

COMMON TIME | EVIDENCE-GATED CIVIC-AI SPATIAL CONTRACT

Not a final-state masterplan: a spatial contract that makes civic-AI pilots auditable, stoppable and reversible.

This page claims no completed works, statutory boundary, approved budget or appointed owner.

✓

REAL | documented public evidence

⬜

PROVISIONAL | relational geometry

▲

GENERATED | illustration, not existing condition

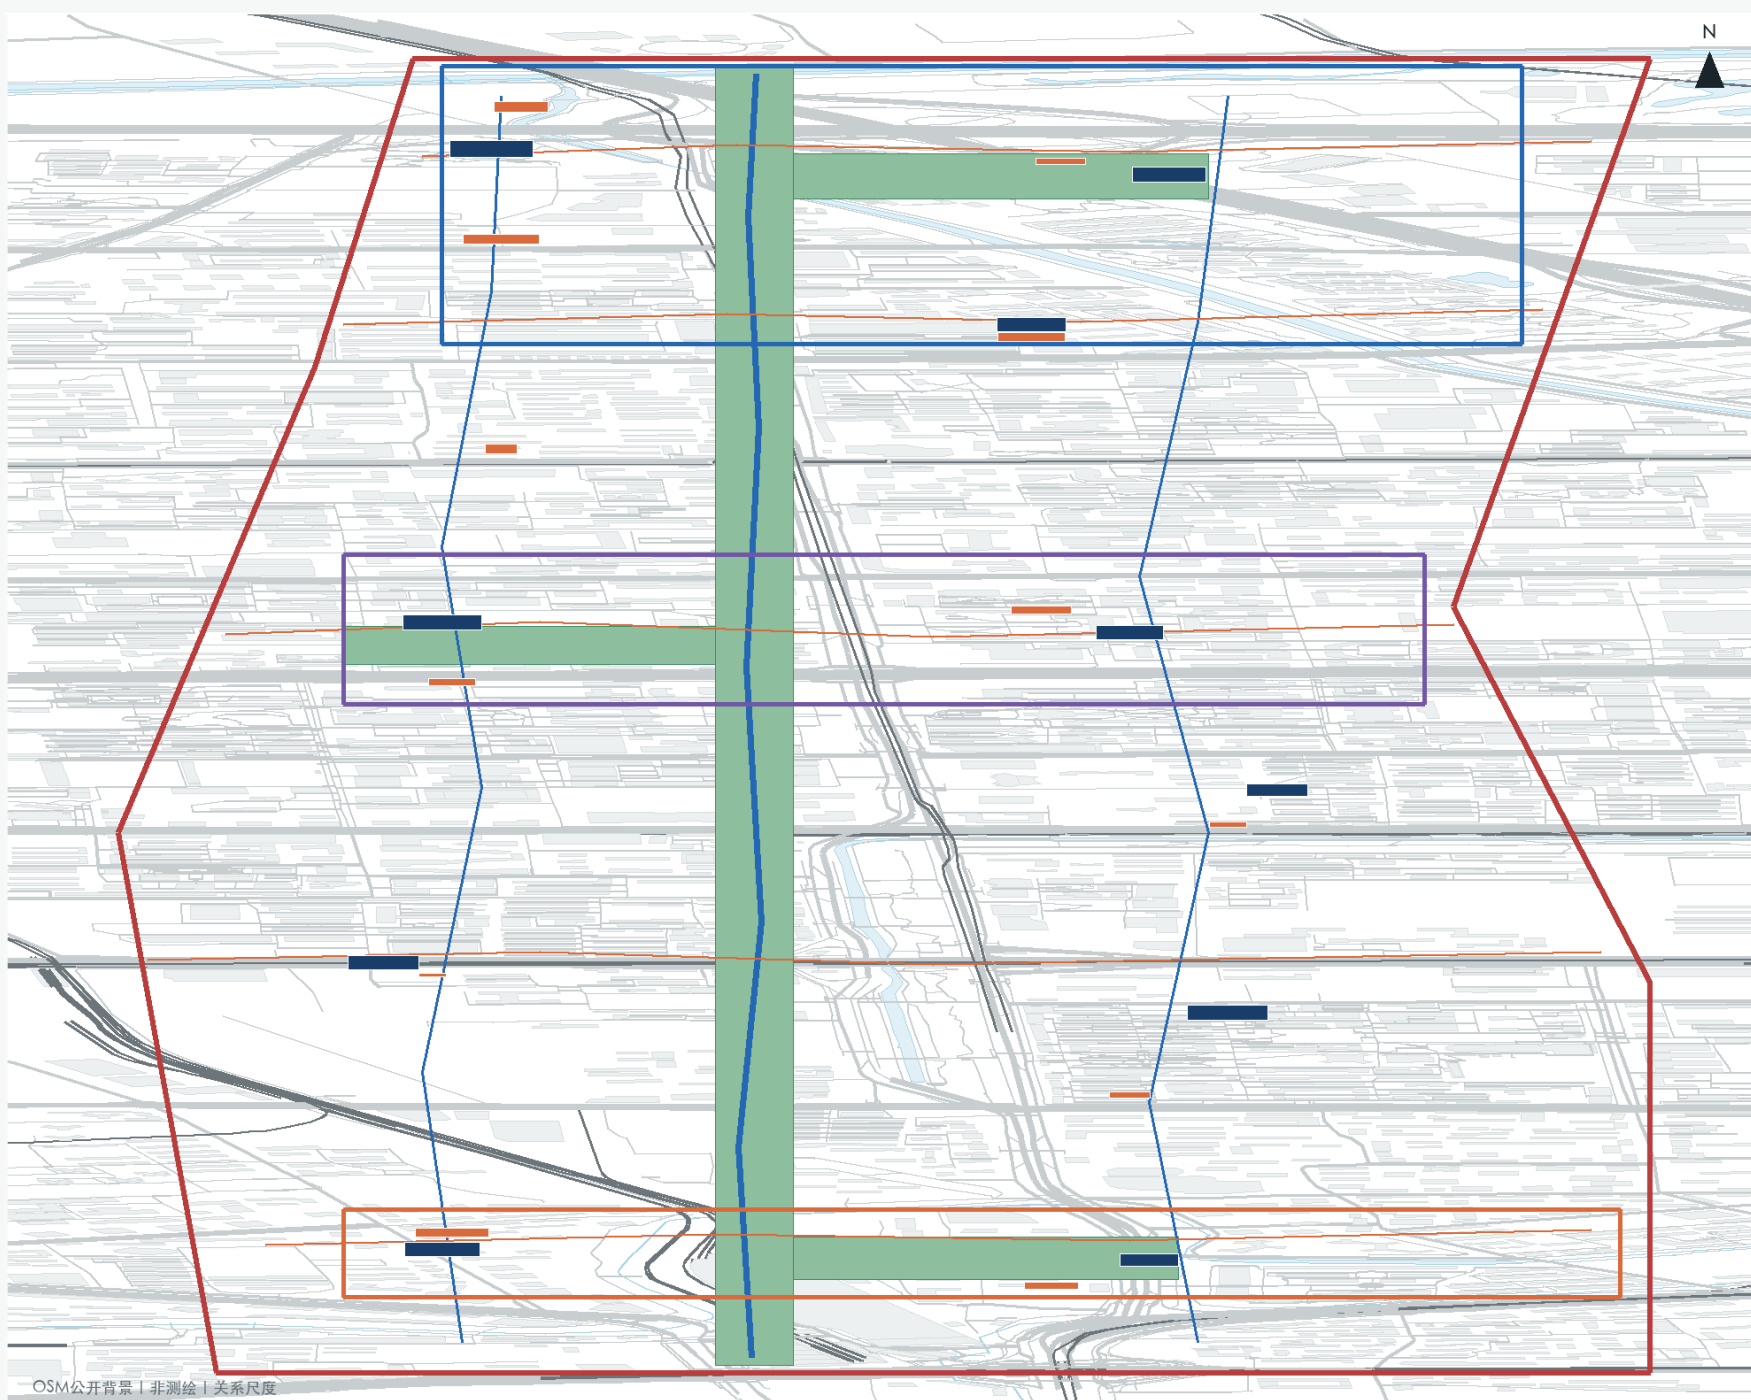

!

HOLD | unmet gate; no implementation

02 / RELATIONAL MASTERPLAN

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan provisional geometry is not a statutory boundary.

STRUCTURE LEGEND

ONE SPINE | memory - sociology - slow mobility
THREE CLOCKS | VERIFY · LEARN · LIVE
TWO WINGS | technology service - urban needs
TWELVE COMMONS | arrival - rest - learn - quiet

EVIDENCE GATES

VERIFY | reproducible and controlled testing
LEARN | public transition and correction
LIVE | bounded trial, human takeover and retirement

INTERVENTION ORDER

01 SHARE | measure real additional use
02 RETROFIT | access, ground floor, shade, separation
03 ADD LIGHTLY | movable, malleable, restorable
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

COMMON TIME JING-ZHANG / V&O

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

01 / RELATIONAL PLAN

Spatial relationships, never a statutory red line

