

B1 Overview Map

Scopes · Key Areas · Land Use · Mobility · Blue-Green · Buildings · AI Scenarios (provisional)

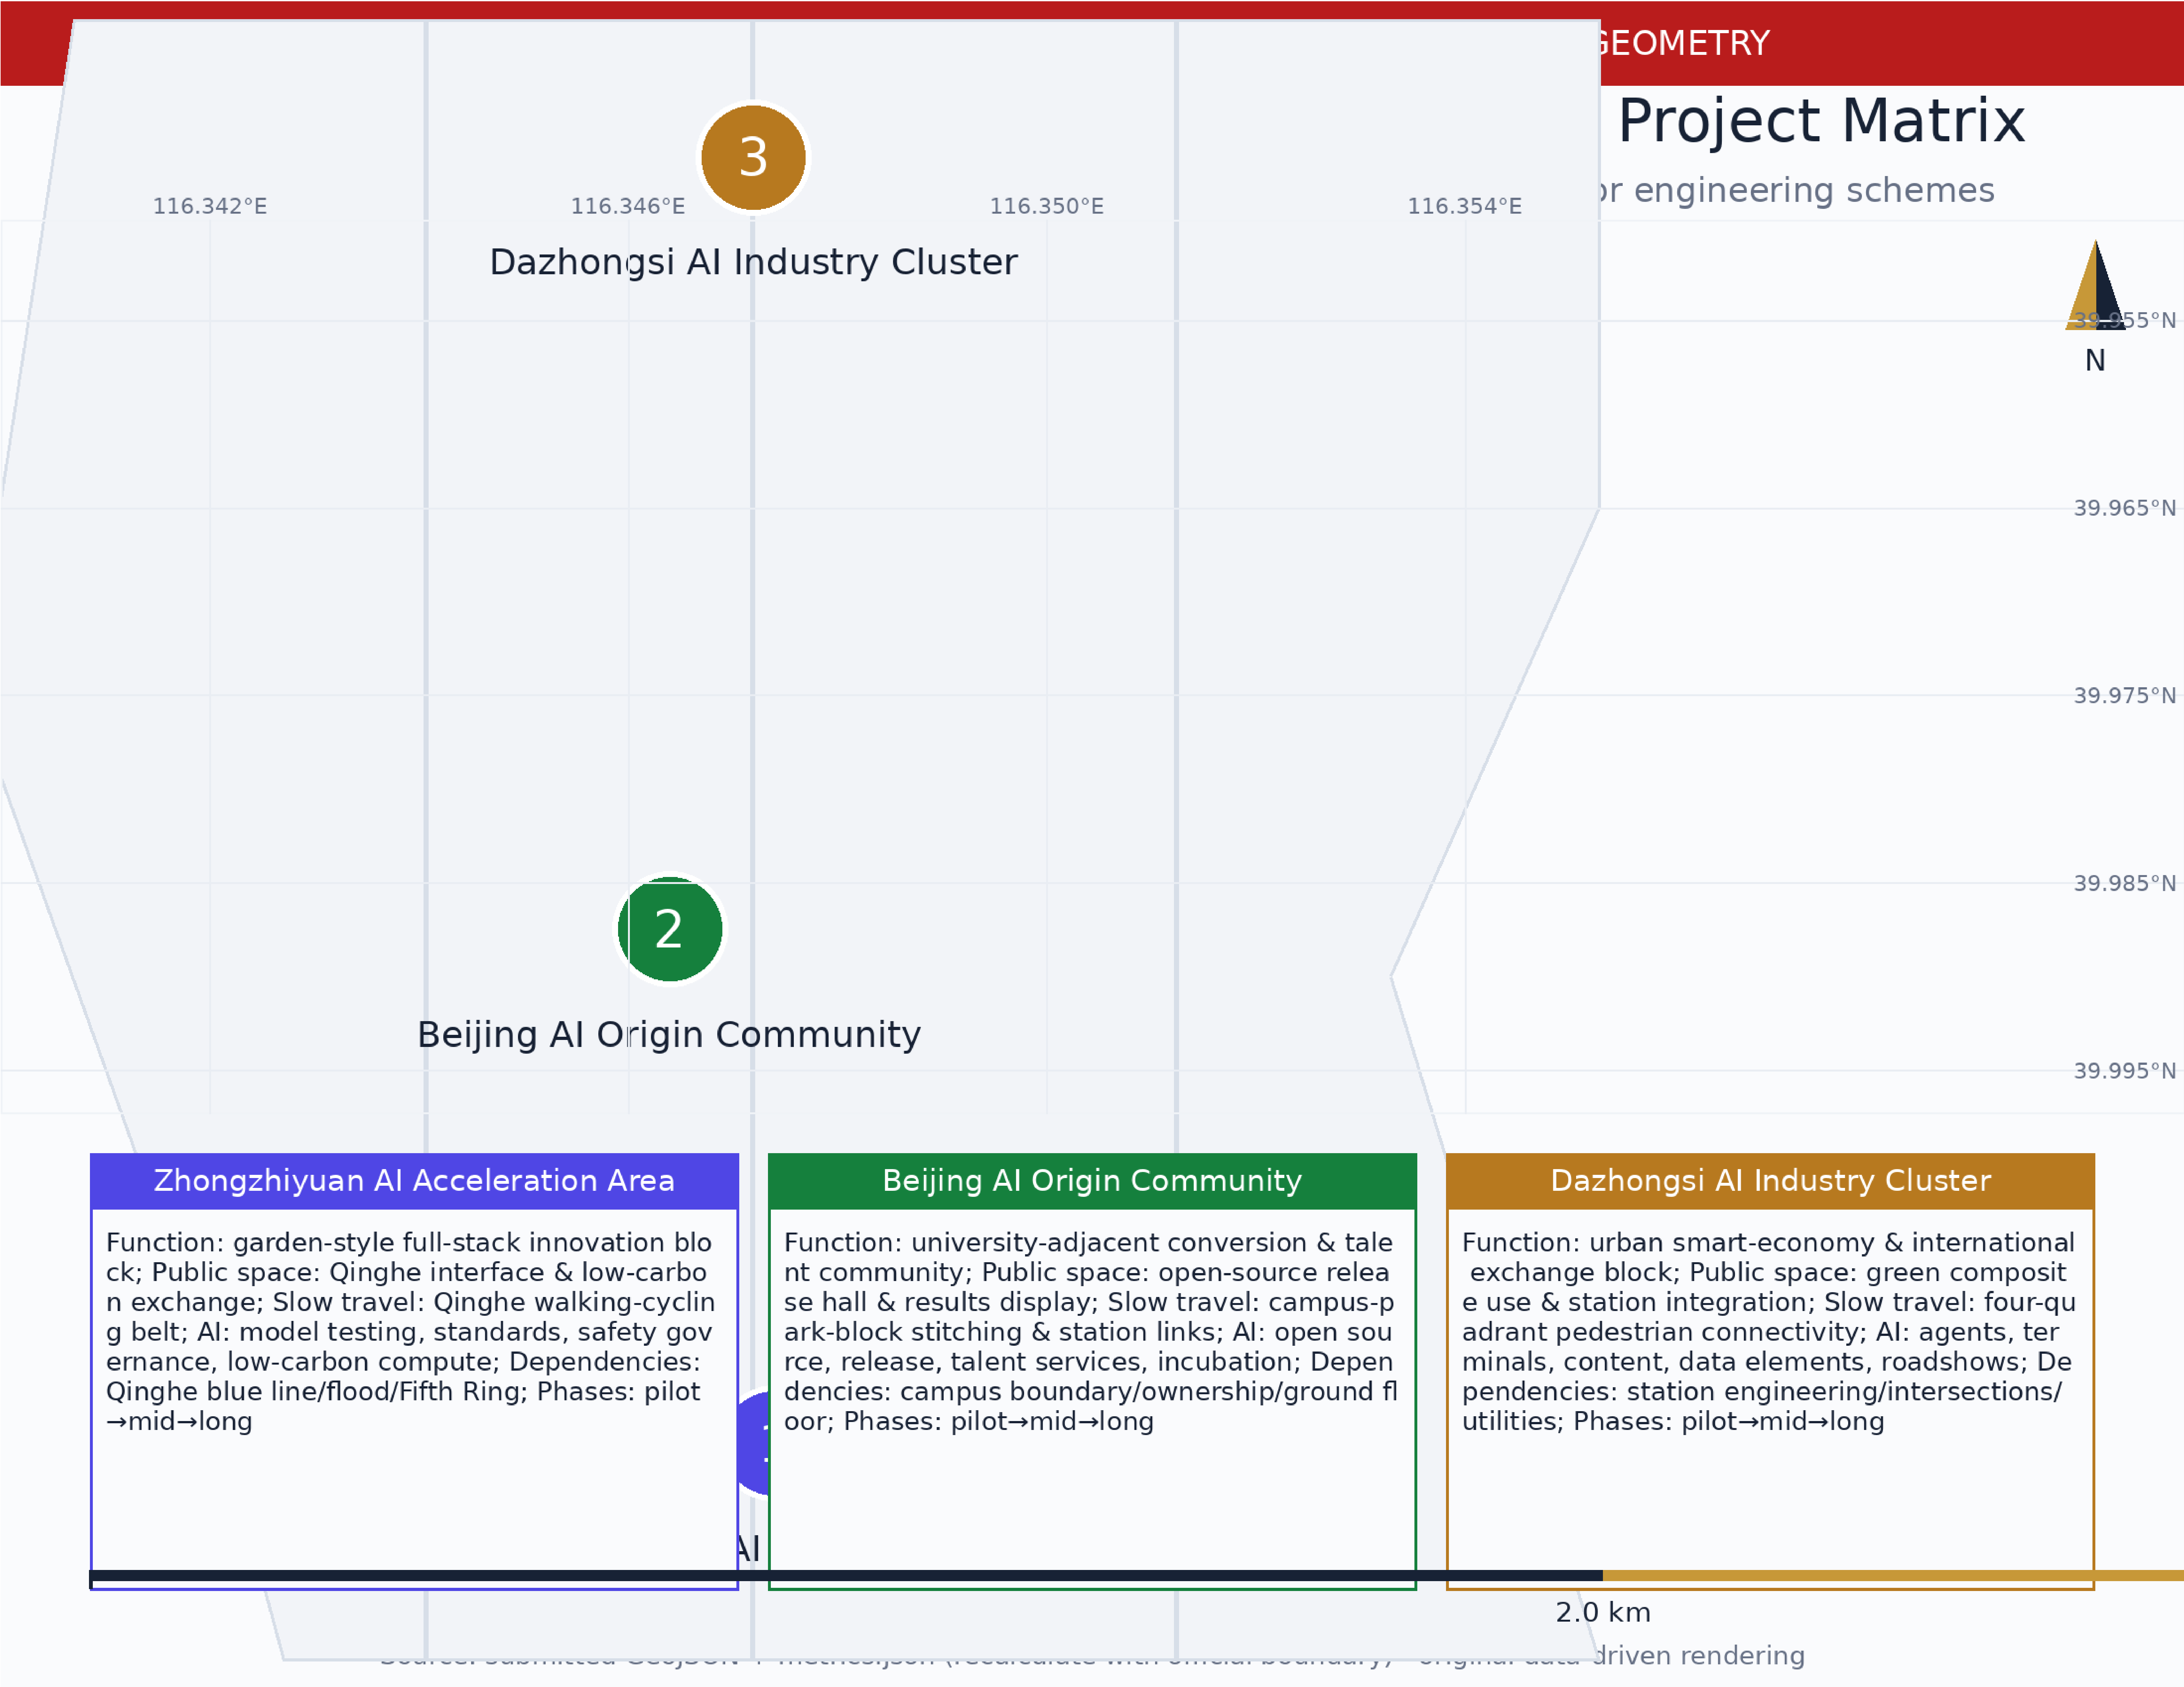

B2 Land Use Structure

Three-level scope and land use classification (MNR guide, provisional estimate)

