This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.

Evidence First: Known, Provisional, Pending and Never Fabricated

about **11.41 km²**
provisional geometry

about **12.34%**
concept green ratio

about **2.04%**
conceptual nine-station
footprint ratio

The provisional boundary is for offline display and recalculation only;
it is not an official redline, survey or approval basis.

This is a competition concept under review, not selection, government endorsement,
authorization, investment, procurement or a built outcome.

The Jing-Zhang Belt-wide Spatial and Industry Ecosystem

1 public spine

3 everyday loops

9 conceptual service stations

6 global mechanism cases

The provisional boundary is for offline display and recalculation only; it is not an official redline, survey or approval basis.

This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.

Selection Gates for S, M and L Carrier Types

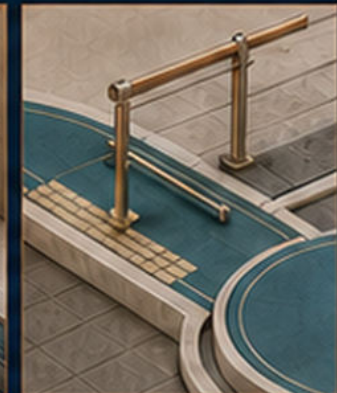

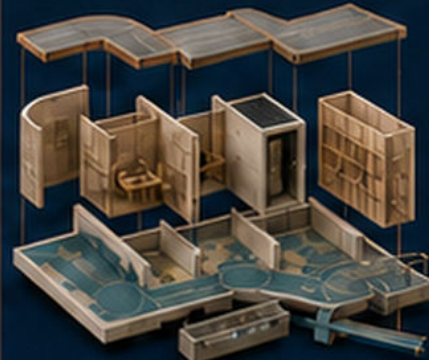

S 120–180 m ²			M 180–280 m ²			L 280–450 m ²			3 carrier types		

The 1:200 Five-moment Origin Life Service Station

1:200 concept prototype

5 spatial moments

2 independent exits
as an assumption

The provisional boundary is for offline display and recalculation only; it is not an official redline, survey or approval basis.

This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.

8 reversible components

Eight Reversible Components and Restoration to Ordinary Service

5 spatial moments

The provisional boundary is for offline display and recalculation only; it is not an official redline, survey or approval basis.

This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.

Twelve Service Contracts and the Public AI Register

12 service contracts

72 synthetic tabletop checks

12 tabletop releases

60 blocked negative cases

The provisional boundary is for offline display and recalculation only; it is not an official redline, survey or approval basis.

This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.

Accessibility, Affordability and Co-design Decision Rights

3 planned co-design stages

7 recruitment targets

12 service contracts

The provisional boundary is for offline display and recalculation only;
it is not an official redline, survey or approval basis.

This is a competition concept under review, not selection, government endorsement,
authorization, investment, procurement or a built outcome.

