

JING-ZHANG RESONANCE

ONE RESONANCE SPINE · THREE FUTURE WORKYARDS · SIX CIVIC SYSTEMS

CENTENNIAL JING-ZHANG AI INNOVATION BELT

JING-ZHANG RESONANCE

TUNING RAIL, BELLS, ALGORITHMS AND EVERYDAY LIFE

The city does not obey an algorithm; technology must listen to people. AI is treated as infrastructure with bodies, watts, latency, failure modes and public responsibility.

01 ONE RESONANCE SPINE

02 THREE FUTURE WORKYARDS

03 SIX CIVIC SYSTEMS

04 SIXTEEN EVERYDAY PROTOTYPES

Local DNA: Jing-Zhang engineering · Qinghuayuan inquiry · Dazhongsi bell rhythm · Haidian green corridors and everyday life

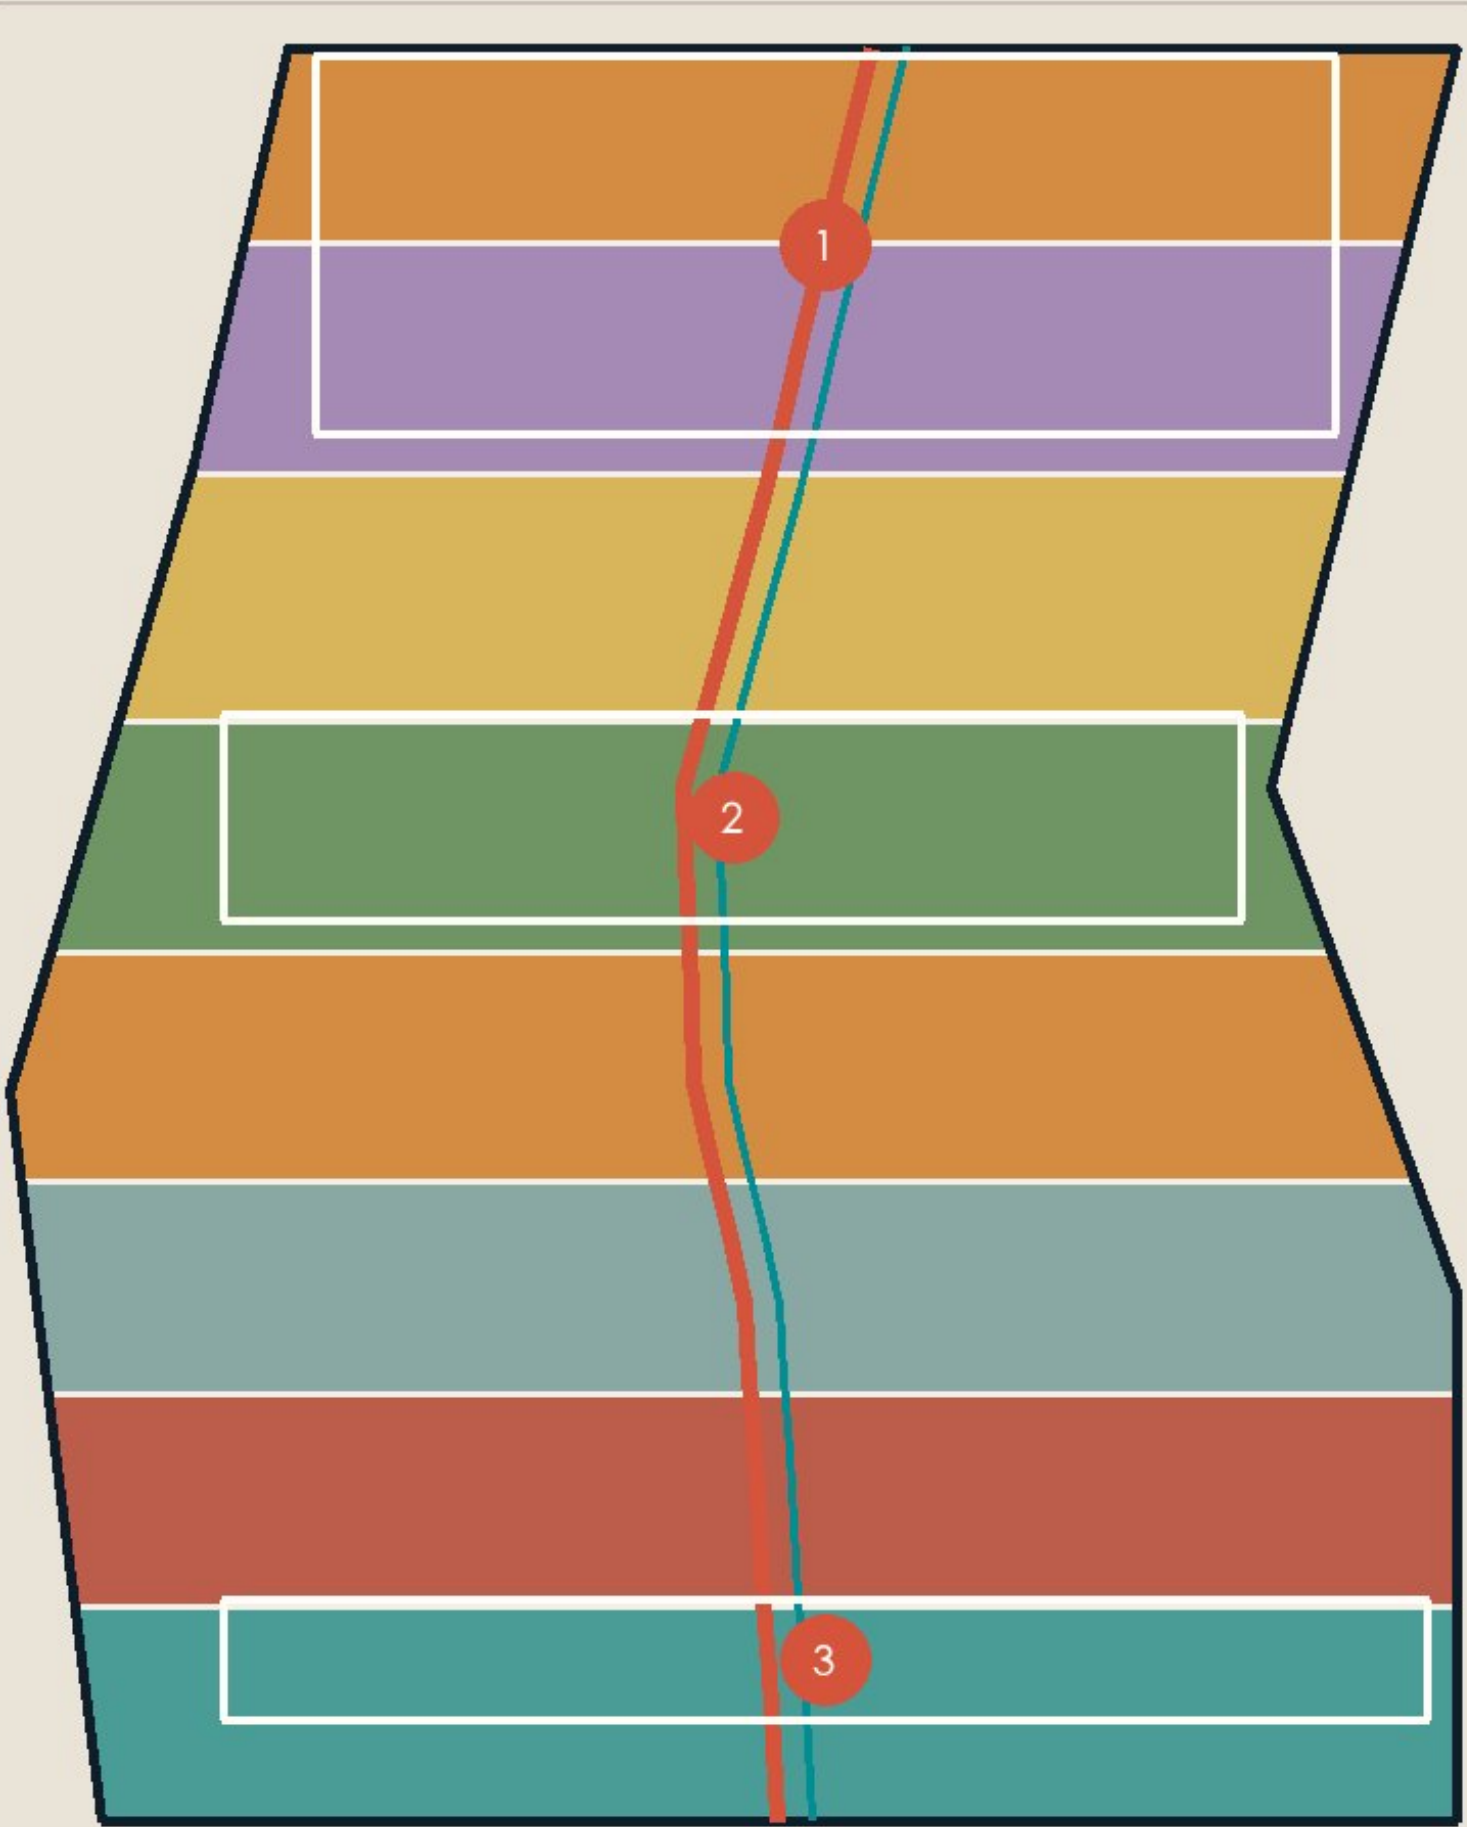

