

JING-ZHANG BREAKS NEW GROUND

From Frontier AI to Trusted Urban First Use

V0.8 / URBAN FIRST-USE PROTOTYPE /
CONCEPT DESIGN

SOURCE - STACK - PROVE - LIVE & MARKET - ENABLE - COMMONS

6 / 6

network roles / anchors

5 / 12

flagship pilots / scenarios

1

FP01 contract template

5/5 - 12/12

time gates / clauses

11.41 km²

provisional scope

UNKNOWN

actual first-use procurement

Three Spatial Experiences

CONCEPT EXPERIENCE - NOT SITE PHOTOGRAPHY - NOT APPROVED ARCHITECTURE - PROVISIONAL GEOMETRY

ZHONGZHIYUAN

STACK + PROVE

Public observation, a clear safety boundary, staffed control, physical emergency stop and visible energy interface.

AI ORIGIN

SOURCE + ENABLE

A no-smartphone wheelchair user reaches a staffed counter first; evaluation and appeal roles remain separate.

DAZHONGSI

LIVE & MARKET

Small merchants and creators stay frontstage; staffed service, dispute review and a contribution archive connect.

Provisional geometry has not been verified as correct. Community checks #846 / #1029 remain background warnings; V0.8 moves no coordinates. Official SITE/KEY polygons trigger whole-package recalculation.

100-Day First-Use Contract

GO only unlocks separate procurement, legal and professional authorization discussion. REVISE / STOP freezes automation, pays no outcome fee, restores the human baseline, disposes data, returns assets and places failure evidence in COMMONS.

FP01-CONTRACT-001

S03 + S04 + S07 / PUBLIC-TEST-001 / ROOM-TEST-001

GO only unlocks separate procurement, legal and professional authorization discussion. REVISE / STOP freezes automation, pays no outcome fee, restores the human baseline, disposes data, returns assets and places failure evidence in COMMONS.