Cost Model, Procurement Clauses and Official Referral Path

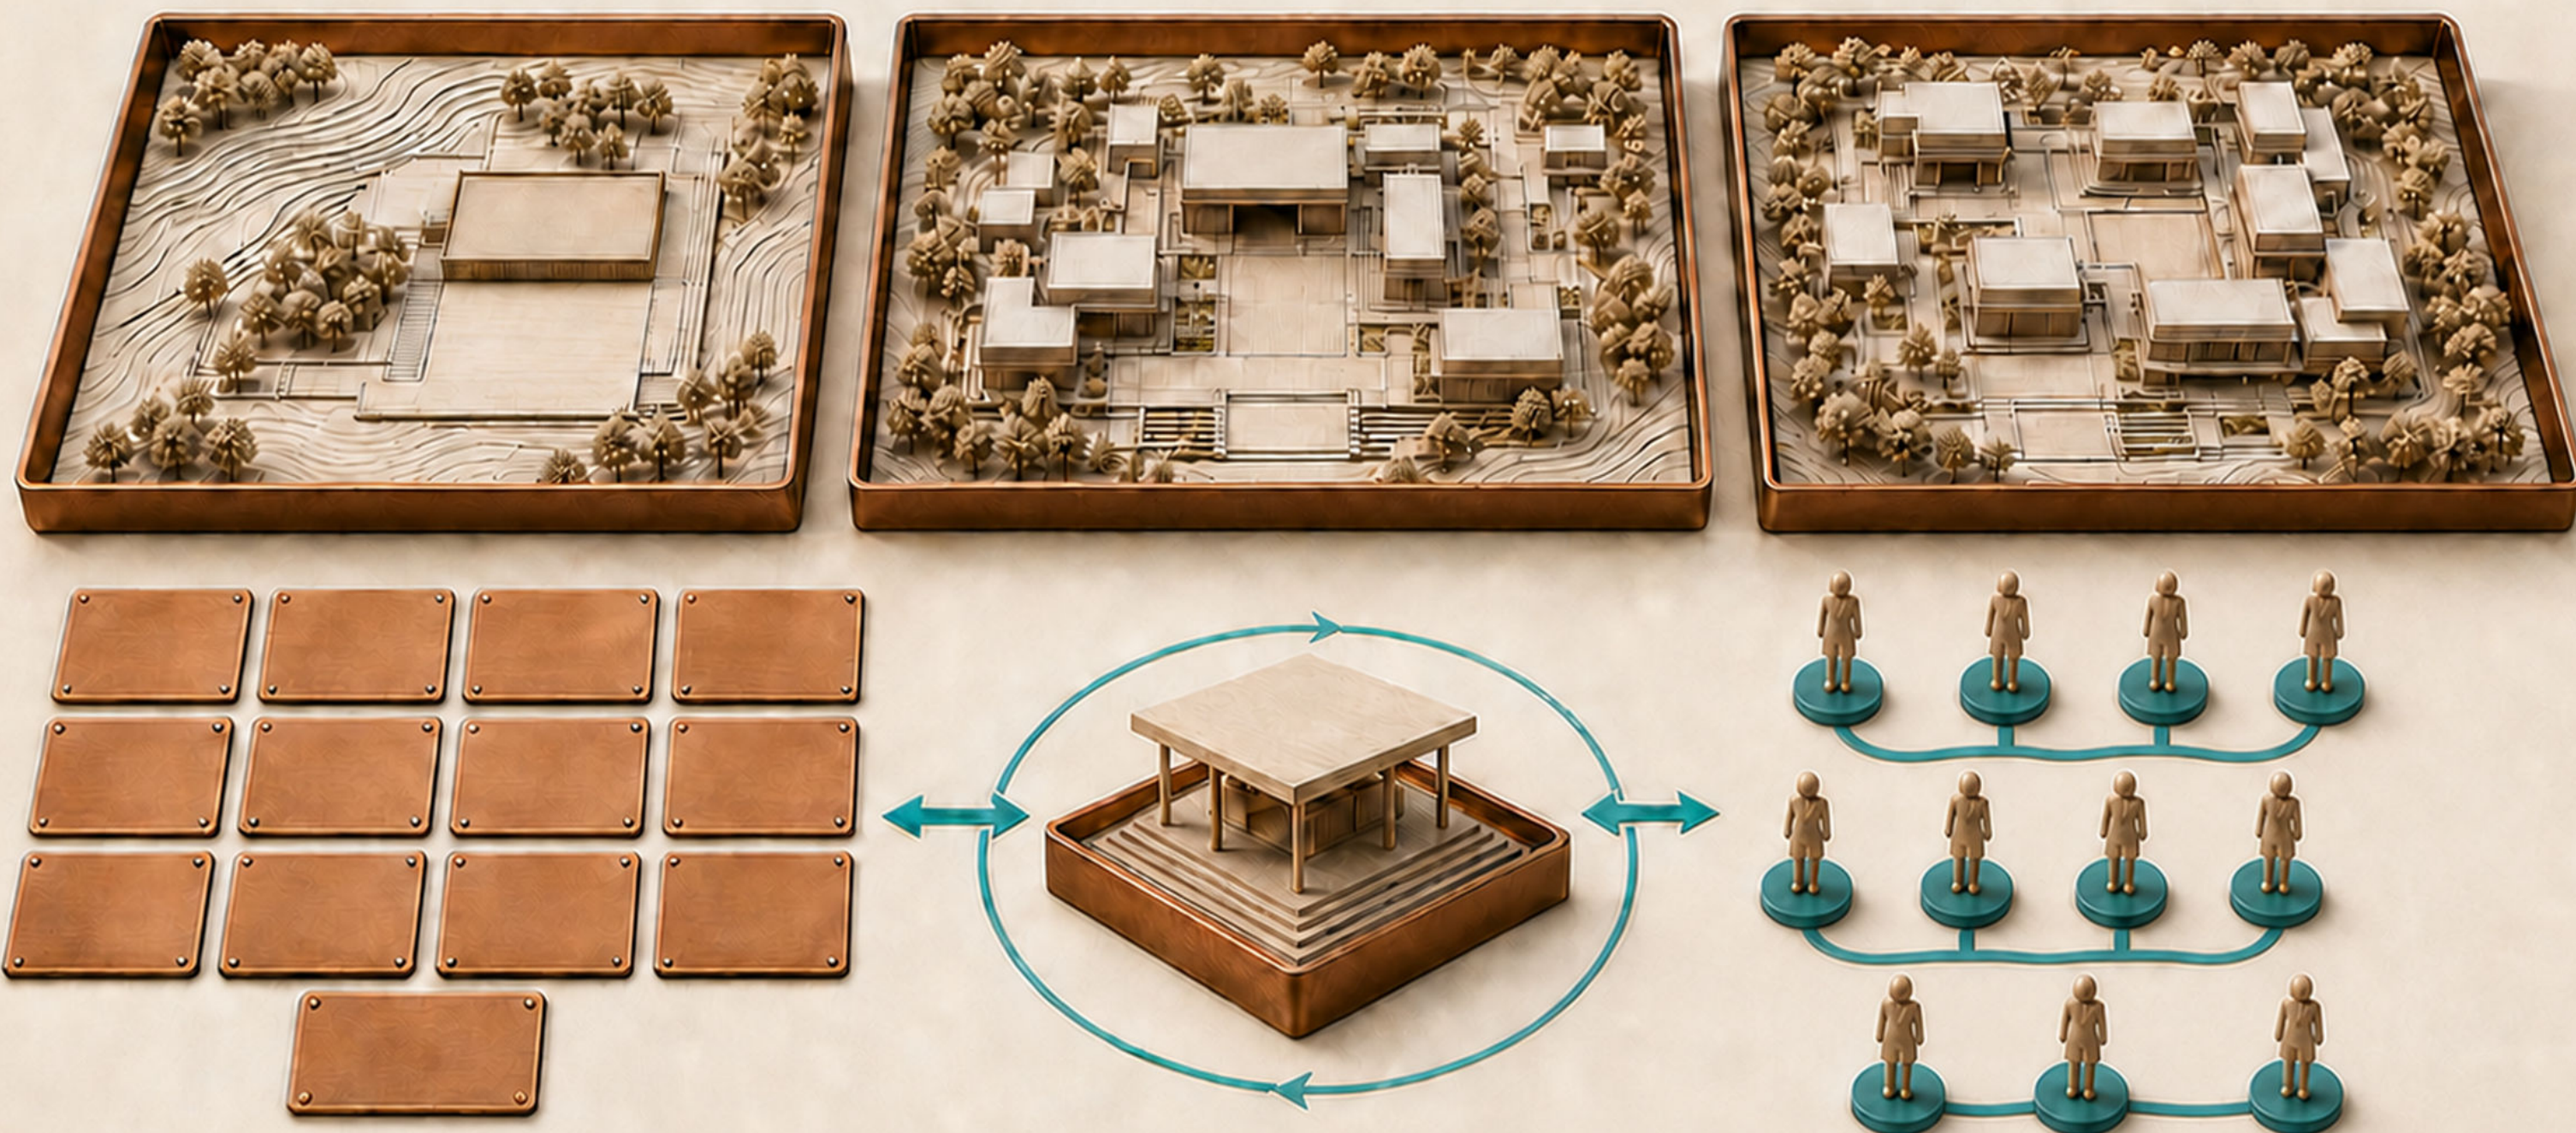

CNY 1,811,760 low assumption

CNY 3,038,880 base assumption

CNY 5,120,000 high assumption

13 procurement topics

11 pending referral roles

The provisional boundary is for offline display and recalculation only; it is not an official redline, survey or approval basis.