PROVISIONAL ROUGH BOUNDARY · NOT AN OFFICIAL REDLINE · CONCEPT ONLY · RECALCULATE THE WHOLE SYSTEM WHEN OFFICIAL GEOMETRY ARRIVES

RAIL / BELL / CAMPUS / GREEN CORRIDOR

ONE SPINE, FOUR LOCAL ECHOES

02

LOCAL CULTURE → SPATIAL MOVE

Jing-Zhang: self-reliant design, construction and operation

Turn rail heritage into a walkable, learnable, testable public spine

Qinghuayuan station: rail meets scholarship

Link campus, community and R&D through an open semantic twin

Dazhongsi: bells, time and resonance

Write visible rules, human review and refusal into AI services

Haidian green corridors: culture, ecology and daily life

Organize continuous life with canopy, rainwater, quiet lanes and ground-floor interfaces

SPATIAL STRUCTURE

One Centennial Resonance Spine / three future workyards / two collaborative wings / six civic systems / sixteen everyday prototypes

FOUND / LEARN / ADOPT

THREE FUTURE WORKYARDS, THREE MATURITIES

03

ZHONGZHIYUAN · ENGINEERING VOICE

PUBLIC EDGE / SEMI-PUBLIC COURT / BOUNDED CORE

- 01 Separate training loop from public route
- 02 Sim → real → retrospective
- 03 Human takeover and physical stop

SECTION CONTROL

Open ground floor; research/learning above; retain egress, fire, accessibility and human service window.

