

Centennial Jing-Zhang AI Belt - A0 Boards

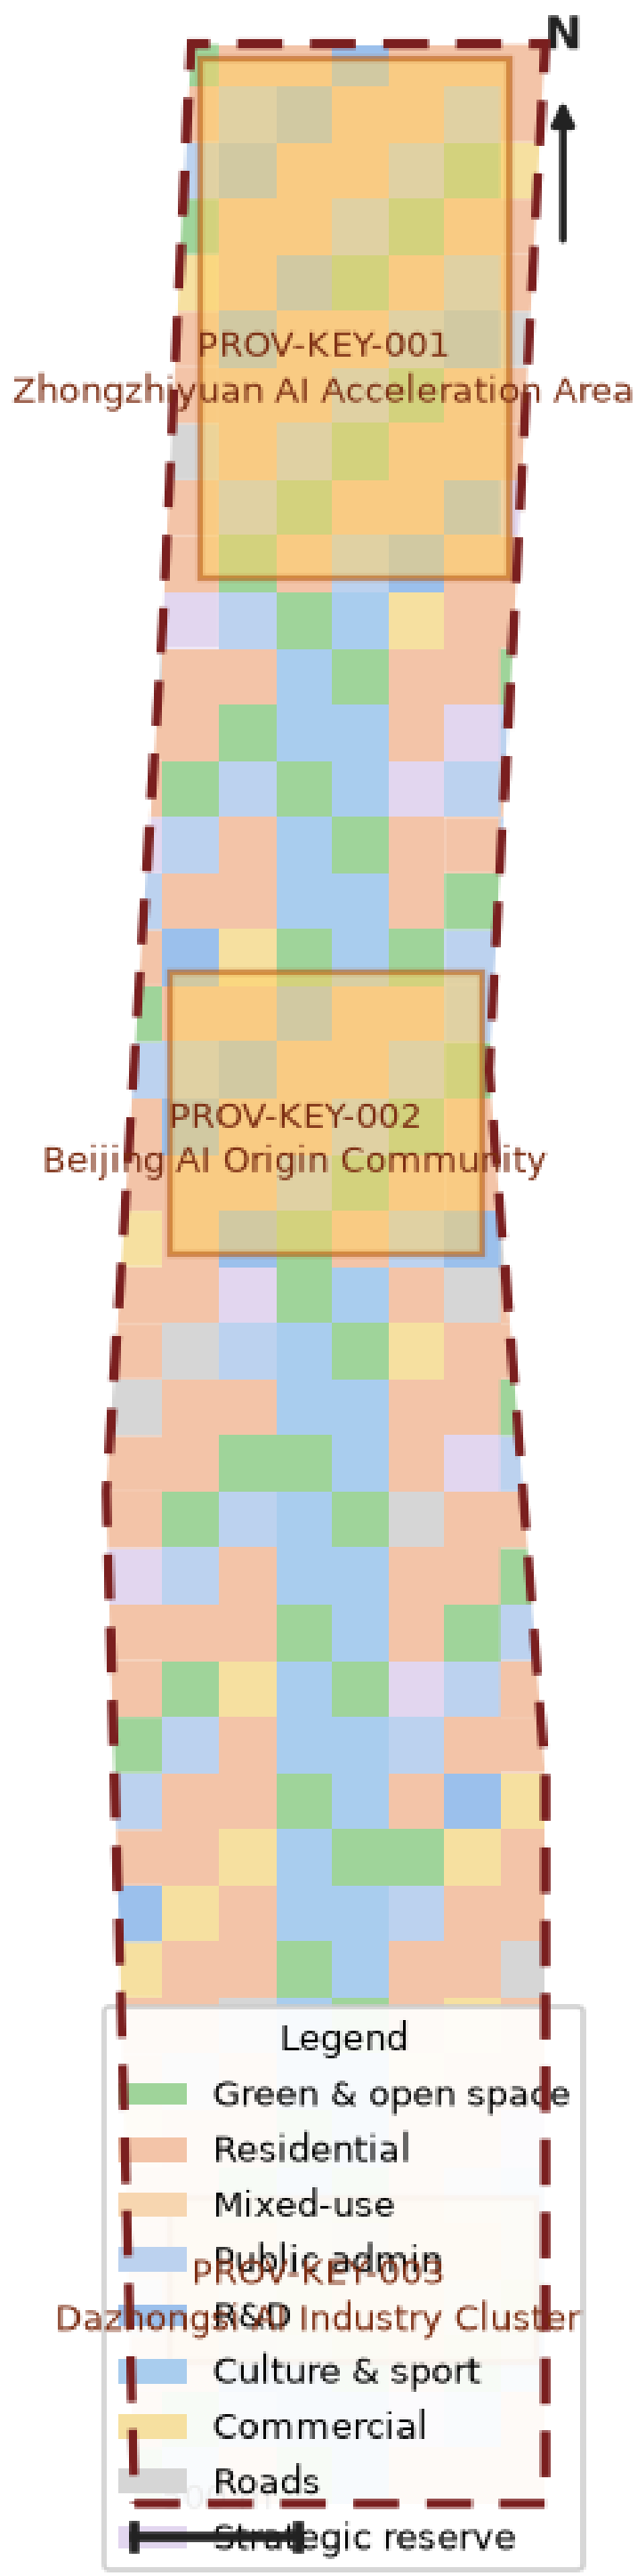

From Railway Heritage to