

SCREENLESS JING-ZHANG

□□□□ / Conceptual proposal · □□□□ / Provisional geometry

- DESIGN THESIS
- Screens are optional, not a threshold
 - Every AI service uses two channels
 - Human fallback, stoppable, repairable
 - 1 spine · 3 ports · 2 wings · 12 touchpoints

NOT A SITE PHOTO · NOT AN OFFICIAL PLAN

ONE SPINE · THREE PORTS · TWO WINGS

□□□□□□□□ / Slow layers first, fast layers replaceable

- Research
- Park / Open
- Industry / Commerce
- Community

SPATIAL PROTOCOL

- Non-screen entry
- Human fallback
- Minimum data
- Stop condition
- Repairability

THREE KEY AREAS: VALIDATE—TRANSLATE—APPLY

□□□□□□□□□□ / Provisional rough extents used only as an index

01

ZHONGZHIYUAN · VALIDATION PORT

Edge labs · Safety review · Stop switch

OPTIONAL SCREEN

HUMAN FALLBACK

STOPPABLE

02

AI ORIGIN · TRANSLATION PORT

Algorithm clinic · Tactile museum · Open commons

OPTIONAL SCREEN

HUMAN FALLBACK

STOPPABLE

03

DAZHONGSI · APPLICATION PORT

Screenless market · Multilingual guidance · Staffed kiosk

OPTIONAL SCREEN

HUMAN FALLBACK

STOPPABLE

WALKING · BLUE-GREEN · TWELVE TOUCHPOINTS

□□□□□□□□□□ / Continuous walking first, digital enhancement second

DUAL-CHANNEL RULE

TOUCH + AUDIO

PHYSICAL + HUMAN

LIGHT + PAPER

SCREEN + EXIT

BOUNDARIES, ROADS, AND NODES REQUIRE PROFESSIONAL VERIFICATION

METRICS AND EVIDENCE CHAIN

GeoJSON → EPSG:4548 → metrics.json → figures / PDFs / offline HTML

FAR / HEIGHT / DENSITY / SETBACKS: PENDING OFFICIAL CONTROLS

TWELVE SCENARIOS · THREE TESTS · FIVE PERSONAS

Tactile interchange / Directional audio / Staffed commons / Account-free wayfinding / Touchable model / Physical token

Wheelchair cue / Merchant assistant / Rain-garden audio / Developer table / Suspension appeal / Screenless City Week

Tests: navigation stress test · minimum-sensing sandbox · human-takeover drill

All spatial moves are conceptual; boundary, controls, ownership, utilities, heritage, and engineering require professional verification.
