

Jingzhang AI Corridor Rail City

A3 Booklet · Urban Design Proposal

One spine · three yards · two loops — trains arrive, algorithms disembark | provisional · concepts only

Translating the Jingzhang railway yard system into urban grammar: green spine as main line, three key areas as innovation yards (Zhongzhiyuan=departure, AI Origin=re-sorting, Dazhongsi=arrival), stitch corridors and a cycle loop as connecting tracks. The package includes six land-use belts, 12 AI scenario cards (3 industry tests), 6 personas, 3 AI landmarks, 9 concept renewal projects, and three phases. All spatial moves are concept proposals; the package recalculates wholesale once the official redline is released.

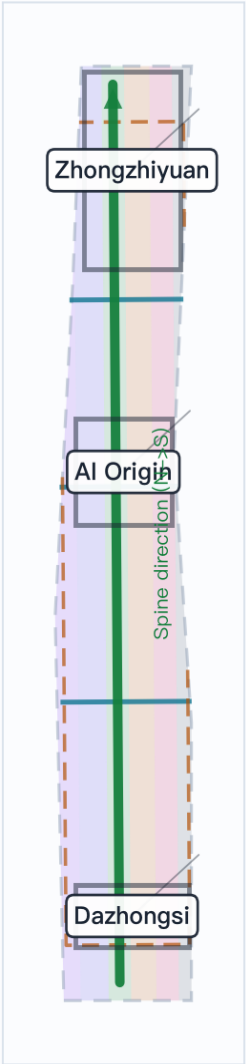

00 核心指标 · Core metrics

site_area_sqm	11,412,825
green_ratio	34.97%
public_space_ratio	11.65%
building_footprint_area_sqm (concept)	751,552
spine_length_m	9,308
scenario cards / personas / landmarks	12 / 6 / 3
renewal projects / phases	9 / 3