AI ORIGIN · INQUIRY VOICE

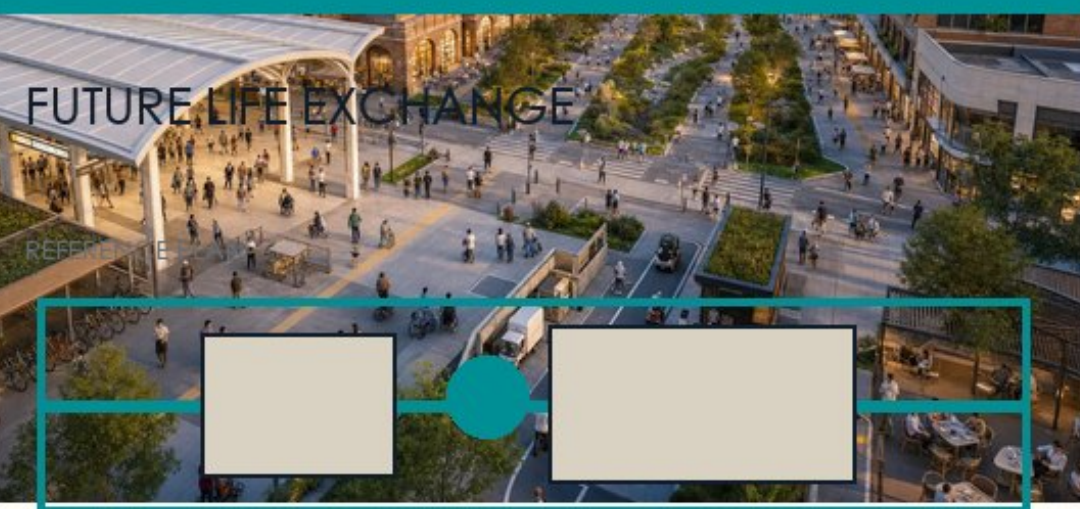

PUBLIC EDGE / SEMI-PUBLIC COURT / BOUNDED CORE

- 01 Public model room
- 02 Civic AI assembly
- 03 Human service court

SECTION CONTROL

Open ground floor; research/learning above; retain egress, fire, accessibility and human service window.

DAZHONGSI · BELL-RHYTHM VOICE

PUBLIC EDGE / SEMI-PUBLIC COURT / BOUNDED CORE

- 01 Four-quadrant ground reconnection
- 02 Assistive technology library
- 03 Adoption clinic and refusal

SECTION CONTROL

Open ground floor; research/learning above; retain egress, fire, accessibility and human service window.

DATA / BODY / EDGE / ENERGY / MOBILITY / RIGHTS

SIX CIVIC SYSTEMS: TECHNOLOGY MUST BECOME FORM

|    |                                                                     |                                               |                                                                              |
|----|---------------------------------------------------------------------|-----------------------------------------------|------------------------------------------------------------------------------|
| L1 | Open semantic city twin<br><small>现在 / NOW</small>                  | City data rooms and public model lab          | Spatial rule: disconnectable, observable, maintainable, human-takeover ready |
| L2 | Physical AI and world models<br><small>试验 / TEST</small>            | Training loop, simulation rooms and depot     | Spatial rule: disconnectable, observable, maintainable, human-takeover ready |
| L3 | Edge compute and 6G-ready reserve<br><small>预留 / RESERVE</small>    | Disconnectable edge nodes and utility reserve | Spatial rule: disconnectable, observable, maintainable, human-takeover ready |
| L4 | Compute-energy-water loop<br><small>选址 / SITE TEST</small>          | Heat pumps, thermal store and rain gardens    | Spatial rule: disconnectable, observable, maintainable, human-takeover ready |
| L5 | Autonomous and accessible mobility<br><small>受控 / BOUNDED</small>   | Net walk, cycle and machine-service lanes     | Spatial rule: disconnectable, observable, maintainable, human-takeover ready |
| L6 | Civic AI governance and human fallback<br><small>先行 / FIRST</small> | Service court, audit desks and appeals        | Spatial rule: disconnectable, observable, maintainable, human-takeover ready |

