

SILICON IRONWAY • Overall Spatial Structure

Core Metrics

Site area	11.41 km² (11,412,825 m²)
Key-area total	3.69 km²
Green ratio	19.6%

Three Key Areas

Task Coverage (agent.1–agent.6)

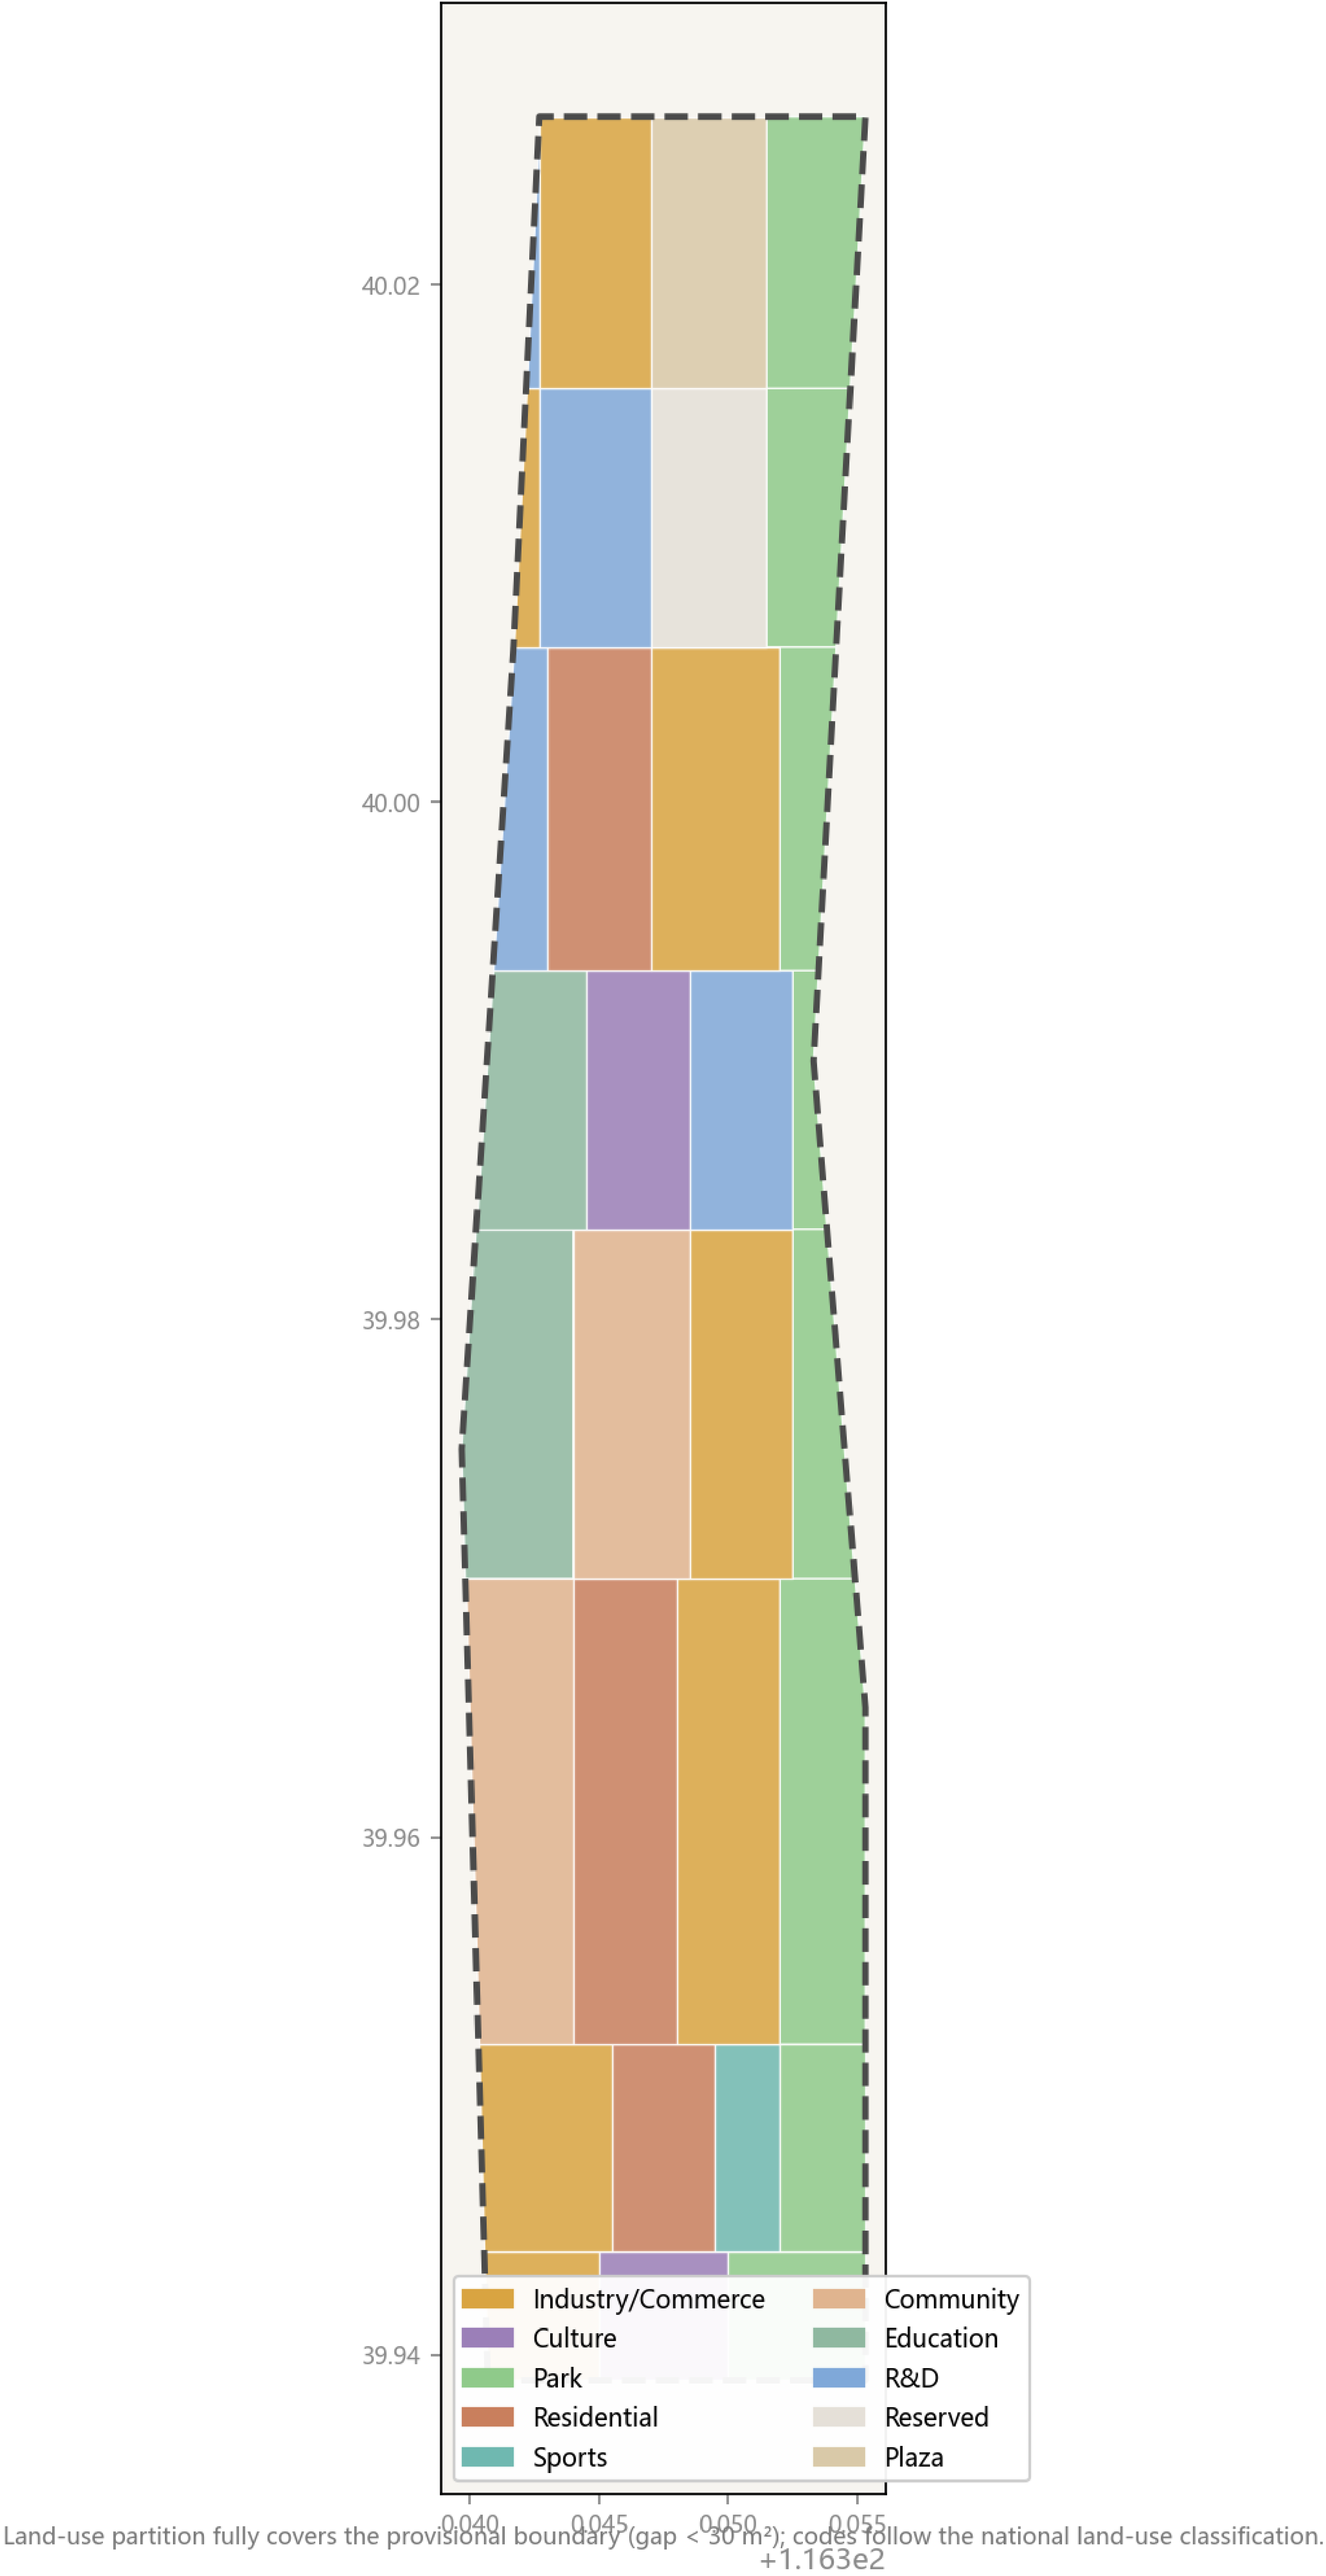

Public-space ratio	5.5%
Blue-green & public	24.9%
Building footprint	5.51M m² / 411 处
Road centerline	49.6 km
Scenario cards	12 (含 3 测试结果)
Personas	5 类
Pilgrimage landmarks	3 处
Renewal projects	9 项
Control indicators	unknown - pending official conditions

Origin Depot - Beijing AI Origin Community	104.3 ha	Open-source release · near-campus transformation · talent zone · Origin Square, transformation street, talent stations
Marshalling Station - Zhongzhiyuan	192.1 ha	Marshalling test · governance hub · Qinghe interface test field, signal tower, Qinghe innovation square
Transfer Hub - Dazhongsi	72.0 ha	AI-native consumption · data factors · international exchange · four-quadrant links, bell-tower square, data-factor living room

agent.1	Concept & naming: SILICON ROWNWAY · zig-zag logo · three positionings, five functions, three areas, two wings
agent.2	Full-stack system: 8 global cases · origin-marshalling-transfer ecosystem map · eight factor mechanisms
agent.3	Scenarios & vibrant city: 12 scenario cards (incl. 3 test scenes) · 5 personas · Ironway Signal protocol
agent.4	Public space & landmarks: 3 pilgrimage landmarks · milestone honor system · five-component lot
agent.5	Culture: three departures of one track (1909 railway → 1980 Zhongguancun → 2026 AI track)
agent.6	Events & operation: annual calendar · developer community · scenario opening · international conversion

This proposal is an AI-generated open co-creation concept from public/cleared data; it does not replace formal planning or constitute government approval; control indicators (FAA, height, density, setbacks) are pending official regulatory conditions.