an AI-Native Living Corridor - formal design package

Site Overview

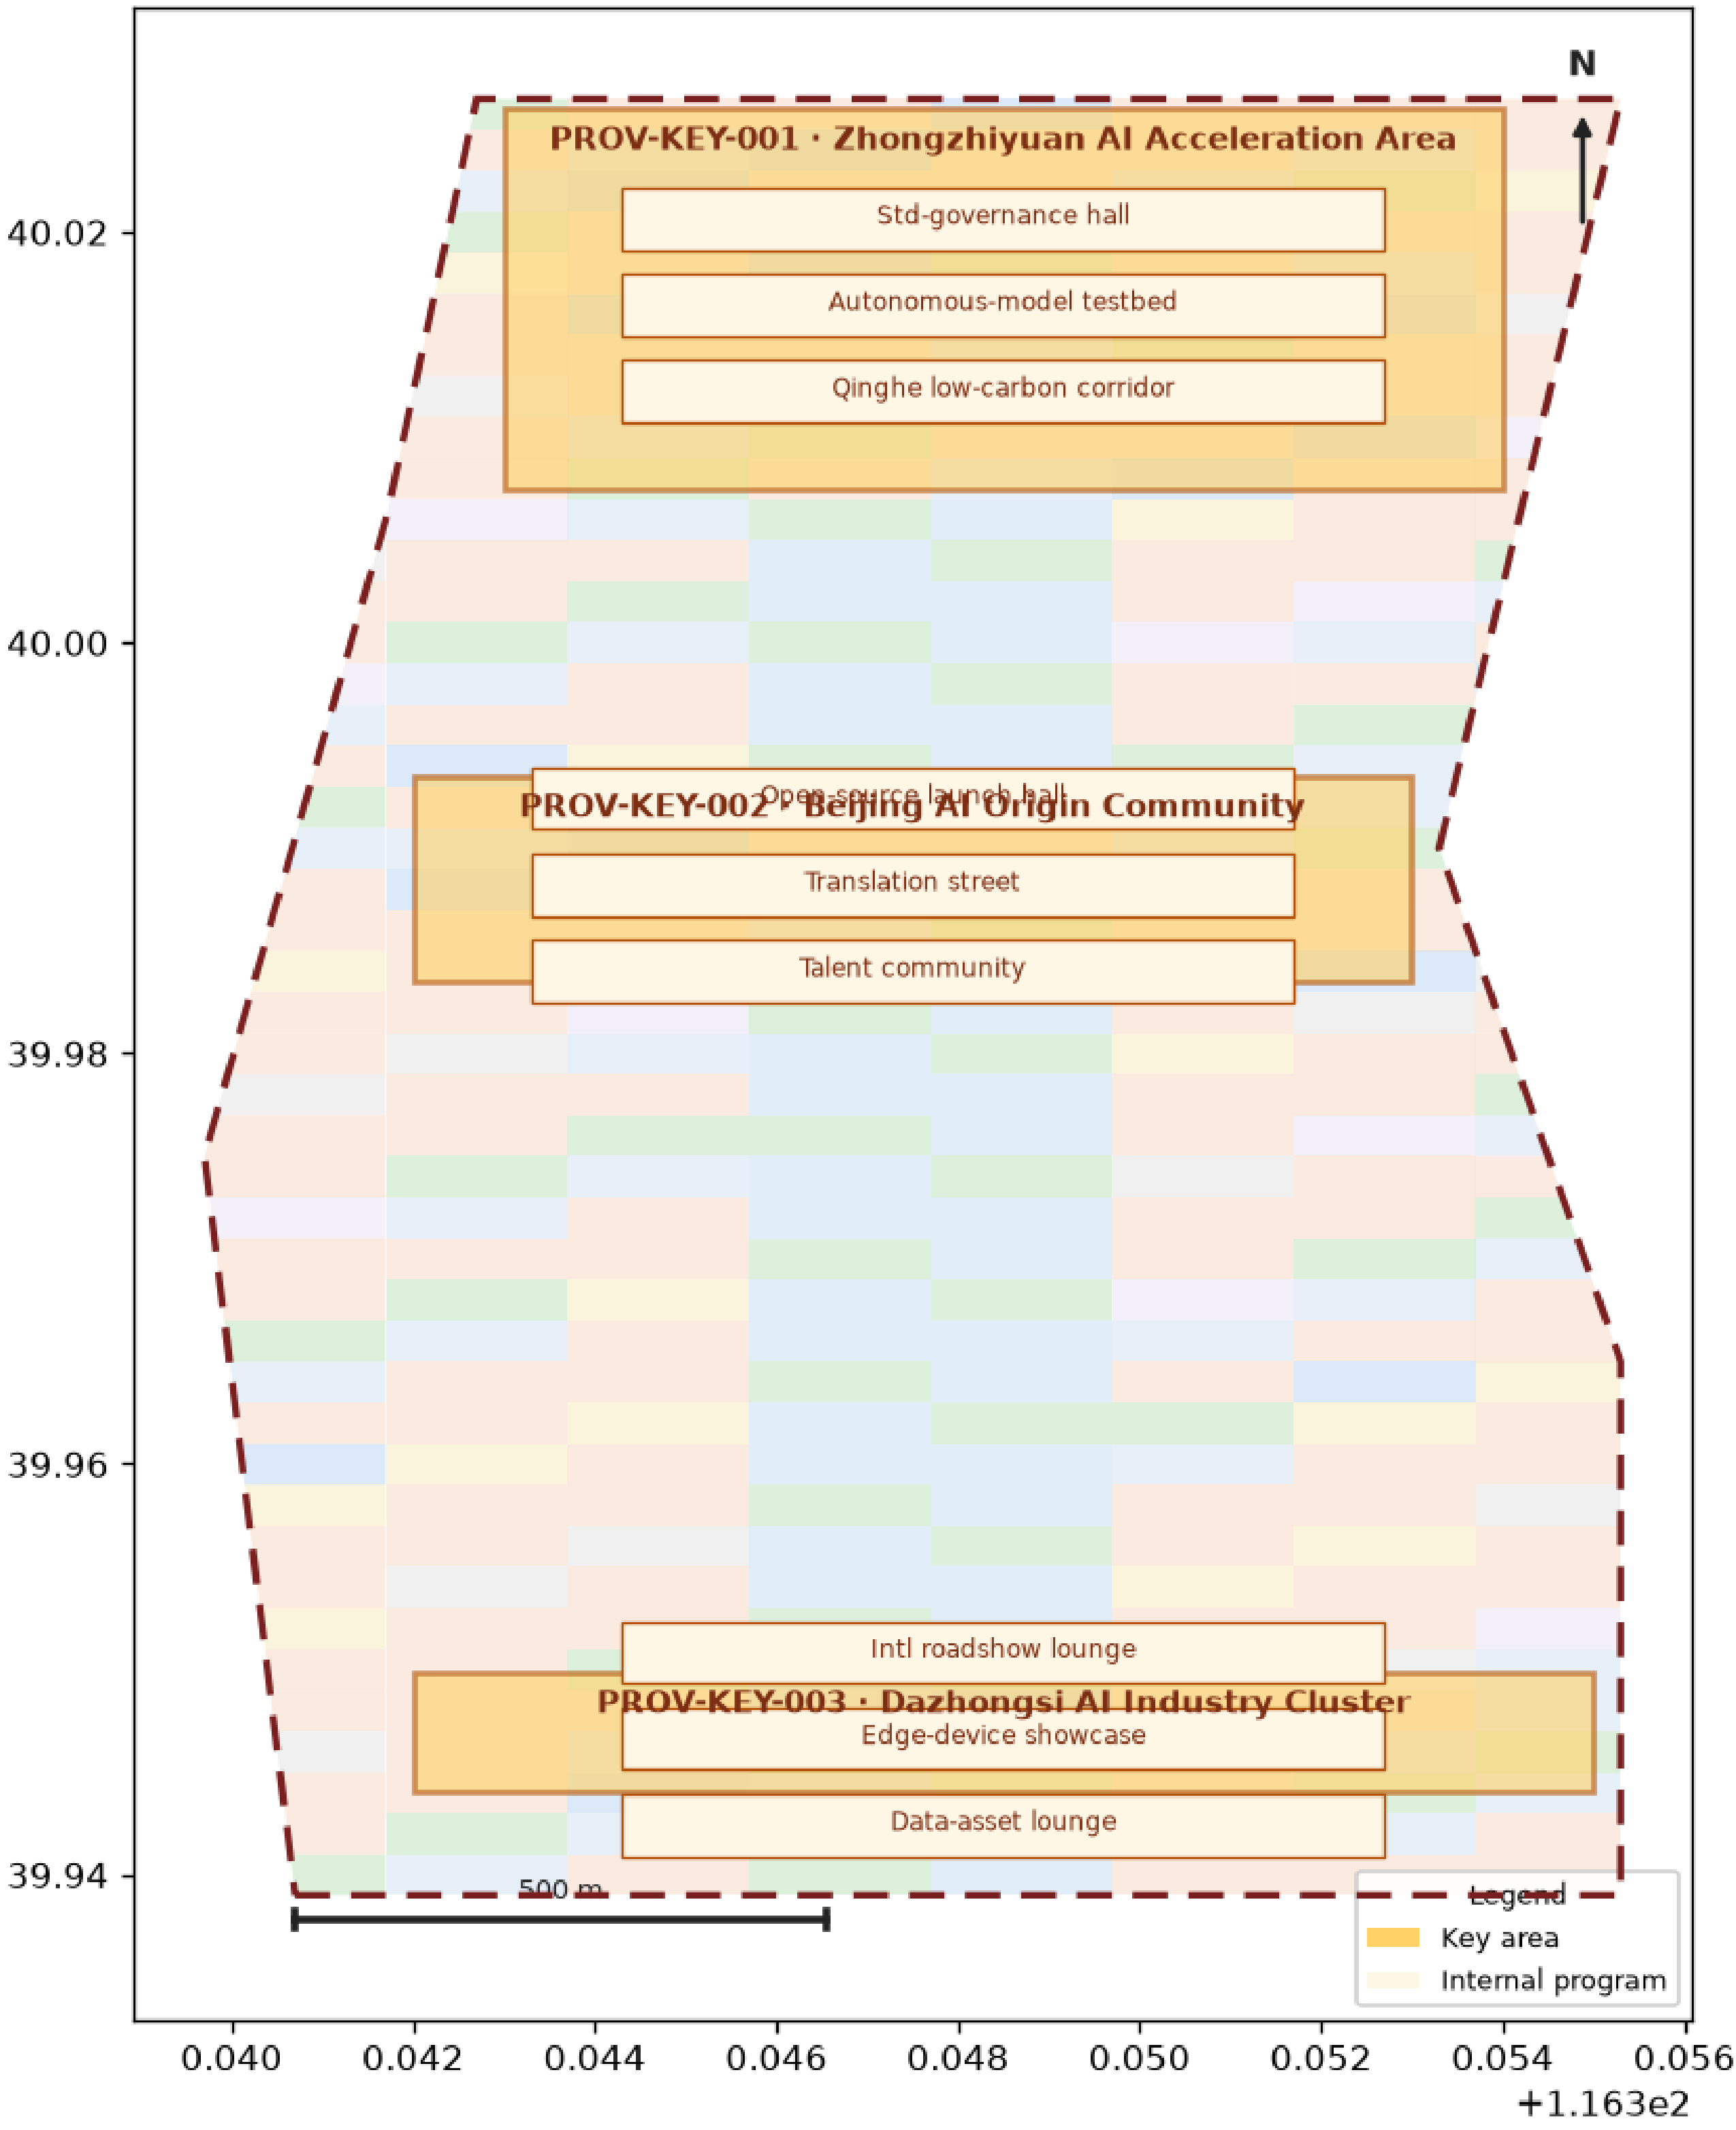