THREE PROJECT CONTRACTS | accountability, acceptance and stop rules in one view

01 / VERIFY

Qinghe old station / public intelligence garden

ACCOUNTABLE

HOLD | formal designation pending

INTENT

Separate public explanation from controlled testing

INPUT GATE

Official geometry + heritage/flood review + field evidence

ADOPT

Three flows separate; risk explainable and reversible

STOP

Any life-safety or heritage gate remains open

02 / LEARN

AI Origin / civic learning interface

ACCOUNTABLE

HOLD | formal designation pending

INTENT

A learning interface without crossing campus/resident limits

INPUT GATE

Tenure/security + IP + accessible offline equivalent

ADOPT

Traceable content; offline access; correctable errors

STOP

No human path or rights/permission unresolved

03 / LIVE

Dazhongsi / station arrival

ACCOUNTABLE

HOLD | formal designation pending

INTENT

Fix real arrival first; permit limited AI advice second

INPUT GATE

Walkthrough + traffic/accessibility + heritage review

ADOPT

Continuous access; on-site human takeover for exceptions

STOP

Algorithm changes legal right-of-way or misleads the public

02 / THREE KEY AREAS

THREE KEY AREAS: REAL CONTEXT, RELATIONAL PLAN, REALISTIC CONCEPT

Each row separates what is real, what is proposed and what will require verification.

