

THE BORROWABLE CITY

Making AI capability a civic resource to borrow, test, and return

• One public catalogue line · three capability libraries · two inter-library wings · twelve returnable kits

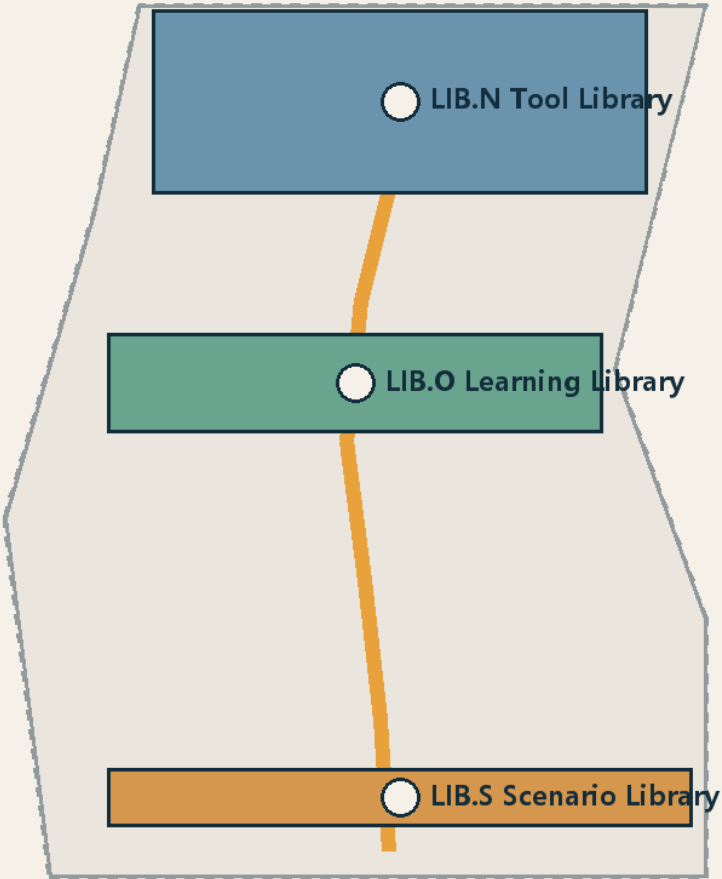

01 CONCEPT AND EVIDENCE BOUNDARY

Three-level scope and provisional geometry

- All spatial moves are conceptual recommendations for professional development
- Recompute the complete package when official polygons arrive

THE BORROWABLE CITY / 京张借智线

One catalogue line · Three capability libraries · Two inter-library wings · Twelve returnable kits

BORROW • TEST • RETURN

BORROW

Book public stock: models, robots, compute, mentors, and settings with in-person guidance.

TEST

Use within a controlled place and defined term; humans confirm every high-risk outcome.

RETURN

Return tools, faults, energy, human differences, and public value to open review.

PROVISIONAL ROUGH BOUNDARY / CONCEPT DISCUSSION ONLY / NOT STATUTORY PLANNING

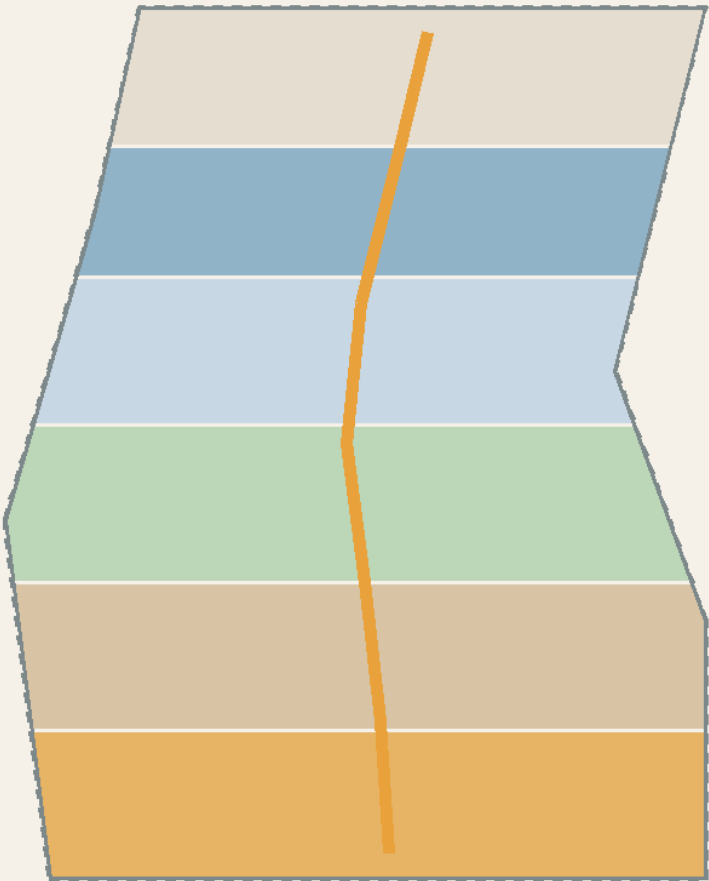

02 SPATIAL STRUCTURE AND RENEWAL

Six transformable bands

- Complete coverage without gaps or overlaps
- Retain, repair, insert, only then consider removal