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

Land-Use Structure

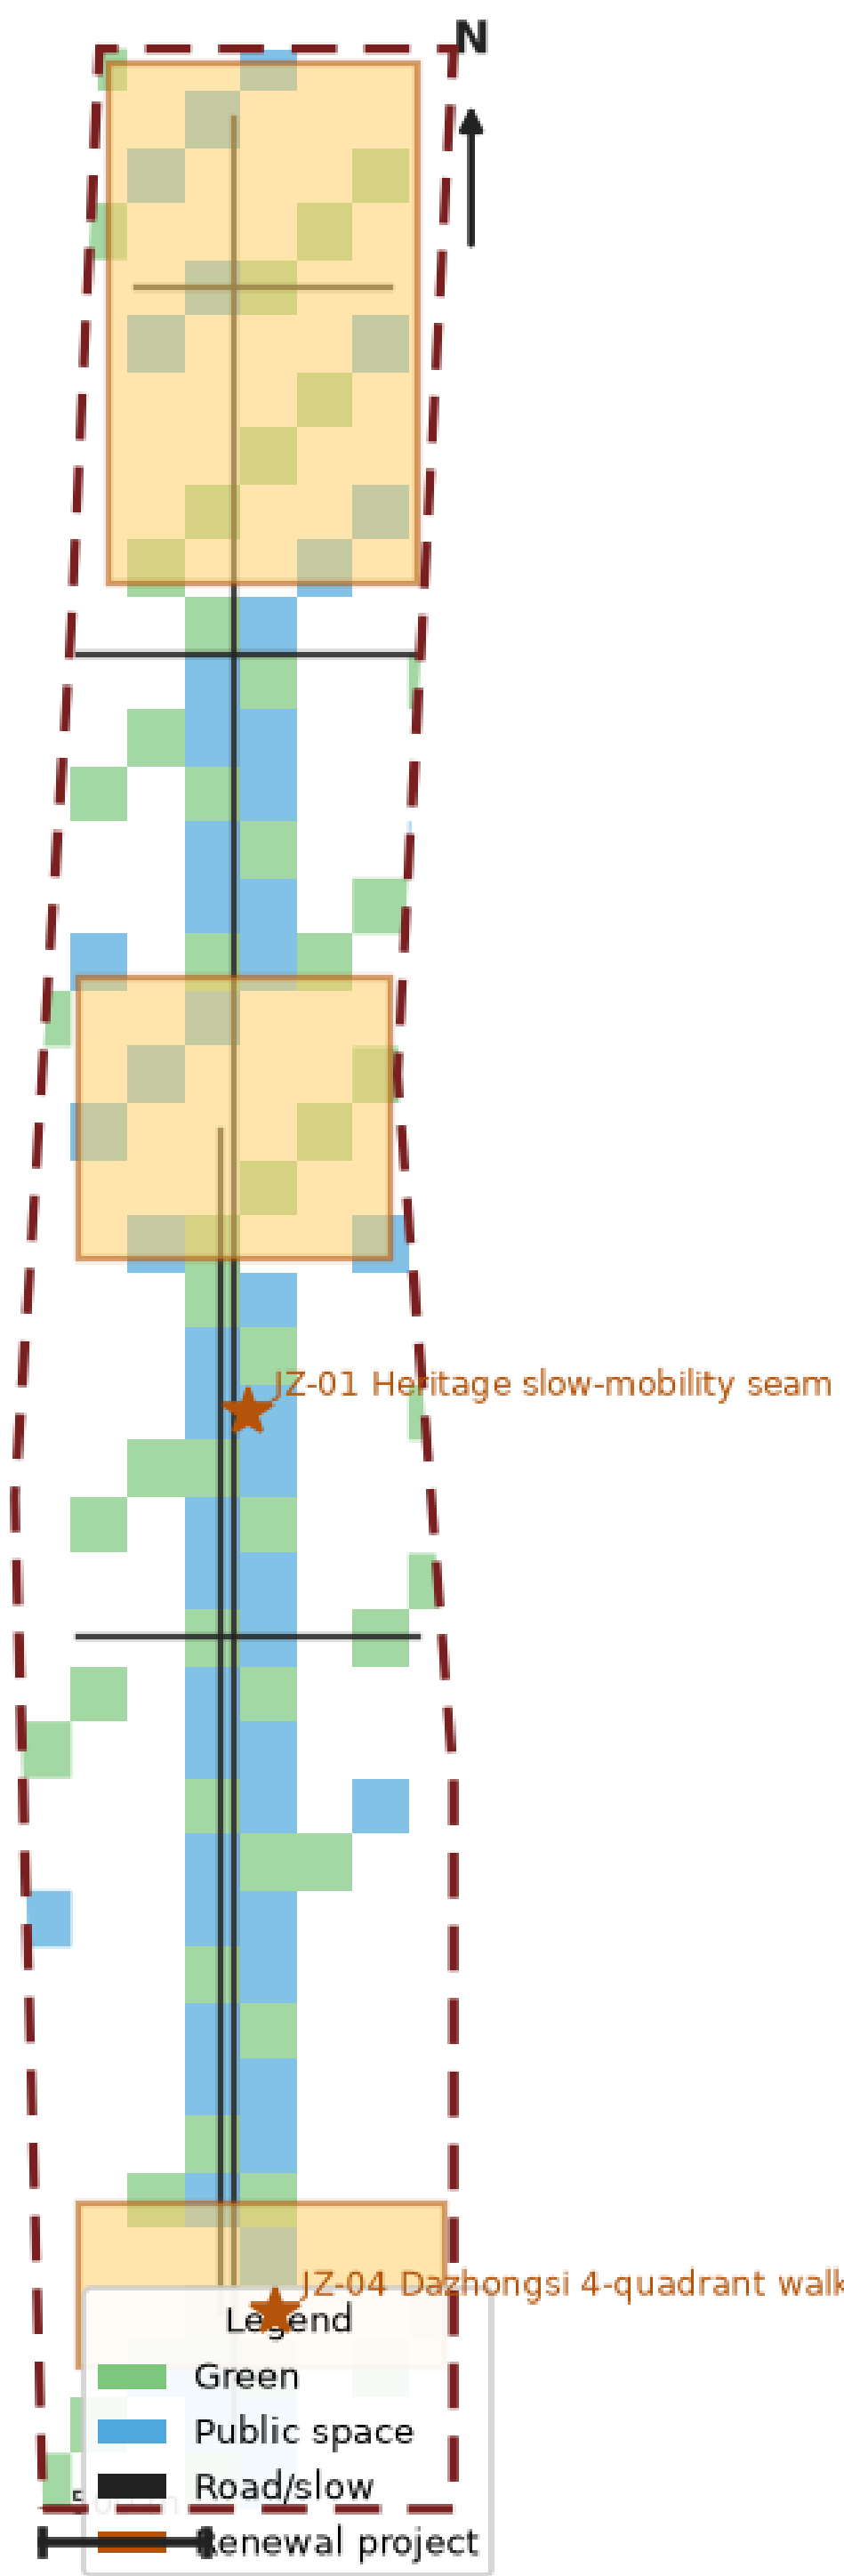