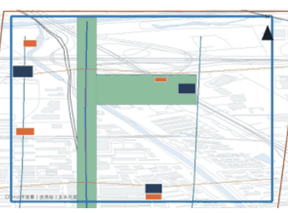

01

EXISTING

PHOTOGRAPHY FROM THE ENGINEERING

RELATIONAL PLAN PROVISIONAL

REALISTIC CONCEPT

02

EXISTING

BEHIND ORIGINAL WING: KNOWLEDGE TO THE CITY

RELATIONAL PLAN PROVISIONAL

REALISTIC CONCEPT

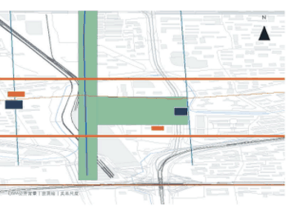

03

EXISTING

EXISTING SPACE: SHAPES URBAN TIME

RELATIONAL PLAN PROVISIONAL

REALISTIC CONCEPT

COMMON TIME JING-ZHANG / V&O

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

02 / THREE CONTRACTS

Three places, three distinct delivery logics

03 / EVIDENCE LOOP

Null evidence is never completed by AI

EVIDENCE-GATED ADOPTION | ADOPT ONLY AFTER THE THRESHOLDS PASS

1 / EVIDENCE

Cleared geometry, original field records and explicit nuls

→

2 / SANDBOX

Reversible, non-life-safety-critical pilots only

→

3 / CHECK

Independent safety, access, rights and privacy review

→

4 / DECIDE

ADOPT if passed; otherwise REVISE / RETIRE

Model output cannot turn UNKNOWN / HOLD into verified fact; an unmet gate routes the project to revision or retirement.

