

ONE DESK, ONE CITY

Move innovation from display to testable, reversible city adoption

CITY INNOVATION TIMETABLE

DESK → ROOM → STREET

01 DESK | OPEN ENTRY

Problem clinic · named owner
30-day checkpoint · public question log

02 ROOM | STOPPABLE TEST

Human stop · rights and safety gates
Publish both passes and failures

03 STREET | BOUNDED ADOPTION

Maintenance · complaint · exit loop
Return evidence to the commons

1 SPINE · 3 STATIONS · 2 WINGS · 12 DESKS

LAND USE AS A GROWTH LADDER

One civic spine supports three intensities and four commons

THREE ACCESS PRODUCTS

PLANNING CLAIM BOUNDARY

Land use maps operating intensity only.
It is not a parcel-level statutory, demolition,
construction or investment conclusion.

THREE-STATION RELAY

Prove → translate → adopt, with stop and exit at every station

PUBLIC QUESTION → PROTOCOL GATE → CONTROLLED TRIAL → BOUNDED ADOPTION → PUBLIC RECORD

COMMONS + SERVICE NETWORK

Walk to a desk, cycle between stations, connect adoption back to rail

THE FIVE-MINUTE DESK INTERFACE

DESK	booking / issue log	01
SHADE	rest / accessibility	02
REPAIR	maintenance / human takeover	03
RAIL	commute / adoption link	04

THREE NETWORK LAYERS

- PUBLIC SLOW-MOBILITY SPINE
- EAST-WEST DESK LANES
- BLUE-GREEN + ADOPTION LINKS

EVIDENCE BEFORE PROMISE

Figures explain design; structured data retains audit authority

AUDITABLE DELIVERY CHAIN

FIGURES EXPLAIN; STRUCTURED DATA REMAINS AUTHORITATIVE. RECALCULATE ALL OUTPUTS WHEN OFFICIAL DATA ARRIVES.