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

Three Key Areas - Detailed Design

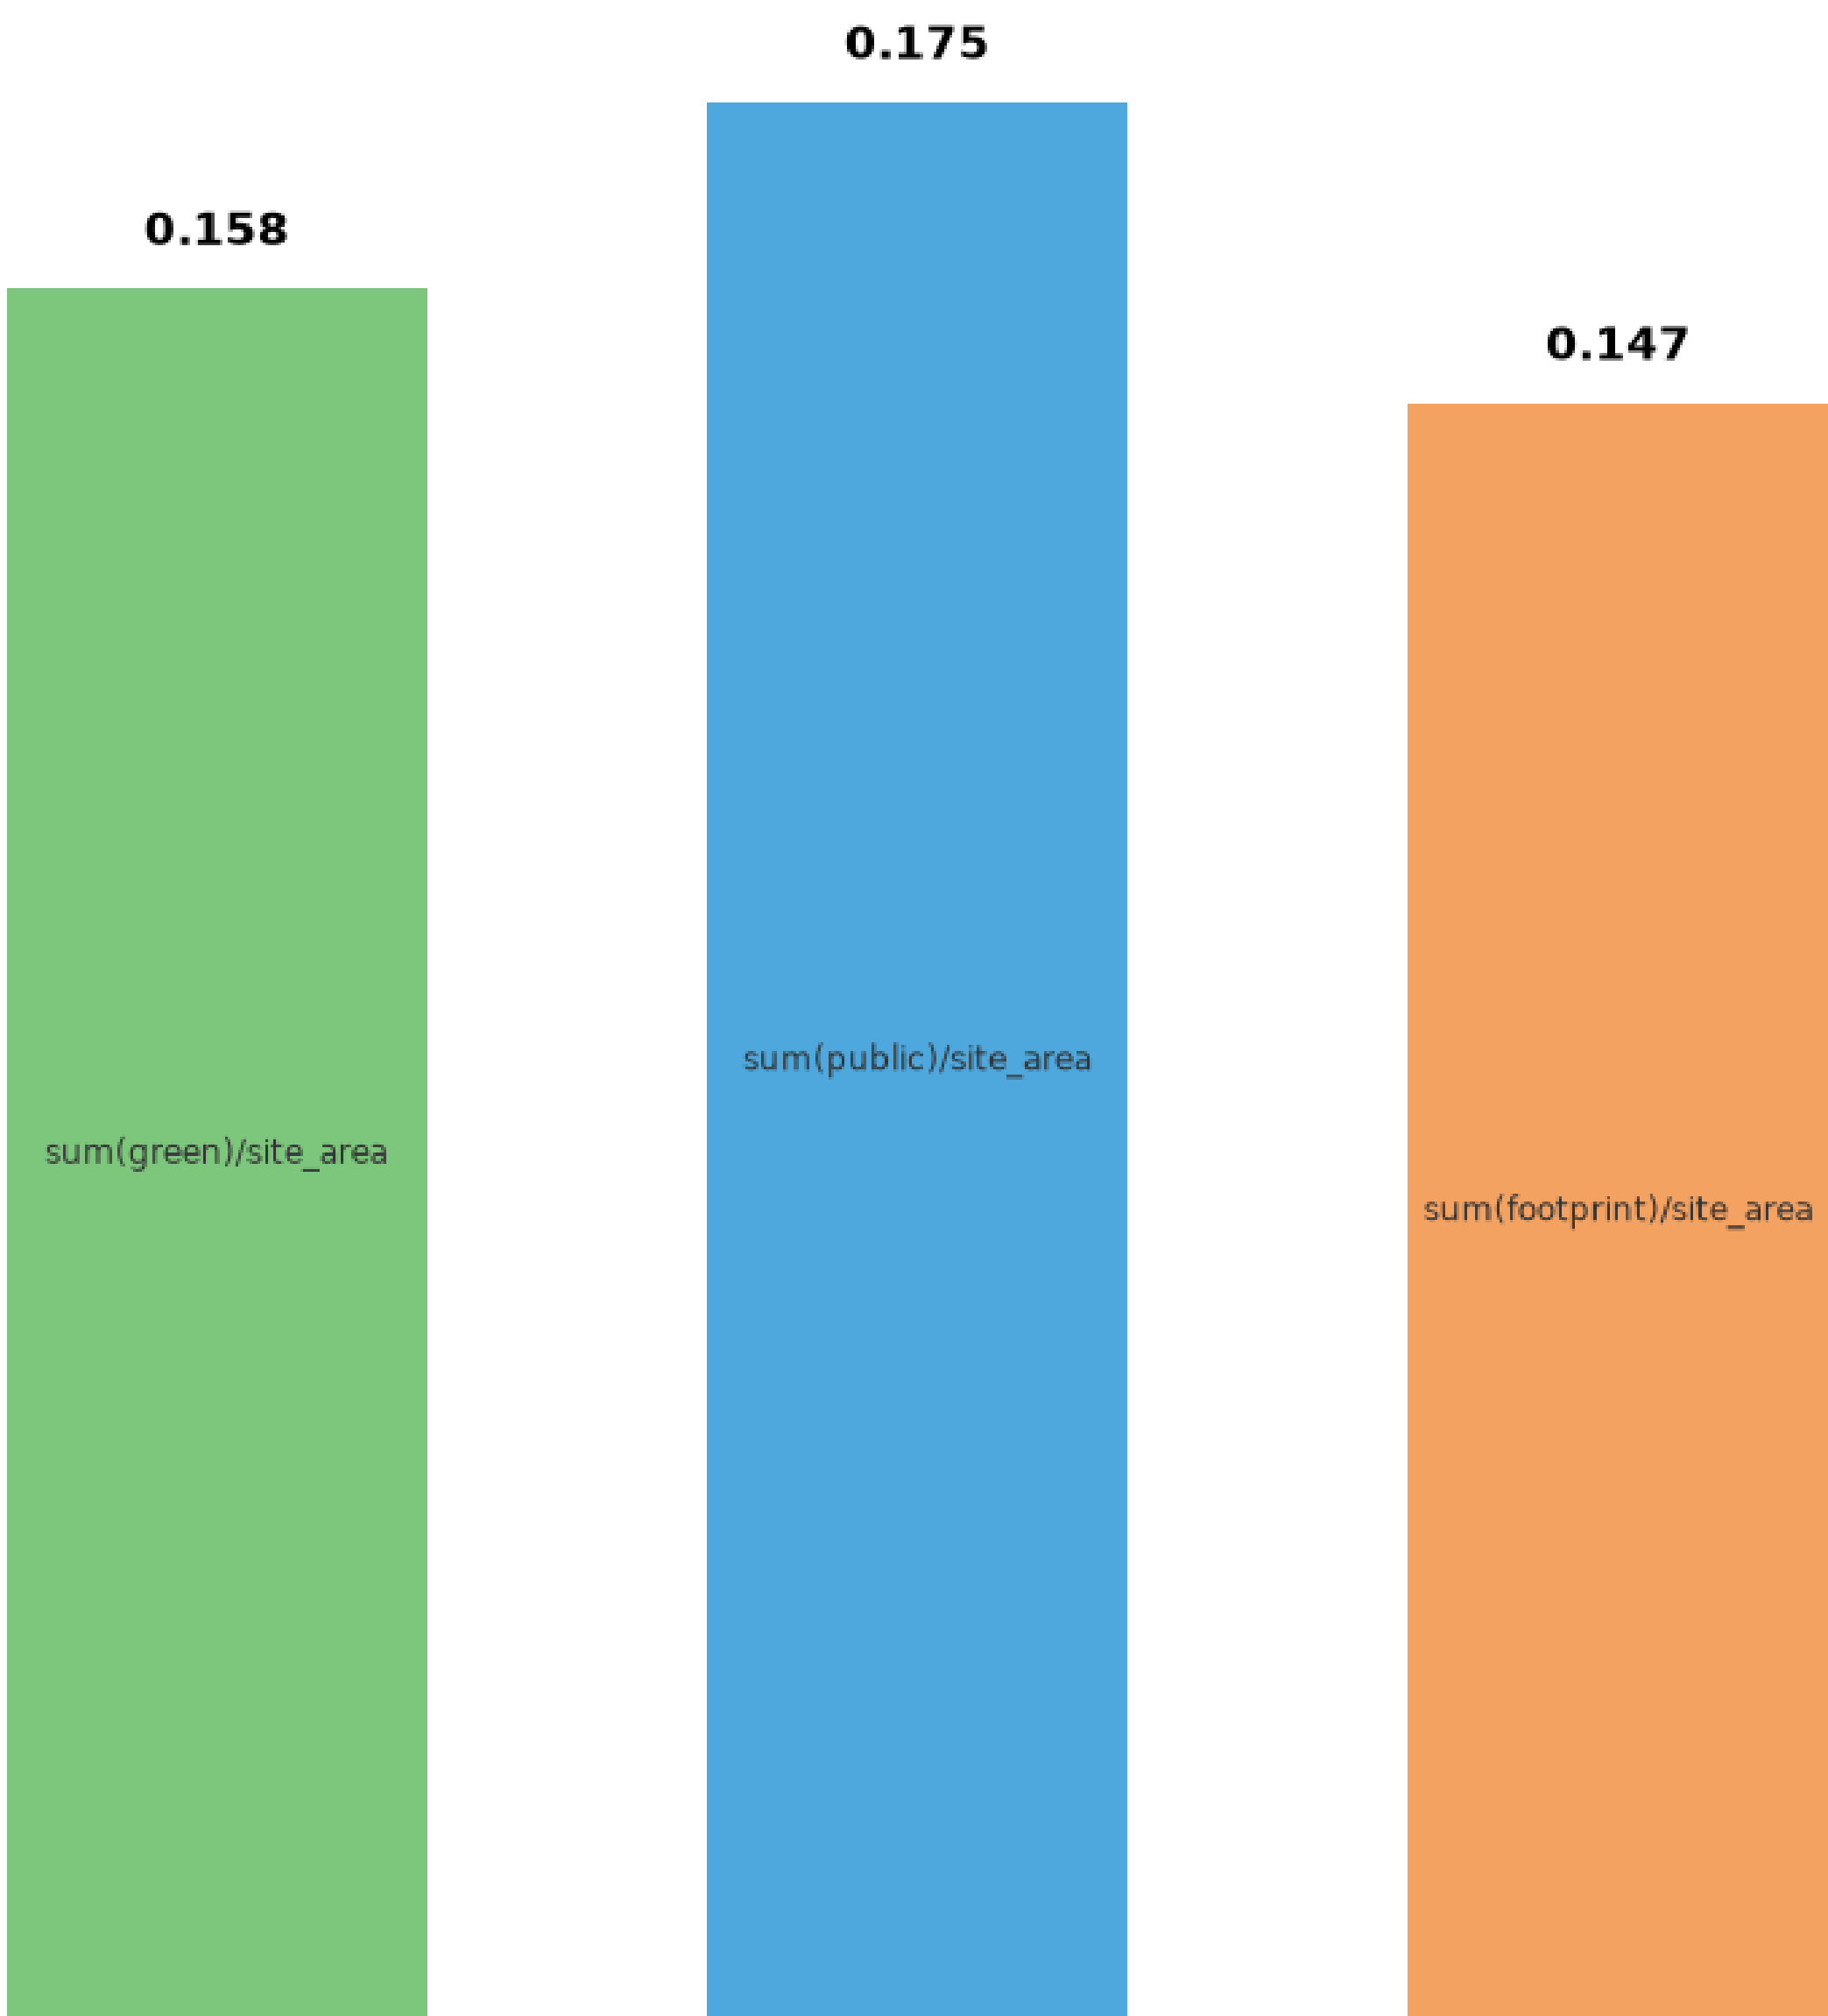

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

Blue-Green Space & Mobility

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

Key Metrics Evidence

Site area = 11.41 km2 (provisional)
Green=0.158 Public-space=0.175 Building footprint=0.147
Formula: ratio = sum(layer_area) / site_area (EPSG:4548)
Source: geometry/green_space.geojson, public_space.geojson, buildings.geojson, site_boundary.geojson#PROV-SITE-001