COMMON TIME / VERIFY · LEARN · LIVE

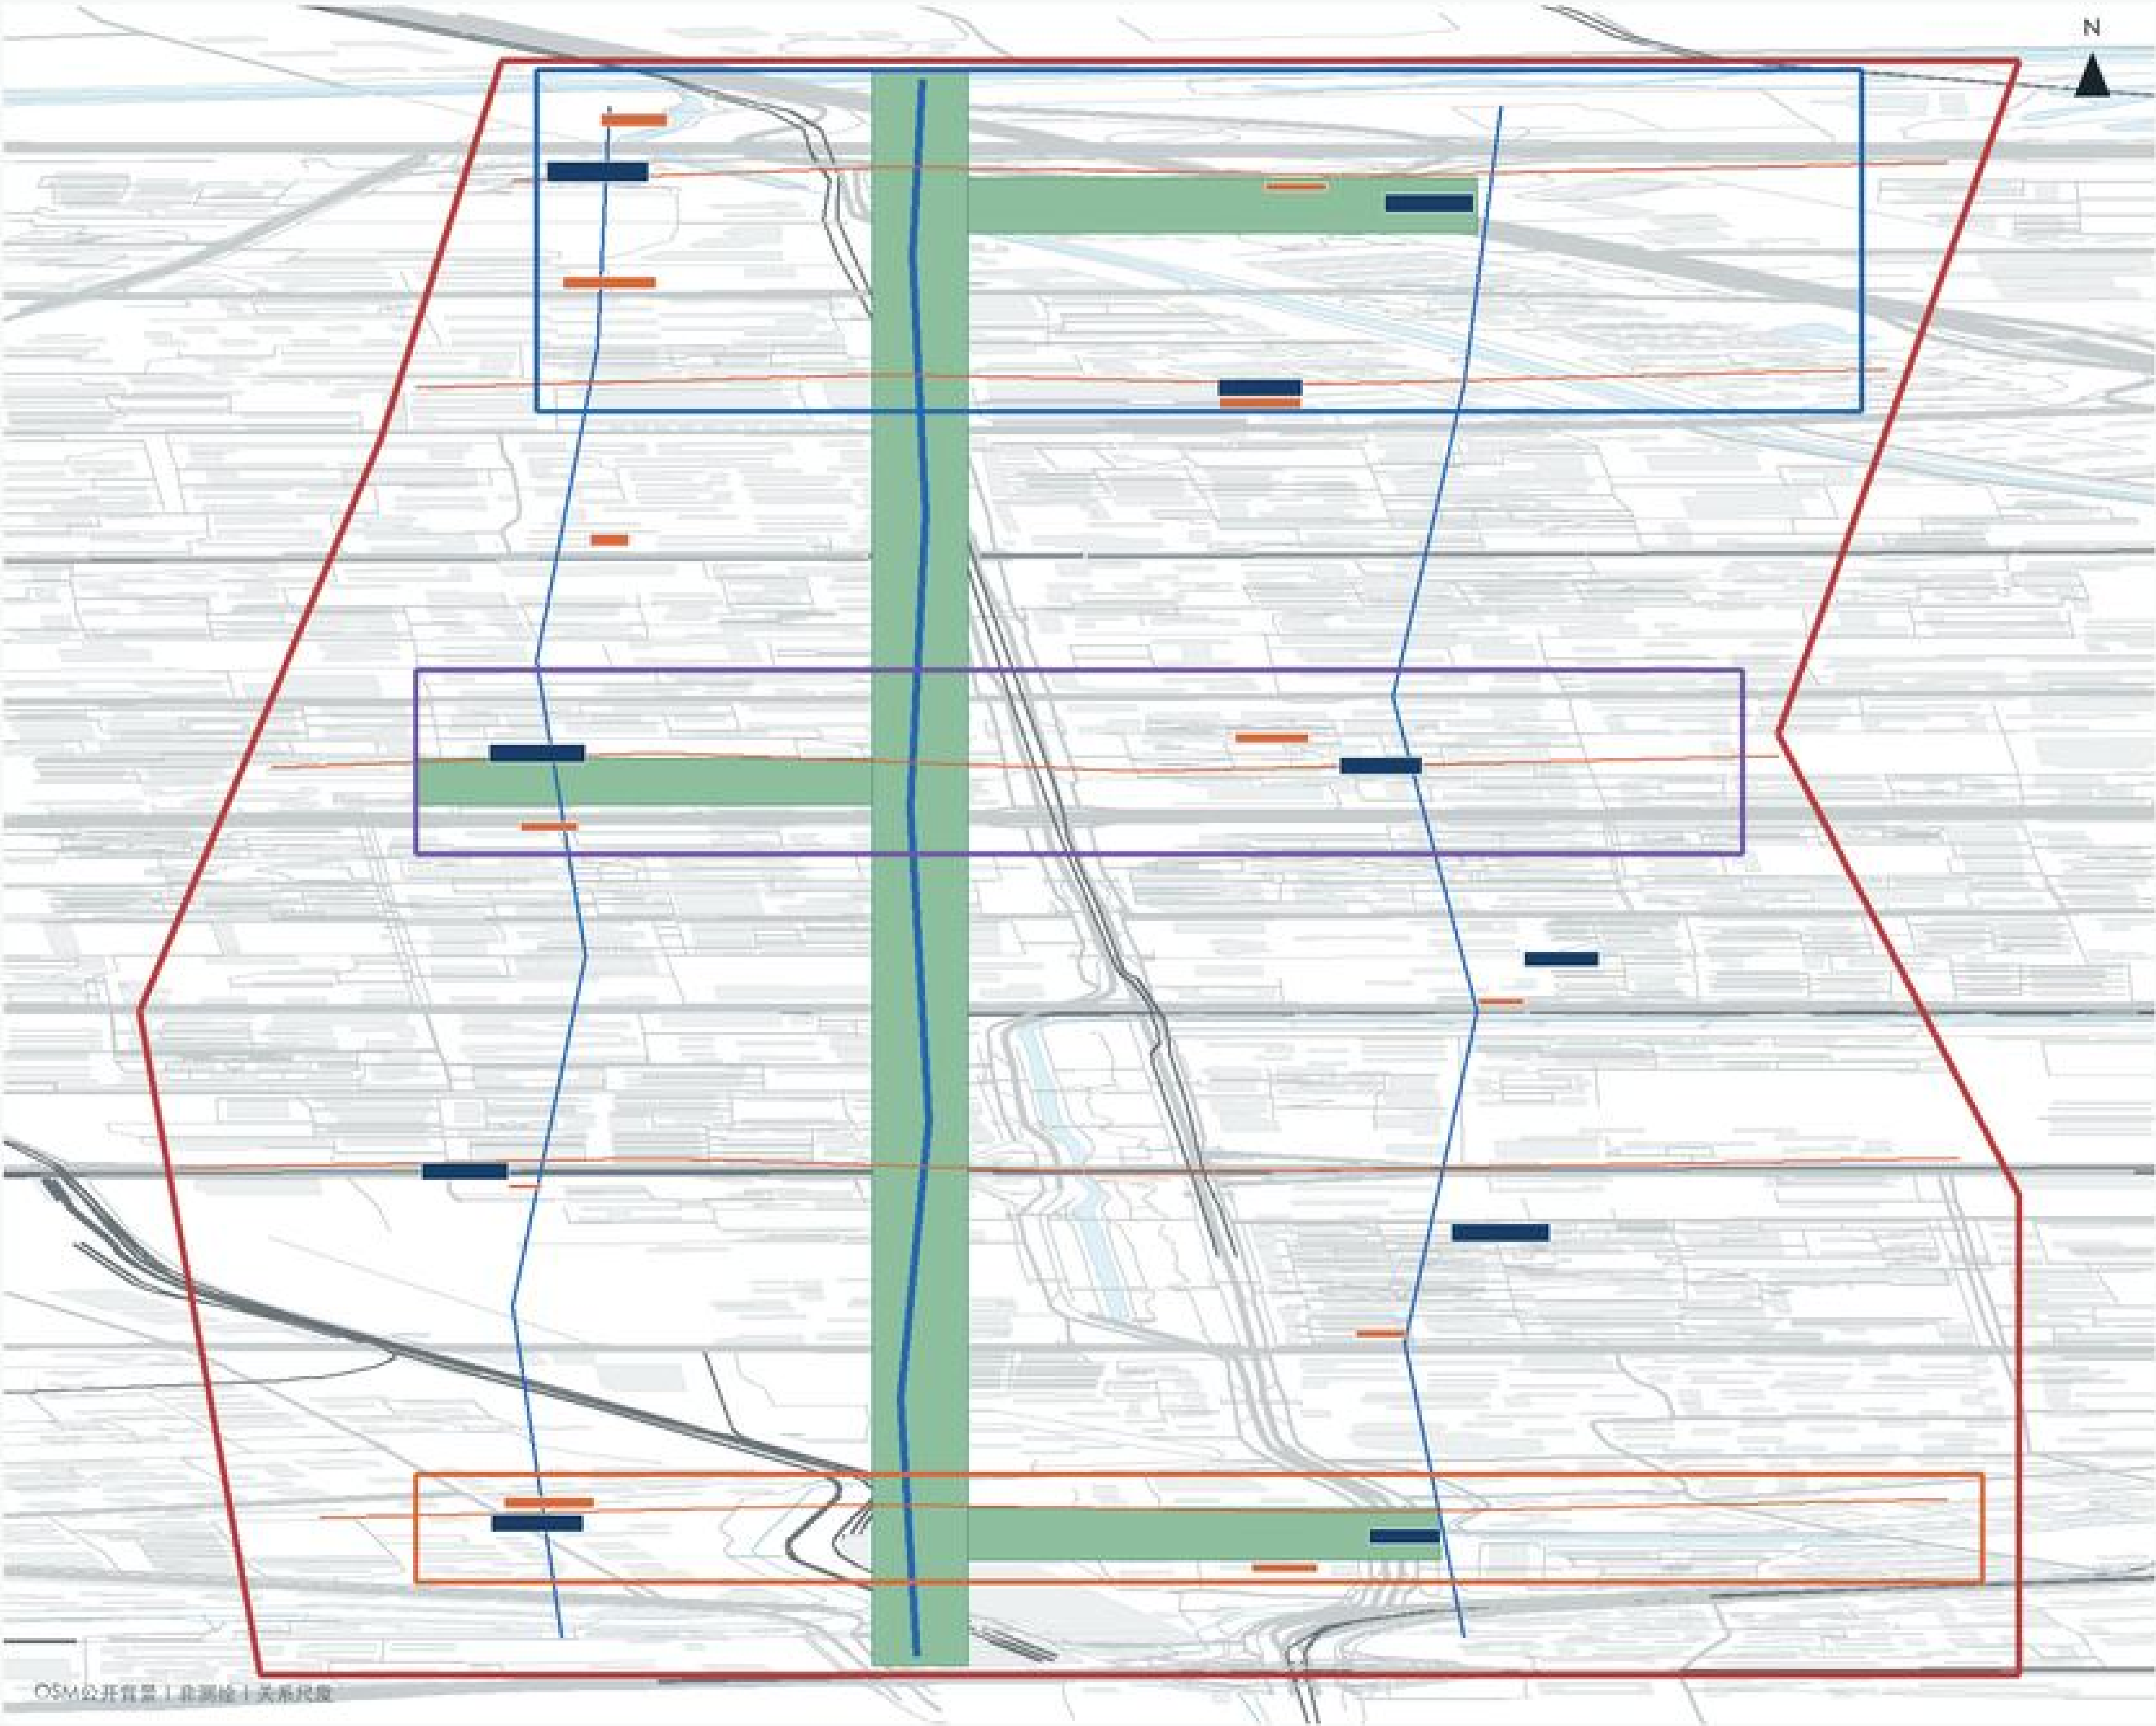

HOLD where evidence is incomplete | Review entry; never a substitute for statutory or professional approval

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

02 / RELATIONAL MASTERPLAN

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan: provisional geometry is not a statutory boundary.

COMMON TIME JING-ZHANG / V8.0

STRUCTURE LEGEND

ONE SPINE | memory · ecology · slow mobility
THREE CLOCKS | VERIFY · LEARN · LIVE
TWO WINGS | technology service · urban needs
TWELVE COMMONS | arrival · test · learn · quiet

EVIDENCE GATES

VERIFY | reproducible and controlled testing
LEARN | public translation and correction
LIVE | bounded trial, human takeover and retirement

INTERVENTION ORDER

01 SHARE | measure real additional use
02 RETROFIT | access, ground floor, shade, separation
03 ADD LIGHTLY | movable, maintainable, restorable
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

The relational masterplan organises questions without claiming statutory geometry.

UNKNOWN + SPATIAL ROLES + OPERATING TIME

03 / THREE OVERLAYS

FROM FALSE PRECISION TO UNKNOWN + SPATIAL ROLES + OPERATING TIME

Three aligned layers; land-use codes support topology and are not regulatory recommendations.