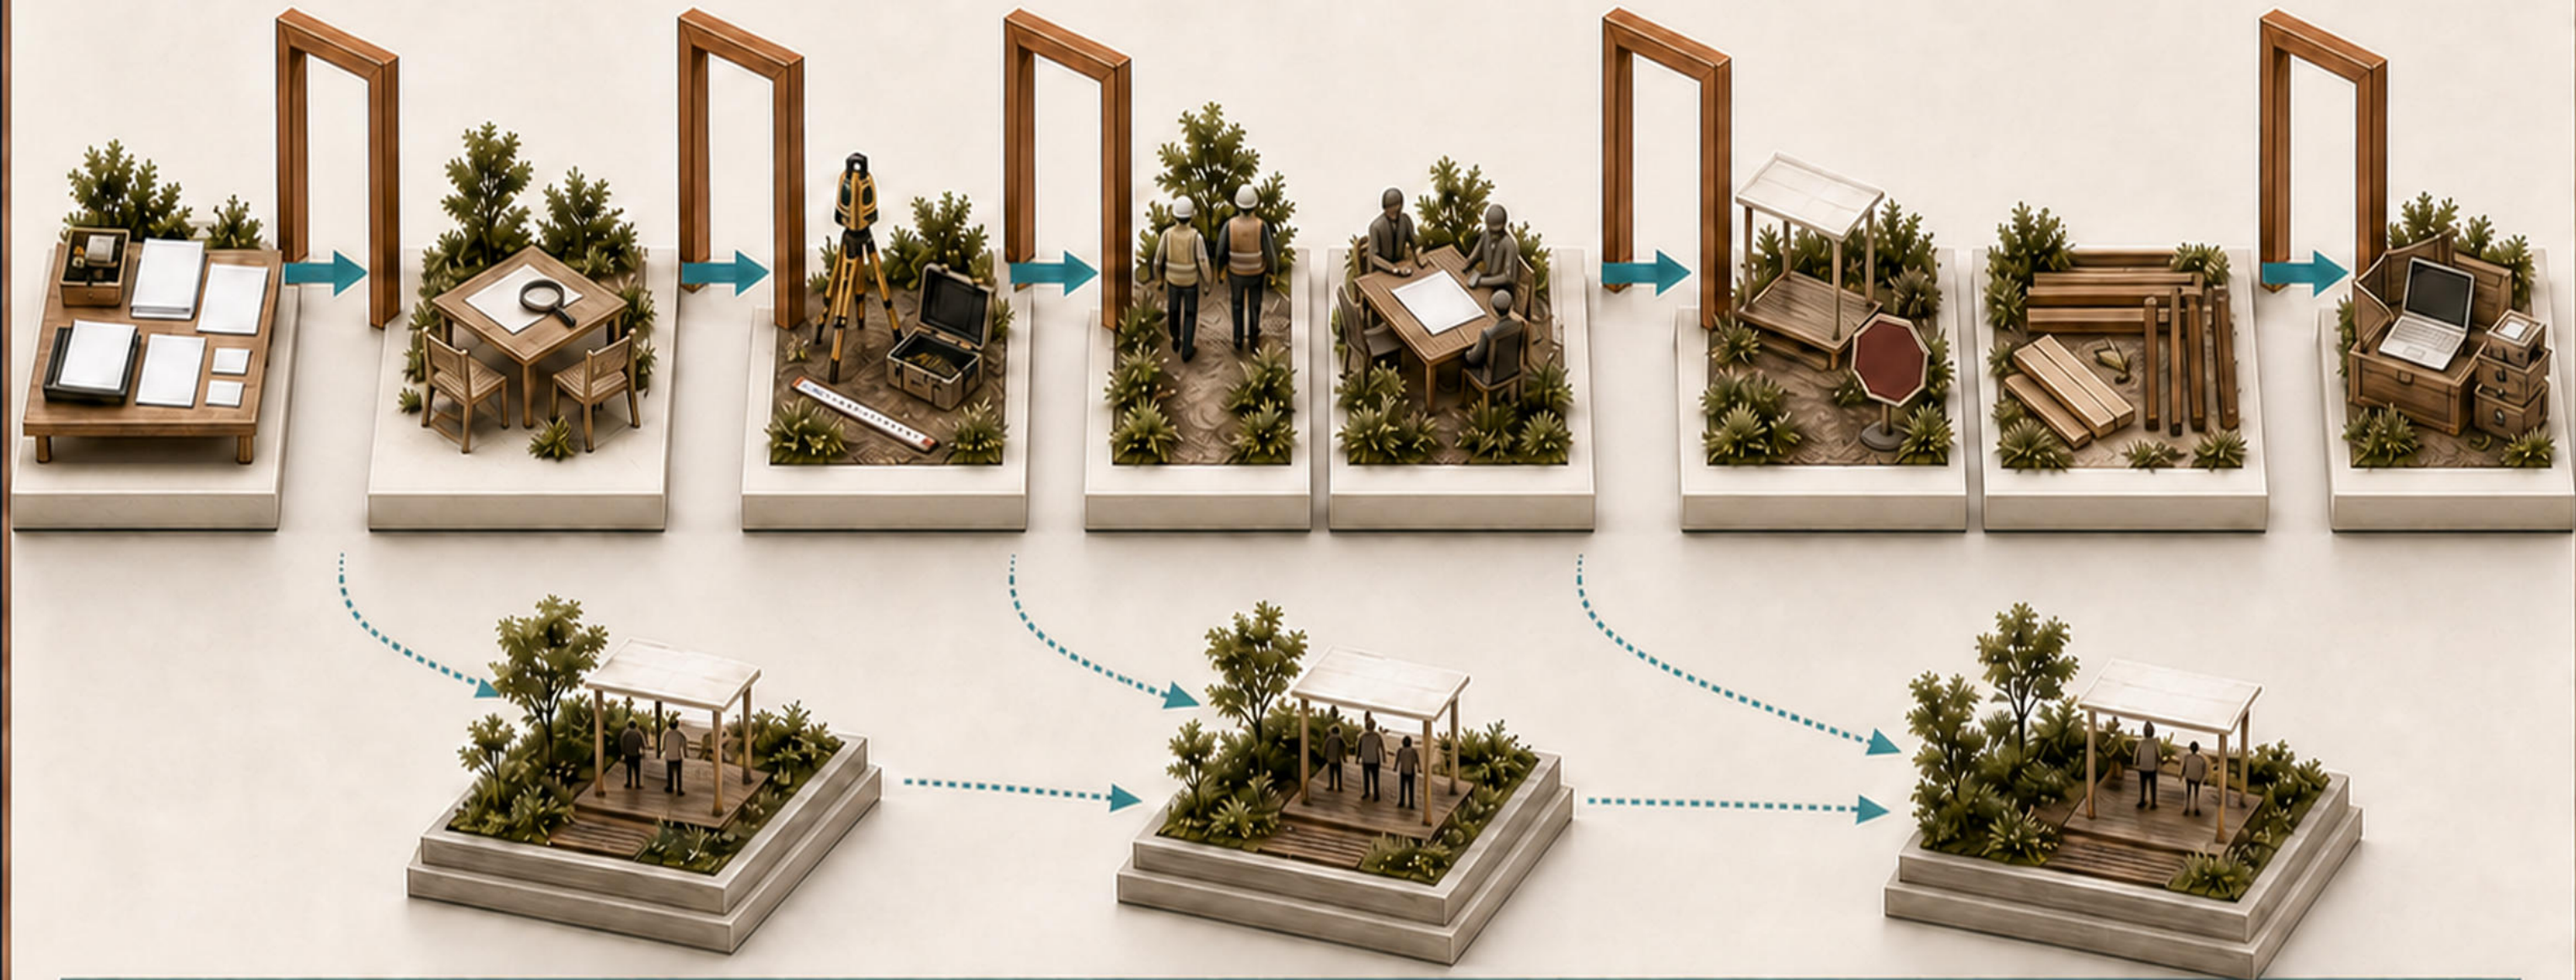

This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.

Monitoring and Exit across 0-100 Days and Months 3/12/36

8 first-100-day work packages

5 evidence gates

3/12/36-month checkpoints

The provisional boundary is for offline display and recalculation only; it is not an official redline, survey or approval basis.

