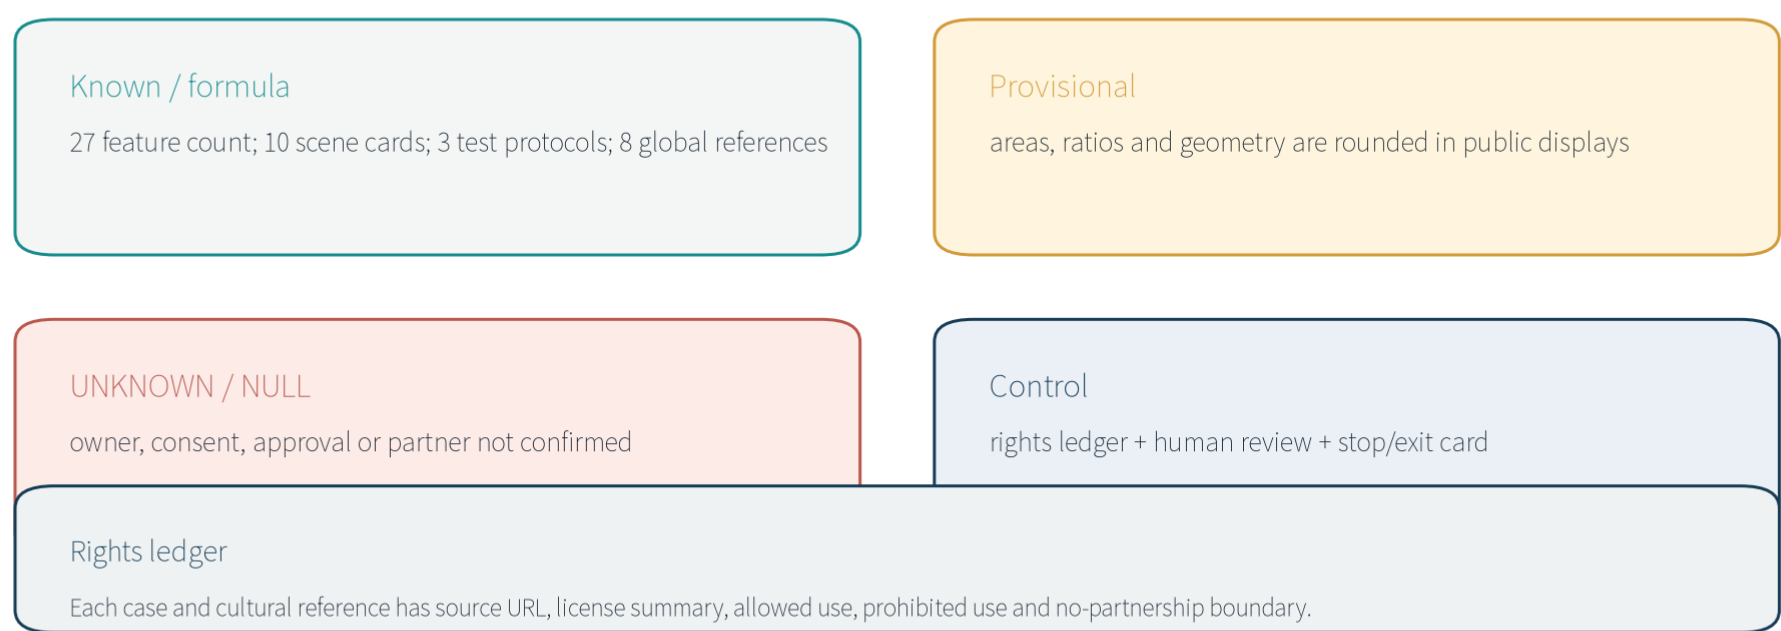

Cultural interpretation, wayfinding and CELL • JZ identity are separate layers.

culture system

Evidence, confidence and control

Unknown and NULL are actionable states; no metric is a permit or a monitoring mandate.