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

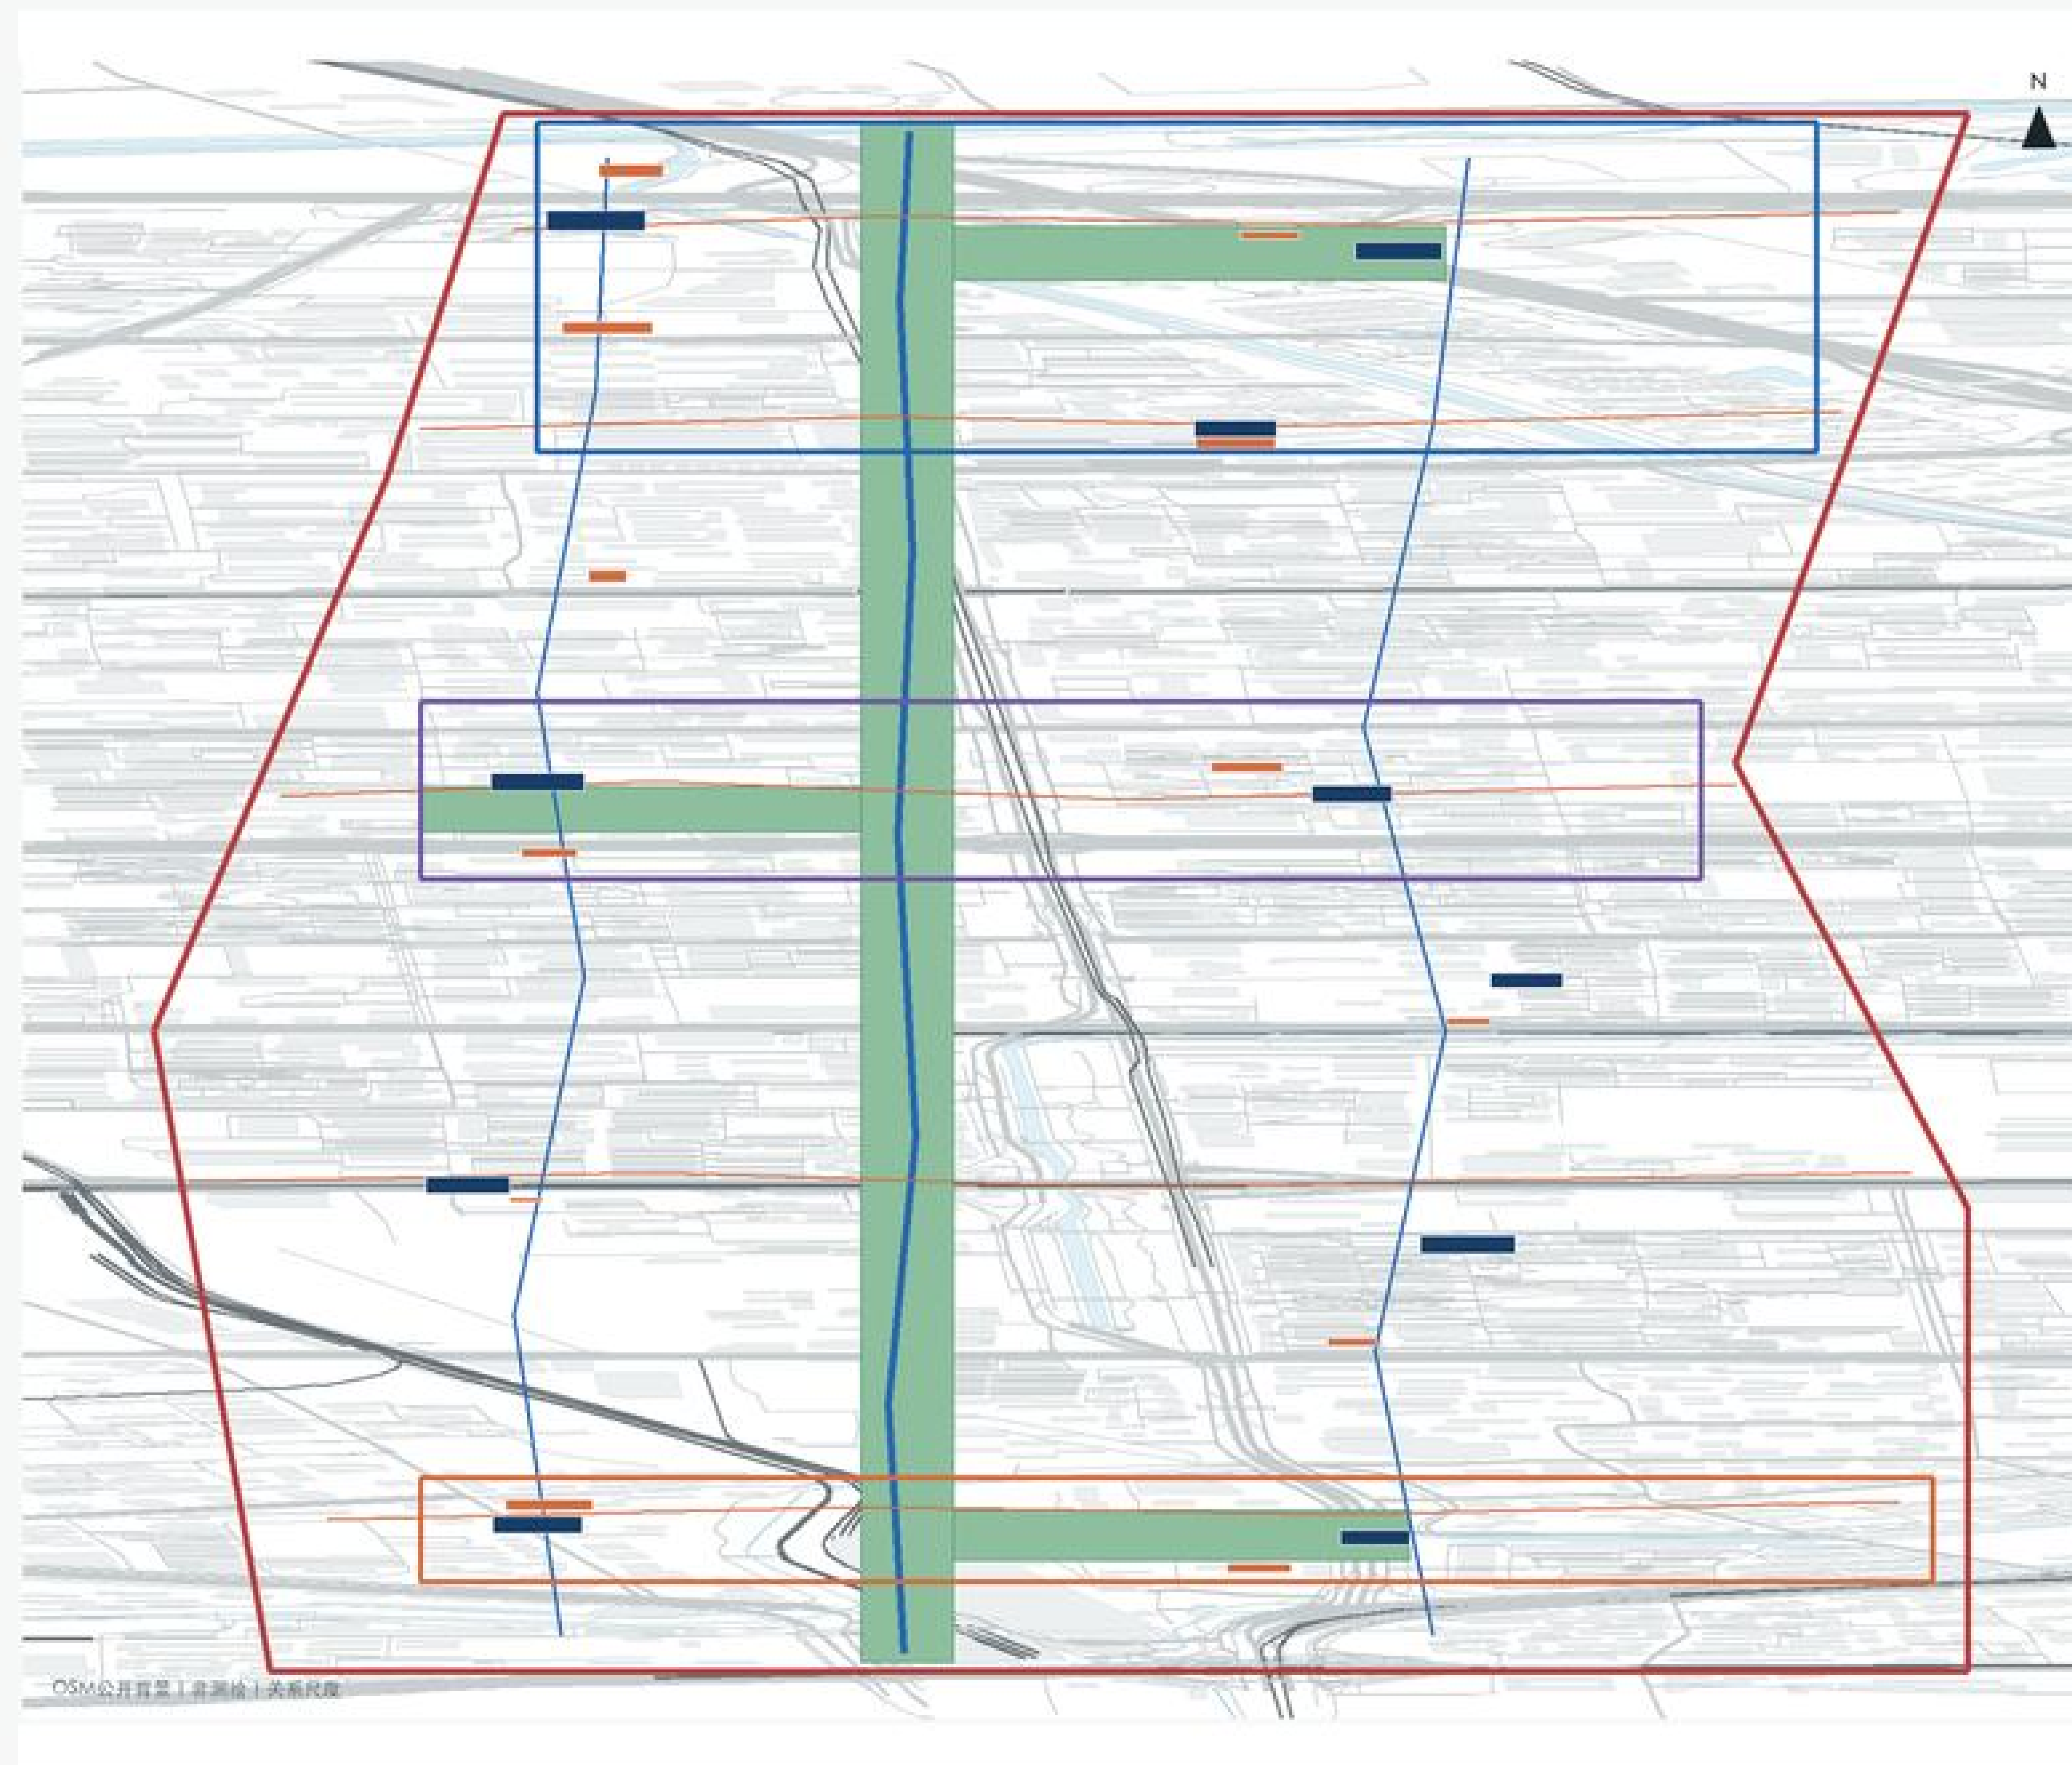

Aligned layers compare missing evidence, conceptual roles and negotiated operating time.

MOBILITY • BLUE-GREEN • UTILITIES • GROUND FLOOR

05 / SYSTEMS + SECTIONS

NEGOTIATE MOBILITY, BLUE-GREEN, UTILITIES AND GROUND FLOOR TOGETHER

Candidate links register questions; sections expose sequence, conflict and professional handoff.

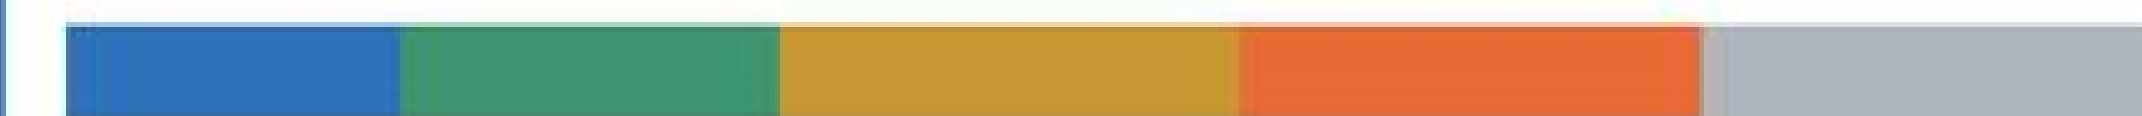

OSM 公开数据 | 来源标注 | 关系网络

COMMON TIME JING-ZHANG / V8.0

T1 QINGHE—VERIFY

river | maintenance | public | separation | controlled
Verify flood, ecology, Fifth Ring and maintenance.

T2 CAMPUS—LEARN

campus | edge | learning | community
Verify heritage, access, roads, fire and IP.

T3 HERITAGE—COMMUNITY

memory | slow mobility | shared ground floor | daily life
Verify identity, noise, light, loading and access.

T4 STATION—CIVIC ROOM

station | cycle | wait | trial | quiet
Verify passengers, evacuation, kerb, utilities and takeover.