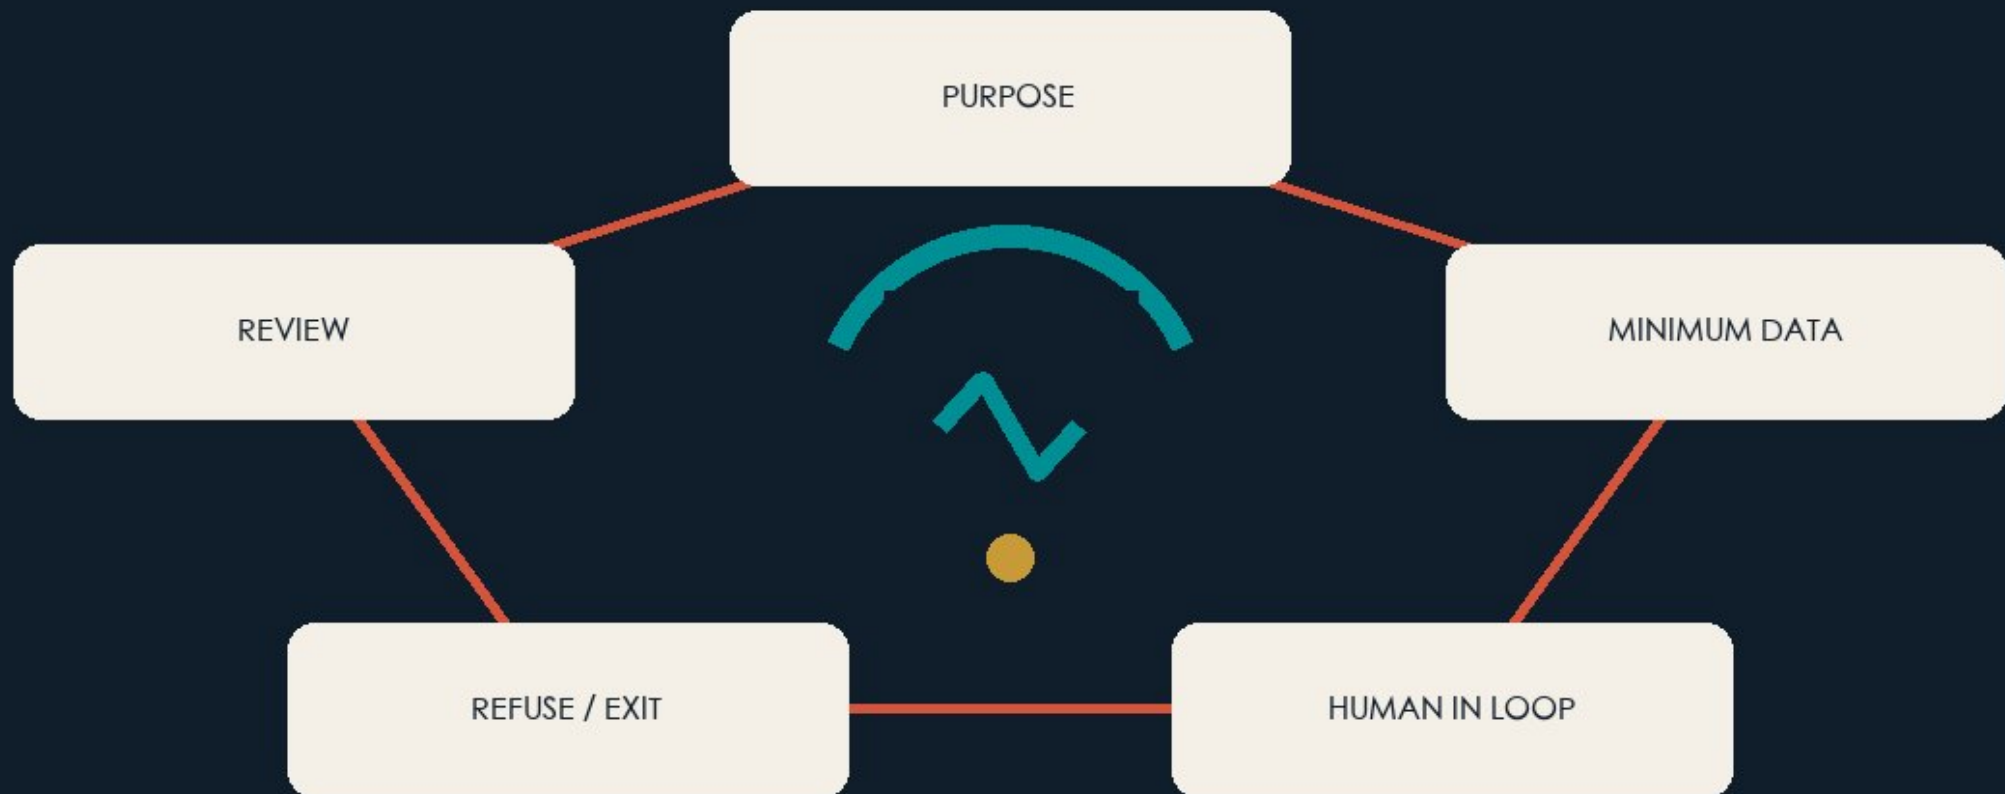

6G is a reserve; heat reuse is site-specific feasibility; world models start in simulation and bounded training.

THE CITY HAS A HUMAN OFF SWITCH

SIX NON-DEROGABLE CIVIC AI RIGHTS

- 01  
Right to know  
Applies to every scenario by default
- 02  
Refuse without penalty  
Applies to every scenario by default
- 03  
Equivalent human service  
Applies to every scenario by default
- 04  
Privacy and minimum data  
Applies to every scenario by default
- 05  
Appeal and human review  
Applies to every scenario by default
- 06  
Know energy and environmental cost  
Applies to every scenario by default

FIVE-STEP GOVERNANCE LOOP

No public pilot without equivalent human service, physical off, an appeal route and energy disclosure.

14 PROJECTS / RACI / CAPEX + OPEX

RULES FIRST, SPACE SECOND, SCALE LAST

Relative resource bands: L low / M medium / H high; not an investment estimate.

| PROJECT | PHASE | SPACE / GOVERNANCE DELIVERY                       | CAPEX | OPEX |
|---------|-------|---------------------------------------------------|-------|------|
| P01     | 0-1   | 300 m Centennial Resonance Spine pilot            | M     | M    |
| P02     | 0-1   | Open semantic twin base                           | M     | M    |
| P03     | 1     | Physical AI safety training loop                  | M     | H    |
| P04     | 1     | World-model evaluation and red-team lab           | M     | M    |