SIX TRANSFORMABLE SPATIAL BANDS

The union equals the submitted boundary; codes enable recomputation and do not amend regulatory planning

	01 Scenario trials and commerce	05
	02 Community service and lending foyers	0702
	03 Park green and public catalogue line	1401
	04 Learning and education	0804
	05 Tool validation and research	0802
	06 Return review and flexible reserve	16

Priority: existing civic life > reversible lending modules > permanent technology

03 THREE LIBRARIES

Tools, learning, and scenarios

- LIB.N □□□ / Tool Library
- LIB.O □□□ / Learning Library
- LIB.S □□□ / Scenario Library

THREE LIBRARIES, THREE DISTINCT ROLES

Catalogue tools · Learn together · Trial adoption

LIB.N ZHONGZHIYUAN TOOL LIBRARY

Edge compute, sensors, embodied robots, evaluation and safety templates

- Catalogue
- Check-out
- Controlled tri
- Return

LIB.O AI ORIGIN LEARNING LIBRARY

Mentors, courses, reproducibility, civic learning and licence clinic

- Catalogue
- Check-out
- Controlled tri
- Return

LIB.S DAZHONGSI SCENARIO LIBRARY

Agent market, small-business service, short-term counters and returns

- Catalogue
- Check-out
- Controlled tri
- Return

Shared baseline: staffed · no-app equivalent · term review · removable · failures published

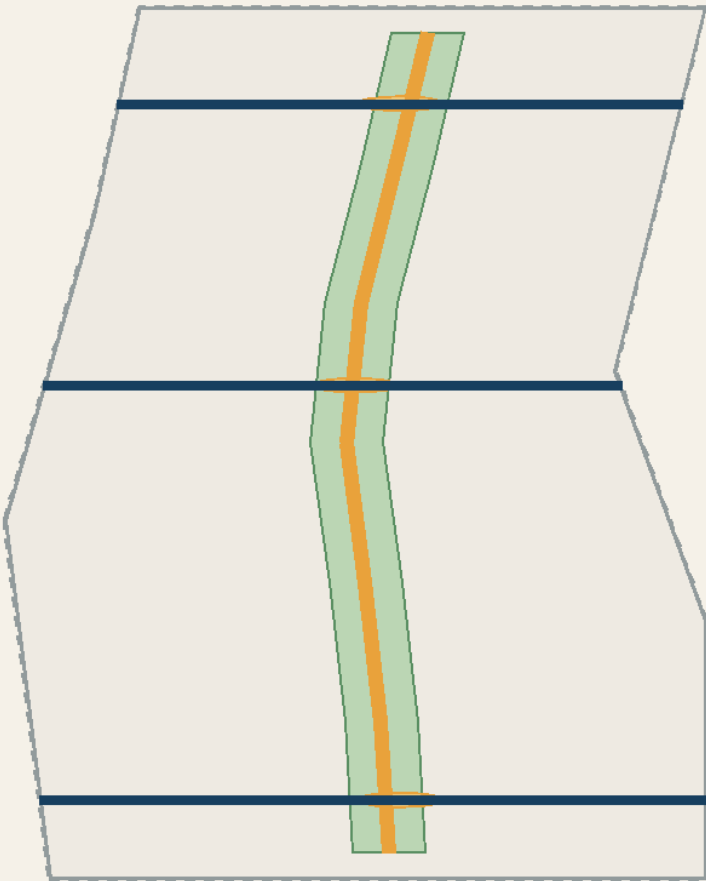

04 TWELVE SCENARIO KITS

Three industry tests include terms, stop conditions, and returns

- T1 Edge-compute loan
- T2 Embodied-robot street class
- T3 Agent-market trial

ACCESS BEFORE INTELLIGENCE

Catalogue spine, three cross-links, and blue-green public space reviewed together

FOUR ACCESS DISCIPLINES

- 01 Do not occupy continuous paths, tactile routes, fire access, or evacuation
- 02 Paper catalogue and staffed desk equal digital booking
- 03 Concentrate modules at entrances, squares, and adaptable ground floors
- 04 Device failure never interrupts ordinary park use or basic service

Geometry expresses relationships only; redlines, interchange, and parking await professional confirmation

05 METRICS, CHECKS, AND DELIVERY

First 100 days: one locker plus three kits

- Accept complete return receipts, not exposure
- Machine validation is not government approval

ONE EVIDENCE CHAIN, FIVE RECOMPUTABLE METRICS

GeoJSON → EPSG:4548 → metrics.json → Figures / HTML / PDF

Submitted boundary area

11.413 km²

site_area_sqm

Prototype footprints

27,000 m²

building_footprint_area_sqm

Concept green ratio

11.2%

green_ratio

Concept public-space ratio

0.6%

PENDING OFFICIAL DATA

- 官方边界 / Official polygons
- 容积率与高度 / FAR and height
- 道路红线与市政 / Road redlines and utilities
- 权属、文保与实施主体 / Ownership, heritage, delivery roles

PASS means machine-review ready, not official approval or professional endorsement