CONCEPT PROPOSAL • NOT AN APPROVED PLAN • PROVISIONAL RELATIONSHIPS • PROFESSIONAL VERIFICATION REQUIRED

Four sections expose conflict, professional inputs and human takeover.

VERIFY · LEARN · LIVE

04 / THREE KEY AREAS

THREE KEY AREAS: REAL CONTEXT, RELATIONAL PLAN, REALISTIC CONCEPT

Each row separates what is real, what is proposed and what still requires verification.

VERIFY

ZHONGZHIYUAN | PROVE THE ENGINEERING

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

LEARN

BEIJING AI ORIGIN | BRING KNOWLEDGE TO THE CITY

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

LIVE

DAZHONGSI | SHARE URBAN TIME

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

Real photography, relational plans and AI concept images remain explicitly separated.

TEN PROJECTS · NINE GATES

06 / DELIVERY + METRICS

SPACE, RESPONSIBILITY, FUNDING, OUTCOME AND EXIT PASS TOGETHER

Ten project contracts and nine gates; counts do not substitute for outcomes and unknowns stay visible.

- G0 PROBLEM
- G1 TEAM
- G2 REPRODUCE
- G3 CONTROL
- G4 TRANSLATE
- G5 TRIAL
- G6 ADOPT
- G7 OPERATE
- G8 RETIRE

PROJECT	OWNER / OPERATOR	CAPEX / OPEX	MIN GATE	OUTCOME / EXIT
P01 TIME BASELINE	named / separate	category + lifecycle	G0/G1	KPI / STOP / RESTORE
P02 LEARNING	named / separate	category + lifecycle	G1/G4	KPI / STOP / RESTORE

SEPARATION OF DUTIES

problem owner ≠ supplier
supplier ≠ sole evaluator
operator ≠ appeal authority
procurement decision ≠ event popularity

CURRENT HOLD CONDITIONS

No construction or routine operation without official boundaries, real owners, professional approval, OPEX, equivalent human access and retirement funds.

12 SCENARIOS

4 TESTBEDS

6 PERSONAS

4 MEMORY NODES

10 PROJECTS

9 GATES

3 KEY AREAS

OPERATING METRICS UNKNOWN

Responsibility, funding, outcomes, exit and restoration pass together.

REAL CONTEXT AND CONCEPT TESTS

Left: real public photography. Right: AI-generated concept tests, not existing conditions, approved plans or engineering commitments.