FAR/height/density: unknown（待官方控规）· provisional boundary

Jingzhang AI Corridor Rail City — Concept Overview

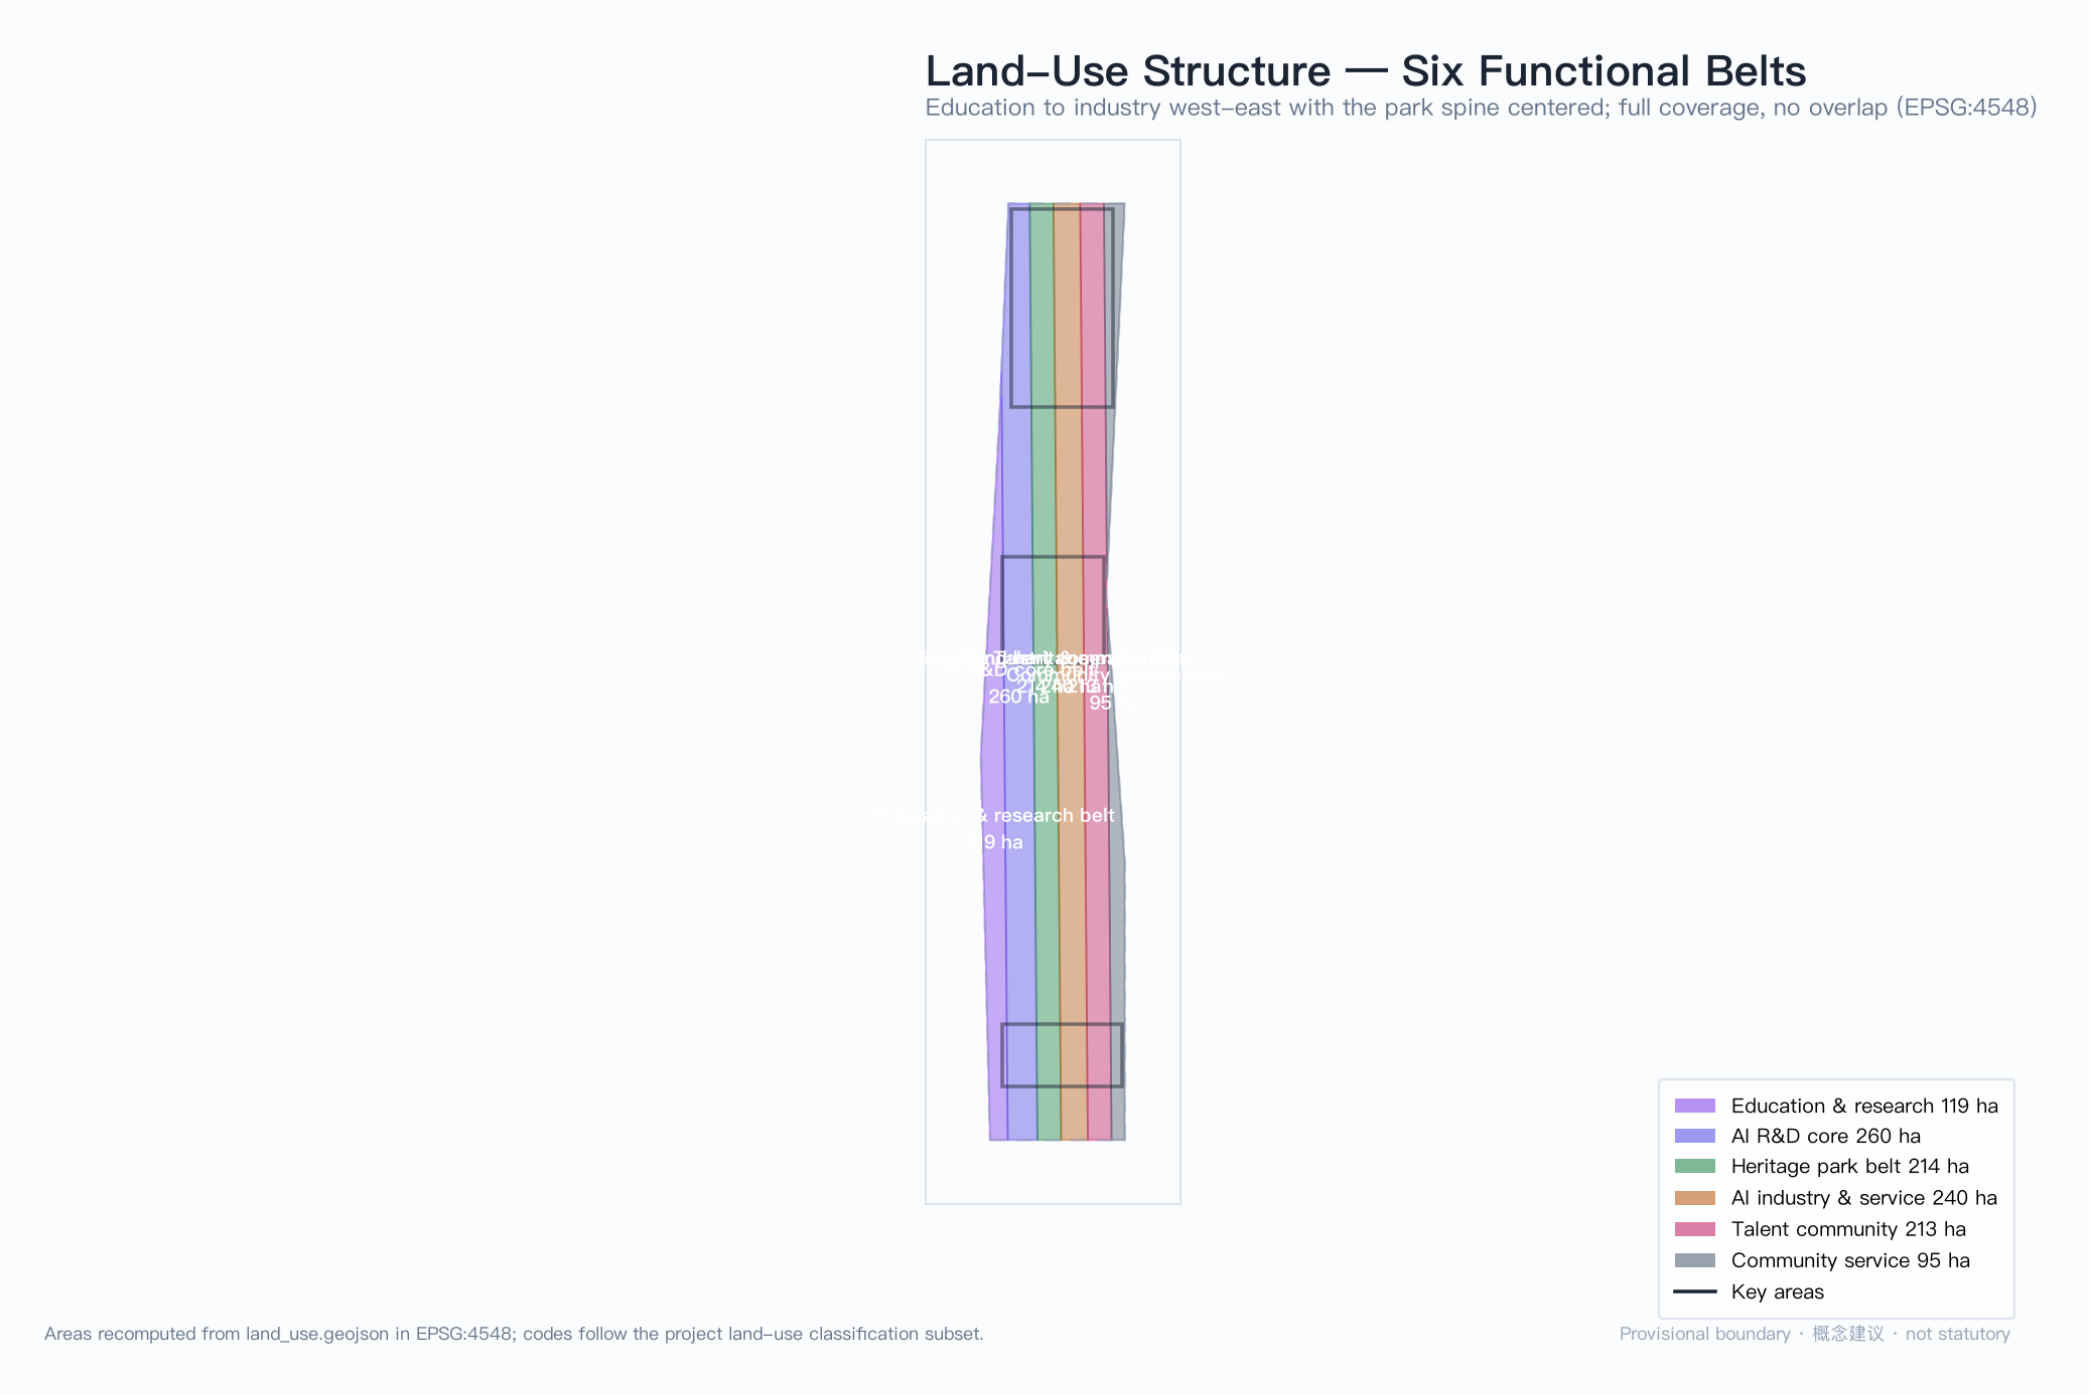

One spine, three yards, two loops: heritage green spine x three innovation yards x stitch corridors & cycle loop