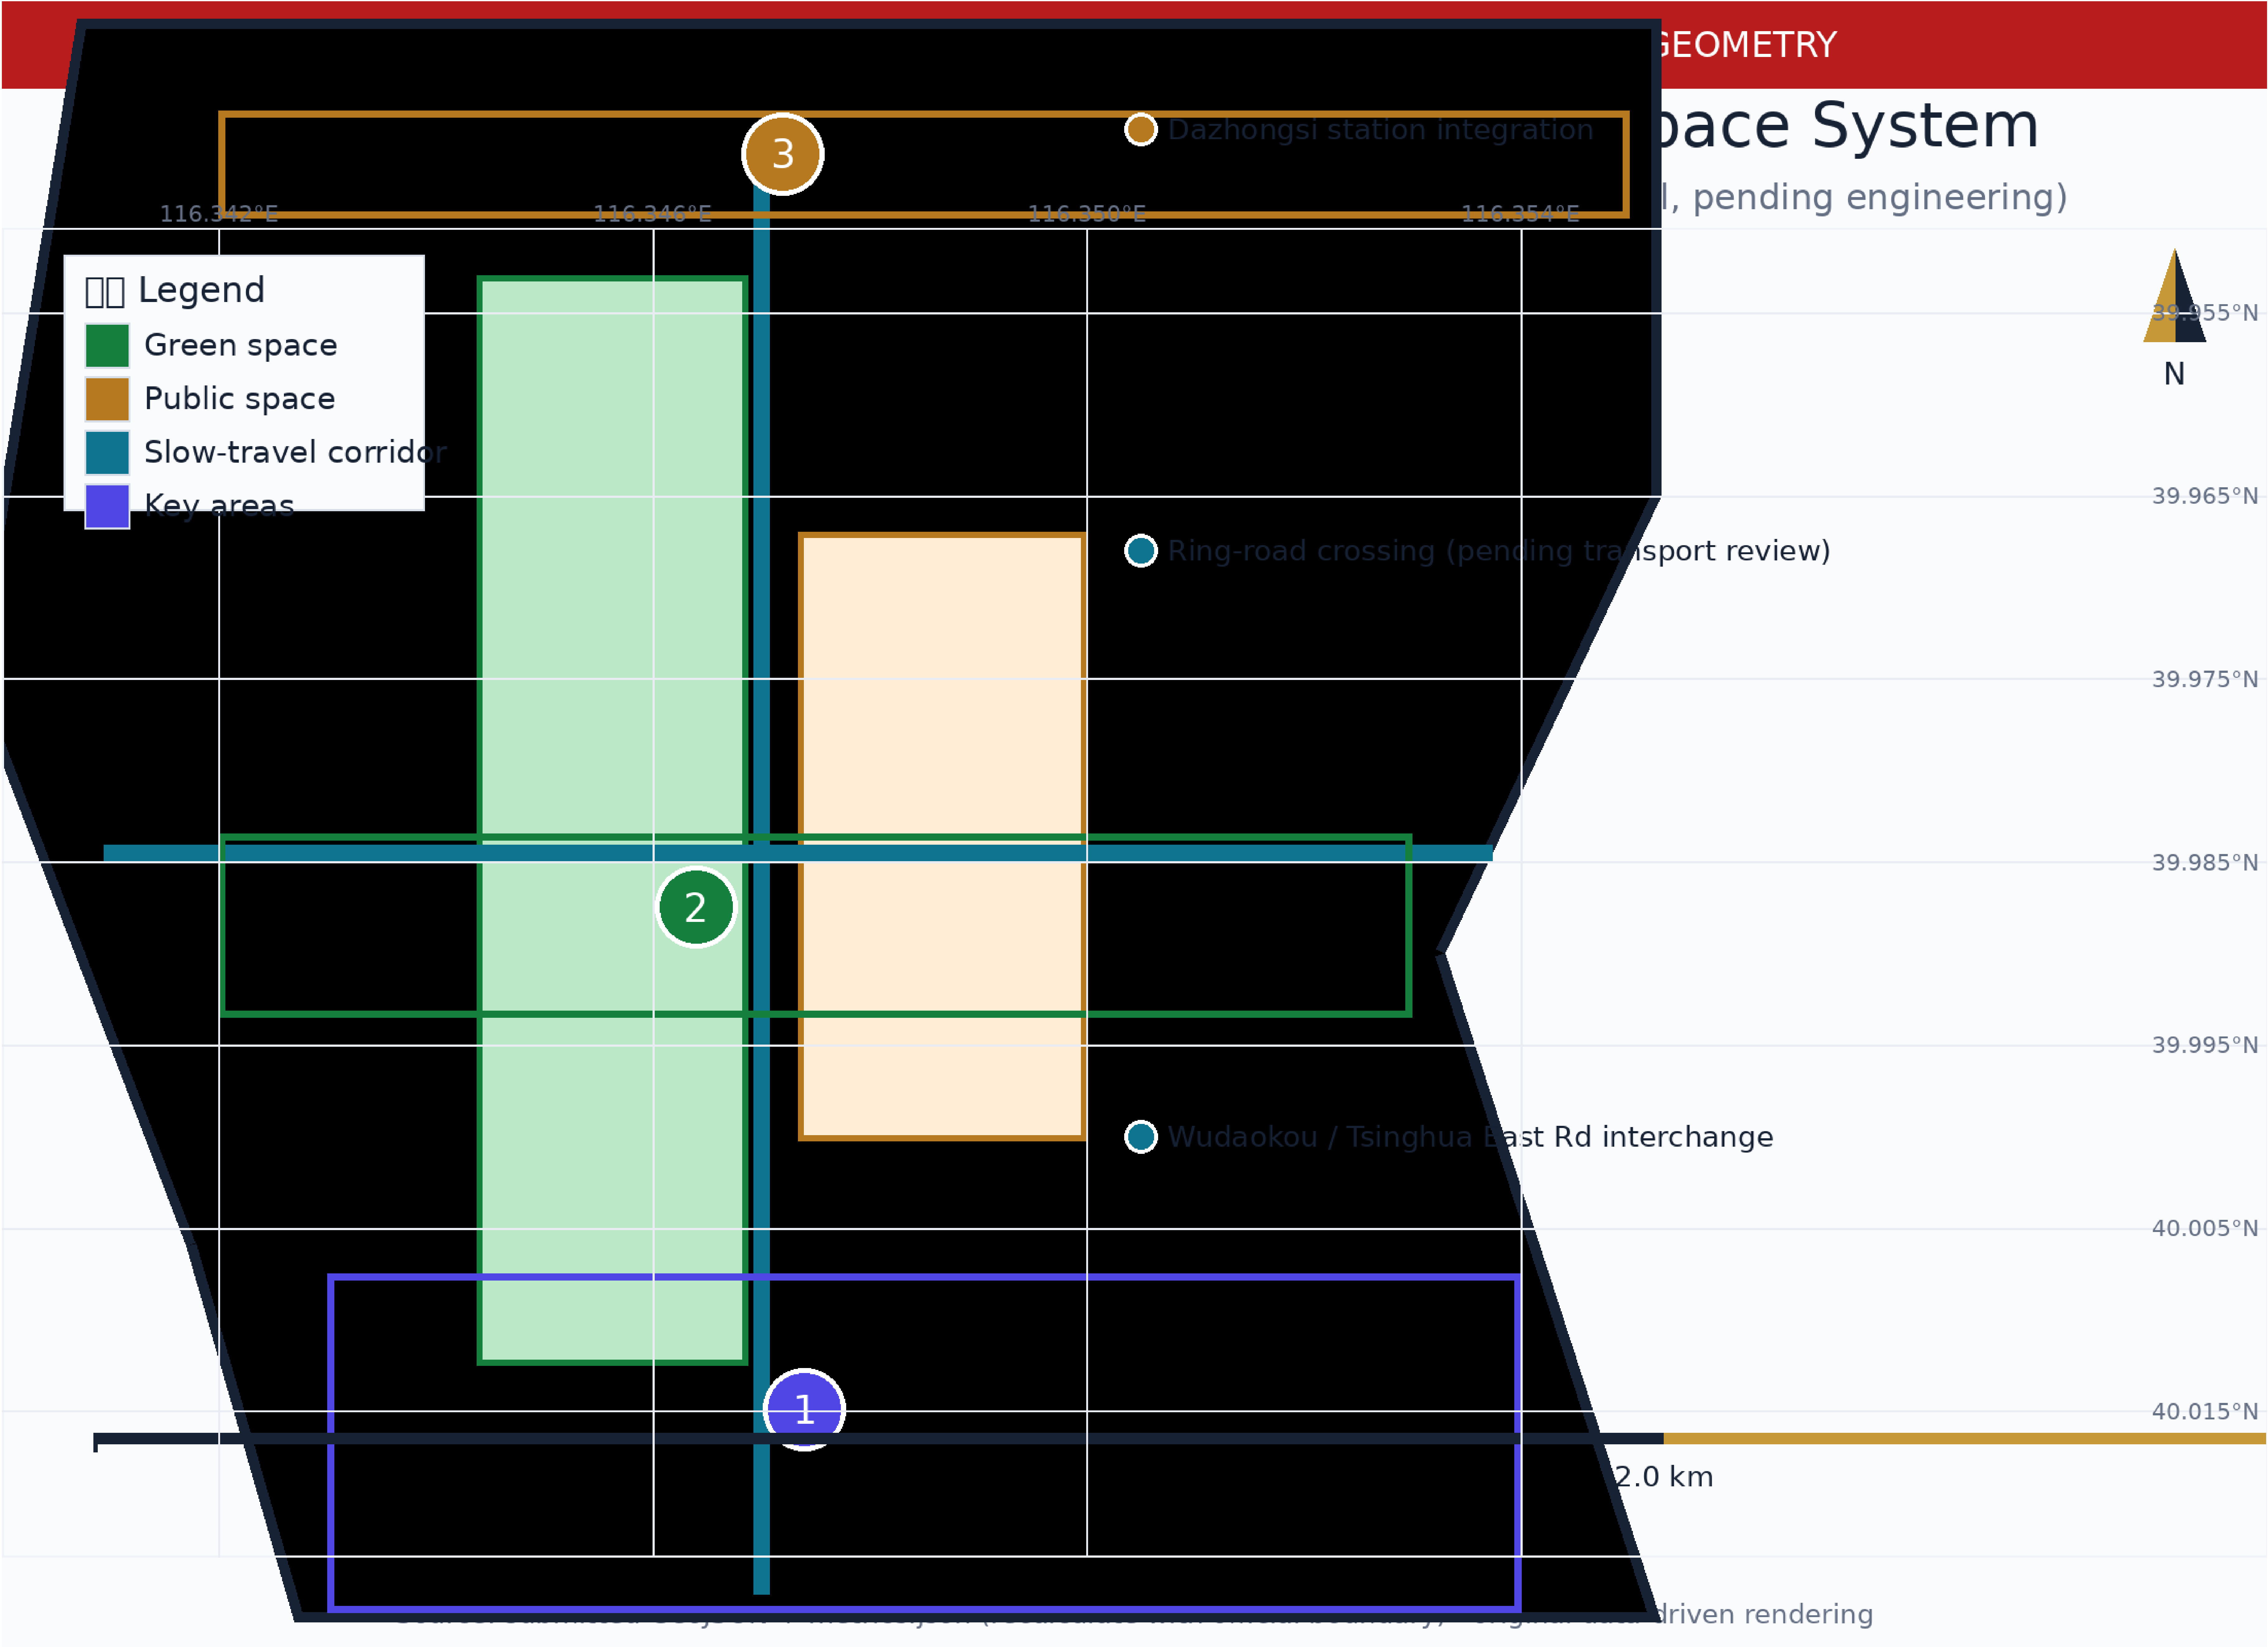

B3 Key Areas

Conceptual spatial design and project matrix for three key areas (not redlines)

B4 Mobility and Blue-Green

Rail interchange · slow-travel gap stitching · blue-green loop (conceptual)

B5 Core Metrics

Metrics recalculation and evidence chain (provisional estimate; recalculate with official boundary)

PROVISIONAL BOUNDARY · ESTIMATE · RECALCULATE WITH OFFICIAL GEOMETRY

Core Metrics Recalculation and Evidence Chain

All geometry-derived metrics are provisional estimates · recalculate with official boundary

Metric	Value	Unit	Display	Confidence	Status	Formula
site_area_sqm	11412825	m²	≈11.4 km²	low	provisional	polygon_area(site) → EPSG:4548
