02 Three Levels and Paired Surfaces

UNKNOWN ≠ ZERO

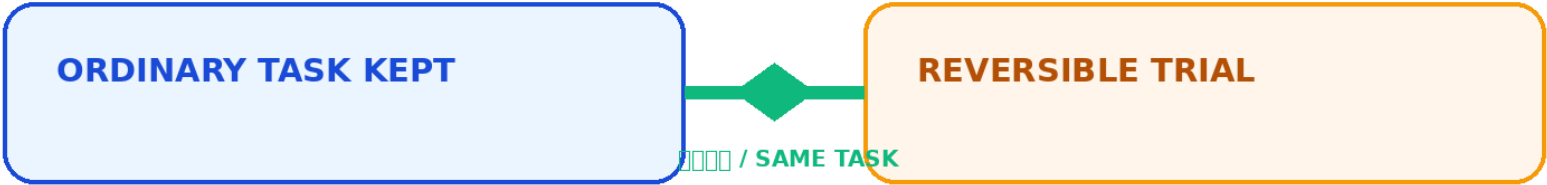

Three Levels · Paired Same-Task Surfaces

Geometry expresses concept structure only; provisional bounds cannot support existing or statutory claims

Research: evidence sufficiency

Overall: UNKNOWN≠ZERO spine

Key areas: gap / same-task / restore

04 Ordinary Route and Sensor-Free Edge

UNKNOWN ≠ ZERO

Ordinary Route First · Observe at the Side

Accessibility, fire, emergency, caregiving, and maintenance routes cannot be occupied by trials

SENSOR-FREE EDGE

Paper task cards · human walkthrough · no identity

SIDE REVERSIBLE BAND

Movable furniture · removable shelter · power-off

What Is Known · What Remains Unknown

Protocol counts are not field performance; UNKNOWN controls mistaken decisions

██ / KNOWN

- 12 scenario cards
- 6 personas
- 4 tests
- 6 entry gates

██ / UNKNOWN

- UNKNOWN observation coverage
- UNKNOWN task equivalence
- UNKNOWN restoration time
- UNKNOWN low-frequency task loss