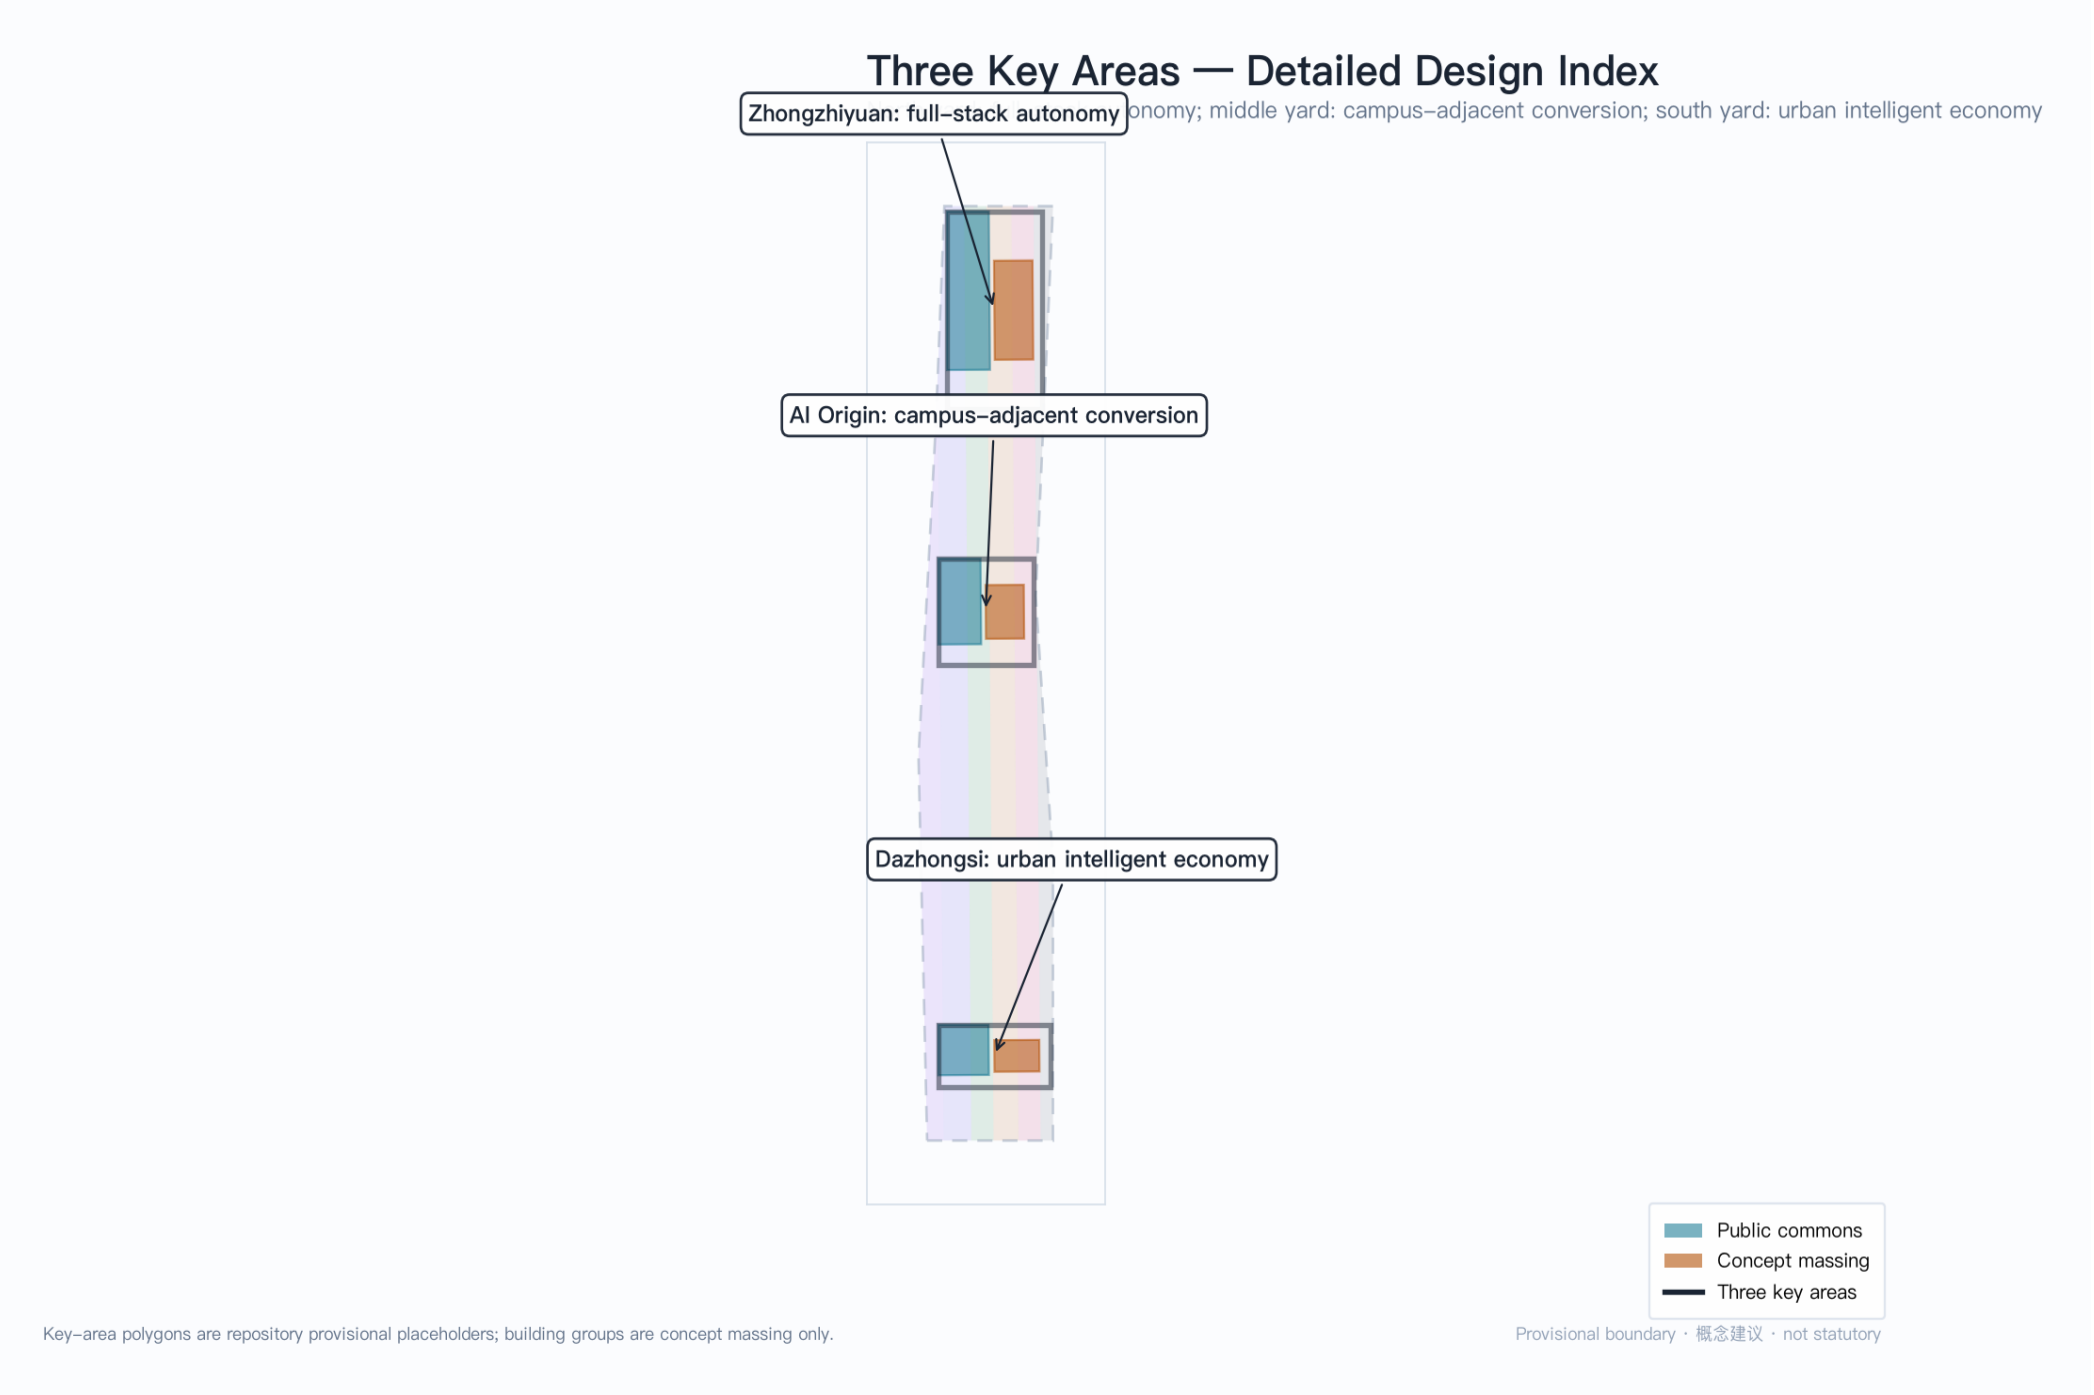

- Green spine
- Stitch corridors
- Cycle loop
- Key areas
- Provisional boundary

Derived from package geometry/*:geojson; provisional repository boundary shown dashed, not an official redline.

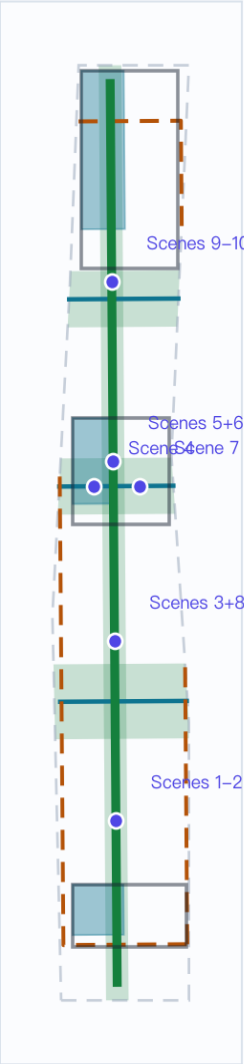

Provisional boundary · 概念建议 · not statutory

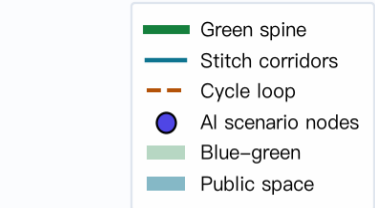

Mobility x Blue-Green Public Space System

One spine, three stitch corridors, one loop, AI nodes along: slow-mobility first, stitched, continuous, accessible

Centerlines are concept organization only, not redlines or engineering alignments; see metrics.json for areas.

Provisional boundary · 概念建议 · not statutory

Core Metrics Recalculation & Evidence Chain

All metrics recomputable from package GeoJSON in EPSG:4548; provisional values keep low confidence and recalc triggers

Core visual metrics (known, low-confidence provisional)

Site area (recomputed, EPSG:4548)

11.41 km²

site_area_sqm

Green ratio (spine+wedges / site)