| P05     | 1-2   | Site heat-reuse study and winter garden           | H     | M    |
| P06     | 1-2   | Civic Intelligence Academy                        | M     | M    |
| P07     | 1     | Human Service Court                               | L     | H    |
| P08     | 1-2   | Open Contribution Archive                         | L     | M    |
| P09     | 2     | Dazhongsi four-quadrant ground reconnection       | H     | M    |
| P10     | 1-2   | Assistive Technology Library                      | M     | M    |
| P11     | 1-2   | Quiet lane and accessible mobility network        | M     | M    |
| P12     | 1-2   | Blue-green cooling and rainwater nodes            | M     | L    |
| P13     | 0     | City AI Rights Charter and independent audit desk | L     | M    |
| P14     | 2-3   | Global Future City Season                         | L     | M    |

Four gates: official geometry / ownership + fire / transport + utilities / rights, energy + independent review. Any failed gate means stop, modify or withdraw.

HEAT / WATER / CARE

THE TEMPERATURE OF TECHNOLOGY

The winter garden is an energy feasibility test, not a promise

Put servers, heat pumps, thermal storage, rainwater and public comfort on one energy ledger. Disclose cost per kWh, per square metre and per season, with a conventional fallback when the test fails.

Night public life: technology recedes; human encounters stay foregrounded