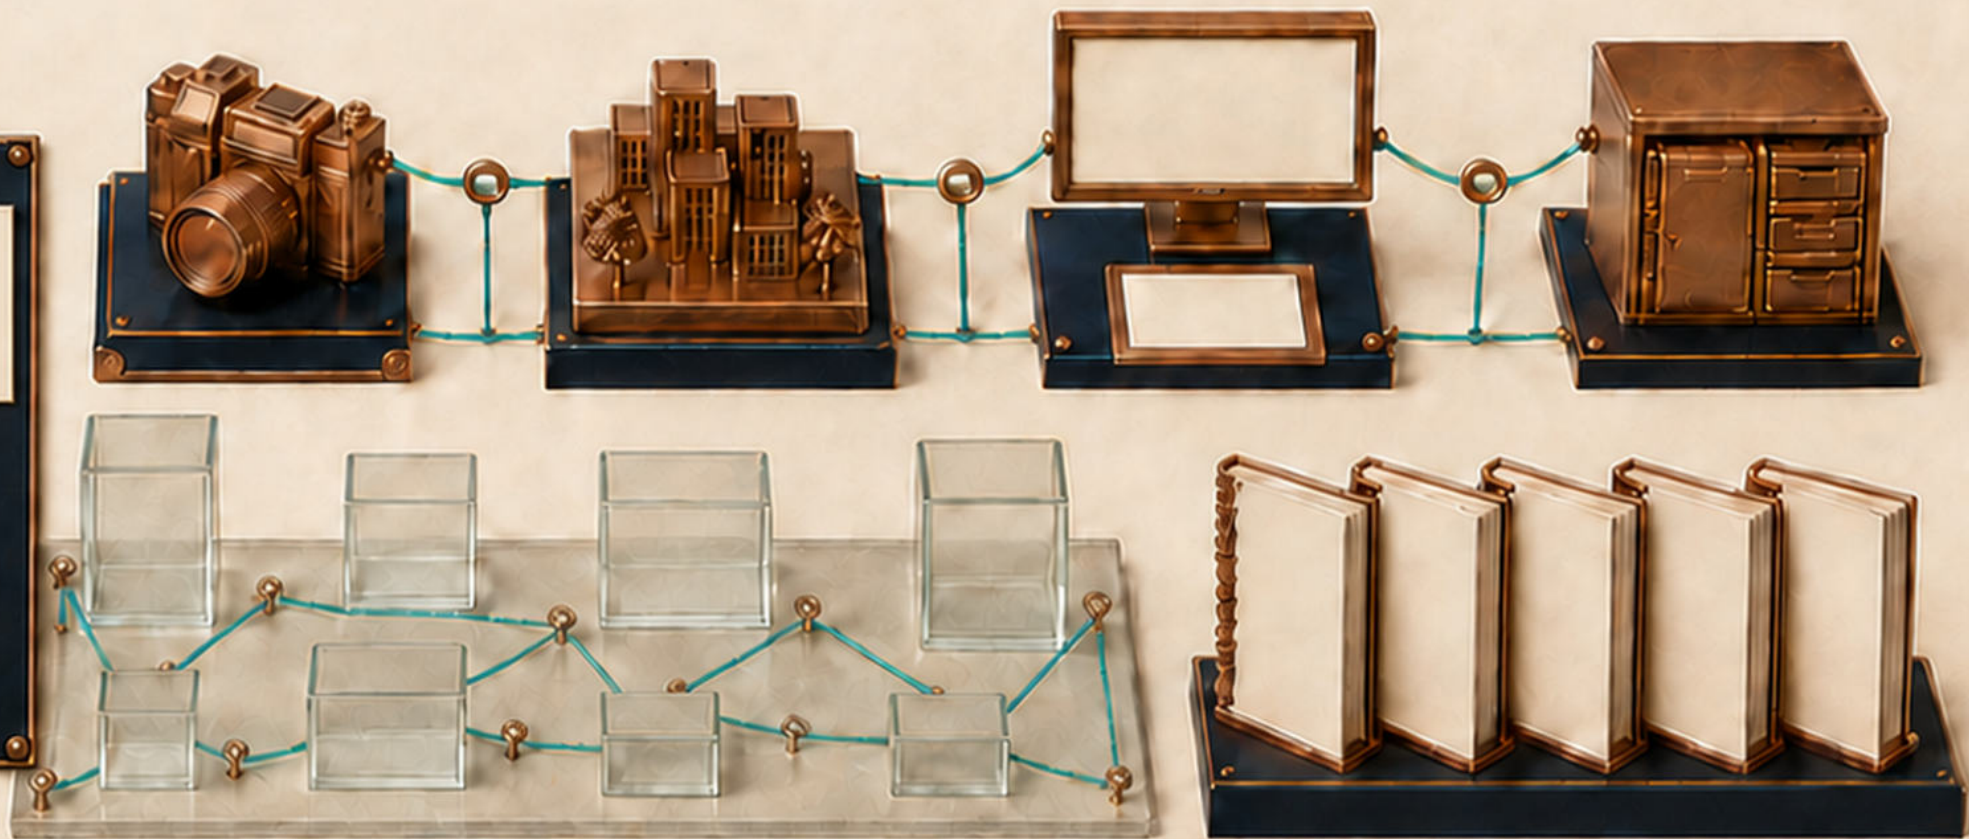

This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.

Sources, Asset Rights, Unknowns and Non-endorsement

34 visible Image-2 pages

23 source records

4 final PDFs

The provisional boundary is for offline display and recalculation only; it is not an official redline, survey or approval basis.

This is a competition concept under review, not selection, government endorsement, authorization, investment, procurement or a built outcome.