green_space_area_sqm	1408601	m²	≈1.41 km²	low	provisional	sum(green_space)
public_space_area_sqm	836346	m²	≈0.84 km²	low	provisional	sum(public_space)
building_footprint_area_sqm	557426	m²	≈0.56 km²	low	provisional	sum(buildings)
green_ratio	0.1234	ratio	≈12.3%	low	provisional	green / site
public_space_ratio	0.0733	ratio	≈7.3%	low	provisional	public / site
key_area_count	3	count	3	medium	geometry	count(key_areas)
floor_area_ratio	—	ratio	unknown	unknown	pending	official FAR not published

1provisional PROV-SITE-001 / PROV-KEY-001..003official_boundary=false

Note 1: provisional metrics are computed from the provisional boundary and are for discussion only.

2polygon

Note 2: when official polygons are published, all metrics, figures, and metric cards must be recalculated and regenerated.

3floor_area_ratio status=unknown

Note 3: regulatory metrics such as floor_area_ratio are status=unknown pending official annexes.

B6 AI Innovation Ecosystem Map

Sourcing—open source—conversion—experience—communication and eight support mechanisms (conceptual)

PROVISIONAL BOUNDARY · ESTIMATE · RECALCULATE WITH OFFICIAL GEOMETRY

AI Innovation Ecosystem Map

University sourcing — Open source — Enterprise conversion — Public experience — International communication (conceptual)

Support mechanisms: Land · Space · Industry · Capital · Talent · Compute · Data · Scenario