35.0 %

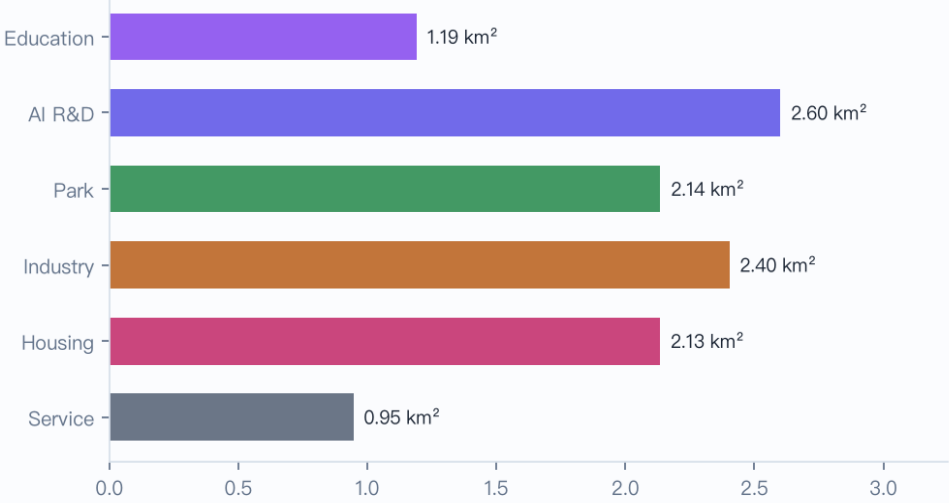

green_ratio

Public-space ratio (cores / site)

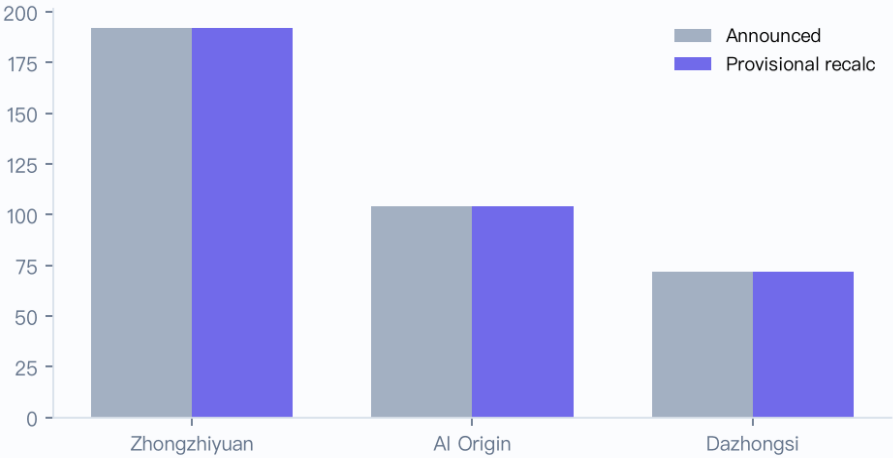

11.7 %

public_space_ratio

Land-use structure (full coverage)

Key areas: announced vs provisional recalc (ha)

Self-check status & compliance coverage

PASS

Deterministic

PASS

PASS

Professional

Coverage: all 17 announcement tasks + agent.1–6 covered in compliance_matrix (23 entries)

Unknown metrics: FAR, height, density (pending official controls) stay unknown

Evidence chain: geometry -> metrics.json (formula+source) -> visual/index.html (matching data-metric) -> self_check.json four gates.

Provisional boundary · 概念建议 · not statutory

Jingzhang AI Corridor Rail City

A3 Booklet · Urban Design Proposal

One spine · three yards · two loops — trains arrive, algorithms disembark | provisional · concepts only

06 Design basis & sources

Official announcement and taskbook first; repository provisional polygons (official_boundary=false) for generation and discussion only; controls/redlines/ownership unpublished with metrics unknown.

07 Three-level scopes

Research 43.6 km² (chain & wings) → overall 11.41 km² (spine-yards-loops + belts) → key areas 368.4 ha (three yards).

08 Key-area designs

Zhongzhiyuan departure: full-stack + Qinghe + sandbox; Origin re-sorting: campus conversion + release ring + housing; Dazhongsi arrival: four-quadrant stitching + roadshow + data salon. Common triple: commons + cluster + gateway.

09 Scenarios & personas

12 cards with carriers, privacy boundaries, review, operators; 6 personas mapped to scenario sets; 3 industry tests: agent sandbox, safety gallery, low-speed delivery.

10 Landmarks & honors

Kilometer-Zero Signal Tower, Yard Dispatch Wall, Arrival Bell; contribution walls in three commons with authorized data.

11 Projects & phasing

9 concept projects; three phases: spine pilots → key-area renewal → corridor completion.

12 Risk, copyright & compliance

Redline unreleased → wholesale recalc; ownership/survey missing → method framework; heritage unpublished → no heritage fabric; figures programmatically generated.
